Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Bellamy led City Council in the Pledge of Allegiance.

INVOCATION

Vice-Mayor Manheimer gave the invocation.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

At the request of Mayor Bellamy, Consent Agenda Item "P" (Resolution to add a worksession on September 10, 2013) was added to the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 13, 2013

B. RESOLUTION NO. 13-176 - RESOLUTION TO ACCEPT FOREST LAKE DRIVE, MEADOW LAKE ROAD, SAWMILL ROAD, SIMPSON HOLLOW ROAD, GOLD FINCH LANE, GLENWOODS COURT AND KINGBIRD LANE, IN THE FOREST LAKE SUBDIVISION, AS CITY-MAINTAINED STREETS

Summary: The consideration of a resolution to accept Forest Lake Drive, Meadow Lake Road, Sawmill Road, Simpson Hollow Road, Gold Finch Lane, Glenwoods Court, and Kingbird Lane, located in the Forest Lake Subdivision, as city-maintained streets.

Typically, state-maintained streets that are entirely within the city and are classified as local type streets make good candidates to become city-maintained streets. Local type streets primarily provide access to property and many of these types of streets are found in residential communities.

Ordinance # 7-15-1(e)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. The Forest Lake area was annexed into the City with an effective date of June 30, 2003.

- SR 3320 (Forest Lake Drive) from Rock Hill Road to Forest Lake Drive is a state-maintained street that has an average width of 20 width, a length of 0.88 mile, and a right-of-way width of 50 feet.

- SR 3321 (Meadow Lake Road) from SR 3320 (Forest Lake Drive) to its dead-end is a state-maintained street that has an average width of 20 feet, a length of 0.19 mile, and a right-of-way width of 50 feet.

2

- SR 3322 (Sawmill Road) from SR 3320 (Forest Lake Drive) to its dead-end is a state-maintained street that has an average width of 20 feet, a length of 0.06 mile, and a right-of-way width of 50 feet.

- SR 3328 (Simpson Hollow Road) from SR 3320 (Forest Lake Drive) to its dead-end is a state-maintained street that has an average width of 20 feet, a length of 0.14 mile, and a right-of-way width of 50 feet.

- SR 3334 (Gold Finch Lane) from SR 3320 (Forest Lake Drive) to its dead-end is a state-maintained street that has an average width of 20 feet, a length of 0.02 mile, and a right-of-way width of 50 feet.

- SR 3337 (Glenwoods Court) from SR 3320 (Forest Lake Drive) to its dead-end is a state-maintained street that has an average width of 20 feet, a length of 0.05 mile, and a right-of-way width of 50 feet.

- SR 3338 (Kingbird Lane) from SR 3320 (Forest Lake Drive) to its dead-end is a state-maintained street that has an average width of 20 feet, a length of 0.05 mile, and a right-of-way width of 50 feet.

Transportation and Engineering Department staff and Public Works Department staff have inspected these streets and recommend their change of ownership from state-maintained streets to city-maintained streets.

Following City Council's approval of this resolution and approval by the N.C. Dept. of Transportation, the subject streets will be added to the official Powell Bill List.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accepts Forest Lake Drive, Meadow Lake Road, Sawmill Road, Simpson Hollow Road, Gold Finch Lane, Glenwoods Court, and Kingbird Lane as city-maintained streets.

RESOLUTION BOOK NO. 35 - PAGE 406

C. RESOLUTION NO. 13-177 - RESOLUTION DECLARING THE INTENT OF THE CITY TO REIMBURSE ITSELF FOR EXPENDITURES INCURRED IN CONNECTION WITH THE ACQUISITION, CONSTRUCTION AND IMPROVEMENT OF VARIOUS CAPITAL PROJECTS AND THE ACQUISITION OF VEHICLES AND EQUIPMENT FROM THE PROCEEDS OF AN INSTALLMENT FINANCING CONTRACT TO BE EXECUTED AND DELIVERED IN FISCAL YEAR 2014

Summary: The consideration of a resolution declaring the intent of the City to reimburse itself for expenditures incurred in connection with the acquisition, construction and improvement of various capital projects and the acquisition of vehicles and equipment from the proceeds of an Installment Financing Contract to be executed and delivered in FY 2014.

The City of Asheville plans to issue debt in FY 2014 to fund Council approved capital projects and equipment authorized as part of the FY 2014 budget. These projects include the construction and improvement of various streets, sidewalks, and other City infrastructure and facilities; along with the purchase of vehicles and equipment. The City reasonably expects the maximum principal amount necessary to fund these projects to not exceed $19,000,000.

The purpose of the Reimbursement Resolution is to provide the City with the ability to move

forward with the projects and reimburse its accounts upon the issuance of the debt. The Resolution does not specifically authorize the issuance of the debt. Those resolutions will be drafted in connection with the debt issuance in early 2014. Additionally, as a number of the projects, vehicles and equipment are bid, the actual size of the new money financing can be further refined.

Pro:

- Enables the City to begin spending money on the Council's approved capital projects, vehicles and equipment that were to be financed from debt proceeds.

Con:

- Lost opportunity to earn interest (although at very low interest rates in the range of 1/10 of 1% to 1/4 of 1%) on the City's unrestricted cash and investments which are temporarily diverted to pay for the capital projects pending reimbursement from the debt issuance.

The Reimbursement Resolution will result in some minimal loss of interest income. Bidding and proceeding with the authorized capital projects may result in better pricing thus lower the actual amount of the debt financing. The repayment of the debt issuance is incorporated in the debt management plan.

Staff recommends City Council adopt the FY 2013-14 Resolution.

RESOLUTION BOOK NO. 35 - PAGE 415

D. RESOLUTION NO. 13-178 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY TO SHARE THE COSTS FOR A COMPOSTING FEASIBILITY STUDY

Summary: The consideration of a resolution authorizing the City Manager to enter into a financial agreement with Buncombe County to share the costs for a Composting Feasibility Study.

In order to work towards Council's strategic goal of reducing community wide solid waste staff is pursuing a multi-dimensional strategy over time. In 2012, the primary strategy was to make curbside recycling service easier for customers by increasing the size of the recycling container and eliminating the need to sort materials. This effort successfully resulted in a 6.4% reduction of waste going into the landfill. In 2013, the City will install recycling containers on sidewalks throughout downtown, Haywood Rd, and Biltmore Village to provide a user friendly opportunity to recycle for pedestrians. Looking forward, staff recommends assessing the feasibility of a curbside compost collection service that would compliment garbage and recycling collection. To conduct the feasibility study staff will partner with Buncombe County to assess a variety of composting components to include: composting facility locations, composting technology, service collection design, and financial feasibility. The City will share the costs of this study with the County.

The cost of the study will not exceed $50,000. Funding for the study will come from the approved Fiscal Year 2013-14 Public Works' Recycling budget.

City staff recommends Council approve a resolution authorizing the City Manager to enter into a financial agreement with Buncombe County to share the costs for a Composting Feasibility Study.

Councilman Smith noted that this action will also work towards Council's strategic goal of reducing community wide solid waste. This is an element of the City of Asheville Food Action Plan.

RESOLUTION BOOK NO. 35 - PAGE 417

E. RESOLUTION NO. 13-179 - RESOLUTION AMENDING RESOLUTION NO. 13-146 REGARDING APPOINTMENT OF THE CIVIL SERVICE BOARD CHAIR

Summary: The term of Marvin Rosen (an appointed member), expired in March, 2013; however, the Civil Service Board extended his term until the employee election in September, 2013. On June 25, 2013, City Council adopted Resolution No. 13-146 appointing: (1) Carolyn Worthington and Lynn Moffa as members to the Civil Service Board; and (2) Marvin Rosen as Chair to serve a full year, or until his successor is appointed by City Council. On July 12, 2013, Civil Service Board members expressed concern that City Council appointed Marvin Rosen to serve as Chair beyond his current term of office. It is the intent of Council in adopting this Resolution to clarify that in accordance with the provisions of the Civil Service Law, Marvin Rosen may not be reappointed as a member of the Civil Service Board, nor may his replacement be appointed by the Civil Service Board, until after the 2013 Employee Civil Service Board Elections. Therefore, (1) The terms of Carolyn Worthington and Lynn Moffa, are hereby restated to each serve a two-year term, terms to expire May 21, 2015, or until their successors have been appointed; and (2) Marvin Rosen, 6 Graystone Road, Asheville, N.C., be and he is hereby appointed (effective June 25, 2013) as Chair of the Civil Service Board to serve a one year term or until his successor is duly appointed by the City Council, whichever occurs first.

RESOLUTION BOOK NO. 35 - PAGE 418

F. RESOLUTION NO. 13-180 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH MICHAEL BAKER ENGINEERING INC. FOR THE INNSBROOK/MAPLEWOOD ROAD AND MOUNTAIN CREST/PATTON CEMETERY ROAD WATER LINE REPLACEMENTS PROJECT

ORDINANCE NO. 4222 - BUDGET AMENDMENT FOR THE INNSBROOK/MAPLEWOOD ROAD AND MOUNTAIN CREST/PATTON CEMETERY ROAD WATER LINE REPLACEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a professional services agreement with Michael Baker Engineering, Inc., for engineering services in the amount of $180,000.00 for the Innsbrook / Maplewood Road and Mountain Crest / Patton Cemetery Road Water Line Replacements Project; and a budget amendment in the amount of $95,250.00 from combining the professional services budget from two capital projects into one.

The City of Asheville Water Resources Department has prioritized this Neighborhood Waterline Replacement Project for the current fiscal year and is seeking engineering design and project management assistance with these projects. This project will replace existing substandard and failing waterlines in favor of new waterlines, designed and constructed in accordance with the City of Asheville standards. The Water Resources Department issued a Request for Qualifications (RFQ) for Engineering Services related to the design and contract administration of the Innsbrook / Maplewood Road and Mountain Crest / Patton Cemetery Road Water Line Replacements Project. In response to the RFQ, the department received twelve (12) proposals. Companies responding were:

1. Brooks Engineering Associates - Asheville, NC
2. Brown Consultants, PA - Asheville, NC
3. GAI Consultants, Inc. - Charlotte, NC
4. Lamm Engineering Associates, PLLC – Raleigh, NC
5. Mattern & Craig, Inc. - Asheville, NC
6. McGill Associates - Asheville, NC
7. Michael Baker Engineering, Inc. - Asheville, NC
8. The Wooton Company - Raleigh, NC
9. Vaughn & Melton Consulting Engineers - Asheville, NC
10. Weston and Sampson - Charleston, SC
11. Willis Engineers - Charlotte, NC
12. W. K. Dickson & Co., Inc. - Charlotte, NC

A review team, comprised of staff from the City of Asheville Water Resources Department, reviewed these proposals and selected the firm Michael Baker Engineering, Inc. Subsequent to this

selection, Water Resources staff met with Michael Baker Engineering, Inc., and has negotiated an Engineering Services Contract in the amount of $180,000.00.

The Water Resources Department currently has $180,000.00 budgeted for professional services for the overall project, but these funds are currently split into two separate capital projects and need to be combined into one. The budgets will be combined into the Innsbrook / Maplewood Roads WL Professional Services budget. In order to combine the professional services budgets, a budget amendment is necessary.

Amount in Innsbrook / Maplewood Roads WL Professional Services	$ 84,750.00
Amount in Mountain Crest / Patton Cemetery WL Prof. Services	$ 95,250.00
Total Amount Needed for Professional Services	$180,000.00

After the department accepts bids for the construction portion of the project and is ready to award the construction contract, the construction budgets in those projects will be combined as well. Staff will seek Council approval on combining those budgets.

City staff recommends City Council approval of the City Manager to execute a professional services agreement with Michael Baker Engineering, Inc., for engineering services in the amount of $180,000.00 for the Innsbrook / Maplewood Road and Mountain Crest / Patton Cemetery Road Water Line Replacements Project; and a budget amendment in the amount of $95,250.00 to combine the professional services budget from two capital projects into one.

Regarding the City's living wage policy and in response to Councilman Smith, Interim City Attorney McGlohon said that House Bill 74 became law on August 23, and in it, among other things, contains a provision that prohibits cities from requiring a private contractor to abide by any restriction that the city cannot impose on all employers in the city, such as paying minimum wage or providing paid sick leave to its employees, as a condition of bidding on a contract. She said that the City's living wage policy continues to be in effect for City employees, but is not valid for private entities.

Councilman Bothwell stated that this is one more step that Raleigh is taking to undercut the wages of workers in our state.

RESOLUTION BOOK NO. 35 - PAGE 419
ORDINANCE BOOK NO. 28 - PAGE 307

G. RESOLUTION NO. 13-181 - RESOLUTION ACCEPTING FAULKNER AVENUE, SAMUEL ASHE DRIVE, LA GRANGE DRIVE, LOWER BEND ROAD, WELLEN WAY AND DUBOIS DRIVE, LOCATED IN THE BEAUCATCHER HEIGHTS SUBDIVISION, AS CITY MAINTAINED STREETS

Summary: The consideration of a resolution to accept Faulkner Avenue, Samuel Ashe Drive, La Grange Drive, Lower Bend Road, Wellen Way and Dubois Drive, located in Beaucatcher Heights Subdivision, as city-maintained streets.

Code of Ordinances sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. The developer submitted a written request via a letter dated June 8, 2012 asking the City to accept the subject streets as city-maintained streets.

- Faulkner Avenue from McClain Street to Kenilworth Road is a developer-constructed street that has an average width of 20 feet with 18-inch curb and gutter, a length of 0.33 mile, and a right-of-way width of 50 feet.

- Samuel Ashe Drive from Reservoir Road to Faulkner Avenue is a developer-constructed street that has an average width of 20 feet with 18-inch curb and gutter, a length of 0.39 mile, and a right-of-way width of 50 feet.

6

- La Grange Drive from Faulkner Avenue to its dead-end is a developer-constructed street that has an average width of 20 feet with 18-inch curb and gutter, a length of 0.18 mile, and a right-of-way width of 50 feet.

- Lower Bend Road from Faulkner Avenue to its dead-end is a developer-constructed street that has an average width of 20 feet with 18-inch curb and gutter, a length of 0.05 mile, and a right-of-way width of 50 feet.

- Wellen Way from McClain Street to its dead-end is a developer-constructed street that has an average width of 20 feet with 18-inch curb and gutter, a length of 0.06 mile, and a right-of-way width of 50 feet.

- Dubois Drive from Faulkner Avenue to its dead-end is a developer-constructed street that has an average width of 20 feet with 18-inch curb and gutter, a length of 0.06 mile, and a right-of-way width of 50 feet.

Transportation Department staff and Public Works Department staff inspected the subject streets and determined that they were constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual. In addition, the developer's engineer has furnished a signed and sealed letter verifying that the subject streets were constructed to current City of Asheville standards.

The retaining walls that are located adjacent to Samuel Ashe Drive and encroach within the public right-of-way are privately-owned and they will be maintained by the Beaucatcher Heights Homeowners Association or some other private entity as indicated in Plat Book 128 Page 14. The City of Asheville is **not** responsible to maintain any retaining walls that are included in the Beaucatcher Heights Subdivision.

Following City Council's approval of this resolution, the subject streets will be added to the official Powell Bill List.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the streets.

Staff recommends that City Council accept Faulkner Avenue, Samuel Ashe Drive, La Grange Drive, Lower Bend Road, Wellen Way, and Dubois Drive as city-maintained streets.

RESOLUTION BOOK NO. 35 - PAGE 420

H. RESOLUTION NO. 13-182 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BREWGRASS FESTIVAL ON SEPTEMBER 21, 2013

RESOLUTION NO. 13-183 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE CITIZEN-TIMES CITY MARATHON 5K RACE ON SEPTEMBER 27, 2013

RESOLUTION NO. 13-184 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT OKTOBERFEST ON OCTOBER 12, 2013

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Brewgrass Festival on September 21, 2013;

the Asheville Citizen-Times City Marathon 5K Race on September 27, 2013, and Oktoberfest on October 12, 2013.

- Big Brothers Big Sisters has requested through the City of Asheville Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Brewgrass Festival and allow for consumption at this event.

  The Brewgrass Festival will be held on Saturday, September 21, 2013, from 12:00 p.m. – 7:00 p.m. within the boundaries of Martin Luther King Jr. Park, as referenced on the accompanying site map.

- Lend-A-Hand Foundation has requested through the City of Asheville Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Citizen-Times City Marathon 5K Race and allow for consumption at this event.

  The Asheville Citizen-Times City Marathon 5K Race will be held on Friday, September 27, 2013, from 6:00 p.m. – 10:00 p.m. along various streets with all beer and/or unfortified wine restricted to a portion of Otis Street between Battery Park Avenue and North French Broad Avenue, as per the event area limits referenced on the accompanying site map.

- The Downtown Association has requested through the City of Asheville Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Oktoberfest and allow for consumption at this event.

  Oktoberfest will be held on Saturday, October 12, 2013, from 12:00 p.m. – 6:00 p.m. on Banks Avenue between Collier Avenue and Coxe Avenue and on Coxe Avenue between 135 Coxe Avenue and the intersection of Buxton Avenue, as per the event area limits referenced on the accompanying site map.

City staff recommends City Council adopt the resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Brewgrass Festival, Asheville Citizen-Times City Marathon 5K Race, and Oktoberfest.

RESOLUTION NO. 13-182 - RESOLUTION BOOK NO. 35 - PAGE 428
RESOLUTION NO. 13-183 - RESOLUTION BOOK NO. 35 - PAGE 431
RESOLUTION NO. 13-184 - RESOLUTION BOOK NO. 35 - PAGE 434

I. RESOLUTION NO. 13-185 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE A SEALED BID SALE OF THREE PARCELS OF CITY-OWNED PROPERTY , KNOWN AS THE (1) CURVE STREET LOT; (2) DEAVER STREET LOT; AND (3) MILLBROOK ROAD LOT

Summary: The consideration of a resolution directing the City Clerk to advertise a sealed bid sale of three parcels of City owned property, known as the (1) Curve Street lot, (2) Deaver Street lot, and (3) Millbrook Road lot.

The City of Asheville owns three properties that are currently designated as surplus, residential, vacant lots – the Curve Street lot (0.25 acres, PIN 9648-68-0689-00000), Deaver Street lot (0.19 acre, PIN 9638-76-4002-00000) and Millbrook Road lot (0.25 acres, PIN 9638-66-3884-00000). Over the past several weeks, there has been an increase in interest from local buyers in these parcels. To respond to this interest, staff is seeking authorization to commence a sealed bid process, as outlined below:

1. Upon approval of this resolution, the City Clerk will publish a notice of sealed bid sale in the Asheville Citizen-Times, identifying the parcels available for sale and all terms and conditions of the sale.

2. During the thirty day notice period, City staff will actively market the parcels with the assistance of the local realtor's network and the regional Multiple Listing Service (MLS).
3. On October 10th at 3:30 p.m. on the fifth floor of City Hall, City staff will host a public bid opening, and will review all sealed bids received for the parcels.
4. Staff will present highest bids for City Council authorization on October 22nd, 2013, with Council reserving the right to reject any and all bids.
5. Potential closing date(s) – December 1, 2013.

Staff is seeking to utilize the sealed bid process in effort to benefit from the thirty day marketing period, as well as to ensure a deliberate process for all persons that have shown interest in the parcels for sale.

The proceeds from the sale of the Curve Street parcel will benefit the Community Development Block Grant fund. The sale of the Millbrook Road and Deaver Street parcels will benefit the General Fund and will be designated for future economic and community development projects.

Economic Development staff recommends adoption of the resolution directing the City Clerk to advertise a sealed bid sale of three parcels of City owned property, known as (1) Curve Street lot, (2) Deaver Street lot, and (3) Millbrook Road lot.

RESOLUTION BOOK NO. 35 - PAGE 437

J. RESOLUTION NO. 13-186 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A TEMPORARY LABOR SERVICES AGREEMENT WITH FORSYTH INITIATIVE FOR RESIDENTIAL SELF-HELP TREATMENT INC. FOR TEMPORARY LABORERS

Summary: The consideration of a resolution to allow the City Manager to enter into a temporary labor services agreement between the City of Asheville and Forsyth Initiative for Residential Self-Help Treatment, INC. (F.I.R.S.T.) for temporary laborers.

The City of Asheville is in need of temporary workers to perform a variety of tasks including unskilled work in concrete, asphalt, drainage, traffic control, building maintenance, and other like unskilled work for our Public Works and Civic Center Departments. These workers will perform unskilled labor and are typically used in crews of four to five on a sporadic, as-needed basis. The City will select a single Agency as the supplier for temporary workers. The anticipated contract amount will be written not to exceed $155,000.

F.I.R.S.T. is a local non-profit organization operating from 32 Knox Rd. in Ridgecrest, NC. F.I.R.S.T. offers a combination of therapeutic treatment, vocational training, and life skills development for people with chronic substance abuse addictions to assist them in becoming responsible members of society. Participants receive treatment, room and board, transportation and other benefits. The result is positive for the community for the reason that the participants learn to live a productive lifestyle as opposed to being a burden on society. The City of Asheville has utilized F.I.R.S.T. participants for the past ten years with excellent results.

As of June 30, 2013, the City of Asheville has reached the end of a four year general services contract with FIRST for temporary labor services. City staff along with F.I.R.S.T., desire to enter into a new agreement for temporary labor services at the prior rate of $9.00/hour. Because F.I.R.S.T. is running a program of assistance and provides additional benefits to its participants, this agreement would not be covered by City Council's adopted Living Wage policy for Fiscal Year 2013-2014. For these reasons, City staff is recommending that Council adopt a resolution to allow the City Manager to enter into a temporary labor services agreement with F.I.R.S.T., at a rate of $9.00/hour.

The contract amount has been allocated in the U.S. Cellular Center and Public Works operational budgets for Fiscal Year 2013-2014.

Staff recommends City Council adopt a resolution to allow the City Manager to enter into a temporary labor services agreement with F.I.R.S.T., at a rate of $9.00/hour, for an initial term of two years; with the option of continuation for two additional terms each equivalent to a single calendar year.

In response to Councilman Smith, Assistant City Manager Cathy Ball said that this agreement is with the place that the laborers reside in. They provide the laborers with food, shelter and provide transportation within which to bring them into and back from work every day.

RESOLUTION BOOK NO. 35 - PAGE 438

K. RESOLUTION NO. 13-187 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT AND CONVEY CERTAIN EASEMENTS RELATED TO THE DEVELOPMENT OF HUNT HILL APARTMENTS

Summary: The consideration of a resolution authorizing the City Manager to accept and convey certain easements related to the development of Hunt Hill Apartments.

There is a shared boundary line between the City of Asheville property known as Mountainside Park and the property owned by Biltmore Avenue, LLC slated for the development known as Hunt Hill Apartments. During the course of the project review for the development, it was discovered that the access driveway for Mountainside Park encroached upon land owned by Biltmore Avenue, LLC. Per the Conditional Zoning permit for the project, the City requested that the property owner convey an easement for said driveway into Mountainside Park. At this time, staff is requesting that City Council authorize the City Manager to accept an access easement from Biltmore Avenue, LLC to benefit the City owned property at Mountainside Park.

Along the same shared boundary between the two properties, the developer is requesting two temporary easements from the City of Asheville to Biltmore Avenue, LLC, as follows: (1) A temporary grading easement, approximately 30 feet in width, in order to balance out the grade change between the two properties and remove the need for retaining walls in that area, and (2) A temporary storm drain easement to install storm drainage infrastructure to tie in to existing storm drain lines that flow towards Memorial Stadium. Biltmore Avenue, LLC will enter into a maintenance agreement with the City of Asheville for the long term maintenance of the newly installed line. Staff is requesting that City Council authorize the City Manager to convey a temporary grading easement and a temporary storm line easement to Biltmore Avenue, LLC for the development of Hunt Hill Apartments.

There is no immediate financial impact to the City. City staff will be responsible for creating legal documents associated with this project, with the developer to provide all surveys and exhibits.

City staff recommends that City Council adopt the resolution authorizing the City Manager to accept and convey certain easements related to the Hunt Hill Apartments project.

RESOLUTION BOOK NO. 35 - PAGE 439

L. RESOLUTION NO. 13-188 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR GRANT FUNDS UNDER THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM TO FUND A MULTI-JURISDICTIONAL DWI TASK FORCE

Summary: The consideration of a resolution authorizing the City Manager to sign the application to apply with the North Carolina Governor's Highway Safety Program (NCGHSP) for a grant to fund a multi-jurisdictional DWI Task Force involving the Asheville Police Department (APD) and Buncombe County Sheriff's Office (BCSO).

In Asheville and Buncombe County, the number of impaired drivers has been a serious

concern to citizens and law enforcement. Since 2010, the total number of incidents involving impaired drivers has risen steadily. During this three year period, there have been 4,434 DWI arrests by Buncombe County law enforcement agencies. There have been more than 1,024 traffic collisions that have involved impaired drivers and 18 fatal collisions as a result of an .08 Blood Alcohol Content (BAC) or higher. The goal of this proposed DWI Task Force would be to reduce the number of DWI – related collisions, injuries and deaths in Asheville and Buncombe County, as well as educate the public on impaired driving and its effects.

In recognizing these alarming statistics, the NCGHSP has contacted APD and proposed a $724,861 grant in FY 2014 that would provide APD and BCSO 100% of the cost, or $329,250 to purchase vehicles, uniforms, and equipment, and to train 6 additional officers. The remaining $395,611 of the grant proceeds covers 100% of salary and benefits costs for four years at a diminishing rate. Under this grant, APD would supply one (1) sergeant and three (3) officers while BCSO would supply 2 officers. These 6 officers would conduct targeted DWI enforcement throughout Asheville and Buncombe County and conduct DWI, seat-belt and night-time traffic safety checking stations throughout the County. The involved officers would also conduct educational events at local high schools that would focus on teen driving safety, impaired driving, distracted driving and seat-belt compliance.

The NCGHSP grant would pay for full salary and benefits for the involved officers on a diminishing rate / costs are approximate depending on involved officer's salaries:

Year	Rate / # of Officers	Grant Payment	City Cost / 4 Officers
Year 1:	100% / 6 officers	= $395,611	City share: $0.00
Year 2:	5% / 6 officers	= $336,269	City share: $40,098
Year 3:	70% / 6 officers	= $276,927	City share: $80,197
Year 4:	50% / 6 officers	= $197,805	City share: $133,662

At the conclusion of year 4, it is recommended that the involved agencies continue with the DWI Task Force initiative, but is not mandated.

The Public Safety Committee reviewed this on March 25 with unanimous approval to move it forward to City Council.

The general fund impact to the City would be approximately $253,957 during the four year grant cycle. At the end of the four years, the general fund impact would be an increase of approximately $267,325 per year to add permanently the one (1) sergeant and three (3) officers and to provide equipment as needed.

City staff recommends City Council adopt the resolution authorizing the City Manager to apply for grant funds through the North Carolina Governor's Highway Safety Program.

RESOLUTION BOOK NO. 35 - PAGE 440

M. RESOLUTION NO. 13-189 - RESOLUTION AUTHORIZING SUBMITTAL OF FISCAL YEAR 2013 STATE EMERGENCY SOLUTIONS GRANT APPLICATION

Summary: The consideration of a resolution authorizing submittal of Fiscal Year 2013 State Emergency Solutions Grant (ESG) application.

The State of North Carolina announced the availability of funds and the application deadline for FY 2013 ESG grants last month. Like last year, the State required single applications for established Continuums of Care (CoC). The deadline for submittal of applications was August 21, 2013. The Homeless Initiative Advisory Committee, on behalf of the Asheville-Buncombe CoC, established an ESG Subcommittee to make recommendations to the Continuum of Care for project funding. Representatives

of agencies eligible for ESG funding were not appointed to the subcommittee. The subcommittee solicited letters of intent from eligible agencies, reviewed these, and proposed projects for ESG funding. Their recommendations were forwarded to the Homeless Initiative Advisory Committee. The Asheville Homeless Coalition and the Homeless Initiative Advisory Committee met together on August 6, 2013, and unanimously approved these recommendations. These groups also recommended that the City of Asheville continue to serve as Fiscal Agent for the Continuum of Care for this grant. The Housing and Community Development Committee accepted these recommendations on August 8, 2013. The HCD Committee was informed by staff that the application deadline preceded the next available Council meeting for consideration of the application. The HCD Committee agreed that staff should submit the application, conditional on Council approval at the next available Council meeting. Recommended application amounts are:

	Emergency Response	Housing Stabilization	Total
Organization			
ABCCM	$	$ 20,000.00	$ 20,000.00
Helpmate	$ 26,559.00	$	$ 26,559.00
Homeward Bound	$	$ 71,382.00	$ 71,382.00
Salvation Army	$ 23,441.00		$ 23,441.00
TOTAL REQUESTS	$ 50,000.00	$ 91,382.00	$ 141,382.00
TOTAL AVAILABLE			$ 141,382.00

If approved by the State, these funds will come to the City of Asheville, and then be allocated to the agencies. A small percentage of administrative funds will be given to the City of Asheville once the State determines final community allocations. The Community Development Division administers the program within approved budget constraints.

The HCD Committee requests City Council approve the application for the Emergency Solutions Grant funding for Fiscal Year 2013.

RESOLUTION BOOK NO. 35 - PAGE 441

N. RESOLUTION NO. 13-190 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER FOR THE CRAVEN STREET IMPROVEMENTS PROJECT FOR ADDITIONAL PROFESSIONAL SERVICES FOR COMPLETING THE DESIGN AND CONSTRUCTION ADMINISTRATION OF THE PROJECT

ORDINANCE NO. 4223 - BUDGET AMENDMENT TO FUND THE CHANGE ORDER FOR THE CRAVEN STREET IMPROVEMENTS PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a change order for the Craven Street Improvements project for additional professional services for completing the design and construction administration of the project; and (2) a budget amendment in the amount of $286,961 from various sources to fund the change order.

On June 12, 2012, City Council had previously approved a contract with ColeJenest & Stone for professional services in the amount of $514,221 plus a 10% contingency. This change order will increase that contract amount to $852,604. This project includes improvements to the existing two lane roadway by implementing a complete street approach to the design. The new facility will include bike lanes, sidewalk, stormwater improvements, stream stabilization, greenway, parking areas and two-way vehicular traffic. The City had previously selected ColeJenest & Stone through a Request for Qualifications process in which 14 other teams had submitted.

The City has three funding partners on this project, Golden Leaf Foundation has provided $300,000, the Economic Development Grant from the Department of Commerce has partnered to provide approximately $1.2M, and the Clean Water Management Trust Fund through RiverLink has provided $400,000 toward this great project. The remaining cost of the project will be paid through the Stormwater, Water, and Parking Funds and General Fund debt proceeds.

The additional services required to complete this project include working with the North Carolina Department of Public Safety to acquire a parcel that was previously held by Buncombe County and to provide ground water monitoring at this same site.

Due to the topography, retaining walls are needed along the greenway. The design and inspection of these specialized walls are also additional services. Since the greenway passes over a MSD sewer line, additional engineering services are required to design the sewer line to meet MSD standards with a greenway facility located above it.

The city continues to work closely with Duke Energy for right-of-way access and shared uses of rights-of-way. Additional services include performing necessary plat preparation, coordinating with property owners and surveying for the properties where the city will need easements or additional rights-of-way.

As the project had developed, additional services have been identified for the construction inspection and material testing of the project. This work is critical to the success of the project and the professional services team will have a full time inspector on site to perform material testing as necessary.

As there are many funding partners on this project, the professional services team will also assist staff with coordination and documentation with these organizations. These services include providing requested data and also assisting with key reporting dates as we move through the construction process.

The budget that City Council approved in June 2012 for this contract, including the 10% contingency, totaled $565,643. In order to fund this change order, an additional $286,961 in budget authorization is required. Funding for the change order will come from the following sources: 1) General Fund (debt proceeds): $177,418; 2) Parking Fund operating budget: $57,732; 3) Stormwater Fund fund balance: $51,811.

City staff recommends City Council 1) authorize the City Manager to execute change order with ColeJenest & Stone for the additional professional services associated with the Craven Street Improvement project - The total professional services contract is not to exceed $852,604; and 2) approve a budget amendment in the amount of $286,961 from various sources to fund the change order.

RESOLUTION BOOK NO. 35 - PAGE 442
ORDINANCE BOOK NO. 28 - PAGE 309

O. ORDINANCE NO. 4224 - BUDGET AMENDMENT TO REFLECT FINAL HUD FUNDING FOR THE CONSOLIDATED ACTION PLAN FOR CDBG AND HOME FOR 2013-14

Summary: The consideration of the budget amendment in the amount of $218, necessary to complete action on the final revised allocations for the Consolidated Action Plan for CDBG and HOME for Fiscal Year (FY) 2013-2014.

The final revised grants of HUD funds for CDBG and HOME have been received. The revised CDBG grant available for the current year is $993,543. The revised HOME grant is $938,716.

The proposed Budget Amendment will account for all funds awarded.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment.

Staff recommends approval of the budget amendment.

ORDINANCE BOOK NO. 28 - PAGE 311

P. RESOLUTION NO. 13-197 - RESOLUTION AMENDING THE 2013 CITY COUNCIL MEETING SCHEDULE

Summary: The Asheville City Council will hold a worksession in the First Floor North Conference Room of City Hall, located at 70 Court Plaza, Asheville, North Carolina, on Tuesday, September 10, 2013, at 4:00 p.m. to obtain an update from City staff on the proposed North Asheville Dog Park.

RESOLUTION BOOK NO. 35 - PAGE 450

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hunt and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

III. PRESENTATIONS & REPORTS:

A. CHARLOTTE STREET CORRIDOR STUDY PRESENTATION

Transportation Director Ken Putnam introduced Mr. Don Bryson, consultant with Vanasse Hangen Brustlin (originally Martin/Alexiou, Bryson). He said that he will provide Council with a pdf version of the entire report, along with posting it on the City's website. City Council then viewed the computer modeling and heard the complete analysis of the traffic conditions today and what they are projected to be in the future of the Charlotte Street Comprehensive Traffic Study Report. Mr. Bryson said they did an extensive corridor study of traffic counts, travel speeds, level of service, and collision history. He then reviewed the 4-lane vs. 3-lane scenarios, adding bike lanes, parking on one side, narrower 3 lanes with wider sidewalks, hybrid 3-lane/4-lane etc. He stressed that access management is an issue, noting many properties have multiple driveways, excessively wide driveways, and driveways too close to intersections. Sidewalks are narrow (typically 4-5') and have obstacles in them (utility poles, signs, vegetation and driveways). He showed two simulations for the year 2035 with existing 4 lanes and then with 3 lanes. There are economic impacts including (1) effects of road diets on business activity and property values; and (2) sources of benefits. The results show (1) little difference in the short term; (2) queue lengths are issue with 3-lane; (3) hybrid could be acceptable, but yields minimal benefits; (4) potential for speeding on 3-lane segments; (5) no significant bicycle or pedestrian benefits; and (6) access conflicts remain unresolved.

Mr. Bryson and Mr. Putnam responded to various questions/comments from Council, some being, but are not limited to: any consideration given to limiting left turn lanes; can we force changes to existing driveways; what is the rationale and the factors of the trend nationwide with fuel prices and different modes of transportation; and would widening the sidewalks be beneficial for bike riders.

Vice-Mayor Manheimer felt the study is sufficient enough that we can come put together the vision and then let the professionals come up with the result, since there might be some consensus on pedestrian safety and preserving the access to businesses.

City Manager Jackson said that staff envisions taking on some of these issues (utility relocation and sidewalk widening) to the extent that the codes will promote redevelopment of corridors like this. We are trying to put these tools in place. A part of the most recent budget cycle was increasing the actual resources for multimodal transportation. We did not identify specific target areas. That will be the next phase and we want to use the Complete Streets Policy to identify those target areas. This is a tool to evaluate how these things can work together.

Assistant City Manager Ball felt that we have enough data to allow staff to go back and design the corridor with a more comprehensive plan more than grinding up the lanes and re-stripping - wider sidewalks, opportunity for bike lanes, etc. She said we can put the design of that project in this year's budget and fund the construction in next year's budget.

The following individuals made several comments about the Charlotte Street Corridor Study, some being, but are not limited to: the area is unattractive for pedestrian use; leave Charlotte Street 4-lanes; need for safe passage for pedestrians and bicyclists; need more information in the impact of the NC Dept. of Transportation intersection at I-240 that impacts the queuing; and need for pedestrian crossing at I-240 and Charlotte Street:

David Nutter, resident on Flint Street
Grace Curry, resident on Edgemont
Leah Karpen resident on Charlotte Street
Jane Mathews, resident of Albemarle Park
Max Alexander, resident on Sunset Drive
Two area residents

It was the consensus of Council (1) that in November of 2013, City staff report to the Planning & Economic Development (PED) Committee their alternatives/recommendations to enhance pedestrian safety and overall mobility, with public input; and (2) that in January, 2014, Council consider the recommendations from the PED Committee for the Charlotte Street Corridor.

B. QUARTERLY REPORTS

Public Safety Committee Chair Report

Vice-Mayor Manheimer, Chairman of the Planning & Economic Development Committee, provided Council with a brief update on some major accomplishments during this quarter.

Strategic Operating Plan

A report submitted by Deputy City Manager Jeff Richardson was provided to Council on the quarterly updates on key strategic initiatives associated with the six focus areas of the City's Strategic Plan. Staff has tracked projects using performance indicators and measurements through the Fiscal Year 2012-13. He then briefly summarized the 2012-13 end of the year review.

No action is necessary at this time.

City Manager Jackson thanked Deputy City Manager Richardson for this outstanding work on the quarterly and end-of-year reporting. Mr. Richardson has made this a higher performing organization. He wished him well as he begins his new venture on October 1, 2013, as Cleveland County's Manager.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO REZONE 103, 107, 113 AND 117 CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4225- ORDINANCE TO REZONE 103, 107, 113 AND 117 CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone 103, 107, 113 and 117 Caledonia Road from Institutional District to RS-8 Residential Single-Family High Density District. This public hearing was advertised on August 16 and 23, 2013.

Mr. Esselstyn said that the subject site, roughly 0.6 acres of wooded, steeply sloped land, has been involved in or associated with multiple zoning actions and development proposals in recent years, as described in the above section. While the high-density multi-family development proposals for this area met technical requirements, there was consternation on the part of City Council, as well as multiple neighboring citizens, about the compatibility of that type of use in this location.

The current zoning designation, Institutional, can be traced back to circumstances years ago, when this property was under the same ownership as the complex to the northwest (now the Kenilworth Apartments), which was a medical institution at the time. The subject property, which may have at that time shared a PIN with the parcel on which the complex was built, was considered part of the institution's campus. When the building was converted to apartments, the existing zoning district allowed high density multi-family residential uses, and it was preserved.

Staff feels (as was reflected in the 2011 City-initiated rezoning effort) that the proposed zoning reflects a density more appropriate for these steeply sloped properties in a predominately single-family residential neighborhood, and eliminates the potential for certain commercial uses (allowed in the Institutional district) that are unlikely to be compatible at this location.
The site has already been subdivided into lots suitable for single-family development, and the Institutional Zoning District allows single-family uses, but the side setbacks in Institutional are more restrictive than in RS-8. While the single family lots exceed the minimum lot size for the RS-8 district, width is at a premium because of the steep incline, and the difference between the ten-foot side setback in Institutional and the six-foot setback in RS-8 was one factor prompting the applicant to request the rezoning.

The UDO (7-8-15) states that "The Institutional District is established to reserve land for the development of major educational facilities, major medical facilities and other complementary and supporting uses such as health related developments, office developments, and public services." Staff feels the land no longer is appropriate for this purpose.

By contrast, the stated intent of RS-8 is "to establish a high density per acre for single-family dwellings where public infrastructure is sufficient to support such development and to stabilize and protect the district's residential character in areas of existing high density single-family development while promoting a suitable environment for single-family living. Non-single-family development normally required to provide the basic elements of a balanced and attractive residential area is also permitted."

When a similar rezoning proposal was initiated by the City in 2011, the primary reason cited for objection on the part of reviewing boards was the lack of support of the property owner. Now that that situation has changed, the property has been subdivided, and the property owner is behind the rezoning, staff feels that the argument for the rezoning is further strengthened.

Unlike the similar recent rezoning request (described above) on Finalee, which was contiguous on two sides to existing RS-8 zoning, however, the petition in question would create an area of RS-8 zoning which only touches corresponding zoning at a single point. The 0.6-acre area would be

surrounded on three sides by Institutional zoning, and would face River zoning across the street along most of its frontage. Staff has expressed to the applicant that a petition including other adjacent parcels would be preferable, but the applicant was not prepared to expand the area at this time.

At the most recent two meetings of the Planning and Zoning Commission, certain Commissioners indicated concerns about the "piecemeal" approach under which rezoning is being pursued in this area. While staff would also rather see a larger area being proposed for rezoning by the applicant and adjacent property owners this report must consider the petition submitted on its own merits. Staff believes that the proposed rezoning would represent an improvement over the existing situation.

At the August 7 Planning and Zoning Commission meeting, two neighbors spoke in support of this rezoning, but voiced concerns about the "bigger picture." Several commissioners also expressed interest in a more extensive consideration of the zoning in this area, but nonetheless recommended approval of this rezoning request by a 6-1 vote. As a result of that concern, at the September 4 meeting of the Planning and Zoning Commission, staff was asked to present a summary of the findings and analysis from the broader City-initiated rezoning proposed in 2011 for discussion by the Commission.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pro:

- The rezoning establishes zoning on the properties that is more reflective of and compatible with the neighboring single-family neighborhood and the steeply sloping site.

Con:

- The minimal contiguity of the proposed area of RS-8 zoning to existing RS-8 zoning is less than ideal according to standard zoning practices.

Staff's analysis indicates that the proposed zoning district would support appropriate development and prevent incompatible development better than the existing zoning, and, accordingly, staff recommends approval.

Mayor Bellamy opened the public hearing at 6:26 p.m.

Mr. David Evers, resident on Finalee, supported the rezoning; however, felt they could be spot zoning. He felt it was time to ask City staff to rezone the larger tracts to avoid further spot zoning.

Mayor Bellamy closed the public hearing at 6:29 p.m.

Councilman Smith said that a process is underway to examine the areas that might have issues around land slides, and that sort of thing. There is also a process underway to look at zoning designations in an effort to make sure we are not creating any unintended problems.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4225. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 313

B. PUBLIC HEARING TO REZONE 172 ASHELAND AVENUE FROM REGIONAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT

C. **PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE (ARTICLE 7-8-18) TO INCLUDE A PARCEL LOCATED AT 172 ASHELAND AVENUE IN THE OFFICIAL CENTRAL BUSINESS DISTRICT HEIGHT ZONE MAP AND KEY PEDESTRIAN STREETS MAP**

ORDINANCE NO. 4226 - ORDINANCE TO REZONE 172 ASHELAND AVENUE FROM REGIONAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 4227 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE (ARTICLE 7-8-18) TO INCLUDE A PARCEL LOCATED AT 172 ASHELAND AVENUE IN THE OFFICIAL CENTRAL BUSINESS DISTRICT HEIGHT ZONE MAP AND KEY PEDESTRIAN STREETS MAP

Mayor Bellamy said that since these two public hearings are related, she asked Mr. Glines to combine his presentation and that public comment would be taken on each item with two separate votes being taken.

Urban Planner Alan Glines said that this is the consideration of an ordinance to rezone 172 Asheland Avenue from Regional Business District to Central Business District. This public hearing was advertised on August 16 and 23, 2013.

He said this parcel is located along Asheland Avenue south of Hilliard Avenue. The property is adjacent to the western border of the Central Business District zone (CBD). The parcel slopes away from Asheland Avenue and has access to a small right of way called Federal Alley at the back side of the property. Recently the owners of 86 Asheland Avenue submitted an application to rezone their three parcels to CBD. That request was approved by City Council at their meeting on June 23, 2013. After receiving notification of that application, Douglas Fox called staff to inquire about changing the zoning of his parcel. Mr. Fox feels that the growth pattern for the south area of downtown is strongly in favor of an urban, denser form of development. He submitted this request with the knowledge that new substantial development changes on his property will be required to follow standards approved for the Central Business District.

The Downtown Commission considered this request at their July meeting, and most Commissioners were surprised to receive a second application for rezoning in the area. Staff explained that the property owner received notification from the earlier rezoning request and feels that a zoning change is also warranted for this property too. Although work on a corridor-long rezoning study is anticipated to start later in the year, this specific request to rezone was submitted and staff is compelled to consider and process it in a timely manner. Planning for this corridor project has not commenced but it will include community meetings with affected property owners and neighbors of the South French Broad neighborhood especially because of potential impacts from parcels on the west side of Asheland Avenue. Parcels on the east side such as 172 Asheland are not expected to have the same level of impact on the neighborhood. There was a similar discussion at the Planning and Zoning Commission review in August.

The Central Business District allows a wide range of residential and commercial uses with regulations in place for designing new structures so that new construction will be compatible with the urban context of downtown. Most of the regulations for downtown development were identified in the Downtown Master Plan completed in 2009 and later adopted with some amendments into the UDO in 2010. Building heights are defined by the Height Zone map and a recommendation to include these parcels on the map is associated with this application. There is also a Key Pedestrian Streets map (KPS) and certain streets that are primary pedestrian corridors are included in the map. Asheland Avenue north of Hilliard is on the KPS map. The intermediate height zone was approved for 86 Asheland and the key pedestrian streets map was extended to include those three properties. The Downtown Commission is recommending the same map amendments for this property too. This was also supported by the Planning and Zoning Commission.

The Regional Business District allows a large array of commercial uses and permits large structures (greater than 100,000 square feet). Building height is limited to 80 feet. The development zone is more common in suburban areas along busy highways, interchanges and thoroughfares. There is little character defining regulations in the ordinance and parking is allowed in front of buildings and at the sidewalk edge in regional business zones. In this area near downtown Regional Business zoning is a remnant of a prior focus for the area.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- The zoning change is compatible with the neighboring downtown area.
- Supports the goals of the Downtown Master Plan and the Strategic Operating Plan
- Supports the redevelopment of the south area of downtown

Con:

- None noted.

The Planning and Zoning Commission voted unanimously to support the request to rezone the subject property at their meeting on August 7, 2013. The Downtown Commission reviewed the request as a policy discussion at their meeting on July 12, 2013 and voted 8-0 to support the request. In addition, three neighboring property owners called with questions and support for the zoning change before the Planning and Zoning Commission meeting.

Staff supports the proposed zoning change because the request is aligned with City adopted goals and plans for the downtown area.

Regarding the UDO map amendments, Mr. Glines said that this is the consideration of an ordinance to amend the Unified Development Ordinance (Article 7-8-18) to include a parcel located at 172 Asheland Avenue in the official Central Business District Height Zone Map and Key Pedestrian Streets Map. This public hearing was advertised on August 16 and 23, 2013.

The Planning and Development Department has received an application to rezone a parcel at 172 Asheland Avenue from Regional Business (RB) to Central Business District (CBD). Downtown CBD properties are subject to height regulations that are based on their specific location in the downtown area. Also, some streets in downtown are designated as Key Pedestrian Streets which have additional development regulations designed to enhance the pedestrian relationship for new construction. If the rezoning is approved, these maps should be reviewed and adjusted to consider the rezoned parcels.

Height Zone Map - The height zone map is adopted as a part of the Central Business District (7-8-18 of the UDO). The map identifies areas for the *tallest height zone* (265 feet) and the *intermediate height zone* (145 feet) and *buffer height* that moderates the tallest height zone along view shed corridors. The Planning and Zoning Commission and the Downtown Commission recommended that the intermediate height zone be applied to 172 Asheland Avenue. The intermediate height zone has been used at other locations that have bordered the edge of the downtown CBD. If the study proceeds later this year to expand the CBD further south along Asheland Avenue, the height zone will be reviewed again.

Key Pedestrian Streets - The Key Pedestrian Streets map (KPS) is a designation along specific streets that serve as primary pedestrian linkages throughout the downtown area. When a street is designated a KPS, there are several development regulations in place that are designed to enhance the pedestrian experience at the sidewalk level. For example, a building on a KPS, must provide 70% windows, doors or other openings at pedestrian level and parking garages must provide either an occupiable space for the first 20 feet of depth or provide fenestration details meeting regulations. Asheland Avenue is a KPS north of Hilliard Avenue and City Council approved the extension of the KPS map to include the recent request to rezone 3 parcels at 86 Asheland Avenue. The Downtown

Commission recommends that the KPS designation extend to the property at 172 Asheland Avenue. The designation would extend past a property between 86 Asheland and 172 Asheland but if approved, KPS standards will not apply to non-CBD zoned parcels. If Asheland Avenue is studied for further CBD expansion the issue of extending the KPS map will also receive discussion then.

City Council reviewed and approved a similar request to amend the same maps in relation to the 86 Asheland Avenue rezoning at the meeting on June 23, 2013.

Based on the above findings and the analysis in the report, staff finds the map amendment to be reasonable and conforming to the Comprehensive Plan.

The Planning and Zoning Commission reviewed the map amendment at their August 7, 2013, meeting and unanimously recommended the placement of the intermediate height zone on and the extension of the key pedestrian streets map to the subject property. The Downtown Commission supported a similar recommendation at their meeting on July 12, 2013. Staff concurs with this recommendation because it supports the goals of the Comprehensive Plan and its conformance with the adopted Downtown Master Plan.

Pros:

- Adjusts development maps in accordance with land use changes
- Implements portions of the *Downtown Master Plan* and supports City Council's *Goals and Vision Plan*
- Removes incongruous development patterns from an area suitable for more sustainable models

Con:

- None noted

City staff recommends City Council approve the amendment to the Height Zone map to include the intermediate height for the subject properties and also the amendment to the Key Pedestrian Streets map to extend this designation to the subject area and (find that the amendment is reasonable and is consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation.

Mayor Bellamy opened the public hearing at 6:36 p.m., and when no one spoke, she closed the public hearing at 6:36 p.m.

Mayor Bellamy said that members of Council have previously received a copy of both ordinances and they would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4226. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 316

Vice-Mayor Manheimer found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4227. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 319

When Mayor Bellamy asked for the City to consider upgrading the appearance of the western corridor (Patton Avenue) coming into the City, City Manager Jackson said that staff has a vision in the conceptual stage and and included in the Capital Improvement Plan schedule there is a placeholder for $250,000 for the western downtown gateway. Staff will look for Council direction for that in the coming year.

At the request of Mayor Bellamy, it was the consensus of Council to ask the City Manager to provide them with a report on providing screens in other parts of the Council Chamber so the entire audience can view what is on the screen.

D. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING CLARIFICATIONS TO AND MODIFICATIONS OF CURRENT SIGN REGULATIONS

ORDINANCE NO. 4228 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING CLARIFICATIONS TO AND MODIFICATIONS OF CURRENT SIGN REGULATIONS

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance regarding clarifications to and modifications of current sign regulations. This public hearing was advertised on August 16 and 23, 2013.

Ms. Daniel said that in June, staff proposed a number of changes to the Sign Regulations. The Planning and Zoning Commission recommended approval of some of those changes, which were forwarded to Council and approved in July. The Commission requested further information from the staff on other proposed changes and staff returned to the Commission for that evaluation. This report outlines the proposed changes and the recommendations of the Planning and Zoning Commission.

The proposed modifications arise from staff observation that adjustments to the sign regulations should be considered that primarily allow more flexibility for businesses and development from a practical perspective, without causing any substantial increase in signage. This report includes the proposals for changes to off-premise signs, residential development signs, and signs for multi-tenant businesses.

Summary of Changes:

(1) Sec. 7-13-3: Off-premises signs

This section relates to signs that are prohibited. The proposed modifications for this section include two technical changes and one substantive change.

A technical change is proposed to the title of Sec. 7-13-3 to more clearly reflect the content of the section which contains both prohibitions and additional standards.

> **Sec. 7-13-3**. Signs prohibited or requiring additional standards in all zoning districts.

There are two changes to paragraph "6" and the first corrects a technical error. The more substantive proposed change will allow the use of off-premise signs in multi-family residential districts; as some developments are situated in locations without direct frontage on a public road, and directional signage would be helpful for those looking for the development. Initially, several members of the Planning and Zoning Commission expressed concern that this change could have the potential to allow signage in multi-family districts that have a substantial level of single-family housing. To address this concern, staff proposed additional safeguards in Sec. 7-13-5, which governs off-premise signs, discussed later in this report.

> (6). Off-premises signs – some districts. Off-premises signs in all single-family

residential zoning districts and in the Office, ~~Officer~~ *Office*, Business, Community Business I, Neighborhood Business, and Central Business Districts.

The Planning and Zoning Commission unanimously recommended approval of these modifications.

(2) Sec. 7-13-4(b)(1)(c): Residential development signs

The proposed change would allow more than two entry signs for residential developments. Currently one primary sign and one smaller secondary entrance sign are allowed. The change would still allow only one primary sign, but additional secondary entrances from public roads would be allowed the smaller directional sign. Staff believes that this change will provide helpful directional signage for residents and the public for larger developments or communities with multiple entrances on more than two roads.

> (c). Subdivision and multi-family development identification signs may contain the name of the development only and must be either free standing ground signs or attached wall signs. If the signs are free standing ground signs, the height shall be limited to six feet from grade and the minimum setback shall be ten feet. ~~Only two entrances to the development may have a sign.~~ There may be one sign, for each entry to the development from a public road, limited to one sign per road; but only one main entrance sign.
>
> The main entrance sign shall have no more than sixteen (16) square feet per face, two faces per sign. The secondary entrance signs shall have no more than eight (8) square feet per face, two faces per sign. Only two sign faces are ~~shall be~~ allowed at each entrance, however, ~~said~~ the sign faces for the main entrance may be on two individual sign structures.

Commissioners had mixed thoughts about this change, related to a concern about sign proliferation. Staff believes the safeguards on size for the secondary sign or signs, the limit of one main sign and one sign per public road entry are sufficient, and the benefits to the public in terms of directional assistance for secondary entrances will be helpful.

After discussion at the August meeting, the Commission voted 4-3 to not support this change.

(3) Sec. 7-13-4(c): On-Premises signs for multi-tenant development

The proposed changes once again reflect the usefulness of additional directional identification signage for development; in this case multi-tenant development which has access points on more than one public road. Staff believes the existing language to be somewhat confusing and unnecessarily restrictive and inflexible.

The proposed changes clarify that the two allowed identification signs for the building/ development (as opposed to tenant identification signs) may be either freestanding or attached. It clarifies the limit on the number of identification signs per development, and clarifies where the allowed attached tenant identification signs are regulated. And it clarifies that the regulations pertain to any tenant, not just a business tenant.

During the initial discussions some Commissioners expressed a concern that this change did not establish a smaller sign size for the added freestanding signage allowed. To address that concern, the staff proposed a modification that would require a smaller size for the additional identification sign. And to address another Commission concern, the new information was added in a "table" format. Also a designation for the Light Industrial district is also added, as we noticed that none was noted currently.

Sec. 7-13-4(c)(b): On premises signs: Multiple tenant development.

(a) Multiple tenant development may erect either a development identification or joint identification sign. In addition, tenant identification sign for individual businesses within a development are allowed.

(b) For a multiple tenant development, the development itself is allowed one identification sign either freestanding (maximum of two faces per sign) or attached for each property boundary with street frontage with a maximum of two identification signs allowed per development, ~~only one of which may be freestanding.~~ All other permitted tenant identification signs as allowed in 7-13-4(c)(b)(2) must be attached to the building(s).

1. Development and joint identification signs.
   a. Where a development or joint identification sign is selected, such as sign may be of the following types.
      Freestanding: Pole (except in Urban Residential District), Ground, Changeable copy (except in Central Business District and Urban Residential District)
      Attached: Wall, Projecting, Window, Awning/canopy, Suspended or transom

   b. The sign(s) shall meet the following requirement based on the zoning district in which it is located.

Zoning District	*Maximum Height Allowed*	*Maximum Size Per Face*	*Maximum Height Secondary Freestanding Identification Sign*
Residential (all districts)	6 ft.	25 sq. ft.	3 feet or ground sign
Office I & II, Office Business, INST, Resort	8 ft.	90 sq. ft.	4 feet or ground sign
CB II, HB, RB, River, CI, IND, Light IND, Airport	25 ft.	200 sq. ft.	12.5 feet or ground sign
CBD, Urban Village	20 ft.	75 sq. ft.	10 feet or ground sign
NBD, CBI, NCD, URD, UP	12 ft.	60 sq. ft.	6 feet or ground sign

After discussion, the Planning and Zoning Commission unanimously recommended approval of this change.

(4) Sec. 7-13-5(b)(3)(d): Off-premise signs

The regulations currently do not allow any off-premise sign within a 100 foot radius of any residentially zoned property. The intent of the proposed change is to allow an off premise sign to be used in proximity to multi-family zoned properties, easing the ability to use directional identification signs for developments that do not have direct frontage on a primary public road.

As noted earlier, some Commissioners initially expressed a concern that this change might lead to off-premise directional signs being placed near single family homes that are in a multi-family zoning district, a not uncommon situation in some Asheville neighborhoods. To address this concern, staff modified the proposed language to protect such homes in multi-family zoning districts.

(d) No off-premises sign shall be located within a 100-foot radius of a property zoned single-family residential or ~~residentially zoned~~ property in a multi-family zone that is in primarily single-family residential use.

After consideration, the Commission voted unanimously to support this proposed modification.

The Planning and Zoning Commission unanimously recommended approval of the proposed changes to:

- **Sec. 7-13-3** related to prohibited off-premise signs,
- **Sec. 7-13-4(c)** related to on-premise signs in multiple tenant developments; and
- **Sec. 7-13-5(b)(3)(d)** governing off-premise signs.

The Planning and Zoning Commission voted 4-3 to not support the proposed changes to **Sec. 7-13-4(b)(1)(c)** that govern residential development signs.

Staff believes the proposed amendments to be reasonable and consistent with the Comprehensive Plan and other adopted plans, and with Council's Strategic Operating Plan goals for job growth and business development through limited taxes, fees, and regulation as the proposed changes would lift some restrictions on signage that are helpful for businesses.

Pros:

- Allows the signage regulations to remain relevant to adjustments in community interests and business practices.
- Allows greater flexibility in providing signage guidance to the public.

Con:

- The nature of ordinance related to signs is such that they require review and adjustments over time.

In response to Vice-Mayor Manheimer, Ms. Daniel said that the residential development sign amendment is aimed at platted and approved subdivisions, not self-identified neighborhoods.

In response to Councilman Hunt, Ms. Daniel explained that basically the Planning & Zoning Commission did not support the changes to residential development signs because they felt there would be a proliferation of them. Staff, however, felt the application would be for larger developments that have widely separated entrances.

Mayor Bellamy opened the public hearing at 6:50 p.m., and when no one spoke, she closed the public hearing at 6:50 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4228 to approve the amendments to (1) **Sec. 7-13-3** related to prohibited off-premise signs; (2) Sec. 7-13-4(c) related to on-premise signs in multiple tenant developments; and (3) Sec. 7-13-5(b)(3)(d) governing off-premise signs. This motion was seconded by Councilman Pelly and carried unanimously.

Because a person who might request more residential development signs has the opportunity to apply for a variance through the Board of Adjustment, City Council did not approve the proposed amendments to Sec. 7-13-4(b)(1)(c) that govern residential development signs.

ORDINANCE BOOK NO. 28 – PAGE 323

E. PUBLIC HEARING REGARDING THE EAGLE MARKET STREETS DEVELOPMENT

RESOLUTION NO. 13-191 - RESOLUTION AUTHORIZING A SUBSTANTIAL AMENDMENT TO THE CITY'S CONSOLIDATED ANNUAL ACTION PLANS FOR 2013-2014 FOR USE OF SECTION 108 FUNDS FOR THE EAGLE MARKET PLACE COMMERCIAL DEVELOPMENT

RESOLUTION NO. 13-192 - RESOLUTION APPROVING A HOUSING TRUST FUND LOAN REQUEST FOR THE EAGLE MARKET PLACE PROJECT

RESOLUTION NO. 13-193 - RESOLUTION AUTHORIZING CAPITAL INVESTMENT LOAN FOR THE EAGLE MARKET PLACE AFFORDABLE HOUSING DEVELOPMENT

ORDINANCE NO. 4229 - BUDGET AMENDMENT REGARDING THE EAGLE MARKET PLACE AFFORDABLE HOUSING DEVELOPMENT

Assistant City Manager Cathy Ball said that this is the consideration of (1) a resolution approving the City and HUD funding by Mountain Housing Opportunities for the Eagle Market Place housing development project and commercial redevelopment project; (2) a resolution to approve a Housing Trust Fund loan for Eagle-Market Place Project; (3) a resolution authorizing the City Manager to negotiate a development agreement with Mountain Housing Opportunities and Eagle Market Street Development Corporation; and (4) a budget budget amendment in the amount of $2,200,000 to establish a project budget from previously approved FY 2014 EDCIP proceeds. The public hearing required for the substantial amendment was advertised on August 16 and 23, 2013.

The Eagle Market Place project, to be developed by Mountain Housing Opportunities (MHO) and Eagle Market Streets Development Corporation (EMSDC), is seeking Council approval of additional Housing Trust Funds, City Economic Development Capital Project Funds (EDCIP) and final commitment of HUD Section 108 funds. The developers hope to close project construction financing on or about September 15th in order to commence construction.

History: The redevelopment of the "Block," the neighborhood in the immediate vicinity of the intersection of Eagle and Market Streets, has been sought for over 25 years. This historic center of African American commerce in Asheville was dramatically affected by the federal urban renewal program of the 1970's. Businesses relocated, property investment tailed off, and physical deterioration of buildings and vacancies resulted.

Since 1986, when the City established the South Pack Square Reinvestment District, and developed guidelines for the renovation of the historic properties there, a number of redevelopment projects have been proposed, but none have become reality. In the 2000's, the City sought and obtained an $800,000 Section 108 loan from HUD, and a $300,000 HUD Economic Development Incentive grant. However, a lawsuit brought by an affected property owner whose holdings were not included in the plan (although later dismissed) derailed the project. The City lost the EDI grant, although it was able to retain the Section 108 funds for possible later use.

As recently as 2008, EMSDC in partnership with a private developer and with City support, proposed to redevelop the property for residential condominiums. The timing of the financing proposal coincided with the collapse of the housing market, and EMSDC chose to let a pre-development agreement lapse in 2010.

Mountain Housing Opportunities (MHO), at the encouragement of City officials, agreed to explore the possibility of developing a residential rental project, using Low Income Housing Tax Credits as the

primary financing vehicle. MHO, with a $1 million commitment of City general funds and $300,000 in Housing Trust Funds, and with a $2,000,000 County general fund and $300,000 County housing trust fund commitment, successfully applied for $5 million in federal Low Income Housing Tax Credits in 2012, for 62 new units of affordable housing.

Concurrent with the funding process, MHO and EMSDC pursued design and development permits, achieving concurrence from the South Pack Square Design Review Advisory Board, the Historic Resources Commission, the Downtown Commission and the City Planning and Zoning Commission. Because the project involved the demolition of buildings contributing to the Asheville Downtown National Historic District, an agreement was reached with the State Historic Preservation Office (facilitated by the City) to mitigate the adverse effect on historic resources. An agreement was reached with the City to help meet resident parking needs. All other permits necessary to move forward with construction have been granted.

Project Description: The project is planned as 62 apartments and 10,270 square feet commercial space, of which 3,500 square feet is planned as community space.

After construction, the commercial and the residential components of the project will be separated into two independent ownerships. The commercial component will consist of (1) the entire Del Cardo building at the corner of Eagle and South Market Streets, (2) the first floor of the Ritz Building at 42-44 South Market Street, (3) the first floor of a newly constructed building at 46 South Market Street, and (4) the first floor of the Dr. Collette Building (reserved as community space). MHO has proposed that the residential component will lease a portion of the Dr. Collette Building (19 Eagle Street), which will serve as the community space and leasing office. 62 affordable housing units comprised of one efficiency unit, 40 one bedroom, 18 two-bedroom and three three-bedroom apartments will be constructed in the remainder of the Ritz, and as new construction in a 6-story building rising from the interior of the 0.61 acre site. Rents will range from $250 to $780.

As the final design plans were completed, the cost of the project increased due to the impact of site conditions, affecting foundation and second floor deck costs, the constraints of the site, the impact of preserving existing structures, and rising construction costs in general due to improved economic conditions.

Given that the cost of the project had increased approximately $3 million in a two month period, city and county staff requested a third-party cost estimate. The third-party cost estimate provided by American South, the contractor for the County courthouse expansion on College Street and the AB Tech expansion was $600,000 higher the most recent cost estimate from MHO's general contractor, Weaver-Cooke.

While the cost estimate provided by the third-party was shared with MHO, Weaver-Cooke has agreed to hold their original price. The current sources and uses chart indicate the need for additional funds in the amount of $3,367,618. MHO and EMSDC are requesting these additional funds from the City of Asheville. Should Council approve the additional funding, the City's full commitment to the Eagle Market Place development will total $4,667,618, when added to $1,300,000 in loans previously approved for this project.

An event is scheduled for Monday, August 26th to help MHO and EMSDC reached their fundraising goal. This goal is included in their sources and uses chart.

HUD.– Section 108 Loan: The total commercial space to be developed is 10,720 SF. 3,500 square feet in the Dr Collette building is proposed to be leased to the residential ownership for office, community and historical display space.

Based upon these most recent estimates, EMSDC and MHO have identified an additional funding gap of $706,867. The organizations have assumed responsibility to fill this gap through their fundraising

efforts. They have applied for a $250,000 grant for the project from the Appalachian Regional Commission, and have been named a finalist for these funds.

The third-party cost estimate indicated that the projected cost for the project does not include electrical, plumbing, HVAC and interior finishes such as sheetrock. The cost for this work is included as an alternate at a cost of approximately $150,000. MHO stated that that the systems work can be completed within the projected budget and that interior sheetrock and other interior up-fit will be the tenant's responsibility. Staff's understanding is that EMSDC intends to provide rent relief to enable businesses to complete interior finishes to suit.

EMSDC and MHO request that $718,000 of HUD section 108 funds be loaned to the project on a 40 year schedule, to be repaid from net cash flow available after payment to the primary lender and keeping the debt coverage ratio at 1.2. They request that the City provide all additional collateral that may be required from HUD to approve an amendment to the existing Section 108 Agreement between HUD and the City of Asheville; and that the City make all payments above those available on the terms requested to satisfy the current repayment schedule for the Section 108 loan, from other funds available to the City, including but not necessarily limited to future CDBG program allocations and program income. In short, the City will repay HUD the outstanding balance over 9 years, while the project will repay the City over a 40-year amortization schedule, as explained below.

The City received approval from HUD in 2002 for a Section 108 loan in the amount of $800,000 for the redevelopment of properties in the Block. The City has been repaying interest on the Section 108 loan since 2004, and for the past two years, principal payments have also been made. The repayment schedule was provided to Council. To date, a total of $691,905 has been repaid, with $391,016 paid in interest and $240,000 repaid in principal. There is a principal balance of $540,000. The fund retains a total balance of $718,000, as the City has endeavored to make as much of the original loan available as possible for an Eagle-Market place project. Only some transaction costs (for the original loan) and a portion of the principal repayment has been made from the original balance. The City has used Program Income derived from past CDBG-funded activity to make the loan payments. This Program Income would otherwise have been used to fund current activities through the annual Action Plan process.

HUD has noted that the Section 108 funds are CDBG funds, and that the national objective for which these funds are made available has never been achieved. HUD urges the use of these funds. The City also has the option to repay the loan in full in 2014. HUD requires that an amendment be proposed by the City of Asheville for the use of these funds. The Section 108 loan is an advance of future CDBG funds to the City, and it is ultimately the future CDBG funding that is pledged to repay the advance.

HUD will evaluate the collateral offered and the reliability of the source of repayment for the project.

While HUD often sees projects that repay the Section 108 loan from project revenues alone, this is not a HUD requirement. EMSDC has projected a below-market rent structure for the project. EMSDC indicates that rents and expenses have been projected conservatively to avoid creating unrealistic expectations, and to enable marketing to small and start-up businesses, especially those who participate in the BLOCK Academy. EMSDC also has the stated goal of marketing directly to minority-owned business, and maximizing leasing of space to minority-owned businesses. Additionally, 3,500 square feet of the commercial space is proposed to be used as the housing rental office and as community space, including space for a historical display. The proposed lease rate for that space is $5/square foot (about $15/sq ft below market rates).

The result of this proposed rental structure is that the City of Asheville is requested to make-up the required payments to HUD for the remaining term of the Section 108 loan, and recover those payments over time as the project can afford to make them.

The proposed payment to the City during the remaining 9-year term of the Section 108 agreement between the City and HUD is $7,153. The City's obligation to HUD during that period is

$704,000. Assuming City Council approval of the developer request, the City would repay the balance of the Section 108 loan using CDBG funds or other City funds dedicated for that repayment. Staff's understanding is that the actual loan payment would be determined annually, based upon net income available after repayment of the first position loan, while ensuring a debt coverage ratio of 1.2.

The first position loan is being provided by NeighborWorks Capital. This loan must be replaced with other funds in three years. Staff requested information from MHO on how the loan would be replaced. MHO provided the following information:

> *"Based on conversations with the Initiative in recent weeks, we do not expect them to discontinue their commercial loan program for member Community Development Corporations (including MHO). It's my understanding that their loan capital did not originate from the State Legislature, but from private investments. After three years, we expect the commercial properties at EMP to be eligible for commercial loans from private banks as well, to take out the NW Capital funds."*

HUD requires sufficient collateral to fully secure the Section 108 loan. The maximum loan to value HUD will accept to fully collateralize the loan is 80% of all loans for the project.
The Section 108 program allows the advance use of CDBG funds for projects that meet both National Objective and Program Activity requirements. The Section 108 loan is subject to all CDBG regulations. HUD has provided the following guidance for this project:

Eligibility: Community Economic Development Project carried out by a CBDO [570.204(a)(2)] and [570.703(h)(2)]: Community economic development project includes activities that increase economic opportunity, principally for persons of low- and moderate-income, or that stimulate or retain businesses or permanent jobs, including projects that include one or more such activities that are clearly needed to address a lack of affordable housing accessible to existing or planned jobs and those activities specified at 24 CFR 91.1(a)(1)(iii); activities under this paragraph may include costs associated with project-specific assessment or remediation of known or suspected environmental contamination;

National Objective: Spot slums and blight 24 CFR 570.208(b) (2)

Public Benefit: Generally, the project must create at least one job (FTE) per $35,000 of CDBG invested. That is 21 jobs at $718,000.

Housing Trust Fund Request: The cost for the affordable housing units is greater than previously funded projects. The average cost per unit for Low Income Housing Tax Credit developments in the Asheville Regional Housing Consortium in past five years has been $127,700. The cost per unit in this project is $240,000. The average local subsidy per unit (including federal HOME funds) has averaged $9,332 with a range of $2,500 to $17,500. The estimated combined City/County subsidy per unit for Eagle Market Place is $120,000.

The proposed additional funding proposed for the residential element is sourced from the EDCIP and the Affordable Housing Trust Fund (HTF). The estimated funding gap in excess of the previously committed $1.3 million is $3.4 million.

One option that staff has proposed for funding part of the $3.4 million gap is to use an additional $500,000 from the Housing Trust Fund for Eagle Market Place. If approved, the HTF loan for the project would increase from $300,000 to $800,000. The existing $300,000 loan was approved at 2% interest-only payments with a term of 20 years. The same terms are requested for the increased amount. The annual payment amount would be $20,000.

The history of the $300,000 HTF loan previously approved for Eagle Market Place:

- March 8, 2011 — City Council approval of $300,000 loan, 2% interest-only payments, 20-year term.

- October 23, 2012 — City Council approval of release of HTF funds to MHO; 100% draw immediately for project "soft" costs
- January 22, 2013 — Eagle Market Place HTF Loan Agreement is executed and $300,000 disbursed to MHO for the purchase of the "Ritz" property. The City's loan is secured by a second security interest in the subject property.

The residential element of the project supports Council's strategic goal of Affordable Housing and Community Development, by increasing the number of affordable housing units within the City limits to encourage density. The commercial element supports the goal of Economic Growth and Financial Stability, by helping create mixed use neighborhoods, contributing to downtown vitality and supporting job growth.

Pros:

- The community has attempted for years to rejuvenate the Eagle Market Street area, only to see failure. The Eagle Market Place project represents an opportunity to see this effort through to completion.
- The project's impacts will benefit downtown Asheville, and may extend investment and redevelopment interest southward toward the Mt. Zion Church properties.
- The project would yield 10,000 square feet of rehabilitated commercial space in downtown Asheville, and has the goal to recruit minority-owned job-creating businesses into this space.
- The project will be energy efficient with Energy Star and System-Vision certification.
- If the affordable housing portion of this project is not completed the state would lose federal Low Income Housing Tax Credits (LIHTC) earmarked for this project. The housing tax credits cannot be transferred to another project in the city of Asheville or in the state. The loss of credits could negatively affect future applications for credits.
- The proposed project has a significant economic impact. Construction wages and material purchases, especially with the project's proposed use of minority contractors, will positively affect the local and regional economy. MHO, EMSDC and the project general contractor, Weaver-Cooke, have made a commitment to maximize the use of minority contractors and "Section 3" employees.
- The revitalization of the "Block" has been a City/County priority for 25 years.
- The proposed project will create a new locational efficient residential development, particularly affecting downtown service-sector employees. The project will create housing that will be affordable for at least 30 years.

Cons:

- Plumbing, electrical and HVAC for the commercial space in not provided in the base bid. The additional cost for this work is estimated at $150,000.
- The cost of interior finishes is not included in the commercial element budget.
- Staff has not reviewed a marketing plan for the commercial space.
- The projected commercial rents are lower than the rents cited by the appraisal in determining the value of the completed project.
- The proposed Section 108 repayment schedule will require ongoing subsidy from CDBG allocations and program income for the full remaining period of repayment of the Section 108 loan. The exact amount of the subsidy is not clear, since the repayment from the project is indexed to net income after superior loan obligations are paid.
- The use of CDBG funds to further subsidize the project during the initial eight years will affect funding available for other CDBG-eligible activities in Asheville.
- There are some unknowns about the housing project cost. Based on the third party review, the project could cost an additional $400,000.
- In order to receive the full tax credit, the housing units must obtain a temporary certificate of occupancy (TCO) by December 31, 2014. Receiving a TCO late could result in penalties. Weaver-Cooke believes the project can be completed within 14 months. The third party contractor indicated that if they were bidding the project, 16 month construction period would be the least amount of time they could complete the project.

- Many projects will be delayed in order to provide additional funding for this project. A revised EDCIP was provided to Council to demonstrate the potential changes to the original conceptual EDCIP approved by City Council in June 2013. Additionally, funding a portion of this project with Affordable Housing Trust Fund Money will decrease the funding for additional affordable housing units available in the City.

The project financing would not require these funds until the 16th month of construction. Should Council choose to approve this request, staff would recommend that $3,867,618 from the EDCIP and $500,000 from Affordable Housing as the sources for the funding.

Funding sources for Council's approved EDCIP provides $2,200,000 in pay-as-you-go (pay-go) funds in FY 2014 and 1,764,250 in pay-go funding in FY 2015. Due to the project's construction cash flow requirements, approval of this request will commit all of the EDCIP pay-go investment over the next two years to the Eagle Market Place project. The budget amendment will create a multi-year project budget that will allow the City to carry over the $2,200,000 from FY 2014 EDCIP funds to be available in FY 2015 when the payment request is expected to be received. Staff has updated the EDCIP to reflect the fact that the FY 2014 and FY 2015 pay-go investments will go toward the Eagle Market Place project.

The HTF loan request, if approved, would total $800,000 with 2% interest-only payments for a 20 year term. The annual interest payment would be $20,000. This amount includes the $300,000 previously committed and expended on the purchase of the Ritz property.

An event is scheduled for Monday, August 26th to help MHO and EMSDC reached their fundraising goal. This goal is included in their sources and uses chart.

The Housing Trust Fund currently has an available loan balance of $769,621. The project, if approved at the requested amount, would leave an anticipated balance of $269,621 to lend for other developments. Due to the project's cash flow requirements during construction, the Housing Trust Fund investment could be spread over two years, lessening its impact to support affordable housing developments this year.

It has been the policy of the HCD Committee and Council to request proposals from developers for the use of Housing Trust Funds one-time annually, with decisions typically made in December or January. Should these funds be allocated now, the range of proposals that may be considered at that time will be limited.

Current Housing Trust Fund policy limits the amount of funds that may be loaned to one project as follows:

Per-unit Subsidy Requested	Maximum Loan Amount
More than $20,000	Ineligible
$15,001 to $20,000	$150,000
$10,001 to $15,000	$200,000
$ 5,001 to $10,000	$300,000
Less than $5,000	$500,000

Based upon the amount requested per unit ($12,097), this project is eligible for a maximum loan of $200,000. The current policy maximum per project is $500,000. To grant the request, both of these policies will need to be waived.

In summary, the total requested City investment from EDCIP and Housing Trust Funds is approximately $4.7 million. This would require a new total commitment of $3.4 million.

This investment must be loaned to the project in order to protect the tax-credit equity investment. However, it is unlikely that the City will recover this financial investment due to the nature of the project

and its anticipated cash flow. Maintaining affordability of the rental units over the 30+ years is only achieved through no debt or low performing debt. Therefore, the investment must be structured as a low- or no-interest loan, with an expectation that the debt will be either renewed or forgiven upon its maturity.

Staff requests the following actions:

- City and HUD funding by Mountain Housing Opportunities for the Eagle Market Place housing development project and commercial redevelopment project:
- Authorization for the City Manager to negotiate a development agreement with Mountain Housing Opportunities (MHO) and Eagle Market Street Development Corporation (MHO) ; and,
- Adopt a budget amendment in the amount of $2,200,000 to establish a project budget from previously approved FY 2014 EDCIP proceeds.

If Council approves this investment, staff recommends the following conditions on for development agreement:

1. Second lien security interest in the residential project;
2. Project completion unconditionally guaranteed by Mountain Housing Opportunities;
3. Last funds disbursed to the project and only upon the project's completion as represented by MHO;
4. The funding approved at this time represents the final and full funding commitment of the City to the project;
5. City staff participates in all monthly progress meetings. Full documentation of project expenses to City; all change orders affecting project financing to be disclosed at least two weeks before presentation for approval. Additionally, the city review all change order requests and approve change orders, over $25,000.
6. Any inspection reports from MHO/EMSDC/TD Bank's representatives are provided to the City within two weeks of the inspections.
7. MHO/EMSDC would comply with all reporting requirements from the federal monies in the project.
8. MHO/EMSDC work with the City on the City's financing structure so that it is most advantageous to the City. This could require the ability of the City to own some portion of the project in order to debt finance the loan.
9. Qualification for LIHTC: Then City commitment to be conditional on MHO meeting the requirements for full delivery of the LIHTC. City funds will only be disbursed if the City is assured this condition will be met.
10. Second lien security interest in the commercial project, additional collateral may be required pending HUD's review of the project;
11. Project completion unconditionally guaranteed by Mountain Housing Opportunities, to include fully operational systems, with only required tenant up-fit being finishes such as sheet rock or specialty finishes;
12. EMSDC enter into a CDBG Contract with the City of Asheville, and agree to meet all regulatory requirements, including the documentation of job creation as necessary to meet the programmatic requirements in a final amended Section 108 agreement with HUD.

Mayor Bellamy opened the public hearing at 7:00 p.m.

The following individuals spoke in whole-hearted support of this important project, that has lingered on for a long time, for the historic neighborhood and the wider community:

Mr. Scott Dedman, Executive of MHO
Mr. Mike Romero, Board member of MHO
Mr. Marvin Chambers
Ms. Caldwell, commercial tenant for Eagle Market Place
Owner of Limones
Mr. Mike Campbell, Board member of EMSDC

Mr. Darryl Hart, Chairman of EMSDC
Mr. Matthew Bacoate Jr., Board member of MHO
Mr. David Nutter, Board member of EMSDC
Ms. Stephanie Swepson-Twitty, President and CEO of EMSDC

Mayor Bellamy closed the public hearing at 7:23 p.m.

Council members were very pleased to see this project come to life.

Mayor Bellamy said that members of Council have previously received copies of the resolutions and ordinance and they would not be read.

Councilman Pelly moved for the adoption of Resolution No. 13-191. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 443

Councilman Smith moved for the adoption of Resolution No. 13-192. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 444

Vice-Mayor Manheimer moved for the adoption of Resolution No. 13-193_. This motion was seconded by Councilman Hunt and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 445

Councilman Bothwell moved for the adoption of Ordinance No. 4229. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 326

Upon inquiry of Mayor Bellamy, Assistant City Manager Ball said that staff will bring back the development agreement for Council consideration at their September 10, 2013, meeting.

V. UNFINISHED BUSINESS: None

VI. NEW BUSINESS:

A. RESOLUTION NO. 13-194 - RESOLUTION APPROVING THE RECOMMENDATION OF THE HOUSING & COMMUNITY DEVELOPMENT COMMITTEE FOR THE 2014 OUTSIDE AGENCY PROGRAM

Community Development Director Jeff Staudinger said that this is the consideration of a resolution approving of the recommendations of the Housing & Community Development (HCD) Committee for the 2014 Outside Agency Program.

The HCD Committee received applications from 13 eligible organizations for Outside Agency funding for 2014. The Committee considered these applications at their meeting of August 8, 2013, and now recommends 9 applications for funding. The recommendations are:

Agency	Purpose	Amount

Asheville Buncombe Community Relations Council	Provide services to improve relations between City residents and law enforcement; and act as a local resource for Asheville residents who feel that they have been discriminated against in housing, employment, law enforcement and schools.	35,000.00
Asheville Design Center	Assist Hall Fletcher School develop the first phase of the Outdoor Learning Center.	4,000.00
Asheville Green Works	Act as a liaison between city, other governments and community agencies and citizens to improve the environment.	8,000.00
Child Abuse Prevention Services	Reduce/prevent child abuse, strengthen families, and assist children and families who have experienced abuse through prevention education, parenting education, and crisis intervention/counseling.	5,000.00
Children First	Support Learning Center programs at Pisgah View, Deaverview and Woodbridge communities.	20,000.00
Green Opportunities	GO Kitchen Ready program to prepare participants for jobs in Asheville restaurant and hospitality industry.	25,000.00
Homeward Bound -A HOPE	A HOPE Day Center outreach, intake and support for homeless persons, support for weekend operations.	25,900.00
United Way 2-1-1	Community service information line that connects people to community resources.	2,500.00
YWCA	The MotherLove program helps pregnant and parenting teens stay in school, access higher education and vocational training, develop the skills and knowledge to become strong parents and delay another teen pregnancy.	8,000.00
TOTAL		**$133,400**

This action complies with the City Council Strategic Operating Plan in (1) Affordable, buy supporting initiatives to end homelessness; (2) Safe, by supporting recreation and employment alternatives for youth at risk of gang exposure; (3) Job Growth and Community development, by continuing to support the Economic Development Coalition; and by considering tools and programs the City can use to promote job growth and creation.

Pros:

- Approval of Outside Agency Grants provides operating support to Asheville- based organizations that are providing direct services for Asheville residents.

- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee.

Con:

- Budget constraints continue to curtail the availability of funds; supported organizations will need to find alternate sources of program support. All worthy proposals could not be funded.

Funding is included in the FY 2013-14 adopted General Fund budget for the Outside Agency Grants recommended above.

The HCD recommends approval of the 2014 Outside Agency Program grants as presented.

Councilman Davis, Chair of the HCD Committee thanked Councilman Pelly and Councilman Smith for their hard work on this Committee. He was pleased that Council provided the funding and noted that this year their emphasis was on helping young people.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 13-194. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 447

B. RESOLUTION NO. 13-195 - RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Affordable Housing Advisory Committee.

The terms of Barber Melton, Scott Dedman, Lindsey Simerly and David Dills expire on September 1, 2013.

The following individuals have applied for the vacancies: Robin R. Raines, Brandee Boggs and Dawn Nelson.

On August 13, 2013, it was the consensus of the Boards & Commissions Committee, and consensus of City Council to (1) reappoint Ms. Melton, Mr. Dedman and Ms. Simerly; and (2) interview Robin Raines.

Councilman Smith moved to (1) reappoint Barber Melton, Scott Dedman and Lindsey Simerly Dills as members to the Affordable Housing Advisory Committee, to each serve a three year term, terms to expire September 1, 2016, or until their successors are appointed; and (2) appoint Robin Raines to serve a three-year term, term to expire September 1, 2016, or until her successor is appointed.. This motion was seconded by Councilman Hunt and carried unanimously.

RESOLUTION BOOK NO. 35 - PAGE 448

C. RESOLUTION NO. 13-196 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE CRIMESTOPPERS BOARD OF DIRECTORS

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville-Buncombe Crimestoppers Board of Directors.

Mr. David Herbert has resigned from the Board, thus leaving an unexpired term until June 30, 2014.

The following individuals have applied for the vacancy: Fred Cooke and Anthony Mitchell.

On August 13, 2013, it was the consensus of the Boards & Commissions Committee and consensus of Council to interview Mr. Cooke and Mr. Mitchell.

Councilman Hunt moved to appoint Anthony Mitchell as a member of the Asheville-Buncombe Crimestoppers Board of Directors, to serve the unexpired term of Mr. Herbert, term to expire June 30, 2014, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

In addition, at Mayor Bellamy's request, and Council's concurrence, Councilman Pelly moved to request the Citizens-Police Advisory Committee appoint Mr. Fred Cooke to one of their two ad hoc voting members seats. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 449

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Grant Millin provided Council with a draft Asheville happiness initiative proclamation.

Lawsuits

On August 9, 2013, the City was served with a Complaint in the matter of Suzayne Reeves, RBC Centura Bank, and the City of Asheville. This is a tax foreclosure for 62 Ivanhoe Avenue in the City of Asheville. This matter will be handled in-house.

On August 19, 2013, the City was served with a Complaint in the matter of David Wade Hall, Mrs. David Wade Hall, Karen M. Hall, John Doe Hall, Citizens Fidelity Bank & Trust Company, and the City of Asheville. This is a tax foreclosure for 220 Hazel Mill Road in the City of Asheville. This matter will be handled in-house.

Closed Session

At 7:42 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: (A) State of North Carolina; Metropolitan Sewerage District of Buncombe County; and City of Asheville; and (B) Lisa Richmond (formerly "Lisa Roth"), City of Asheville, Timothy Splain, Michael Downing, William Hogan, and Gary Jackson. The statutory authorization is N. C. Gen. Stat. 143-318.11(a)(3); (3) To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1); and (4) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 9:05 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

VIII. ADJOURNMENT:

Mayor Bellamy adjourned the meeting at 9:05 p.m.

CITY CLERK MAYOR

36

Tuesday – September 10, 2013- 4:00 p.m.
First Floor North Conference Room - City Hall

Worksession

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

North Asheville Dog Park

Assistant City Manager Cathy Ball said that this is a high level overview of the North Asheville dog park process to date. She said the City prepared a Parks Master Plan that direct and guide staff. The Plan notes that it is a low priority to add new parks unless they meet certain criteria. That is because of the limited resources staff has. The Plan also shows shortages and needs in each of the areas. In the north Asheville area, the Plan recommends that continue to maintain existing parks; look for opportunities to add additional park components and amenities to existing parks; and if possible, add a neighborhood park to the north end of the sub-area. She noted that the Plan designates north Asheville as north of W.T. Weaver Boulevard. City Council also adopted its Strategic Plan which an outcome of a dog park in north Asheville would be where people can enjoy a high quality of life. Finally, there is a budget process that identifies capital projects, prioritizing them, and making recommendations. She showed the 5-year capital budget, honing in on what was in the Parks & Recreation budget.

Regarding the issue of the dog park in north Asheville, she noted the City currently has two dog parks - one in west Asheville and one in east Asheville. A north Asheville community group has been active for over a year in pursuing an opportunity to be able to locate a dog park in north Asheville. The developer for the Thoms Estate has shown a willingness to donate land for the purpose of a passive park and dog park. On May 14, 2013, City Council approved $5,000 to support and endorse efforts to establish a dog park. She showed a map of the area, noting that the Killian House is not a part of this project.

She said that developer will not agree to give the City the land until we sign a Memorandum of Understanding (MOU) with the developer that basically outlines the conditions of which the land will be turned over. Most of those are strongly related to the design of the facility; the maintenance and upkeep of it; and whose responsibility it will be. If the developer does not agree to the MOU based on the ability to provide maintenance, then we would have to be another process of a new site selection and then work with that property owner. If the developer does agree to the MOU, then it would be moved forward to develop the scope of work, request for proposals to do the design (the City would contribute $5,000 and the citizens group would provide the match of $5,000 for the design purpose), and then identifying funding. There has been discussion about whether the capital can be raised by the public (any government money) and it may not be a possibility. It may require private funding. For public funding, staff looks to see if it meets a public purpose, if it aligns with Master Plan, and if it aligns with the Strategic Plan. If it does, then it is prioritized during the budget process. Again, there is a process to prioritize funding and projects. Because there is an established 5-year capital plan, one of the existing projects in the 5-year capital plan would have to come off the list.

She was not prepared to discuss other considerations because without having a design and a lot of other information, staff can only speculate what some of the other issues would be,

some being, but are not limited to: environmental, noise, water quality, traffic, Killian House, parking, driveway location, multi-use path location, and other park amenities.

She then reviewed the following two options: Option 1 - If community group serves as a steering committee, staff would (1) complete/execute the MOU; (2) develop scope of work; (3) develop Request for Proposals; (4) select consultant; and (5) complete design and environmental. Or, Option 2 - If community group serves as the lead and staff provides backup technical assistance; staff would (1) complete/execute the MOU; (2) develop design criteria and provide to community group; and (3) provide technical review of design with $5,000.

Mayor Bellamy supported Option 2 because the original request was that the City work with the community as a community-driven project. She noted that we have a Master Plan and a Capital Improvement Plan that many people have worked hard on to get their projects prioritized and funded. She felt that if the dog park rises up to more of a commitment from the City, then something has to come off Capital Improvement Plan. She also thought there was an Option 3 - that the dog park go through the normal process for prioritizing and funding. Here again, she didn't think we should supersede what is already planned and what other people in our community have waiting for.

In response to Councilman Hunt, Ms. Ball noted that Option 2 was the understanding of the community.

Councilman Bothwell wondered if there was any consideration that it be just a walkable park for people who want to walk their dogs from the surrounding neighborhoods. He felt the City should not spend anymore time and money on the dog park until the environmental impact of the dog park is determined.

Councilman Hunt felt that the potential for a gift of land and potential for fund-raising to fund the construction are reasons for him to consider doing this out of order of the Master Plan. If this happens, he suggested it be entirely with private donated money. Another cost factor is the annual maintenance cost. He said that ideally locating this at another site that is more publicly accessible and more walkable, but he didn't think that was feasible. He was open to seeing this move forward, but there are key feasibility questions that need to be addressed before spending money on engineering and site planning.

City Manager Jackson said that the MOU is drafted with a standard of maintenance that we think we can perform but are not sure it will match with their expectations. He said that staff will submit it to the property owner after this meeting and we will then know their reaction to it. The City can only commit to the standards of development for maintenance of the existing dog parks. We will seek to get a clear answer on the MOU before we commit any of the City's money or the private money. We will report that back to Council and then staff can then come back with what preliminary traffic counts can be done, what we think the environmental assessment will cost, how it links to the transportation system, etc. But before we commit any City or private resources, we need to know whether the property will be available.

Councilman Davis was concerned about spending money on the environmental study because we already have a dog park along the French Broad River. And, if we are not in violation of the law there, he didn't think we would be in violation at this proposed dog park.

City Manager Jackson said that we are here because there isn't any money in the Capital Improvement Program for land acquisition. Volunteers in the community have worked hard, along with Councilman Pelly, to try to identify a location. He reiterated that before we spend money we must confirm that this is a genuine opportunity. Then the next dollars will be the private dollars to do the feasibility work and the environmental studies necessary. City staff is still abiding by the policy direction and Master Plan, but are responding to volunteers in the community who are trying to obtain land for an opportunity we would not have had.

Councilman Pelly said he has been meeting with the Friends of North Asheville Dog Park since last fall and the initial discussion was the location. In the 28804 area, this was the only location with potential. The Friends met last night and there was an informal consensus that they are prepared to raise $100,000 towards the capital and maintenance associated with the development of this dog park. One idea circulated regarding maintenance was raising the license fee for a dog owner from $10/year to $15-20/year which would generate more funds to be dedicated to maintenance of all three dog parks. He asked staff to look at that question as well.

With Council's concurrence; City Manager Jackson said that the fee structure would be reviewed at the Finance Committee level in concert with the budget process.

Vice-Mayor Manheimer noted that there is a lot of information that we need to know and that choosing Option 2 as a direction is not committing ourselves to creating the dog park. We are going to explore all the issues concerning environmental impacts, traffic, cost of construction, cost of maintaining it at a satisfactory level, etc. We are only at this point affirming a direction, but it will come back to Council after the information is obtained.

Councilman Smith also favored Option 2. Because we have a lot of deferred maintenance on our parks, he will be interested in seeing the private capital show up and will be interested in seeing the maintenance numbers. It's just not another project that might get bumped, but it's also the on-going maintenance that can suffer.

In response to Mayor Bellamy, Vice-Mayor Manheimer said that Resolution No. 13-107 says that City Council supports and endorses efforts to establish a dog park. The dog park may not be successful because the capital required may be too much. The resolution is silent regarding long-term maintenance. Councilman Pelly noted that the dog park will be contingent upon the successful negotiation of the MOU.

Ms. Ball said that first step is to negotiate the MOU and that will be the first test on whether we move forward or not. Staff is prepared to do that next week. Under Option 2, the community will have to speak to how long it will take for them to move through the process of the design.

In response to Mayor Bellamy's request for timeline, Assistant Parks & Recreation Director Debbie Ivester said that she has worked with the community's steering committee on identifying tasks with dates and will update the existing timeline, which is on the City's website. City Manager Jackson noted that Ms. Ivester is the staff contact for this project.

It was the consensus of Council to reaffirm Option 2.

At 4:55 p.m., Mayor Bellamy adjourned the worksession.

Tuesday – September 10, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Bellamy led City Council in the Pledge of Allegiance.

INVOCATION

Councilman Bothwell gave the invocation.

I. PROCLAMATIONS:

A. RESOLUTION NO. 13-198 - RESOLUTION OF APPRECIATION TO JEFFREY B. RICHARDSON

Mayor Bellamy read the resolution of appreciation to Jeffrey B. Richardson, current Deputy City Manager who has taken the position as County Manager in Cleveland County effective October 1, 2013.

On behalf of City Council, Mayor Bellamy expressed Council's great appreciation to Jeff for meritorious service, loyalty and dedication to the City of Asheville and its citizens.

Deputy City Manager Richardson thanked City Council and his family for their support. He also thanked City employees for the responsiveness.

Councilman Pelly moved to adopt Resolution No. 13-198. This motion was seconded by Councilman Hunt and carried unanimously.

RESOLUTION BOOK NO. 35 - PAGE 451

B. PROCLAMATION PROCLAIMING SEPTEMBER 23-27, 2013, AS "MINORITY ENTERPRISE DEVELOPMENT WEEK"

Mayor Bellamy read the proclamation proclaiming September 23-27, 2013, as "Minority Enterprise Development Week" in the City of Asheville. She presented the proclamation to Mr. James Lee, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 27, 2013

B. RESOLUTION NO. 13-199 - RESOLUTION ACCEPTING ESTES COURT AS A CITY-MAINTAINED STREET

Summary: The consideration of a resolution to accept Estes Court as a city-maintained street.

Code of Ordinances sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. The developer submitted a written request via e-mail message on June 22, 2013 asking the City to accept the subject street as a city-maintained street.

Estes Court from Davenport Road to its dead-end is a developer-constructed street that has an average width of 20 feet with stand-up curb, a length of 0.09 mile, and a right-of-way width of 35 feet.

Transportation Department staff and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual. In addition, the developer's engineer has furnished a signed and sealed letter verifying that the subject street was constructed to current City of Asheville standards.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept Estes Court as a city-maintained street.

RESOLUTION BOOK NO. 35 - PAGE 452

C. RESOLUTION NO. 13-200 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH SITEWORK STUDIOS FOR FIVE POINTS ROUNDABOUT IN THE TOWN BRANCH AND CLINGMAN FOREST GREENWAY PROJECT

Summary: The consideration of a resolution amending the contract, in the amount of $125,000, with Sitework Studios to increase the existing contract to add the design and preparation of engineering construction documents for the "Five Points Roundabout" in the Town Branch and Clingman Forest Greenway project for this new project element.

On January 8, 2013, City Council approved the contract with Sitework Studios to develop architectural and engineering construction documents for the Clingman Forest and Town Branch Greenways, and to conduct other necessary pre-development activities for a project budget not to exceed $370,000.

The River Arts District Transportation Improvement Plan (RADTIP) included a schematic design for a new roundabout to replace the existing five-way stop traffic pattern at the "Five Points" intersection of Clingman Avenue Extension, Depot Street, Roberts Street, and Bartlett Street. This intersection is integral to many of the public improvements now in the design stage in the River Arts District and general "East of the Riverway" area, including the Clingman Forest and Town Branch Greenways and the Craven and Roberts Streets improvements related to the New Belgium Brewery development. The decision not to fund the RADTIP design and construction documents from the TIGER II planning grant, but rather from the EDCIP released funds from TIGER II for this roundabout element. Those funds are sufficient to fully fund the new roundabout design and construction documents preparation.

The Federal Transit Administration has indicated that adding this element is an acceptable change in the scope of work for the TIGER II grant.

The development of final design and construction documents for this roundabout will enable the City to meet commitments for public sector improvements to accommodate truck traffic from New Belgium Brewery; will provide for safe bicycle and pedestrian access from residential neighborhoods to the Wilma Dykeman Riverway; and will support improved traffic management in the Clingman Avenue Extension/Depot Street area.

In consideration of amending the Sitework Studios contract, staff consulted with the Federal Transit Administration, as well as internally, to determine that the amendment was consistent with federal procurement procedures and city procurement policies.

This contract amendment of $125,000 is fully funded by Department of Transportation TIGER II Grant funds which have already been budgeted. Pledged cash resources and City in-kind staff hours are more than sufficient to meet the match required by the grant. The result of this planning activity will be a "construction ready" transportation infrastructure project, with a well-developed cost estimate for CIP or EDCIP budget purposes. EDA grant funds for Roberts/Craven Street may be able to be used to help fund the construction.

City staff recommends City Council to approve an amendment authorizing the City Manager to increase the contract with Sitework Studio by an amount not to exceed $125,000 to develop the engineering construction documents for the Five Points Roundabout.

At Councilman Hunt's request, Transportation Director Ken Putnam explained the pedestrian and safety aspects of the roundabout.

Mayor Bellamy felt this was a good opportunity to partner with Healthy Buncombe regarding bicycle safety in their bicycle rodeos.

RESOLUTION BOOK NO. 35 - PAGE 454

D. RESOLUTION NO. 13-201 - RESOLUTION ADOPTING CITY COUNCIL'S 2013-14 STRATEGIC PLAN

Summary: The consideration of a resolution adopting City Council's Strategic Plan for Fiscal Year 2013-2014.

At the March 11, 2013, Council Retreat, Asheville City Council discussed and prioritized focus areas for the coming year. During the retreat, it was noted that presenting goals in a way that highlights the interconnected nature of Council's strategic goals would be ideal. The 2013-2014 strategic focus areas are broken into three broad categories that relate to economic systems, social systems and environmental systems.

The focus areas are:

Economic Growth & Financial Sustainability - Seek to ensure a sustainable financial future for Asheville by promoting an environment where citizens and businesses want to live, work and invest.

Affordable Housing & Community Development - Seek to ensure a sustainable future for Asheville through a standard of living that is affordable and attainable for people of all incomes, life stages and abilities.

High Quality of Life - Seek to ensure a sustainable future for Asheville by promoting a safe environment where basic needs are met and all people can enjoy a high quality of life.

During the 2012-2013 fiscal year, City staff continued to provide City Council with quarterly management reports on performance tied to the organization's adopted strategic goals and related initiatives.

Moving forward with the comprehensive quarterly management report, Council will continue to incorporate quarterly updates from each Council Committee Chair. Each Chair will present to the Council on policy initiatives designed to further achievement of the strategic goals.

Pros:

- Provides Council and City staff with an overall direction and goals of the organization.
- Provides Council and City staff with a measure of success.

Con:

- None noted.

The Strategic Operating Plan will provide direction for Council and the Executive Management Team throughout the budgeting process.

City staff recommends that City Council adopt the resolution reaffirming Council's Strategic Operating Plan.

RESOLUTION BOOK NO. 35 - PAGE 455

E. RESOLUTION NO. 13-202 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDS DONATED BY CITIZENS GROUPS FOR THE ASHEVILLE POLICE DEPARTMENT

ORDINANCE NO. 4230 - BUDGET AMENDMENT TO APPROPRIATE FUNDS INTO THE CITY'S SPECIAL REVENUE FUND BUDGET

Summary: The consideration of (1) a resolution authorizing the City Manager to accept funds donated by citizens groups; and (2) a budget amendment in the amount of $7,000 to appropriate these funds into the City's Special Revenue Fund budget.

The Asheville Police Department (APD) has received $7,000 in donated funds from the following sources: Brooks Howell Home for the Baker District - $1,000; NADDI Prescription Drug Diversion project - $5,000; and Target Stores for the Police Explorer Program - $1,000. In order for APD to be able to spend these funds, Council must first approve a budget amendment authorizing use of those funds in the City's Special Revenue fund. These funds are to be used by the APD as needed for specific purposes. The APD has requested that these funds be applied to the APD Private Donations project account to assist with the above listed projects. The APD wishes to acknowledge the generosity, and express gratitude for their support of the Asheville Police Department.

Appropriating these donations in the Special Revenue Fund has no fiscal impact on the City's General Fund Budget.

City staff recommends City Council approve: (1) a resolution authorizing the City Manager to accept funds donated by citizens groups; and (2) a budget amendment in the amount of $7,000 to appropriate these funds into the City's Special Revenue Fund budget.

RESOLUTION BOOK NO. 35 - PAGE 460
ORDINANCE BOOK NO. 28 - PAGE 328

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ECONOMIC DEVELOPMENT COALITION FOR ASHEVILLE-BUNCOMBE COUNTY UPDATE

Mr. Paul Szurek, Chairman of the Economic Development Coalition for Asheville-Buncombe County, along with the help of Mr. Ben Teague, Executive Director of the Economic Development Coalition, briefed Council on their activities.

On behalf of City Council, Mayor Bellamy thanked Mr. Szurek and Mr. Teague for their leadership and the entire Coalition for their dedication.

Councilman Smith noted that Council will be revisiting their economic development incentive policy and look forward to their involvement.

Councilman Hunt, liaison of the Economic Development Coalition, thanked the Coalition for their partnership.

Councilman Bothwell appreciated the sustainability piece of the Asheville 5 x 5 Plan for Job Creation.

B. ASHEVILLE SISTER CITIES UPDATE

Mr. Greg Clemons, Chair of the San Cristobal de las Casas Committee, and Ms. Karon Korp, Chair of the Valladolid Committee, updated City Council on recent programs and activities in their respective Sister Cities. Mr. Clemons presented a letter from the Mayor of San Cristobal to Mayor Bellamy.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING AGRICULTURAL USES

At City staff's request, Councilman Hunt moved to postpone this public hearing until September 24, 2013. This motion was seconded by Councilman Bothwell and carried unanimously.

V. UNFINISHED BUSINESS:

A. ZONING ANALYSIS ON PROPERTIES LOCATED ON CALEDONIA ROAD AND FINALEE STREET

Mayor Bellamy said that the impacted property owner contacted her and said that he would not be able to be present at this meeting. She asked if Council wanted to postpone this discussion until a date he could be present. It was the consensus of Council to move forward with the presentation because this is more to gauge Council's desire to move forward with the rezonings and then the formal process will start. There will be other opportunities to participate.

Planning & Development Director Judy Daniel said that on September 25, 2012, at the request of the Kenilworth Residents Association, the City Council requested that the Planning staff evaluate the zoning of the properties owned by Caledonia LLC and other associated properties in the area and return to the Council with an analysis and zoning recommendation for these properties. All these properties were zoned Institutional at that time. That report was prepared but presentation to the Council was deferred until February at the request of the Kenilworth Residents Association and then deferred again at their request until this meeting.

These properties include the site of the Kenilworth Inn Apartments and adjoining properties to the east and south. Since the time of the original request there have been several changes to the properties involved including:

- A subdivision creating PIN: 9648714686; that was deeded to RiverLink
- A subdivision of a portion of PIN: 9648710317 to create 9 lots fronting on Finalee
  - Two of those lots are now owned by Isaac Grossman
  - A rezoning of those lots from Institutional to RS-8 approved by Council on August 13
- A subdivision of a portion of PIN: 9648714886 to create 6 lots fronting on Caledonia
  - A rezoning of 4 of those lots from Institutional to RS-8 approved by Council on August 27

This analysis and staff recommendations have been updated to reflect the changes to the properties involved resulting from those changes.

In considering the zoning of these properties the staff has taken into consideration the characteristics of the properties, the existing zoning, the availability of infrastructure for development, the city's 2020 Comprehensive Plan, the Council's adopted policies and goals, and prior Council actions and discussion regarding these properties.

The key concerns at the heart of the ongoing dispute between the property owner and the Kenilworth residents are conflicts regarding density potential of the Institutional zoning and land uses allowed in relationship to city transportation standards related to the carrying capacity of the access roads (Caledonia and Finalee), and city standards related to building potential on steep slopes.

The staff continues to believe that Institutional is not appropriate zoning for any of these properties. Regardless of any other considerations, the Institutional Zone allows a wide range of non-residential uses, many of which could be inappropriate at this location due to access and compatibility issues. The Institutional Zone is a relic of a time when the Kenilworth Inn operated as a medical facility. When comprehensive rezoning was implemented in this area in 1980 a zone was chosen to reflect the existing use on the property (a common practice at the time) rather than appropriate zoning for future potential uses taking into consideration the steepness of residual parts of the property. Later, when the structure was renovated and turned from a medical facility into apartments no rezoning was required as multi-family housing is a use allowed in the Institutional zone. Further, there does not seem to have been any thought at that time that the remaining properties (primarily steep wooded slopes) owned by Caledonia LLC might later be proposed for additional development.

In 2004 a Conditional Use Zoning was approved for a small property adjoining the apartments, from RS-8 to Institutional to accommodate garage and storage structures for use by residents in conjunction with the approvals for the Kenilworth Inn Apartments.

Recommendation: Taking those background elements into account the staff recommends the following:

- ***Rezone the Kenilworth Inn and two small adjoining properties to the north and south from Institutional to RM-16***

The change would retain the existing residential density potential, so the Kenilworth Inn would remain a conforming use, but would eliminate the potential for a range of nonresidential uses allowed in the Institutional zone that the staff believes could be problematic at this location. Any reduced density zone for the Kenilworth Inn property would render the property non-compliant for density, so that is not recommended. The change is recommended for the apartment property (owned by Kenilworth Apartments LLC) and a small (.61 acre) property between the front of the apartment and Caledonia Road (owned by Caledonia Development LLC), and the property zoned Institutional CZ (owned by Kenilworth Apartments LLC). Because the property with the garages has conditional zoning, the property owner would need to work with

the city for that change. Should the Council wish to follow the above recommendation the recommended language would be:

Proposed Language for Motions:

I move that the City of Asheville initiate a rezoning of the following properties: PIN: 9648722062 and 9648714812 - from the Institutional Zone to the RM-16 Zone.

I move that the City of Asheville staff be directed to work with the owner of PIN: 9648722461 to initiate a rezoning from Institutional CZ to RM-16 CZ, with no changes to the limiting conditions.

- ***Rezone Residual Developable Properties from Institutional to RM-8 and RS-8***

Earlier this year the property south of Caledonia was deeded by Caledonia Development LLC to Riverlink, nine lots were created from a portion of the property owned by Caledonia Apartments LLC along the frontage of Finalee, and six lots were created from property owned by Caledonia Development LLC along the frontage of Caledonia. As stated earlier, since those subdivisions, all of the lots fronting Finalee and four of the lots fronting along the lower portion of Caledonia have been rezoned to RS-8. As two of the lots on Finalee had been sold to Isaac Grossman, he was also a party to the request along with Caledonia Apartments LLC, the majority property owner.

All other affected properties remain in the Institutional Zone, and all have substantially steep topography. The 3.24 acres property to the east of the Kenilworth Inn property (bifurcated by Caledonia Road) and the 3.36 acre Riverlink property take access from a steep and winding segment of Caledonia Road. The two properties further to the south (1.74 acres owned by Caledonia Apartments LLC and 3.05 acres owned by Caledonia Development LLC) are steep but have the potential for access directly from a lower segment of Caledonia Road and from Swannanoa River Road through another property owned by Caledonia Development LLC (zoned River) that fronts on that road.

For these reasons, staff recommends differing zoning for these properties.

- For the properties to the east and south (PIN: 9648726180, 9648718624, and 9648718648 owned by Caledonia Development LLC; and PIN: 9658714686 owned by Riverlink Inc) the RS-8 zone is recommended. This lower density single-family zone reflects the limited development potential and constrained access for the properties, the recently requested zoning for adjoining lots, and existing zoning in this area.

- For the properties further to the south (PIN: 9648710317 and 9648713307 owned by Caledonia Development LLC) the RM-8 zone is recommended. This would allow multi-family development at a reduced density reflecting the steep slopes of these properties, and would also eliminate the potential for problematic non-residential uses allowed in the Institutional zone. It would allow the potential for clustered lower density multi-family development for these properties that have access from Swannanoa River Road and the lower portion of Caledonia Road.

These changes would substantially impact the property owners, reducing the potential density on the three larger developable properties by approximately 50%. Although it would have a less substantial impact on the developer than a change of all properties to the RS-8 zone, and it would address some of the primary concerns of the neighborhood.

This recommendation includes the remaining 1.74 acre portion of the parcel on Finalee property (owned by Caledonia Apartments LLC) where a 50 unit building was approved, but later voided by the creation of the subdivided lots along the Finalee frontage. (No permits were ever

issued for the construction. The original approval was appealed to the courts by the Kenilworth Residents Association, but no hearing date was ever set, and although the development was voided by the subdivision, the appeal has not yet been dropped.)

No change is recommended the small parcel (PIN: 9648619049/.37 acre) owned by Caledonia Development LLC, that fronts on Swannanoa River Road and is zoned River.

The recommended language for these recommendations would be:

Proposed Language for Motion:

I move that the City of Asheville initiate a rezoning of the following properties: PIN: 9648714686, 9648726180, 9648718648, and 9648718624 from the Institutional Zone to the RS-8 Zone.

I move that the City of Asheville initiate a rezoning of the following properties: PIN: 9648710317 and 9648713307 from the Institutional Zone to the RM-8 Zone.

Rezone Split Zoned Property to RS-8

One small lot located in the lower curve of Caledonia Road (PIN 9648727364) is split between Institutional and RS-8 zoning. Although it is not owned by Caledonia LLC, in the context of a general zoning evaluation, staff believes this situation should be resolved. A single family home was built on the property (owned by Arthur Trupp and Nancy Headley) within the past few years, so a rezoning to single family zoning is appropriate.

Proposed Language for Motion:

I move that the City of Asheville initiate a rezoning of a portion of the property: PIN: 9648727364 from the Institutional Zone to the RS-8 Zone, placing the entire property into the RS-8 Zone.

- ***Alternative: Take No City Action***

Should the Council determine that they do not wish to initiate any zoning actions, it will allow the property owner and the Kenilworth Residents Association to continue dialogue regarding a resolution for their conflicting concerns.

Although rezoning to a lower density residential zoning would limit development potential on these properties; realistically the steep slopes a substantial portion of these properties limit their development potential anyway. Staff believes there is room for discussion between these parties if they wish to continue dialogue. Items for discussion between them would need to include agreement on a certain ultimate level of development potential, limiting uses to those compatible in a residential area, agreements on preserving the steepest slopes in a protective easement, and improvements to traffic conditions sufficiently to address concerns of the developer and the neighborhood residents (in both instances, concerns beyond actual city standards).

Interim City Attorney McGlohon said that there are several pending appeals to the Board of Adjustment and the Court system. She believed they are in the process of working out a resolution to at least two of the cases. However, even if there was not an attempt to resolve the matters, would have an impact on Council making a recommendation for staff to initiate rezonings.

Mayor Bellamy said that public comment would be taken on all staff requested motions at one time:

The following individuals spoke in support of all staff requested motions:

Mr. Terry Meek, resident on Pickwick Road and member of the Kenilworth Residents Association
Ms. Valerie Hoh, resident on Finalee Avenue and board member of the Kenilworth Residents Association
Ms. Tracy Stubbing, resident on Finalee Avenue

In response to Councilman Davis, Interim City Attorney McGlohon said that should Council decide to rezone the properties, there is always the potential for a disgruntled property owner to seek an appeal.

Councilman Hunt moved that the City of Asheville initiate a rezoning of the following properties: PIN: 9648722062 and 9648714812 from the Institutional District to RM-16 District. This motion was seconded by Councilman Bothwell and carried unanimously.

Councilman Hunt moved that the City of Asheville staff be directed to work with the owner of PIN: 9648722461 to initiate a rezoning from Institutional District/CZ to RM-16/CZ, with no changes to the limiting conditions. This motion was seconded by Councilman Bothwell and carried unanimously.

Councilman Bothwell moved that the City of Asheville initiate a rezoning of the following properties: PIN: 9648714686, 9648726180, 9648718648, and 9648718624 from Institutional District to the RS-8 District. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

Councilman Bothwell moved that the City of Asheville initiate a rezoning of PIN 9648710317 from the Institutional District to RM-8 District, and a portion of PIN 9648713307 from Institutional District to the RM-8 District.

Vice-Mayor Manheimer move that the City of Asheville initiate a rezoning of a portion of the property: PIN: 9648727364 from the Institutional District to the RS-8 District, placing the entire property into the RS-8 Zone. This motion was seconded by Councilman Pelly and carried unanimously.

Ms. Daniel corrected a minor error on the map she used in the presentation. She explained that PIN 9648713307 actually touches Swannanoa River Road and wants to retain the split zoning.

B. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A DEVELOPMENT AGREEMENT WITH MOUNTAIN HOUSING OPPORTUNITIES AND EAGLE MARKET STREETS DEVELOPMENT CORPORATION

At City staff's request, Councilman Hunt moved to postpone this item until September 24, 2013. This motion was seconded by Councilman Bothwell and carried unanimously.

VI. NEW BUSINESS:

Regarding the Recreation Board, it was the consensus of Council to re-advertise for the vacancy since no candidates applied.

Regarding the River District Design Review Committee, it was the consensus of Council to not re-advertise for the two vacant seats due to a recent merger of the Committee with the Asheville Area Riverfront Redevelopment Commission.

Regarding the Tourism Development Authority, it was the recommendation of the Tourism Development Authority's Nominating Committee, and the consensus of City Council to re-advertise for the vacancy.

RESOLUTION NO. 13-203 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

Ms. Honor Moor resigned from the Commission, thus leaving an unexpired term until June 30, 2015.

The following individuals have applied for the vacancy: Kara Warren, Denise Drury, Anthony Johnson and Constance Richards. Because City Council had just advertised for an earlier vacancy two months ago, the Public Art & Cultural Commission requested Council not re-advertise and recommended the appointment of either Constance Richards or Denise Drury. The Boards & Commissions Committee recommended appointment of Ms. Richards.

Councilman Smith moved to appoint Constance Richards as a member of the Public Art & Cultural Commission, to serve the unexpired term of Ms. Moor, term to expire June 30, 2015, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 461

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Stewart David encouraged City Council ban horse drawn carriages in the Central Business District.

Mr. Ken Michalove asked City Council questions regarding the $2 Million Art Museum appropriation, the Buncombe County Tourism Development Authority Art Museum grant, and the City Council Planning & Economic Development Committee and the City Council Finance Committee. Mayor Bellamy said that City Manager Jackson would address his questions.

Mayor Bellamy (1) suggested City Manager Jackson develop a way to recognize firefighters who are no longer with the City of Asheville during the past year, for whatever reason; (2) noted that on September 17, 2013, will mark the 226th anniversary of the signing of the Constitution of the United States of America; and (3) she had the honor of providing Keys to the City to Ms. Minnie Jones and Dr. Ralph Sexton for their work in the community.

Lawsuit Report

The City was served with a complaint on August 27, 2013, which is generally described as follows: James E. Moody, Edtha H. Moody, Nancy C. Joyner, and the City of Asheville. The nature of the proceeding is a tax foreclosure for 1840 Old Haywood Road in the City of Asheville. This matter will be handled in-house.

Closed Session

At 6:31 p.m., Councilman Pelly moved that the Asheville City Council go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged

and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: (a) W&K Hotels, LLC d/b/a Four Points By Sheraton; Hospitality Lodging Investors, II, LP d/b/a Hotel Indigo; Nesbitt Asheville Venture, LLC d/b/a The Renaissance Hotel; City of Asheville; City Council of the City of Asheville; and McKibbon Hotel Group, Inc. (b) D & J Real Estate Investments, LLC.; and City of Asheville; (c) D & J Real Estate Investments, LLC; Wells Fargo Bank, National Association in its capacity as Trustees for the registered holders of Salamon Brothers Mortgage Securities VII, Inc.; Commercial Mortgage Pass-Through Certificates, Series 2001-C2; Midland Loan Services, Inc., in its capacity as Master Servicer for Salomon Brothers Mortgage Securities VII, Inc.; Commercial Mortgage Pass-Through Certificates, Series 2001-C2; CWCapital Asset Management LLC, in its capacity as Special Servicer for Salomon Brothers Mortgage Securities VII, Inc.; Commercial Mortgage Pass-Through Certificates, Series 2001-C2; (d) State of North Carolina; Metropolitan Sewerage District of Buncombe County; and City of Asheville; and (e) D & J Real Estate Investments, LLC; and Francis X. Coman, Trustee for Greenwich Capital Financial Products, Inc. The statutory authorization is N. C. Gen. Stat. 143-318.11(a)(3); (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of contracts for the acquisition of real property at the Clarion Inn located at 550 Airport Road, Fletcher, NC by purchase, option, exchange or lease. The statutory authorization is contained in G.S. 143-318.11(a)(5); and (4) To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:45 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

VIII. ADJOURNMENT:

Mayor Bellamy adjourned the meeting at 7:45 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

50

Tuesday – September 24, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Assistant City Manager Cathy Ball; ; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Troop 77 of Trinity Presbyterian Church led City Council in the Pledge of Allegiance.

INVOCATION

Councilman Davis gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING OCTOBER 5, 2013, AS "BLUE RIDGE PRIDE DAY"

Mayor Bellamy read the proclamation proclaiming October 5, 2013, as "Blue Ridge Pride Day" in the City of Asheville. She presented the proclamation to Ms. Ashley Arrington, Blue Ridge Pride Outreach & Education Committee, and Blue Ridge Pride Board President Drew Walls, who briefed City Council on some activities taking place during the day.

B. PROCLAMATION PROCLAIMING OCTOBER 6-12, 2013, AS "FIRE PREVENTION WEEK"

Mayor Bellamy read the proclamation proclaiming October 6-12, 2013, as "Fire Prevention Week" in the City of Asheville. She presented the proclamation to Division Chief Barry Hendren, who briefed City Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING OCTOBER 6-13, 2013, AS "MENTAL ILLNESS AWARENESS WEEK"

Mayor Bellamy read the proclamation proclaiming October 6-13, 2013, as "Mental Illness Awareness Week" in the City of Asheville. She presented the proclamation to Dr. James Pitts board member and past president of NAMI, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 24, 2013

B. RESOLUTION NO. 13-204 - RESOLUTION AUTHORIZING THE CITY MANAGER SIGN A CHANGE ORDER WITH MICHAEL BAKER ENGINEERING INC. FOR THE GROVEMONT SUBDIVISION WATERLINE IMPROVEMENT PROJECT

ORDINANCE NO. 4231 - BUDGET AMENDMENT FOR THE GROVEMONT SUBDIVISION WATERLINE IMPROVEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a change order in the amount of $133,490.00 to increase the engineering design services contract for Michael Baker Engineering, Inc., from a total in the amount of $222,055.00 to $355,545.00 for the Grovemont Subdivision Waterline Improvement Project; and a budget amendment in the amount of $133,490.00 from savings in other capital projects that were completed under budget.

On October 25, 2011, City Council awarded the engineering design services contract to Michael Baker Engineering, Inc., for the Grovemont Subdivision Waterline Improvement Project. The contract originally consisted of a survey, a hydraulic analysis, engineering design, construction administration, and other related professional services for approximately 16,000 linear feet of 6-inch and 8-inch waterlines within the Grovemont area neighborhoods. During the initial design and analysis phase, it was determined that much more of the existing water system needed to be replaced in order to meet the project objectives of improved water service and fire protection. An additional 22,250 linear feet of waterline survey, hydraulic analysis, engineering design, construction administration, and other related professional services was added to the engineering design services contract.

The additional engineering services for the increased linear feet of waterline replacement creates the need for a change order to increase the contract amount by an additional $133,490.00 for a total contract amount of $355,545.00.

The Water Resources Department currently has $222,055.00 budgeted for this project. The remaining funds of $133,490.00 needed for the change order will be transferred from the General Projects capital project that accumulates remaining funds from all of Water Resources completed, inactive capital projects. In order to use the funds in General Projects, a budget amendment is necessary.

Amount in Grovemont Engineering Budget	$222,055.00
Amount Needed for Change Order	$133,490.00
Total Amount for Project	$355,545.00

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a change order in the amount of $133,490.00 to increase the engineering design services contract for Michael Baker Engineering, Inc., from a total in the amount of $222,055.00 to $355,545.00 for the Grovemont Subdivision Waterline Improvement Project; and a budget amendment in the amount of $133,490.00 from savings in other capital projects that were completed under budget.

RESOLUTION BOOK NO. 35 - PAGE 462
ORDINANCE BOOK NO. 28 - PAGE 330

C. RESOLUTION NO. 13-205 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BOLTON CONSTRUCTION & SERVICE OF WNC FOR REPLACEMENT OF THE GYM FLOOR AT THE MONTFORD CENTER

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Bolton Construction & Service of WNC, Inc. to replace the existing gym floor at Montford Recreation Center with a hardwood sport floor for an amount not to exceed $130,000.

The City of Asheville has determined the existing gym floor at the Montford Recreation Center has exceeded its life expectancy, is in poor condition, and poses safety hazard for users.

In response, the city has identified the need for a total floor replacement and has planned to complete the project in Fiscal Year 2014 under the parks and recreation deferred maintenance program.

The City issued an Advertisement for Bids for construction of the floor and received a bid from Bolton Construction & Service of WNC, Inc., 169 Elk Mountain Road, Asheville, N.C., who was selected as the lowest, responsible bidder. The base bid was $125,725.00. Staff is including $4,275 in the contract as a contingency for any unforeseen issues to complete the work.

The $130,000 to support the Bolton Construction & Service of WNC, Inc. contract for replacement of the Montford Recreation Center gym floor is budgeted in the FY 2013-2014 Parks, Recreation & Cultural Arts Department operating budget as part of the deferred maintenance budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Bolton Construction & Service of WNC, Inc. to replace the existing gym floor at Montford Recreation Center with a hardwood sport floor for an amount not to exceed $130,000.

RESOLUTION BOOK NO. 35 - PAGE 463

D. RESOLUTION NO. 13-206 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH T&K UTILITIES INC. FOR THE INSTALLATION OF BACK FLOW PREVENTION DEVICES AT THE US CELLULAR CENTER

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with T&K Utilities, Inc in the amount of $116,000 for installation of back flow prevention devices.

This contract provides that the contractor will furnish and install two six inch and two four inch RPZ backflow preventers on three fire lines and one domestic line. This installation will also include "Hot Box" enclosures at all 4 locations. Contractor will provide all equipment and installation. All equipment will meet the specifications and requirements set forth by the City of Asheville Water Department, Fire Department and meet all NFPA requirements. In accordance with HB 786 (S.L. 2013-418) T&K Utilities, Inc. has signed and returned their E-Verify Compliance Statement.

The required installation of fire suppression sprinklers in a nominally climate controlled storage area necessitated the addition of an anti-freeze line to the sprinkler system. This triggered the requirement for new Back Flow Prevention devices to be installed. Installation of the back flow preventers is very important to the safety of our City's water supply system and a necessary part of the U.S. Cellular Centers operational infrastructure.

The following bids were received on September 6, 2013:

1.	T&K Utilities, Inc., Asheville NC	$ 116,000
2.	Patton Construction Group, Inc., Asheville NC	$ 116,300
3.	Bolton Const. & Svc. Of WNC, Inc., Asheville NC	$ 181,960

Funding for this contract will come from the adopted FY 2013-14 U.S. Cellular Center capital improvement budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with T&K Utilities, Inc. for $ 116,000 for the installation of back flow preventers at the U.S. Cellular Center.

RESOLUTION BOOK NO. 35 - PAGE 464

E. RESOLUTION NO. 13-207 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SERVICES CONTRACT WITH BUNCOMBE COUNTY FOR THE PROVISION OF PARATRANSIT SERVICES

Summary: The consideration of a resolution authorizing the City Manager to enter into a services contract with Buncombe County for the provision of paratransit services.

The American with Disabilities Act of 1990 (ADA) and Federal Transit Administration (FTA) require fixed route transit systems such as the Asheville Transit System to provide paratransit services. Paratransit services are special public transportation options for senior citizens and persons with disabilities. Buncombe County Mountain Mobility has provided these services to Asheville Transit System since the 1990's when the American with Disabilities Act was created.

Buncombe County Mountain Mobility also provides service at the county level, mainly towards the rural areas. Mountain Mobility works cooperatively with Asheville Transit to provide fixed route service in Black Mountain and Candler extending transit accessibility into the county. They also provide public transportation for a large number of non-profit and governmental agencies such as the Council on Aging, Industries for the Blind, and the Buncombe County Health Department.

Mountain Mobility contracts administrative and planning services with Land of Sky Regional Council and operation of transportation services with McDonald Transit Associates. The contract keeps the rate of $1.30 per service mile plus 10% of the gross cost for administration and adds $3.43 per shared service mile during the holidays and after regular work hours, which was not previously included since ART holiday service was not operational. The contract rate does not cover the fully allocated costs of providing services; costs are significantly subsidized by county, grant, and other local funding sources. Fares for general public transportation services will not increase at this time. Each party may cancel the contract with 30 days advance notice.

The total cost of the subject project to the City of Asheville for FY 2013-14 is about $350,000. The City will be reimbursed about $200,000 of the project cost from the Federal Transit Administration which equates to 10% of the annual Federal allocation under Section 5307. The remaining balance of $150,000 represents the local match and is provided by the City. Both the revenue and the expense are already budgeted in the current fiscal year in the Transit Services Fund.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into a services contract with Buncombe County for the provision of paratransit services.

RESOLUTION BOOK NO. 35 - PAGE 465

F. RESOLUTION NO. 13-208 - RESOLUTION AUTHORIZING THE CITY MANAGER AND CHIEF OF POLICE TO ENTER INTO AN INTERLOCAL AGREEMENT WITH THE BUNCOMBE COUNTY MANAGER AND THE BUNCOMBE COUNTY SHERIFF TO EMPLOY PART-TIME TELECOMMUNICATORS

Summary: The consideration of a resolution authorizing the City Manager and Chief of Police to enter into an interlocal agreement with the Buncombe County Manager and Buncombe County Sheriff for the purpose of establishing a compensation agreement and contract between

the entities so that each law enforcement agency can employ telecommunicators from one another's agency on a part-time basis to provide coverage for vacancies in order to meet minimum staffing levels.

Occasionally, the Buncombe County Sheriff's Office and Asheville Police Department communications center is short staffed due to vacancies that are being carried. The telecommunications center serves a vital function in the in the public safety sector and is most often the first point of contact for the public with the agency. It is essential that adequate staffing levels are maintained so that the officers have ample contact and information sharing to ensure their safety. Additionally, when the public calls the communications center, it is necessary that those calls are answered promptly and dispatched appropriately.

The interlocal agreement would allow each agency to employ telecommunicators from the other agency on a part-time basis to prevent staffing shortages. Reimbursement to the sharing agency would be made within ten (10) business days of being invoiced.

There is no fiscal impact to the city due to the fact that the compensation that will be paid to Buncombe County for the part-time assistance will be offset by salary savings and previously budgeted overtime for this work unit. Additionally, as the vacancies are filled, it will generally remove the necessity to utilize and compensate Buncombe County telecommunicators.

City staff recommends City Council approve a resolution authorizing the City Manager and Chief of Police to enter into an interlocal agreement with the Buncombe County Manager and Buncombe County Sheriff for the purpose of establishing a compensation agreement and contract between the entities so that each law enforcement agency can employ telecommunicators from one another's agency on a part-time basis to provide coverage for vacancies.

RESOLUTION BOOK NO. 35 - PAGE 466

G. RESOLUTION NO. 13-209 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ADD ONE SWORN FULL-TIME EMPLOYEE TO THE POLICE DEPARTMENT TO SERVE SOLELY AS A SCHOOL RESOURCE OFFICER

ORDINANCE NO. 4232 - BUDGET AMENDMENT TO COVER COSTS OF SCHOOL RESOURCE OFFICER'S SALARY AND BENEFITS

Summary: The consideration of (1) a resolution authorizing the City Manager to add 1 additional sworn full-time employee to the Police Department to serve solely as a School Resource Officer; and (2) a budget amendment in the amount of $49,842 to allocate funding from Asheville City Schools to cover the cost of the school resource officer's salary and benefits.

The Asheville Police Department (APD) will be entering into contract with Asheville City Schools to provide one additional School Resource Officer (SRO) for the 2013-2014 school year. Per the contract, the assigned officer's salary will be reimbursed by the Asheville City Schools. The SRO will be assigned to the alternative program located at the Grant Center campus. The officer selected for this position will be a senior police officer. By adding another full-time employee, that officer's position would be filled by hiring a new police officer at an anticipated entry-level salary.

As noted in the summary statement above, the salary and benefits package ($49,842) will be fully reimbursed by Asheville City Schools; therefore there is no additional cost to the city of adding the officer.

City staff recommends City Council approve: (1) a resolution authorizing the City Manager to add 1 additional sworn full-time employee to the Police Department; and (2) a budget

amendment in the amount of $49,842 to allocate funding from Asheville City Schools to cover the cost of the school resource officer's salary and benefits.

H. RESOLUTION NO. 13-210 - RESOLUTION AMENDING THE 2013 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE OCTOBER 8, 2013, FORMAL MEETING AND CANCEL THE OCTOBER 29, 2013, COMMUNITY MEETING

RESOLUTION BOOK NO. 35 - PAGE 468

I. RESOLUTION NO. 13-211 - RESOLUTION AUTHORIZING AND RATIFYING THE EXECUTION BY THE MAYOR OF A GRANT OFFER FROM THE FEDERAL AVIATION ADMINISTRATION

Summary: The consideration of a resolution authorizing and ratifying the execution by the Mayor of a Grant Offer from the Federal Aviation Administration (FAA) in the amount of $2,855,596.

The FAA offered a grant agreement to the Greater Asheville Regional Airport. This grant, in the amount of $2,855,596, is for the Design - Phase I Rehabilitate Runway 16/34 Project.

Because of the federal fiscal year, the FAA required the grant agreement to be accepted on or before September 17, 2013. Airport staff received the grant offer on September 11, 2013, and after contacting the FAA, could not get the deadline extended in order for the Mayor to have authorization to sign grant acceptance letter at the September 24, 2013, Council meeting. Therefore, the action has moved forward with the Mayor's signature and this resolution will ratify her action.

Pro:
- Supports service enhancements at Airport

Con:
- None noted

Staff recommends adoption of the resolution authorizing and ratifying the execution by the Mayor of a grant agreement for Project No. 3-37-0005-043-2013.

RESOLUTION BOOK NO. 35 - PAGE 469

J. RESOLUTION NO. 13-212 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH DR. PAUL MARTIN D/B/A ASHEVILLE ADDICTION CONSULTANTS, PA, FOR PHYSICIAN SERVICES

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement for physician services provided through the City's Health Services Division.

In January 1995, Council authorized the City Manager to enter into an agreement for part-time physician services in the Health Services division. Dr. Paul Martin entered into a contractual agreement with the City of Asheville to provide three clinic days to City employees and their families. These clinic days have been very successful for Health Services.

This is a one year $120,000 contract, and funds have been budgeted and will be encumbered from the Health Care Fund to cover the cost of this contract.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign an agreement for physician services with Dr. Paul Martin, MD, DBA Asheville Addiction Consultants, PA to continue to provide physician services to employees, retirees and their families.

RESOLUTION BOOK NO. 35 - PAGE 470

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

III. PRESENTATIONS & REPORTS: None.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING AGRICULTURAL USES

ORDINANCE NO. 4233 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING AGRICULTURAL USES

ORDINANCE NO. 4234 - ORDINANCE AMENDING CHAPTER 3 OF THE CODE OF ORDINANCES TO MAKE ANIMAL CONTROL STANDARDS CONSISTENT WITH AMENDMENTS TO CHAPTER 7 REGARDING AGRICULTURAL USES

Mayor Bellamy said that the following two items are related and staff will present one staff report. Council will then hold a combined public hearing and put forward two separate motions.

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance amending Section 7-1-3 (Jurisdiction), Section 7-2-5 (Definitions), Section 7-8-1 (Table of Uses), and Section 7-16-1 (Uses by right, subject to special requirements) of the Code of Ordinances regarding horticultural agricultural uses, reflecting a community desire for more flexibility for these uses. This public hearing was advertised on August 16 and 23, 2013. On September 10, 2013, the public hearing was continued until this date at City staff's request.

Ms. Daniel said that the City of Asheville has seen a substantial upswing in various types of food related agricultural production in the City. Growing food has always been permitted for home sites and on commercial property, and some types of animal (fowl primarily) and insects (bees) are permitted through the animal control ordinances. Now there is increased interest in forms of production beyond what the current regulations allow and the City Council indicated its support through their adoption of a Food Policy and Action Plan in January.

Asheville's regulations regarding agriculture are already substantially supportive, but some requests relate to newer forms of production and additional support for means of production that will require changes to the regulations. Staff presented proposals for changes as a discussion item at the June meeting of the Planning and Zoning Commission, inviting the interested public to attend. No substantive changes to the proposed changes were heard at that meeting and a proposal for changes to the UDO was presented to the Planning and Zoning

Commission in July. Some proposals for changes arose at that meeting. The staff adjusted the proposed changes to reflect those concerns and the proposals presented reflect those changed.

Section 7-1-3. Jurisdiction

The proposal is to delete the paragraph in Sec. 7-1-3(c), which exempts a "bona fide agricultural use" from the provisions of this chapter. Legal staff has recommended this deletion as it is essentially no longer relevant, and as written, is confusing and subject to varying interpretations.

This provision was added in October of 2001 and was meant to address issues that arose during the new extension of the City's extraterritorial jurisdiction area. The exemption was intended to only apply to properties in agricultural use which had a minimum acreage of 10 acres, as well as minimum income and productions standards as per State tax law. Since this provision's definition is tied to state tax regulations, and is subject to change by the Legislature, and since agriculture in most forms is allowed in the City through the UDO and Chapter 3 of the Code of Ordinance, this exemption provision is not necessary and could lead to confusion or of greater concern, could be extended beyond its intended scope if the State tax laws pertaining to agricultural land are changed.

Delete: ~~Sec. 7-1-3(c) Bona fide agricultural use. The provisions of this chapter shall not apply to bona fide agricultural uses recognized as such for tax purposes by the State of North Carolina except that confined animal feeding operations shall be prohibited.~~

Section 7-2-5. Definitions

A change to the definition of agriculture is proposed to indicate a differentiation between raising plants vs. animals, since these uses are governed by separate ordinances. The intent is to avoid confusion about where these differing types of agriculture are regulated.

Agriculture means the use of land for agricultural purposes, including farming, dairying, pasturage agriculture, horticulture, floriculture, viticulture, and animal and poultry husbandry and the necessary accessory uses for packing, treating, or sorting the produce; provided, however, that the operation of any such accessory uses shall be secondary to that of normal agricultural activities.

Regulations addressing agriculture that does not include animals are governed by this Chapter. Regulations addressing agriculture involving animals (such as but not limited to bees, dairying, pasturage agriculture, animal or poultry husbandry) are in Chapter 3: All agricultural practices may be subject to further state and federal regulations.

Sec. 7-8-1(b)(2)(c). Table of Uses

The proposed change will add the use "Agriculture" to the Table of Uses to clarify that the use is allowed in all zoning districts. The use would be "P" (Permitted) in most zones, and "S" (Permitted with special standards) in residential zones.

Add under *Other Use Types*: Agriculture
"S" - USSR in all single family and multi-family residential districts, Urban Residential, and Urban Village districts.
"P" - Permitted in all other zoning districts.

Section 7-16-1. Uses by right, subject to special requirements.

- The first proposed change establishes that Agriculture will be governed as a USSR and the affected residential zones.

Sec. 7-16-1(b). Uses by right subject to special requirements listed (by zoning district):

Add: 4.1: *Agriculture*. All Residential districts including Urban Residential and Urban Village.

- The second proposed change in the section for Accessory structures, clarifies the difference between standards for agricultural structures and other allowed accessory structures. Also, the reference to "bona fide" farms is deleted, for the reasons noted previously.

Sec. 7-16-1(c). Uses by right subject to special requirement standards.

- **Modify**: (2) Accessory structures.

  a. Use districts: All residential including Urban Residential.

  b. The footprint of accessory structures located on a lot shall not exceed the following maximum footprint(s):

Lot Size	One Structure	All Structures
Less than 1 acre	770 square feet	1,000 square feet
1 to 3 acres	1,200 square feet	1,600 square feet
More than 3 acres	No limit	No limit

The footprint of the portion of accessory structures used as accessory apartments shall not be included in this calculation of footprint for accessory structures. Accessory apartments shall meet the requirements established by section 7-16-1 of this chapter.

The footprint of any accessory structures used for agricultural purposes shall not be included in this calculation of footprint for accessory structures. Such structures must meet the requirements established for agricultural uses established in section 7-16-1 of this chapter.

  c. Accessory structures shall not exceed 20 feet in height except that height may be increased one foot for every one foot of additional side and rear setback, up to a maximum of 40 feet. ~~Structures located on bona fide farms are not subject to this height limit.~~

- The third proposed change establishes the standards for the Agricultural use related to use of the property, structures, etc.

Add: 4.1: *Agriculture*:

a. Use districts: All residential including Urban Residential and Urban Village.

b. A site and operations plan must be submitted that includes a description of the proposed operation indicating:

1. Type of farming proposed with list of products that will be sold on site.
2. Location and size of structures to be built to accommodate the use.
3. Permits for any animals regulated in Chapter 3 as a part of the use.
4. Marketing plans (including on-site sales) if applicable, including proposed times and frequency of market operation or on-site sales.

5. Location of the intended public parking area (if applicable), and
6. Anticipated level of agriculturally related vehicle traffic.

c. If a market stand is proposed it must be a seasonal use, and have no weekday sales, and be limited to selling products grown on the property or created from products grown on the property. Market stands must provide off-street public parking not to exceed 5 spaces.

d. Standards for Structures

1. If the agricultural operation is on a lot that contains a dwelling unit or other primary structure, accessory structures not used for agricultural purposes are allowed meeting the standards for accessory structures in Sec. 7-16-1(c) of this chapter but may not exceed the cumulative limit for all structures established below.

2. Storage and production structures for vacant property or community gardens are allowed by right meeting the standards below for a lot without a primary structure.

3. If the agricultural operation is on a lot that does not contain a dwelling or other primary structure, small storage or production structures (no larger than 12 x 12 and 10 feet tall and not within the public right of way) are allowed by right.

Larger storage or production structures may be built when there is no primary structure (home or other allowed use) on the property meeting the standards below but the applicant must submit a notarized affidavit stating and confirming that the structure will be used only for agricultural storage or production uses.

(a) The footprint of the proposed structure located on a lot without a primary structure may not exceed the following maximum footprint:

Lot Size	One Structure	All Structures
Less than 1 acre	770 square feet	1,000 square feet
1 to 3 acres	1,200 square feet	1,600 square feet
More than 3 acres	2,500 square feet	3,000 square feet

(b) Structures may not exceed 20 feet in height except that height may be increased one foot for every one foot of additional side and rear setback, up to a maximum of 40 feet.

(c) On lots of more than three acres, structures may not be located in the required front yard. Structures located in side yards of corner lots whose rear or side yards are adjacent to a front yard of the adjacent lot, must maintain a setback equivalent to the front yard setback of the adjacent lot.

The *Asheville City Development Plan 2025* encourages growth that facilitates sustained and positive development that balances economic objective, social goals, and natural resources to the benefit of present and future generations. As such, while not directly discussed, the Plan supports efforts such as the emerging interest in food security to build a more sustainable future. The Council solidified this support when they adopted a Food Policy this year. Further, Goal II of

the Council's Strategic Operating Plan noted the need to support local and regional products and services.

After discussion, the Planning and Zoning Commission unanimously recommended approval of these changes at their August meeting, with a recommendation that the use be monitored and revisited in a year to determine if any adjustments should be made to the regulations. The caveat in the recommendation related to concerns on the part of some Commissioners that the size allowed for agricultural buildings and the potential for traffic from retail sales could cause concern in neighborhoods.

Staff believes these changes reflect the intent of the community and the Council reflected in the Food Policy and Action Plan adopted this year, and recommend approval.

Ms. Daniel also said that this is consideration of an ordinance amending Chapter 3 of the Code of Ordinances to make animal control standards consistent with amendments to Chapter 7 regarding agricultural uses.

Recent discussions regarding the City of Asheville's support of urban agricultural practices has revealed outdated language in the animal control ordinance as it relates to the keeping of livestock when part of a ***bona fide farm***. The term ***bona fide farm*** is used in tax statutes and is not enforced locally. To clarify where, and under what circumstances, livestock and non-compliant foul are permitted in the city an amendment was necessary. The term "lawfully established, non-conforming use" is used elsewhere in the Code of Ordinances and can be broadly construed to allow for not just farms, but other non-farm uses such as homesteads.

A brief synopsis of suggested changes includes:

Sec. 3-4:	Delete definition of *bona fide farm* and add a definition for a *lawfully established, non-conforming use*.
Secs. 3-10, 36, 50:	Replace the term *bona fide farm* with *lawfully established, non-conforming use.*
Sec. 3-24:	Add a new section that establishes standards for lawfully established, non-conforming uses.

This amendment simply clarifies where and when existing standards are applied.

City staff recommends City Council approve the proposed text amendments regarding changes to the Animal Control Ordinance and find that these amendments are consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the recommendation.

Mayor Bellamy opened the public hearing at 5:23 p.m.

Mr. Matt Shepley urged Council not to limit people from the freedom of selling their own produce only on the weekends.

A representative from the Asheville-Buncombe Food Policy Council said they supported having the market stands open seven days a week. They are pleased to work with the City and hoped that if any problems arise, that the City will contact them as soon as possible.

Mr. Timothy Sadler advocated that the market stands be allowed to be open seven days a week.

Mayor Bellamy closed the public hearing at 5:27 p.m.

Regarding limiting the sales to only weekends, Councilman Hunt felt that neighborhoods are quieter during the weekdays and would be able to handle more traffic. Ms. Daniel explained that it was staff's and the Planning & Zoning Commission's recommendation to limit market stands to weekends only due to the potential impact on neighborhoods from commercial uses.

Councilman Smith understood staff's and the Planning & Zoning Commission's caution about an adverse impact on the neighborhoods, but he felt the problem of hunger and food distribution in our City outweighs this particular caution. He supported keeping the stands open seven days a week, and was happy to support this issue being revisited in one year to see if there is an adverse impact on the neighborhoods.

Mayor Bellamy felt that since this amendment now allows market stands in neighborhoods, she felt this amendment should be reviewed by the Neighborhood Advisory Committee for their feedback.

In response to Mayor Bellamy, Councilman Pelly, liaison for the Neighborhood Advisory Committee, said that a review by the Neighborhood Advisory Committee is a good idea, but since it would be revisited in one year, he supported moving forward at this time. He was concerned about a potential proliferation of signs in neighborhoods resulting from these market stands.

At Mayor Bellamy's request, Council split the main motion on the amendment to Chapter 7.

Mayor Bellamy said that members of Council have been previously furnished with copies of the ordinances and they would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved to adopt the amendments to sec. 7-1-3; 7-2-5; 7-8-1 (b) (2) (c); 7-16-1 (b); 7-16-1 (c) (2) (b); 7-16-1 (c) (2) (c) and 7-16-1 (c) 4.1, with the exception of Section 7-16-1 (c) 4.1 (c) . This motion was seconded by Councilman Hunt and carried unanimously.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of the amendment to Section 7-16-1 (c) 4.1 (c) that market stands be open seven days a week and that this ordinance revision be revisited in one year. This motion was seconded by Councilman Bothwell and carried on a 6-1 vote, with Mayor Bellamy voting "no."

ORDINANCE BOOK NO. 28 – PAGE 334

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4234. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 338

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 13-213 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN URBAN REDEVELOPMENT AND LOAN AGREEMENT FOR THE EAGLE MARKET STREETS REDEVELOPMENT PROJECT

62

Assistant City Manager Cathy Ball said that this is the consideration of a resolution approving the execution of an Urban Redevelopment and Loan Agreement between the City of Asheville as Lender and Eagle Market Place LLC, (EMP), as Borrower, and Mountain Housing Opportunities Inc. as Guarantor.

By Resolution No. 13-193, adopted on Tuesday, August 27, 2013, City Council among other funding appropriations authorized a combined City Loan of $3,867,618 to the Eagle Market Place Redevelopment and Renovations Project, upon condition that a redevelopment agreement be executed between MHO, EMSDC and the City to enforce the specified conditions placed on the loan approval.

The Project, located in an area known as the "Block," once served as the hub for African American Entrepreneurship, serving as host to thriving and successful African American Businesses until the federal urban renewal program of the 1970's had a dramatic and prolonged impact on the Block, leading to business relocations, business closures, blight, slum, vacancies and years of neglect. After several failed efforts to revitalize the Block, the current Project, being constructed through partnership between EMP and Eagle Market Street Development Corporation, and supported by 5 million dollars worth of federal low income housing tax credits, was deemed by City Council as only being able to succeed through the financial intervention of the City. The Project upon completion will contain 62 affordable housing units and 10,270 square feet of commercial space, of which 3,500 square feet is planned as community space.

It was initially contemplated that the City would enter into a "Development Agreement" with EMP to enforce the conditions placed on the loan approval. However, since the City has no current ownership interest in the Project, a "development agreement," under N. C. G. S. § 160A-458 (Economic Development statute), or under H 857 Session Law 2013-401, (public private partnerships for construction contracts), is not feasible. The provision of affordable housing and job creation in a distressed and blighted area of the City, such as the Block, serves a public purpose for which the City may enter into an Urban Redevelopment and Loan Agreement (Agreement). The Agreement serves the same purpose as the contemplated "development agreement." The Agreement incorporates all of the conditions specified in Resolution No. 13-193, approved by City Council.

The purpose in executing this Urban Redevelopment and Loan Agreement is to structure a performance based guarantee for the approximately $3.9 million City investment and to provide flexibility for the City to debt finance the Loan.

The major components of the Agreement include the public purpose recitals, use of public funds, cash flow, lien holder position on the property, and the City's involvement in the construction process.

Pros:

- Defines the terms and purpose for the City's investment in the Project.
- Provides opportunity for the City to debt finance the loan.
- Clarifies the City's role in the construction process.
- Outlines the cash flow of the City's investment into the Project.

Cons:

- Some minor adjustments and clarifications will need to be made to the Agreement prior to execution. Any substantial changes to the Agreement will come back to City Council for approval.

This Agreement defines the terms and conditions of the $3,867,618 Loan, approved by City Council on August 27, 2013. From the proceeds of this $3,867,618 Loan, $500,000 will be made available to the Project between January 2014 and June 2014; and an additional $500,000 will be made available between July 2014 and December 2014. The remaining $2,867,618 will be

available to the Project 1) once the Developer obtains a certificate of occupancy, and 2) once the Developer complies with requirements that qualify the project for full delivery of low income housing tax credits. All applicable conditions of the executed Agreement must be met to be eligible for Project funding. All change orders exceeding $25,000 must be reviewed by City staff.

Staff recommends that City Council authorize the Mayor to execute an Urban Redevelopment and Loan Agreement between the City of Asheville as Lender and Eagle Market Place LLC, (EMP), as Borrower, and Mountain Housing Opportunities Inc. as Guarantor, subject to approval as to form by the City Attorney.

Additionally, staff recommends that City Council authorize the City Manager to execute any contracts or other instruments necessary to give effect of this resolution subject to budgetary limitations and approval by the City Attorney.

Ms. Ball said that staff has worked diligently with EMP and Mountain Housing Opportunities to make sure that we were not violating any terms; and apologized for not making the document available to the public until 2:00 p.m. today.

Councilman Smith supported this critical investment in Asheville and felt we will be reaping the benefits of affordable housing, commercial space, etc. for decades to come.

In response to Mayor Bellamy, Interim City Attorney McGlohon said that unless the urban redevelopment and loan agreement needs major changes on the terms, it will not need to come back to Council.

Mayor Bellamy said that this issue has been on Council's agenda at various times since the mid-1980's and was pleased that this meaningful project is finally coming to fruition. She felt that unlike other parts of downtown, the Block has not received the level of support for significant investment. She noted that this loan, not grant, sends a message to our community that the City invests in all parts of our community. She thanked all the various partners on this project.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 13-213. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 417

VI. NEW BUSINESS:

A. MOTION ALLOWING THE OFFICE OF ECONOMIC DEVELOPMENT INITIATE A REQUEST FOR INFORMATION RELATING TO THE DEVELOPMENT OF A SIGNATURE EVENT IN ASHEVILLE

Mr. Jon Fillman, Economic Development Specialist, said that this is the consideration of a motion allowing the Office of Economic Development to initiate a Request for Information (RFI) to determine interest from outside organizations in producing a signature festival, special event or similarly unique outdoor public experience in Asheville.

The City of Asheville's adopted 2013-2014 budget eliminated funding for the Bele Chere Festival. Multiple outside groups have expressed interest in securing funding through the City to seed a new signature event or to expand an existing event. The outdoor public space and the annual dates formerly held by Bele Chere are also of specific interest to event organizers.

64

Staff from the Office of Economic Development has met with representatives from the Asheville Downtown Association, Convention & Visitors Bureau, and the River Arts District Project Advisory Committee to discuss recommendations and gather feedback. There is a desire for the City of Asheville to continue to provide for its citizens a signature event or festival that stimulates local commerce and creates opportunities for business development, promotes improvement of properties and advances neighborhood identities, and enhances the Asheville brand in support of tourism initiatives.

As the City of Asheville does not intend to continue in the arena of direct event production nor can it become a significant funding partner, a primary consideration in selecting and supporting a signature event would be in the event's ability to minimize municipal subsidies toward fiscal independence while achieving economic development policy goals. Staff requests City Council support in allowing the Office of Economic Development to proceed with the development of an RFI to determine interest from outside parties in producing Asheville's next signature event. The RFI is neither a guarantee nor commitment of future action. Staff will return to Council at a later date to report on the response and further recommendations.

City staff recommends City Council support the Office of Economic Development in moving forward with a Request for Information (RFI) relating to the development of a signature event in Asheville.

Mayor Bellamy could not support this action because she felt the criteria that staff will use to judge the proposals is not in place.

Vice-Mayor Manheimer said that the City Council Planning & Development Committee did talk about the criteria, but were trying to make it as broad as possible because there are interesting ideas floating around. They did acknowledge the need for demonstrated measurements in terms of stimulating economic development, being able to sustain itself long-term, etc.

Mr. Fillman said that RFI is simply staff's intent to gather interest from the community and outside organizations in producing or operating a new event in Asheville. We don't intend to make any decisions or make any recommendations based on the information received back, other than what ideas we feel will help drive the development of the resulting Request for Proposals (RFP). The RFP will include the evaluation criteria, such as the scope of work, schedule and milestones, references, costs and financing requirements and points assigned. The RFI will allow us to determine the interests in this project and will help us design the RFP, that will ultimately be brought back to Council for their approval.

In response to Mayor Bellamy, Mr. Fillman said that the RFI is a 6-8 week process (before the end of 2013). The RFP will then be developed and that will be approximately an 8-week process. Feedback will be received for the City's next fiscal cycle.

When Councilman Hunt urged staff to be clear in their expectations to those that might submit proposals, Mr. Fillman responded that the RFP will require Council approval.

Councilman Smith noted that the RFI is neither a guarantee nor commitment of future action. He wanted any persons submitting proposals to be aware that the process can take a number of forms.

Councilman Davis spoke in support of the Bele Chere festival and felt that the festival brought a lot of economic development into our downtown and the community, was a lot of fun and people enjoyed good music from local bands. He hoped that at the end of this process that we find something to replace it and hopefully they will keep the name.

Councilman Bothwell hoped that we will come up with something new and different to highlight Asheville. He did note that the Bele Chere festival was costing the taxpayers ½ cent on their property tax and during our struggling budget cycle, Council had to make a determination on whether this was a good use of our financial support.

After discussing whether Council should skip the RFI and move straight into an RFP, Vice-Mayor Manheimer moved to support the Office of Economic Development in moving forward with a Request for Information relating to the development of a signature event in Asheville. This motion was seconded by Councilman Smith and carried on a 6-1 vote, with Mayor Bellamy voting "no".

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

At Mayor Bellamy's request, Police Chief William Anderson updated City Council on the recent break-ins in the Kenilworth area and issues regarding homeless arrests in downtown Asheville.

Regarding the robberies, Police Chief Anderson said that the Police Department will be holding a crime prevention meeting with the Kenilworth community to advise them on some preventive efforts and also what the Police Department is doing to address this problem. He said that if any specific community would like a crime prevention meeting, to contact the Police Department at their non-emergency number. That service is available to help keep our neighborhoods safe.

Police Chief Anderson said that the Police Department has held a couple of community meetings to try to better inform the public of some of our challenges we are facing in our Central Business District and the adjustments that law enforcement has had to make to address those issues.

Councilman Bothwell, Chair of the Public Safety Committee, said that at their September 23 meeting, the Police Department reported to the Commission their efforts on the burglaries and the allegations of stepped up policy enforcement regarding the homeless population downtown. It was noted that even though the Police Department does have vacancies, those vacancies are covered by other means, whether by overtime or other methods, because their number one priority is to have officers on the street. Regarding the allegations regarding homeless arrests downtown, he said that the Police Department policy has not changed, but that behaviors have changed significantly over the summer. There has been a lot more violent episodes in downtown, possibly connected to some of the synthetic drugs that seem to spur aggressive behavior. Therefore, there are more arrests of repeat offenders and that that is the cause of the apparent increase in police enforcement. We are simply trying to maintain civility downtown.

Councilman Bothwell said that there are about 25-30 people who have severe mental or substance issues and are hard to house. The homeless housing advocates would like to see the City find some property for them to build a facility that would house those folks. They will get grant money to build the facility if the City provides the land. Mayor Bellamy felt that is a good issue for Council to discuss at their next retreat.

Mayor Bellamy said that at the October 21 meeting with City staff and downtown merchants who are concerned about the number of women who are walking around downtown without shirts and panhandling. She asked that after that meeting, City Council receive a report on that issue and what the City can do.

Councilman Smith noted that we need better mental health treatment for those that do not have resources.

66

Mr. Matt Shepley, who runs a non-profit in Asheville for homeless and jobless veterans, felt that we cannot simply arrest our way out of the homeless problem, and suggested that we continue to work with our service providers.

Rev. Amy Cantrell, BeLoved House, said that she is one of 38 faith leaders in the community that sent Council a petition expressing concern over the recent increase of arrests of homeless people in downtown. She explained that the petition was a reaction to what they saw on September 12 which seemed to be a change of police activity and in light of Columbia, South Carolina, and things happening in Raleigh. There was not a lot of community and they did not understand what was going on. She thanked Police Chief Anderson for meeting with some of them to help them understand. She agreed that we don't want to spend our limited resources on the resolving door of jail.

A gentleman said that we need to work for safe, temporary housing for the homeless.

Mr. Timothy Sadler asked how much manpower and money went towards seizing 41,000 grams of marijuana. He felt that marijuana is clearing becoming permitted nationally and the City could have used those funds to help the homeless.

Results of the September 23, 2013, Civil Service Board Employee Elections

Summary: One copy of the results of the Civil Service Board employee election held on September 23, 2013, is to be filed with the City Manager and one with the City Clerk, who shall present such certification to the City Council at its next regular meeting. Human Resources Manager Derrick Swing and City Clerk Burleson provided the following certified certificate on September 23, 2013: We do hereby certify, having opened, canvassed, and determined the original returns of the Civil Service Board employee election, the results of the Civil Service Board Employee Election held on September 23, 2013, noting the name of each person voted for and the number of votes cast for each person as follows: Virginia Robinson –73; and Anthony Alan Coxie – 82.

Closed Session

At 6:44 p.m., Councilman Pelly moved that the Asheville City Council go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N. C. Gen. Stat. 143-318.11(a)(3); (2) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of contracts for the acquisition of real property at the Clarion Inn located at 550 Airport Road, Fletcher, NC by purchase, option, exchange or lease. The statutory authorization is contained in G.S. 143-318.11(a)(5); and (3) To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Davis and carried unanimously.

At 7:34 p.m., Councilman Hunt moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

VIII. ADJOURNMENT:

Vice-Mayor Manheimer adjourned the meeting at 7:34 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – October 22, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mr. Diego Adams led City Council in the Pledge of Allegiance. Mr. Austin Grainer, Executive Director of Mentoring Matters briefly explained the Program.

INVOCATION

Councilman Pelly gave the invocation.

I. PROCLAMATIONS:

Mayor Bellamy was pleased to recognize Boy Scout Troop 91 who are working on their Citizenship in the Community Merit Badge.

A. PROCLAMATION PROCLAIMING OCTOBER 24, 2013, AS "FOOD DAY"

Councilman Smith read the proclamation proclaiming October 24, 2013, as "Food Day" in the City of Asheville. He presented the proclamation to Ms. Karen McSwain, Farm Services Director at Carolina Farm Stewardship, on behalf of the Asheville/Buncombe Food Policy Council; and Ms. Olufemi Lewis, Hillcrest resident, part owner of the Ujaama Freedom Market, and co-founder of the Asheville/Buncombe Food Policy Council; who briefed City Council on some activities taking place during the day.

B. PROCLAMATION PROCLAIMING NOVEMBER 2013 AS "CRIMESTOPPERS MONTH"

Councilman Pelly read the proclamation proclaiming November, 2013, as "CrimeStoppers Month" in the City of Asheville. He presented the proclamation to CrimeStoppers Board of Directors Chairman Karl Katterjohn, and Police Chief William Anderson, who briefed City Council on some activities taking place during the month.

C. PROCLAMATION PROCLAIMING NOVEMBER 2013 AS "RECYCLE IT!" MONTH

Councilman Hunt read the proclamation proclaiming November, 2013, as "Recycle It!" month in the City of Asheville. He presented the proclamation to Chief Sustainability Manager Maggie Ullman, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

At the request of Mayor Bellamy, Consent Agenda Item "O", a resolution amending the 2013 City Council Meeting schedule to cancel the November 26, 2013, City Council meeting, was added to the Consent Agenda.

At the request of Vice-Mayor Manheimer, Consent Agenda Items "N" was removed from the Consent Agenda for discussion and/or individual votes.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 23, 2013

B. RESOLUTION NO. 13-214 - RESOLUTION ACCEPTING GROVEPARK WAY, GROVE COVE DRIVE AND SPRING COVE ROAD EXTENSION, IN THE GROVE PARK COVE SUBDIVISION AS CITY MAINTAINED STREETS

Summary: The consideration of a resolution to accept Grovepoint Way, Grove Cove Drive and Spring Cove Road extension, in the Grove Park Cove Subdivision, as city-maintained streets.

Code of Ordinances sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. The developer submitted a written request via e-mail dated April 12, 2013 asking the City to accept the subject streets as city-maintained streets.

Grovepoint Way from Grove Cove Road to its dead-end (at the cul-de-sac) is a developer-constructed street that has an average width of 18 feet with 18-inch curb and gutter, a length of 0.13 mile, and a right-of-way width of 45 feet.

Grove Cove Drive from Patton Mountain Road to Spring Cove Road is a developer-constructed street that has an average width of 18 feet with 18-inch curb and gutter, a length of 0.45 mile, and a right-of-way width of 45 feet.

Spring Cove Road from the end of Spring Cove Road to its dead-end is a developer-constructed extension of an existing city-maintained street that has an average width of 18 feet with 18-inch curb and gutter, a length of 0.02 mile, and a right-of-way width of 45 feet.

Transportation Department staff and Public Works Department staff inspected the subject streets and determined that they were constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual. In addition, the developer's engineer has furnished a signed and sealed letter verifying that the subject streets were constructed to current City of Asheville standards.

Following City Council's approval of this resolution, the subject streets will be added to the official Powell Bill List.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the streets.

Staff recommends that City Council accept Grovepoint Way, Grove Cove Drive, and Spring Cove Road extension as city-maintained streets.

RESOLUTION BOOK NO. 35 - PAGE 472

C. RESOLUTION NO. 13-215 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE HENDERSONVILLE ROAD SIDEWALK PROJECT

Summary: The consideration of a resolution authorizing the Mayor to sign a locally administered project agreement with the N.C. Dept. of Transportation (NCDOT) for a project (identified as U-5189) to construct a sidewalk along both sides of US 25 (Hendersonville Road) from NC 146 (Long Shoals Road) to I-40.

Project U-5189 is listed in the current North Carolina Department of Transportation's State Transportation Improvement Program (STIP) as a project to construct sidewalks and make crossing improvements from NC 146 (Long Shoals Road) to I-40 within the city limits of Asheville in Buncombe

County. Specifically, the work includes constructing sidewalk along both sides of US 25 (Hendersonville Road) as well as including multi-modal amenities such as pedestrian crosswalks, ADA upgrades, bus shelters, trash receptacles, and bicycle racks.

The subject agreement is needed because the project will be funded with Federal Funds and a local match. According to the terms of the agreement, the NCDOT has agreed to administer the disbursement of the funds on behalf of the Federal Highway Administration (FHWA) and they have programmed funding in the current State Transportation Improvement Program (STIP). The City has agreed to be responsible for administering all work performed and for certifying to the NCDOT that all terms of the agreement are met and adhered to by the city and/or its contractors. In addition, the City shall complete all pre-construction activities including environmental documentation, right-of-way certification, and final PS&E package (design plans and construction documents) by September 1, 2014. The project will be completed (project completion is defined as completion of all construction activities, acceptance of the project, and submission of a final disbursement package) by December 31, 2015

The Federal Funds are coming from a program known as the Surface Transportation Program - Directly Attributable (STP-DA), commonly referred to as DA Funds. The French Broad River Metropolitan Planning Organization (FBRMPO) has the option to select projects to be constructed with these funds through the Technical Coordinating Committee (TCC) and the Technical Advisory Committee (TAC). Previously, these funds were used on the NC 146 (Long Shoals Road) widening project. Funds for the Hendersonville Road sidewalk project were approved in 2009.

The total estimated cost of the subject project is $4,125,000 with Federal STP-DA funds providing $3,300,000 (80%) and the City providing $825,000 (20%). The City's local match is included in the approved Capital Improvement Program for FY 2013-14.

Staff recommends that City Council approve a resolution authorizing the Mayor to sign a locally administered project agreement with the North Carolina Department of Transportation (NCDOT) for a project (identified as U-5189) to construct a sidewalk along both sides of US 25 (Hendersonville Road) from NC 146 (Long Shoals Road) to I-40.

RESOLUTION BOOK NO. 35 - PAGE 474

D. RESOLUTION NO. 13-216 - RESOLUTION AUTHORIZING THE MAYOR TO SIGN AN AMENDMENT TO THE 2012 MUNICIPAL RECORDS RETENTION & DISPOSITION SCHEDULE

Summary: The consideration of a resolution authorizing the Mayor to sign an amendment to the 2012 Municipal Records Retention & Disposition Schedule.

On October 9, 2012, City Council adopted Resolution No. 12-228 approving the 2012 Municipal Records Retention and Disposition Schedule issued September 10, 2012, by the N.C. Dept. of Cultural Resources, Division of Archives and History.

The N.C. Dept. of Cultural Resources has now amended said Schedule as follows:

- Adds Accreditation Records to the schedule
- Clarifies language for retention period of employee eligibility records to match U.S. Code
- Consolidates 3 different types of leave records

Staff recommends City Council adopt a resolution authorizing the Mayor to sign an amendment to the 2012 Municipal Records Retention & Disposition Schedule.

RESOLUTION BOOK NO. 35 - PAGE 475

E. RESOLUTION NO. 13-217 - RESOLUTION AUTHORIZING THE CONVEYANCE OF THE FOLLOWING TWO PARCELS OF CITY-OWNED PROPERTY KNOWN AS (1) DEAVER STREET TO JUDD LEFEBER AND JENNIFER KIECKER; AND (2) MILLBROOK ROAD TO JUDD LEFEBER; AND WITHDRAWING THE CURVE STREET LOT FROM THE SEALED BID SALE

Summary: The consideration of a resolution authorizing the conveyance of two parcels of City owned property, known as the Deaver Street lot, and the Millbrook Road Lot, and withdrawing the Curve Street lot from the sealed bid sale.

The City of Asheville owns three properties that are currently designated as surplus, residential, vacant lots – the Curve Street lot (0.25 acres, PIN 9648-68-0689-00000), Deaver Street lot (0.19 acre, PIN 9638-76-4002-00000) and Millbrook Road lot (0.25 acres, PIN 9638-66-3884-00000). On August 27, Council authorized staff to proceed in marketing the properties for sale under the sealed bid process. In the period that followed, the properties were posted for sale, listed on the local Multiple Listing Service (MLS), and advertised in print and online. Staff received inquiries for each parcel.

On October 10, 2013, the bid opening was held and the results are as follows:

1. Deaver Street – Of the two bids received, the highest bidder was Judd Lefeber and Jennifer Kiecker at $35,025.
2. Millbrook Road – Of the two bids received, the highest bidder was Judd Lefeber at $22,500.
3. Curve Street – Of the two bids received, the highest bidder was Buncombe Land Holdings at $10,000.

For the Deaver Street and Millbrook Road properties, the highest bids are consistent with the estimated fair market values for each property. The Curve Street parcel, however, did not generate a price point that reflects the value of the property. Based on the size of the parcel and the proximity to downtown, staff expected bids within the $40,000 range. At this time, staff recommends that Council authorize the sale of the Deaver Street and Millbrook Road properties to the highest bidders as listed above. Staff recommends that Council withdraw the Curve Street parcel from this sale and refund the bid deposit to Buncombe Land Holdings.

The sale of both the Deaver Street and Millbrook Road parcels will benefit the General Fund and will be designated for future economic and community development projects.

City staff recommends adoption of the resolution authorizing the conveyance of two parcels of City owned property, known as the Deaver Street lot, and Millbrook Road lot, and withdrawing the Curve Street property from the sales process until further notice.

RESOLUTION BOOK NO. 35 - PAGE 476

F. RESOLUTION NO. 13-218 - RESOLUTION AUTHORIZING CITY STAFF TO APPLY FOR A FEDERAL TRANSIT ADMINISTRATION JOB ACCESS AND REVERSE COMMUTE PROGRAM GRANT TO FUND THE BLACK MOUNTAIN ROUTE AND AUTHORIZING THE MAYOR TO EXECUTE THE APPROPRIATE DOCUMENTS TO ACCEPT THE GRANT, IF AWARDED

Summary: The consideration of a resolution authorizing City staff to apply for a Federal Transit Administration (FTA) Job Access and Reverse Commute Program grant to fund the Black Mountain route and authorizing the Mayor to execute the appropriate documents to accept the grant, if it is awarded to the City of Asheville.

Since inception in 2002 the Black Mountain route has been funded with different funding sources. During the first 7 years, Intercity grant provided 45% Federal, 45% State and 10% match from the Town of Black Mountain, Buncombe County, and from the route's farebox revenue. The Intercity grant was

discontinued in November 2009; the North Carolina Department of Transportation funded the route with a Demonstration grant until December 2010. After that date the route was merged with route 29 and funded with City and Warren Wilson funds, for the segment from Downtown to the City limits, and Job Access and Reverse Commute program of the Federal Transit Administration for the segment between City limits and the Town of Black Mountain.

The Job Access and Reverse Commute (JARC) program was established to address the unique transportation challenges faced by welfare recipients and low-income persons seeking to obtain and maintain employment. Eligible activities are capital, planning and operating expenses for projects that transport low income individuals to and from jobs and activities related to employment, and for reverse commute projects. Funding for this route expires in December 31, 2013 and the City is pursuing JARC funding made available by the French Broad River Metropolitan Planning Organization to continue funding this route.

This route is part of a partnership between Warren Wilson College and the City of Asheville. As proposed in the Transit Master Plan, this route was merged with route 29 that served the college and operates as a regular route with frequent stops. The route operates four times a day, Monday through Saturday, along US 70 (Tunnel Road) between downtown Asheville and Black Mountain. Mountain Mobility already has funding in place through JARC to operate the Black Mountain portion of the route. The service will continue connecting with the local Mountain Mobility deviated route service.

This route's ridership has been variable during the last three years, showing the impact of the route changes in FY2013. Staff has observed an increase in overall ridership for FY2014.

Year	Ridership	Change
FY2013	57797	-17%
FY2012	69641	25%
FY2011	51598	

The City is planning to apply for a two-year period. The total cost of providing this service is approximately $240,000 per year; 50% or $240,000 will be paid by the grant and the other 50% by the combined contribution of Warren Wilson College (approximately 14% or $67,200) and the City of Asheville to the route (36% or $172,800).

The application deadline is October 31, 2013.

The total cost of the subject project is approximately $480,000. The City is required to fund 50% ($240,000) of the subject project cost with the remaining 50% funded by the JARC grant. The City's required funding will be allocated from the Warren Wilson College and the City of Asheville's contribution to the current route 170. Warren Wilson contribution will total $33,600 per year; therefore the City's cost is $86,400 per year. The City's cost is included in the Transit Fund budget for FY 2013-14.

City staff recommends City Council adopt a resolution authorizing City staff to apply for a Federal Transit Administration (FTA) Job Access and Reverse Commute Program grant to fund the Black Mountain route and authorizing the Mayor to execute the appropriate documents to accept the grant, if it is awarded to the City of Asheville.

RESOLUTION BOOK NO. 35 - PAGE 477

G. RESOLUTION NO. 13-219 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS FROM THE N.C. DEPT. OF JUSTICE FOR THE BALLISTIC VEST PARTNERSHIP GRANT 2013

ORDNANCE NO. 4325 - BUDGET AMENDMENT FOR THE BALLISTIC VEST PARTNERSHIP GRANT 2013

Summary: The consideration (1) a resolution authorizing the City Manager to accept funds through US Department of Justice in the amount of $15,378; and 2) a budget amendment in the amount of $30,756 from US Department of Justice Ballistic Vest Partnership Program (BVP) funds.

The City of Asheville Police Department currently participates in the US Department of Justice BVP program. The funds allocated through this program are designed to offset departmental cost associated with purchasing ballistic vests. The City of Asheville has been awarded $15,378 through this program, which requires the City to match this amount dollar-for-dollar. Expenditures for this program will be recorded in this City's Special Revenue Fund. The budget amendment is necessary to authorize the full project budget amount of $30,756 in this fund. The City's match of $15,378 will come from the Police Department's adopted FY 2013-14 operating budget. The funding will enable the purchase of 68 bulletproof vests over the next 2 years.

As noted above, this grant requires a match of $15,378, which will come from the Police Department's existing General Fund budget (Patrol Division – Supplies – Safety Equipment). It should be noted that the overall fiscal impact to the City of Asheville is reduced due to the fact that the APD would have to purchase these vests at full replacement costs if we did not accept this grant award.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept funds through US Department of Justice in the amount of $15,378; and (2) a budget amendment in the amount of $30,756 from US Department of Justice BVP funds and previously approved City General Fund money to establish a project budget in the Special Revenue Fund for the 2013 BVP Program.

RESOLUTION BOOK NO. 35 - PAGE 478
ORDINANCE BOOK NO. 28 - PAGE 340

H. RESOLUTION NO. 13-220 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM FOR THE TRAFFIC SAFETY UNIT

ORDINANCE NO. 4236 - BUDGET AMENDMENT FOR THE TRAFFIC SAFETY UNIT

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into an agreement with the North Carolina Governor's Highway Safety Program for highway safety grant funds to purchase equipment for the Traffic Safety Unit and costs related to the Regional liaison duties (2) a budget amendment in the amount of $20,000.00 from the North Carolina Governor's Highway Safety Program.

The Asheville Police Department currently participates in the North Carolina Governor's Highway Safety Program Highway Safety campaigns. In order to facilitate better participation and efficiency of highway safety initiatives, a regional law enforcement network was created to enhance communication and effectiveness. The Asheville Police Department promotes highway safety statewide by designating a member of the department to serve as the regional liaison for GHSP Region 10 covering Buncombe, Henderson, Madison, McDowell, Polk, Rutherford, and Yancey Counties.

Funding would also cover the costs for training and travel associated with the Regional Liaison position duties. The expenses created by the purchase of the equipment and the duty related travel are reimbursed by the Governor's Highway Safety Program through the National Highway Traffic Safety Administration. There is no local match of funds required for this grant.

This budget amendment is fully funded with grant revenue and there is no impact to the General Fund budget.

City staff requests City Council to adopt (1) resolution authorizing the City Manager to enter into an agreement with the North Carolina Governor's Highway Safety Program (2) and the associated budget amendment in the amount of $20,000.

RESOLUTION BOOK NO. 35 - PAGE 479
ORDINANCE BOOK NO. 28 - PAGE 342

I. ORDINANCE NO. 4237 - BUDGET AMENDMENT FROM THE N.C. DEPT. OF COMMERCE FOR THE WNC NATURE CENTER

Summary: The consideration of a budget amendment in the amount of $74,973.00 for a grant from the N.C. Dept. of Commerce for the WNC Nature Center.

Each year the State of North Carolina in the Department of Commerce allocates funds to 25 to 30 member museums, science centers and nature centers in North Carolina. The WNC Nature Center is a member of the collaborative. Funds will be used to make capital improvements to the facility and animal exhibits at the WNC Nature Center.

The grant is intended to support the first phase of the 20/20 vision master plan for the WNC Nature Center. The funding from this grant will go toward construction of a restroom located at the new Arachnid Adventure Playground which is identified as a high priority in the plan.

The project budget for one-time facility improvements at the WNC Nature Center will increase by $74,973.00. This increase is funded by a grant from the State of North Carolina Department of Commerce. Thus, there is no impact to the City's General Fund budget.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to accept funds from the North Carolina Department of Commerce and establish a budget of $74,973.00 for capital improvements at the WNC Nature Center.

ORDINANCE BOOK NO. 28 - PAGE 344

J. RESOLUTION NO. 13-221 - RESOLUTION WAIVING THE FEE FOR BLOCKING FOUR ON-STREET PARKING SPACES DURING THE CONSTRUCTION OF EAGLE MARKET PLACE

Summary: The consideration of a resolution waving the fee for blocking four on-street parking spaces during the construction of Eagle Market Place.

Mountain Housing Opportunities (MHO) has requested that four parking spaces on South Market Street be bagged during the construction of Eagle Market Place.

City of Asheville policy is to charge $15 per day per space to block an on-street parking meter, excluding holidays and Sundays. MHO has requested the use of the spaces for one year starting November 1, 2013. The total fee for the use of the spaces during this period is $21,600.

Pros:

- The City is partnering in this project and providing a financial contribution. Any savings in the cost of the project will direct in a savings to the City.

Cons:

- Reduction in revenue to the City of Asheville Parking Enterprise Fund.

Per the City's Fees and Charges Manual, the fee for blocking a parking space is $15 per day. If the parking spaces were utilized during regulated hours 100% of the time, the daily revenue would be approximately $12.50. The fee for blocking a parking space is $15 per day in order to discourage

blocking parking spaces. The fee for blocking the spaces for one year, excluding holidays and weekends is $21,600.

City staff recommends approving a resolution waving the fee for blocking four on-street parking spaces during the construction of Eagle Market Place in the amount of $21,600.

RESOLUTION BOOK NO. 35 - PAGE 480

K. RESOLUTION NO. 13-222 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE FIRE FIGHTERS FUND RAISE ON NOVEMBER 7, 2013

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Fire Fighters Fund Raiser on November 7, 2013.

- Green Opportunities has requested through the City of Asheville Development Services Department that City Council permit them to serve beer and/or unfortified wine at the Fire Fighters Fund Raiser and allow for consumption at this event.

  The Fire Fighters Fund Raiser will be held on Thursday, November 7, 2013, from 3:00 p.m. – 11:00 p.m. within the boundaries of Walnut Street between the intersections of Lexington Avenue and Carolina Lane, as referenced on the accompanying site map.

City staff recommends City Council adopt the resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Fire Fighters Fund Raiser.

RESOLUTION BOOK NO. 35 - PAGE 481

L. RESOLUTION NO. 13-223 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE AGREEMENT WITH BUNCOMBE COUNTY FOR THE JOB ACCESS AND REVERSE COMMUTE GRANT

ORDINANCE NO. 4238 - BUDGET AMENDMENT FOR THE JOB ACCESS AND REVERSE COMMUTE FEDERAL GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to amend the existing agreement with Buncombe County, the sub-recipient of the Job Access and Reverse Commute grant to incorporate additional budget; and (2) a budget ordinance amendment, in the amount of $19,468, to increase the project budgets for the Job Access and Reverse Commute projects.

The City of Asheville is the designated recipient of the Job Access and Reverse Commute (JARC) grant funds, which is a program of the Federal Transit Administration (FTA). JARC is a formula grant program oriented to provide job access in the urbanized and suburbanized area. The formula is based on the number of eligible low-income and welfare recipients in these areas.

The job access refers to projects relating to the development and maintenance of transportation services designed to transport welfare recipients and eligible low-income individuals to and from jobs and activities related to their employment.

The reverse commute refers to a public transportation project designed to transport residents of urbanized areas and other than urbanized areas to suburban employment opportunities.

To be eligible, the programs require an intensive planning process and the development of a Coordinated Public Transportation and Human Services Transportation Plan or CTP-HSTP based on

community participation. The CTP-HSTP was developed in conjunction with the French Broad Metropolitan Planning Organization, Buncombe, Henderson and Haywood Counties, human services agencies, public and private transportation providers, the North Carolina Department of Transportation and the general public to assess current transportation needs, identify gaps and to set goals. The plan was approved on March 29, 2012 by the French Broad River MPO's governing body (the Transportation Advisory Committee), which includes elected representatives from each of the eighteen local governments which make up the MPO. The CTP-HSTP set the rules to apply for projects and the projects were selected in a competitive process that was approved by the TAC.

In September 2012, Buncombe County's Mountain Mobility was selected as sub-recipient of the JARC grant. The original amount was increased by the MPO, due to additional funding availability; funding has been allocated to the JARC project as shown in the table below. The city will pass through the funds and will seek reimbursement directly from the FTA. The sub-recipient will be responsible for the match.

Sub-Recipient	Project	Program	Amount funded	Sub-Recipient's match
Buncombe County	Black Mountain Trailblazer	JARC	$118,065	$118,065
City of Asheville	Program Administration	JARC	$26,290	N/A

The projects to be funded include: Black Mountain Trailblazer, bus service in the Town of Black Mountain, Buncombe County's project; and the City of Asheville's administrative costs. The budget amendment will increase the budget in the Transit Operating Fund by $3,584 and increase the budget in the Transit Capital Fund by $15,884.

The City will be responsible for the Program Management and, as designated recipient, to oversee the use of the funds according to FTA regulations. The program management will require the use of city resources, mainly staff. As a designated recipient the city will use $26,290 JARC funds, for administration purposes, which will cover the program management expenses for a period of two years.

This program is fully funded with federal grant funds; there is no impact to the City's General Fund budget.

Staff recommends that City Council: 1) authorize the City Manager to amend the agreement with the sub-recipient (Buncombe County) of the Job Access and Reverse Commute grant; and 2) adopt a budget ordinance amendment in the amount of $19,468 from federal grant funds and sub-recipient matches to increase the project budgets for the Job Access and Reverse Commute Federal grant.

N. RESOLUTION NO. 13-224 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH YOUNG & MCQUEEN GRADING COMPANY INC. FOR THE CONSTRUCTIONS SERVICES NECESSARY TO COMPLETE PHASE I OF THE LAKE CRAIG/AZALEA ROAD IMPROVEMENT PROJECT

76

ORDINANCE NO. 4239- BUDGET AMENDMENT TO COMPLETE PHASE I OF THE LAKE CRAIG/AZALEA ROAD IMPROVEMENT PROJECT

Summary: The consideration of a (1) resolution authorizing the City Manager to enter a contract with Young & McQueen Grading Company, Inc. for the construction services necessary to complete Phase I of the Lake Craig/Azalea Road Improvements Project; and (2) a budget amendment in the amount of $1,471,608 from the Water Resources Fund FY 2013-14 capital budget, Stormwater Fund reserves, and the General Fund Community and Economic Development CIP to fund the contract and a 10% contingency.

The City of Asheville has the opportunity to provide improved access to the Azalea Park along Azalea Road, provide a much needed water connection to the John B. Lewis Soccer Complex and to provide additional flood protection to Biltmore Village.
Azalea Park is a regional attraction that hosts major soccer events at the John B. Lewis Soccer Complex. This complex draws a wide range of public participants which increases the traffic along Azalea Road. The City is proposing to widen and improve the roadway in this section which will include bike lanes and a pedestrian facility which will incorporate a new sidewalk connection from the soccer complex over to the WNC Nature Center.
The City also plans to provide a much needed water supply connection to the Park. Currently, the pavilion does not provide a potable water source. The project will include connection to the City's water system.

The Hurricane Recovery Act of 2005 (Senate Bill 7) allocated funds for planning and implementation of projects to aid in flood damage reduction for North Carolina communities hardest hit by the 2004 hurricane season. The flood control features include stream relocation and restoration, removal of floodplain fill, re-establishment of the floodplain bench and improvement to the drainage structures within the project.
Following a pre-qualification process for contractors, the bids were opened on September 5, 2013. The City of Asheville determined Young & McQueen Grading Company, Inc. to be the low responsive and responsible bidder. Following a value engineering process, the total cost of construction is $3,749,191.75.

Within the scope of the project, Young & McQueen will perform the construction services necessary to provide improved transportation connections (including pedestrian, bike and vehicular) to the John B. Lewis Soccer Complex, provide a much needed connection to the City of Asheville water system, and remove flood plain fill and provide a stream restoration below the former Lake Craig Dam.

The flood mitigation/stream restoration portion of this project is expected to be fully funded through the State of North Carolina in compliance with the Hurricane Recovery Act of 2005 (Senate Bill 7); however staff is requesting Council approve an appropriation from Stormwater Fund reserves in the amount of $62,893 to cover a portion of the contingency. The water line installation will be funded within the existing FY 2013-14 Water Resources Fund capital budget for neighborhood water line replacement. The transportation improvements were intended to be funded entirely by Sullivan Act proceeds; however the bids for the project came back higher than originally anticipated when the project was first budgeted three years ago. Since the City no longer has the ability to appropriate additional Sullivan Act funds for this project, funding to cover the higher costs will be taken from the City's Community and Economic Development CIP (EDCIP). The total amount of the budget amendment is $1,471,608 with the components shown below:

Water Resources FY 2013-14 Budget:	$371,127
General Fund FY 2013-14 EDCIP:	$1,037,588
Stormwater Fund Reserves:	$62,893

City staff recommends City Council (1) approve a resolution authorizing the City Manager to complete negotiations and sign a contract with Young & McQueen Grading Company, Inc. for the construction services necessary for completion the Lake Craig/Azalea Road Improvement Project for

$3,749,191.75; (2) authorize the City Manager to enter into change orders to this contract not to exceed 10% of the original contract or $374,919; and (3) approve a budget amendment in the amount of $1,471,608 from the Water Resources Fund FY 2013-14 capital budget, Stormwater Fund reserves, and the General Fund Community and Economic Development CIP to fund the contract and the 10% contingency.

Mr. Kevin Mahoney, Board Member of the Asheville-Buncombe Youth Soccer Association, spoke in support of the resolution.

ORDINANCE BOOK NO 28 - PAGE 348

O. RESOLUTION NO. 13-230 - RESOLUTION AMENDING THE 2013 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE NOVEMBER 26, 2013, CITY COUNCIL REGULAR MEETING

RESOLUTION BOOK NO. 35 - PAGE 493

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hunt and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

M. ORDINANCE AMENDING CHAPTER 12 OF THE CODE OF ORDINANCE TO REVISE THE DEFINITION OF RECREATIONAL FACILITIES WHERE THE CARRYING OF CONCEALED HANDGUNS IS PROHIBITED

At the request of Vice-Mayor Manheimer, it was the consensus of Council to refer this matter back to the Public Safety Committee for further clarification. Councilman Smith asked that staff seek any clarification necessary from the School of Government or the Attorney General's Office.

III. PRESENTATIONS & REPORTS:

A. RESOLUTION NO. 13-225 - RESOLUTION UPDATING UNC-ASHEVILLE'S MEMORANDUM OF UNDERSTANDING

Mayor Bellamy said that this is the consideration of a resolution authorizing the Mayor to sign a renewal of a Memorandum of Understanding (MOU) with UNC-Asheville, She said that UNC-Asheville and the City signed the original MOU in 2009 setting forth a framework for collaborations in areas of mutual interest. The renewal of the MOU continues a long standing partnership between the City of Asheville and UNC-Asheville and sets forth a plan for future collaborations.

Through its annual strategic planning process, the City Council identified Economic Growth and Financial Sustainability as one of its 3 key focus areas for the 2013-14 fiscal year. One action item specific to growth and sustainability highlights continued partnerships with local institutions of higher learning. The MOU establishes a framework by which UNC-Asheville and the City of Asheville will work to exchange information, conduct cooperative research, and jointly explore projects for the sustainability for the Asheville community. Staffs from both organizations met this past September to identify areas of opportunity for collaboration and partnership. From those initial meeting, the following areas were identified. Environmental Sustainability; Public Safety, Diversity; Co-branding; Master Plan/Land Use; Crime and Technology; Health and Wellness; Economic Development; and Culture and Recreation.

City staff recommends City Council authorize the Mayor to sign the 2013-2015 Memorandum of Understanding with UNC-Asheville to further collaborative efforts in the focus areas identified above.

Chancellor Anne Ponder of UNC-Asheville said that over the last several years the partnership between the City of Asheville and UNC-Asheville has seen some amazing successes. She then highlighted a few of them, recognizing City and UNC-Asheville staff: (1) economic development and the Southern Conference Basketball Tournament; (2) infrastructure improvements; (3) public safety; and (4) internships and community service.

Mayor Bellamy was pleased that the UNC-Asheville and the City of Asheville partnership is a model for other universities to become more integrated in their communities. She thanked Chancellor Ponder and her staff for their commitment in working with her as Mayor and the City of Asheville staff.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 13-225. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 486

B. ASHEVILLE CITY BOARD OF EDUCATION UPDATE

Ms. Jacquelyn Hallum, Chair of the Asheville City Board of Education, and Dr. Bobbie Short, Interim Superintendent, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Ms. Hallum for her leadership and the entire Board for their dedication and welcomed Dr. Short.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING OF CAREFREE ASHEVILLE LOCATED AT 1903 HENDERSONVILLE ROAD TO INCLUDE A CHANGE IN HOUSING TYPE AND BUILDING FOOTPRINTS; A CHANGE IN THE INTERNAL ROAD NETWORK, AND AN INCREASE IN THE NUMBER OF RESIDENTIAL UNITS, INCLUDING MODIFICATIONS FOR SETBACK AND HEIGHT

ORDINANCE NO. 4240 - ORDINANCE TO AMEND THE CONDITIONAL ZONING OF CAREFREE ASHEVILLE LOCATED AT 1903 HENDERSONVILLE ROAD TO INCLUDE A CHANGE IN HOUSING TYPE AND BUILDING FOOTPRINTS; A CHANGE IN THE INTERNAL ROAD NETWORK, AND AN INCREASE IN THE NUMBER OF RESIDENTIAL UNITS, INCLUDING MODIFICATIONS FOR SETBACK AND HEIGHT

Urban Planner Julia Fields said that this is the consideration of an ordinance to amend the conditional zoning of Carefree Asheville located at 1903 Hendersonville Road to include a change in housing type and building footprints, a change in the internal road network, and an increase in the number of residential units, including modifications for setback and height. This public hearing was advertised on October 11 and 18, 2013.

Ms. Fields said that the subject property, 12.21 acres, is located within the city limits, off of Hendersonville Road, just south of Walden Ridge Road. The property currently contains a vacant single-family home and the infrastructure for what was designed to be an office/residential subdivision.

Properties to the north contain office buildings and those to the east (along Hendersonville Road) contain commercial operations. To the west and south are single family homes although the zoning to the south is largely Office Business.

The property in question was approved for a residential and office subdivision in 2006. Significant grading and infrastructure development took place based on that approval. Most utilities were installed and curbing and roadway construction was largely completed. The project was abandoned in 2007 and the property placed on the market.

In 2008, another developer submitted to the City a proposal for a 144 unit residential community and received conditional zoning approval for the site (to RM16CZ). This development also was never pursued post-approval. This proposal was for a mix of single-family, duplex, quadruplex, townhouse, and multi-family dwellings with a proposed residential density of 11.8 units per acre. Modifications for height and setbacks were granted along with a variance for grading (steep slope regulations).

A new developer, Evolve, LLC proposes to develop the property with five additional units (149 – 12.2 units/acre) and with revisions to the type and location of the dwelling units. This concept uses only multi-family units, which will reduce overall imperviousness on the site. The request is for an amendment to the previous conditional zoning approval to adopt the new concept.

The proposal for the community is a mix of one, two, and three bedroom apartments in six buildings with a clubhouse/pool amenity. Access will still be via the main drive off of Hendersonville Road. The previously approved secondary exit road will be removed as the buildings will have sprinkler systems. While much of the rest of the existing road system will be retained, the developer is planning to remove the cul-de-sacs at the western end of the property to better work with the slopes found in that area in the siting of one apartment building and parking. They plan to restore these areas that will be demolished to a natural state or design them to be utilized as open space amenities by the residents of the community. There is an existing home on the property that will be removed once construction begins.

The property is in an area protected under the City's steep slope regulations. The easternmost 6.36 acres is in Zone A of the regulations; the western 5.85 acres are in Zone B. Under the regulations, the allowable number of units in the Zone A portion is 85. In the Zone B portion, the allowable number of units is 24. The developer is proposing 24 units in Zone B in one building. The developer is proposing 125 units in Zone A (five buildings) for a total of 149 units.

They are requesting retention of the previously allowed development standard bonus to allow the additional 40 units (total is 137% of the base density allowed). Although this bonus provision is no longer in our ordinance, this can be extended to the amended development if the proposal meets the intent for such a bonus. Development bonus standards allow multi-family projects with less than 20% of the housing being affordable (per City standards) to have a maximum density of 150% of the allowed base density. The developer is proposing that 10% (14 units) be affordable. They have also provided a plan in their submittal which outlines other features that support the development bonus. These include:

- The preservation of mature natural woodlands (23% of site).
- The promotion of a socially interactive community through development of such amenities as a clubhouse/pool, walking path, dog park, and tot lot.
- The establishment of community raised gardens for the residents.
- Open space exceeding City standards (over 40,000 square feet additional).

The applicant is also committed to green/sustainable building practices including:

- Using high-efficiency fixtures and fittings above code required minimums.
- Use of Energy Star rated appliances.
- Use of HVAC units with SEER ratings higher than code required minimums.
- Using insulation values greater than required minimums.

- Using low VOC floor finishes and paints.

The applicant is seeking modifications to the height of building #300. The allowable height is 40 feet. The proposed elevation is 41'2 ¼". The needed modification is 1'2 ¼ ". They are also requesting modifications to the side setbacks as follows:

- North – a 17 foot modification from the required 40 foot setback. 23 feet provided.
- South – a 25 foot modification from the required 40 foot setback. 15 feet provided.

Staff is supportive of the height modification because the property abuts Office Business zoning at the location of the tallest building. Office Business zoning allows for buildings to be 60 feet in height. Staff is also supportive of setback modifications because of the adjacent Office Business Zoning which allows side setbacks of 10 feet, because of the limitations to development based on the existing infrastructure, and due to the topography of the site and surrounding area.

At a meeting on August 19, 2013, the City of Asheville Technical Review Committee (TRC) reviewed the conditional zoning request and made a positive recommendation (with conditions) that the project be forwarded to the Asheville Planning and Zoning Commission. The developer has modified the submittal since that time, addressing the bulk of the conditions in the report.

As previously noted, at a meeting on August 26, 2013, the City of Asheville Board of Adjustment reviewed the request for a variance to the steep slope regulations with respect to grading and voted unanimously to approve the requested variance. One adjoining property owner was present at that meeting and expressed concerns about lighting and traffic. He has a single-family home on the property although the property is zoned Office Business.

This conditional zoning request received a negative recommendation (1-3 with three commissioners absent) from the Planning & Zoning Commission at a meeting on September 4, 2013. Two adjoining property owners spoke at the hearing noting concern about the height of Building 600 (westernmost structure) and the desire to see more single family homes (as opposed to multi-family) on that part of the property. The Commissioners voted not to recommend this project to the Asheville City Council but encouraged the developer to meet with neighboring property owners and discuss ways to address their concerns.

Subsequent to the meeting, the developer met with the property owners and the site plan has been revised to address their concerns. The proposed walking path has been pulled in away from their properties and the plan now shows a wooden fence between Building 600 and the adjacent properties on the western end of the development. The developer indicates that letters of support from those concerned have been received. An adjoining property owner asked that she relay that he is concerned about traffic on Hendersonville Road but that he much prefers the new design that pulls the development away from his property.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The project, if approved, must meet all the technical standards set forth in the City's Unified Development Ordinance and Standards and specifications manual. The developer has been working closely with City staff to ensure compliance.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of**

the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.
In designing this project the developer has moved the majority of the development away from the steeper sloped areas where they propose to restore much of that section of the property to pervious land with reforestation. Restricted by the amount and design of the grading and development already done on the site, they are working to comply as much as possible with the City's steep slope regulations while still achieving higher density development in an area appropriate for such development. They sought, and obtained, a variance for the grading of the site.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The building location and site amenities shown on the development plan depict a project that should not injure the value of adjoining properties which are mostly zoned for office or commercial development. The proposal pulls most of the development away from the single-family zoned properties.

4. **That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
The design of the project is compatible with the commercial and office properties adjacent which are heavily developed. The project sits below the single-family homes that adjoin it and there should be substantial topographic and vegetative protection for these properties.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
The proposed use supports the 2025 goals and Council vision as follows:
   a. Supports the goal of pursuing compatible infill development.
   b. Supports the goal of permitting and encouraging transit supportive density along and adjacent to major corridors and logical transit nodes.
   c. Supports the goal of promoting the use of green building techniques.
   d. Supports the goal of permitting more intense development in areas with appropriate infrastructure.
   e. Supports the goal of providing affordable housing.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The proposed use is located off of a major (five lane) thoroughfare in the City. Transit is available along this corridor. Much infrastructure is already in place for this project.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The developer has submitted an update to the previously submitted traffic study for the development that has been analyzed and accepted by the City's Traffic Engineer.

Pros:
- The project supports the goal of pursuing compatible infill development.
- The project takes a property with significant infrastructure in place and proposes a sensitive residential development.
- The project proposes an affordable housing component.

Con:
- The project will add additional vehicular traffic to Hendersonville Road although the traffic study does not warrant any improvements.

82

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable and recommends approval of the conditional zoning request with the modifications to height and setbacks and with the conditions set forth in the TRC report and the standard conditions listed below.

Although the Planning and Zoning Commission did not recommend this project (1-3 vote) due to adjoining property owner concerns, the developer has met with these property owners and addressed these issues.

Mayor Bellamy opened the public hearing at 6:13 p.m.

Mr. Derek Allen, attorney representing Evolve Development, LLC, reiterated the background of the project. He provided Council with information (and reviewed with Council) an area photo, currently approved sketch plan, proposed sketch plan, exceptional site development standards and goals, and neighbor support letters. He said there is only one entrance into the project because all the buildings will be sprinkled. He explained how they worked with the neighbors to make this a better project, which they now support. Modifications on the buildings are really geared towards not doing any more grading. They tried to cluster the development closest to the commercial development on Hendersonville Road. He said they have added in a workforce housing component. At the Planning & Zoning Commission they proposed that 5% of the units be affordable; however, they are now proposing 10% (14 units) be affordable. He urged Council to approve this infill development.

Mayor Bellamy closed the public hearing at 6:21 p.m.

Councilman Smith personally wanted to work with builders to make sure that everything we do in the City has an affordable housing component to it. He hoped that Council will have a more substantive policy discussion around how we can get to a much better place to meet our affordable housing needs.

Councilman Pelly noted that Council recently approved a contract with the N.C. Dept. of Transportation to bring sidewalks down Hendersonville Road, showing that we are trying to do our part to contribute to the quality of life of all our residents. Because there are 149 units in this project, he felt a true 10% affordable housing would be 15 units and he hoped the developer would consider adding at least 15 affordable units.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4240, to amend the conditional zoning of Carefree Asheville located at 1903 Hendersonville Road to include a change in housing type and building footprints, a change in the internal road network, and an increase in the number of residential units, including modifications for setback and height, and subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) All site lighting must comply with the City's Lighting Ordinance and be equipped with 90 degree cut-off fixtures and directed away from adjoining properties and streets; (3) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (4) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; (5) This project will undergo final review by the TRC prior to issuance of any required permits; and (6) That 10% of the project (14 units) be affordable. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 28 - PAGE 350

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT THE INTERSECTION OF CLINGMAN AVENUE EXTENSION AND

ROBERTS STREET FROM COMMERCIAL INDUSTRIAL DISTRICT AND RIVER DISTRICT TO URBAN PLACE DISTRICT/CONDITIONAL ZONING TO FACILITATE A MIXED USE DEVELOPMENT KNOWN AS RAD LOFTS, INCLUDING A MODIFICATION REQUEST ON THE BUILDING SIZE

ORDINANCE NO. 4241 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT THE INTERSECTION OF CLINGMAN AVENUE EXTENSION AND ROBERTS STREET FROM COMMERCIAL INDUSTRIAL DISTRICT AND RIVER DISTRICT TO URBAN PLACE DISTRICT/CONDITIONAL ZONING TO FACILITATE A MIXED USE DEVELOPMENT KNOWN AS RAD LOFTS, INCLUDING A MODIFICATION REQUEST ON THE BUILDING SIZE

Interim City Attorney McGlohon explained the conditional zoning process which is limited to site specific. The conditional zoning requires no specific findings. The decision should be based on sound land use guidance principles. The individual conditions and site specific standards that can be imposed are limited to those needed to bring a project into compliance with the City's ordinance, adopted plans, and those addressing the impacts reasonably expected to be generated from the development or use of the site. She said that this project is also being considered for a land use incentive grant; however, that process is different from what Council is considering at this time.

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at the intersection of Clingman Avenue Extension and Roberts Street from Commercial Industrial District and River District to Urban Place District/Conditional Zoning to facilitate a mixed use development known as RAD Lofts, including a modification request on the building size. This public hearing was advertised on October 11 and 18, 2013.

Ms. Bernstein said that the applicant is requesting a Conditional Zoning for two parcels located at 146 Roberts Street from CI (Commercial Industrial) and River to UP (Urban Place District) – Conditional Zone in accordance with Section 7-7-8 of the UDO, for the construction of a mixed-use development.

The project site consists of two separate parcels with a combined area of approximately 3.26 acres and frontage on Roberts Street, Clingman Avenue and Park Avenue (north) in the River Arts District. The main parcel for development is 2.88 acres in size and is zoned Commercial Industrial (CI). The second parcel (0.379 acres) is located across Roberts Street to the south and is currently zoned River District. Adjacent parcels are similarly zoned.

The project area is currently vacant but was most recently the site of Dave Steel. The main building from that use was removed and all remaining structures (railroad tracks, walls and a small building) are to be removed.

The applicant is proposing the construction of a mixed-use development including residential, retail and office spaces and parking, both structured within the development as well as a small separate surface lot. A total of 209 residential units are proposed with 141 1-bedroom and 68 2-bedroom units. There are 26 retail spaces designated (42,776 square feet gross area) and 11,656 square feet of office space (13,116 square feet gross area) shown on submitted plans.

The design incorporates seven buildings with a shared base of structured parking. The buildings range from two to seven stories (no height exceeds 75 feet). Building A fronts on Roberts Street (5-levels); buildings B and C are more interior to the site with rear frontage on Park Avenue (up to 7-levels); Building D is almost fully interior to the site (6-levels); and buildings E, F and G front on Clingman Avenue (4, 2 and 3-levels).

There are to be two access points into the site, one two-way driveway into Building A from Roberts Street and another two-way driveway into the parking structure between buildings D and E on Clingman Avenue. The separate parking lot will have two single-access driveways off Roberts Street. New sidewalks are shown along both sides of Roberts Street as well as the project frontage on Clingman

Avenue and range from 6 to 12 feet in width. There is an existing 5 foot sidewalk along the Park Avenue frontage. Additionally, the project has been designed to incorporate ample areas of pedestrian amenities both at the corner of Clingman and Roberts as well as the public pedestrian promenade through the site.

This project incorporates parking in several locations. The largest is a 338-space parking structure within the development; the standalone parking lot on a separate parcel across Roberts Street to the south indicates 24 spaces (2 HC accessible) and approximately 15 other on-street spaces will be delineated through streetscape enhancements. Bike parking is also included throughout the site.

Landscaping is required on the site and includes street trees along all road frontages, building impact plantings, parking deck and dumpster screening and parking lot landscaping with a street buffer. Open space is also required in this zoning district, equal to 5% of the lot area – almost 15% has been provided, mainly through the urban-style amenities in the pedestrian promenade.

Modifications:

1. **Building Size** – For buildings exceeding three stories, the maximum footprint is limited to 50,000 square feet with a maximum gross floor area of 200,000 (unless a variance is requested). Technically according to the building code, because of the shared base of parking, A-F are all considered as one building, even though they are smaller separate and distinct above the shared base. "Building 1" has a gross floor area of approximately 223,882 square feet, however, the independent buildings above ground do not individually exceed the maximum. *This modification must be granted by City Council and is supported by staff.*

2. **Sidewalks** – There are three locations where the sidewalks do not meet the required 10 foot width: existing sidewalks along Park Avenue are only 5 feet; sidewalk proposed along the surface parking lot on Roberts Street is only 6 feet and there is a stretch along Clingman Avenue that is only 8 feet. Per the UDO, approval by the City Traffic Engineer is needed for the insufficient width and has been granted based on topography and site restrictions.

The Urban Place zoning district was created to foster "higher density, mixed-use development that is economically viable, pedestrian oriented, visually attractive and contributing to the place making character of the City...to enhance the streetscape and offer a wide range of complementary land uses and employment opportunities...[and] intended in areas where the appearance of the built environment is important to the vitality of the area." Additionally, the zoning district was created with areas along the French Broad River in mind. Staff believes that this location in the River Arts District is ideal for Urban Place zoning. Although the uses proposed would have been acceptable in the underlying zoning, Urban Place offers a greater residential density (64 units per acre verses 16 – or 209 units for the project rather than 38 units) appropriate for this location.

This project was approved with conditions by the Technical Review Committee on September 16, 2013. Approval by City Council and Final TRC review is required prior to issuance of a zoning permit. An informational review by the River District Design Subcommittee was held on September 25, 2013, and the Asheville Area Riverfront Redevelopment Commission (AARRC) on October 10, 2013. Both groups were supportive of the project. The Planning & Zoning Commission reviewed this proposal at their meeting on October 2, 2013, and recommended unanimous approval.

Staff has received comments from the public relating to the elimination of on-street parking along Clingman Avenue, the increased traffic flow through existing traffic patterns and maintaining affordability of spaces for both living and working. At the Planning & Zoning Commission meeting, there was comment encouraging the applicant to use local artists as much as possible with site amenities (bike racks, planters, benches, signage, etc.) to fit in with the look and feel of the River Arts District.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in

Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   This site was previously developed and has a +/- 35 foot grade change from Park Avenue down to the Robert Street / Clingman Avenue intersection with a steep bank along the northern end. The proposal focuses development activity (retail spaces, pedestrian plaza and walkways, parking garage entrances) down towards the previously graded areas and leaves the rear bank intact, more or less, functioning as the "back" of the site. Working with the grade changes on the parcel, the structured parking is only "exposed" along the rear of the site where there is no public interaction, integrating the design into the natural and topographic features on the parcel.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The development is expected to complement the adjacent shops, studios and uses and add to the fabric of the River Arts District in a valuable way. Streetscape improvements will greatly improve the pedestrian experience along Roberts Street and Clingman Avenue and the addition of parking in several locations will be a benefit to the area. The design standards in Urban Place zoning are crafted to promote activity along the ground level and placing residential units on floors above is a positive addition to the area as a neighborhood. The mix of uses should fit well with the immediate area and is not expected to injure the value of abutting properties.

   Concern has been expressed from several members of the public that the units (both residential and commercial) should be kept at affordable rates so that spaces for emerging artists in the district will not be priced out of reach.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   This type of mixed-use, high density development is ideal (and intended) for areas such as the River Arts District and while the buildings are taller than most in the immediate area, the scale of the structures is mitigated through façade planes, step-backs, balconies and material differentiations as well as ample pedestrian areas between and around the buildings. Many of the existing buildings along Roberts Street are two stories from the street (taller behind due to grade changes) but in the style of these old industrial buildings, they are much taller overall than typical two-story buildings constructed today, resulting in a feeling of a larger scale. Also, new development continuing south on Depot Street (Glen Rock) has set a precedent for taller construction in the area. The design incorporates a more "industrial" look which should complement the existing built environment and there are creative amenities incorporated into the site which are in harmony with the character of the area (community garden spaces for example).

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   Elements of the overall project are directly aligned with the City's goals and objectives including mixed-use infill development, economic investment in an area of notable cultural activity, multi-

modal transportation elements that enhance walkability (new sidewalks and ample pedestrian areas, bike racks) and supporting residential uses in neighborhoods close to downtown.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.** This site in the River Arts District places the project in an easily accessible location by car, foot, bicycle and is proximate to two Asheville transit routes (WI and W2). The project has been reviewed by the Technical Review Committee and has been found to have adequate access to infrastructure.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.** Based on a review of the Traffic Impact Study, prepared by JMT Engineering, the proposed use should not cause undue traffic congestion or create a traffic hazard if the recommendations of the TIS are complied with.

Pros:

- City goals support mixed-use development, especially providing residential uses in a walkable location proximate to transit and the Central Business District
- Streetscape improvements will greatly enhance the pedestrian experience along Roberts Street and Clingman Avenue Extension.
- Structured parking is integrated into the site design so that it is masked from the street by habitable and active uses.
- Urban Place zoning sets forth specific design and operational standards to ensure a development that will integrate into the area and enhance the activity at the street level.

Cons:

- A modification is needed to allow a building footprint size larger than the district allows (*staff is supportive of this request since other design characteristics mitigate the building size).*
- No designated affordable retail or residential units (*affordability is not a requirement).*

Staff recommends supporting the requested conditional zoning to Urban Place to support this development proposal, especially for the increased residential density. The streetscape enhancements, structured parking, thoughtful design and mix of uses should complement the activities already in the River Arts District.

Staff recommends the zoning map amendment from River and Commercial Industrial to Urban Place (Conditional Zoning) – including the request to increase the maximum building footprint - subject to the conditions recommended by staff and find that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation.

Mayor Bellamy opened the public hearing at 6:34 p.m.

Mr. Matt Sprouse, representing Sitework Studios, provided Council with several views of the property, along with detailing the conceptual drawings of the proposed site improvements, plan for the parking decks, street elevations, and views from the property. He said that there will be a total of 209 residential units that will fall within the workforce housing definition of Asheville. There is 223,882 square feet of total space, and of that 54,000 is commercial and office space. All of that together has a total of 377 new parking spaces, most of which are in the deck.

Ms. Robin Raines, representing Rowhouse Architects, briefly walked through the different levels of the buildings.

Mr. Tim Schaller, representing the River Arts District Business Association, expressed concern about parking, construction disruption of business, and need for crosswalks. He said the City had promised parking on Depot Street that hasn't happened yet, so he hopes this will spur that along. They would also like to see some affordable live/work studio space.

Mayor Bellamy closed the public hearing at 6:46 p.m.

Councilman Hunt felt this is a great transformational project for the River District and felt that the proposed land use incentive grant might alleviate some lingering concerns. He could support some reasonable investment by the City. He agreed that affordable units is a key goal of Council. Another concern is getting away from utility poles in the middle of sidewalks.

Mr. Harry Pilos, developer, understood that Duke Energy Progress has a program that will help contribute to putting utilities underground. If the loads are enough, Duke Energy Progress will pay for that work.

Mr. Jason Walls, Duke Energy Progress District Manager, explained that it's their practice that developments that use underground utilities should have the responsibility to pay for those underground utilities. However, if the load is sufficient (from various factors in a cost matrix) it might be that Duke Energy Progress would pick up that cost, because it would be an on-going stream revenue for the company.

Councilman Smith noted that Mr. Pilos would be making a $43 Million investment in the River Arts District. He appreciated Mr. Pilos' willingness to be sensitive to the District and was pleased that he was continuing to work with staff to address affordability and environmental issues.

In response to Councilman Smith, Mr. Pilos said that there is a big gap between affordable housing for a 1-bedroom ($650 including utilities) and the product they are producing with the parking structure. He simply cannot make the math work. But, what he would do is calculate what subsidy is required for 10 years to make the math work and then pass it onto staff and Council for consideration.

Councilman Bothwell suggested Mr. Pilos look at installing solar on the vast roof. Mr. Pilos said that he is already in the process of studying that, along with other options.

Vice-Mayor Manheimer said it's important for the City to meet its partners in the community in the transformation of the River District, noting that the City has a major redevelopment plan in that immediate area.

City Manager Jackson noted that the City has made significant commitments in the River District, some being, but are not limited to: restoration of the smoke stack and we deep into the River Arts District Transportation Improvement Plan planning process. In terms of Depot Street parking, Council has funded that in this year's paving budget and we are waiting for approval by the railroad for those 34 parking spaces on Depot. We hope to install those parking spaces later this spring. He also noted that Mr. Pilos will be making an application for a land use incentive grant.

Mayor Bellamy thanked the several organizations, artists, business owners, and individuals who have made investments in the River District.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4241 to conditionally zone property located at the intersection of Clingman Avenue Extension and Roberts Street from Commercial Industrial District and River District to Urban Place District/Conditional Zoning to facilitate a mixed use development known as RAD Lofts, including a modification request on the building size, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development

88

Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; and (6) Existing granite curbs must be reused on site or turned over to the Public Works Department for use in the local historic districts. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 28 - PAGE 354

Closed Session

At 7:06 p.m., Councilman Pelly moved to go into closed session to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in G.S. 143-318.11(a)(3). This motion was seconded by Councilman Smith and carried unanimously.

At 7:23 p.m., Councilman Davis moved to come out of closed session. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

C. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 329 ROCKWOOD ROAD FROM HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING, FOR A HOLIDAY INN EXPRESS AND SUITES, INCLUDING A MODIFICATION REQUEST TO THE BUILDING HEIGHT STANDARDS

ORDINANCE NO. 4242 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 329 ROCKWOOD ROAD FROM HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING, FOR A HOLIDAY INN EXPRESS AND SUITES, INCLUDING A MODIFICATION REQUEST TO THE BUILDING HEIGHT STANDARDS

Councilman Davis moved to recuse Vice-Mayor Manheimer from voting on this matter due to a conflict of interest. This motion as seconded by Councilman Hunt and carried unanimously.

Urban Planner Julia Fields said that this is the consideration of an ordinance to conditionally zone property located on 329 Rockwood Road, from Highway Business District to Highway Business District/Conditional Zoning, for a Holiday Inn Express and Suites, including a modification request to the building height standards. This public hearing was advertised on October 11 and 18, 2013.

Ms. Fields said that the project site of approximately 2 acres is located at 329 Rockwood Road (PIN 9643.75-1885) and is zoned Highway Business (HB) District. It is located adjacent to a major shopping area which has its main entrance off of Airport Road.

A seven-story, 100 room hotel (Holiday Inn and Suites) is proposed for the site. The proposed structure has a gross floor area of 60,474 square feet. The building, as designed is 82'8" in height necessitating a modification from the HB standards (60 feet height maximum; 22'8" modification). The reason for the conditional zoning is to request this modification. A request for a Determination of No Hazard to Air Navigation from the Federal Aviation Administration is pending. This must be granted regardless of zoning action by the City.

Access to the hotel will be via an access drive (30 to 24 feet in width) shared with the restaurant located on the adjoining property off of Rockwood Road. There is a traffic signal from Airport Road onto Rockwood Road. A sidewalk will be provided along Rockwood Road.

A total of ninety-seven vehicle parking spaces (4 handicapped) are provided. All spaces are surface parking. Parking for five bicycles is also planned.

Proposed landscaping meets the relevant standards for street trees, parking lot landscaping and building impact landscaping. The open space requirement of 15% (13,068 square feet) is exceeded. Plans are to provide 15,043 square feet in open space.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposal has been reviewed by the City of Asheville Technical Review Committee and meets, or can meet, all applicable regulations concerning health and safety. A required Determination of No Hazard to Air Navigation (FAA) is pending.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   There are no significant natural or topographic features on the site or in the vicinity needing mitigation.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The proposed use should not injure the value of adjoining or abutting property. The site is in an area heavily developed with large commercial and industrial uses. Another hotel is being constructed across Rockwood Road.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   While the proposed structure is taller than other existing structures in the area, the size and bulk are compatible with other development in the regional node found at the intersection of Airport Road and I-26. It is adjacent to Buncombe County zoning that allows a height of 90 feet and perhaps the City should reconsider the zoning of areas close to I-26 in the future.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   The comprehensive plan depicts the Airport Road/I-26 area as a regional node. This project is supportive of that concept and of the objective of placing large commercial uses in appropriate areas adequately served by public utilities and transportation resources with easy access to the interstate highway system.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   The proposed use is located off of a high traffic corridor (Airport Road) with quick access to Interstate 26. The project has received approval from the City's Technical Review Committee concerning issues of water, fire, and police protection.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**

A traffic impact analysis was not warranted for this development. No concern was raised at the Technical Review Committee Meeting concerning traffic.

The City of Asheville Technical Review Committee reviewed this project on September 16, 2013, and recommended it with conditions. Many of these conditions have been met in the revised plans submitted for review by the Planning and Zoning Commission and Asheville City Council.

This conditional zoning request was recommended for approval by a 5-0 vote of the Asheville Planning and Zoning Commission at a meeting on October 2, 2013. This approval included a recommendation that the height modification be granted. The only speakers at the hearing on this matter were City staff and the applicant. The Planning and Zoning Commission placed the following conditions on their approval:

1. The project shall comply with all conditions outlined in the TRC staff report.
2. The project shall comply with all standard conditions.
3. That an FAA Determination of No Hazard to Air Navigation be received before building permits are issued.
4. That staff and the developer explore constructing a sidewalk along the entrance drive connecting to the proposed sidewalk along Rockwood Road if such a walkway would be feasible and legally permissible.

Staff has looked into the feasibility of constructing such a sidewalk. Staff finds such a sidewalk to be problematic. The slope and existing retaining wall on the site would make compliance with ADA standards very challenging and costly. While this is not the safe egress from the building (which requires a fully accessible route), such a "convenience sidewalk" still must meet ADA standards. While in these situations this can include such things as stairs, the site does not lend itself to providing such a walkway and there still could be discrimination claims filed against the owner.

Pros:

- The proposal places a major service operation in an appropriate regional development node.
- The proposal supports the comprehensive planning goal of placing large commercial uses in areas adequately served for such uses.

Con:

- None noted.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable and recommends approval of the conditional zoning request with the modification to height and with the conditions set forth in the TRC report and the standard conditions listed below.

The Planning and Zoning Commission voted to recommend approval (5-0) on October 2 2013, with the conditions as listed above, the modification, and the condition to explore a walkway along the entrance drive to the property.

City staff recommends approval of the zoning map amendment from HB (Highway Business) to Highway Business CZ (Conditional Zoning) with a height modification of 22'8", pending FAA approval, and subject to the conditions recommended by staff and all standard conditions.

Mayor Bellamy opened the public hearing at 7:30 p.m.

Mr. Justin Church, civil engineer for the project, said that staff did a good job in explaining the project and was available to answer questions.

Mayor Bellamy closed the public hearing at 7:31 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Pelly found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4242 to conditionally zone property located on 329 Rockwood Road, from Highway Business District to Highway Business District/Conditional Zoning, for a Holiday Inn Express and Suites, including a height modification of 22-8", pending FAA approval, and subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Davis and carried unanimously (Vice-Mayor Manheimer recused).

ORDINANCE BOOK NO. 28 - PAGE 357

D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 919 HAYWOOD ROAD FOR THE CONSTRUCTION OF HAYWOOD VILLAGE

ORDINANCE NO. 4243 - ORDINANCE TO AMEND THE CONDITIONALLY ZONING OF PROPERTY LOCATED AT 919 HAYWOOD ROAD FOR THE CONSTRUCTION OF HAYWOOD VILLAGE

Urban Planner Alan Glines said that this is the consideration of an ordinance to amend the conditionally zone property located at 919 Haywood Road for the construction of Haywood Village. This public hearing was advertised on October 11 and 18, 2013.

Mr. Glines said that the project that is currently on file was approved by City Council on August 14, 2007. That project was approved for 56 residential units and 10,000 square feet of commercial space. Work began and the first structure was constructed and addressed as 915 Haywood Road. The first phase of surface parking was also completed, but economic conditions held up further progress. In early 2011 the developer, F. Roger Page, died and family members have had the property for sale since then. After the construction stopped, staff began to receive many inquiries from west Asheville residents concerning the unfinished site and from potential developers evaluating the approved requirements for taking the project to completion. The current proposal is the first to begin the process for an amendment to allow completion of the project. Its modifications reflect the changed market conditions of 2013.

Approved Site Plans 2006 and 2007 - As noted previously, the overall concept and layout for the site were developed during a design charette held at the site over a four or five day period in early 2006. During the charette over 100 west Asheville residents, including many from the surrounding neighborhood, participated in the process. A proposal was developed and approved in May of 2006 (see the *Special Zoning Considerations* section above). The 2006 plan was not ultimately built due to complications with the offer to purchase with the Diocese of Charlotte (property owners at the time) and later that year, the high cost estimates that came in for the structured parking areas under the proposed commercial buildings.

The project was revamped and scaled back and returned in 2007 proposing 56 residential units and 10,000 square feet of commercial space. The project was similar to the earlier plan in that the mixed-use commercial structures faced Haywood Road and featured three, three-story buildings with commercial space on the ground floors and residential units on upper floors. Behind these large buildings, residential buildings were proposed ranging in size from three-story buildings (6 of this type) and smaller-scaled residential scale buildings surrounding the perimeter of the property. The placement

of the smaller residential buildings was an important component of the plan because it allows the development to transition back to the scale of the surrounding residential area. The approval for this plan by City Council was unanimous.

Current Proposal 2013 - The current proposal increases the number of residential units and reduces the amount of commercial space over the 2007 approval. It proposes 75 residential units and up to 4,800 square feet of commercial space. The residential component (about 26 units/ acre) is up from 56 units approved (19 units per acre). The commercial space is reduced from the 10,000 square feet approved in 2007 to now include 2,800 s.f. in the existing building and 2,000 s.f. proposed in the new building along Haywood Road. The commercial space will be at the ground-floor corner of the new building proposed at Mitchell Avenue and Haywood Road and within five ground floor live/work units in that structure. Fifteen residential units are proposed on the upper two floors of the new mixed-use building and seven residential units are already built on the upper floors of the existing building.

Behind Haywood Road, the plan will follow the same general layout for circulation using the two existing driveways along Mitchell and Blue Ridge Avenues. On-site parking will be provided along a one-way private drive that circles the interior of the property. The parking plan proposes 107 spaces on the interior to augment the 10 existing spaces located on Haywood Road. This proposal is well within the approved range of required parking for a project of this size in the Urban Place District. There are three larger footprint three-story buildings in the center of the site that will include a total of 36 residential units (12 in each building). Twelve smaller residential units (4 duplexes and 4 single-family) will line the edge of the property and are designed to face the two streets that lead into the neighborhood beyond. The integration of the smaller scale residential units into the neighborhood fabric has been a consistent element of all of the plans for this site. The building elevations provided with the current submittal are similar in style and scale to the buildings approved in 2006 and 2007. The scale of the structures and building heights are all within the allowances for the Urban Place district.

At the Technical Review Committee meeting on September 16, 2013, the Transportation Department asked that the project engineer formally request a reduction in the sidewalk width along Haywood Road if it will not meet the 10' district standard for Urban Place. The project engineer noted the width of the sidewalk at the existing building (slightly less than 10 feet) and the existing on-street parking along the length of Haywood street. Since the on-street spaces and the front half of the sidewalk is constructed, the back portion in front of the new building could comply with the standard width. The project architect noted that the new building will provide variations in the façade to break up the scale of the building and that in places it will comply. He also noted that they would prefer the new building be aligned with the existing building on the block. Staff from Public Works and Transportation noted that the existing raised-curb planters could be re-worked to remove the curbing and that those areas would better comply with the sidewalk requirement. Transportation will consider the request when it is received from the project engineer.

Variances Previously Approved To Carry Forward:

- Property line buffer reduction- approved at 15 feet wide without a fence but planted with trees and shrubs maintaining the majority of the existing white pine trees, requested by neighborhood.
- Sidewalk width along Mitchell and Blue Ridge will be constructed at 6 feet wide due to existing trees and right of way constraints.
- Residential setbacks expanded in places to protect existing vegetation and to reflect the topographic changes from the residential side streets.
- Building Orientation- Approval for structures along the periphery of the site to be oriented to their public street frontage and structures internal to the site to be oriented towards their internal driveway access.
- Reductions in the percent of window openings for the residential buildings located within the interior of the site because the standard is intended to apply to mixed-use buildings.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in

Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The project will meet City and State building code requirements and will not endanger public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**

   The largest structures are focused along Haywood Road. The other large residential buildings will be internal to the site. Single-family scaled houses will be located along Mitchell Avenue and Blue Ridge Avenue. Some of the existing trees will be protected and retained on the property such as several white oaks, a large sycamore, white pines and maples.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The completion of this project even with the addition of more residential units is expected to be a benefit to the area and act as a positive catalyst for this portion of Haywood Road.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   The largest structures will front along Haywood Road. Other residential buildings will be placed behind Haywood and internal to the property. Smaller scale single-family style residential buildings will face the neighborhood streets, larger multi-family structures will be on the interior of the site. This layout is similar to the original proposal which was created after an inclusive community design charette for the site. This proposal is substantially similar to the original plan.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   The plan meets City Council adopted goals of higher density mixed-use development located on multi-modal transit corridors in areas of the city that are compatible with that growth and where there is infrastructure to support it. This is an in-fill site that has remained unfinished throughout this economic downturn and it will be a positive catalyst to have it completed.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   One transit line passes directly by this section of Haywood Road and two other connectors run nearby. Based on the approval in 2007, the project will provide a transit shelter along Haywood Road. Fire and police stations are located within a few hundred feet of the property. There is sufficient infrastructure to provide adequate facilities for the proposed development. A neighborhood park is located behind the Fire station.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
   The proposal has been reviewed by the City traffic Engineer and no concerns were raised about the amount of traffic generated. The project will not create undo congestion or create a hazard. Residents of and visitors to this site will have several transportation options available to them including transit, biking and walking so that should mitigate some of the traffic concerns.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

This amendment to the conditional zoning project was recommended for approval by a 5-0 vote by the Planning and Zoning Commission. No concerns were noted. Three people spoke at the Planning & Zoning Commission meeting, not opposed to the development but concerned about cut-through traffic and on-street parking along neighborhood streets.

Pros:

- A key distressed project will be completed with an amended development plan
- Higher density residential infill development will be added to a corridor designated for density bonus projects
- Neighbors and the community were involved in the creation of the plan in 2006

Con:

- Some concern has been expressed about additional traffic on neighborhood streets for each iteration of this proposal

Staff recommends approval of the project because it meets the goals of the Comprehensive Plan and other adopted plans and because the request is reasonable.

Mayor Bellamy opened the public hearing at 7:40 p.m.

Mr. Robert Todd, designer for the project, was excited to be a part of resuscitating the project and felt this was a good collaborative process. He asked for Council's support.

An area property owner hoped that this development (installing sidewalks) would not make it harder to put in bike lanes in the future. He also questioned the amount of commercial space being decreased fronting Haywood Street.

Ms. Jenn Swearington, owner of a business in the current building, spoke in support of seeing the development re-start.

Mayor Bellamy closed the public hearing at 7:47 p.m.

Mr. Todd explained that they will take a remaining of the prior approved commercial space and turn it into a live/work space in the transition period, so someone might have a home office on the commercial corridor where they can actually live upstairs or within that unit.

When Councilman Smith asked if the owner would be willing to include an affordable housing component in the development, Mr. Todd explained that the owner would have to make that decision and he is not present at the meeting.

When Councilman Smith asked if Council would be willing to postpone action to have a conversation with the owner about affordability, all of Council agreed that affordable housing is very important, however, it was the consensus of Council to move forward since there is no policy for developers to include affordable housing in their projects and to hold up a project at the very end of the process would not be fair.

Councilman Pelly supported Councilman Smith's earlier suggestion that Council have a more substantive policy discussion around how we can get to a much better place to meet our affordable housing needs.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4243 to amend the conditionally zone property located at 919 Haywood Road for the construction of Haywood Village, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape, utility and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Davis and carried on a 6-1 vote, with Councilman Smith voting "no".

ORDINANCE BOOK NO. 28 - PAGE 361

E. PUBLIC HEARING TO AMEND SECTION 7-11-4 (C) OF THE CODE OF ORDINANCES TO REVIEW OPEN SPACE REQUIREMENTS FOR INDUSTRIAL PROJECTS IN THE INDUSTRIAL DISTRICT AND COMMERCIAL INDUSTRIAL DISTRICT

ORDINANCE NO. 4244 - ORDINANCE TO AMEND SECTION 7-11-4 (C) OF THE CODE OF ORDINANCES TO REVIEW OPEN SPACE REQUIREMENTS FOR INDUSTRIAL PROJECTS IN THE INDUSTRIAL DISTRICT AND COMMERCIAL INDUSTRIAL DISTRICT

Director of Planning and Development Judy Daniel said that this is the consideration of an ordinance to amend Section 7-11-4 (c) of the Unified Development Ordinance to review open space requirements for industrial projects in the Industrial District and the Commercial Industrial District. This public hearing was advertised on October 11 and 18, 2013.

She said that currently all nonresidential projects must reserve 15% of a lot area for open space. While that standard is not unusual for an office park, a school or church, a multi-family development, or a shopping center; after recent consideration staff believes that this is an unusually high standard for industrial uses in zoning districts designated to promote this type of economic activity. Like the CBD zone, where this requirement is also exempted, the purpose of industrial zones is more specialized in intent and the primary economic development purpose may be compromised by standards primarily intended for suburban style commercial and residential development.

Further, this change will resolve a conflict between the development standards in the Industrial District and the Open Space Standards in Article 11. The Industrial District (Sec. 7-8-22(f)(12)) indicates that there are no "recreational or open space" development requirements; whereas the Open Space standards only exempt the CBD from the requirements and differentiate requirements between "urban" and "suburban" style development.

The impetus for the proposed change, and other recent changes related to the processes for approval of industrial projects, came from recent questions regarding potential industrial sites. Staff came to believe that the process review for site plans for industrial uses were confusing and the open space requirements were too restrictive for industrial uses in the industrially related zones and they should be differentiated from the open space requirements for suburban style office and commercial development.

The proposed amendment pertains only to industrial development and would eliminate the open space requirement in the Industrial zone and reduce it from 15% of the lot area to 5% of lot area in the Commercial Industrial District. This change would impact only the approximately 648 acres zoned Industrial (comprised of 54 properties), which is less than 1% of land in the city; and on 1,850 acres

zoned Commercial Industrial (comprised of 755 properties), which is around 6% of land in the city. (Asheville contains approximately 29, 270 acres.)

A significant portion of those properties already have existing businesses, and this relatively small fraction of land (and some properties have been lost in recent years to general commercial rezoning) offers good potential locations for industrial development that provides higher paying jobs. The open space requirement adds to the financial burden of those companies considering Asheville for their businesses. That reality is a primary reason staff proposes reducing open space requirements in the industrially zoned areas.

This amendment should not raise a concern that open space is not sufficiently valued or recognized for its benefits. Open space requirements are an important requirement in most places, but the economic development benefits in the limited amount of land allowed for industrial development should be considered in weighing where and how much of it is needed. In addition , an offset or "in-lieu" for elements such as green roofs, permeable pavement, or extra parking lot landscaping was considered; but these concepts retain the factor of added expense for this sought after type of business development. Also, it is useful to remember the other UDO requirements for all types of development, which also pertain to industrial projects, satisfy many of the same goals as the open space requirement, and have a better defined impact or benefit, including:

- Parking lot landscaping (cooling and shading parking areas)
- Street tree requirements (establishing a streetscape at the street-side of the property)
- Landscaped property line buffers (screening residential areas from commercial use areas)
- Building impact landscaping (additional plantings required based on the scale of the building)
- Stream buffers (where applicable – providing protection from siltation, runoff, and flooding)
- Stormwater runoff requirements (water quality improvement and protection)

Staff has also observed that areas allotted for open space in industrial development are often on the least buildable portion of residual space on the property. Further, staff believes that the public (and on-site workers) do not generally look to industrial development to realistically fulfill open space needs, so these areas are largely unused (unlike open space in residential developments). Because of these other requirements and because of the intent of the industrial zones is to primarily be job generators (thus meeting other important community goals), staff recommends approval of the modifications to this section.

The staff introduced both the industrial process and open space proposals to the Planning and Zoning Commission at the June 5, 2013, meeting and the Commission recommended approval for the process changes. Subsequently, the City Council approved the process change recommendations at the June 25, 2013, meeting.

The Commission was generally supportive of the intent for the changes to the open space requirements, but requested that staff first present the amendment to the Sustainability Advisory Committee for Energy and the Environment (SACEE) and get their thoughts regarding whether the reductions proposed for the industrial uses should be related to environmental offsets such as green roofs or environmentally sustainable parking lot standards. The Commissioners who requested this process were concerned about issues such as heat island impacts of industrial uses due to their large flat roofs and large surface parking lots.

Staff attended the SACEE Committee on June 19 for a discussion of these environmental concerns balanced against the economic development concerns. Like the Commission, members of SACEE were somewhat divided in their thoughts on this issue and provided a range of comments; but no specific recommendations. Although they did not comment specifically on the thoughts expressed by the Commission, staff who attended the meeting indicated that their thoughts included:

- They reinforced the clear benefit for the landscaping and planting requirements that projects must meet, but shared a concern that open space requirements could have the unintended consequence of expanding or encouraging sprawl due to the additional land area it requires.

- Noting that while open space can have a clear purpose for residential projects or may be beneficial as passive green space for offices or retail area; open space has a less defined purpose for large scale industrial uses.

- Noting that denser infill development patterns and job creation are identified as Council goals.

- Noting that open space can sometimes become a security issue when placed on the rear of a parcel (a not unusual situation), hidden from view; and could thus create unintended problems.

- Noting that the open space requirement for industrial businesses, which are especially valued as job creators, adds to the cost of doing business in Asheville.

- General support (but not a vote) for reducing the requirement to 5%, and retaining the use of a fee-in-lieu option for developments that cannot reach that standard on their site.

- They seemed to feel that because of these concerns, the requirements for other types of commercial development should also be reconsidered and asked for additional information at a later meeting.

The staff returned to the Planning and Zoning Commission at their September 4, 2013, meeting and presented the thoughts from SACEE. After discussion, the Commissioners present voted 2-2 (with 3 absent) on a motion of support for the proposal, and because of the tie vote, did not support the amendment. Concerns cited by the two Commissioners voting against the proposal related to the overall need for open space, regardless of use. One Commissioner was concerned that SACEE had not voted on the proposal; and one Commissioner requested additional information on the amount of property zoned Industrial in the city to be presented to City Council, which is included in this report. Staff also volunteered to return to SACEE to see if they would want to finalize a position on the proposal.

Staff returned to the SACEE Committee at their September 18 meeting for a subsequent discussion on the issue. While again expressing general support for the idea, they again deferred a vote on the issue until their October meeting due to having several members absent. The SACEE reconsidered the open space UDO change at their meeting on October 16. They unanimously supported the UDO change but asked that the Council consider asking staff to continue to research the options for further modifications that would address concerns such as loss of tree cover and impervious coverage without undue financial burden to potential industrial employers.

City staff recommends City Council approve the UDO amendment for changes to the regulations related to open space requirements for industrial uses as outlined in the staff report and find that the amendment is reasonable and are consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation.

Mayor Bellamy opened the public hearing at 8:06 p.m. and when no one spoke, she closed the public hearing at 8:06 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Manheimer found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4244. This motion was seconded by Councilman Davis and carried unanimously.

V. UNFINISHED BUSINESS:

A. CONFIRMATION OF MARVIN ROSEN AS CHAIR OF THE CIVIL SERVICE BOARD

Councilman Marc Hunt said that this is the consideration of a motion to confirm the appointment of Marvin Rosen as Chair of the Civil Service Board to serve until June 25, 2014, or until his successor is appointed, whichever occurs first

On June 25, 2013, City Council adopted Resolution No. 13-146, appointing Marvin Rosen as Chair to serve a full year, or until his successor was duly and annually appointed by the City Council.

On July 12, 2013, Civil Service Board members expressed concern that City Council appointed Mr. Rosen (an appointed member) to serve as Chair beyond his current term of office. On August 27, 2013, City Council adopted Resolution No. 13-179 which appointed Mr. Rosen to serve as Chair for one year or until his successor was duly appointed by Council, whichever occurred first.

Councilman Marc Hunt worked with Civil Service Board members to develop a process for future appointments to the chair role of the Civil Service Board.

On October 4, 2013, the Civil Service Board re-appointed Mr. Rosen as a member to the Civil Service Board.

Because Mr. Rosen has expressed continued interest in serving as Chair of the Civil Service Board, and because no other member of the Civil Service Board expressed interest in the Chair role, it is the recommendation that City Council confirm the appointment of Marvin Rosen as Chair of the Civil Service Board to serve until June 25, 2014, or until his successor is appointed, whichever occurs first.

When Mayor Bellamy asked for comments, no one spoke.

Vice-Mayor Manheimer moved to confirm the appointment of Marvin Rosen as Chair of the Civil Service Board to serve until June 25, 2014, or until his successor is appointed, whichever occurs first. This motion was seconded by Councilman Hunt and carried unanimously.

VI. NEW BUSINESS:

A. ORDINANCE NO. 4245 - ORDINANCE REPEALING SECTION 16-39 OF THE CODE OF ORDINANCES WHICH EXCLUDES CERTAIN ACTIVITIES PERFORMED IN THE PUBLIC RIGHT-OF-WAY FROM OBTAINING A STREET CUT PERMIT

Deputy Director of Public Works David Foster said that this is the consideration of an ordinance repealing Section 16-39, of Chapter 16 of the Code of Ordinances, which excludes certain activities performed in the public right-of-way from obtaining a street cut permit.

N. C. Gen. Stat. sec. 160A-296(6) allows municipalities to regulate digging in City streets. Previous ordinance revisions instituted certain permit exclusions that would allow for a reduction in construction costs and a more expedient restoration of services by excluding certain activities from having to obtain a street cut permit. While well intended, these exclusion have resulted in some unintended consequences, such as ADA compliance issues in City sidewalks, abuse of the intended aspect of the exclusion, and occasional misinterpretation of the ordinance caused some to skip the permitting process entirely. In case of emergencies, Utilities will be allowed to call for and be issued an emergency permit while proceeding with emergency repairs.

Mr. Foster said that the ordinance is to be effective in 90 days, which will allow them time to notify utilities of this change.

Since no permits are currently issued, the number of new permits this change will create is unknown; however, a conservative estimate of 200 instances at the minimum cut size would net an additional $20,000 in permit revenues in the Street Cut Fund.

City staff recommends City Council adoption of the ordinance repealing Section 16-39 of Chapter 16 of the Code of Ordinance, to eliminate exclusions to the street cut permit requirements for cutting into the City's rights of way.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Ordinance No. 4245. This motion was seconded by Councilman Hunt and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 367

B. RESOLUTION NO. 13-226 - RESOLUTION GRANTING A WAIVER OF THE SIDEWALK REQUIREMENT INCLUDING THE "FEE-IN-LIEU-OF" CONSTRUCTION OPTION FOR THE GAIA CONDOMINIUM PROJECT LOCATED AT 141 SHELBURNE ROAD

Director of Transportation Ken Putnam said that this is the consideration of a resolution granting a waiver of the sidewalk requirement including the "fee-in-lieu-of" construction option for the Gaia Condominium project that is located at 141 Shelburne Road.

Sidewalk requirements are included in the City's Unified Development Ordinance under Section 7-11-8 and sidewalks are required for all new construction that falls into one or more listed categories including all new multi-family residential development projects with 10 or more units. If the frontage street is not identified as a needed pedestrian linkage, a "fee-in-lieu-of" construction can be considered.

Staff is not authorized to grant a waiver of the sidewalk requirement and/or the payment of the "fee-in-lieu-of" construction option.

The project which began moving through the city's review process in 2006 consists of a total of 15 residential units (duplexes and cottages) and 32 on-site parking spaces. The approved site plan shows a 6-foot back of curb sidewalk and 24-inch curb and gutter along the Shelburne Road street frontage. During the construction phase, the developer contacted city staff to inquire about paying a "fee-in-lieu-of" construction and that approval was granted during July 2009. The total fee was $10,772.40 and it was based on 188 linear feet of street frontage at a cost of $57.30 per linear foot ($40.00 per linear foot for the sidewalk and $17.30 per linear foot for the curb and gutter).

Unfortunately, the developer filed for bankruptcy during the construction phase and now the homeowner's association is responsible for the outstanding infra-structure improvements. Staff has been working closely with the homeowner's association to accomplish the outstanding issues and in January 2013, they asked about a payment plan for the "fee-in-lieu-of" construction option. Although, we typically do not offer payment plans, staff suggested a 5-year payment plan with semi-annual payments that would begin in November 2013.

The homeowner's association is now asking that the sidewalk requirement be completely waived because it creates a financial burden on the individual homeowners especially since the actual cost of the sidewalk was probably included in the purchase price of their homes. All units are currently occupied.

The subject issue was first discussed at the PED Committee meeting on August 20, 2013 and the committee members asked for additional information from the City Attorney's Office.

These questions were discussed at the PED Committee meeting on September 17, 2013 and the committee members agreed to move the request to City Council for discussion and consideration without a recommendation. The PED Committee asked staff to identify other projects (including cost implications) that might have similar issues. Transportation Department staff and Development Services Department staff are only aware of one active project with similar issues. At this time, this project (Calvary Chapel) is willing to actually construct the sidewalk but they want to delay the construction for a period up to three years.

If the waiver is granted, the fiscal impact would be a loss of additional revenue to the city for new sidewalk construction in the amount of $10,772.40.

Staff recommends Council consider the additional information provided in rendering a decision on whether to grant the waiver request of the condominium association. Council may also wish to obtain the advice and counsel of the City Attorney before making a final decision.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 13-226, granting the waiver of the sidewalk requirement including the "fee-in-lieu-of" option. This motion was seconded by Vice-Mayor Manheimer and carried on a 5-2 vote, with Mayor Bellamy and Councilman Pelly voting "no".

RESOLUTION BOOK NO. 35 - PAGE 487

C. RESOLUTION NO. 13-227 - RESOLUTION ENDORSING THE PROTECTION OF CIVIL LIBERTIES OF ALL CITIZENS

Councilman Bothwell said that this is the consideration of a resolution endorsing the protection of civil liberties of all citizens.

Since 2010, Councilman Bothwell has worked with various organizations to develop a resolution endorsing the protection of civil liberties of all citizens. The resolution seeks to ensure that all citizens are treated equal, regardless of their race, skin color, national or ethnic origin, gender, sexual orientation, mental or physical disability, immigration status, religious or political opinion or activity, or homed or homeless status.

City staff reviewed the resolution to ensure consistency with City and Asheville Police Department policies.

Mayor Bellamy read the resolution.
Four individuals spoke in support of adoption of the resolution and one resident supported the resolution in theory only.

Interim City Attorney McGlohon said that this resolution is consistent with Asheville Police Department policy and in no way does it violate any state law. In fact, it is consistent with the operation of the Asheville Police Department as it currently exists.

Councilman Bothwell moved for the adoption of Resolution No. 13-227. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 488

D. RESOLUTION NO. 13-228 - RESOLUTION SUPPORTING CLEAN ENERGY ECONOMY

Chief Sustainability Officer Maggie Ullman said that since the inception of the Sustainability Advisory Committee on Energy and the Environment (SACEE), this Committee has been committed to providing policy guidance to City Council on a variety of sustainability topics with a consistent focus on energy. The current committee recommendation to establish a clean energy partnership with Duke Energy Progress is an outgrowth of this committee's long standing commitment to energy focused policy. Below is background information on the clean energy resolution currently being proposed:

- July 2013: The Sierra Club Beyond Coal Campaign and the Western North Carolina Alliance proposed the concept of a clean energy resolution between the City and Duke Energy Progress to SACEE leadership.

- August 13th, 2013: Asheville City Council reviewed and approved a resolution encouraging the NC Department of Environment and Natural Resources Duke Energy Progress to take expedient and appropriate action to deal with the impact of coal ash leachate at the Duke Energy Progress power plant.

- August 21st 2013: The Sierra Club Beyond Coal Campaign gave a presentation to the full SACEE committee about coal ash leachate pollution concerns, air pollution resulting from coal fired power plants, global climate change, and expanded opportunities for local government leadership in addressing these concerns. A draft clean energy resolution was presented to the committee. The resolution proposed creating a strategic partnership with Duke Energy Progress to work towards a clean energy future. The committee voted 7-1 to support the resolution with Lawrence Pittman voting against and Tim Ballard recusing himself due to conflict of interest. There were no Duke Energy Progress representatives directly engaged in the conversation as of this point in time.

- September 2013: A SACEE subcommittee hosted a meeting to discuss the language of the clean energy resolution with Duke Energy Progress, Sierra Club, the Western North Carolina Alliance, and staff. This full group shared thoughts and concerns about certain language in the resolution and worked together to create language the group agreed upon and finalized a resolution to recommend for Council approval.

- October 16th, 2013: The full SACEE committee reviewed the updated resolution and voted 8-0 in support of recommending City Council adopt the resolution.

Mr. Duncan McPherson, Chair of SACEE, said there are two primary goals of the resolution (1) establish a long-term plan and vision for our community that addresses climate change and clean air and clean water; and (2) to create a partnership with our electricity provider and work together to begin to transition from coal to clean energy. This is only the beginning of a long and complicated process; however, this resolution can serve as a catalyst to help move the economy and our environment to a clean energy future. We are tied to our coal burning power plant and there are significant technical realities of how they're going to make the transition from coal to clean energy. In order to achieve the goal we need to align our common interests of clean air and clean water and work in a true collaborative partnership with all stakeholders involved. We need to bring our electricity providers to the table and along in this process to reach our ultimate goal. Duke Energy will be a part of the solution. This resolution will help build the partnership with our utility provider and help align the goals and values of our community.

Mr. Jason Walls, Duke Energy Progress District Manager, viewed the resolution as a positive step in creating a partnership with the City around energy-related issues to reduce the City's carbon footprint. However, if Council sees this resolution as a "game changer ... to start planning a transition off

of the Asheville Coal Plant," then they don't' support the resolution. It is Duke Energy's obligation alone to keep lights on 24 hours a day, 7 days a week and they have a state-maintained responsibility to provide reliable electricity at the lowest reasonable cost and from proven technology. By the end of this year, his company will have retired 7 of the 14 coal plants in the state, and while they are reducing coal in the Carolinas, they can't close a plant without a practical way to replace the electricity residents and businesses depend on. Duke Energy supports solar energy and recognizes the vital role it plays in our energy future. They are committed to work with partners, like the City of Asheville, to provide these options. They see this resolution as an important next step in the long-term two-way partnership between Duke Energy and the City on ways to reduce the region's carbon footprint and advance clean energy and energy efficiency within the City. Success will only happen by working together. They view efforts like expanding LED lighting across the City, providing technical assistance to efforts like Solarize, looking at ways to increase energy-smart education for customers, and expanding recycling efforts as likely opportunities for partnership. They are excited to be a part of this journey with the City and look forward to finding and executing "wins" throughout Asheville and the region.

Ms. Kelly Martin, representing Asheville Beyond Coal Campaign, said that this resolution takes a further step towards addressing climate change. Asheville is home to the biggest source of carbon pollution in western North Carolina - Duke Energy's Asheville Coal Plant. Having a coal plant that is the largest source of greenhouse gas emissions in the region is not unique to Asheville. Burning coal for electricity is the number one source - the single largest source of climate pollution in this county and around the world. Cities all across America are moving off of coal and towards a clean energy future. The cost of coal is rising and the cost of clean energy is decreasing. By burning less coal we open up market space for clean energy solutions. This resolution won't retire the Asheville Coal Plant but it will recommit the City on it's carbon footprint reductions. It also acknowledges that without Duke Energy's partnership and without a transition away from burning fossil fuels for electricity, we won't be able to meet our carbon reduction goals. She urged Council to vote in favor of the resolution and do all that you can to take bold action on climate change to protect our air, our water and our future.

The following individuals spoke in support of the resolution:

Ms. Ashley Brown, Asheville resident
Ms. Julie Mayfield, Co-Director of WNC Alliance
Ms. Kathy Scott, member of Transition Asheville
A man who spoke on behalf of the Sierra Club members

Ms. Patty Beaver, representing the Council of Business Owners, urged City Council to remember that the business community must have reliable and affordable electricity. They believe that it is the responsibility of the City Council to make policy that ensures that reliable and affordable electricity is available in order that businesses can exist, thrive and grow in the City of Asheville.

Councilman Hunt moved for the adoption of Resolution No. 13-228. This motion was seconded by Councilman Bothwell.

Councilman Bothwell spoke in support of the resolution, noting that citizens can play a part in reducing our need for coal power, simply by cutting lights off in rooms that no one is in or by shutting off your television set when no one is watching it.

Mayor Bellamy read the following directives in the resolution: (1) The City of Asheville supports a local clean energy future for the city and the region; (2) The City of Asheville calls on Duke Energy Progress to partner with the City to help meet its carbon reduction goals by decreasing its reliance on fossil fuels, including transitioning from coal to electricity provided by clean renewable energy sources; while continuing to meet the company's obligation to provide affordable and reliable electricity to all customers 24-hour/day 7-days/week; (3) The City of Asheville further calls on Duke Energy Progress to continue and expand its investments in and programs supporting renewable energy, energy efficiency, and energy conservation; (4) The City of Asheville further calls on Duke Energy Progress to stop the spread of new coal ash pollution, and remediate existing coal ash pollution; and (5) The City of Asheville

develops a Clean Energy Partnership Progress Report to be delivered in one year to City Council that documents the achievements of this new partnership with Duke Energy Progress. She asked for an amendment to the resolution to add an additional directive since the directives mainly speak to Duke Energy Progress and the City. We have a strong environmental group who has worked on this issue and she felt that group is missing from the table. She asked that a committee be formed, or SACEE, to make sure that we have a collaboration of community members at the table.

Councilman Hunt and Councilman Bothwell were agreeable to amend the motion by asking for SACEE's leadership to seek input from a variety of stakeholders when identifying collaboration opportunities for this partnership.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

The amended Resolution No. 13-228 carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 490

E. BOARDS & COMMISSIONS

Regarding the Citizens-Police Advisory Committee, it was the consensus of Council to re-advertise for the vacancy since no candidates from the central area applied.

Regarding the Recreation Board, the following individuals applied for the vacancy: Kimberly Reed and Mary Michael. At the request of the Recreation Board, it was the consensus of the Boards & Commissions Committee and City Council to re-advertise.

Regarding the Historic Resources Commission the following individuals applied for the vacancies: William S. Eakins, Stephens Smith Farrell, Richard Fast, Tom Hartwell and Keaton Edwards. It was the consensus of Council to interview Stephens Smith Farrell and Richard Fast, since they both had architecture or design experience requested by the Historic Resources Commission.

RESOLUTION NO. 13-229 - RESOLUTION APPOINTING MEMBER TO THE FIREMEN'S RELIEF FUND

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Firemen's Relief Fund.

The term of Leesa Gibbs, as a member on the Firemen's Relief Fund, expired on January 1, 2013. Due to a clerical error in not , the reappointment of Ms. Gibbs was not considered during that vacancy timeframe.

No one is on the current resource list.

On October, 22, 2013, the Boards & Commission Committee recommended reappointing Ms. Gibbs to serve until January 1, 2015.

Councilman Bothwell moved to reappoint Ms. Leesa Gibbs, to serve an additional two-year term, term to expire January 1, 2015, or until her successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 492

RESOLUTION NO. 13-231 - RESOLUTION APPOINTING MEMBERS TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Homeless Initiative Advisory Committee.

The terms of Scott Rogers, David Nash and Hilliard Carlisle, as members on the Homeless Initiative Advisory Committee, expire on November 1, 2013.

The following individuals have applied for this vacancy: Sabrah n'haRaven and Matthew Shepley.

On October 22, 2013, the Boards & Commission Committee recommended reappointing Mr. Rogers, Mr. Nash and Mr. Carlisle.

Councilman Hunt moved to reappoint Mr. Scott Rogers, Mr. David Nash and Mr. Hilliard Carlisle to each serve an additional three-year term respectively, terms to expire November 1, 2016, or until their successors have been appointed. The motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 494

RESOLUTION NO. 13-232 - RESOLUTION APPOINTING MEMBER TO THE ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville Area Riverfront Redevelopment Commission.

The term of Pattiy Torno, as a member on the Asheville Area Riverfront Redevelopment Commission, expired on January 1, 2013. Due to a clerical error, the reappointment of Ms. Torno was not considered during that vacancy timeframe.

No one is on the current resource list.

On October, 22, 2013, the Boards & Commission Committee recommended reappointing Ms. Torno to serve until January 1, 2016.

Councilman Davis moved to reappoint Ms. Pattiy Torno, to serve an additional three-year term, term to expire January 1, 2016, or until her successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 495

RESOLUTION NO. 13-233 - RESOLUTION APPOINTING MEMBERS TO THE SOIL EROSION/STORMWATER REVIEW COMMITTEE

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Soil Erosion/Stormwater Review Committee.

The terms of Pete Hildebrand and Ter McSpinner, as members on the Soil Erosion/Stormwater Review Committee, expire on November 1, 2013.

No one is on the current resource list.

On October 22. 2013, the Boards & Commission Committee recommended reappointing Mr. Hildebrand and Ms. McSpinner.

Councilman Bothwell moved to reappoint Mr. Pete Hildebrand and Ms. Ter McSpinner to each serve an additional three-year term respectively, terms to expire November 1, 2016, or until their

successors have been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 496

RESOLUTION NO. 13-234 - RESOLUTION APPOINTING A MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Buncombe County Tourism Development Authority.

The term of Ron Storto (must be an owner or operator of a hotel, motel or other taxable tourist accommodation with less than 100 rental units) expired on August 30, 2013.

The following individuals have applied for this vacancy: John McKibbon, Pratik Bhakta, John Winkenwerder, Satis D. Patel and James Muth.

Councilman Hunt moved to appoint James Muth as a member of the Buncombe County Tourism Development Authority (must be an owner or operator of a hotel, motel or other taxable tourist accommodation with less than 100 rental units) to serve a three-year term, term to begin immediately and expire on August 30, 2016, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 497

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Rev. Lisa Landis commented on the need to help the homeless.

VIII. ADJOURNMENT:

Mayor Bellamy adjourned the meeting at 9:17 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

106

Tuesday – November 12, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and Deputy City Clerk Jaime Matthews

Absent: None

PLEDGE OF ALLEGIANCE

Several Boy Scouts led City Council in the Pledge of Allegiance.

INVOCATION

Mayor Bellamy said that this was her last Council meeting after 14 years of serving the citizens of Asheville. She was extremely grateful to have the honor of serving as Mayor and thanked the citizens of Asheville for making her a stronger person.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 22, 2013

B. RESOLUTION NO. 13-235 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A NON-MATCHING GRANT ADJUSTMENT NOTICE FROM THE N.C. DEPT. OF CRIME CONTROL & PUBLIC SAFETY FOR THE PROCUREMENT OF EQUIPMENT AND TRAINING FOR THE HAZARDOUS MATERIALS REGIONAL RESPONSE TEAM 6 - ASHEVILLE

ORDINANCE NO. 4246 - BUDGET AMENDMENT FOR THE HAZARDOUS MATERIALS REGIONAL RESPONSE TEAM 6 - ASHEVILLE

Summary: The consideration of (1) a resolution authorizing the City Manager to accept a non-matching Grant Adjustment Notice from the N.C. Dept. of Crime Control and Public Safety, Division of Emergency Management, for the procurement of equipment and training funds to be used by Hazardous materials Regional Response Team 6 – Asheville; and (2) the associated budget amendment, in the amount of $17,500.

The U.S. Department of Homeland Security and the Office of Domestic Preparedness has made funds available through State Homeland Security Grant Number: FY2011-SS-00119-S01-1056 to implement the State Homeland Security Strategy. The strategy identifies the NC Hazardous Materials Regional Response Teams (RRT) as an integral component of North Carolina's preparation and response to manmade and natural emergencies and disasters. The purpose of the grant is to purchase specialized equipment to be used on-scene and to prepare for threatened or actual weapons of mass destruction or domestic terrorists' attacks or major disasters and to train for such events.

There are seven Regional Response Teams (RRT) strategically located throughout the state. Asheville Fire and Rescue hosts one of the seven state funded teams - RRT 6. The team responds to hazardous materials incidents in the twenty westernmost counties of North Carolina.

The grant is non-matching and all equipment provided through this grant will become the property of the Asheville City Government. It has been reviewed by the Public Safety Committee and has been recommended for consideration by Council.

There is no fiscal impact associated with this grant, as it is non-matching.

City staff recommends that City Council (1) authorize the City Manager to accept the non-matching grant from the NC Department of Crime Control and Public Safety, Division of Emergency Management, to enhance AFD's capabilities to protect Asheville and Western North Carolina; and (2) adopt the associated budget amendment.

RESOLUTION BOOK NO. 36 - PAGE 1
ORDINANCE BOOK NO. 28 - PAGE 368

C. RESOLUTION NO. 13-236 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE TO PARTICIPATE IN DUKE ENERGY PROGRESS' NEW ENERGY EFFICIENCY PROGRAM AND TO ENTER INTO SOLE SOURCE PROVIDER CONTRACT FOR THE PURCHASE AND INSTALLATION OF ENERGY EFFICIENT LIGHTING IN CITY PARKING DECKS

Summary: The consideration of a resolution authorizing the City of Asheville to participate in Duke Energy Progress' new energy efficiency program and to enter into sole source provider contract for the purchase and installation of energy efficient lighting in City parking decks.

The electric utility Duke Energy Progress has recently launched a new energy efficiency program called the Small Business Energy Saver (SBES) Program. The model of this program differs from previous rebate programs in that Duke Energy Progress pays for efficiency upgrades up front, and covers up to 80% of the total project cost.

The City's Wall Street and Rankin Avenue Parking Decks are prime candidates for participation in the program, in particular because the current high pressure sodium lights are inefficient, run 24 hours a day and provide poor light quality. By replacing 225 of these lights with LED fixtures, the City is projected to save $20,000 and 150 tons of carbon dioxide equivalent annually, which is 16% of the annual carbon footprint reduction goal for municipal operations.

Staff has analyzed the potential and costs for the project and determined that at this time, the SBES Program is the only cost effective way to move forward with parking deck lighting replacement in the current budget. The SBES Program is a unique opportunity to leverage a significant amount of up front capital funding from Duke Energy Progress. The total cost to the City for the Wall Street and Rankin decks would be $47,510. Duke Energy Progress would cover the remaining $89,158, which is 65% of the total project costs. These costs include parts, labor and project management.

The SBES Program is run through a single authorized contractor, Lime Energy. In order to participate in the SBES Program, the City needs to pursue a single source provider contract with Duke Energy Progress / Lime Energy. This is allowable as per N.C.G.S. 143-129(e)(6) which states that "the governing body of a political subdivision of the state shall approve the purchase of apparatus, supplies, material or equipment without formal bidding when (i) performance or price competition for a product are not available; (ii) a needed product is available from only one source of supply; or (iii) standardization or compatibility is the overriding consideration."

The total cost to the City for the Wall Street and Rankin decks would be $47,510. Duke Energy Progress would cover the remaining $89,158, which is 65% of the total project costs.

These costs include parts, labor and project management. The City's share of the improvements will be paid out of the Parking Services Fund's FY 2013-14 Capital Improvement Budget. The cost to the City would not exceed $50,000.

City staff recommends City Council adopt a resolution authorizing the City of Asheville to enter into a sole source contract to purchase and install energy efficient lighting as part of Duke Energy Progress' Small Business Energy Saver Program, and to authorize the City Manager to execute this contract.

RESOLUTION BOOK NO. 36 - PAGE 2

D. RESOLUTION NO. 13-237 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW A CONTRACT WITH SITEMED FOR THE 2013-14 FIREFIGHTER PHYSICALS

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with SiteMed for annual physicals for firefighters in February 2014.

This agreement allows firefighters to receive an annual physical compliant with best practices as recommended by National Fire Protection Association (NFPA) 1582. This contract with SiteMed is a renewal from the previous years and due to the amount council approval is required. This has been reviewed by the Public Safety Committee and has been recommended for consideration by Council.

The amount of the two-year agreement is $122,200 and the monies have been budgeted in the Fire Department's 2013-14 Fiscal Year Budget.

Funds have been already been budgeted for the physicals, so no additional impacts.

City staff recommends City Council adopt a resolution authorizing the City Manager to approve the renewal of the contract with SiteMed for 2013-14 physicals.

RESOLUTION BOOK NO. 36 - PAGE 3

E. RESOLUTION NO. 13-238 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GENERAL SERVICES AGREEMENT WITH BIO-NOMIC SERVICES INC. FOR THE NORTH FORK WATER TREATMENT PLANT WASTE LAGOON 3 DREDGING AND SLUDGE REMOVAL AND DISPOSAL PROJECT

ORDINANCE NO. 4247 - BUDGET AMENDMENT FOR THE NORTH FORK WATER TREATMENT PLANT WASTE LAGOON 3 DREDGING AND SLUDGE REMOVAL AND DISPOSAL PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a general services agreement with Bio-Nomic Services, Inc. for the North Fork Water Treatment Plant Waste Lagoon #3 Dredging, Sludge Removal and Disposal project in the not-to-exceed amount of $366,400; and a budget amendment in the amount of $201,970 from savings in other capital projects that were completed under budget.

On September 17, 2013, the Water Resources Department issued a Request for Proposals (RFP) for the dredging, removal, and disposal of water treatment residuals (sludge) from the North Fork Water Treatment Plant Waste Lagoon #3. The sludge has been accumulating for approximately 30 years and needs to be removed. The total volume of sludge to be removed is unknown at this time; however, 500 tons was used to calculate the total cost for all proposers.

On October 23, 2013, the Water Resources Department received five (5) proposals in response to the RFP. Companies responding were:

1. Bio-Nomic Services, Inc. – Charlotte, NC; $366,400 estimated total cost
2. Wecare Organics – Easthampton, MA; $744,500 estimated total cost
3. Synagro – Baltimore, MD; $376,419 estimated total cost
4. Gullett Sanitation – Bethel, OH; $362,913 estimated total cost
5. Merrell Bros., Inc. – Kokomo, IN; $492,735 estimated total cost

A review team, comprised of Water Resources staff, reviewed these proposals and selected Bio-Nomic Services, Inc. for the project. Although Bio-Nomic's proposal is not the lowest bid, they were selected for the project based other factors, including: the thoroughness of their proposal; experience of the proposed staff; a long history of environmental work; responsiveness to new regulations; and solutions that complete a project with no adverse environmental impact.

The Water Resources Department currently has $164,430 budgeted for this project. The project funding was allocated based on an estimate in 2008 and budgeted in 2009. The only point of reference at that time was the cost of sludge removal from the other two lagoons. Lagoon #3 is larger and removal will be more complex. The remaining funds of $201,970 needed for the contract will be transferred from the General Projects capital project that accumulates remaining funds from all of Water Resources completed, inactive capital projects. In order to use the funds in General Projects, a budget amendment is necessary.

Amount in NF WTP Lagoon #3 Dredging Project	$164,430
Amount Needed for General Services Contract	$201,970
Total Amount for Project	$366,400

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a general services agreement with Bio-Nomic Services, Inc. for the North Fork Water Treatment Plant Waste Lagoon # 3 Dredging and Sludge Removal and Disposal project in the not-to-exceed amount of $366,400; and a budget amendment in the amount of $201,970 from savings in other capital projects that were completed under budget.

ORDINANCE BOOK NO. 28 - PAGE 370

F. RESOLUTION NO. 13-239 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE MILLS RIVER PARTNERSHIP INC. TO PARTIALLY FUND PROJECTS DIRECTLY RELATED TO WATER QUALITY PROTECTION AND/OR IMPROVEMENT

Summary: The consideration of a resolution authorizing the City Manager to execute a multi-year general services contract for the entire contract with the Mills River Partnership, Inc., for the Mills River Watershed Best Management Practices project for a not-to-exceed amount of $180,000.00 over three (3) fiscal years contingent upon funding each year.

The City of Asheville Water Resources Department and the Mills River Partnership (MRP) have reached an agreement for financial support of projects intended to protect and/or improve water quality in the Mills River. Based on a scope of work prepared by the MRP, the Water Resources Department has prepared a contract to partially fund activities in the Mills River Watershed. This staff report seeks Council approval for the contract.

The Water Resources Department is willing to provide cost-share funding for projects that are directly related to water quality protection and/or improvement. These activities include selection and installation of Best Management Practices to control contamination of the river from storm runoff, and educational materials and activities. The suggested level of participation is an amount up to $60,000 per fiscal year for a maximum of three fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

Recently, the Partnership was awarded a grant (Section 319 Grant) that requires matching funds. The City of Asheville has an ongoing interest in watershed management. Water quality in the upper watershed continues to be excellent and overall water quality indices have improved during the past 10 years. The strategy now is to focus on efforts to protect and improve water quality. Funding initiatives are to be considered with an understanding of their long-term impact on water quality.

Any expenditure in the Mills River watershed is subject to review by Water Resources staff. The funding needed for this agreement is currently allocated within the Water Resources Operating Fund. The total not-to-exceed contract amount of $180,000.00 will be encumbered upon City Council approval, even though the MRP will only be allowed to request a not-to-exceed amount of $60,000.00 per fiscal year for the next three years.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a multi-year general services contract for the entire contract with the Mills River Partnership, Inc., for the Mills River Watershed Best Management Practices project for a not-to-exceed amount of $180,000.00 over three (3) fiscal years contingent upon funding each year. The level of participation recommended is an amount up to $60,000.00 per fiscal year for a maximum of three fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

RESOLUTION BOOK NO. 36 - PAGE 5

G. RESOLUTION NO. 13-240 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CH SECURITY SERVICES LLC FOR SECURITY SERVICES IN THE CITY'S PARKING GARAGES

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with CH Security Services, LLC for security services in the City's parking garages for July 1, 2013 through June 30, 2014.

The City of Asheville, through the Parking Services Division, currently operates four parking garages; Civic Center, Rankin Avenue, Wall Street, and Biltmore Avenue Parking Garage. The Parking Services Division uses a combination of City employees and contract security officers to provide security and customer assistance in the garages. Generally, City employees work during the business day and early evenings while contract security is on duty during late nights, weekends, and holidays.

During September 2011, the Parking Services Division requested quotes for service from interested vendors resulting in 20 vendors responding. Copeland Holdings, LLC, now called CH Security Services, LLC, provided the lowest price for the service.

During November 2011, City Council directed staff to review the merits of bringing all security functions in house. Parking Services negotiated a short-term contract with Copeland Holdings to provide security services during the review period. Staff subsequently determined that due to operational efficiency and flexibility it was more advantageous to the City to contract for these security services.

On a normal week, a total of 215 hours of security services will be needed. In addition, the Parking Services Division will request additional security support during periods of high demand; for example, Christmas Jam, Southern Conference Tournament, Moogfest, employee vacations, or large events at the US Cellular Center. The total cost of the one year security contract will not exceed $170,000.00.

The necessary funds are budgeted in the Parking Services Fund's Adopted Operating Budget for FY 2013-14.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a one-year contract with CH Security Services, LLC to provide security services in the City's parking garages at a total cost not to exceed $170,000.00 per fiscal year.

RESOLUTION BOOK NO. 36 - PAGE 6

H. RESOLUTION NO. 13-241 - RESOLUTION AUTHORIZING PRIMARY AND SECONDARY AGENTS FOR THE CITY OF ASHEVILLE TO APPLY FOR FINANCIAL ASSISTANCE FOR THE SEVERE STORMS THAT TOOK PLACE DURING THE PERIOD OF JULY 3 - 13, 2013, DESIGNATED AS A DISASTER AND IDENTIFIED AS FEMA-4146-DR-NC

Summary: The consideration of a resolution authorizing primary and secondary agents for the City of Asheville to apply for financial assistance for the severe storms that took place during the period of July 3, 2013 through July 13, 2013, designated as a disaster and identified as FEMA–4146-DR-NC.

During the period of July 3-13, 2013, Western North Carolina including Buncombe County and the City of Asheville experienced severe storms leading to flooding, landslides, and mudslides.

On September 25, 2013, the U.S. Dept. of Homeland Security's Federal Emergency Management Agency (FEMA) announced that federal disaster aid has been made available to the State of North Carolina and ordered federal aid to supplement state and local efforts in the areas affected by severe storms, flooding, landslides, and mudslides during the period of July 3-13, 2013.

On October 11, 2013, staff met with the N.C. Division of Emergency Management (NCDEM) and FEMA, and concluded that the City of Asheville would be eligible for financial assistance.

North Carolina's Division of Emergency Management requires primary and secondary agents representing the City of Asheville be authorized by resolution to execute and file applications for federal and/or state assistance under the Robert T. Stafford Disaster Relief & Emergency Assistance Act (Public Law 93-228 as amended) or as otherwise available.

Funds received will be reimbursement for General Fund and Stormwater Fund expenditures. Preliminary estimates total approximately $2.5 million.

City staff recommends City Council adopt a resolution authorizing Jakob Klodt, Public Works Business Manager; and David Foster, Public Works Deputy Director as primary and secondary agents to apply for and obtain financial assistance for the severe storms that took place in July 2013.

RESOLUTION BOOK NO. 36 - PAGE 7

I. RESOLUTION NO. 13-242 - RESOLUTION AMENDING RESOLUTION NO. 12-

112

256 WHICH ADOPTED THE 2013 CITY COUNCIL MEETING SCHEDULE TO CHANGE THE CITY COUNCIL ORGANIZATIONAL MEETING FROM TUESDAY, DECEMBER 3, 2013, TO TUESDAY, DECEMBER 10, 2013, AT 4:00 P.M. IN THE COUNCIL CHAMBER, LOCATED ON THE 2ND FLOOR OF CITY HALL

RESOLUTION BOOK NO. 36 - PAGE 10

J. RESOLUTION NO. 13-243 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO THE CONTRACT WITH BRANTLEY CONSTRUCTION COMPANY TO CONCLUDE RENOVATIONS OF THE MEZZANINE LEVEL MEETING ROOM SPACES AT THE U.S. CELLULAR CENTER

Summary: The consideration of a resolution authorizing the City Manager to execute an amendment to the existing construction contract with Brantley Construction Co., LLC to include renovations of the Mezzanine level meeting room spaces in the exploreasheville.com arena per the grant agreement with the Tourism Development Authority.

On February 15, 2013 Council approved the exiting contract for $1,876,000.00. The following change orders have increased the contract amount.

- Change order #1 dated 4/10/13 for $453,000 added alternates outlined in the original bid documents
- Change order #2 dated 6/12/13 for $24,438.30 for added scope and unforeseen conditions
- Change order #3 dated 8/14/13 for $52,548.12 for added scope and unforeseen conditions
- Change order #4 dated 9/30/13 for $18,333.38 for added scope and unforeseen conditions

The construction contract currently is $2,424,320.50 and the amendment will increase the contract by $485,794.45 to the amount not to exceed $2,910,114.95.

On July 1, 2013, the U.S. Cellular Center received money from our corporate sponsors, allowing us to fund the work outlined in the contract amendment in the amount of $485,794.45. This action will increase the total contract to an amount not to exceed $2,910,114.95. Staff is seeking Council approval of the amendment to this contract that will allow Brantley Construction to complete work that was required by the agreement with TDA for renovating the Mezzanine level meeting room spaces into a hospitality suite and updating the other meeting spaces for expanded usage of the facility.

A standard procedure in construction contracts is to provide a contingency to cover potential routine project change order requests for unforeseen construction components related to the overall renovation. Staff is seeking approval to add an additional 10% contingency and to authorize the City Manager to execute change orders for the contract up to the amended contract amount above, not to exceed $48,579.45. While staff does not expect change orders to rise to that amount, there are some unknown factors that could increase the original contract scope.

Funding for this contract is already included in the FY 2013-14 Civic Center Capital Improvement Budget.

Staff recommends approval of a resolution authorizing the City Manager to execute an amendment to the existing construction contract with Brantley Construction Co., LLC to include renovations of the Mezzanine level meeting room spaces in the exploreasheville.com arena per the grant agreement with the Tourism Development Authority.

RESOLUTION BOOK NO. 36 - PAGE 11

K. RESOLUTION NO. 13-244 - RESOLUTION AUTHORIZING ADOPTION OF UPDATES TO THE GREENWAY MASTER PLAN

Summary: The consideration of a resolution to update the Greenway Master Plan.

The vision for the City of Asheville greenway system is a network of off-road trails utilizing natural corridors to connect people and places within the city. Asheville greenways will provide multimodal transportation, environmental, health, recreation, economic, educational, cultural, water quality, air quality and habitat preservation benefits. These natural corridors will be supplemented and connected when the need arises with transitional bicycle and pedestrian improvements along roadways, thereby addressing the Complete Streets model in strategic corridors.

The Greenway Master Plan is a long-range planning document that sets goals, strategies and action steps to create a vision and guideline for coordinated efforts to deliver parks, greenways, recreation and cultural arts services over the next 10 to 15 years. The master plan does not commit City Council to a funding timeline for implementation. The recommendations in the plan will be implemented as funding opportunities become available.

Amendments to the current Asheville Greenway Master Plan now are being considered:

- Buncombe County revised the "Buncombe County, NC Greenways and Open Space Plan" in July 2008 (developed by Land-of-Sky), and developed the "Connect Buncombe Greenway and Trails Master Plan," adopted in August 2012. These two plans will provide an opportunity to further dovetail the City and County master planning efforts.

- The N.C. Dept. of Transportation is furthering its planning and design for the proposed I-26 Connector improvements which is currently under the "development" stage.

- The former Greenway Commission, which is now part of the Multimodal Transportation Commission, along with City staff recognizes the need to consider other possible greenways that would enhance connectivity especially within the I-26 corridor.

- The "City of Asheville Parks, Recreation, Cultural Arts and Greenway Master Plan" was adopted in February 2009, five years ago. City staff feels it is an appropriate time to update the plan.

- In 2012, the Greenway Commission held a public work session open house to gain community feedback on the current plan and gather ideas for future corridors and connections. The community feedback was incorporated into the updated plan and map.

This item was reviewed on October 22, 2013 by the Multimodal Transportation Commission. The Greenway Committee and the Multimodal Transportation Commission voted unanimously to recommend the adoption of the master plan updates to City Council.

Staff recommends City Council to adopt a resolution to update the Greenway Master Plan.

Councilman Hunt was pleased with this update since it has been four years since adoption of the Master Plan.

RESOLUTION BOOK NO. 36 – PAGE 12

L. RESOLUTION NO. 13-245 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR THE CONCRETE REPAIR - MAINTENANCE AND AMERICANS WITH DISABILITIES ACT IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $204,430 with Patton Construction Group, Inc. for the project known as Concrete Repair – Maintenance and ADA Improvements, City of Asheville Project # ENG-13-14-001.

Due to a change in the City's concrete repair services from previous years, the Public Works Department contracted out for the project Concrete Repair - Maintenance and ADA Improvements. The project was advertised on October 11, 2013. Bids were opened with Patton Construction Group, Inc. of Arden, NC, being the lowest responsible bidder with a bid of $204,430. The work produced from this contract would resolve some known concrete infrastructure problems that need to be addressed and provide a greater level of customer service.

Funding for this contract is already included in the Fiscal Year 2013-14 adopted General Fund budget.

City staff recommends City Council adopt the resolution awarding the contract to Patton Construction Group, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $204,430 with Patton Construction Group, Inc. for the project known as Concrete Repair – Maintenance and ADA Improvements, City of Asheville Project # ENG-13-14-001.

RESOLUTION BOOK NO. 36 - PAGE 13

M. RESOLUTION NO. 13-246 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH APPALACHIAN PAVING AND CONCRETE INC. FOR THE CONCRETE REPAIR - UTILITY CUTS PROJECT

ORDINANCE NO. 4248 - BUDGET AMENDMENT FOR THE CONCRETE REPAIR - UTILITY CUTS PROJECT

Summary: The consideration of: 1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $360,280 plus a contingency of 15% ($54,042) with Appalachian Paving and Concrete, Inc. for the project known as Concrete Repair – Utility Cuts, City of Asheville Project # SP 13-14-001; and 2) a budget amendment in the amount of $172,115 from utility cut fees to cover the cost of the contract and the 15% contingency.

As part of the Street Cut Utility Program, utilities that damage public concrete infrastructure during the installation of maintenance of their underground infrastructure do not perform repairs to the concrete. This contract will assure those concrete repairs are completed. This contract marks the first time the Public Works Department has contracted this work out. The project was advertised on September 23, 2013. Bids were opened with Appalachian Paving and Concrete, Inc. of Asheville, NC, being the lowest responsible bidder with a bid of $360,280. A 15% contingency ($54,042) has been added to allow payment for any unforeseen costs that typically arise during construction. The work produced from this contract would resolve a number of a group of known concrete infrastructure problems that need to be addressed and provide a greater level of customer service.

As noted above, this is the first time that the City has contracted out this repair work. Because the contract bids came in higher than anticipated, a budget amendment in the amount of $172,115 is needed to provide sufficient budget authorization for this contract. The Street Cut

Utility Program is an enterprise fund that is fully funded through fees paid by the four partners participating in the program. The partners will be billed 100% of the repair cost meaning that the City realizes full cost recovery for this contract repair work.

City staff recommends City Council adopt: 1) the resolution awarding the contract to Appalachian Paving and Concrete, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $360,280 plus a contingency of 15% ($54,042) with Appalachian Paving and Concrete, Inc. for the project known as Concrete Repair – Utility Cuts, City of Asheville Project # SP-13-14-001; and 2) a budget amendment in the amount of $172,115 from utility cut fees to cover the cost of the contract and the 15% contingency.

RESOLUTION BOOK NO. 36 - PAGE 14
ORDINANCE BOOK NO. 28 - PAGE 372

N. ORDINANCE NO. 4249 - BUDGET AMENDMENT FROM THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT TO ACCEPT THE AMERICAN DREAM DOWNPAYMENT INITIATIVE PROGRAM INCOME

Summary: The consideration of a budget amendment to accept ADDI program income in the amount of $27,178 and to distribute that income to Mountain Housing Opportunities for homeownership lending, and to the City of Asheville for administration.

In the period 2004-2007, HUD provided funding to the City of Asheville, as Participating Jurisdiction for the Asheville Regional Housing Consortium for the American Dream Downpayment Initiative (ADDI) Program. This program was specifically for the purpose of assisting first-time homebuyers purchase a home. The Consortium initially awarded these funds to the Asheville Neighborhood Housing Services (ANHS); and upon the dissolution of that organization, to Mountain Housing Opportunities (MHO). MHO also agreed to take over the loans made by ANHS. A total of $162,787 in ADDI funds were received and distributed during the lifetime of the program.

The ADDI regulations required that Program Income generated through the program needed to be treated differently than HOME Program Income. HUD required (and requires) that ADDI Program Income be returned to the Treasury Account of the Participating Jurisdiction. Once returned to the City, the funds can then be classified as HOME program income, and be used for HOME-eligible activities.

The Consortium discussed this, and recommends that 95% of the ADDI Program Income, after being returned to the City, be available for Mountain Housing Opportunities to lend to first-time homebuyers in the four-county Consortium region, and that 5% of the funds be retained by the City of Asheville for HOME program administration.

Program funding is entirely from funds generated by funding from the US Department of Housing and Urban Development. The use of a portion of these funds for administration helps support the necessary staffing for Consortium operations.

Staff recommends that City Council approve a budget amendment to accept ADDI program income in the amount of $27,178 and to distribute that income to Mountain Housing Opportunities for homeownership lending, and to the City of Asheville for administration.

ORDINANCE BOOK NO. 28 - PAGE 374

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. DIVERGING DIAMOND INTERCHANGE AT I-26 AND AIRPORT ROAD

Mr. James H. Dunlop, Congestion Management Engineer for the N.C. Dept. of Transportation, explained what a Diverging Diamond Interchange (DDI) is; how motorists drive through the DDI; how pedestrians and cyclists use a DDI; and the benefits of a DDI. In summary, (1) DDI has shown great potential for improving conditions for many interchanges; (2) the DDI can reduce overall construction time and save money; (3) operation of adjacent signals intersection may affect DDI effectiveness; (4) the DDI as an "unconventional design" may become as commonplace for interchanges as the roundabout for intersections; and (5) the DDI is not a silver bullet solution but is has many applications worth exploring for certain interchange.

At Mayor Bellamy's request, it was the consensus of Council to incorporate information provided by the N. C. Dept. of Transportation regarding DDI to our communications, webpage, social media, etc.

B. MISSION HEALTH PROGRAM UPDATE

Dr. Ronald A. Paulus, President and CEO of Mission Health, and Ms. Jill Hoggard Green, President and COO of Mission Health, said that Mission Health is in the process of a long-term, ongoing program to build better processes, better facilities and better care. The program is a proactive planning approach to address developing changes in community needs, healthcare quality and delivery, regional demographics and internal Mission Health resource requirements. This program includes a comprehensive look at Mission Health's existing internal operations and modifications needed to continue to provide an exceptional patient experience, supported by optimal efficiency, better technology and ever-improving quality of care. We will also evaluate external factors, such as our aging patient population, government mandates on healthcare delivery, new care technologies and other factors in order to prepare and implement future action.

We are looking at all aspects of how we care for people and what we need to accomplish that care – all for the purpose of ensuring safety, effectiveness and cost-efficiency. We know that families from all over western North Carolina depend upon Mission Health for their care. Our commitment is to always be there when they need us.

On behalf of City Council, Mayor Bellamy thanked Mission Health for being such a good corporate citizen.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL USE PERMIT FOR THE CONSTRUCTION OF A HEALTH & WORKFORCE DEVELOPMENT FACILITY AT ASHEVILLE-BUNCOMBE TECHNICAL COMMUNITY COLLEGE

ORDINANCE NO. 4250 - ORDINANCE AMENDING THE CONDITIONAL USE PERMIT FOR THE CONSTRUCTION OF A HEALTH & WORKFORCE DEVELOPMENT FACILITY AT ASHEVILLE-BUNCOMBE TECHNICAL COMMUNITY COLLEGE

Deputy City Clerk Matthews administered the oath to anyone who anticipated speaking on this matter.

Interim City Attorney McGlohon reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

All Council members disclosed that they have visited the site and would consider this issue with an open mind on all the matters before them without pre-judgment and that they will make their decision based solely on what is before Council at the hearing.

Interim City Attorney McGlohon said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

Interim City Attorney McGlohon said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Mayor Bellamy opened the public hearing at 5:36 p.m.

Urban Planner Julia Fields submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Fields said that this is the consideration of an amendment to the conditional use permit for the construction of a Health & Workforce Development Facility at Asheville-Buncombe Technical Community College.

Ms. Fields said that the applicant, Buncombe County, is requesting review of revised site plans for the proposed Allied Health and Workforce Development Facility on the campus of Asheville Buncombe Technical Community College (AB Tech) (169,543 square feet).

The project site (PIN 9648.33-4217) is 12.87 acres in size and had a previous address of 240 Victoria Road (now Genevieve Circle). It is the former site of the Saint Genevieve of the Pines School and has been owned and utilized as part of the AB Tech campus for a number of years. The property is zoned Institutional.

On December 11, 2012, the Asheville City Council voted to approve a conditional use permit for a new 184,208 square foot Allied Health and Workforce Facility for Asheville Buncombe Technical Community College to be constructed at the Victoria Road site. The building (with a footprint of 47,000 square feet) was designed to be a mixed use facility housing classrooms, laboratories, offices, the campus day care center, and an 864 seat auditorium (City Exhibit 4 - previous plan front elevation). This new building was to be located on the western side of the property and it was proposed that the only existing structure to remain would be the Ivy Building (chapel) which would be used for offices/events.

Subsequent to the 2012 approval of the conditional use permit, Buncombe County became the project manager for this structure and they have redesigned the project making it smaller and moving it farther east on the property. The revised proposal will demolish all but two

(chapel and child care center) of the existing structures located on the site to construct the A-B Technical College Allied Health and Workforce Facility, reduced in size to 169,542 square feet. This building would be located on the eastern (Victoria Road) side of the property with a footprint of 36,120 square feet. The new location of the building is approximately 400 feet farther away from the adjoining residential neighborhoods than in the previous design, addressing concerns that were expressed by neighbors regarding the original design. In addition to being a smaller building, the impervious area for the completed site is substantially (4.35 acres) reduced from the earlier proposal. The new building, 78 feet in height (five stories) would house classrooms, offices, and laboratories (City Exhibit 5 - Previous Masterplan). Thirty-one thousand and eighty-eight square feet of space on the fourth and fifth floors will be constructed as shell space at this time. The redesigned site plan also provides for the retention of the existing small soccer field to the southwest which was proposed to become a parking lot under the previous plan.

Access to the site is (and will remain) via Victoria Road. The two existing access points are to be improved with right turning lanes and improved site lines for safer ingress/egress. A new sidewalk will be constructed along Victoria Road. The applicant is working with the City Transportation Department on the provision of a bus shelter on the opposite side of Victoria Road.

Three hundred and forty-four parking spaces are required (minimum) and provided. This is a major reduction from the original proposal which showed 558 spaces. As the shell space is developed, remote parking will be provided at other campus locations. Nine handicapped spaces are provided along with accommodations for parking 18 bicycles.

Buffer yards, street trees, vehicular use area plantings, and building impact landscaping are provided. The plans show a total of 212,612 square feet of open space (only 83,519 square feet are required).

This amendment was reviewed and approved with conditions by the Technical Review Committee on October 21, 2013. Many of the comments made in the TRC report have been or are being addressed by the development team working closely with City staff.

A meeting for interested persons was held on October 15, 2013, at the Wesley Grant Southside Center. Very few people were in attendance at this meeting but those in attendance seemed supportive of the redesign. Since few were in attendance at the first meeting, the applicant held an additional meeting with neighborhood representatives on October 24, 2013.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The project will meet all requirements of the North Carolina Building Code and the City of Asheville and will be reviewed in detail by the North Carolina Department of Insurance and the City of Asheville's Technical Review Committee to ensure compliance with safety requirements

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   As most of the site was previously developed with buildings and parking facilities and the site is in an area heavily developed with institutional uses, there are few significant natural features on the site or in the area to be protected. The site is in a very prominent

setting elevation-wise which has been taken into consideration in the design. The pine trees that line Victoria Road will be lost due to the development; however, the planting plans propose that a number of pines will be newly planted in respect for the history of the site.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The parcels in the area surrounding the site are largely occupied by other institutional uses and the site itself has been used for years for educational purposes. Where the project site abuts multi-family or single –family properties, landscape buffering will be provided. The redesign of the building places it 400 feet further from adjoining residential properties than previously designed.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
The Allied Health and Workforce Development Facility is proposed to be five stories in height. While this is larger than the educational buildings currently located on the site it is in keeping with other institutional buildings in the vicinity. Significant vegetation will be provided on the site and open space exceeds that required by the City. The development is compatible with the scale, bulk, coverage and character of the other institutional uses in the area.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
This project supports the comprehensive plan stated goal of "the City working with Asheville-Buncombe Technical Community College to address the needs of the college as it expands". Additionally, the project is proposed to be LEED certified which aligns with greenbuilding and smart growth focuses found in the comprehensive plan.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The proposed project is located on a roadway that serves major institutional uses at present and is served by the S4 transit route. The project has been reviewed by the Technical Review Committee who found that existing infrastructure appears to be adequate and the preliminary review has not revealed any problems for future service to the development.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The development plans for this project along with the accompanying traffic impact analysis have been reviewed by the City's Traffic Engineer. Several suggested revisions to the originally submitted plans have been made to improve both vehicular and pedestrian traffic. A new sidewalk will be provided along Victoria Road.

Pros:

- The proposal satisfies an important City goal found in the comprehensive plan of advancing and maintaining the City's role as Western North Carolina's regional education center.
- The applicant will be seeking LEED certification, meeting key "green building" goals of the City.
- The project will provide a much needed state of the art facility for the Asheville-Buncombe Technical Community College on property currently underutilized by the college.

- The historic chapel/auditorium located on the site will be preserved along with the child care center.

Con:

- The building is significantly larger than the existing buildings on the site which may be seen as a negative by some adjoining residents.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable. Staff recommends approval of the amendment to the Level III development proposal for the Allied Health and Workforce Development Facility for AB Tech and issuance of a conditional use permit for this facility.

Mr. Jon Creighton, Assistant Buncombe County Manager, said they went through a re-design process for a better building. It does not impact the surrounding community like the prior one. The most important part is pulling the building up front.

After rebuttal, Mayor Bellamy closed the public hearing at 5:43 p.m.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4250, granting an amendment to the conditional use permit for the construction of a Health & Workforce Development Facility at Asheville-Buncombe Technical Community College, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee' (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 28 - PAGE 376

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4251 - ORDINANCE AMENDING CHAPTER 12 OF THE CODE OF ORDINANCE TO REVISE THE DEFINITION OF RECREATIONAL FACILITIES WHERE THE CARRYING OF CONCEALED HANDGUNS IS PROHIBITED

Ms. Jannice Ashley, Assistant City Attorney, reiterated the following information from the October 22 meeting. She said that this is the consideration of an ordinance amending Chapter 12 of the Code of Ordinances to revise the definition of recreational facilities where the carrying of concealed handguns is prohibited.

In this year's legislative session, the General Assembly passed a new law, which further changes how municipalities may regulate concealed handguns in "recreational facilities". Session Law 2013-369, Section 6, revising N.C. G.S. 14-4.415.23, effective October 1, 2013, modifies the definition of "recreational facility" by eliminating "playgrounds" completely from the definition and, as it pertains to "athletic facilities", revising it to apply only to "an athletic field, including any appurtenant facilities such as restrooms, during an organized athletic event if the field had been scheduled with the municipality...responsible for operation of the park or recreational area".

In 2011, the Legislature passed a law which prohibited municipalities from prohibiting concealed handguns in "parks". However, that law provided an option for municipalities to adopt an ordinance prohibiting the possession of concealed handguns in "recreational facilities" which were defined as "a playground, an athletic field, a swimming pool, and an athletic facility". At that time, the City exercised this option and revised its ordinance regarding concealed handguns in "parks" (City Code Sec. 12-42) to prohibit them in defined "recreational facilities" as allowed by the new law. Appendix G of the City Code defined the recreational facilities to which this prohibition applied. In this 2013, Legislative Session, the definition of "recreational facility" has further been revised to eliminate "playgrounds" completely from the definition and as it pertains to "athletic fields", to only apply "during an organized athletic event if the field had been scheduled with the municipality...responsible for operation of the park or recreational area". "Swimming pools, including any appurtenant facilities, used for dressing, storage of personal items, or other uses relating to the swimming pool" and "Athletic Facilities" defined as "a facility used for athletic events, including but not limited to, a gymnasium", are still included in the definition of "recreational facility" as per the original definition adopted by the legislature in 2011. The 2013 law also specifically states that the term "recreational facility" does not include any greenway, or designated biking or walking path.

In order to bring the City's ordinance into compliance with the new law, several revisions are necessary:

(a) The definition of a "recreational facility" found in Sec. 12-27 of the City Code would need to be revised to match the revised definition provided in SL 2013-369.

Appendix G, which lists the city's recreational facilities, would need to be revised to delete references to any playgrounds or non-programmed athletic fields.

The new law is effective October 1, 2013. If Council desires to maintain a prohibition on concealed handguns in City recreational facilities that is in compliance with the new State law, action is needed.

This matter was presented to the Public Safety Committee on September 23rd, which directed that the proposed revisions be sent to Council for action. City Council considered the matter at its October 22nd meeting and directed it be sent back to the Public Safety Committee for further discussion and with additional information to be provided by staff. The Public Safety Committee considered the matter again on October 28, 2013, and staff provided information on the new law that has been presented by the NC Institute of Government and the NC League of Municipalities. This information was consistent with the information previously provided to the City Council. The Public Safety Committee directed that the proposed revisions be sent to Council for action.

Pro:

- The ability to continue, to the fullest extent of the law, the prohibition of concealed handguns in areas defined as "recreational facilities"

Con:

- Potential difficulty in enforcement

There may be minor costs associated with revising or removing signs in areas where the concealed handgun prohibition is no longer allowed.

City staff recommends that City Council approve adoption of the ordinance amending Chapter 12 of the Code of ordinances to revise the definition of recreational facilities where the carrying of concealed handguns is prohibited.

In response to Councilman Smith, Ms. Ashley said that if we don't update our law, then our entire ordinance could be at risk of being considered invalid.

Mr. Dean Worley, proponent of Concealed Carry, said that there are very tight rules and training that a person must go through to obtain a concealed carry.

Mr. Erin Field felt that police officers should also not be allowed to carry guns at schools.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis moved for the adoption of Ordinance No. 4251. This motion was seconded by Councilman Hunt and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 381

B. RESOLUTION NO. 13-247 - RESOLUTION OPPOSING SESSION LAWS 2011-268 AND 2013-369 RELATING TO THE STATE LEGISLATURE'S BAN ON NORTH CAROLINA CITIES' ABILITY TO RESTRICT POSSESSION OF CONCEALED HANDGUNS IN MUNICIPAL PARKS AND RECREATIONAL FACILITIES

Vice-Mayor Manheimer said that this is the consideration of a resolution opposing Session Laws 2011-268 and 2013-369 relating to the state legislature's ban on North Carolina cities' ability to restrict possession of concealed handguns in municipal parks and recreational facilities.

The 2013 General Assembly revisited the restrictions on local municipalities to regulate concealed carry by removing playgrounds from recreational facilities, effectively preventing municipalities from prohibiting concealed carry on playgrounds. Additionally, the 2013 General Assembly redefined athletic fields to prohibit municipalities from regulating concealed carry during non-organized athletic events not scheduled with the municipality.

This matter, in the form of an ordinance amendment, was presented to the Public Safety Committee on October 28, 2013, which directed that a resolution of opposition be prepared, condemning the actions of the General Assembly in restricting a municipality's ability to regulate concealed carry in and on municipal parks and playgrounds.

She said the reason for this resolution is in hopes to make it clear to our citizens that the prior ordinance amendment that was just adopted is required under state law and that the state law specifically preempts cities from regulating concealed carry in any way that is inconsistent with state requirements. The adopted ordinance brings us into compliance with the state law, but personally she has concerns with the state law because we now have a situation of what we think of as a park is carved up in different sections (playgrounds, greenways, etc.) and there are different rules for the different sections in the parks. The legislation is also vague and difficult to interpret. These decisions should be made on a local level.

Vice-Mayor Manheimer asked for an edit on the 3rd Whereas as follows" WHEREAS, the recently enacted Session Law 2013-369 ("S.L. 2013-369"), further prohibits cities from banning concealed handguns in playgrounds, greenways, biking and walking paths, and athletic fields when they are not being used for an organized athletic event scheduled with the municipality."

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 13-247, with the edit noted above. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 15

VI. NEW BUSINESS:

A. RESOLUTION NO. 13-248 - RESOLUTION APPOINTING A MEMBER TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Alcoholic Beverage Control (ABC) Board.

The term of Wilfred Lake as a member of the ABC Board, expired on November 13, 2013.

The following individual has applied for the vacancy: Charles Larrick.

It was the consensus of the Boards & Commissions Committee to reappoint Wilfred Lack.

Councilman Hunt moved to reappoint Wilfred Lack to the ABC Board, to serve an additional three-year term, term to expire November 13, 2016, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 17

B. RESOLUTION NO. 13-249 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Citizens-Police Advisory Committee.

Ms. Marie-Line Germain is no longer a member, this leaving an unexpired term for the central representative until June 30, 2014.

The following individuals have applied for the vacancy: Scott Steele, Buck Bragg and Larry Holt.

It was the consensus of the Boards & Commissions Committee, at the recommendation of the Citizens-Police Advisory Committee to appoint Buck Bragg.

Vice-Mayor Manheimer moved to appoint Larry Holt to the Citizens-Police Advisory Committee, to serve the unexpired term of Ms. Germain, term to expire June 30, 2014, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 18

RESOLUTION NO. 13-251 - RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Mr. John Parrish has resigned from the Recreation Board, thus leaving an unexpired term until June 30, 2015.

The following individuals have applied for this vacancy: Kimberly Reed, Mary Michael, Patrick Dennehy and Robert Pierce.

It was the recommendation of the Boards & Commission Committee to appoint Robert Pierce.

Councilman Smith moved to appoint Robert Pierce as a member of the Recreation Board to fill the unexpired term of Mr. Parrish, term to expire June 30, 2015, or until his successor is appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 20

RESOLUTION NO. 13-252 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville-Buncombe Historic Resources Commission (HRC).

Ms. Sue Russell has resigned from the Commission, thus leaving an unexpired term until July 1, 2014.

The following individuals have applied for the vacancies: William S. Eakins, Stephens Smith Farrell, Richard Fast, Tom Hartwell and Keaton Edwards. The HRC recommended either Stephens Smith Farrell or Richard Fast, since they both have architecture or design experience.

On October 22, City Council instructed the City Clerk to arrange interviews for Stephens Smith Farrell and Richard Fast. Mr. Farrell withdrew from consideration at this time.

Councilman Pelly moved to appoint Richard Fast as a member of the Asheville-Buncombe Historic Resources Commission, to serve the unexpired term of Ms. Russell, term to expire July 1, 2014, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 21

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Timothy Sadler felt that the City could partner with local agencies to provide labor for different projects, thus reducing expense to the City.

Mayor Bellamy invited the public to her portrait hanging at 5:00 p.m. on Monday, December 2, 2013, in the Council Chamber, and the following reception at the YMI Cultural Center.

Vice-Mayor Manheimer invited the public to the swearing-in ceremony for the new Asheville City Council at 4:00 p.m. on Tuesday, December 10, 2013, in the Council Chamber.

Closed Session

At 6:07 p.m., Councilman Pelly moved that the Asheville City Council go into closed session for the following reasons: (1) T o prevent disclosure of information that is privileged and

confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(3). The statutory authorization is contained in N.. G. S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: D&J Real Estate Investments, LLC. vs. City of Asheville; and D&J Real Estate Investments, LLC vs. Wells Fargo Bank, et al. The statutory authorization is contained in G.S. 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of contracts for the acquisition of real property. The statutory authorization is contained in G.S. 143-318.11(a)(5). This motion was seconded by Councilman Smith and carried unanimously.

At 7:02 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

VIII. ADJOURNMENT:

Vice-Mayor Manheimer adjourned the meeting at 7:02 p.m.

Magdalen Burleson
CITY CLERK

Esther Manheimer
MAYOR

126

Tuesday - December 10, 2013 – 4:00 p.m.

ORGANIZATIONAL SESSION:

Mayor-Elect Manheimer welcomed everyone to the organizational session.

The Marine Corp JROTC led City Council in the Pledge of Allegiance.

Mr. Ric Ledford sang the National Anthem.

Mayor- Elect Manheimer then introduced Rabbi Batsheva Meiri who gave an invocation.

The Honorable Alan Z. Thornburg, Buncombe County Senior Resident Superior Court Judge, administered the Oath of Office to the following:

Mayor Esther E. Manheimer
Council Member Cecil Bothwell
Council Member Gordon D. Smith
Council Member Gwen C. Wisler

RESOLUTION NO. 13-250 - RESOLUTION OF APPRECIATION FOR TERRY M. BELLAMY

Mayor Manheimer read the resolution.

Resolution No. 13-250 was adopted by acclamation.

Mayor Manheimer thanked former Mayor Bellamy for her service to Asheville and presented her with an appreciation resolution, a plaque, her name plates, a City pen, copies of the December 2, 2013, Mayor's portrait hanging, and a large framed picture of the current City Council.

Ms. Bellamy thanked the public and her family for allowing her to serve. She also thanked City staff and City Council for their professionalism and dedication to the citizens of Asheville.

RESOLUTION BOOK NO. 35 - PAGE 19

ELECTION OF VICE-MAYOR

Councilman Davis nominated Councilman Hunt as Vice-Mayor of the City of Asheville. Councilman Smith seconded the nomination.

After hearing no more nominations, Mayor Manheimer closed the floor for nominations.

Mayor Manheimer called for a vote, resulting in Councilman Hunt being appointed as Vice-Mayor unanimously.

SWEARING-IN ADDRESS

Mayor Manheimer gave a brief address speaking about the common goal of quality of life and livability of Asheville. She looked forward to working together to build our community.

REMARKS - MEMBERS OF COUNCIL

Councilman Bothwell, Councilman Smith and Councilwoman Wisler each expressed their honor to be allowed to serve the citizens, appreciated the support of their family and friends, and looked forward to working for and with City residents.

ADJOURNMENT:

Mayor Manheimer adjourned the organizational meeting at 4:45 p.m.

Tuesday – December 10, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; Assistant City Manager Cathy Ball; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 13, 2013

B. RESOLUTION NO. 13-253 - RESOLUTION ADOPTING THE 2014 CITY COUNCIL MEETING SCHEDULE AND SETTING A LEGISLATIVE UPDATE WORKSESSION ON JANUARY 14, 2014, AT 3:30 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL

It was the consensus of Council to schedule the north Asheville community meeting on September 30, 2014, and the south Asheville community meeting on April 29, 2014.

RESOLUTION BOOK NO. 36 - PAGE 22

C. RESOLUTION NO. 13-254 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH CAVANAUGH & ASSOCIATES PA FOR ENGINEERING SERVICES FOR THE VAULT RENEWALS AND DISTRICT METERING AREA ZONE METERING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a professional services agreement with Cavanaugh and Associates, PA, for engineering services for the estimated amount of $165,336 plus a contingency amount of $24,800 for a total project budget of $190,136 for the Vault Renewals and District Metering Area (DMA) Zone Metering Project.

The City of Asheville Water Resources Department (WRD) is seeking the services of a qualified engineering firm to design and provide project management assistance with the Vault Renewals and DMA Zone Metering Project. This project will replace existing substandard and failing large sized water meters and vaults with new metering infrastructure designed and constructed in accordance with the City of Asheville standards. This will improve safety and metering accuracy at these existing meter locations which provide service to some of our larger water consumers. This project will also provide new metering infrastructure for zones within the supply system. This will better enable Water Resources staff to track where Non- Revenue Water Loss is occurring and correct those issues.

The Water Resources Department issued a Request for Qualifications (RFQ) for Engineering Services related to the design and contract administration of the Vault Renewals and DMA Zone Metering Project. In response to that RFQ, the WRD received five (5) proposals. Companies responding were:

1. Cavanaugh and Associates, PA - Asheville, NC
2. Mattern & Craig, Inc. - Asheville, NC
3. McGill Associates. - Asheville, NC
4. Michael Baker Engineering, Inc. – Raleigh, NC
5. Wade Trim, Inc. - Asheville, NC

A review team, comprised of staff from the City of Asheville Water Resources Department reviewed these proposals and selected the firm Cavanaugh and Associates, PA. Subsequent to this selection, Water Resources staff met with Cavanaugh and Associates, PA and negotiated an Engineering Services Contract for the estimated amount of $165,336.00 plus a contingency amount of $24,800.00 for a total project budget in the amount of $190,136.00.

The funding needed for this agreement is currently allocated within the Meter / Vault Repair Project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a professional services agreement with Cavanaugh and Associates, PA, for engineering services for the estimated amount of $165,336 plus a contingency amount of $24,800 for a total project budget of $190,136 for the Vault Renewals and DMA Zone Metering Project.

RESOLUTION BOOK NO. 36 - PAGE 23

D. RESOLUTION NO. 13-255 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE PORTIONS OF EXCESSIVE SUMMIT AVENUE RIGHT-OF-WAY AND AN UNOPENED RIGHT-OF-WAY BETWEEN SUMMIT AND ALLEN AVENUES AND SETTING A PUBLIC HEARING ON JANUARY 14, 2014

Summary: The consideration of a resolution of intent to permanently close portions of excessive Summit Avenue right-of-way and an unopened right-of-way between Summit and Allen Avenues and setting a public hearing on January 14, 2014.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, the adjoining property owners have requested the City of Asheville to permanently close a portion of the excess right-of-way adjacent to Summit Avenue and an unopened right-of-way between Summit and Allen Avenues.

City staff has reviewed the request and concur that the right-of-way closings will not have a negative impact on City services or active City transportations systems.

The Multimodal Transportation Commission met on December 4, 2013. They voted to unanimously support the right-of-way closures on condition that the developer consider providing multimodal improvements as part of the improvements of the development project.

City staff recommends City Council adopt the resolution of intent to permanently close portions of excessive Summit Avenue right-of-way and an unopened right-of-way between Summit and Allen Avenues and set the public hearing for January 14, 2014.

RESOLUTION BOOK NO. 36 - PAGE 24

E. RESOLUTION NO. 13-256- RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH MCGILL ASSOCIATES FOR ENGINEERING SERVICES ASSOCIATED WITH THE NORTH FORK WATER TREATMENT PLANT GENERATOR TRANSFER SWITCH PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a professional services agreement with McGill Associates for engineering services for the estimated amount of $74,100 plus a contingency amount of $8,400 for a total project budget of $82,500 for the North Fork Water Treatment Plant (NFWTP) Generator Transfer Switch Project.

The City of Asheville Water Resources Department (WRD) is seeking the services of a qualified engineering firm to design and provide project management assistance with the North Fork Water Treatment Plant Generator Transfer Switch Project. This project will replace an aging (1993) automated emergency power generator transfer switch with new automated electrical switchgear designed and constructed in accordance with current electrical infrastructure standards. This will improve the reliability of the emergency power equipment at the NFWTP and provide effective transitions from supplied electrical power to emergency power. This will better enable Water Resources staff to maintain water plant operations when supplied power is disrupted for any reason.

The Water Resources Department issued a Request for Qualifications (RFQ) for Engineering Services related to the design and contract administration of the North Fork Water Treatment Plant Generator Transfer Switch Project. In response to that RFQ, the WRD received two (2) qualification statements. Companies responding were:

6. McGill Associates – Asheville, NC
7. Brown and Caldwell – Charlotte, NC

A review team, comprised of staff from the City of Asheville Water Resources Department reviewed these submittals and selected the firm McGill Associates. Subsequent to this selection, Water Resources staff met with McGill Associates and negotiated an Engineering Services Contract for the estimated amount of $74,100 plus a contingency amount of $8,400 for a total project budget in the amount of $82,500.

The funding needed for this agreement is currently allocated within the North Fork Water Treatment Plant Generator Transfer Switch Project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a professional services agreement with McGill Associates, for engineering services for the estimated amount of $74,100 plus a contingency amount of $8,400 for a total project budget of $82,500 for the North Fork Water Treatment Plant (NFWTP) Generator Transfer Switch Project.

RESOLUTION BOOK NO. 36 - PAGE 25

F. ORDINANCE NO. 4252 - ORDINANCE ENACTING AND/OR CHANGING A 20 MPH SPEED LIMIT ON PORTIONS OF MOUNT VERNON PLACE, PROSPECT STREET, SALEM AVENUE, AND WESTHAVEN DRIVE; AND ENACTING AND/OR CHANGING A 25 MPH SPEED LIMIT ON PORTIONS OF ALLEN AVENUE, ATKINS STREET, BEAVERBROOK ROAD, BELL ROAD, CHAPEL PARK PLACE, COUNTRY MEADOWS DRIVE, FAIRVIEW ROAD, GIBSON ROAD, HIGH MEADOW ROAD, MIDLAND DRIVE, OTEEN PARK PLACE, PINEDALE ROAD, SUCCESS AVENUE, VANCE GAP ROAD, WATERS ROAD, AND WESTWOOD PLACE

Summary: The consideration of an ordinance to enact and/or change the speed limits on various sections of roads in the City of Asheville.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 20 mph speed limit would be reasonable and safe on Mount Vernon Place from Mount Vernon Circle to Lakeshore Drive, Prospect Street from Salem Avenue to Lee Avenue, Salem Avenue from Chatham Road to Prospect Street, and Westhaven Drive from NC 694 Town Mountain Road to Crowningway Drive.

Additional traffic engineering investigations were conducted by City staff that indicated that a 25 mph speed limit would be reasonable and safe on Allen Avenue from US 25 Hendersonville Road to the end of City maintenance, Atkins Street from US 25 Hendersonville Road to the end of City maintenance, Beaverbrook Road from Windsor Road to the end of City maintenance, Bell Road from SR 2236 New Haw Creek Road to Munn Drive, Chapel Park Place from West Chapel Road to Bostic Place, Country Meadows Drive from NC 112 Sardis Road to end of City maintenance, Fairview Road from US 25A Sweeten Creek Road to Bleachery BLVD, Gibson Road from Wild Cherry Road to end of City maintenance, High Meadow Road from Brooklyn Road to end of City maintenance, Midland Drive from US 25 Merrimon Avenue to US 25 Merrimon Avenue, Oteen Park Place from US 70 Tunnel Road to end of City maintenance, Pinedale Road from Bull Mountain Road to end of City maintenance, Success Avenue from Wamboldt Avenue to Euclid BLVD, Vance Gap Road from NC 694 Town Mountain Road to end of City maintenance, Waters Road from Old Haw Creek Road to Rocking Porch Road, and Westwood Place from Waynesville Avenue to Millbrook Road.

The initial cost to install the appropriate speed limit signs is about $2,000 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting and/or changing a 20 mph speed limit on Mount Vernon Place from Mount Vernon Circle to Lakeshore Drive, Prospect Street from Salem Avenue to Lee Avenue, Salem Avenue from Chatham Road to Prospect Street, and Westhaven Drive from NC 694 Town Mountain Road to Crowningway Drive.

City staff recommends that City Council approve an ordinance enacting and/or changing a 25 mph speed limit on Allen Avenue from US 25 Hendersonville Road to the end of City maintenance, Atkins Street from US 25 Hendersonville Road to the end of City maintenance,

Beaverbrook Road from Windsor Road to the end of City maintenance, Bell Road from SR 2236 New Haw Creek Road to Munn Drive, Chapel Park Place from West Chapel Road to Bostic Place, Country Meadows Drive from NC 112 Sardis Road to end of City maintenance, Fairview Road from US 25A Sweeten Creek Road to Bleachery BLVD, Gibson Road from Wild Cherry Road to end of City maintenance, High Meadow Road from Brooklyn Road to end of City maintenance, Midland Drive from US 25 Merrimon Avenue to US 25 Merrimon Avenue, Oteen Park Place from US 70 Tunnel Road to end of City maintenance, Pinedale Road from Bull Mountain Road to end of City maintenance, Success Avenue from Wamboldt Avenue to Euclid BLVD, Vance Gap Road from NC 694 Town Mountain Road to end of City maintenance, Waters Road from Old Haw Creek Road to Rocking Porch Road, and Westwood Place from Waynesville Avenue to Millbrook Road.

ORDINANCE BOOK NO. 28 - PAGE 384

G. RESOLUTION NO. 13-257 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND, IF AWARDED, ENTER INTO A GRANT AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR CONSTRUCTION OF THE BEAUCATCHER GREENWAY

Summary: The consideration of a resolution authorizing the City Manager to apply for and, if awarded, enter into a grant agreement with the N.C. Dept. of Environment and Natural Resources for construction of the Beaucatcher Greenway.

Funds are available through the N.C. Dept. of Environment and Natural Resources, Division of Parks and Recreation in the Recreation Trails Program to assist with the development of parks, recreational facilities, and greenways. The city wishes to submit a grant application not to exceed $100,000. If awarded, grant funds will be used to reimburse the city for future expenses related to construction of the Beaucatcher Greenway.

The grant application requires 25% cash, in-kind, or force labor match. The $25,000 cash match is available in the existing capital improvement budget for Beaucatcher Greenway.

In 2008, the City received a grant from the N.C. Parks and Recreation Trust Fund to assist with the land acquisition for Beaucatcher Greenway. In November 2012, the City entered into a contract with Stewart Engineering to develop the greenway design and construction documents which will be complete in February 2014, followed by construction beginning spring 2014.

The Recreation Advisory Board endorsed Beaucatcher Greenway as a priority greenway linking downtown Asheville to the French Broad River at its meeting on April 9, 2012.

If awarded, the grant is for one-time construction cost for the Beaucatcher Greenway that will increase the budget not to exceed $100,000. This increase is funded by a grant from the North Carolina in the Department of Environment and Natural Resources Recreation Trails Program. The grant application requires cash, in-kind, or force labor match of 25 percent of the amount requested valued at $25,000, which is available in the existing capital improvement budget for Beaucatcher Greenway construction. There is no impact to the city's General Fund budget.

City staff recommends City Council to adopt a resolution authorizing the City Manager to apply for and enter into an agreement for a grant through the North Carolina in the Department of Environment and Natural Resources Recreation Trails Program not to exceed $100,000 for reimbursement of future construction costs for the Beaucatcher Greenway.

RESOLUTION BOOK NO. 36 - PAGE 26

H. RESOLUTION NO. 13-258 - RESOLUTION AUTHORIZING THE MAYOR TO APPLY FOR, AND IF AWARDED, ENTER INTO A GRANT AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR CONSTRUCTION AT THE DR. WESLEY GRANT SR. SOUTHSIDE CENTER

Summary: The consideration of a resolution authorizing the Mayor to apply for and, if awarded, enter into a grant agreement with the N.C. Dept. of Environment and Natural Resources for a North Carolina Parks and Recreation Trust Fund (PARTF) grant for construction at the Dr. Wesley Grant, Sr. Southside Center.

Funds are available through the N.C. Dept. of Environment and Natural Resources, Division of Parks and Recreation in PARTF to assist with the development of parks, recreational facilities, and greenways. The City of Asheville wishes to submit a grant application not to exceed $500,000. If awarded, grant funds will be used to reimburse the city for future expenses related to construction at the Dr. Wesley Grant, Sr. Southside Center.

The grant application requires a dollar for dollar cash match not to exceed $500,000. The cash match is available in the existing capital improvement budget for the Dr. Wesley Grant, Sr. Southside Center.

The next area of construction at the Dr. Wesley Grant, Sr. Southside Center includes the spray ground, playground and a section of the Town Branch Greenway. Earlier this year, the city was awarded a $35,000 grant from the Community Development Block Grant to support construction cost. The PARTF grant, if awarded, will provide a significant portion of the funding needed to construct the project.

The development of the Dr. Wesley Grant, Sr. Southside Center is one of the top capital project priorities for the city in the Parks and Recreation Department. The first part of the Cultural Phase was completed in October 2011 consisting of an auditorium, three classrooms, office, storage, spray ground mechanical room, restrooms and parking.

The construction concept plan for the Dr. Wesley Grant, Sr. Southside was endorsed by the Recreation Advisory Board at its meeting on August 13, 2012. A public input session regarding the project was held on November 1, 2012.

If awarded, the grant is for one-time facility construction cost at the Dr. Wesley Grant, Sr. Southside Center that will increase the budget not to exceed $500,000. This increase is funded by a grant from the State of North Carolina in the Department of Department of Environment and Natural Resources. The grant application requires a dollar for dollar cash match not to exceed $500,000, which is available in the existing capital improvement budget for the Dr. Wesley Grant, Sr. Southside Center. There is no impact to the city's General Fund budget.

City staff recommends City Council to adopt a resolution authorizing the Mayor to apply for and enter into an agreement for a grant through the N.C. Dept. of Environment and Natural Resources Parks and Recreation Trust Fund not to exceed $500,000 for reimbursement of future construction costs for the Dr. Wesley Grant, Sr. Southside Center.

RESOLUTION BOOK NO. 36 - PAGE 27

I. MOTION ADOPTING ASSIGNMENT OF BOARDS & COMMISSIONS MEMBERS/LIAISONS FOR 2014-15

Summary: City Clerk Burleson has a complete listing of all appointments made for City Council liaison and mandatory seats for Council on the various boards and commissions.

The following changes were made: (1) Vice-Mayor Hunt (Chairman), Councilman Davis and Councilman Pelly were appointed to the City Council Boards & Commissions Committee; (2) Mayor Manheimer as a member of the Riverfront Redevelopment Commission; and (3) Councilman Bothwell will serve as the liaison to the Housing Authority of the City of Asheville.

RESOLUTION NO. 13-265 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL

Summary: As Mayor Terry Bellamy is no longer a member of the Asheville City Council, there currently exists a vacancy on the Asheville-Buncombe Community Relations Council.

Councilman Gordon Smith be and he is hereby appointed as a voting member to the Asheville-Buncombe Community Relations Council to serve a term according to the length of his Council term of office.

RESOLUTION BOOK NO. 36 - PAGE 34

RESOLUTION NO. 13-266 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD OF DIRECTORS

Summary: The term of Esther Manheimer, as a member on the Metropolitan Sewerage District Board of Directors, expires on January 19, 2014.

Mayor Esther Manheimer be and she is hereby appointed to serve a three-year term, expire to expire January 19, 2017, or until her successor has been appointed.

RESOLUTION BOOK NO. 36 - PAGE 35

RESOLUTION NO. 13-267 - RESOLUTION APPOINTING VICE-MAYOR AS CHAIRMAN TO THE POLICE OFFICERS & FIREFIGHTERS DISABILITY REVIEW BOARD

Summary: There is a need to appoint the Vice-Mayor to serve as the Chairman of the Police Officers and Firefighters Disability Review Board.

Vice-Mayor Marc Hunt be and he is hereby appointed as the City Council representative, to serve as Chairman, to the Police Officers and Firefighters Disability Review Board to serve a term according to the length of his Vice-Mayor term of office.

RESOLUTION BOOK NO. 36 - PAGE 36

RESOLUTION NO. 13-268 - RESOLUTION APPOINTING AN EX-OFFICIO, NON-VOTING MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Summary: Councilman Gordon Smith has resigned from the ex-officio non-voting member on the Buncombe County Tourism Development Authority, thus creating a vacancy for a City Council representative.

Councilman Jan Davis be and he is hereby appointed as the ex-officio non-voting City Council representative on the Buncombe County Tourism Development Authority to serve a term according to the length of his Council term of office.

RESOLUTION BOOK NO. 36 - PAGE 37

RESOLUTION NO. 13-269 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION

Summary: Councilman Jan Davis has resigned as a member of the Asheville Area Riverfront Redevelopment Commission, thus creating a vacancy for the City Council ex-officio voting member.

Mayor Esther Manheimer be and she is hereby appointed to the Asheville Area Riverfront Redevelopment Commission to serve in an ex-officio voting member capacity until she is no longer a member of the Asheville City Council.

RESOLUTION BOOK NO. 36 - PAGE 38

J. RESOLUTION NO. 13-258 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH TELECOMMUNICATION AND INDUSTRIAL CONSULTING SERVICES CORPORATION TO PERFORM RIGHT-OF-WAY ACQUISITION SERVICES FOR THE US 25 / HENDERSONVILLE ROAD SIDEWALK PROJECT

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Telecommunication and Industrial Consulting Services Corporation (TELICS) to perform right-of-way acquisition services for the US 25 / Hendersonville Road Sidewalk Project.

The Hendersonville Road Sidewalk Construction Project consists of constructing an identified priority for the linkage of the City's Pedestrian Plan. It will consist of installing several public infrastructure improvements, including (1) installing new sidewalks and associated items, (2) bus shelters, bike racks and other multimodal amenities, (3) ADA improvements.

The mass of the project consists of 7.5 feet of N.C. Dept. of Transportation (NCDOT) right-of- way off of the back of curb. The proposed typical section of sidewalk to be constructed consists of a 6 foot sidewalk constructed off of the back of curb. The majority of the work is expected to be performed within the existing right of way but there will be a need to acquire permanent and/or temporary easements and/or fee interest in some properties where there are issues with grade, the need for drainage improvements, installation of bus shelters, relocation of utilities, installation of retaining walls and other structures, and other related items to the construction of the sidewalk.

Since this project is receiving federal funds for construction, certain requirements / qualifications and guidelines have to be met. A Request for Proposals was issued to ascertain a qualified firm to acquire the necessary rights-of-way and meet the required federal guidelines.

Ten firms submitted proposals. These proposals were evaluated by a team of 5 members which rated each proposal based on qualifications and fees. The firm with the highest score among all the evaluators was TELICS, Charlotte, N.C.

Currently, staff is in the initial phase of design and it is estimated that over one-hundred parcels will be adjacent to the new sidewalk. A truly accurate estimate of the cost for the services rendered is not realistic at this time. Based on an assumption of acquiring 60 easements, with 30 of those requiring appraisals and with no relocations, and using the unit costs provided by TELICS, it is estimated the cost would be in an amount of $180,000. This requested amount is for services only and does not include monies for the actual purchase of land or land use.

This action is needed to fulfill the contract agreement between the City and the NCDOT to construct the sidewalk along this corridor.

Funding for the Hendersonville Road sidewalk project was included in the adopted Fiscal Year 2014 Capital Improvement Budget.

City staff recommends that City Council adopt the resolution authorizing the City Manager to enter into a contract with TELICS for a not to exceed amount of $180,000 for right-of-way acquisition services for the Hendersonville Road Sidewalk Construction Project.

RESOLUTION BOOK NO. 36 - PAGE 28

K. RESOLUTION NO. 13-260 - RESOLUTION ACCEPTING EMERGENCY SOLUTIONS GRANT FUNDS

ORDINANCE NO. 4253 - BUDGET AMENDMENT TO FUND LOCAL ORGANIZATIONS WITH THE EMERGENCY SOLUTIONS GRANT FUNDS

Summary: The consideration of a resolution authorizing the City to accept Emergency Solutions Grant funds and to provide those funds to the agencies for the programs approved by the State Division of Aging and Adult Services, Housing and Homeless Unit; and a budget amendment, in the amount of for $159,247, to fund local organizations with 2013 and 2014 Emergency Solutions Grant funds.

In the process approved by Council at the August 27, 2013 Council meeting, the City submitted a timely application to the State of North Carolina Division of Aging and Adult Services (DAAS), Housing and Homeless Unit for Emergency Solutions Grant funding. Funding recommendations were made to the Housing and Community Development Committee by the Homeless Initiative Advisory Committee. These recommendations followed a process that included submittal of letters of intent from eligible agencies, review and preliminary selection by the ESG Subcommittee of the Advisory Committee, and endorsement of those recommendations by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee.

We have been informed that our application has been approved, with the following agency awards:

	Emergency Response	Housing Stabilization	Administration	Total
Organization				
ABCCM		$ 25,195		$ 25,195
Helpmate	$ 26,559			$ 26,559
Homeward Bound		$ 76,577		$ 76,577
Salvation Army	$ 23,441			$ 23,441
City of Asheville			$ 7,475.00	$ 7,475
TOTAL REQUESTS	$ 50,000	$ 101,772		$ 159,247

These awards are conditional on providing to the State additional information needed and/or assurances that must be provided. These conditions will include, but are not limited, to adequate documentation of required matching funds. These matching funds are provided by the individual agencies (and not the City).

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing community development division staff will administer the program. No general funds are requested to support this program.

Staff recommends that Council approve the resolution authorizing the City to accept ESG funding, and to provide those funds to the agencies for the programs approved by the State

136

Division of Aging and Adult Services (DAAS), Housing and Homeless Unit, and the associated budget amendment.

RESOLUTION BOOK NO. 36 - PAGE 29
ORDINANCE BOOK NO. 28 - PAGE 386

L. RESOLUTION NO. 13-261 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BOLTON CONSTRUCTION COMPANY FOR THE MONTFORD GYM FLOORING REPLACEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a change order in the amount of $29,000 to increase the construction services contract for Bolton Construction of WNC Inc., from a total in the amount of $130,000 to $159,000 for the Montford Gym Flooring Replacement Project.

On October 10, 2013, City Council awarded the construction services contract to Bolton Construction of WNC Inc., for the Montford Gym Flooring Replacement Project. The contract originally consisted of a demolition and removal of the tile flooring, and installation of a new wood sports flooring system within the Montford Recreation Center. During the initial construction phase, it was determined that accessibility improvements were required per current ADA guidelines and the six (6) existing basketball goals/backboards needed replacement in order to meet the project objectives of improved level of service. A new curb ramp, replace four (4) entry doors, two (2) sets of interior door hardware, and six (6) basketball goals & backboards were added to the construction services contract.

The additional construction services for the curb ramp, doors, and basketball goal/backboard replacement creates the need for a change order to increase the contract amount by an additional $29,000.00 for a total contract amount of $159,000.00. Funding for this contract change order will come from the Parks and Recreation Department's existing FY 2013-14 deferred capital maintenance budget.

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a change order in the amount of $29,000.00 to increase the construction services contract for Bolton Construction of WNC Inc., from a total in the amount of $130,000.00 to $159,000.00 for the Montford Gym Flooring Replacement Project.

RESOLUTION BOOK NO. 36 - PAGE 30

M. RESOLUTION NO. 13-262 - RESOLUTION AUTHORIZING AN AMENDMENT TO THE TERMS OF THE CONTRACT WITH MOUNTAIN HOUSING OPPORTUNITIES FOR THE USE OF HOME PARTNERSHIP ACT FUNDS FOR THE EAGLE MARKET PLACE PROJECT

Councilman Smith disclosed a possible conflict of interest; however, Interim City Attorney McGlohon determined that there was no conflict of interest that would warrant recusal.

Summary: The consideration of a request by Mountain Housing Opportunities to amend the terms of their HOME grant for the Eagle Market Place residential development.

In May of 2013, Mountain Housing Opportunities and the City of Asheville executed a contract for the use of $462,600 in federal HOME funds, for use in the Eagle Market Place project. This funding was provided to the project as part of the 2011-2012 Annual Action Plan, which was amended in May of 2011 to increase the award $100,000 from $362,600 as approved by Council in April of 2011. The contract was not executed until this year because the Low Income Housing Tax Credit award for the project was not made until September, 2012.

The terms of the contract, negotiated by City and MHO staff, called for the grant funds to be used for "construction" only, and for progress payments of the HOME grant based upon percentages of completion.

The Draw Schedule in the contract is as follows:

Activity	**Amount**
Construction 30% complete	$146,490
Construction 60% complete	$146,490
Construction 95% complete	$146,490
Closeout 100% (5% Retainage)	$23,130
Total	**$462,600**

MHO now seeks to amend the terms of that contract to allow for the use of funds for non-direct construction activities ("soft costs"), and to allow the immediate draw of HOME funds, making HOME funds "first in" to the project.

Although terms for HOME funds for projects in prior years have been more flexible, City staff has been reflecting increased concern by HUD about the expenditure of HOME funds, as a result of increased scrutiny of the HOME program by Congress. City staff has received guidance from HUD staff and technical assistance providers regarding contract terms, again reflecting HUD's primary directive for the HOME program that the use of HOME funds must result in the production of affordable housing. HUD has advised staff that ideally, HOME funds are disbursed on a pro-rata basis with all other funding. By doing so, the risk of having to repay HOME funds from non-federal resources- required by HUD if a project does not achieve its affordable housing deliverable within four years of the commitment of funds- is significantly reduced.

All parties agreed at the time of the contract that these terms were reasonable. To this date, however, other committed financing for the residential project has not closed. No explanation for the delay in closing those loans has been given other than paperwork complications. MHO seeks to use HOME funds to pay obligations that have been incurred prior to the closing for other committed funds, including construction financing committed by TD Bank.

The proposed amendment to the contract could expose the City to the financial risk of the federal regulation requiring that the contracted number of affordable housing units (8) be fully constructed and occupied within four years of the date of the commitment.

Staff recommends that Council approve the request to amend the term of the HOME contract to allow for disbursement of HOME funds as needed for the project, and to allow HOME funds to be used to reimburse non-construction costs; and that the amendment confirm that Mountain Housing Opportunities will be required to repay the HOME funds to the City in full from non-federal sources if the HOME units specified in the contract are not completed within four years of the original commitment.

RESOLUTION BOOK NO. 36 – PAGE 31

N. RESOLUTION NO. 13-263 - RESOLUTION APPROVING A WRITTEN EXEMPTION FROM THE REQUEST FOR QUALIFICATIONS PROCESS IN THE CASE OF CONSTRUCTION MANAGEMENT SERVICES FOR EAGLE MARKET PLACE

ORDINANCE NO. 4254 - BUDGET AMENDMENT FOR EAGLE MARKET PLACE

Councilman Smith disclosed a possible conflict of interest; however, Interim City Attorney McGlohon determined that there was no conflict of interest that would warrant recusal.

Summary: The consideration of (1) a resolution approving a written exemption to the Request For Qualifications (RFQ) process for a time sensitive project management contract for the Eagle Market Place with a cost that falls below the state's minimum requirement for such processes; and (2) a project budget amendment in the amount of $49,500 from Economic Development Capital Improvement Plan (EDCIP) debt proceeds to fund the contract.

The City of Asheville is providing significant financial support to the Eagle Market Place (EMP) project for the purpose of creating affordable housing and revitalizing the "Block." In order to ensure that the project is completed in a timely manner with little cost overruns, the City will hire a construction manager.

Previously, the City had contracted with Kimley-Horn to provide similar services for the 51 Biltmore Avenue Parking Garage, and was pleased with their work. We have determined that they are qualified to perform construction management services for the EMP project as well. If accepted, the contract with Kimley-Horn will be for $49,500. The state's general statute allows for a written exemption from the RFQ process for professional contracts under $50,000. G.S. 143-64.32 was updated per session law 2013.401, H.B. 857, to read:

> §143-64.32. **Written exemption of particular contracts.**
>
> Units of local government or the North Carolina Department of Transportation may in writing exempt particular projects from the provisions of this Article in the case of proposed projects where an estimated professional fee is in an amount less than fifty thousand dollars ($50,000).

The demolition of the project has begun and the construction period is expected to last for fourteen months. Given the time constraints on the project, the fact that a contract of this size is allowed exemption from the RFQ process by state statute as updated per session law 2013-401, H.B. 857, and our previous positive experience with the work and qualifications of a preferred firm, an written exemption for this project from the RFQ process by Council would expedite the contract and ensure construction management can begin when needed.

The fiscal impact would be that it saves the City the staff time of an RFQ process, and saves the project the potential of errors or overrun due to insufficient management until an RFQ process is complete. The contract will be funded through the Economic and Community Development CIP.

City staff recommends City Council (1) approve a resolution approving a written exemption from the RFQ process in the case of construction management services for Eagle Market Place; and (2) approve a project budget amendment in the amount of $49,500 from EDCIP debt proceeds to fund the contract.

Councilwoman Wisler asked that staff provide City Council with a monthly report via e-mail.

Councilman Smith was pleased that there is going to be a construction manager and hoped that they would bring the project in on time.

RESOLUTION BOOK NO. 36 – PAGE 32
ORDINANCE BOOK NO. 28 - PAGE 389

O. ORDINANCE NO. 4255 - BUDGET AMENDMENT FOR PHASE IV OF THE LED STREETLIGHTS AND PHOTOCELLS

Summary: The consideration of a budget amendment, funded with debt proceeds, to establish a Fiscal Year 2014 budget in the amount of $575,000 for purchasing Phase IV LED streetlights and photocells.

In April 2011 City Council approved a resolution to increase the annual municipal carbon footprint reduction goal from 2% to 4%. A key element to achieving this goal is the 4 year plan to change most of the municipal streetlights to LED technology. The mechanism city council approved the fund this initiative is through the Green Capital Improvement Program (Green CIP). The Green CIP borrows money to capitalize carbon reduction efforts then uses operational energy savings to pay off the investment, thus maintaining a revenue neutral if not positive program.

The City will use debt proceeds to fund the $575,000 expense associated with this purchase. It is estimated that the annual debt service will be approximately $70,000 over a ten year period. As noted above, installation of the LED streetlights will generate an estimated $105,000 in electricity savings, which will more than offset the annual debt service payments.

City staff recommends City Council adopt a budget amendment to purchase a Phase IV of LED street lights.

ORDINANCE BOOK NO. 28 - PAGE 391

P. ORDINANCE NO. 4256 - BUDGET AMENDMENT TO INCREASE THE BUDGET FOR THE HARVEST HOUSE AND SENIOR OPPORTUNITY CENTER FROM THE N.C. DEPT. OF HEALTH AND HUMAN SERVICES

Summary: The consideration of budget amendments in the amount of $3,893 for Senior Opportunity Center and $3,893 for Harvest House for an appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging and the Land of Sky Regional Council/Area Agency on Aging through the Senior Center General Purpose Funding.

Funds will be used at the Senior Opportunity Center to 1) renovate the pool room, and 2) purchase program and facility equipment. The allocation requires a 25% local match which will be provided via in-kind services of staff time to manage the project.

Funds will be used at Harvest House to purchase program and facility equipment. This allocation also requires a 25% local match which will be provided via in-kind services of staff time to manage the project.

The allocation will increase the City's General Fund budget by $7,786.00 in special project accounts designated for the Senior Opportunity Center and Harvest House. The 25% local match will be provided through in-kind services of staff time to manage the projects.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to establish a budget in the amount of 1) $3,893.00 for Senior Opportunity Center, and 2) $3,893.00 for Harvest House for facility improvements and equipment.

ORDINANCE BOOK NO. 28 - PAGE 393

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. QUARTERLY REPORTS

Financial Report

Budget Manager Tony McDowell provided Council with the following financial information which reflects the City's overall financial position for the fiscal year through September, 2013.

Amendments. The General Fund budget presented in this first quarter report reflects the adopted budget of $95,861,764 along with three budget amendments approved by Council during the first quarter. Two of the three first quarter budget amendments were technical amendments that moved budgets from the General Fund to other City funds. The overall net impact of the amendments in the first quarter lowered the General Fund budget by $379,218. A summary of the three amendments is presented below. None of the amendments involved an appropriation from fund balance.

Adopted Budget	95,861,764
Budget Amendments:	
Technical: Move Changing Together to Grant Fund	(79,060)
Technical: Move Computer Purch. to Capital Fund	(350,000)
Add School Resource Offjcer	49,842
9/30/2013 Budget	$95,482,546

Revenues. Through September 30, 2013, the City has collected $15,040,749 in General Fund revenue, which represents approximately 15.8% of the total General Fund revenue budget. As Council is aware, the Town of Biltmore Forest cancelled its fire protection contract with the City of Asheville, which will result in a revenue loss of approximately $600,000 in the current fiscal year. Also, based on early sales tax trends, staff is projecting a $335,000 budget shortfall in this revenue. On a positive note, revenues from Development Service fees and the new sanitation fee are trending higher than anticipated. Overall, staff is currently projecting that ***FY 2013-14 General Fund revenue will come in under budget by $409,000 or 0.43%.***

Expenditures. General Fund expenditures through September 30, 2013 total $17,159,239 or 18.0% of the budget, which is typical for this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are on budget through the first quarter. Expenditures for fuel and fleet maintenance and other operating costs are running slightly under budget through the first quarter. ***Based on the trends noted above, staff is conservatively projecting that expenditures will finish the year under budget by $760,000 (99% of budget) which will more than offset the expected revenue shortfall.***

Fund Balance. The City ended FY 2012-13 with available fund balance of $15.4 million, which equated to 17.6% of FY 2012-13 expenditures. Based on ***current revenue and expenditure projections for FY 2013-14, staff estimates that available fund balance at June 30, 2014 will be $15.8 million or 16.7% of estimated expenditures.***

Public Safety Committee Chair Report

Mayor Manheimer, former Chair of the Planning & Economic Development Committee, provided Council with a brief update on some major accomplishments during this quarter.

Councilman Bothwell moved to distribute City Council Committee Chair quarterly reports via e-mail because the time for the Chairs to make their report is when the pertinent issue comes before Council. This motion was seconded by Councilman Smith and carried unanimously.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF 291 EAST CHESTNUT STREET LOCATED AT 287 AND 291 EAST CHESTNUT STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO URBAN RESIDENTIAL DISTRICT/CONDITIONAL ZONING WITH A MODIFICATION REQUEST TO THE SETBACK AND LANDSCAPE BUFFER REQUIREMENTS

Mayor Manheimer announced that the City Clerk received an e-mail on December 4, 2013, from Mr. Chad Roberson requesting a continuance until January 28, 2014. Therefore, Vice-Mayor Hunt moved to continue this public hearing until January 28, 2014. This motion was seconded by Councilman Smith and when no one from the public spoke, the motion carried unanimously.

B. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR THE CONSTRUCTION OF NEW FACILITIES AT ASHEVILLE MIDDLE SCHOOL LOCATED AT 197 SOUTH FRENCH BROAD AVENUE

ORDINANCE NO. 4257 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR THE CONSTRUCTION OF NEW FACILITIES AT ASHEVILLE MIDDLE SCHOOL LOCATED AT 197 SOUTH FRENCH BROAD AVENUE

Interim City Attorney McGlohon reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Interim City Attorney McGlohon said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

Interim City Attorney McGlohon said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Mayor Manheimer opened the public hearing at 5:30 p.m.

Urban Planner Jessica Bernstein submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Bernstein said that this is the consideration of the issuance of a conditional use permit for the construction of new facilities for the Asheville Middle School located at 197 S. French Broad Avenue.

Ms. Bernstein said that the applicant is requesting review of site plans for the construction of new facilities for the Asheville Middle School. This project is considered a Level III review pursuant to Section 7-5-9(a) of the UDO which designates review for institutional uses of over 100,000 square feet. Level III projects are reviewed as Conditional Use Permits in the Institutional District and schools are reviewed as a Use By Right, Subject to Special Requirements in residential districts.

The site consists of a 25.97 acre parcel located at 197 South French Broad Street. The parcel is split-zoned Institutional and RM-8 and is currently the location of the Asheville Middle School. The site is bordered by CI to the west, Office and RS-8 to the east, Institutional (YWCA) and RM-8 to the north and CI and RS-8 to the south.

The proposal is to demolish the existing school building and construct a new facility with upgraded site improvements (students will remain in the existing building until the new facility is complete). Plans show a 3-story (48 feet in height), 174,695 square foot building with 67 classrooms, located towards the southern end of the site and parking and open space towards the northern end. Existing uses on the rear end of the site are not expected to change (track, football/soccer field, baseball diamond, open space) (City Exhibit 3 - Location Map and Site Plan).

Plans show access into the site by vehicles from five locations. One access point is via Charles Street which is proposed to become one-way (into the site) south of Timothy Street. The other four access points are all along South French Broad Avenue, starting at the northern end with an entrance-only, two-lane loop that provides a drop-off in front of the school building and access to the parking lot, connecting back to the roadway as an exit-only opening to complete the loop. The third and fourth driveways provide a second "loop", for bus drop-off and access to the bus parking.

There are two surface parking areas proposed with this project. The first is towards the front of the building and includes 106 spaces. The second parking area is to the side of the building and provides bus parking (six spaces) and an additional 28 car spaces. There are a total of 134 car spaces shown on the site. Bicycle parking is required and provided.

Ten foot wide sidewalks are provided along the entire frontage of the property along South French Broad Avenue and a six foot sidewalk will be included along Charles Street. There is one pedestrian route shown into the site from South French Broad, at the southernmost driveway entrance (10 feet, back of curb) and another from Charles Street (six feet wide). There are draft plans for the Clingman Forest Greenway segment, which will travel through the northern end of the site, and potential connections into the site are under discussion. Details on the greenway segment are not yet formalized.

Landscaping is required for this project and includes street trees, parking lot landscaping, building impact landscaping and property line buffer in two locations. There is significant existing vegetation on the site that is proposed to remain, primarily along the rear of the site by the sports fields.

Fifteen percent of the total lot area is required to be dedicated as open space, which would be 3.89 acres for this site. Significantly more than the minimum is provided, with 9.64 acres designated on the plans and more area left open on the site but not included in the calculation.

This proposal was approved with conditions by the Technical Review Committee on October 21, 2013. The Planning & Zoning Commission reviewed the proposal at their meeting on November 6, 2013, and unanimously recommended approval. Staff has heard from a member of the pubic residing on Charles Street with concerns about current and future traffic congestion.

City Council must take formal action as set forth in Section 7-5-5(e)(3) of the Unified Development Ordinance (UDO), and must find that all seven standards for approval of conditional uses are met based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case pursuant to Section 7-16-2(c). Staff's review indicates that all seven standards are met as proposed in the site plan.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   The proposed use and development of the land is compatible with the natural and topographic features on the site in that the area intended for construction of the new middle school facility is previously graded (where the old baseball field and basketball courts are currently located) and the new parking area will be on the previous school site. The bulk of the project area will remain unchanged. The area for construction is flat and where there are a few locations around the perimeter of the project area with topographic challenge, they will be appropriately managed with retaining walls.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The parcel containing the Asheville Middle School is quite large (over 25 acres) and the school use has long been established in this location. Schools are a complementary use to have in proximity to residential neighborhoods and should enhance the value of these abutting properties. The adjacent YWCA and small offices in residential conversions are also compatible with this type of development and are not expected to see a decline in value.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   The new Middle School will be located towards the previously developed southeastern end of this large parcel. As mentioned in #3, this is an appropriate location for an educational use and this use has been established on the site for some time. The new school building is approximately 40,000 square feet larger and one-story taller than the existing building.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   Elements of the project are directly aligned with the City's goals and objectives including infill development, investment in the public school system, enhancement of the residential community and supporting a high quality of life for Asheville residents. The project is also aligned with separate Clingman Forest Greenway discussions occurring separately.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**

This proposed development is located near major road facilities and interstate connections. In addition, the project has been reviewed by the Technical Review Committee who found that existing infrastructure appears adequate and preliminary review has not revealed any problems for future service to the development. The site is located along the S4 transit route and the proposed Clingman Forest Greenway is adjacent to the site.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
There was no TIS required for this project. The traffic control plans for the project have been reviewed. Based on the plans that were presented, the proposed use should not cause undue traffic congestion or create a traffic hazard. The proposed configuration on the AMS campus should be a positive change to traffic congestion issues along South French Broad Avenue.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- The proposal provides an upgraded facility for Asheville Middle School students and families.
- Reconfigured drop-off and pick-up loops for automobile and school bus traffic should streamline vehicular access to the site.
- The proposed Clingman Forest Greenway should be near or through the northern part of this site, providing potential connections to the school campus.

Con:

- Not currently proposing LEED-certification (as has been included in several recent Asheville City school projects).

Staff recommends supporting the requested Level III project (Conditional Use Permit) to support this development proposal, subject to the additional condition recommended by City staff and the standard conditions. The upgraded school facility will be a benefit to many local students and residents and investment in education is well supported by City goals and objectives.

Councilman Smith thanked the Buncombe County Commissioners for working with the Asheville City Schools, which is an excellent example of good partnerships.

Ms. Jacquelyn Hallum, Chair of the Asheville City Board of Education, was pleased with this new project.

Using Applicant Exhibit 1, Mr. Chad Roberson showed the existing site, the new building, the different levels of the building, views from various vantage points, etc. He said the new building will be constructed in its entirety and then the old building demolished. He showed where the garden would be located off S. French Broad Avenue. One of their goals was to get the traffic off of S. French Broad and they will accomplish that with the loops. Sustainability has been a focus of the building and the building is designed for the school to grow.

In response to Councilman Bothwell, Mr. Roberson said that the traffic level will be the same, but instead of cueing on S. French Broad, they will be bringing the cueing deep into the site.

After rebuttal, Mayor Manheimer closed the public hearing at 5:48 p.m.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the

master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4257 granting a conditional use permit for the construction of new facilities for the Asheville Middle School located at 197 South French Broad Avenue, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; and (6) The applicant will continue to work closely with City staff to provide connections into the site, where feasible and appropriate, from the proposed Clingman Forest Greenway. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 27 - PAGE 395

C. PUBLIC HEARING REGARDING THE MERGER OF THE RIVER DISTRICT DESIGN REVIEW COMMITTEE'S FUNCTION AND DUTIES INTO THE ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION

At the request of City staff, Councilman Davis moved to continue this public hearing until January 14, 2014. This motion was seconded by Vice-Mayor Hunt and when no one from the public spoke, the motion carried unanimously.

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF 12.33 ACRES FOR A PROJECT KNOWN AS THE AVALON LOCATED ON SWEETEN CREEK ROAD FROM INDUSTRIAL DISTRICT TO RM-16 MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone 12.33 acres for a project known as The Avalon, located on Sweeten Creek Road, from Industrial District to RM-16 Multi-Family High Density District/Conditional Zoning for the development of 8 multi-family buildings and 1 clubhouse building. This public hearing was advertised on November 29 and December 6, 2013.

Ms. Bernstein said that the applicant is requesting review of a conditional zoning request from Industrial to Residential Multi-family High Density (RM-16), in accordance with Section 7-7-8 of the UDO, for the construction of a multi-family apartment complex.

The site consists of a 12.33-acre parcel located on Sweeten Creek Road in South Asheville. The parcel is currently zoned Industrial (IND) and is vacant. The site is bordered by the Norfolk-Southern Railroad to the west; Institutional zoning to the east (nursing home); Commercial Industrial (CI) zoning to the north (a mix of manufacturing operations, warehousing and associated offices in an industrial park) and Commercial Industrial (CI) zoning to the south (warehousing and storage uses).

The proposal is to develop a multi-family apartment complex with a total of 192 units. Plans propose a mix of 1-bedroom (48 units), 2-bedroom (120 units) and 3-bedroom (24 units) configurations. There are 8 residential buildings shown on the site, with a maximum building height of 36 feet (all three-stories). Additional structures proposed include a single-story clubhouse building located at the entrance to the development and three 1-story garages within the site.

Vehicles will access the site from two driveway cuts, both off of Sweeten Creek Road, with the primary entrance placed next to the clubhouse at the northern end of the parcel.

There are 312 parking spaces shown on plans, both along the 26 foot wide two-way private drives and in small parking lots throughout the site. This parking count includes 11 HC-accessible spaces dispersed throughout the site, a small parking area on pervious pavers and three six-car covered garages. Also, 16 bike parking spaces are distributed among the buildings.

Sweeten Creek Road is identified as a "needed linkage" for sidewalks but none are shown along this frontage due to anticipated road widening in the near future by the North Carolina Department of Transportation. Pedestrian pathways are shown interior to the site and would connect to any future sidewalk.

Landscaping is required for this project and includes street trees, parking lot landscaping, building impact landscaping and tree save area. The applicant is proposing to preserve existing vegetation around the north, west and southern perimeters of the site and to apply those as credits for some of the required landscaping.

Open space is also required for this project, at a rate of 500 square feet per unit, which will result in a total of 2.20 acres for the site.

Under the current Industrial zoning, residential is not a permitted use. As is noted above, the requested rezoning is not consistent with a Comprehensive Plan policy stating that Industrially-zoned land should be preserved for industrial uses. However, there are multiple recent precedents for City Council approval of similar zoning changes. At the August 2009 meeting of the Planning and Economic Development Committee, City staff discussed these cases, and reviewed the practice of considering each such rezoning petition on a case-by-case basis, under close consultation with the Office of Economic Development.

Staff consulted with the Economic Development Coalition (EDC) who shared staff's concern that industrially-zoned land should be preserved or industrial uses and requests examined on a case-by-case basis. In this particular case, the group did not feel strongly enough to formally oppose the rezoning.

The following provides a list of several examples where the City has approved rezoning applications eliminating Industrial sites:

- In October 2005, City Council approved a rezoning of roughly 31 acres off of Dogwood Road in Candler from Industrial to RS4.
- In May 2006, a rezoning of approximately 1.5 acres of land at 1301 Sand Hill Road was rezoned from Industrial to Community Business II.
- In July 2007, City Council approved a rezoning of approximately 37 acres from Industrial to RM16 for an area on the eastern edge of the Biltmore Lake community.
- In October 2010, City Council approved a rezoning from Industrial to Airport, a district allowing fewer industrial uses.
- In January 2011, 13 acres off Orchard Street were rezoned from IND to RM6.
- In February 2013, the Possum Trot rezoning changed 1.3 acres from CI to RM8.

This project was approved with conditions by the Technical Review Committee on October 7, 2013. The Planning & Zoning Commission evaluated this request at their meeting on November 6, 2013, and voted 6-1 in favor of the project. There was discussion on the rental

rates as well as the loss of industrially-zoned property, with information provided by the applicant regarding the need in the rental market for rates at this level and the unsuitability of the site for true industrial use. No communication from the public has been received as of the writing of this report (November 7, 2013).

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   This site has been previously graded and is mostly flat with areas of existing vegetation around the north, south and west property lines. The proposed development of the land is compatible with these features in that the buildings and parking areas are focused in the center of the site and areas around the perimeter incorporate and retain landscaping materials for required bufferyards.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The proposed use and development of the land is not expected to injure the value of abutting property. Although the parcels immediately adjacent to the north and south are industrial and warehousing uses, the required landscape buffers should provide adequate visual separation. As noted below, there are numerous other residential developments in the immediate vicinity.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   The subject area has a variety of zoning districts and uses. The parcels directly adjacent to the north and south are manufacturing/storage/warehousing uses and this proposed development can be said to be inharmonious with those uses. However, there are instances throughout the City where these uses are adjacent to one another. Additionally, there are a number of residential developments existing in the immediate vicinity, just on the other side of those parcels and across the street to the east (Holiday Drive – zoned CI, Carrington Place and Pigeon Lane – both zoned RM-16), and this use is very similar to those in scale, bulk, coverage, density and character. The "area or neighborhood in which it is located" is not entirely straightforward in this situation.

   City-adopted goals indicate the need to preserve industrially-zoned land for industrial and manufacturing uses and there is some question as to whether a residential use is in harmony with the uses permitted on those neighboring sites. However, as previously stated, there are multiple residential uses in the immediate vicinity (the three mentioned above are within 0.4 miles) as well as a very large residential presence in the general area (as shown on the Exhibit C map). There are several sizable under-developed parcels across Sweeten Creek Road to the east that are either residentially zoned

already or Institutional, which permits residential uses. So it seems that while the proposed use may be out of character with the uses immediately to the north and south, the multi-family residential development is similar in scale, bulk, coverage, density and character to a number of other like developments in very close proximity.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   Elements of the project align with the City's goals and objectives including siting development in an infill location, proposing a density that supports transit and offering rentals as a "workforce" rate. However, multiple plans caution eliminating Industrially-zoned land, which this proposal does.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   The site is located in an area accessible by vehicle. The nearest transit route is the S3 at Hendersonville and Buck Shoals Road (approximately 0.5 miles). Adequate water supply, police protection, waste disposal and similar facilities are verified during the TRC review process.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
   The Traffic Impact Study for the Avalon has been reviewed. Based on the findings and presuming that the recommendations presented by the report are implemented, the proposed use should not cause undue traffic congestion or create a traffic hazard.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:
- Some existing vegetation around the perimeter of the site will be preserved.
- Project incorporates pervious pavers into one of the parking areas.
- Proposes a density that supports transit (S3 on Hendersonville Road is within 0.5 miles and the S1 ends 5 miles north)

Con:
- Application does not propose to dedicate any units for affordable housing (*although none is required) – however, the applicant has been directed to the Community Development Department to discuss possibilities.*

The Comprehensive Plan, as well as the Sustainable Economic Development Strategic Plan, includes a stated policy to preserve Industrially-zoned land for industrial uses.

Based on policies stated in the Comprehensive Plan and other plans, staff notes concerns about eliminating Industrially-zoned land. However, both the Planning and Zoning Commission and City Council have supported similar rezoning actions in the recent past and the EDC did not oppose the proposal when consulted. If the Commission wishes to consider this rezoning independent of the existing policies, staff feels a case can be made for recommending approval based on the proliferation of residential uses in the near vicinity.

Mr. William Ratchford, Vice-President of Triangle Realty, said that his company is family owned, and they are constructing another project in Asheville - The Palisades. They are based in Gastonia, N.C., and consider themselves a regional company with regional interests. This is about a $20 Million with 4 full-time staff of and 2 part-time. They are long-time holders, managers and operators of the property. They have 71 communities with three additional construction and

three under planning. There is a huge need for apartments in the City of Asheville. He sets the unit rents for 13,000 out of their 14,900 units, and except two places, Asheville has the highest rent for apartments because there is a huge lack of supply. He feels their apartment rates shown, even though not listed in the City's affordable category, can help reduce the rates of the apartments in this area. They are long-term holders of properties and hoped City Council would support their project.

Mr. G. Thomas Jones, civil and site engineer, talked about the details of the property. The property is really 10 acres because they can't put buildings in the 2 acre railroad right-of-way. He then talked about the adjacent land uses and the neighborhood. He felt that this property has been vacant for 10 years because industrial projects that create a lot of jobs typically require more land than 10 acres. Another challenge for industrial is that the site has an elevation difference of 58 feet from the highest point on Sweeten Creek Road to the lower corner of the property. He felt that based on the surrounding zoning and property uses, and because of the size and nature of the property and the fact that the property has been available for over 10 years, an apartment project is an excellent use of the property at this time.

Mr. Gene Ratchford Jr. offered to respond to Council's questions, but would support a continuation of this public hearing until February 11, 2014, to review land use issues.

Vice-Mayor Hunt moved to continue this public hearing until February 11, 2014, in order have City staff to organize the data and input for Council to be more informed on industrial site property, noting that the 2025 Plan, which was developed by a broad section of the community, identified the loss of industrial sites. This motion as seconded by Councilman Bothwell.

Councilman Bothwell questioned if the access to the railroad has any particular benefit for potential industry use on that property, since not every property has railroad access. The railroad transport of goods is increasing in America.

Councilman Davis agreed that the 2025 Plan was adopted over 10 years ago and they felt they needed to reserve industrial space because there was not a lot of interest from developers. Housing was also a short supply and we all agree that apartments are very much in need. He suggested further contact with the Economic Development Coalition to see if there is still a market for reserving industrial sites. With this project, we have an opportunity to improve our tax base and provide apartments for people who work in that area.

Councilman Smith also wanted to look closely at our industrially zoned land to make sure they are right for this type of zoning. The proposed site, to him, looks like a usable piece of land for perhaps a distribution location site or other different use. If we rezone industrial sites, we need to do that with our strategic goals in mind as well. We are also trying to create affordable housing and we have had hundreds of apartment units approved by Council in the last few months and only 14 of them are designated affordable. We do need to improve housing stock, but this looks like we are only creating one kind. He was also concerned about the open space and how the developer is using only the existing buffer.

Mr. Jones addressed the questions raised by Council regarding the railroad access and noted that there is very little vegetation on the site to preserve. He said that their open space meets or exceeds the City's requirements.

In response to Councilwoman Wisler, Assistant City Manager Ball said that staff will look at the suitability of the industrially zoned properties and prioritize them to say which would be appropriate to maintain in that category, and which ones are not as likely to be usable space. They will also provide the additional information requested to Council.

150

Vice-Mayor Hunt also asked that staff make sure there is some design dialogue with not just Economic Development Coalition staff, but with the Board members, on their assessment of industrial sites county-wide. They may have some data that may help us.

After Mayor Manheimer asked for public comment and received none, the motion made by Vice-Mayor Hunt and seconded by Councilman Bothwell carried unanimously.

E. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF 2.12 ACRES OF PROPERTY LOCATED ON TAFT AVENUE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING

ORDINANCE NO. 4258 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON TAFT AVENUE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING

Urban Planner Julia Fields said that this is the consideration of an ordinance to conditionally zone 2.12 acres located on Taft Avenue from RS-4 Residential Single-Family Medium Density District to RS-8 Residential Single-Family High Density District/Conditional Zoning, to facilitate the development of a single-family residential community composed of 10 lots and 10 detached single-family dwellings. This public hearing was advertised on November 29 and December 6, 2013.

Ms. Fields said that the project site (currently three separate parcels) is approximately 3.34 acres in size and is located off of Taft Avenue in the Shiloh community. The current zoning of the property is RS4. The property is traversed by a stream and sewer line presenting challenges to development. A 30 foot platted right-of-way abuts the parcels.

Asheville Area Habitat for Humanity proposes to create a ten-lot subdivision utilizing a previously platted right-of-way to create a new street, McKinley Avenue, on which the lots in the subdivision will be located. All homes to be constructed will meet affordable standards.

Due to property constraints and a desire to create as many affordable home lots as possible, they are requesting a rezoning to RS8CZ. The rezoning will allow smaller lot sizes, but due to site constraints it will not result in an increase in density. The resulting density will be less than what would be permitted under the current zoning (around 14 lots) because much of the property must remain undisturbed due to the location of streams and a sewer line on the property. In an effort to work with an adjoining property owner the developer is requesting a modification of lot size for Lot #1. The modification is 382 square feet; the resulting lot will be 4,618 square feet in size.

Access to all lots will be via a new roadway, McKinley Avenue that is proposed to be 24 feet wide with a right-of-way varying from 30 to 40 feet. City standards require 22 feet of pavement with a 50 foot right-of-way. The applicant is requesting a modification of the right-of-way standard (20, 15 and 10 foot modifications). No sidewalk us proposed as the development will not generate the vehicular traffic to warrant a sidewalk per city standards.

Street trees and significant tree save area are shown. Open space exceeding the required 20% (63.5%) is proposed.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposal has been reviewed by the City of Asheville Technical Review Committee and meets, or can meet all applicable regulations with the exception of the right-of-way and the size of Lot #1. Staff is supportive of these modifications as they result from existing conditions on the property and an effort to assist an adjoining property owner.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   The use is compatible with the significant challenges presented on site due to a stream/floodplain. The proposed development leaves this sensitive portion of the property primarily as open space and tree save area.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The proposed use should not injure the value of adjoining properties. It abuts a single-family community and a shopping center.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   All but two of the RS4 properties in the immediate area are less than 10,000 square feet in size (the RS4 standard). Most of these lots are 5,000 to 7,000 square feet in size. The developer plans to build traditional single-family homes on the lots which is in keeping with the adjacent community.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
   This project supports several goals found in the City's comprehensive plan including goals concerning infill development and affordable housing. The area where this development is proposed was specifically encouraged as an infill possibility in the Shiloh Community Plan adopted in 2010.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   The proposed subdivision in located in an established community and will have all appropriate facilities provided. Additionally, it is located in close proximity to a community center.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
   There are only ten single family home lots proposed in the development.

Pros:

- The development provides ten new affordable single-family home lots.
- The development meets City goals concerning infill and the provision of affordable housing.
- The development abuts an established community of single-family homes.

Con:

- None noted.

The Asheville Planning and Zoning Commission held a meeting on this matter on November 6, 2013. Besides the applicant, there was only one other individual who spoke. It was the son of a neighborhood resident who had some basic questions. The applicant was able to address their issues and provided contact information for future reference. The Commission recommended this matter to the Asheville City Council unanimously (7-0).

Based on the above finding and the analysis provided in the report, staff finds this request to be reasonable and recommends approval of the conditional zoning request with the modifications to lot size and right-of-way width and with the conditions set forth in the TRC report and the standard conditions listed below.

The Asheville Planning and Zoning Commission voted to recommend this conditional zoning to the Asheville City Council at a meeting on November 6, 2013, with a vote of 7-0.

Mayor Manheimer opened the public hearing at 6:36 p.m.

Mr. Will Buie, with Lapsley & Associates Engineering, explained the compatibility with the neighborhood and felt that this is serving a need in the community.

Mayor Manheimer closed the public hearing at 6:37 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4258 to conditionally zone 2.12 acres located on Taft Avenue from RS-4 Residential Single-Family Medium Density District to RS-8 Residential Single-Family High Density District/Conditional Zoning, with a lot size modification for Lot #1 of 382 square feet and a right-of-way modification ranging from ten to twenty feet in size, and subject to the conditions recommended by staff and all standard conditions as follows: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 28 - PAGE 400

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 13-264 - RESOLUTION ACCEPTING THE REPETITIVE LOSS AREAS ANALYSIS REPORT AS A COMPANION DOCUMENT TO THE BUNCOMBE COUNTY ALL HAZARDS MITIGATION PLAN

Director of Development Services Shannon Tuch said that this is the consideration of a resolution accepting the report prepared by Brown and Caldwell for the Repetitive Loss Area

Analysis (RLAA) for the City of Asheville as a companion document to the previously approved Buncombe County All Hazards Mitigation Plan.

The City of Asheville has prepared an application to join the Community Rating System (CRS) program administered by the Insurance Services Office (ISO). Through the application process, points are assigned for actions that are above and beyond the requirements of the National Flood Insurance Program administered by FEMA. A successful application with a high score will provide lower insurance premiums under the National Flood Insurance Program (NFIP). The premium reduction is relative to the final score of the application where higher scores result in greater reductions. In addition to reducing insurance premiums for Asheville's citizens, another benefit of the program is the education offered to the property owners for those properties located in a Repetitive Loss Areas. A Repetitive Loss Area (RLA) is defined as an area that contains one or more repetitive loss structures (two or more claims of more than $1,000 that have been paid by the NFIP within any 10-year period since 1978). An RLAA is a mitigation plan developed for those areas with the purpose of reducing damages from flooding and lowering the cost of claims submitted to the NFIP. The ultimate goal of lowering these costs is to stem the consistent increase in flood insurance premiums that has been occurring for a number of decades.

In order to become a member of the CRS program, the City must adopt a RLAA commonly included in a hazard mitigation plan. However, a preliminary review of the city's application by ISO representatives indicated that the previously adopted Buncombe County All Hazards Mitigation Plan did not have an adequate RLAA included. As a result, in order to meet the eligibility requirements for the CRS program, a separate RLAA had to be performed.

The current cost of the engineering report is $30,500 which is being funded through the stormwater utility fund. The ongoing cost associated with this program will be staff time.

City staff recommends City Council adopt a resolution to accept the Repetitive Loss Area Analysis report prepared by Brown and Caldwell and reviewed by City staff.

Mr. Hal Clarkson, representing Brown and Caldwell, explained the community rating system - repetitive loss area analysis. After their analysis, they found 18 valid repetitive loss properties in 6 repetitive loss areas - Biltmore Village, Sweeten Creek, Swannanoa River Road, east Asheville, Lyman Street and Carrier Park. The analysis process (1) generated repetitive loss area maps; (2) performed general area site visits; and (3) generated fact sheets on approximately 9 structures. Specific recommendations for owners include (1) wet flood proofing; (2) dry flood proofing; and (3) compliance ore removal of structures that are not in compliance with applicable building permits. Specific recommendations for the City are (1) continued public outreach by meeting with property owners to raise awareness and answer questions; (2) enforce building codes; and (3) flood awareness/flood warning - consider the feasibility of implementation of a flood warning system. Moving forward he said the City should (1) advise and educate repetitive loss area owners; track progress; and report and adjust.

When Councilman Davis asked how many of the 90 buildings are derelict and should be demolished, Mr. Clarkson said that there are about 18-20 that would not be suitable for either wet or dry flood proofing. The City should contact them now and provide their options to them.

Mr. Clarkson responded to Vice-Mayor Hunt when he asked if they had any sense of the frequency of floods.

Councilwoman Wisler asked if an individual property owner chooses not to do anything, would that affect the other property owners. Mr. Clarkson said that might indirectly affect adjoining property values if those owners know there is an adjoining building that continually floods.

In response to Councilman Bothwell, Mr. Clarkson said that anyone who pays a flood insurance premium will see a decrease in their flood insurance premiums.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Wisler moved for the adoption of Resolution No. 13-264. This motion was seconded by Councilman Bothwell and, after hearing no public comment, carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 33

B. MOTION ESTABLISHING THE CITY COUNCIL GOVERNANCE COMMITTEE AND DISSOLVING THE PERSONNEL COMMITTEE, RULES COMMITTEE, AND THE RETREAT COMMITTEE

Mayor Manheimer said that recognizing the need to explore implications of policy alternatives and the policy development process in the areas of strategic planning, intergovernmental relationships, legislative agendas, and public engagement. She proposed a new standing committee called the Governance Committee.

The following committees would roll into the function of the Governance Committee:

- Rules Committee: Set up to discuss and advise the full City Council on proposed changes to City Council's Rules of Procedures. Members include the Mayor and Vice Mayor. The Committee meets on an as needed basis.

- Personnel Committee: Set up in 2008 by Council motion to provide leadership and guidance for the city council on matters related to personnel issues. The Personnel committee is responsible for leading the annual review of the City Manager, City Clerk and City Attorney. The Personnel Committee is also responsible for leading the process for filling these positions when they become vacant. The Personnel Committee does not have direct decision making authority, serving in an advisory capacity to City Council. 4 members, including a chair, appointed by Council. Committee meets on an as needed basis.

- Retreat Committee: Advises the full City Council on planning for the Annual Council Retreat.

The Governance Committee will operate as a policy review and discussion arm of the City Council. The Committee will provide an opportunity to explore implications of policy alternatives and the policy development process while serving in an advisory capacity to Council as a whole. The Governance Committee will review policy matters referred to them, inform and educate Council on the existing city programs and issues and review other related matters.

The Governance Committee will provide guidance in the following areas:

- City Council Rules of Procedure
- Personnel Issues
- City Council Retreat Planning
- Legislative Agenda
- Strategic Planning
- Public Engagement

Councilman Bothwell moved to establish the City Council Governance Committee and dissolve the Personnel Committee, Rules Committee, and Retreat Committee. This motion was seconded by Councilman Davis.

Councilwoman Wisler asked for a friendly amendment that the functions of the Governance Committee be revisited in six months. Councilman Bothwell and Councilman Davis accepted the friendly amendment.

The amended motion, after hearing no public comment, carried unanimously.

Councilman Bothwell moved to appoint Mayor Manheimer (as Chair), Vice-Mayor Hunt and Councilman Smith to serve as members on the City Council Governance Committee. This motion was seconded by Councilman Pelly and carried unanimously.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

PRIMARY ELECTION RESULTS – CITY OF ASHEVILLE – OCTOBER, 8, 2013; GENERAL ELECTION RESULTS – CITY OF ASHEVILLE – NOVEMBER 5, 2013

Attached hereto as Exhibit "A" is the abstract containing the number of legal votes in the Primary Election, City of Asheville, held on October 8, 2013. Also attached as Exhibit "B" is the abstract containing the number of legal votes cast in the General Election, City of Asheville, held on November 5, 2013.

Rev. Christopher Chiaronmonte spoke to Council about treating all people equally and showing no favoritism.

Ms. Kim Martin-Engel, representing the Economy, Assets, Safety and Teamwork (EAST) group, said that the mission of their group is to identify and beautify east Asheville, noting that safety has become a priority. They requested a Tunnel Road Corridor Study that better balances the needs of both drivers and pedestrians; and creates a shared vision of how we want this critical roadway to evolve. In February of 2013 they contacted the Transportation Department to address their safety concerns but no follow-up has occurred. The Tunnel Road Corridor Study concept was approved by Council in February of 2012; however, due to staff reorganization by the City they have no City representative to work with them. In May of 2012 they received a draft of the Corridor Study but nothing has been done towards this effort. She asked for the City to move this project to the top of their priority list and address their safety issues.

After a short discussion, it was the consensus of Council to refer this matter to the Planning & Economic Development Commission to have a full discussion on steps to move forward with a Corridor Study.

Recess

At 7:14 p.m. Vice-Mayor Hunt moved to recess the Tuesday, December 10, 2013, meeting of the Asheville City Council until Tuesday, December 17, 2013, at 3:30 p.m. in the Council Chamber, located on the 2nd Floor of City Hall. At that time, it is anticipated that City Council will immediately go into closed session. This motion was seconded by Councilwoman Wisler and carried unanimously.

156

Tuesday – December 17, 2013 - 3:30 p.m.

Recessed Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Christopher A. Pelly; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Legal Counsel Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Jan B. Davis (ill) and Councilman Gordon D. Smith (family emergency)

At 3:30 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) to consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Pelly and carried unanimously.

At 4:59 p.m. Mayor Manheimer moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 4:59 p.m.

Magdalen Burleson
CITY CLERK

Esther Manheimer
MAYOR

MUNICIPAL ELECTION
October 8th, 2013
ABSTRACT OF VOTES
FOR
STATE OF NORTH CAROLINA

INSTRUCTIONS

THREE COPIES are to be made. One copy is to be signed by the County Board of Elections and delivered by them, when the canvass is concluded, to the City Clerk (GS 163-300). One copy is to be retained by the County Board of Elections. One copy is to be mailed on canvass day to the Chairman of the State Board of Elections, Raleigh, North Carolina (GS 163-182.6).

STATE OF NORTH CAROLINA
COUNTY OF BUNCOMBE

The County Board of Elections for said county, having opened, canvassed, and judicially determined the original returns of the election in the precincts in this county, held as above stated, do hereby certify that the above is a true abstract thereof, and contains the number of legal ballots cast in each precinct for each office or referendum named, the name of each person or choice voted for, their party affiliation (where applicable), and the number of votes cast for each person or choice for the item named.

This is the 15th day of October 2013

This day personally appeared before me, John D Watson III
Chairman of the County Board of Elections, who being duly sworn, says the abstract of votes herein contained is true and correct, according to the returns made to said Board.

Tuesday – January 14, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. EMPLOYEE RECOGNITIONS

City Manager Manager recognized (1) from the Women's Pipe Tapping Team Michelle Smith, Brenna Cook, Virginia Pardo, and Myrriah Ringgenberg; (2) Timothy Burdine Jr. as the Water Distribution Operator of the Year Award and the Operators Meritorious Service Award; (3) Barb Mee, Sgt Scott Pruett, Officer Jon Derrick, Scott Barnwell, Alan Glines and Marsha Stickford for their work on the Asheville Silver Walk Friendly Community Award; (4) Mark Case, Joe Chennault, Abigail Riley, Jay Eichhorn, Susannah Carver, Alec Arthur, Alisha Carrol, Eric Evans, Heather Rhinehart, Steve Bothelo, Jamie Fortner, Gary Sanders, Sheila Salyer, Garrett Gates, Misty Lipe, Jim Hayes, Amy Tesner, Anne Graham. Diane Meek, Chris Rossi, Kim Levi, Jerry Reese, Ron Evans, Gary Stamey, Scott Metcalf, and Mark Matheny for their work on achieving the ISO Building Code Effectiveness Grading Classification 2; (5) ACEC Excellence in Engineering - RADTIP Design Project - Dan Baechtold, Stephanie Monson-Dahl, Ken Putnam, and Cathy Ball; (6) ACEC Excellence in Engineering - Cherokee Retaining Wall - Greg Shuler, John Gavin, Brian Estes, Lee Morrison and Stacy Merten; (7) Asheville Police Department employees for their response to a discharged weapon on Max Street; and (8) Asheville Fire Department, Asheville Police Department, Water Resources Department, and Public Works Department for their assistance with the gas line rupture beneath Sand Hill Road.

On behalf of City Council, Mayor Manheimer thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

II. CONSENT AGENDA:

At the request of City Manager Jackson, Consent Agenda Item "H" was removed from the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE ORGANIZATION MEETING AND FORMAL MEETING HELD ON DECEMBER, 10, 2013

B. RESOLUTION NO. 14-1 - RESOLUTION ACCEPTING A 6,000 GALLON ABOVE GROUND FUEL STORAGE TANK AS A GIFT FROM THE NATIONAL GUARD ARMORY IN SYLVA, N.C.

ORDINANCE NO. 4259 - BUDGET AMENDMENT IN ORDER TO RELOCATE THE TANK AND GET IT READY FOR USE

Summary: The consideration of a resolution to accept a 6,000 gallon above ground fuel storage tank as a gift from the National Guard Armory in Sylva, N.C.; and an associated budget amendment in the amount of $75,000 from general capital reserves to setup a budget in the Transit Services Fund in order to relocate the tank and get it ready for use.

The National Guard Armory in Sylva, North Carolina, has a used 6,000 gallon above ground fuel storage tank that is no longer needed and through the efforts of Mr. Jerry VeHaun, who is the Director of Emergency Services for Buncombe County, it is being offered to the City of Asheville as a gift. City staff is requesting that the gift be accepted with gratitude to Mr. VeHaun and the National Guard Armory in Sylva.

With the arrival of the new transit buses, an unintended consequence has occurred. The buses have smaller fuel tanks and as a result, they have to be refueled more often especially the buses that are used for both the daytime and nighttime shifts. The normal refueling time is between 6:00 pm and 9:00 pm. It is critical to be able to "top-off" the buses that come in after 9:00 pm so that they will be ready for the next day.

Public Works, Fleet Management, and First Transit staff went to Sylva to look at the tank and they verified that it is in excellent condition. Our challenge is to get it moved and setup at the transit garage complex since the tank weighs 59,000 pounds empty. The estimated cost to accomplish the work including the fuelmaster card reader system is about $75,000 (the estimated cost includes 13% for contingencies).

In addition to resolving a refueling need for the transit buses, the tank would be available for use by other departments especially during emergency times or when the primary fueling station is closed for maintenance activities. The City of Asheville has a fuel conservation plan that recognizes the need for a fuel supply in order to conduct city business as a progressive service delivery organization. The fuel conservation plan is grounded on the need to practice responsible conservation whenever possible. The plan applies to all city departments and it implements measures in three stages (levels) dictated by the availability of fuel in the community. Under Level 1, the City is uncertain about fuel supply sources and is generally operating with less than 15 days of fuel storage. Under Level 2, the City does not anticipate fuel deliveries in the immediate future and is generally operating with less than 10 days of fuel storage. Under Level 3, the fuel supply is very limited and the City is generally operating with less than 5 days of fuel storage. The tank would increase the City's fuel storage capacity thereby enabling the City to gain an additional 5 to 7 days of independent emergency operation during fuel conservation directives.

The total estimated project cost is $75,000 which includes 13% for contingencies. The project will be paid for out of the Transit Services Fund, but funding for the project will come from general capital reserves. As reported in the 1st Quarter Financial Report, there is currently $130,000 available in unspent general capital reserves. After this $75,000 appropriation, there will be a remaining balance of $55,000.

City staff recommends that City Council approve a resolution to accept a 6,000 gallon above ground fuel storage tank as a gift and approve an associated budget amendment in the amount of $75,000 from general capital reserves to setup a budget in the Transit Services Fund in order to relocate the tank and get it ready for use.

In response to Councilman Bothwell, Interim Public Works Director Ken Putnam said that the net savings to the City is approximately $27,000 compared to the cost of a new tank.

C. RESOLUTION NO. 14-2 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SPECIAL MAINTENANCE AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO ALLOW PUBLIC PARKING UNDER A SECTION OF BRIDGE # 322 AND # 323 IN THE RIVER ARTS DISTRICT

Summary: The consideration of a resolution authorizing the City Manager to execute a special maintenance agreement between the N.C. Dept. of Transportation and the City of Asheville to allow public parking under a section of bridge # 322 and # 323 in the River Arts District.

Bridge # 322 and # 323 are known as the Capt. Jeffrey Bowen Bridges and they provide access for I-26, I-240, US 19-23, and US 74-A across the French Broad River. In addition, the bridges provide a critical connection between downtown Asheville and West Asheville. As a part of the infrastructure improvements for the New Belgium project, a low impact development (LID) surface parking area will be constructed that will accommodate about 68 parking spaces. This parking area, which will be located adjacent to the French Broad River and a greenway trailhead, will enable citizens to park their vehicles and enjoy the scenery.

The City and the N.C. Dept. of Transportation have similar agreements at other locations including the public parking under the I-240 bridge adjacent to North Lexington Avenue, the public parking under the US 25 (McDowell Street) bridge adjacent to SR 3556 (Meadow Road), the public parking under the SR 3548 (Haywood Road) bridge adjacent to Riverside Drive, and the public parking adjacent to Cherry Street.

The parking area will be constructed as a part of the infra-structure improvements for the New Belgium project at an estimated cost of $260,000. Staff anticipates bringing a construction contract and budget amendment to fund construction to Council for approval in early 2014.

Staff recommends that City Council approve a resolution authorizing the City Manager to execute a special maintenance agreement between the N.C. Dept. of Transportation and the City of Asheville to allow public parking under a section of bridge # 322 and # 323 in the River Arts District.

RESOLUTION BOOK NO. 36 - PAGE 40

D. RESOLUTION NO. 14-3 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE ALL NECESSARY DOCUMENTS TO PERFORM THE FEE SIMPLE ACQUISITION OF REAL PROPERTY FOR THE PURPOSE OF INSTALLING SIDEWALK ALONG AZALEA ROAD AND NC 81 AS PART OF THE LAKE CRAIG/AZALEA ROAD PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute all necessary documents to perform the fee simple acquisition of a portion of real property located along NC 81 and a portion of real property located at the intersection of NC 81 and Azalea Road, for the purposes of installing sidewalk along Azalea Road and NC 81 as part of the Lake Craig/Azalea Road Project.

The Lake Craig/Azalea Road Improvement Project has the opportunity to provide improved access to the Azalea Park along Azalea Road, to provide a much needed water connection to the John B. Lewis Soccer Complex and to provide additional flood protection to Biltmore Village. A majority of the work will be performed within the existing right-of-way owned by the city. The remaining work will require the acquisition of the two private properties to include but not limited to: easements for sidewalks and roadway improvements. Staff has been in contact with the property owners impacted by the improvements, and anticipates the total cost for both easements to be approximately $10,500. This pricing is consistent with the tax-appraised value of the impacted areas. To streamline the process, staff is requesting that City Council

authorize the City Manager to negotiate the final cost associated with this fee simple acquisition and to accept all legal interest in real property associated with this project.

The City's staff will be responsible for obtaining all legal interest in real property associated with this project. Modest costs for the value of the fee simple easement, deed recording fees, surveys, etc. have been budgeted within the existing project budget for the Lake Craig/Azalea Road Improvements Project.

City staff recommends that City Council adopt the resolution authorizing the City Manager to negotiate the final cost associated with this fee simple acquisition of an 0.013 acre portion of property on NC 81 (portion of PIN # 9668-15-1194) and an 0.051 acre portion of property located at the intersection of NC 81 and Azalea Road (portion of PIN #9668-15-2008), and to accept all legal interest in real property associated with this project.

RESOLUTION BOOK NO. 36 - PAGE 41

E. RESOLUTION NO. 14-4 - RESOLUTION ADOPTING THE 2012 LOCAL WATER SUPPLY PLAN

Summary: The consideration of a resolution adopting the 2012 Local Water Supply Plan as required by N.C. Dept. of Environment & Natural Resources.

Every year, the Water Resources Department is required to complete a Local Water Supply Plan (LWSP) update. On November 20, 2013, the N.C. Dept. of Environment and Natural Resources (NCDENR) issued a letter stating that the department's 2012 LWSP is complete and must be adopted by the water system's governing board. The LWSP contains a variety of information about the City of Asheville's water system, including:

- The distribution system (i.e. types/sizes of water lines);
- Water conservation programs;
- Water use (i.e. number of metered connections and average use by customer type);
- Water sales to wholesale customers;
- Monthly withdrawals from reservoirs;
- Surface water sources (i.e. locations and average monthly withdrawals);
- Wastewater discharge by the Metropolitan Sewerage District (MSD);
- Present and projected population;
- Present and future water supplies; and
- Other relevant information as NCDENR may require.

In order for the 2012 LWSP to be compliant with N.C.G.S. §143-355(l), City Council must formally adopt the plan. Once the City Council adopts the 2012 LWSP NC DENR will change the status of the report from "Provisional" to "Compliant".

City staff recommends City Council adopt the 2012 Local Water Supply Plan.

RESOLUTION BOOK NO. 36 - PAGE 42

F. RESOLUTION NO. 14-5 - RESOLUTION AMENDING THE 2014 CITY COUNCIL MEETING SCHEDULE TO ADD THE CITY COUNCIL ANNUAL RETREAT ON FEBRUARY 7-8, 2014, BEGINNING AT 9:00 A.M. AT THE U.S. CELLULAR CENTER

RESOLUTION BOOK NO. 36 - PAGE 43

G. RESOLUTION NO. 14-6 - RESOLUTION ACCEPTING A U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT CONTINUUM OF CARE PLANNING GRANT

ORDINANCE NO. 4260 - BUDGET AMENDMENT FOR A CONTINUUM OF CARE PLANNING GRANT

Summary: The consideration of a resolution to accept HUD 2012 Continuum of Care Grant Planning funds to provide staff support for the Homeless Initiative; and the associated budget amendment in the amount of $13,180.

The City of Asheville is the Collaborative Applicant for the Asheville-Buncombe Continuum of Care (NC-501 as designated by HUD). In this past year's Continuum of Care Grant Competition, Collaborative Applicants were eligible to apply for Planning Project funds to assist with staff support. Funding recommendations were made by the Homeless Initiative Advisory Committee for each project application, including the City's application. These recommendations followed a process that included review and preliminary selection by a funding Subcommittee of the Advisory Committee, and endorsement of those recommendations by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee. The City submitted a timely application to the Department of Housing and Urban Development, Special Needs Assistance Projects office for Planning Project funds in the FY2012 Continuum of Care Competition. We have been informed that our application has been approved, for $13,180.

These funds will be used to support the part-time Continuum of Care Coordinator position, within the Community Development Division. The position supports Asheville and Buncombe County agencies providing services to the homeless, ensuring that the HUD-required databases are accurately maintained; that funding flowing through the City to those agencies is distributed on a timely basis; and supporting the Homeless Initiative Coordinator in other administrative tasks.

Program funding is entirely from the US Department of Housing and Urban Development. Existing community development division staff will administer the program. No general funds are requested to support this program.

Staff recommends that Council approve the resolution and budget amendment in the amount of $13,180 authorizing the City to accept HUD Continuum of Care funding, and to provide those funds to the Community Development Division to support the Homeless Initiative staff, approved by the Department of Housing and Urban Development, Special Needs Assistance Projects office.

RESOLUTION BOOK NO. 36 - PAGE 44
ORDINANCE NO. 28 - PAGE 406

H. RESOLUTION DELEGATING THE CITY MANAGER TO EXEMPT (IN WRITING) PROJECTS FROM THE FORMAL BIDDING PROCESS WHEN THE ESTIMATE FOR THE PROFESSIONAL SERVICES ARE LESS THAN $50,000 IN ACCORDANCE WITH N.C. GEN. STAT. SEC. 143-64.32

This item was removed from consideration.

I. ORDINANCE NO. 4261 - BUDGET AMENDMENT IN EACH OF THE CITY'S ANNUAL OPERATING FUNDS TO APPROPRIATE FROM RESERVED FUND BALANCE THE REQUIRED BUDGET AUTHORIZATION FOR PRIOR YEAR CONTRACTS, PURCHASE ORDERS, AND OTHER CARRY-OVER APPROPRIATIONS THAT ROLLED FORWARD TO FISCAL YEAR 2013-14

Summary: The consideration of a technical budget amendment in each of the City's annual operating funds to appropriate from reserved fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2013-14.

As part of its ongoing operations, the City enters into various contracts and purchase order agreements throughout the fiscal year. When these contracts and purchase orders are entered into, budget funds are encumbered for the full amount of the expected purchase. Often these contract and purchase orders are not fully completed and paid in one fiscal year. North Carolina General Statutes provide authorization for local governments to reserve the unexpended portion of these prior year commitments and roll those budgets forward to the new fiscal year.

As a part of the FY 2012-13 annual audit, staff identified prior year commitments and carry-over appropriations to roll forward to FY 2013-14, and these dollar amounts were deducted from the unassigned fund balance amounts that were reported in the Comprehensive Annual Financial Report. The technical budget amendment will provide authorization to officially appropriate these amounts in the FY 2013-14 budget for each of the City's annual operating funds.

As noted above this budget amendment simply provides budget authorization for prior year commitments which have already been reserved in the City's FY 2012-13 financial statements. There is no impact on available fund balance in the City's operating funds.

City staff recommends City Council approve the technical budget amendment in each of the City's annual operating funds to appropriate from reserved fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2013-14.

ORDINANCE BOOK NO. 28 - PAGE 408

J. ORDINANCE NO. 4262 - BUDGET AMENDMENT FOR THE TERRAZZO FLOOR ARTWORK AT THE U.S. CELLULAR CENTER

Summary: The consideration of a budget amendment in the amount of $16,800 to transfer funding from the public art maintenance project to the public art acquisition project for the cost to develop the terrazzo floor artwork in the US Cellular Center.

In October 2013, the terrazzo floor artwork in the US Cellular Center was completed as part of the center renovations. Total cost for artwork floor was $16,800 for project proposal, design and fabrication. The project was funded by the budget for the Public Art Program, which the City maintains in two separate projects in its financial system, one for maintenance of existing artwork and one for art acquisition. In order to fund the terrazzo floor artwork planned for FY 2013-14, staff is requesting Council approve a technical budget amendment moving $16,800 from the public art maintenance project to the public art acquisition project

The technical budget amendment is a one-time reallocation of previously approved public art funding from maintenance to acquisition.

Staff recommends City Council approve the technical budget amendment authorizing the City Manager to transfer budget in the amount of $16,800 from the public art maintenance project to the public art acquisition project for the cost to develop the terrazzo floor artwork in the US Cellular Center.

ORDINANCE BOOK NO. 28 - PAGE 410

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. PRESENTATION OF THE EXTERNAL AUDIT OF THE FISCAL YEAR 2013 COMPREHENSIVE ANNUAL FINANCIAL REPORT

Ms. Barbara Whitehorn, Director of Finance and Management Services, said that this is the consideration of a motion to accept the FY 2013 Comprehensive Annual Financial Report (CAFR).

Mr. Collin Hill, CPA, Audit Partner with Cherry Bekaert LLP, delivered the City's Comprehensive Annual Financial Report (CAFR) and provided City Council with a review of the audit. He reviewed the different audit areas of focus.

Their result on financial statements resulted in (1) their opinion was unmodified; (2) there are no significant deficiencies or material weaknesses noted in internal control; and (2) no instances of noncompliance noted in statutory compliance.

The results on the OMB A-133 Audit resulted in (1) their opinion was unmodified; (2) there were no significant deficiencies or material weaknesses noted in internal control; and (3) regarding statutory compliance, there are three instances of nonmaterial noncompliance: (1) one related to Davis-Bacon Act, questions costs below required reported amount; (2) one related to Allowable Cost/Cost Principles, questioned costs determined to be immaterial; and (3) one related to Subrecipient Monitoring, questioned costs not applicable.

The results of state single audit resulted in (1) their opinion was unmodified; (2) there are no significant deficiencies or material weaknesses noted in internal control; and (2) no instances of noncompliance noted in statutory compliance.

When Councilwoman Wisler asked about the information technology recommendations noted in the audit, Mr. Hill stated that they only noted those because they are best practices and that in an ideal world all of those would be implemented. City Manager Jackson said that he would provide City Council with a written response.

In response to Vice-Mayor Hunt, Ms. Whitehorn said that the City has a policy of maintain a 15% General Fund Fund Balance. In 2012, the City ended with a 15.9% Fund Balance and in 2013, the City ended with a 17.6% Fund Balance. She was glad that the City is beginning to see economic recovery.

Vice-Mayor Hunt moved to accept the 2014 Comprehensive Annual Financial Report. This motion was seconded by Councilman Smith and carried unanimously.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO PERMANENTLY CLOSE THE EXCESSIVE SUMMIT AVENUE RIGHT-OF-WAY AND AN UNOPENED RIGHT-OF-WAY BETWEEN SUMMIT AND ALLEN AVENUES

RESOLUTION NO. 14-8 - RESOLUTION PERMANENTLY CLOSING THE EXCESSIVE SUMMIT AVENUE RIGHT-OF-WAY AND AN UNOPENED RIGHT-OF-WAY BETWEEN SUMMIT AND ALLEN AVENUES

Interim Public Works Director Ken Putnam said that this is the consideration of a resolution to permanent close the Summit Avenue right-of-way. This public hearing was advertised on December 20, 2013; December 27, 2013; January 3, 2014; and January 10, 2014.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, the adjoining property owners have requested the City of Asheville to permanently close a portion of the excess right-of-way adjacent to Summit Avenue and an unopened right-of-way between Summit and Allen Avenues.

City staff has reviewed the request and concur that the right-of-way closings will not have a negative impact on City services or active City transportations systems. The developer will maintain a minimum of 50 feet to remain open as right-of-way for Summit Avenue.

The Multimodal Transportation Commission met on December 4, 2013, and voted to unanimously support the right-of-way closures on condition that the developer consider providing multimodal improvements as part of the improvements of the development project.

Mr. Putnam noted that the resolution will be amended to include the Multimodal Transportation Commission's condition that the developer consider providing multimodal improvements as part of the improvements of the development project.

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use. The Strategic Plan Goals most closely aligned with this closure request is the Job Growth and Community Development Goal in that it will provide infill growth to make efficient use of existing resources.

City staff recommends City Council adopt the resolution to permanently close portions of excessive Summit Avenue right of way and an unopened right-of-way between Summit and Allen Avenues.

Mayor Manheimer noted that the property description will be amended to include a metes and bounds description.

Mayor Manheimer opened the public hearing at 5:40 p.m. and when no one spoke, she closed the public hearing at 5:40 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-8, including the condition by the Multimodal Transportation Commission and the revised property description. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 26– PAGE 46

B. PUBLIC HEARING TO CONSIDER A SUBSTANTIAL AMENDMENT TO THE 2011-12 CONSOLIDATED ANNUAL ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME FUNDS TO ALLOW THE ASHEVILLE HOUSING AUTHORITY TO REPURPOSE CDBG FUNDS

RESOLUTION NO. 14-9 - RESOLUTION TO SUBSTANTIALLY AMENDED THE 2011-12 CONSOLIDATED ANNUAL ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME FUNDS TO ALLOW THE ASHEVILLE HOUSING AUTHORITY TO REPURPOSE CDBG FUNDS

Director of Community Development Jeff Staudinger said that this is the consideration of a resolution to substantially amended the 2011-2012 Consolidated Annual Action Plan for Community Development Block Grant (CDBG) and HOME funds to allow the Asheville Housing Authority to repurpose CDBG Funds. This public hearing was advertised on January 3 and 10, 2014.

In 2011, the Housing Authority requested and was awarded $40,037 in CDBG funds to support resident engagement, education and participation in a possible HOPE VI or Choice Neighborhoods redevelopment process for Lee Walker Heights. Although the Housing Authority is still investigating long-term options for Lee Walker Heights, their efforts (in partnership with the City of Asheville) to obtain Choice Neighborhood funding from HUD were unsuccessful. However, the Housing Authority's application to HUD in support of the creation of a green jobs training center at the Reid Center was successful.

In support of that project, the Housing Authority is requesting that the funds originally programmed for Lee Walker Heights instead be made available for infrastructure including high speed Internet connectivity at the W.C. Reid Center, or if that can be funded through donation or other grants, for other improvements to the Center. The specific use can be determined at the time of the development of the grant contract.

The Housing Authority estimates that 275 persons will benefit from the training activities supported by the facility.

The Housing and Community Development Committee considered this request in November of 2013, and supports this request.

The proposed use of funds would grant federal funds already allocated to the City. No City general funds are affected.

Staff recommends City Council amend the 2011-2012 Annual Action Plan to repurpose $40,037 allocated to the Asheville Housing Authority to support infrastructure development at the Reid Center.

Mayor Manheimer opened the public hearing at 5:43 p.m. and when no one spoke, she closed the public hearing at 5:43 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 14-9. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 26– PAGE 48

C. PUBLIC HEARING REGARDING THE RIVER DISTRICT DESIGN REVIEW COMMITTEE'S MERGER WITH THE ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION

ORDINANCE NO. 4263 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES MERGING THE RIVER DISTRICT DESIGN REVIEW COMMITTEE'S FUNCTION AND DUTIES INTO THE ASHEVILLE AREA

RIVERFRONT REDEVELOPMENT COMMISSION

ORDINANCE NO. 4264 - ORDINANCE AMENDING CHAPTER 2 OF THE CODE OF ORDINANCES MERGING THE RIVER DISTRICT DESIGN REVIEW COMMITTEE'S FUNCTION AND DUTIES INTO THE ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION

ORDINANCE NO. 4265 - ORDINANCE DISSOLVING THE RIVER DISTRICT DESIGN REVIEW COMMITTEE

RESOLUTION NO. 14-10 - RESOLUTION ADOPTING A REVISION TO THE RIVER DISTRICT DESIGN GUIDELINES

On December 10, 2013, at the request of City staff, Councilman Davis moved to continue this public hearing until January 14, 2014. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

Urban Planner Stephanie Monson-Dahl said that this is the consideration of (1) an ordinance to dissolve the River District Design Review Committee and reassign the river district design review function to the Asheville Area Riverfront Redevelopment Commission; (2) two ordinances to amend the Asheville City Code to effect this aforementioned change; and (3) a resolution to revise the River District Review Guidelines to include a River District Design Review Area Map which expands the area for performing river district design review beyond the current River District zoned parcels.

The River District Design Review Committee (RDDRC) was formed in November of 1997 to promote Asheville's riverfront as a vital economic development area for Asheville and western North Carolina and to perform design review for major works projects located within the River District zoned areas of the city. It has been staffed by the Office of Economic Development since March 2013.

In 2009 Asheville City Council chartered a new board - The Asheville Area Riverfront Redevelopment Commission (AARRC) that serves a similar, yet expanded purpose of promoting riverfront revitalization through an explicit partnership with Buncombe County, the Town of Woodfin, RiverLink, the Asheville Area Chamber of Commerce, and the Council of Independent Business Owners. The AARRC charter, though modeled after the Downtown Commission (which performs Downtown Design Review), did not include the River District Design Review function. The AARRC has been staffed by the Office of Economic Development since its creation.

On August 28, 2013, the River District Design Review Committee unanimously recommended to the AARRC and City Council that staff pursue changes to the Code of Ordinances that would: dissolve the RDDRC; maintain river district design review as a development review requirement and reassign the function of river district design review/major works review to the AARRC; and realign the geography of the river district design review function so that it no longer is based on River District zoning, but aligns with the geography of the City's redevelopment efforts by using an adopted map area.

The City Council Planning and Economic Development, at their September 17, 2013, meeting, voiced support for staff to work on the RDDRC proposal, and to bring the Code of Ordinance changes forward for Council consideration when appropriate.

The Planning and Zoning Commission, at their November 6, 2013, meeting, voted unanimously to recommend that Council to amend sections 7-3-10 (Decision Making Bodies, River District Design Review Committee) and 7-5-18 (Development Review Procedures, River District Design Review) of the Code of Ordinances; and for Council to revise the river district

review guidelines by adopting a new map that expands the design review area to parcels that are not zoned River District but are located within the riverfront area.

The Asheville Riverfront Redevelopment Commission reviewed this item at their November 2013 meeting and unanimously voted to support Planning and Zoning's recommendation and to recommend that Council amend section 2-185.20 (Asheville Area Riverfront Redevelopment Commission).

City staff recommends City Council (1) adopt an ordinance dissolving the River District Design Review Committee and re-assigning the river district design review function to the Asheville Area Riverfront Redevelopment Commission; (2) to adopt an ordinance amending sections 7-3-10 and 7-5-18 of the City Unified Development Ordinance to effect the change described in (1); (3) adopt an ordinance amending the section 2-185.20 of the Asheville Code of Ordinances to effect the change described in (1); and (4) adopt a resolution to revise the River District Design Guidelines to include a new River District Design Review Area Map that will serve as the basis for performing river district design review.

Mayor Manheimer opened the public hearing at 5:49 p.m. on the amendments to Chapter 7 at 5:50 p.m., and when no one spoke, she closed the public hearing at 5:50 p.m.

Mayor Manheimer said that members of Council have previously received copies of the ordinances and resolution and they would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4263. This motion was seconded by Councilman Davis and carried unanimously.

Mayor Manheimer opened the public hearing at 5:50 p.m. on the dissolution of the River District Design Review Committee at 5:50 p.m., and when no one spoke, she closed the public hearing at 5:50 p.m.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4265. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 424

Mayor Manheimer opened the public hearing at 5:50 p.m. on the revision to the River District Design Guidelines at 5:51 p.m., and when no one spoke, she closed the public hearing at 5:51 p.m.

Councilman Smith moved to adopt Resolution No. 14-10, adopting a revision to the River District Design Guidelines. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 49

Ms. Pattiy Torno, Chair of the Asheville Area Riverfront Redevelopment Commission, spoke in support of the amendments.

On behalf of City Council, Councilman Smith thanked those who served on the River District Design Review Committee over the years.

D. PUBLIC HEARING TO CONSIDER REZONING A PORTION OF PROPERTY FRONTING ROBINHOOD ROAD, BEAVERBROOK ROAD AND BEAVERBROOK COURT FROM RS-2 RESIDENTIAL SINGLE-FAMILY LOW DENSITY DISTRICT TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 4266 - ORDINANCE REZONING A PORTION OF PROPERTY FRONTING ROBINHOOD ROAD, BEAVERBROOK ROAD AND BEAVERBROOK COURT FROM RS-2 RESIDENTIAL SINGLE-FAMILY LOW DENSITY DISTRICT TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone a portion of property fronting Robinhood Road, Beaverbrook Road and Beaverbrook Court from RS-2 Residential Single-Family Low Density District to RS-4 Residential Single-Family Medium Density District. This public hearing was advertised on January 3 and 10, 2014.

Mr. Esselstyn said that the subject property is approximately 13 acres (of which approximately 11 are in the City's jurisdiction) of vacant, wooded land. The parcel overall has an average natural slope of about 42%, with elevations from 2,390 to 2,550 feet above sea level, putting it in the most restrictive category of the UDO's steep slope development regulations. The lot has frontage on Beaverbrook Court, Beaverbrook Road, and Robinhood Road. Several small streams run through the property.

The applicant has requested a standard rezoning from RS-2 (Residential Single-Family Low Density) district to RS-4 (Residential Single-Family Medium Density) district, which is the predominant zoning classification to the south and east of the subject property, in order to achieve marginally higher density.

As mentioned above, a majority of the subject parcel's area is in the City's corporate limits; however, the northern and western tips are in the Town of Woodfin. Other nearby properties to the north and west are either zoned by the Town of Woodfin, or not zoned at all, in the case of former City of Asheville ETJ area at the terminus of Beaverbrook Road.

At their December 4, 2013, meeting, the Planning and Zoning Commission voted unanimously (6-0) to recommend approval of the request. Several citizens spoke in opposition to the rezoning or to voice concerns about stormwater runoff and disturbance of the land.

Along the southern and eastern boundaries of the subject property, most of the adjacent zoning is RS-4, and the adjacent lots are developed with single-family homes on lots averaging roughly 0.8 acres in size. At the northeast corner, there is an area of RS-2 zoning.

To the north and west, there is a large vacant property owned by the same corporation that owns the subject parcel, and a single-family home on a four-acre lot, owned by the president

of said corporation. Part of the single-family house lot is zoned RS-2, but most of the zoning in this area is the Town of Woodfin's "Mountain Village" zoning district. To the southwest, there are seven single-family residential lots (six are developed) that are in unincorporated Buncombe County and are unzoned.

Owing to the steep slope classification mentioned above, the currently allowed residential density is much lower than the two units per acre one might expect in a flatter, lower elevation setting of RS-2 zoning. The regulations limit density to 0.1 units per acre, meaning that the minimum average lot size in a new subdivision would be 10 acres. As such, the applicant can't currently subdivide the 13-acre parcel.

The allowed density in RS-4 zoning at this slope and elevation, by contrast, is 0.2 units per acre, which would allow for a new subdivision with minimum average lot sizes of 5 acres, and in this case, would permit the 13-acre parcel to be divided into two single-family house lots.

It is important to note that the amount of grading allowed would remain substantially unchanged, regardless of the zoning district. Only 15% of the site would be allowed to be graded; in other words, at least 85% of the land area would need to remain undisturbed, whether the property is developed as one lot or two. Further, the steepness of the terrain would require that development applications be accompanied by geotechnical analysis to address the higher risk of slope failure in this setting.

Since the adoption of the revisions to the steep slope ordinance in 2007, staff has not typically been supportive of requests to "up-zone" properties in sensitive steep slope areas, especially those that are "Zone B" and in the steepest slope category. Staff has some concern that such action could be viewed as a precedent inviting other such requests or as a perceived weakening of the City's stance on such environmental protections.

This particular parcel, however, does stand out as unlike many of the other steep slope properties in RS-2 zoning. The majority of its boundary is adjacent to higher-density zoning, and there is established higher-density development on two of the roads on which the parcel has frontage. The rezoning, if it were approved, would still require the applicant to create parcels significantly larger than the existing house lots on two sides. Much of the area to the west and north is in different jurisdictions, where the zoning (or lack thereof) would even allow high-density multifamily development.

Were the zoning change to be approved, a narrow sliver of RS-2 zoning would remain on an adjacent parcel on Robinhood Road (lot 1371), but this split-zoning situation has existed on the neighbor's lot for at least eight years. Were it to become problematic for the property owners, staff feels it would not be difficult to resolve, as the vast majority of that lot is already zoned RS-4.

Staff has been contacted by several neighboring property owners, and several neighboring residents spoke at the Planning and Zoning Commission public hearing in opposition to the proposal. While two phone calls were solely seeking more information, the dominant concern recurring through these communications was disturbance of fragile land and the potential for problematic erosion and increased runoff.

The Asheville City Development Plan 2025 supports special treatment for sensitive areas and steep slopes that should be treated with caution during development, which could be viewed as contrary to the applicant's request. A different perspective, however, would cite the plan's recommendation that "areas within the existing urban fabric that are vacant should be targeted for compatible infill development that takes advantage of existing infrastructure" to support the rezoning as compatible with the higher-density surroundings.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Considerations:

- Rezoning a steeply sloped property to a higher-intensity zoning district is in conflict with past staff actions and Council direction.
- In this particular instance, RS-4 zoning can be viewed as more compatible with the surrounding zoning and development context than the currently assigned zoning district.

Staff is reluctant to support a change to higher-impact zoning in high-elevation areas with over 40% slope. This rezoning, however, would not increase the amount of land disturbance allowed. Since the property in question is flanked by almost twenty parcels developed with single family homes, all but one of which is less than two acres in size, staff feels an argument can be made for allowing two house lots averaging 6.5 acres in size – in the name of compatibility.

In response to Vice-Mayor Hunt, Mr. Esselstyn explained how the proposed rezoning would not increase the amount of land disturbance allowed.

In response to Vice-Mayor Hunt, Stormwater Services Manager McCray Coates said that there is no requirement for stormwater for single-family properties; however, they still have to comply with erosion control measures.

Mayor Manheimer opened the public hearing at 6:01 p.m. and when no one spoke, she closed the public hearing at 6:01 p.m.

In response to Councilman Smith, Mr. Scott Best, attorney representing Sherwood Heights Development Inc., said that they hope to sell the two lots to individual users and what kind of lot configuration will depend on those users. His sense is that there will be a building site on the lower area and then one higher up. He felt the fairest and easiest would divide the 15% based upon the amount of acreage and how the acreage is split. At this time, they can't market and sell the lots because it is one big lot.

Councilman Smith understood the conformity of the surrounding area, but wondered if we leave the property as is are we likely to see less land disturbed in a very sensitive area than to divide it and get closer to the 15% land disturbance. That uncertainty leaves him uncomfortable.

Mr. Best said that if rezoned, this would be two of the largest lots within miles around. He felt it's reasonable to have more than one home on 13 acres. He understood Councilman Smith's concern; however, under the statute, 15% of land disturbance is allowed.

Councilman Pelly felt that the City enacted the steep slope ordinance to protect surrounding properties and given that the developer intends to comply with the standards, he would support the rezoning.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to deny the proposed rezoning due to the steep slope. This motion was seconded by Councilman Smith and failed on a 2-5 vote, with Mayor Manheimer, Vice-Mayor Hunt, Councilman Davis, Councilman Pelly and Councilwoman Wisler voting "no."

Councilman Pelly found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4266. This motion was seconded by Councilman Davis and carried on a 5-2 vote, with Councilman Bothwell and Councilman Smith voting "no".

ORDINANCE BOOK NO. 28 – PAGE 426

E. PUBLIC HEARING TO CONSIDER REZONING PROPERTIES LOCATED ON CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4267 - ORDINANCE REZONING PROPERTIES LOCATED ON CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

Director of Planning & Development Judy Daniel said that this is the consideration of an ordinance rezoning properties on Caledonia Road from Institutional District to RM-16 Residential Multi-Family High Density District. This public hearing was advertised on January 3 and 10, 2014.

On September 10, 2013, staff presented a Council requested zoning analysis of the properties that are the subject of this rezoning proposal (and others in the vicinity). After the presentation the Council voted to direct staff to pursue a rezoning of these properties, and to contact the owner of these properties to request that he consider a rezoning of the adjacent property with the Institutional Conditional Zoning to an RM-16 Conditional Zoning. This report proposes a rezoning from Institutional to RM-16 for the Kenilworth Inn property (PIN:9648722062 / 5.81 acres) and a small adjoining property owned by Caledonia Development LLC (PIN:9648714812 /.61 acre).

As noted in prior reports to Council, the staff believes that Institutional is not appropriate zoning for any of these properties. Regardless of any other considerations, the Institutional Zone allows a wide range of non-residential uses, many of which could be inappropriate at this location due to access and compatibility issues. The Institutional Zone is a relic of a time when the Kenilworth Inn operated as a medical facility. When comprehensive rezoning was implemented in this area in 1980 a zone was chosen to reflect the existing use on the property (a common practice at the time) rather than appropriate zoning for future potential uses taking into consideration the steepness of residual parts of the property. Later, when the structure was renovated and turned from a medical facility into apartments no rezoning was required as multi-family housing is a use allowed in the Institutional zone. Further, there does not seem to have been any thought at that time that the remaining properties (primarily steep wooded slopes) owned by Caledonia LLC might later be proposed for additional development.

The proposed change to the RM-16 district for the Kenilworth Inn Apartments and the small (.61 acre) property adjoining it that fronts on Caledonia Road) would retain the existing residential density potential, so the Kenilworth Inn would remain a conforming use, but would eliminate the potential for a range of nonresidential uses allowed in the Institutional zone that the staff believes could be problematic at this location. Any reduced density zone for the Kenilworth Inn property would render the property non-compliant for density, so that was not considered.

It should be noted that the small (.61 acre) property just to the south of the Kenilworth Inn property, does have some limited development potential; as the Inn property is large enough to support the 16 dwelling units per acre density alone. Although, the 2010 subdivision plat creating this separate property has a note indicating intent to recombine it with the larger Kenilworth Inn property.

As of this writing, staff has received no communications from the property owner or the public regarding the proposed rezoning.

The Planning Commission considered this application at their November 6 meeting. There were a number of speakers and public testimony was primarily in support of the action. The attorney for the owner of Caledonia Development, LLC expressed opposition. After a brief

discussion the Commission voted 5-2 (Commissioners Cannady and Goldstein voting no) in support of the proposal.

Pros:

- The change is suitable for the subject area and consistent with other adjacent and nearby land uses.
- The change meets a smart-growth goal of the comprehensive plan better than the current zoning.

Con:

- The zoning change was not requested by the property owner.

Staff's analysis indicates that the proposed zoning district would support appropriate development, and prevent incompatible development better than the existing zoning, and, accordingly, staff finds the proposal to be reasonable and recommends approval.

Mayor Manheimer opened the public hearing at 6:16 p.m.

Ms. Valerie Hoh, resident on Finalee Avenue, was pleased to see this coming to fruitation after 3.5 years. She felt this proposed rezoning is more compatible with the Kenilworth neighborhood, and was pleased that City Council is stopping inappropriate development on the Caledonia Road steep slopes.

Mayor Manheimer closed the public hearing at 6:19 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Wisler found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4267. This motion was seconded by Councilman Pelly and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 429

F. PUBLIC HEARING TO CONSIDER REZONING PROPERTIES LOCATED ON CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4268 - ORDINANCE REZONING PROPERTIES LOCATED ON CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Director of Planning & Development Judy Daniel said that this is the consideration of an ordinance rezoning properties on Caledonia Road from Institutional District to RS-8 Residential Single-Family High Density District. This public hearing was advertised on January 3 and 10, 2014.

On September 10, 2013, staff presented a Council-requested zoning analysis of the properties that are the subject of this rezoning proposal (and others). After the presentation the Council voted to direct staff to pursue a rezoning of these properties. This report is the request for rezoning on five properties from the Institutional zoning district to the RS-8 zoning district.

This proposed rezoning to RS-8 will affect three properties owned by Caledonia Development LLC, the one property owned by Riverlink Inc., and a portion of one property that is

currently split zoned between Institutional and RS-8. All of these properties have substantially steep topography. The 3.24 acre property to the east of the Kenilworth Inn property bifurcated by Caledonia Road (PIN: 9648726180) and the 3.36 acre Riverlink property (PIN: 9658714686) take access from a steep and winding segment of Caledonia Road. The two small recently created lots (PINs: 9648718624, and 9648718648) owned by Caledonia Development LLC (.16 acre each), take access from the lower portion of Caledonia Road, and the proposed zoning replicates recently requested and approved zoning for the other four small lots created along this road segment. All affected property owners have been notified of this pending action and to date staff has received no communications from them regarding the proposed rezoning.

These changes would substantially impact development potential of the larger properties, reducing the potential density by approximately 50%, but would bring the development potential closer to an appropriate level given the location, topography, other limiting site conditions, and current community expectations. The 3.24 acre property has an average slope of 35%, and the 3.36 acre property has an average slope of 44%.

The small lot located in the lower curve of Caledonia Road (PIN 9648727364) is included in this zoning action because it is split between Institutional and RS-8 zoning; and in the context of a general zoning evaluation of this area, staff believes this situation should be resolved. A single family home was built on the property (owned by Arthur Trupp and Nancy Headley) within the past few years, so a rezoning to single family zoning for the portion zoned Institutional (.34 acre) is appropriate. The owners have been notified, and as of the date of this report they have not responded regarding the proposed rezoning.

The Planning Commission considered this application at their November 6, 2013 meeting. There were a number of speakers and public testimony was primarily in support of the action. The attorney for the owner of Caledonia Development, LLC expressed opposition. No comments were received from Riverlink or the owners of the residential property. After a brief discussion the Commission voted 5-2 (Commissioners Cannady and Goldstein voting no) in support of the proposal.

Pros:

- The change is suitable for the subject area and consistent with other adjacent and nearby land uses.
- The change better meets smart-growth goals of the comprehensive plan than the current zoning.

Con:

- The zoning change was not requested by the property owner.

Staff's analysis indicates that the proposed zoning district would support appropriate development on these properties, and prevent incompatible development better than the existing zoning, and, accordingly, staff finds the proposal reasonable and recommends approval.

Mayor Manheimer opened the public hearing at 6:18 p.m.

Ms. Patsy Brison, attorney representing the Kenilworth Residents Association, recommended City Council approve the rezonings based on slope data. She showed (1) a map of the average slope; (2) a slope stability index; (3) a map showing the high and moderate hazard areas; and (4) a map of the debris flow path.

Ms. Teddy Jordon, resident in the Kenilworth area, stated that the neighborhood is not anti-development and previously presented the developer with multiple alternatives for development. She noted there are many compelling reasons why the property should be rezoned from Institutional which ultimately is for the best interest of all Kenilworth residents.

Mayor Manheimer closed the public hearing at 6:22 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4268, to rezone the following properties: PIN 9648726180, PIN 9648714686, PIN 9648718648, PIN 9648718624, and the pertinent .16 acre portion of the .34 acre PIN 9648727364 from Institutional to RS-8 (Residential Single-Family Medium Density). This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 432

G. PUBLIC HEARING TO CONSIDER REZONING PROPERTIES LOCATED ON CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 4269 - ORDINANCE REZONING PROPERTIES LOCATED ON CALEDONIA ROAD FROM INSTITUTIONAL DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

Director of Planning & Development Judy Daniel said that this is the consideration of an ordinance rezoning properties on Caledonia Road from Institutional District to RM-8 Residential Multi-Family Medium Density District. This public hearing was advertised on January 3 and 10, 2014.

She said that September 10, 2013, staff presented a Council requested zoning analysis of the properties that are the subject of this rezoning proposal (and other adjoining properties). After the presentation the Council voted to direct staff to pursue a rezoning of these properties. This report is the request for rezoning on two properties from the Institutional zoning district to the RM-8 zoning district. The staff believes that Institutional is not appropriate zoning for any of these properties. Regardless of any other considerations, the Institutional Zone allows a wide range of non-residential uses, many of which could be inappropriate at this location due to access and compatibility issues.

This proposed rezoning to RS-8 will affect the 1.74 acre residual portion of property owned by Caledonia Apartments LLC (PIN: 9648710317) that was the subject of a subdivision along the Finalee Avenue frontage earlier this year (a 50 unit multi-family development was approved on this property in 2012 but later voided by the creation of the subdivided lots); and the majority (3 acres) of a 3.05 acre property owned by Caledonia Development LLC (PIN 9648713307). This recommendation includes the remaining 1.74 acre portion of the parcel on Finalee property (owned by Caledonia Apartments LLC). A small portion of that property (.05 acre) fronts on Swannanoa River Road and is zoned River, and no change to it is proposed.

The two properties that are the subject of this report are quite steep (both over 40% average slopes) but have the advantage of access directly from a lower segment of Caledonia Road and from Swannanoa River Road. Because of that access these two properties are recommended for the RM-8 zoning (rather than the RS-8 single-family zone). That designation will allow development at a reduced density reflecting the steep slopes of these properties, and would eliminate the potential for problematic non-residential uses allowed in the Institutional zone; while still allowing clustered multi-family development potential. The change would substantially

impact development potential, reducing the potential density by approximately 50%, but it reflects a more realistic development potential given the site constraints.

The Planning Commission considered this application at their November 6, 2013, meeting. There were a number of speakers and public testimony was primarily in support of the action. The attorney for the owner of Caledonia Development, LLC expressed opposition. After a brief discussion the Commission voted 5-2 (Commissioners Cannady and Goldstein voting no) in support of the proposal.

Pros:

- The change is suitable for the subject area and consistent with other adjacent and nearby land uses.
- The change meets a smart-growth goal of the comprehensive plan better than the current zoning.

Con:

- The zoning change was not requested by the property owner.

Staff's analysis indicates that the proposed zoning district would support appropriate development, and prevent incompatible development better than the existing zoning, and, accordingly, staff finds the proposal to be reasonable and recommends approval.

Councilman Pelly thanked the Kenilworth Residents Association for their perseverance on trying to give area residents peace of mind.

Mayor Manheimer opened the public hearing at 6:23 p.m., and when no one spoke, she closed the public hearing at 6:23 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Pelly found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4269. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 435

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 14-11 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CDM-SMITH TO PERFORM ENGINEERING SERVICES FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

ORDINANCE NO. 4270 - BUDGET AMENDMENT FO THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

Transportation Planner Dan Baechtold said that this is the consideration of (1) a resolution authorizing the City Manager to enter into a contract with CDM-Smith to perform engineering services and provide 100% complete construction documents for the River Arts District Transportation Improvement Project (RADTIP), and to conduct other necessary pre-development activities for a budget not to exceed $2,186,000; and (2) a budget amendment in the amount of $2,208,000 from debt proceeds to formally establish a project budget for this contract and previously incurred legal costs.

The RADTIP is a multi-modal transportation project that will construct roadway improvements, sidewalks, bike lanes and greenways along Lyman Street and part of Riverside Drive adjacent to the French Broad River. The preliminary cost estimate is $25 Million. After the next phase, the cost estimate will be refined.

The RADTIP is one of the projects identified in the City's Economic Development Capital Improvements Program (EDCIP). In order to implement the project, the City must complete four major steps in the project development process. They are: 1) Preliminary Engineering and Environmental Studies; 2) Detailed Design and Engineering; 3) Right of Way Acquisition; and 4) Construction.

Step one is complete. The City's consultant, CDM Smith led an extensive process which included public involvement, design, and technical documentation to complete the required environmental document and bring the project design to a level of 30% complete.

This contract will complete step two. Staff issued a Request for Qualifications seeking professional firms that could provide 100% complete construction documents, permits and flood studies, and right-of-way plans for the RADTIP. After thorough review and evaluation, a review panel recommended CDM Smith as the most qualified to perform this next phase of engineering.

In addition to the major deliverables listed above, the contract will also include tasks such as detailed surveying, soil testing, streetscape plans, bridge and culvert design, utility relocation plans, and additional public involvement. At the completion of the contract the City will have 100% complete construction documents, which will put the City in a position to begin acquiring right- of-way and seeking funding for construction.

One of the first products for this phase of engineering will be an analysis of the Craven Street intersection and the Norfolk Southern railroad bridge in order to explore ways to accommodate truck traffic associated with New Belgium.

Implementation of the RADTIP is identified as an investment initiative in the focus area of Economic Growth and Financial Sustainability. In addition the project supports implementation of numerous master plans including the Wilma Dykeman Riverway Plan, Greenway Master Plan, and the 2025 City Development Plan.

As noted above, this project is funded through the Economic Development Capital Improvements Program (EDCIP) that was approved by City Council as part of the FY 2013-14 budget adoption. The budget amendment in the amount of $2,208,000 from debt proceeds will formally establish a project budget for the contract with CDM Smith and previously incurred legal costs associated with the project. Expenditures to CDM Smith will occur in FY14 and FY15.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a contract with CDM Smith to perform engineering and design services for the RADTIP for an amount not to exceed $2,186,000; and (2) a budget amendment in the amount of $2,208,000 from debt proceeds to formally establish a project budget for this contract and previously incurred legal costs.

Mr. Baechtold responded to Vice-Mayor Hunt when he asked if the cost estimating is part of the analysis to be provided to the City, and if the engineering for the greenway is included in this step.

Ms. Pattiy Torno, Chair of the Asheville Area Riverfront Redevelopment Commission felt this is the way to move forward on our riverfront. They have been working closely with CDM-Smith and are pleased with their work.

Mayor Manheimer and Councilman Davis each spoke about the careful planning and decision-making of City Council on this incredible project. This is an area of the City that will really grow and become an exuberant place for the City.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Smith moved for the adoption of Resolution No. 14-11. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 51

Councilman Bothwell moved for the adoption of Ordinance No. 4270. This motion was seconded by Councilwoman Wisler and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 438

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-12 - RESOLUTION ESTABLISHING A JOINT CITY-COUNTY AFRICAN AMERICAN HERITAGE COMMISSION

Mr. Marvin Chambers encouraged City Council to vote in support of establishing this City-County African American Heritage Commission. Many years ago there was an E.W. Pearson, Isaac Dickson, Floyd McKissick, James Ferguson, Dr. John Holt, Ruben Dailey, and many others who made their mark in the City. Unfortunately there are few people who know how Asheville transpired and the many African Americans who worked to make Asheville what it is today. Asheville used to be a road to Tennessee from South Carolina to where African Americans were sold on the County Courthouse steps. We are trying to find what has been contributed by the African American community. I-40 came right through the African American community, along with other projects that have destroyed or separated the African American community. He hoped Council will see that the African American community has had a part in developing Asheville.

Ms. Deirdre Wiggins provided Council with a brief overview of the project. So many organizations and individuals over the years have worked to bring the narrative of the African American community to light. This was prompted, mostly in part, from the 2006 discovery of photos, taken by Andrea Clark of the East End Neighborhood, just prior to the coming of Urban Renewal in the late 1960's to mid-1970's. Clark's photographs became the basis of an educational project, with the help of the Buncome County Library, about the necessity of the social fabric of neighborhoods and included a lecture by Dr. Mindy Fullilove in 2008. She shared her research from her book "Root Shock: How Tearing up City Neighborhoods Hurts America and What We Can Do About It". As she said, such "root shock" brings with it special disastrous consequences for both the aged and the young.

After the program and exhibits ended, Dr. Fullilove encouraged the committee not merely to document the loss but also to work to rebuild the social fabric of the communities impacted by Urban Renewal. At her encouragement, the committee raised funds and invited authors to contribute to a special addition of "Crossroads" from the NC Humanities Council. She hoped Council has seen a copy of this extensive feature article on Asheville's African American neighborhoods. Dr. Fullillove felt, along with Harlan Gradin of the Humanities Council, that Asheville has a unique story and because of the amount of visitors who come here each year, these stories could be told in a way that promote health – including physical, emotional, and economic well-being. These stories are enlightening, and beneficial for local citizens and visitors alike. "Crossroads" tells a part of the story and is a platform for further opportunities.

At that City Council meeting three years ago, former Mayor Bellamy told the committee members if there was anything that the Council could do to help to please let members know.

So .....we're back! The founding of an African American Heritage Commission is an avenue that gives enough collaborated effort between representatives of many different organizations, with the authority of a government sponsored citizens committee, to attract the interest of larger supporters. This is important as "collaboration" is the name of the game these days when it comes to fundraising.

The aesthetic beauty of our mountains is unquestionable. However, equally important is the bigger issue of ensuring that the promotion of being a culturally diverse city and county does indeed give credence to this effort. This would be a collaborative effort, rather than a new organization, that would harness the power of non-profits, neighborhoods, individuals, educational, and governmental agencies to talk about our shared history, and love, for our mountain home.

As stated in the resolution, the goals of the project are to discover, develop, promote, and implement projects and programs to recognize African American history in Buncombe County.

Our young people especially need to hear the stories. Without a dedicated way to tell the story to youth, both black and white, we miss the opportunity for them to understand and enlighten their heritage.

This is also about economic development and there are many ways that the City and Council can benefit, including: (1) Education through schools, universities, fraternities, and sororities, and mentoring programs; (2) Economic stimulation by increasing revenue through cultural attractions, tours, symposiums, national meetings, and social engagements; and (3) Retention of African American professionals.

Mr. James Lee said that this is about economic development and preparing our community for the 21st Century and an economy that values diversity. As America becomes more and more diverse, the importance of a diverse work force becomes greater and greater. By uplifting stories we will not only broaden and strengthen our community's self-understanding but demonstrate to our community how to meet our commitment to diverse challenges.

, Over the last two years, members of this committee have been meeting with other organizations to enlist their support of this idea and the application for the 9 positions. We have already received encouragement for the project from leaders of the YMI, the NAACP, the WNC Historical Association, and other community leaders, including the African American churches, which he provided to Council.

He believed that by building strong initial connections with other local, state, and national organizations this collaboration will have greater success of achieving the goals. A strategic plan would include the examination of what are the cultural resources that are here along with how to build an infrastructure that with marketing for pride of place, cultural tourism, and economic development.

It is important and imperative that we create a Commission that honors our legacy within this community.

Councilman Smith thanked all the people who worked on the creation of this Commission. This is an opportunity to recognize and discover and acknowledge and preserve pieces of history that might be lost otherwise and to help us understand who we are as a community. He was pleased to be partnering with the Buncombe County Commissioners and perhaps the Culture & Recreation Authority in the future on making sure that the mission can be fulfilled.

Councilman Pelly knows that the African American community has been challenged over the years, but with its rich history, he looked forward to them getting the stories out.

Mayor Manheimer said that she chaired the City Council Boards & Commissions Committee when they met with several organizers of this Commission on this exciting project. There are a lot of functions of this Commission that many envision. The Committee also discussed the hope that this Commission might be able to be a sounding-board for projects or planning that might take place in historically African American communities and provide a forum for community input and collaboration. She felt this is a great way to be able to constructively engage the community.

The following individuals spoke in support of the resolution establishing the Commission:

Dr. Lamar Hilton, member of the Board of Directors of the YMI Cultural Center
Mr. Maceo Z. Keeling, representing Asheville Business Accelerators
Ms. CC Weston, Asheville native
Ms. Carmen Ramos-Kennedy
Mr. Timothy Sadler
Mr. Richard Grant, representing the WNC Historical Association

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-12. This motion was seconded by Councilwoman Wisler and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 52

B. BOARDS & COMMISSIONS

Regarding the Asheville-Buncombe Community Relations Council, the following individuals applied for the vacancy: Sandra Houts, Brandee Boggs and Fyffe Aschenbrenner. It was the consensus of City Council to delay appointment until February in order to give Councilman Smith (liaison to the Community Relations Council) the opportunity to meet with the board to gather their input on the criteria they seek in a new board member.

Regarding the Homeless Initiative Advisory Committee, the following individuals have applied for the vacancy: Sabrah n'haRaven, Matthew Shepley, Allison Bond, Heather Smith, Carrie Pettler and Kristi Case. It was the consensus of City Council to delay appointment until March in order for the Homeless Initiative Advisory Committee to make a recommendation.

Regarding the Sustainable Advisory Committee on Energy & the Environment, the following individuals applied for the vacancies: Thomas Bryan Tompkins, Joyce Brown, Sonia Marcus, Parker Sloan, Mindy Fisher, Leslee Thornton, Philip Pritchard, Mary Ann Garwood, Sabrina Wells and Ulla Reeves. A motion was made by Councilman Bothwell and seconded by Councilwoman Wisler to reappoint Duncan McPherson. It was the consensus of City Council to interview Sonia Marcus, Mindy Fisher and Mary Ann Garwood.

RESOLUTION NO. 14-7 – RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Board of Adjustment.

The terms of Douglas Hattaway (Regular), Mac Swicegood (Alternate) and David Brown (Regular) as members on the Board of Adjustment expire January 21, 2014.

The following individuals applied for the vacancies: Keaton Edwards, Amy Kemp and Gary Herndon.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Douglas Hattaway (Regular) to serve a full three-year term, term to expire January 21, 2017; (2) reappoint Mac Swicegood (Alternate) to serve a full three-year term, term to expire January 21, 2017; and (3) reappoint David Brown (Regular) to serve an additional three-year term, term to expire January 21, 2017. All appointments are until their successors have been appointed.

Councilman Pelly moved to (1) reappoint Douglas Hattaway (Regular) to serve a full three-year term, term to expire January 21, 2017; (2) reappoint Mac Swicegood (Alternate) to serve a full three-year term, term to expire January 21, 2017; and (3) reappoint David Brown (Regular) to serve an additional three-year term, term to expire January 21, 2017. All appointments are until their successors have been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 45

RESOLUTION NO. 14-13 - RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Firemen's Relief Fund.

The term of Pat Leckey expired on January 1, 2014.

The following individual has applied for the vacancy: Gary Herndon.

Councilman Pelly moved to reappoint Pat Leckey to serve an additional two-year term, term to expire January 1, 2016, or until her successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 36– PAGE 56

RESOLUTION NO. 14-14 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE RIVERFRONT REDEVELOPMENT COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville Area Riverfront Redevelopment Commission.

The terms of Joe Ferikes (representing the riverfront property or business owner), and Cindy Weeks expired on January 1, 2014.

No one applied for the vacancies.

The Boards & Commissions Committee recommended reappointment of Joe Ferikes (representing the riverfront property or business owner), and Cindy Weeks.

In addition, due to merging of Asheville Area Riverfront Redevelopment Commission and River District Design Review Committee, the Asheville Area Riverfront Redevelopment Commission requested City Council to appoint Carleton Collins (currently member of the River District Design Review Committee) to serve as a design professional on the Asheville Area

Riverfront Redevelopment Commission, whose term would expire January 1, 2017. It was the consensus of the Boards & Commission Committee to appoint Mr. Collins.

Councilman Smith moved to (1) reappoint Joe Ferikes (representing the riverfront property or business owner) to serve an additional three-year term, term to expire January 1, 2017; (2) reappoint Cindy Weeks to serve a three-year term, term to expire January 1, 2017; and (3) appoint Carleton Collins (design professional) to serve a three-year term, term to expire January 1, 2017. All appointments are until their successors are appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36– PAGE 57

RESOLUTION NO. 14-15 – RESOLUTION APPOINTING MEMBERS TO THE TREE COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Tree Commission.

The terms of Debbie Emmons and Mike Keaton expired on December 31, 2013.

The following individuals applied for the vacancies: Mike Dale.

The Boards & Commissions Committee recommended reappointing Debbie Emmons and Mike Keaton.

Councilman Bothwell moved to reappoint Debbie Emmons and Mike Keaton to each serve a three-year term respectively, term to expire December 31, 2016, or until their successors have been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36– PAGE 58

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Timothy Sadler was concerned that the City of Asheville puts fluoride in its water supply since science now finds that medicating the water is not a good thing for people's health. Mayor Manheimer responded that she has spent a lot of time on this issue. In 1967 Asheville voters voted to add fluoride to the water system; however, we have reduced the amount per the CDC's recommendation. To remove fluoride in our water system will require a vote of the people. Councilman Bothwell supported a referendum on this issue since science and public opinion has changed.

Ms. Jeanie Rosenthal was concerned that low-income apartments, specifically mentioning The Griffin Apartment Complex, now allows electronic cigarettes and urged Council to help ban the smoking to the outside.

Dr. Milton Byrd asked to be placed on an agenda for Council to consider a resolution in support of legalizing medical cannabis.

Mr. Todd Stimson asked to be placed on an agenda for Council to consider a resolution in support of the renewal of industrial hemp as an agricultural crop in North Carolina.

Councilman Smith said that due to the protocols and dedication of our service providers, Code Purple was successful and no lives were lost when we had sub-zero temperatures.

Lawsuit Report

The City was served with a civil action on December 27, 2013, from Juanita L. Jones a/k/a Juanita L. Owens vs. J. Calvin Hill, Julie M. Kepple, Patric K. Young, City of Asheville and State of North Carolina. The lawsuit involves eminent domain without just compensation. This matter will be handled by an attorney outside the City Attorney's Office.

Closed Session

At 7:30 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: City of Asheville; Wilcox, Mary Ann; and Henderson County and Cane Creek Water and Sewer District. The statutory authorization is contained in G.S. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Pelly and carried unanimously.

At 9:12 p.m., Councilwoman Wisler moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:12 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – January 28, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: Councilman Cecil Bothwell (weather related)

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 14, 2014

B. RESOLUTION NO. 14-16 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH COOPER CONSTRUCTION COMPANY INC. FOR THE HENDERSONVILLE ROAD WATERLINE PROJECT

ORDINANCE NO. 4271 - BUDGET AMENDMENT FOR THE HENDERSONVILLE ROAD WATERLINE PROJECT

Summary: The consideration of a resolution by City Council authorizing the City Manager to enter into a construction agreement with Cooper Construction Company, Inc., for the bid amount of $441,266 plus a contingency amount of $44,127 for a total project budget of $485,393 for the Hendersonville Road Water Line Consolidation project; and a budget amendment in the amount of $185,393 from savings in another capital project.

On June 12, 2013, the Water Resources Department issued an Invitation for Bids for the Hendersonville Road Water Line Consolidation project. The project location is on Hendersonville Road from 1378 Hendersonville Road to Mills Gap Road. The scope of the project consists of abandonment of a problematic 6-inch cast iron water line located on the east side of Hendersonville Road. Water services attached to the 6-inch water line will be transferred to the 24-inch ductile iron water line located on the west side of Hendersonville Road. Abandonment and removal of existing vacant services are also a part of the project scope. In response to the Invitation for Bids, no bids were received.

On July 16, 2013, the department issued another Invitation for Bids for the project. No bids were received in response to the second bid.

On December 4, 2013, the department issued another Invitation for Bids for the project. Two (2) bids were received for the project on January 7, 2014. Companies responding were:

1. Cooper Construction Company, Inc. – Hendersonville, NC; $441,266
2. Buckeye Bridge, LLC – Canton, NC; $948,648

A review team comprised of City staff reviewed these bids and selected Cooper Construction Company, Inc., as the lowest responsible responsive bidder in the amount of $441,266. A contingency amount of $44,127 has been added total project budget of $485,393.

The Water Resources Department currently has $300,000 budgeted for this project. The remaining funds of $185,393 needed for the contract will be transferred from the Monte Vista / Sand Hill Road Master Plan capital project. The Monte Vista project has been reduced in scope, allowing funds to be transferred out to other projects as needed. In order to use the funds in the Monte Vista project, a budget amendment is necessary.

Amount in Hendersonville Road WL Project	$300,000
Amount Needed for Construction Contract	$185,393
Total Amount for Project	$485,393

The amount remaining in the Monte Vista / Sand Hill Road Master Plan capital project will remain in the project budget to complete the project.

City staff recommends City Council approval of the City Manager to enter into a construction agreement with Cooper Construction Company, Inc., for the bid amount of $441,266 plus a contingency amount of $44,127 for a total project budget of $485,393 for the Hendersonville Road Water Line Consolidation project; and a budget amendment in the amount of $185,393 from savings in another capital project.

RESOLUTION BOOK NO. 36 - PAGE 59
ORDINANCE BOOK NO. 28 - PAGE 440

C. RESOLUTION NO. 14-17 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT CONVEYANCE OF A N.C. DEPT. OF TRANSPORTATION REMNANT PROPERTY ON SWEETEN CREEK INDUSTRIAL PARK TO FACILITATE IMPROVED ACCESS TO THE GE AVIATION FACILITY

Summary: The consideration of a resolution authorizing the Mayor to accept the conveyance of a N.C. Dept. of Transportation (NCDOT) remnant property on Sweeten Creek Industrial Park in order to assemble the property into existing City right-of-way and facilitate improved access to the GE Aviation facility.

NCDOT owns a 2.79 acre remnant property identified by PIN 965742089400000 along the Sweeten Creek Industrial Park roadway. This property runs between the Buncombe County owned property being developed for the GE Aviation facility and the City right of way. NCDOT has offered to convey the property to the City of Asheville at no charge. The City plans to assemble the property into the existing right-of-way at Sweeten Creek Industrial Park and thereby allow for improved access to the GE Aviation site.

No monetary consideration required for the conveyance. Deed recordation fees will be the responsibility of the City, which should not exceed $100.00.

City staff recommends City Council to adopt a resolution accepting the conveyance of an NCDOT remnant property to assemble the property into existing right-of-way adjacent to the new GE Aviation site.

RESOLUTION BOOK NO. 36 - PAGE 61

D. RESOLUTION NO. 14-18 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY AN EASEMENT ACROSS CITY-OWNED PROPERTY AT 166 RESERVOIR ROAD TO CHRIS AND JESSICA LARSEN

Summary: The consideration of a resolution authorizing the Mayor to convey an easement over a portion of City-owned property at 166 Reservoir Road to Chris and Jessica Larsen for the purpose of creating a driveway to a residential lot.

The City of Asheville owns real property at 166 Reservoir Road and the parcel is currently used for telecommunications purposes. The parcel is approximately 7.42 acres in size and is improved with two telecommunications towers and related buildings. There is a significant grade change between the land area used for telecommunications and the area of the property that meets McCauley Drive.

Chris and Jessica Larsen have a contract to purchase on an adjoining vacant parcel that fronts McCauley Drive. The land area of their lot is too steep to accommodate a driveway within the existing lot footprint, and as such Chris and Jessica Larsen have approached City staff with a request to purchase an easement to create a driveway connection to McCauley Drive. City transportation and traffic staff have reviewed the easement request and have no concerns with the proposed easement. The area of the easement is not currently being utilized by the city, and presents no apparent conflict with future development of the Beaucatcher Greenway and/or development of the Reservoir Road property for a park purpose.

The proposed easement area is approximately 473 square feet and would service a new single family residence. To develop a price for the sale of this easement, City staff calculated a price per square foot value based on the contract price of the adjacent lot. In this instance, the residential lot has a contract price of $199,000 and is 2.12 acres. This translates into a value of $2.16 per square foot, yielding an easement price of $1020.

The amount of revenue generated by the sale of the easement will be deposited into the General Fund.

Staff recommends that City Council approve a resolution authorizing the Mayor to convey a 473 square foot easement over a portion of City-owned property at Reservoir Road for the purchase price of $1020 to Chris and Jessica Larsen.

RESOLUTION BOOK NO. 36 - PAGE 62

E. RESOLUTION NO. 14-19 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AWARD THE SALE OF SIDEWALK GARBAGE RECEPTACLES TO THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to award the sale (no compensation) of surplus sidewalk garbage receptacles no longer in use on public sidewalks to the Asheville Housing Authority (AHA) and to enter into a negotiated purchase agreement.

The AHA has demonstrated a long standing commitment to the environment including the reduction of litter on AHA property. Through the donation of goods from the City, the AHA would be able to significantly increase the amount of waste receptacles which will in turn reduce litter and improve cleanliness in AHA neighborhoods. The garbage receptacles are currently still installed on downtown sidewalks but will be replaced with upgraded waste stations this spring. NCGS 160A-280 authorizes a City to dispose of property to another governmental unit or an incorporated non-profit agency that is carrying out a public purpose. Providing waste collection infrastructure in AHA neighborhoods would provide a public purpose for the environment and public health.

The potential loss of resale revenue could be offset by the benefit of increasing cleanliness in Asheville Housing Authority neighborhoods.

Staff recommends City Council adopt a resolution authorizing the City Manager to award the sale (no compensation) of surplus sidewalk garbage receptacles no longer in use on public sidewalks to the Asheville Housing Authority and to enter into a negotiated purchase agreement.

RESOLUTION BOOK NO. 36 - PAGE 63

F. RESOLUTION NO. 14-20 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AGREEMENTS WITH Z SMITH REYNOLDS FOUNDATION AND THE DYNAMIC GOVERNANCE INSTITUTE TO DEVELOP A PROGRAM TO STRENGTHEN NEIGHBORHOOD PARTNERSHIPS

ORDINANCE NO. 4272 - BUDGET AMENDMENT TO ACCEPT THE Z SMITH REYNOLDS FOUNDATION GRANT FUNDING

Summary: The consideration of a resolution authorizing the City Manager to sign agreements with Z Smith Reynolds Foundation and Dynamic Governance Institute to facilitate the development of training materials and process to enhance partnerships to build neighborhood capacity; and the associated budget amendment in the amount of $30,000 from the Z Smith Reynolds Foundation.

The project to be funded by this grant is a collaborative effort of the City's Communication and Public Engagement Division, the Dynamic Governance Institute, and residents of public housing communities in the South French Broad neighborhood and was developed to strengthen effective neighborhood participation in policy and planning decisions.

The pilot program will employ an alternative group facilitation method called Dynamic Governance to provide a common framework for effective meetings, shared leadership, and structures for cooperation in the South French Broad neighborhood. The Dynamic Governance model is used locally by many non-profits and initiatives to self-organize and engage participants in cooperative decision-making. Examples of organizations currently using Dynamic Governance are the East West Asheville Neighborhood Association, the YWCA, the Food Policy Council, Handmade in America, and Rosetta's Kitchen.

The pilot will involve the creation of a team consisting of public housing resident leadership, community members familiar with Dynamic Governance, and city staff. This team will begin by training members of the Aston Park Towers and Garden Apartments Resident Association and Housing Authority Residents' Council and expand to include all residents of the South French Broad neighborhood. Public Housing residents have identified the capacity-building tools offered by the method as a means of bridging racial, class and education diversity. While these barriers are addressed, staff will facilitate ways for community members to engage with government. The project will also serve to strength existing public-private partnerships initiated by the East of the Riverway initiative and the Neighborhood Advisory Committee.

Grant revenue of $30,000 will be administered by the Dynamic Governance Institute through a sub-award agreement at no cost to the City. Funding will be used to administer the grant, oversee the development of materials, and coordinate and facilitate meetings and training sessions, including providing support services like babysitting and transportation to enable residents to participate in the free training. In addition, the grant provides opportunities for residents who assume key leadership roles to receive stipends for activities aimed at making the program sustainable over time and available to all Asheville neighborhoods.

Staff recommends that City Council adopt the resolution authorizing the City Manager to sign the grant agreement with the Z Smith Reynolds Foundation and the Sub-Award Agreement with the Dynamic Governance Institute; and the associated budget amendment.

RESOLUTION BOOK NO. 36 - PAGE 64
ORDINANCE BOOK NO. 28 - PAGE 442

G. RESOLUTION NO. 14-21 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A GENERAL SERVICES CONTRACT WITH TYLER TECHNOLOGIES FOR MAINTENANCE AND SUPPORT OF THE CITY'S MUNIS ENTERPRISE SYSTEM

Summary: The consideration of a resolution authorizing the City Manager to execute a general services agreement with Tyler Technologies for the estimated amount of $144,000 per year plus a maximum of 5% escalation in subsequent years for maximum of (5) five fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

The City of Asheville Information Technology Services is seeking to extend our current maintenance agreement for the estimated amount of $144,000 per year plus a maximum of 5% escalation in subsequent years for maximum of (5) five fiscal years

The funding needed for this agreement is currently allocated within IT Services Business & Public Technology Division's maintenance budget.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a general services agreement with Tyler Technologies, for the estimated amount of $144,000 per year plus a maximum of 5% escalation in subsequent years for maximum of (5) five fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

RESOLUTION BOOK NO. 36 - PAGE 65

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

III. PRESENTATIONS & REPORTS: None.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF 291 EAST CHESTNUT STREET LOCATED AT 287 AND 291 EAST CHESTNUT STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO URBAN RESIDENTIAL DISTRICT/CONDITIONAL ZONING WITH A MODIFICATION REQUEST TO THE SETBACK AND LANDSCAPE BUFFER REQUIREMENTS

Mayor Manheimer announced that on January 20, 2014, Planning & Development Director Judy Daniel received a letter withdrawing their rezoning application.

B. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING CHANGES TO CONDITIONAL ZONING APPLICATIONS AND CONDITIONAL USE PERMITS TO REQUIRE THAT

ANY APPROVED ORDINANCES BE RECORDED WITH THE BUNCOMBE COUNTY REGISTER OF DEEDS

ORDINANCE NO. 4273 - ORDINANCE TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING CHANGES TO CONDITIONAL ZONING APPLICATIONS AND CONDITIONAL USE PERMITS TO REQUIRE THAT ANY APPROVED ORDINANCES BE RECORDED WITH THE BUNCOMBE COUNTY REGISTER OF DEEDS

Director of Planning & Development Judy Daniel said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance regarding changes to conditional zoning applications and conditional use permits to require that any approved ordinances be recorded with the Buncombe County Register of Deeds.. This public hearing was advertised on January 17 and 24, 2014.

The UDO currently requires that upon adoption, the Planning Department will keep records of all adopted ordinances modifying the UDO. For conditional zoning ordinances, the UDO also requires that the city zoning map will be amended. For Conditional Use Permits and Conditional Zonings, ordinances that impose specific limits on individual properties, these changes and conditions are currently not easy to find for the general public. The proposed change will add a requirement that the property owner will record the ordinance and conditions of the approval at the Buncombe County Register of Deeds, cross-referencing the applicable property deed. This change will allow those who are seeking information on a specific property to easily see the limits imposed on the property.

The Planning Department will continue to keep records of the ordinances, but this action will provide the public with an easily accessible means to determine what requirements and restrictions are tied to any approved conditional zoning in the city.

This has been an issue of concern to the public as, due to space constraints, the Planning Department records usually do not include the full contents of the approved plans attached to the ordinance records, which are filed sequentially. Such files are eventually moved to long term storage which may take some time to retrieve. While this situation may be relieved over time as use of more advanced software will allow improved access, it will be helpful to have a backup means of access to this information in the county records; which are already accessible online. A parallel action is nearing completion to provide easier means to locate pertinent ordinances and conditions of approval from past approved CUPs and CZs through creation of a cross-referenced file kept in the Planning Department.

This action will not create a substantial expense for the property owner, and will provide greater transparency to the general public. Staff research with the Register of Deeds has revealed that most actions will cost less than $50 to file (a small percentage will be higher depending on the complexity of the conditions). Further, a review of other cities in North Carolina has revealed that this is not an uncommon requirement. Real estate professionals are among those who most frequently ask for this information as they need to understand any limiting requirements on properties they are working with to buy or sell. Nearby residents are also among those interested in this information, as the zoning maps only say that the property has this zoning, and do not provide the limiting conditions.

These changes affect Section 7-5-5(c)(3) (Information Required for Conditional Use Plan Submittal), Section 7-5-5(e)(3)(b) (Formal review by City Council for Conditional Use Approvals), and Sections 7-7-8(d) (1) and (8) (Application procedures for Conditional Zoning).

Since this change increases transparency regarding regulatory limits on specific properties, staff believes the proposal to comply with the Asheville City Development Plan 2025 in that it works toward Goal IV of the Economic Development section related to insuring

compatibility between local infrastructure and regulatory environment and the needs of business and industry.

The Planning and Zoning Commission reviewed this proposal at their December 4, 2013, meeting, and with limited discussion it was approved 5-1 (with one absent). Commissioner Edmunds voted against the change citing concern over added complexities for property owners. No members of the public spoke about the proposal.

Staff believes the proposal to comply with the City Council's Strategic Plan Focus Area 1: Economic Growth and Financial Sustainability in that it creates a more transparent regulatory environment for potential investors as noted in the "Job Growth" section which notes the need for UDO analysis and recommendations.

Considerations:

- The primary benefit will be increased transparency and access to this information by the public.
- A concern would be the increased cost of compliance (although minimal) for the property owner.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable. Staff recommends approval of this proposed change as it will provide the public with a more accessible means of determining the conditions imposed by the Council in granting approval of conditional use permits and conditional zonings.

City staff recommends City Council approve the proposed changes to Section 7-5-5(c)(3), Section 7-5-5(e)(3)(b), and Sections 7-7-8(d) (1) and (8) as outlined in this report and (if approving) find that the request is reasonable and is consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation.

After Councilman Pelly spoke in support of this first step and questioned what the plan is to get the prior ordinances recorded, Ms. Daniels said that she would report back to Council with a cost estimate for recording those prior ordinances, working with the Register of Deeds Office.

Director of Development Services Shannon Tuch said that the City has launched a new permitting software program that has the capability to geographically assign documents. When the new program comes on-line, staff will attach all the former CUPs and CZs to the specific parcel.

In response to Councilwoman Wisler about how someone researches for that information now, Ms. Daniel said that most real estate professionals know to go to MapAsheville and/or the Planning Department.

Mayor Manheimer noted that she received an e-mail from the Coalition of Asheville Neighborhoods noting that they support this amendment.

Mayor Manheimer opened the public hearing at 5:06 p.m., and when no one spoke, she closed the public hearing at 5:06 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Pelly found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master

plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4273. This motion was seconded by Councilwoman Wisler and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 444

C. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING CHANGES TO OUTDOOR LIGHTING STANDARDS TO ALLOW FOR UPDATES TO STANDARDS REGULATING LED LIGHTS TO BETTER ALIGN THE GOALS OF REDUCED GLARE AND DARK SKY CONCERNS WITH ENERGY EFFICIENT LIGHTING GOALS

ORDINANCE NO. 4275 - ORDINANCE TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING CHANGES TO OUTDOOR LIGHTING STANDARDS TO ALLOW FOR UPDATES TO STANDARDS REGULATING LED LIGHTS TO BETTER ALIGN THE GOALS OF REDUCED GLARE AND DARK SKY CONCERNS WITH ENERGY EFFICIENT LIGHTING GOALS

Director of Development Services Shannon Tuch said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance regarding changes to outdoor lighting standards to allow for updates to standards regulating LED lights for updates to standards regulating LED lights to better align the goals of reduced glare and dark sky concerns with energy efficient lighting goals. This public hearing was advertised on January 17 and 24, 2014.

In 2011, the Department of Public Works in support of the sustainability Master Plan, announced a multi-year plan to phase in new LED street lights. In order to support this change, a wording amendment was approved by the Planning & Zoning Commission in August 2012 stating that all new privately installed street lights would match the city's new LED street lighting standards as well as setting LED area lighting requirements.

At the December 4, 2013, Planning & Zoning Commission meeting, the Commission approved changes to the BUG rating requirement for area lighting, and to the lumen level requirements for area and street lighting. Since that time, staff has become aware of two more areas that need attention, specifically, the BUG ratings for 1) Lighting attached to structures or buildings, and 2) Street lighting.

Since the first meeting with the Commission, Buncombe County Schools has run into an obstacle with the section of the ordinance regulating lights attached to structures or buildings. They are attempting to replace wallpack fixtures and canopy lights for many of their schools, both within and outside the city's jurisdiction, and are hoping to replace them with efficient LED fixtures. However they are unable to find any products in the marketplace that meet our ordinance and their needs. Our current standard calls for a B-U-G rating of 0-0-0.

The City of Asheville has run into an obstacle when it comes to LED street lighting product availability. There are currently four manufacturers of LED street lighting approved by Asheville's electric utility, Duke Energy Progress. Under our current ordinance, 2 of those 4 do not meet our guidelines for street lights installed in residential areas because their products are ever so slightly above what we have specified. This is problematic because when making a large purchase of street lights, having adequate choice in manufacturers can have a significant financial impact to the City.

The recommended solution is to adjust the BUG rating standards for lighting attached to structures or buildings and for street lighting, and the lumen output for street lights in residential areas, thus giving developers and the City greater product choice. The proposed changes are still consistent with the National Dark Sky Model Lighting Ordinance recommendations for backlight, uplight, and glare as well as lumen output.

Recommended Ordinance Language

1. The allowable backlight and glare ratings for LED lighting attached to structures or buildings should be raised from the current B0 and G0 to B2 and G2. This would bring the overall BUG rating to 2-0-2, which is still more conservative than what is allowed for area lights: 3-0-3.

   Specifically, the text of section (j) 5. would read, "All LED lighting attached to buildings or structures shall comply with the standards in subsection (g)(8) and shall have a maximum BUG rating of ~~B0, U0, G0~~ B2, U0, G2, unless otherwise exempted or excepted."

2. The allowable backlight and glare ratings for new street lighting on residential streets should be raised from the current B1 and G1 to B2 and G2. This would bring the overall BUG rating to 2-1-2, which is still more conservative than what is allowed for commercial streets: 3-3-3. Additionally, the allowed luminance for residential districts should be raised from the current 6,000 lumens to 6,500 lumens. This is still well below what is allowed for commercial districts: 20,000 lumens.

   Specifically, the text of section (g) 8 b. would read, "The maximum number of fixture lumens shall not exceed ~~6,000~~ 6,500 in residential districts and no more than 20,000 lumens in non-residential districts, unless otherwise allowed or exempted."

   The text of section (h) 4 c (i). would read, "In residential districts - no greater than ~~6,000~~ 6,500 fixture lumens, with exceptions noted in subsection (5) below."

   The text of section (h) 5. would read, "All LED street lighting shall comply with the standards in subsection (g)(8) and shall have a maximum BUG rating of B3, U3, G3 on commercial streets and major arterial DOT and City of Asheville roads, and a maximum of ~~B1, U1, G1~~ B2, U1, G2 on residential streets.
   Exceptions:

   a. Use of LED street lights in residential areas over ~~6,000~~ 6,500 and up to 8,200 fixture lumens are allowed at intersections and safety sensitive locations, as deemed necessary by the director of public works."

The Planning & Zoning Commission considered the first amendment focusing on street and area lights at their December 4, 2013, meeting where the recommendation was unanimously supported.

Staff brought the matter back before the Commission on January 16, 2014, to consider expanding the changes to include an amendment to the BUG rating for wallpack and canopy lights, along with an adjustment to the lumen level for streetlights in residential areas. The Commissioners again unanimously recommended approval but requested that staff return in another 12 months for a report on the alignment of the city's ordinance with product availability in the marketplace. There was also a recommendation to review canopy lights separately from wall pack lights.

This amendment was also reviewed by the Sustainable Advisory Committee on Energy and the Environment (SACEE) at their November 20, 2013, meeting where the Committee voted to support the changes and on-going review.

The proposal complies with the Asheville City Development Plan 2025 in that it works toward balancing city goals for sustainability (carbon footprint) and safety (glare) with development options that encourage reinvestment in the community.

Pros:

- Adjusts standards to allow energy efficient options for developers, property owners and street lighting.
- Encourages the use of energy efficient fixtures.
- Maintains limits to discourage unsafe glare and support dark skies.

Con:

- Although still consistent with the National Dark Sky Model Ordinance, these changes do slightly relax the standards as it relates to public safety concerns regarding glare.

No direct municipal fiscal impact on the ordinance amendment itself.

Staff recommends approval of the proposed wording amendment and finds that it is consistent with the City's adopted plans and goals.

When Councilwoman Wisler asked if staff has a sense that the industry is moving forward quickly enough for the City to create stronger standards, Ms. Tuch said yes, while some products that meet the standards are available, they fail to address other concerns

Mayor Manheimer opened the public hearing at 5:10 p.m.

Mr. Jason Walls, District Manager for Duke Energy Progress, spoke in support of the ordinance amendment.

Mayor Manheimer closed the public hearing at 5:11 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4275. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 451

D. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING STATUTORY CHANGES TO BOARD OF ADJUSTMENT PROCEDURES

ORDINANCE NO. 4274 - ORDINANCE TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES REGARDING STATUTORY CHANGES TO BOARD OF ADJUSTMENT PROCEDURES

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance regarding statutory changes to Board of Adjustment procedures. This public hearing was advertised on January 17 and 24, 2014.

Ms. Daniel said that in this year's legislative session, the General Assembly passed session law 2013-126 entitled "An Act to Clarify and Modernize Statutes Regarding Zoning Boards of Adjustment", effective October 1, 2013, which resulted in a number of modifications to N.C. G.S. sec. 160A-388, the statute which governs the composition, duties and procedures of Boards of Adjustment. This was the first major re-write of this statute since its original inception in the early 1920's and in Staff's opinion, the clarifications provided by this new law were necessary and should prove helpful to the administration of board of adjustment matters. The amendments are also applicable to other boards and commissions, such as Planning & Zoning

commission, when acting as a board of adjustment pursuant to section 7-5-9.1 of the UDO. Though many of the City's UDO provisions related to board of adjustment procedures, such as notification requirements and hearing conduct, are already consistent with the standards and procedures in this new law, some amendments do need to be made.

These changes affect **Section 7-3-3 Board of Adjustment**, subsection (c)(2) Meetings and Voting and subsection(e) Administering Oaths and Issuing Subpoenas; **Section 7-6-1 Variances**, subsection (a) Purpose, subsection (c) Applications, subsection (d) Action by the board of adjustment, and subsection (e) Standard of Review; **Section 7-6-2 Appeals of Administrative Decisions**, subsection (c) Persons who may file an appeal, subsection (d) Filing of an Appeal, and (e) Action by the board of adjustment; **Section 7-5-20 Notices and Public Hearings**, subsection (b) Notice procedure; and Section **7-13-9 Sign Variances.**

The major modifications or clarifications of session law 2013-126 that have an impact on the current UDO provisions can be summarized as follows:

- Regarding Appeals Process (UDO sections 7-3-3 and 7-6-2):
  - Appeals of zoning decisions must be filed with the city clerk (currently file with planning director or board secretary)
  - Appeals must be taken within 30 days of date of decision (currently ordinance provides for appeal to be taken as required by the Board of Adjustment Rules of Procedures, which in turn, currently allows 60 days to appeal)
  - Appeal may be made by a person who has standing as defined by statute (previously appeal could be made by any "aggrieved party" which had no exact definition)
  - Clarification that only an appeal of a notice of violation or other enforcement order shall stay all proceedings in furtherance of the contested action. An appeal of decisions granting a permit or otherwise affirming that a proposed use of property is consistent with the ordinance shall not stay further review of the application.

- Regarding Standards for Granting Variances (UDO section 7-6-1 and section 7-13-9):
  - Removes the requirement that variance may not be granted unless *no reasonable use* of the property without the variance
  - Removes the reference to consideration of *practical difficulties*
  - Provides that applicant may qualify for variance *even though applicant purchased property knowing of its limitations and possible need for a variance*

- Regarding Board Decisions and Voting Requirements (UDO sections 7-3-3 and 7-6-2):
  - Appeals of zoning decisions and special and conditional use permits are granted upon majority vote (previously, a 4/5 vote was required. 4/5 vote still required for granting of a variance)

This matter was presented to the Planning and Zoning Commission on December 4, 2013, which unanimously approved the proposed changes and directed that the proposed revisions be sent to Council for action.

Staff recommends approval of these proposed changes as they will make the UDO provisions regarding Board of Adjustment procedures consistent with the new State law.

Mayor Manheimer opened the public hearing at 5:13 p.m., and when no one spoke, she closed the public hearing at 5:13 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4274. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 446

V. UNFINISHED BUSINESS: None.

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-22 – RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABLE ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Sustainable Advisory Committee on Energy & the Environment (SACEE).

The terms of Melanie Brethauer, Duncan McPherson and Tim Ballard expired on December 31, 2013. Ms. Brethauer is not eligible for reappointment and Mr. Ballard is not interested in reappointment.

The following individuals applied for the vacancies: Thomas Bryan Tompkins, Joyce Brown, Sonia Marcus, Parker Sloan, Mindy Fisher, Leslee Thornton, Philip Pritchard, Mary Ann Garwood, Sabrina Wells and Ulla Reeves.

The Boards & Commissions Committee recommended reappointment of Duncan McPherson and interviewing Sonia Marcus, Mindy Fisher and Mary Ann Garwood. The consensus of Council directed the City Clerk to arrange interviews for Sonia Marcus, Mindy Fisher, Mary Ann Garwood and Leslee Thornton. Due to adverse weather conditions, Ms. Thornton was unable to attend the interview.

On January 14, 2014, Councilman Bothwell moved to reappoint Duncan McPherson , to serve an additional three-year term, term to expire December 31, 2016, or until his successor has been appointed. This motion as seconded by Councilwoman Wisler and carried unanimously.

After Council spoke highly of the candidates, Sonia Marcus received 6 votes, Mindy Fisher received 6 votes, and Mary Ann Garwood received no votes. Therefore, Sonia Marcus (expertise in field of energy management), was appointed to serve a three-year term, term to expire December 31, 2016; and (2) Mindy Fisher was appointed to serve a three-year term, term to expire December 31, 2016. All appointments are until their successors are appointed.

RESOLUTION BOOK NO. 36– PAGE 66

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Councilman Davis was pleased to note that Mr. Jack Ingram will be inducted into the National Hall of Fame in Charlotte on January 29, 2014, and will be recognized by this City Council at their February 11 meeting.

Lawsuit Reports

The City was served with a civil action on December 27, 2013, from Mark Eaton DeVerges vs. the Board of Adjustment of the City of Asheville. The nature of the proceeding is a

Board of Adjustment appeal regarding E. Chestnut Street in the Charlotte Street neighborhood. This matter will be handled by an attorney outside the City Attorney's Office.

The City was served with a civil action on January 21, 2014, from Mark Byrd vs. City of Asheville and Asheville Police Department. The nature of the proceedings is an EEOC lawsuit of discrimination in the form of discrimination. This matter will be handled by an attorney outside the City Attorney's Office.

The City was served with a civil action on January 23, 2014, from Timothy J. Fortenberry vs. City of Asheville. The nature of the proceedings is a petition for trial de novo for all matters that went before the Asheville Civil Service Board on December 17, 2013. This matter will be handled in-house.

Recess

At 5:18 p.m. Councilwoman Wisler moved to recess the Tuesday, January 28, 2014, meeting of the Asheville City Council until Thursday, January 30, 2014, at 10:00 a.m. in the Council Chamber, located on the 2nd Floor of City Hall. At that time, it is anticipated that City Council will immediately go into closed session to consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Pelly and carried unanimously.

Thursday – January 30, 2014 - 10:00 a.m.

Recessed Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Jan D. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: Councilman Cecil Bothwell

At 10:00 a.m. a.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) to consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Pelly and carried unanimously.

At 4:15 p.m. Councilman Davis moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 4:15 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Friday – February 7, 2014 - 9:00 a.m.
U.S. Cellular Center

Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

Mayor Manheimer convened the meeting and introduced Mr. Greg Walker Wilson, who would be facilitating the retreat.

City Manager Jackson highlighted the 2013 accomplishments; and Assistant City Manger Cathy Ball provided Council with the 2013-14 Strategic Plan update.

While Mr. Walker reviewed with Council the pre-retreat interview summary responses on the various topics, City Council asked various questions: (1) most proud of; (2) City's greatest strengths to be sure to preserve and leverage in 2014; (3) how do strengths fit with residents' expectations; (4) how can the City best meet the needs of residents/stakeholders; (5) what are the opportunities given external forces; (6) top opportunities to focus on; (7) what should City be most passionate about; (8) given strengths & opportunities, what direction should City go in; (9) what strategic initiatives does Council want to focus on (projects, programs, etc.); (10) resources needed; and (11) three-five indicators to demonstrate.

City Council then invited the public to join them in breakout sessions to discuss the 2013-14 Strategic Operating Plan. Following the breakout sessions, presentations were given from each breakout group, after which City Council discussed their priorities and goals for 2014-15, mainly with the information from the breakout sessions.

Using the considerable discussion by Council, along with the information from the breakout sessions, staff attempted to begin wordsmithing Council's goals and action items; however, ultimately it was the consensus of Council to have City staff wordsmith their priorities and goals and provide them to Council for review at an upcoming worksession for finalization and at a formal meeting for adoption.

At 3:53 p.m., Mayor Manheimer recessed the retreat until 9:00 a.m. on Saturday, February 8, 2014, at the U.S. Cellular Center.

Saturday – February 8, 2014 - 9:00 a.m.
U.S. Cellular Center

Continuation of Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

Mr. Paul Myers, Executive Director of the N.C. League of Municipalities, reviewed with Council a PowerPoint for "Positioning your City for Legislative Success." He stressed the importance of City/County/legislative relationships, regional collaboration, and ways to implement the legislative agenda.

Mr. Jack Cozort, the City's legal representative, said that he is looking at how Asheville can develop a comprehensive legislative approach and agenda. He said that he would come back to Council in approximately one month with next steps.

There was discussion on Asheville's perception in Raleigh and ways that Asheville needs to change that perception, which in part is to communicate and demonstrate how Asheville is being proactive and doing good things.

City Manager Jackson explained the strategy for improving the City's communication and public engagement, while Director of Communication and Public Engagement Dawa Hitch explained the following three areas that have potential to improve the City's image and improve the effectiveness of the City's interactions with residents and stakeholders (1) continuing to grow and improve a diverse communication portfolio; (2) encourage a culture of engagement in the organization; and (3) effectively manage engagement in the community. Council provided good information in ways our board and commission members can help spread the good work of the City, along with suggestions for the City's electronic newsletter and the possibility of major committee meetings being posted to U-Tube.

City Manager Jackson, along with Mayor Manheimer, reviewed with Council the new City Council Governance Committee, reminding them that there is a need to explore implications of policy alternatives and the policy development process in the areas of strategic planning, intergovernmental relationships, legislative agendas, and public engagement. The Governance Committee will serve in an advisory capacity to the Council as a whole. Mayor Manheimer (Chair), Vice-Mayor Hunt and Councilman Smith were previously appointed to the Governance Committee. Ms. Hitch, Interim Deputy City Manager Mike Morgan and he will staff the new Committee. The idea is for Council to prioritize ideas, delegate them to the Governance Committee and then, with staff, develop an action plan for the new Committee. This Committee will function as any other City Council Committee and if any recommendations are needed, they will be forwarded to the full Council. It was noted that the functions of the Governance Committee will be revised in six months.

At 11:45 a.m., Mayor Manheimer adjourned the meeting.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – February 11, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Marc W. Hunt (family emergency)

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF JACK INGRAM

On behalf of City Council, Mayor Manheimer and Councilman Davis were pleased to present to Mr. Jack Ingram, recent NASCAR inductee into the National Hall of Fame, a recognition proclamation for his exemplary performance in auto racing, and a key to the City.

B. PROCLAMATION PROCLAIMING FEBRUARY 12, 2014, AS "RED HAND DAY"

Mayor Manheimer read the proclamation proclaiming February 12, 2014, as "Red Hand Day" in the City of Asheville. She presented the proclamation to Ms. Heather Kinlin, who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING FEBRUARY 12, 2014, AS "DARWIN DAY"

Councilman Bothwell read the proclamation proclaiming February 12, 2014, as "Darwin Day" in the City of Asheville. He presented the proclamation to Ms. Jennifer Lovejoy, President of WNC Humanists.

D. EMPLOYEE RECOGNITION

City Manager Jackson recognized Director of Water Resources Steve Shoaf who was chosen by the American Water Works Association as Vice-President of the international association, which advocates and educates for clean water across the North American Continent.

On behalf of City Council, Mayor Manheimer thanked Mr. Shoaf for his professionalism and skill he brings to the City of Asheville and City Council.

II. CONSENT AGENDA:

At the request of City staff, Consent Agenda Item "H" was added to the Consent Agenda for discussion and/or individual votes.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 28, 2014

B. RESOLUTION NO. 14-23 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A CONTRACT WITH GRAHAM LAND COMPANY, LLC

FOR THE HANDY PARK BUILDING DEMOLITION AND RETAINING WALL CONSTRUCTION PROJECT

ORDINANCE NO. 4276 - BUDGET AMENDMENT FOR THE HANDY PARK BUILDING DEMOLITION AND RETAINING WALL CONSTRUCTION PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $359,981 plus a contingency of 15% ($53,997) with Graham Land Company, LLC for the project known as Handy Park Building Demolition and Retaining Wall Construction; and (2) a budget amendment in the amount of $413,978 from debt proceeds as part of the Community and Economic Development Capital Improvement Program (EDCIP).

The former Handy Park structure is a former two-story parking deck that is in disrepair and is a liability due to its dilapidated condition. The adjacent structure, the former Flying Frog restaurant, is in similar condition. These structures are owned by the City of Asheville, and as the owner the City of Asheville is responsible should any injuries occur at either site. City of Asheville staff has determined that these structures should not remain as they stand due to poor aesthetics and potential liability issues. Removal of these structures entails demolition of the structures and installation of a retaining wall to maintain the integrity of the site's soils. The retaining wall is a temporary measure and is expected to be removed once the properties are sold. The project was advertised on December 10, 2013. Bids were opened with Graham Land Company, LLC of Robbinsville, NC, being the lowest responsible bidder with a bid of $359,981. A 15% contingency ($53,997) has been added to allow payment for any unforeseen costs that typically arise during construction. The work produced from this contract would resolve liability issues associated with these dilapidated structures and remove unsightly blighted structures from downtown.

The estimated completion date is 53 calendar days from the official notice to proceed date (assuming City Council approval on February 11, 2014, the notice to proceed will be issued on February 12, 2014).

As noted above, this project will be funded with debt proceeds as part of the Community and Economic Development Capital Improvement Program (EDCIP). The City will utilize a construction financing arrangement (draw program) to meet cash flow needs on EDCIP projects with full debt issuance likely occurring at twenty-four month intervals. This financing approach will allow the City to maximize the use of EDCIP funds.

City staff recommends City Council adopt a (1) resolution awarding the contract to Graham Land Company, LLC and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $359,981 plus a contingency of 15% ($53,997), for a total of $413,978, with Graham Land Company, LLC for the project known as Handy Park Building Demolition and Retaining Wall Construction; and (2) the associated budget amendment.

RESOLUTION BOOK NO. 36 - PAGE 67
ORDINANCE BOOK NO. 28 - PAGE 453

C. MOTION APPOINTING ALAN GLINES TO THE ASHEVILLE REGIONAL HOUSING CONSORTIUM TO SERVE AT COUNCIL'S PLEASURE

Summary: The Asheville Regional Housing Consortium was formed in 1993 to serve as the governing body for policy and funding recommendations for the HOME Partnership Act Program, for which the City of Asheville is funded by the US Department of Housing and Urban Development.

The Consortium is comprised of participating local government- counties and municipalities- located in Buncombe, Henderson, Madison and Transylvania Counties. Each Consortium member provides representation to the Consortium Board of Directors, serving at the pleasure of the member's elected governing body. The City of Asheville is provided two Board members- one, the Chair of the City's Housing and Community Development Committee (who also chairs the Consortium Board), and one additional representative.

The City now has the opportunity to appoint a new representative, to replace Brenda Mills who has served in this position for the position for the past six years. Except for the City Council representative and one other person, all other Board members serve in staff positions for their respective local governments.

During the January 21, 2014, Housing & Community Development Committee meeting, City staff recommended Alan Glines as the new City representative. Alan has worked for the City of Asheville for 17 years. In 2001, Alan joined the Planning and Development Department where he now holds the position of Planner II. Alan's current work focuses on development review especially in the downtown area, long range planning efforts, and coordination of the Downtown Commission's design subcommittee and other special projects. Alan received a Master's of Landscape Architecture degree from North Carolina State University and has been a past board member of Asheville Greenworks and Neighborhood Housing Services

The Housing & Community Development Committee members approved the recommendation.

Staff recommends City Council appoint Alan Glines as a Board member of the Asheville Regional Housing Consortium.

D. RESOLUTION NO. 14-24 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO N AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE METROPOLITAN PLANNING PROGRAM, SECTION 5303 OF THE FEDERAL TRANSIT ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grants administration and reporting activities, short range and long range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Projects Coordinator position (90% of the grant) and a portion of the Transportation Manager position (the remaining 10%) for time spent on transit planning.

FY 2013-14 funding totals $60,430. The subject grant will provide 80% of the anticipated funding ($48,344), the North Carolina Department of Transportation will provide 10% ($6,043), and the City will provide the remaining 10% ($6,043). The grant funding and the City's local match in the amount of $6,043 are currently budgeted in the Transportation Department's approved budget for the current fiscal year.

The Transit Committee supports the subject action.

The total grant funding for Fiscal Year 2013-14 is $60,430. The City is required to provide a 10% local match in the amount of $6,043. The anticipated grant funding and the City's local match in the amount of $6,043 are already budgeted in the Transit Services Fund.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2013-14.

RESOLUTION BOOK NO. 36 - PAGE 68

E. RESOLUTION NO. 14-25 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM TO INITIATE A DWI TASK FORCE IN ASHEVILLE & BUNCOMBE COUNTY

ORDINANCE NO. 4277 - BUDGET AMENDMENT FOR DWI TASK FORCE IN ASHEVILLE & BUNCOMBE COUNTY

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a contract with the North Carolina Governor's Highway Safety Program (NCGHSP) for a grant to fund a multi-jurisdictional DWI Task Force involving the Asheville Police Department (APD) and Buncombe County Sheriff's Office (BCSO); and (2) a budget amendment in the amount of $724,861 to establish a budget for the first year of the grant.

In Asheville and Buncombe County, the number of impaired drivers has been a serious concern to citizens and law enforcement for many years. Since 2010, there have been 4,434 DWI arrests by Buncombe County law enforcement agencies, more than 1,024 traffic collisions that have involved impaired drivers and 18 fatal collisions as a result of an .08 Blood Alcohol Content (BAC) or higher.

In reviewing these statistics, the NCGHSP contacted APD and suggested a DWI Task Force with a goal of reducing the number of DWI related collisions, injuries and deaths in Asheville and Buncombe County, as well as educating the public on impaired driving and its effects. They proposed applying for a grant in the amount of $724,861 in FY 2014 that would cover 100% of the cost, or $329,250, to purchase vehicles, uniforms, and equipment, and to train six officers on DWI enforcement and education. The remaining $395,611 of the grant would cover 100% of the salary and benefits costs for four years at a diminishing rate for these officers. Under this grant, APD would supply one sergeant and three officers while BCSO would supply two officers. These six officers would conduct targeted DWI enforcement throughout Asheville and Buncombe County and conduct DWI, seat-belt and night-time traffic safety checking stations throughout the County. The appointed officers would also hold educational events at local high schools that would focus on teen driving safety, impaired driving, distracted driving and seat-belt compliance.

On August 27, 2013, Asheville City Council passed Resolution 13-188 authorizing the City Manager to apply for grant funds for this project. On September 30, NCGHSP Director Don Nail authorized the Asheville Police Department to submit the contract to enter into an agreement for this grant funding for the DWI Task Force.

The general fund impact to the City would be approximately $253,957 over the four year grant cycle. At the end of the four years, the general fund impact would be approximately $267,325 per year to permanently add one sergeant and three officers to the APD roster, and to provide their equipment as needed. The chart below outlines the general fund impact over the next four fiscal years.

FY 2014	$0
FY 2015	$40,098
FY 2016	$80,197
FY 2017	$133,662

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a contract and accept grant funds through the North Carolina Governor's Highway Safety Program; and (2) a budget amendment in the amount of $724,861 to establish a budget for the first year of the grant.

RESOLUTION BOOK NO. 36 - PAGE 69
ORDINANCE BOOK NO. 28 - PAGE 455

F. ORDINANCE NO. 4278 - BUDGET AMENDMENT FOR THE PURCHASE OF ADDITIONAL SALT AND SAND

Summary: The consideration of a budget amendment, in the amount of $150,000, from unassigned fund balance to increase the General Fund winter storm control budget to allow for the purchase of additional salt and sand.

Over the last several fiscal years, staff has budgeted approximately $120,000 to purchase materials (salt and sand) for winter storm control. After two consecutive mild winters in which actual expenditures for salt and sand came in well under budget, staff reduced the FY 2013-14 storm control budget during the budget process last spring with a plan to return to Council mid-year if weather conditions required the use of additional materials.

With the unusually cold start to the 2013-14 winter that required the use of sand and salt to treat City streets on five occasions and the pending winter storm this week, staff has depleted the approved budget and is requesting that Council approve the budget amendment that will increase the budget appropriation by $150,000. Staff believes that the additional $150,000 will provide sufficient resources to fund the purchase of materials for the remainder of the winter season.

Pro:

- Provides the required budget authorization for the purchase of additional salt and sand materials for winter storm control.

Con:

- Requires an appropriation from unassigned fund balance.

This budget amendment includes the appropriation of $150,000 from unassigned fund balance in the General Fund. As reported to City Council during the recent audit presentation, the City ended FY 2012-13 with an unassigned General Fund fund balance of $15.48 million, which was approximately $2.3 million above the City's 15% policy target. With the $150,000 fund balance appropriation for this budget amendment, the City will still be approximately $2.1 million above the 15% policy target.

City staff recommends City Council adopt a budget amendment, in the amount of $150,000, from unassigned fund balance to increase the General Fund winter storm control budget to allow for the purchase of additional salt and sand.

Mayor Manheimer gave some statistics regarding the City's preparedness for snow storms.

ORDINANCE BOOK NO. 28 - PAGE 457

G. RESOLUTION NO. 14-26 - RESOLUTION ADOPTING THE CASH AND INVESTMENT POLICY

Summary: The consideration changes to the City of Asheville's Financial Policy to include a Cash and Investments Policy.

Efficient cash management and effective investment activity are fundamental responsibilities of governing bodies and a vital statutory function of finance officers in North Carolina. Deposit and investment activities of local governments are guided by provisions of the NC General Statutes (NCGS), specifically Chapter 159, Article 3 – The Local Government Budget and Fiscal Control Act.

A written cash and investments policy that is adopted by the governing board to establish guidelines for management of public funds is strongly recommended as best practice by the Government Finance Officers Association (GFOA) and the NC Treasurer's office.

The City has historically followed an informal plan of investing idle public funds. During a review of investment performance with the Finance Committee on October 22, 2013, it was suggested that staff poll peer municipalities across the state to determine which units of government had adopted formal cash and investments policies. The Finance Committee also requested that the City Manager and Finance staff propose such a policy if research indicated such formalization and adoption. The table below summarizes the results of the poll our staff conducted.

Unit	Yes, formal policy	No formal policy
Cary	X	
Concord	X	
Wilmington	X	
Charlotte		X
Wilson		X
Winston-Salem	X	
Greenville	X	

City staff recommends that City Council adopt the changes to the City of Asheville's Financial Policy to include a Cash and Investments Policy.

RESOLUTION BOOK NO. 35 – PAGE 70

H. RESOLUTION NO. 14-31 - RESOLUTION AUTHORIZING PAYMENT TO DELPHI DEVELOPMENT FOR OBTAINING A "QUIET ZONE" DESIGNATION AT LYMAN STREET

ORDINANCE NO. 4279 - BUDGET AMENDMENT FOR "QUIET ZONE" DESIGNATION AT LYMAN STREET

Summary: The consideration of a resolution authorizing the payment of $15,000 to Delphi Development for obtaining a "Quiet Zone" designation for the railroad crossing at Lyman Street; and the associated budget amendment in the amount of $15,000 from the City's General Fund Balance to fund this request.

As a general rule, the railroad industry follow protocol for blowing train whistles at railroad crossings for safety purposes. The noise from these whistles can be a deterrent to growth and economic development particularly for housing. It is difficult to have railroad crossings designated as a "Quiet Zones" because of the design, signage and location of the crossing.

Delphi Development contracted with a company to work with Norfolk Southern to designate the Lyman Street Crossing in the River Arts District as a "Quiet Zone." The cost of the consultant was $30,000. The City of Asheville made the application to Norfolk Southern, paid the application fee of $2,800 and installed approximately $5,000 of additional signs to make the crossing safe.

The Quiet Zone designation has now been approved for the Lyman Street Crossing.

As mentioned earlier in the staff report, the cost of the consultant was $30,000 paid by Delphi Development to obtain approval of the quiet zone by Norfolk Southern. The staff recommends the City pay 50% of the fee up to $15,000, contingent on the City receiving paid invoices from Delphi Development to the Consultant. In addition, the City has paid the application to Norfolk Southern, in the amount of $2,800 and installed approximately $5,000 of additional signs to make the crossing safe.

City staff recommends City Council adopt a resolution authorizing the payment of $15,000 to Delphi Development for obtaining a "Quiet Zone" designation for the railroad crossing at Lyman Street; and the associated budget amendment in the amount of $15,000 from the City's General Fund Balance to fund this request.

RESOLUTION BOOK NO. 36 - PAGE 80
ORDINANCE BOOK NO. 28 - PAGE 459

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda, with the addition of Consent Agenda "H". This motion was seconded by Councilman Smith and carried unanimously.

III. PRESENTATIONS & REPORTS: None.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF 12.33 ACRES FOR A PROJECT KNOWN AS THE AVALON LOCATED ON SWEETEN CREEK ROAD FROM INDUSTRIAL DISTRICT TO RM-16 MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING

Mayor Manheimer said that this public hearing was opened and continued from the December 10, 2013, meeting until this date. Earlier today, Mr. W. Louis Bissette, attorney for the applicant, requested a continuance to February 25, 2014, due to inclement weather.

Councilwoman Wisler moved to continue this public hearing, without further advertisement, until February 25, 2014. This motion was seconded by Councilman Pelly and carried unanimously.

B. PUBLIC HEARING TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES TO ADD STANDARDS TO ALLOW THE USE OF ELECTRIFIED SECURITY FENCES IN ZONING DISTRICTS THAT ALLOW INDUSTRIAL USES

ORDINANCE NO. 4280 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ADD STANDARDS TO ALLOW THE USE OF ELECTRIFIED SECURITY FENCES IN ZONING DISTRICTS THAT ALLOW INDUSTRIAL USES

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance to amend Chapter 7 of the Code of Ordinances to add standards to allow the use of electrified security fences in zoning districts that allow industrial uses. This public hearing was advertised on January 31 and February 7, 2014.

Earlier this year a local business requested a permit to install electrified security fences. These are not currently allowed or disallowed; but the Fire Marshall had concerns about the product and held the permit. The business owner with representatives from the fence company appeared before the Public Safety Committee in the summer. The Committee heard the information presented by the fence company and the concerns of the staff; and then requested further information from staff including practices of other cities in North Carolina. The Fire Marshall returned to the Public Safety Committee in October with additional information. That research revealed that there is no consensus in the state regarding this use. The cites of Fayetteville and Durham specifically allow them, Raleigh, Gaston County, and Cary specifically do not allow them, and Charlotte, while silent regarding them in their zoning, allows them by default.

After discussion the Committee directed staff to prepare a change to the appropriate city ordinances to allow the use of these fences for consideration by the full Council. The ordinance change presented reflects that request.

After internal discussion staff determined that the most appropriate location for the regulations (following practice in cities where the fences are allowed) would be in the section of the UDO that regulates fences and walls, Section 7-10-3. The modifications combine suggested model language from the company that sells these fences and criteria to address staff concerns.

As proposed these electric fences would be allowed only in the Industrial, Light Industrial, and Commercial Industrial zoning districts – as outdoor storage of supplies and equipment vulnerable to theft are most likely to be located in those districts. Further, they would be prohibited from being built within any public right-of-way, utility right-of-way, public construction easement, or within 1,000 feet of any residential use. The table below summarizes the proposed standards.

Energizer Standards	Storage battery only of no more than 12 volts DC
	No connection to any overhead power post
	No connection to more than one energizer per section
	Lightening diverter/arrestor required between fence and energizers
	Must be connected to a dedicated ground system
	Must be not be connected to any building or plumbing system
	Must be at least 10 feet from any buried pipes, wire, or other utilities
	Ground system cables must be properly insulated

Electric Charge	Must not exceed standards of IEC latest edition
	Must regulate voltage, pulse, amperage at all times
Fence Design	Must not interfere with nearby transmission lines
	Must not interfere with overhead utility lines or their maintenance
Alarm System	Must be equipped with a monitoring alarm system
	Must obtain a permit meeting City of Asheville standards *and meet the standards of Article II, Section 13 of the City Code*
Height	The electric fence may not exceed 10 feet in height
	The perimeter nonelectric fence may not exceed 10 feet in height
	Any portion of either fence taller than 6 feet must be located beyond the front setback
	Any portion of either fence taller than 8 feet must be located beyond the front or rear setback
Separation	The electric fence must be separated from the perimeter nonelectric fence by an area between 12 and 36 inches wide
	The area between the fences must be free of vegetation or objects
	The lowest portion of the perimeter fence must be close enough to the ground to that no space exists.
Warning Sign	At least one warning sign must be placed on each side of the fenced area, no higher than four feet from the ground
	There may be no less than 25 feet between such signs
	There must also be at least one sign put onto any vehicle or pedestrian access gate.
	The sign must not be larger than 1 square foot in size, with lettering a minimum of 1 inch high
	The sign must be black, or black and red, on a white or yellow background.
	The sign must state: "Danger – Electric Fence" or "Warning – Electric Fence" in English and Spanish
	The sign must include an illustration indicating the potential for electric shock
Disconnect Switch	A disconnect switch in a "key box" of a design approved by the Fire Department must be installed at a location acceptable to the Fire Department that will disconnect the electric fence completely from all energizers if required by police, fire, or other emergency personnel
	The location of the switch must be clearly marked and easily observable and accessible from the main entry path

The proposal can be said to comply with the Asheville City Development Plan 2025 in that it works toward improving security options for businesses in Asheville. It can also be said to comply with the City Council's Strategic Plan in that it works toward the goal of improving economic growth and financial sustainability by improving security options for businesses in Asheville.

The Planning and Zoning Commission reviewed this wording amendment at their January 16, 2014, meeting and after a brief discussion voted 4-2 (with 1 absent) to support the change, with one modification. The Commission requested that the change be modified to reflect that the alarm systems would be governed under the existing city code requirements for alarm systems. That change (referencing Article II, Section 13-31) has been added to the proposed ordinance as shown (shaded) below:

c. *Alarm system* - Electrified fences must be equipped with a monitoring alarm system and must obtain a permit meeting the standards of the City of Asheville for alarms in Article II of Section 13-31 of the City Code that activates simultaneously with any contact to the electrified area of the fence.

There may be minor fiscal impacts. Based on the above findings and the analysis provided in the report, staff believes that the change will have some limited fiscal impact if enforcement by APD is needed when an alarm goes off.

Staff recommends approval of this amendment to Section 7-10-3 fining that the request is reasonable and is consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation, and as it reflects the desire of the Public Safety Committee to provide this added security option for local businesses.

She asked for two small amendments: (1) the definition for the electrified security fences include "utility facilities"; and (2) the reference of the Fire Code in "Chapter 13, Article 2, Section 13-32 of the City Code".

Mayor Manheimer opened the public hearing at 5:31 p.m., and when no one spoke she closed the public hearing at 5:31 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Wisler found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4280, as amended by City staff. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 461

V. UNFINISHED BUSINESS: None

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-27 - RESOLUTION TO ESTABLISH A LONG RANGE RESIDENTIAL WASTE REDUCTION GOAL TO GUIDE MUNICIPAL WASTE SERVICES

Chief Sustainability Officer Maggie Ullman said that this is the consideration of a resolution to establish a long range residential waste reduction goal to guide municipal waste services.

The City of Asheville's commitment to waste reduction started in 1997 when the residential recycling program was established. Recently, in response to Council Strategic Goals to *reduce community wide waste* the city implemented the single stream recycling and education program called Zero Waste AVL. This program merged the types of materials into one container and increased the size of the recycling container to match the landfill waste container. Affectionately referred to as Big Blue in the community, this April 2012 service enhancement resulted in a 6.4% decrease in the waste going to the Buncombe County landfill from Asheville residents who are served by municipal waste services. In August 2013, the city entered into a partnership with Buncombe County to assess the feasibility of building a compost processing facility at the county landfill in order to open the opportunity for future compost collection for Asheville residents. Throughout these recent service enhancements and explorations the Sustainability Advisory Committee on Energy and the Environment (SACEE) has been researching national best practices and associated policies in waste reduction.

The resolution, written by the SACEE Committee, and recommended by staff, is intended to achieve the following long range goals:

- Extend the life of the Buncombe County landfill, currently projected to reach capacity in 2035

- Increase reuse, recycling, and composting of waste
- Enhance the local economy by diversifying waste services

The following areas are important to understand when considering a long term residential waste reduction policy: landfill capacity, waste composition, and waste data and trends.

Landfill Capacity: Municipal solid waste collected from Asheville residents is taken to the Buncombe County landfill in North Buncombe. Depending on the year this waste accounts for 16-22% of the total waste going to the landfill. When the landfill opened in 1996 it had a projected lifespan of 30 years until 2026. Due to the recession, when consumption patterns decreased and the construction industry significantly slowed, the projected lifespan of the landfill was delayed to 2035. Although, about 20 years away, efforts to plan for the BC landfill closure are in their earliest phases and will increase in the next 5 years.

Due to the significant amount of time locating, permitting, and planning for a new local landfill or to create partnerships to haul local waste out of county or out of state it is prudent to evaluate options now. Either of these future scenarios will require a significant public expense paid for by Buncombe County and Asheville City citizens. Another option is to commit to reduce waste in order to extend the life of the landfill as long as possible. This waste reduction policy is designed to reduce the amount of Asheville residential waste going into the landfill by 50% by 2035.

Waste Composition: In order to evaluate the potential success of a waste reduction policy it is important to understand what is currently being thrown away and taken to the landfill. Through the aforementioned Buncombe County partnership to investigate composting a residential garbage waste audit was completed in November 2013. The results of this audit, which sorted a statistically significantly sample of the waste stream, show that 18% of what is going to the landfill could be recycled and 26% is organic waste which could be composted. When combined 44% of what is being thrown away by Asheville residents could be processed differently and be diverted from the landfill. The proposed resolution calls for a 50% total reduction in landfill waste because staff believes that over time a combination of service expansions for recycling and compost in addition to starting reduction and reuse education programming would yield a total reduction of 50% in the suggested 21 year timeframe.

Residential Waste Data and Trends: The recent trends in Asheville residential curbside waste collection show steady reductions of waste going to the landfill. The two largest decreases in landfill waste were from 2008 to 2009 which corresponds with national residential waste reduction trends due to the recession and then from 2011 to 2012 when the city introduced Big Blue to our neighborhoods. The reduction during those two episodes was 5.8% and 5.4% respectively. Over the last three years since the city has increased recycling education through the Zero Waste AVL program and delivered Big Blue the tons of recycling increased by 25%.

Brush collection is not included in the waste reduction policy because the brush is not going to the landfill but being ground down through the private sector and reused for mulch. It is important to note the fluctuations of brush over time are highly dependent on weather events such as severe winter storms which generate tree falls and limb damage as well as increased rain fall amounts which fuels plant growth. The long term waste reduction policy is intended to continue reducing waste by establishing a strong leadership commitment to waste reduction despite future economic recovery, population growth, and competing municipal priorities over time.

Best Practice Research: SACEE went through a due diligence process to research and assess how the municipality could utilize best practices to support a long range plan and commitment to waste reduction. The trend in waste reduction is to establish a reduction policy with incremental targets for reduction in landfill waste over time as is proposed in the resolution under consideration. At least 30 municipalities have established such policies with varying targets

and timelines based on the local context of municipal waste service, landfill capacity, and community support. The city of Carrboro, NC created a waste diversion target for their residential sector of 61% per capita up from 56% per capita. Austin, TX approved a policy setting a goal of 90% landfill diversion from the residential sector by the year 2040.

The waste reduction policy proposes the following: Establish a goal of 50% residential solid waste reduction by total tonnage by the year 2035. This goal will be measured from the baseline year of 2010 and result in total reductions of:

15% by 2020, 25% by 2025, 40% by 2030, 50% by 2035.

Financial Considerations: When faced with a million dollar service expansion to purchase Big Blue recycling containers for 30,000 households, staff was able to design the program to be revenue neutral. This was achieved by borrowing money to purchase the roll carts and paying it back each year through the money saved in tipping fees at the landfill. In FY13 the city spent $1.1 Million on tipping fees to dispose garbage at the landfill. In order to achieve a 50% waste reduction goal there will likely be additional costs over time. Through replicating the successful savings recycling program stated above staff believes there is great opportunity to manage potential future cost increases by first looking to tipping fee savings as a funding source.

Included in the supporting documents of this proposal is a long term waste reduction plan. This plan is not intended to be a binding plan but a path forward with potential options for staff and Council to evaluate over time. Any and all service expansions or cost changes in waste reduction services would be considered by Council on an annual basis during the budget process.

This resolution supports the following activities in the Strategic Operating Plan: 1) Ask employees to innovate and seek savings.

There is no direct fiscal impact. Any changes to solid waste services will be considered on an annual basis as part of the fees and charges and/or the budget approval processes.

City staff recommends City Council adopt a resolution to establish a long range residential waste reduction goal to guide municipal waste services.

Councilman Smith hoped we will be able to look at increasing that target over time.

In response to Councilman Davis, Ms. Ullman said that the partnership conversation with Buncombe County has been very positive.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 14-27. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 73

B. RESOLUTION NO. 14-28 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MULTI-YEAR PARTNERSHIP WITH MOOG INSTITUTE FOR MOOGFEST

ORDINANCE NO. 4281 - BUDGET AMENDMENT FOR MOOGFEST

Economic Development Specialist for Events Jon Fillman said that this is the consideration of (1) a resolution authorizing a multi-year partnership with Moog Institute for Moogfest; and (2) a budget amendment in the amount of $40,000 from unassigned General Fund fund balance to provide budget authorization for FY 2013-14 Moogfest support.

Moog Institute, a local non-profit organization has requested financial and in-kind support from the City of Asheville through the Office of Economic Development for the production of Moogfest. The request was presented to the Planning & Economic Development Committee for consideration who passed a motion in support of a performance-based partnership at the meeting held on January 21, 2014.

Moogfest is described as an economic development engine for Asheville in the form of a unique hybrid innovation conference, job fair, technology expo and music event held over multiple days, in multiple venues across downtown Asheville. Moogfest's five-day conference is designed as an immersive learning experience targeted to position Asheville as a hub of technology and creativity. The synthesis of Moogfest connects industry leaders to qualified talent, joins corporate sponsors with businesses, and generates content to influence capital investment. Moogfest is a mechanism intended to promote job creation and job growth through a catalytic approach to the development of a technology industry cluster in Asheville.

Moogfest attendance is estimated at 20,000 – 30,000 utilizing 7,300 hotel room nights. Anticipated media value is expected to reach $10M with an overall $30M direct economic impact from the conference overall. Moogfest is funded by over $3M in private investment and is attracting corporate sponsorship commitments ranging from $5K - $300K.

Moog Institute has requested the City of Asheville provide $40K in financial support and a maximum value of $50K of in-kind support per year for three years beginning with the April, 2014 conference. Staff is in support of establishing a multi-year, performance-based partnership agreement with Moog Institute for Moogfest. Post-event reports and an economic impact study to be conducted by the Asheville Area Chamber of Commerce would be used as measurement tools to evaluate outcomes in the areas of job creation and job growth. Specific requirements of the partnership include the creation of a minimum of 10 full-time positions or equivalent combination of temporary and seasonal positions, host no less than 10 technology companies in Asheville with the capacity to relocate or expand and create jobs, and accommodate at least 25 manufacturers in the event's temporary retail environment.

Pros:

- Furthers Economic Development initiatives in the areas of job growth and job creation;
- Meets strategic operating plan goals of leveraging investment in special event partnerships; promoting an environment for investment
- Performance driven investment;
- Supports economic impact in the form of hotel sales and occupancy taxes, retail and sales tax generation;
- Supports development of an identified economic cluster in the City;
- Supports public/private cooperation as well as support for a non-profit organization.

Cons:

- Requires financial support that was not allocated in the City's 2013-14 budget;
- Has an impact on department staff costs for the utilization of in-kind services including staff time, police, fire, and public works;
- Results in lost revenue for permits, parking fees and rentals;
- Contains risks associated with supporting a new economic development concept.

The fiscal impact is a $40,000 financial investment per year. $50,000 of in-kind support and fee waivers per year for a maximum value of $90,000 per year at a maximum term of three years as defined appropriate to support permitting, space uses and on-site conference operations. As noted above, the $40,000 in financial support for the April 2014 conference was not included in the FY 2013-14 adopted General Fund budget, therefore an appropriation from unassigned fund balance is required to provide budget authorization for this payment. As reported to City Council during the recent audit presentation, the City ended FY 2012-13 with an unassigned General Fund fund balance of $15.48 million, which was approximately $2.3 million above the City's 15% policy target.

Staff recommends City Council approve (1) a resolution authorizing the City Manager to execute a three-year, performance based partnership agreement between the City of Asheville and Moog Institute for Moogfest; and (2) a budget amendment in the amount of $40,000 from unassigned General Fund fund balance to provide budget authorization for FY 2013-14 Moogfest support.

Mr. Mike Adams, President and CEO of Moog Music, explained the short term benefits to Asheville being (1) $10 Million media value; 10,000 people per day x five nights; (3) 34,000 hotel room nights; and (4) approximately $30 Million economic impact. He then explained the long term benefits to Asheville which include (1) create the perception that Asheville is supportive of innovation; (2) transition tourism from "Play" to "Play with Purpose"; (3) attract entrepreneurs and the talent necessary to create jobs; and (4) increase local entrepreneurship. He urged City Council for their support.

In response to Councilman Smith, Mr. Fillman explained on the long-term economic development benefits of networking opportunities for people attending the conference. The networking opportunities will benefit job growth and job creation. In addition to connecting entrepreneurs to skill building, we will be introducing them to the region.

In response to Councilman Pelly, Mr. Adams explained how they are offering scholarships to students.

Councilwoman Wisler hoped that from the relationships built, it will result in good paying jobs and new visitors. She was supportive of the $50,000 in-kind services, but could not support the $40,000 request for a festival that is not open to the public and is not consistent with our other economic development funding.

Councilman Smith noted that even though it is a ticketed even, there is a job fair, tech expo, performance stages, etc. which will be free and open to the public.

Mayor Manheimer noted that this is not a replacement for the Bele Chere festival. She felt the City is taking more of an economic development approach for Moogfest. She was excited to see that Moog is trying to bring together arts and technology, noting we need to harvest a more technology sector. She felt this is an exciting economic development investment.

Councilman Davis felt this is a small amount of investment for the ultimate economic development benefits.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and ordinance and they would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-28. This motion was seconded by Councilman Smith and carried 5-1 vote with Councilwoman Wisler voting "no".

RESOLUTION BOOK NO. 35 – PAGE 76

Councilman Bothwell moved for the adoption of Ordinance No. 4281. This motion was seconded by Councilman Smith and carried on a 5-1 vote with Councilwoman Wisler voting "no".

ORDINANCE BOOK NO. 28 - PAGE 466

C. RESOLUTION NO. 14-29 - RESOLUTION AUTHORIZING THE FISCAL YEAR 2013-14 HOUSING TRUST FUND LOANS TO BEAUCATCHER COMMONS LLC AND GIVENS ESTATES INC.

Summary: The consideration of a resolution authorizing 2013-14 Housing Trust Fund loans to Beaucatcher Commons, LLC (Raleigh & Marietta Lots) and Givens Estates, Inc. (Givens Gerber Park Apartments).

Four applications for 2013-14 Housing Trust Fund financing were received this year. The total amount requested was $925,000. The projected Fiscal Year 2013-14 year-end balance in the Trust Fund available for new projects is $377,000. The applications were presented to the Housing and Community Development Committee (HCD) on January 21st. After review and discussion, the HCD Committee recommended loan funding for two of the applications:

1) Givens Estates, Inc. for the construction of 120 units of rental housing for seniors on Gerber Road in South Asheville, with the loan amount of $230,000 (adding to and amending their $270,000 award from last year); and
2) Beaucatcher Commons, LLC for the construction of six (6) rental units on three contiguous lots on Raleigh and Marietta Streets located in the Shiloh neighborhood in South Asheville, $90,000.

- Two projects were not recommended for funding: Pinnacle Point, a 38 unit family rental housing development proposed in South Asheville by Mountain Housing Opportunities; and Asheland Place, a 30 unit rental development for the "hardest-to-house" persons experiencing chronic homelessness, proposed by Biotat, LLCX. Project Descriptions for the Housing Trust Fund recommended projects are provided below:

Givens Gerber Park Apartments – Givens Estates, Inc. ($230,000)

- New Construction of 120 Senior Rental Units
  - (94 One-Bedroom; 26 Two-Bedroom)
- Total estimated Project Cost: $14,400,518
- Average Cost per Unit = $120,004 ($150.87 / SF)
- NCHFA Tax Credits Not Awarded in 2013; Will Reapply in 2014

Givens Estates has proposed a 120-unit multifamily rental development for low income seniors ages 55 and over in South Asheville on a 6-acre vacant site zoned Highway Business and located on Gerber Road between Hendersonville Road and Sweeten Creek Road. Once the 120 units are completed, 42 units will be considered new units, and 78 units will be considered replacement units for 78 existing HUD 202 senior apartments built in 1979, which are proposed to eventually be taken out of service and demolished due to obsolescence and lack of ADA accessibility. Givens Estates has also indicated that current residents of the existing 78 HUD 202 apartments will either be allowed to transfer their rent subsidies to the new apartments or will be provided vouchers.

The HTF loan and terms recommended are:

- A total of $500,000 in HTF funding is recommended (2013-14 Award: $270,000 + 2014-15 Request: $230,000).

- The loan will have a 20-year term at 2% interest with deferred principal payment, with the annual repayment amount to meet the requirements of the NCHFA 2014 Qualified Allocation Plan (QAP. Any unpaid interest will be due and payable at the end of the 20-year term.

If approved as recommended by the HCD Committee, the HTF repayment amount will be an annual payment based on actual cashflow.

30 of the 120 units will be reserved for tenants earning at or below 30% AMI. The remaining 90 units will be restricted to persons at or below 60% AMI. The project proposal meets the Fund's stated priority in that 78% (94) of the units will be one-bedroom units and the remaining units (26) will be 2-bedroom units.

The HTF per-unit subsidy is $4,167 based on 120 units. The loan request represents 3.5% of the total development costs. The average per-unit development cost is $120,004. With a total of 95,450 square feet of proposed floor space, the project cost per square foot is $150.87.

Pros:

- Substantial financial leverage will be achieved if the project receives a tax credit award.
- Extremely low per-unit HTF subsidy requested.
- Development site within ¼ mile of jobs, services, groceries, and transit.
- Energy efficiency with Energy Star and SystemVision certification.

Con:

- No other financing commitments have been received. The project failed to obtain 2013 tax credits, although it was very competitive relative to other projects.

Raleigh & Marietta Lots – Beaucatcher Commons, LLC ($90,000)

- New Construction of 6 Rental Units
  - 3 Lots; 1 3-BR Rental House & Garage Apartment on Each Lot
- Total Estimated Development Cost = $623,000
- Average Cost per Unit = $103,833 ($127.25 / SF)

Mr. Kirk Booth, principal owner of Beaucatcher Properties, LLC has proposed a 6-unit rental development on 3 contiguous lots located in the Shiloh neighborhood. The proposed units will be infill development in an older established neighborhood with water and sewer access available. Each of the three (3) development lots are currently zoned RS8 and will contain a three-bedroom single family rental home with a one-bedroom accessory apartment over a rear garage. The three-bedroom units will be rented at 80% AMI ($961/month) and the accessory units at 60% AMI ($489/month).

The developer requested a $120,000 loan. The HCD Committee recommends a $90,000 loan, with 50% of the note ($45,000) due as an amortizing loan over 30 years at 4.5% interest (3-bedroom units) and the remaining 50% of the note ($45,000) financed as interest-only at 2.00% annual interest with principal deferred for 20 years (accessory units). The HCD Committee left it to the developer to reduce project costs or find another funding source to make up the $30,000 difference.

The project proposal meets the Fund's stated priority in that 50% of the units will be one-bedroom floor plans. No TRC or P&Z review is required. The developer is ready to begin construction immediately and anticipates that the units could be completed and occupied by October 2015.

The recommended loan represents 14.4% of the total development cost as submitted by the applicant. The average per-unit development cost is $103,833. Based on a total of 4,896 square feet, the project's average cost per square foot is $127.25. The per-unit HTF subsidy is $15,000. The proposed development lots are located within 1/4 mile of a transit line. None of the units will be ADA accessible. The project will not be Energy Star certified but does incorporate many of the desired elements such as energy star appliances, low-e windows, low-flow water system, efficient lighting, and recycled flooring lumber.

Pros:

- Infill development supports strategic planning goals.
- The developer has completed other local projects in a timely manner.
- Developer is pledging affordability for 30 years.
- Units available to serve individuals transitioning from homelessness will be provided.

Con:

- Questions of design quality have been raised by neighbors regarding one of the developer's recent projects. Plans submitted by the developer for this project show a cottage design that appears compatible with the existing structures in the neighborhood.

The current projected year-end balance (as of July 31, 2014) in the Housing Trust Fund is $377,000. The total of the loans recommended by the HCD Committee is $320,000, which leaves a projected unreserved balance in the Trust Fund of $57,000. This should be a sufficient cushion in case Fund revenue does not meet expectations. No negative fiscal impacts associated with City Council approval of these loans is anticipated.

The Housing and Community Development Committee recommends City Council approve a resolution authorizing the following loans subject to the developers meeting all program requirements for loan closing.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 14-39. This motion was seconded by Councilwoman Wisler and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 77

D. BOARDS & COMMISSION

Regarding the City-County African American Heritage Commission, the following individuals applied for the vacancies: Donnell Sloan, Rebecca Bernstein, Phyllis Utley, James E. Lee III, Jan Goffney, Warren G. Smith, Angel Redmond, Sheneika Smith, Sandra Elaine Kilgore, Marvin D. Chambers, Johnnie N. Grant, Annie Burton, DeWayne Barton, Sasha F. Mitchell, Mychal Bacoate, Desmond McAfee, Jesse Junior, Lamar Hylton, Georgia M. Shannon, Alfred J. Whitesides Jr., Daniel Jonas Young, Viola J. Spells and Damita Jo Wilder. After each Council member announced their top three candidates for interviews; it was the consensus of Council to interview the top six as follows: Jan Goffney, Marvin D. Chamber, Johnnie N. Grant, DeWayne Barton, Lamar Hylton and Alfred J. Whitesides Jr..

Regarding the Asheville-Buncombe Historic Resources Commission, the following individuals applied for the vacancy: Stephens Smith Farrell, Tom Hartwell, Keaton Edwards, Jesse James, William S. Eakins, Gary Herndon, Patricia Darcy, Kendra Turner and Geoff Mohney. The Boards & Commissions Committee recommended appointing Kendra Turner. Councilman Pelly moved to appoint Kendra Turner and that motion was seconded by Councilman

Smith. Because another Council member requested an interview of William Eakins, Councilman Pelly withdrew his motion. It was the consensus of City Council to interview William Eakins.

RESOLUTION NO. 14-30 – RESOLUTION APPOINTING A MEMBER TO THE BOARD OF ELECTRICAL EXAMINERS

Councilman Davis, member of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Board of Electrical Examiners.

Mr. Harold Garland recently died, thus leaving an unexpired vacancy until July 1, 2015. Councilman Davis spoke highly of Mr. Garland's service as a City employee and then as the Chair to the Board of Electrical Examiners.

The following individual applied for the vacancy: Kenneth DeWayne Frisbee.

On February 11, 2014, it was the consensus of the Boards & Commissions Committee to appoint Kenneth Frisbee.

Councilman Smith moved to appoint Kenneth Frisbee to serve the unexpired term of Mr. Garland, term to expire July 1, 2015, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 79

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Lawsuit Report

The City was served with a Complaint on February 7, 2014, from Veronica Crouch vs. the City of Asheville. The nature of the proceeding is a complaint for personal injury from negligence of public transit bus driver. This matter will be handled by an attorney outside the City Attorney's Office.

Closed Session

At 6:42 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: City of Asheville; Wilcox, Mary Ann; and Henderson County and Cane Creek Water and Sewer District. The statutory authorization is contained in G.S. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:23 p.m.

Magdalen Bowlson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – February 25, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. N.C. FIRE CHIEF OF THE YEAR RECOGNITIONS

City Manager Jackson recognized Fire Chief Scott Burnette as being awarded the Career Fire Chief of the Year by the North Carolina Fire Chiefs Association. Greensboro Fire Chief Gregory H. Grayson (and former Asheville Fire Chief) nominated Chief Burnette for this recognition. This is the highest honor the NCFCA can bestow upon a member and speaks to the outstanding professionalism of Chief Burnette as well as the esteem with which he is held by his peers.

Director of Emergency Management Jerry VeHaun was also pleased to recognize the Volunteer Fire Chief of the Year Jeff Justice of the Reems Creek Fire Department.

City Manager Jackson noted Asheville's partnership with Reems Creek Fire Department which allowed our Standard of Cover in the Beaverdam area to increase from 20% to the high 90%.

On behalf of City Council, Mayor Manheimer thanked Chief Burnette and Reems Creek Fire Chief Justice for their professionalism and skill they bring to the City of Asheville and our area.

B. EMPLOYEE RECOGNITIONS

City Manager Jackson recognized several departments/individuals that performed at a high level of professionalism and efficiency during the entire winter storm period in mid-February 2014.

II. CONSENT AGENDA:

At the request of Mayor Manheimer. Consent Agenda Items "D" was removed from the Consent Agenda for discussion and/or individual votes.

A. APPROVAL OF THE MINUTES OF THE CITY COUNCIL RETREAT HELD ON FEBRUARY 7-8, 2014, AND THE REGULAR MEETING HELD ON FEBRUARY 11, 2014

B. MOTION APPROVING THE BOARD OF ALCOHOLIC BEVERAGE CONTROL'S TRAVEL POLICIES ADOPTED JUNE 28, 2011

Summary: Changes in Commission rules require ABC Boards across the state to adopt a travel policy that mirrors the travel policy of their appointing authority. In order to meet the requirements of Chapter 18B-700, Article 7 (g2), the Asheville ABC Board seeks to continue to use the travel policies of its appointing authority, the City of Asheville. Section g2 states, "The local board shall annually provide the appointing authority's written confirmation of such approval ..." The ABC Board approved the current policies on June 28, 2011. There are no changes to the current policies.

The Asheville ABC Board is requesting formal written confirmation of the approval of the Asheville Board of Alcoholic Control Board Member Travel Policy and the Asheville Board of Alcoholic Control Travel Policy.

C. RESOLUTION NO. 14-32 - RESOLUTION DELEGATING TO THE CITY MANAGER/DESIGNEE THE AUTHORITY TO EXEMPT IN WRITING, PARTICULAR PROJECTS UNDER $50,000 IN ACCORDANCE WITH SECTION 143-34.31 OF ARTICLE 3D OF CHAPTER 143 OF THE NORTH CAROLINA GENERAL STATUTES

Summary: The consideration of resolution delegating to the City Manager/designee, the authority to exempt in writing, particular projects under $50,000, in accordance with Section 143-34.31 of Article 3D of Chapter 143 of the North Carolina General Statutes.

N.C. Gen. Stat. sec. 143-64.31 is often referred to as the "Mini-Brooks Act." It requires that services for architects, engineers, surveyors or construction managers at risk be selected to perform work based on qualifications and not cost. In order to enter into contract with any of these professionals, state and local governments must solicit proposals from qualified professionals. The initial determination of which firm is best qualified must be done without regard to the fee or price.

The law allows for local governments to exempt projects from the provisions of this article for projects where the estimated professional fee is less than $50,000. This exception must be done by the local government body in writing. The local government can delegate this authority to the City Manager or his designee.

The purpose of the exemption is to allow government officials to hire professionals for projects where time and/or resources are limited. Staff recommends delegating this authority to the City Manager in order to expedite projects performed by these professional firms.

Staff is committed to the intent of the Mini-Brooks Act in that only qualified professionals would be contracted to perform work. Furthermore, staff would initially seek informal proposals from local firms for work expected to be less than $50,000. It is the intent of staff to contract with as many local firms as possible in order to achieve diversity in design and cost.

This exemption only includes projects where the professional services fee is under $50,000. All other projects would be procured through request for proposals and/or request for qualifications.

Staff benchmarked other cities, counties and towns in North Carolina to see how they managed this process. There is a variation of how each of these local governments process professional services under $50,000. Of the thirteen who responded, nine seek exemptions to the Mini-Brooks Act. Of those nine, six delegate the exemption authority to the City/County or Town Manager.

Pros:

- Significantly reduce staff resources and time in the procurement of professional services where the professional fee is anticipated to be less than $50,000.

- Provide opportunity to contract with local qualified professionals in a more efficient manner.
- Professional firms would not utilize their time and energy preparing proposals for small fees in which they are not selected.

Con:

- Qualified professional firms may be concerned that the city would contract with a limited number of professionals and without the opportunity to submit qualifications, may not have the opportunity to perform work for the City.

The fiscal impact to the City would be indirect in that staff resources would be spent in the design construction phase of the projects as opposed to the selection of the professional firm.

Staff recommends City Council adopt a resolution delegating to the City Manager/designee, the authority to exempt in writing, particular projects under $50,000, in accordance with Section 143-34.31 of Article 3D of Chapter 143 of the North Carolina General Statutes.

RESOLUTION BOOK NO. 36 - PAGE 81

D. RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A MEMORANDUM OF UNDERSTANDING TO ACCEPT A DONATION OF 48 ACRES OF REAL PROPERTY AT 98 DESOTA STREET FROM DUKE ENERGY PROGRESS AND ENTER INTO A CONSTRUCTION AND MAINTENANCE AGREEMENT FOR JOINT STORMWATER IMPROVEMENTS

This item was removed from the Consent Agenda for discussion and/or an individual vote.

E. RESOLUTION NO. 14-34 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT TWO REMNANT PARCELS OF REAL PROPERTY FROM THE N.C. DEPT. OF TRANSPORTATION FOR THE PURPOSE OF ASSEMBLING THE PROPERTY INTO EXISTING RIGHT-OF-WAY AT SWEETEN CREEK INDUSTRIAL PARK

Summary: The consideration of a resolution authorizing the Mayor to accept the conveyance of two parcels of N.C. Dept. of Transportation (NCDOT) remnant property on Sweeten Creek Industrial Park in order to assemble the property into existing City right-of-way.

On January 28, 2014 Council approved a resolution to accept 2.79 acres of remnant property along Sweeten Creek Industrial Park. NCDOT owns a second parcel along Sweeten Creek Industrial Park road and has offered to donate this parcel to the City. This parcel measures 2.09 acres (identified as PIN 9657-33-3015) and is within close proximity to the new GE Aviation facility. The City plans to assemble the property into the existing city right-of-way at Sweeten Creek Industrial Park.

Pros:

- Increases the City's right of way along an industrial corridor.
- Donation from NCDOT

Con:

- Modest additional maintenance costs.

No monetary consideration required for the conveyance. Deed recordation fees will be the responsibility of the City, which should not exceed $100.00.

City staff recommends City Council to adopt a resolution accepting the conveyance of NCDOT remnant property to assemble the property into existing right-of-way.

RESOLUTION BOOK NO. 36 - PAGE 83

F. RESOLUTION NO. 14-35 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH THE N.C. WATER AND WASTEWATER AGENCY RESPONSE NETWORK FOR AN INTRASTATE MUTUAL AID AND ASSISTANCE AGREEMENT BY AND BETWEEN WATER AND WASTEWATER UTILITIES

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with the North Carolina Water and Wastewater Agency Response Network (NCWaterWARN) for an intrastate mutual aid and assistance agreement by and between water and wastewater utilities.

The City of Asheville Water Resources Department wishes to enter into an intrastate mutual aid and assistance agreement by and between water and wastewater utilities. Through this agreement, members coordinate response activities and share resources during emergencies whether localized to the utilities or a declared disaster. The NCWaterWARN has prepared a contract to specify the role of its members, how to request assistance and the reimbursement of costs associated with the response to an emergency. This staff report seeks Council approval for the contract.

By entering into this mutual aid agreement, there is no duty to respond. Members may or may not choose to participate in any specific event. As circumstances develop, the provider may withdraw support after giving a notice of intent to withdraw. Reasonable costs for personnel (portal to portal), support of personnel, equipment and materials, as defined by FEMA or other agency, will be reimbursed by the recipient of the assistance.

A Member of NC WARN may withdraw after providing written notice of the intent to withdraw given to NCWaterWARN. The withdrawal takes place 60 days after NCWaterWARN receives the notice.

There is no cost incurred by entering into this agreement. There may be some incidental costs incurred when responding to a request for assistance, but the majority of expenses will be reimbursed by the recipient of the mutual aid.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a contract with the North Carolina Water and Wastewater Agency Response Network.

RESOLUTION BOOK NO. 36 - PAGE 84

G. RESOLUTION NO. 14-36 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDS AWARDED THROUGH THE 2013 BYRNE JUSTICE ASSISTANCE GRANT - LOCAL SOLICITATION

ORDINANCE NO. 4282 - BUDGET AMENDMENT FOR ACCEPTANCE OF 2013 BYRNE JUSTICE ASSISTANCE GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept funds awarded through the 2013 Byrne Justice Assistance Grant – Local Solicitation and (2) the accompanying budget amendment, in the amount of $53,016.

The Asheville Police Department has applied for and has been awarded the Byrne JAG 2013 – Local Solicitation. This predetermined amount of funds was based on the Part 1 Uniform

Crime Reporting Crimes. The Asheville Police Department and Buncombe County Sheriff's Department were allocated $53,016 based on the award matrix, with Asheville receiving $38,844 and Buncombe County receiving $14,172. The distribution of funds has been approved through a signed MOU.

APD plans to purchase in-car video systems to place in patrol cars. The recordings would generally serve as evidence to be utilized in court for the prosecution of criminal cases. However, recordings could also be used to aid in resolving allegations of wrongdoing by officers. This technology allows for an even greater level of protection of officers and citizens. The digital cameras provide high quality video/audio recording of events in and around the patrol car. Recordings such as this help protect the interests of citizens as well as the interests of police officers and City of Asheville. Recordings captured with these cameras could aid in mitigating potential civil liability for the City of Asheville by illustrating in detail the actual events that transpired. The secure evidentiary storage and wireless upload capabilities of the system create a user friendly system that is extremely secure and versatile.

The Buncombe County Sheriff's Office plans to purchase ATN Night Vision systems. The purpose of this equipment is to enhance officer safety and community safety through the use of technology. This equipment will allow officers to respond to crisis incidents during the hours of darkness or during reduced lighting conditions and operate as effectively as during daylight hours.

The APD will expend $38,844 for the in-car video equipment. The Buncombe County Sheriff's Department will expend $14,172 for the purchase of night vision equipment. This accounts for the total allocation of $53,016 for this Grant.

This is a 100% non-matching grant that will enable the APD to greatly enhance documentation of patrol related activities such as vehicle stops, pursuits, etc. The video evidence will prove to be very valuable in court for both civil and criminal offenses. Additionally, such evidence will be valuable to for internal investigations into officer actions and encounters. This will enhance accountability for officer actions and increase officer and public safety.

Pros:

- Increasing In-Car video will allow for better documentation of police related incidents.
- Increases officer and citizen accountability through recorded interactions.
- Partnership with Buncombe County Sheriff's Office

Con:

- None.

There is no fiscal impact at this time for City Council to approve the resolution accepting this grant award. There will be maintenance and replacement costs for the equipment that will need to be included in future fiscal year budgets.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept grant funds through US Office of Justice Programs; and (2) the associated budget amendment, in the amount of $53,016.

RESOLUTION BOOK NO. 36 - PAGE 85
ORDINANCE BOOK NO. 28 - PAGE 468

H. ORDINANCE NO. 4283 - BUDGET AMENDMENT FOR THE WNC NATURE CENTER

Summary: The consideration of a budget amendment in the amount of $1,084.89 to transfer funds from the FY12 North Carolina Department of Commerce allocation budget for the WNC Nature Center, to the FY14 allocation budget.

Each year the State of North Carolina in the Department of Commerce allocates funds to 25 to 30 member museums, science centers and nature centers in North Carolina. The WNC Nature Center is a member of the collaborative. In FY12, the City of Asheville was allocated $92,630 to support capital projects at the WNC Nature Center. Soon after, the City received an additional $1,084.89 as a reversion payback however the funds were not added to the budget at that time.

In order to be authorized to spend the $1,084.89, staff is requesting City Council approve a technical budget amendment to transfer this amount from the FY12 North Carolina Department of Commerce allocation budget for the WNC Nature Center, to the FY14 allocation. Funds will be used to support capital improvements at the Nature Center.

The technical budget amendment is a one-time transfer that will increase the existing budget for the FY14 North Carolina Department of Commerce allocation for facility improvements at the WNC Nature Center. The transfer is funded by a reversion payback associated with an allocation from the North Carolina Department of Commerce received in FY12. There is no impact to the City's General Fund budget.

Staff recommends City Council approve the technical budget amendment authorizing the City Manager to transfer $1,084.89 as a reversion payback for funds associated with the FY12 allocation from the North Carolina Department of Commerce for the WNC Nature Center, to the budget for the FY14 allocation to be used to support improvements at the Nature Center.

ORDINANCE BOOK NO. 28 - PAGE 470

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Wisler and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTE

D. RESOLUTION NO. 14-33 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A MEMORANDUM OF UNDERSTANDING TO ACCEPT A DONATION OF 48 ACRES OF REAL PROPERTY AT 98 DESOTA STREET FROM DUKE ENERGY PROGRESS AND ENTER INTO A CONSTRUCTION AND MAINTENANCE AGREEMENT FOR JOINT STORMWATER IMPROVEMENTS

Summary: The consideration of a resolution authorizing the Mayor to enter into a Memorandum of Understanding to accept a donation of 48 acres of real property at 98 Desota Street from Duke Energy Progress and enter into a Construction and Maintenance Agreement for joint stormwater improvements.

Duke Energy Progress (formerly known as Progress Energy of the Carolinas, and Carolina Power & Light) has offered to enter into a Memorandum of Understanding with the City for a real property donation and construction agreement. The overall partnership goals of the MOU are:

- Complete a land conveyance of Duke owned property at 98 Desota Street to the City to support the implementation of the French Broad River Greenway, and provide for a transmission line Right-of-Way for Duke.
- Develop joint stormwater facilities to service both the transmission line access road and the greenway.
- Facilitate the regulatory permissions associated with the planning, design, and implementation of the utility and other public infrastructure, such as the greenway, parking and stormwater improvements, associated with the aforementioned property.

Duke owns approximately 48 acres of unimproved land along the French Broad River between the RiverLink Bridge and the French Broad River Park (identified as PIN 9638-92-3484). Duke uses a portion of this property for transmission lines and plans to upgrade and relocate these lines within the parcel footprint. At this time, Duke has expressed interest in donating this parcel to the City, subject to an easement for the transmission line right-of-way.

If accepted, the City would utilize this parcel to connect the planned multi-use path at the New Belgium Brewing site to the existing greenway and park infrastructure at the French Broad River Park. The subject parcel is very steep and mostly riverfront, and an off-road multi-use path is likely the highest and best use for the parcel.

Both the transmission line relocation and the development of a city multi-use path would require the installation of stormwater improvements. Duke will present stormwater improvement plans to the city for approval, and will construct approved improvement during the transmission line rebuild project. Following the land transfer, the City will maintain those improvements, and in turn, Duke will provide a one-time fee for ongoing maintenance.

Given that the parcel is steep in some areas, the city greenway may include the development of retaining walls and other structures. Currently, certain Duke policies prohibit the development of retaining walls and other structures within Duke transmission line right-of-way. Within the terms of the MOU, Duke has agreed to work in good faith to resolve conflicts that may arise between the greenway and transmission line right-of-way policies in a way that promotes and allows for greenway development along this parcel of real property.

As part of the MOU between Duke Energy Progress and the City of Asheville, the City agrees to work in good faith to support the company's effort to locate parcels for utility substation construction and associated transmission lines to support the growing electrical demands within the city.

The proposed MOU outlines the intent of the parties to enter into two contracts -- a Donation Agreement for Real Property and a Construction and Maintenance Agreement for the joint stormwater improvements. The MOU sets forth the responsibilities of each party to fulfill, and timeline for implementation.

Pros:

- Provides for multi-modal transportation along the French Broad River adjacent to the West Asheville Neighborhood and River Arts District
- Donation of land from Duke Energy Progress
- Financial partnership for the joint stormwater improvements and maintenance

Con:

- Timeline for implementation of improvements must be coordinated with the City's budgetary process and CIP funding.

The capital requirements for the project will be defined as an outcome of the architectural and engineering study. The funding for this project will be presented to Council as part of the budgetary process.

City staff recommends City Council to adopt the resolution authorizing the Mayor to enter into a Memorandum of Understanding to accept a donation of real property from Duke Energy Progress and enter into a Construction and Maintenance Agreement for joint stormwater improvements.

Mr. Jason Walls, District Manager of Duke Energy Progress, was excited to be a partner with the City and to work with staff on that part of the river.

City Manager Jackson said that there will still need to be design work and communication with the associated neighborhood and other users.

Councilwoman Wisler thanked Duke Energy Progress for this donation and hoped they will continue their work with major energy users so we don't have to build too many more sub-stations.

Councilman Smith acknowledged the community group that has been involved in this process to date and their willingness to volunteer to get this up and running.

Councilwoman Wisler moved to adopt Resolution No. 14-33. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 82

III. PRESENTATIONS & REPORTS:

A. UPDATE ON HOMINY CREEK SPILL

Fire Chief Scott Burnette updated City Council on the Hominy Creek spill, located about one mile outside the City limits, on February 14, 2014. He explained the different roles that the different agencies played - City of Asheville Hazardous Materials Regional Response Team; Buncombe County Emergency Management; NC Dept. of Environment and Natural Resources (NC DENR); and the Environmental Protection Agency. NC DENR has advised the City that the contractor completed cleaning the non-porous surfaces, soils, retention pond and downstream booms. NC DENR anticipates the remaining booms will be removed before the weekend.

The next steps will be (1) initial abatement report to be submitted to NC DENR within 30 days; (2) preliminary lab results of three stream samples collected downstream of the site were non-detect for diesel range organics; and (3) on February 24, 2014, a Notice of Violation from the UST Section was issued to Harrison/APAC.

In response to Councilman Davis, Fire Chief Burnette said that he would be happy to make a report to the Public Safety Committee on what the City of Asheville has in place for spill containment to include local regulations and information on whether distance standards exist for large fuel storage near creeks and rivers.

In response to Councilman Pelly, Fire Chief Burnette said that NC DENR's initial reports that out of the 5,000 gallons spilled, 1,500 gallons could have impacted the stream.

When Councilman Smith asked how well equipped are we to respond to a situation like this, Fire Chief Burnette explained that we are much more prepared with equipment and training for those type events than other cities our size.

Mayor Manheimer asked that Fire Chief Burnette's PowerPoint be posted on line and that City Council be e-mailed the link so they may pass it along to interested citizens.

B. QUARTERLY REPORTS

Strategic Operating Plan

Interim Deputy City Manager Mike Morgan provided Council quarterly updates on key strategic initiatives associated with the three focus areas of the City of Asheville's Strategic Plan. Staff has tracked projects using performance indicators and measurements through Fiscal Year 2013-14.

This information is to update City Council on key operational initiatives specific to the Strategic Operating Plan. No action is necessary at this time.

Financial Report

Budget Manager Tony McDowell provided Council with the following financial information which reflects the City's overall financial position for the fiscal year through December, 2013.

Amendments. The General Fund budget presented in this second quarter report reflects the adopted budget of $95,861,764 along with four budget amendments approved by Council. The only budget amendment approved since the first quarter report to Council was the $7,786 amendment to budget the State of North Carolina annual grants to Harvest House and the Senior Opportunity Center. A summary of the budget amendments that were approved as of December 31, 2013, is presented below. None of these amendments involved an appropriation from fund balance.

Adopted Budget	95,861,764
Budget Amendments:	
Technical: Move Changing Together to Grant Fund	(79,060)
Technical: Move Computer Purch. to Capital Fund	(350,000)
Add School Resource Officer	49,842
Senior Op Center/Harvest House Grant	7,786
12/31/2013 Budget	$95,490,332

Revenues. Through December 31, 2013, the City has collected $55,761,424 in General Fund revenue, which represents approximately 58.4% of the total General Fund revenue budget. The percentage of revenue collected compared to budget is almost identical to the previous year's percentage through two quarters. Staff received assessed valuation data from Buncombe County in January that confirmed the FY 2013-14 property tax levy estimates. However, with the change from County to State collection of the motor vehicle tax, revenues from this portion of the tax base are lagging behind estimates. Staff will continue to monitor these collections. Sales tax revenue, which is up 2.8% compared to the same period last fiscal year, is also lagging behind budget. Through two quarters, state utility tax revenue is flat compared to the prior year but on track to reach budget estimates. On a positive note, revenue from Development Service fees continues to trend higher than anticipated and is at 70% of budget. Overall, staff is currently projecting that ***FY 2013-14 General Fund revenue will come in under budget by $399,000 or 0.42%.***

Expenditures. General Fund expenditures through December 31, 2013 total $41,215,333 or 43.2% of the budget, which is slightly under where we were last fiscal year after two quarters. Personnel expenses, the largest component of the General Fund budget, are running under budget through the first two quarters. Expenditures for fuel and fleet maintenance

are also performing better than budget through December. Utility costs are also under budget through December, but likely to increase and be higher than recent years in the second half of the fiscal year due to the colder winter. ***Based on the trends noted above, staff is projecting that expenditures will finish the year under budget by $840,000 (99% of budget) which will more than offset the expected revenue shortfall.***

Fund Balance. The City ended FY 2012-13 with available fund balance of $15.4 million, which equated to 17.6% of FY 2012-13 expenditures. Based on ***current revenue and expenditure projections for FY 2013-14, staff estimates that available fund balance at June 30, 2014, will be $15.9 million or 16.8% of estimated expenditures.***

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF 12.33 ACRES FOR A PROJECT KNOWN AS THE AVALON LOCATED ON SWEETEN CREEK ROAD FROM INDUSTRIAL DISTRICT TO RM-16 MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING

ORDINANCE NO. 4284 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY KNOWN AS THE AVALON LOCATED ON SWEETEN CREEK ROAD FROM INDUSTRIAL DISTRICT TO RM-16 MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone 12.33 acres for a project known as The Avalon, located on Sweeten Creek Road, from Industrial District to RM-16 Multi-Family High Density District/Conditional Zoning for the development of 8 multi-family buildings and 1 clubhouse building. This public hearing was opened and continued from the December 10, 2013, meeting. On February 11, 2014, the applicant requested a continuance to this date due to inclement weather.

Ms. Bernstein said that the applicant is requesting review of a conditional zoning request from Industrial to Residential Multi-family High Density (RM-16), in accordance with Section 7-7-8 of the UDO, for the construction of a multi-family apartment complex.

She said that when Council last heard the staff report on the conditional zoning request for The Avalon, a continuation of the public hearing was requested to allow staff the time to do some additional analysis on industrial properties in the city, and this site in particular, after Council concerns were expressed about losing industrially zoned land. Economic Development Director Sam Powers reported the results of that evaluation to the Planning & Economic Development Committee on January 21.

The study looked at zoning adjustments related to Industrial zoned land over the past 10 years, noting that the city has not lost all that much industrial property (excluding the airport) during that timeframe. The report concluded that this site is not considered as having a high potential for industrial development by the Economic Development Commission, and staff recommended proceeding with the rezoning. The Committee indicated general support for the staff conclusions and voted 3-0 to move the application back to the full Council.

Vice-Mayor Hunt gave a brief history of the industrially-zoned land. He said that industrial sites are very few in the County and City and in order to achieve economic development goals, it's important we have sites available for industry to locate. He said that our Economic Development staff and the Economic Development Coalition of Asheville & Buncombe County have renewed their commitment to understanding more about industrial inventory and how we might need to approach that in the future. Staff has determined that from in industrial site inventory, this site could be supported to conditionally zone.

Mr. W. Louis Bissette, attorney representing the developer for the Avalon Project, said that this company is family owned and are based in Gastonia, N.C. The currently have a project underway in Asheville on Mills Gap Road. He agreed with City staff that this is not a high priority site for industrial property. He believed the 192 units are needed in this area and it is shovel ready. He explained that these are work-force oriented apartments.

Mr. William Ratchford, Vice-President of Triangle Realty, reiterated that they are owners and long-term operators of their projects. He explained some of the green features on the site being Energy Star Appliances, low flow water saving fixtures, permeable pavement sections in part of the parking areas, and a community garden. He said that 12 years ago the site was graded and there is a lack of vegetation on the site. They will put in 100 new trees and several hundred bushes.

Councilman Smith noted we are trying to create affordable housing and we have had hundreds of apartment units approved by Council in the last few months and only 14 of them are designated affordable. We do need to improve housing stock, but this looks like we are only creating one kind.

Mr. Ratchford said they are market rate owners. They feel that Asheville does have affordability problems but not just for low income, but throughout the entire group of rental housing. They should open up 224 units with The Palisades next summer. If this project is approved they will add another 416 units to a supply market that will help reduce rents. Their workforce housing rates are for a one-bedroom start at $800; a two-bedroom starts at $1,000; and a three-bedroom starts at $1200-1300. He believes that the market rate apartments will drive the economy and make it better for not just low income apartment units, but for all units.

Councilman Smith was disappointed on the lack of affordability for this project, but he did value the unit stock.

When Councilman Pelly asked if local government has a role to address the situation where 40% of our tenants are paying more than 40% of their income, Mr. Ratchford felt that from the development end, the ability to get through plans and marketing is tough in Asheville, but consistency and knowing what to expect from the beginning is good.

Vice-Mayor Hunt believed that the reforming the Unified Development Ordinance (UDO) and updating our Comprehensive Plan will allow us to better accommodate multi-family development for not only addressing the supply/demand curve, but also infill density. His preference would be to move forward over the next couple of years to reform our UDO and make it a level playing field for more predictability for everyone and also have it geared to incentivize and encourage affordable housing development.

Councilman Smith looked forward to creating that policy framework to improve affordable housing. City Council has to be clearer on what we expect, noting that that conditional zonings are the type zonings that City Council can ask for things to meet their strategic goals.

At 6:22 p.m., Mayor Manheimer asked for public comment, and after no one spoke, she closed the public hearing at 6:22 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4284 to conditionally zone 12.33 acres for a project known as The Avalon, located on Sweeten Creek Road, from Industrial District to RM-16 Multi-Family High Density District/Conditional Zoning,

subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilwoman Wisler and carried on a 5-2 vote, with Councilman Pelly and Councilman Smith voting "no."

ORDINANCE BOOK NO. 28 - PAGE 472

B. PUBLIC HEARING TO CONSIDER CONDITIONALLY ZONING PROPERTY LOCATED AT QUAIL HOLLOW DRIVE AND WESTON ROAD FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT AND INSTITUTIONAL DISTRICT TO RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT/CONDITIONAL ZONING

ORDINANCE NO. 4285 - ORDINANCE TO CONDITIONALLY PROPERTY LOCATED AT QUAIL HOLLOW DRIVE AND WESTON ROAD FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT AND INSTITUTIONAL DISTRICT TO RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT/CONDITIONAL ZONING

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at Quail Hollow Drive and Weston Road from RS-4 Residential Single-Family Medium Density District and Institutional District to RS-4 Residential Single-Family Medium Density District/Conditional Zoning to create a major subdivision with the extension of the existing roadway to accommodate twelve single-family home lots. This public hearing was advertised on February 14 and 21, 2014.

The project site involves 4.29 acres of land at the terminus of Quail Hollow Drive and with frontage on Weston Road. The project area, which is comprised of a portion of two parcels, is split-zoned RS-4 and Institutional, with the majority of the property in the RS-4 zone. Surrounding properties are Institutional (INST) to the west, INST and RM-16 to the north, INST and RS-4 to the south and RS-4 to the east.

The applicant is proposing to subdivide 4.29 acres from two larger parent parcels to develop a continuation of an adjacent residential development to the north. The proposal shows the creation of 14 separate lots; 12 of which will contain single-family homes and the remaining two (closest to Weston Road) designated for open space. Due to the split-zoning on the property, the applicant requests a conditional zoning to eliminate the Institutional portion, resulting in a single-family development all zoned RS-4. The developers have not indicated any plans for the residual acreage of the parent parcels, located to the south.

Quail Hollow Drive is shown to be extended, terminating in a cul-de-sac to the west and a stub-out turnaround to the southeast. Street lights (5) are shown along the new roadway as well.

Street trees are required along the new road and are shown at a rate of one tree every 40 feet, resulting in 37 trees. Thirty percent of the total acreage is required to be dedicated as tree save area (1.29 acres) and will be planted according to section 7-11-3 of the UDO. Twenty percent of the area (0.86 acres) is designated as open space and is provided in the two lots with frontage along Weston Road.

The request for all RS-4 zoning is appropriate as the bulk of the project area is already under this designation. When creating new lots, it is preferable to avoid a development with split-zoning. Additionally, the proposed subdivision as it is shown is allowed by-right in the existing RS-4 zoning. The conditional zoning application is proposed only to resolve the split-zoning.

The proposal was approved with conditions by the Technical Review Committee on January 6, 2014.

The Planning & Zoning Commission reviewed this request at their meeting on February 5, 2014. Staff supported the rezoning but felt the cul-de-sac should be instead opened to Weston Road. The developer indicated a concern that high speeds and blind curves along Weston Road, as well as other street entrances within close proximity, would make the connection unsafe. Residents of the existing subdivision were present and voiced concern over the lot sizes being smaller than their own and expressed a desire for the connection to Weston Road.

The Commission was supportive of the proposed rezoning/subdivision extension (voting 5-0 in favor); but based on City goals to provide connectivity throughout residential neighborhoods, they requested that the developer provide the connection to Weston Road *if the DOT would determine that the connection can be safely made* since Weston Road is under DOT control and any new driveways would be under their authority to permit, rather than the City. Since that meeting the staff received a determination from DOT stating that they believe the connection to Weston Road would not be safe and therefore, the suggested condition from the Planning & Zoning Commission would not be applicable.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. *That the proposed use or development of the land will not materially endanger the public health or safety.*
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. *That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.*
   The site is currently undeveloped (wooded) and has an average natural grade of 12.85%. The proposed use to extend Quail Hollow Drive and create 12 single-family home lots should be compatible with the existing topography of the area. No significant mitigation measures are expected to be needed.

3. *That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.*
   As a continuation of the similar residential neighborhoods to the east, the proposed single-family development is not expected to injure the value of adjoining properties.

4. *That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.*
   The continuation of Quail Hollow Drive with 12 single-family home lots is compatible with the scale, bulk, coverage, density and character of the area especially to the north, east

and south, which is predominantly single-family residential as well. The residential development to the immediate north, although in the RS-4 zone, was developed with larger lots than this proposal. The parcels to the west are mostly undeveloped and zoned Institutional. Any development on this land would be required to provide a buffer against the residential use.

5. *That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.*
The project generally conforms to the comprehensive plan and City Council's strategic plan in that the continuation of the existing single-family development preserves and further strengthens the residential neighborhoods in the immediate vicinity, preserves open areas and provides opportunities for housing.

6. *That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.*
The site is located in an area accessible by vehicle. The nearest transit route is the S3 at Hendersonville and Buck Shoals Road (less than 0.5 miles). Adequate water supply, police protection, waste disposal and similar facilities are verified during the TRC review process.

7. That *the proposed use will not cause undue traffic congestion or create a traffic hazard.*
Based on a review of the plans for this project, the proposed use should not cause undue traffic congestion or create a traffic hazard. Staff has concerns with the proposed stub on the east side of the development, as if it had access to Weston Road there would be another access to the property for residents and emergency vehicles. Weston Road is; however, under the control of DOT and their letter dated February 7, 2014, states that the connection is not considered as a viable option due to safety concerns and would not be permitted by the Department.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Considerations:

- Conditionally zoning the entire property to RS-4 eliminates the split-zoned result of residential lots with an Industrial portion, which can lead to conflicting development standards
- The proposal is a continuation of an existing single-family development and is consistent with the development pattern in the vicinity.
- The proposal as shown is permitted by-right in RS-4 zoning.
- While not prohibited, stubbed cul-de-sac streets are strongly discouraged on local and residential streets because they are seen to disrupt connectivity, safety and access, *however, the DOT controls Weston Road and they do not consider a connection to be a viable option due to safety concerns.*

Staff recommends supporting the request to conditionally zone the proposed major subdivision from RS-4 and Institutional to all RS-4, with the following suggested conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The term of validity for the conditional zoning amendment is contingent on pursuit of the specified development. Without such action, the zoning amendment

can expire as per UDO Sec. 7-7-8(c)(9) and 7-7-8(c)(10). The proposal eliminates a split-zoned situation which would otherwise result in multiple conflicting standards on each single lot.

City staff recommends City Council approve/deny the Conditional Zoning from RS-4 and Institutional to RS-4 and (if approving) subject to the conditions suggested by staff and find that the request is reasonable and is consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation.

Mr. William Lapsley, consulting engineer for the project, said that this is the completion of the original development by the same owner/developer. He said that he met with the NC Dept. of Transportation District Engineer and discussed the possibility of connecting the stub-out to Weston Road. He and the District Engineer felt that the connection should not be made from a safety standpoint.

Mayor Manheimer opened the public hearing at 6:30 p.m. and when no one spoke, she closed the public hearing at 6:30 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Wisler found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4285 to conditionally zone property located at Quail Hollow Drive and Weston Road from RS-4 Residential Single-Family Medium Density District and Institutional District to RS-4 Residential Single-Family Medium Density District/Conditional Zoning for single-family residential restructures, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The term of validity for the conditional zoning amendment is contingent on pursuit of the specified development. Without such action, the zoning amendment can expire as per UDO Sec. 7-7-8(c)(9) and 7-7-8(c)(10). This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 28 - PAGE 476

C. PUBLIC HEARING TO CONSIDER REZONING A PORTION OF 101 BRUCE ROAD FROM INSTITUTIONAL DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

ORDINANCE NO. 4286 - ORDINANCE TO REZONE A PORTION OF 101 BRUCE ROAD FROM INSTITUTIONAL DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone a portion of 101 Bruce Road from Institutional District to Commercial Industrial District. This public hearing was advertised on February 14 and 21, 2014.

The subject property has an area of approximately 5.9 acres, but the zoning change would only affect about 0.4 acres along the southern boundary (roughly 7% of the lot). The majority of the lot is currently occupied with a tractor and equipment sales/rental/service

business, but the portion subject to the rezoning is vacant, with a row of evergreen trees paralleling Sand Hill School Road. The area proposed to be rezoned is a rectangular strip about fifty feet deep, and the land slopes downward away from the road. There are distant mountain views from this point on the property. The lot also has frontage on Highland Center Boulevard and Bruce Road, but these streets are not expected to be significantly affected by the rezoning.

The applicant has requested a standard rezoning from INST (Institutional) district to CI (Commercial Industrial) district, which currently is the zoning for 93% of the parcel, in order to lessen the complexity of having different standards applied to different parts of the lot.

At their February 5, 2014, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning request.

Compatibility Analysis: Because the area subject to a change in zoning is a shallow strip seven times as wide as it is deep, analysis of the surrounding properties is different than it would be for more typical rezonings. A good way to consider the proposed change is simply shifting the boundary between INST and CI zoning south 50 feet.

The uses to the east and west (a single family home zoned RM16 and church zoned INST, respectively) already are adjacent to the CI zoning; the proposal would merely widen the juncture of the districts by 50 feet. To the north, the applicant's property is already zoned CI – designating the entire property with a consistent zoning district would be a benefit.

The Sand Hill-Venable elementary school across the street to the south (zoned INST) would go from having INST zoning across the street, albeit shallow, to CI zoning across the street. This interface ostensibly represents the most significant potential change, but, as will be discussed below, actual impact is less than what might be perceived at first consideration.

The existing zoning appears to date back to the adoption of the UDO in 1997 – before that, there was not a split-zoned situation. For some years, the character of the stretch of Sand Hill School Road between the bridge over Smokey Park Highway and Sand Hill School Road has been almost entirely residential and institutional: a mix of homes and church and school uses.

Staff's supposition is that the strip of INST zoning currently in effect was put in place to preserve uniformly residential and institutional zoning along the corridor. Such splitting of properties has largely come to be considered a zoning practice to be avoided. Other than imposing a lower limit on sign size, and pushing certain developments slightly farther back from the street, the zoning has little practical effect on the development of high-impact uses on the bulk of the lot.

Further, the City's Institutional zoning district allows a variety of non-institutional uses, such as lodging facilities, microbreweries, banks, pharmacies, and health and fitness facilities. As an example, even under the current zoning, a large hotel could theoretically be built within 15 feet of the Sand Hill School Road property line. Interestingly, the parcel's current dominant land use (large equipment sales/service) is not a permitted use in Institutional zoning. The proposed zoning would allow that use, and other uses such as a nightclub, car wash, flea market, or kennel (already allowed on the northern 93% of the lot) to be built slightly closer to the road.

While one might expect that "up-zoning" the stretch along Sand Hill School Road (a state-maintained road) would increase the chances for a driveway using that frontage, both NCDOT and City traffic engineers generally direct developers to place such ingress/egress on the side street (in this case, Highland Center Blvd). Additionally, if a new high traffic use on the lot were expected to substantially increase traffic at that intersection, staff would work with NCDOT and the developer to install appropriate traffic signals – at the developers' expense.

On January 27, 2014, staff contacted the Principal of the Sand Hill-Venable Elementary School by phone and discussed the proposed zoning change, and there was no indication of opposition. On February 17, 2014, staff received a call from the Buncombe County Schools Facilities Director, who also wanted to discuss the rezoning. He stated that their primary concerns were safety and accessibility, and he asked a number of questions, but indicated that he needed to consult with others before he could state any position about the matter.

As of this writing, staff has received no other communications from other citizens.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Considerations:

- Rezoning would resolve a split-zoned situation.
- Would facilitate compliance with UDO for property owner, reducing needless obstacles to development without additional risk of detriment to neighborhood.
- Could allow for larger signage on Sand Hill School Road.

The current situation complicates appraisal of the property, imposes inconsistent setbacks and other standards, and generally muddles the status of the land, contrary to recommended zoning practice. Any perceived benefits of the current zoning status, on the other hand, are almost entirely illusory and based on zoning practices no longer followed. Staff feels the proposed rezoning will yield an improvement over the existing arrangement, and strongly recommends approval.

Mayor Manheimer opened the public hearing at 6:34 p.m. and when no one spoke, she closed the public hearing at 6:34 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4286. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 28 – PAGE 480

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-37 - RESOLUTION ADOPTING THE HAYWOOD ROAD VISION PLAN

Urban Planner Alan Glines said that this is the consideration of a resolution adopting the Haywood Road Vision Plan.

The Haywood Road Vision Plan has been developed through an initiative by the West Asheville Business Association (WABA) and interested local residents to improve the corridor and identify revitalization strategies. The first meeting organized by WABA for business and property owners and interested residents was held in 2002. Since the effort was organized by WABA, the initial efforts focused on encouraging new businesses, special events and beautification projects. In 2003, staff from the former *City Development Office* (a sub-unit of the Planning and Development Department) began to coordinate meetings and focus on major challenges and areas of potential for the corridor with the assistance of a dedicated citizen planning committee.

Over time components that defined the future vision became the focus of staff and the committee as the existing zoning, current infrastructure trends and a lack of a cohesive community vision were seen as both a challenge and opportunity.

Over a number of years, progress was made on the plan but then would need to be postponed due to other department priorities or staff obligations. Major milestones in the creation of the plan are as follows:

- 2005 - Prioritized topics of the plan were identified by the planning committee members
- 2006- Preference survey was created and sent to adjacent property owners with notification to the general community; 450 responses received
- 2007 - Large community meeting held to illustrate responses to the survey questions and priorities for developing the plan and identifying strategies to implement
- 2009 - Creation of the Downtown Master Plan required Haywood Road focused meetings to address changes to Central Business District (CBD) zoned properties
- 2010 - UDO changes were adopted to modify the downtown and the west Asheville CBD areas which reignites interest to complete the study for the remainder of the corridor
- 2011 - Prioritized topics were reviewed again and a second preference survey sent out to adjacent property owners with notification to the general community to revisit community priorities; 600 responses received;
- 2012 - Large community meeting held to correlate findings with the draft Vision Plan and to finalize community strategies.
- 2013 - City Council community meeting was conducted in West Asheville: points of the Vision Plan presented again and the form based code process for Haywood Road was introduced to the community; in September the planning charette for Haywood Road Form Code project with Code Studio team was held to address land use, potential growth and roadway issues

The final version of the plan developed through the wide range of community outreach identified six community priority subject areas: Transportation and Streetscape Issues; Historic Preservation; Zoning and Land Use Issues; Economic Development; Safety; and Neighborhood Issues.

Transportation & Streetscape issue highlights include (1) Complete Streets and Streetscape Improvements; (2) transit improvements and a reduction of driveway curb cuts from 36%; and (3) increases use by pedestrians and bikes.

Historic Preservation issues highlights include (1) there are two historic districts in west Asheville; and (2) a form based code can help with historic preservation.

Land Use and Economic issues highlights include (1) consolidate zoning districts through form based code project; (2) community supports new mixed-use development (3) and creation of pedestrian districts with local character and new green space; (4) support for new and expansion of local businesses; (5) maintain variety of businesses and fill in with daily and weekly needs within the corridor; (6) streetscapes affect economic vitality; and (7) parking is a growing challenge.

Safety and Neighborhood issues highlights include (1) drive curb-cuts on corridor are a safety issue - 36% of the length of the roadway; (2) crosswalks and sidewalks with pedestrian

signals needed - also I-240; (3) more pedestrians on the street make the entire community safer; and *4) facility social media and other out of the box ways to communicate with the community.

Each one of these priorities was identified with a list of needs or opportunities for improvement along the corridor. The items identified will be the focus of the City where appropriate and for others may be community driven efforts.

Their community outreach included: consistency with a steering committee; focus group meetings; citizen surveys; large community meetings; and some website presence.

Each one of these priorities was identified with a list of strategies and opportunities for improvement along the corridor. The items identified through the Vision Plan will become the focus of the City where appropriate and for others may become community driven efforts.

Two areas of the plan: *Zoning and Land Use* and *Transportation and Streetscape* are being addressed through the Form Based Code process that is currently underway and will be finalized with the adoption of a new zoning code for sections of the corridor. These topical areas of the Vision Plan are getting a fine level of planning through this process.

Community plans are generally reviewed by the Planning and Zoning Commission and then are adopted or accepted by City Council. During the Planning and Zoning meetings on January 16 the Commission had a discussion about the plan, and five members of the Haywood Road Community attended and expressed their support for the plan. At the February 5th meeting the Commission considered the plan for adoption. A member of the Plan Steering Committee again attended and spoke in support of adoption. The Commission voted 5-0 (with two absent) to recommend adoption of the Vision Plan to the City Council.

The Comprehensive Plan encourages denser sustainable infill development along existing corridors in the city. The Haywood Road Vision Plan is a corridor-based study looking at future development that provides direction for the community's growth and redevelopment. The Comprehensive Plan encourages neighborhood plans developed through community input and feedback. In addition, the Haywood Road Vision Plan fits within City Council's goal for Economic Growth and Financial Stability because the plan seeks to leverage investment in community infrastructure and create strong mixed-use neighborhoods. The plan relied on community input to develop goals for the corridor.

Because staff finds that the request is reasonable and is consistent with the Comprehensive Plan and other adopted plans, and based on information provided in the staff report, City staff recommends City Council adopt the Haywood Road Vision Plan because it provides direction for the community's future and was developed with community input.

Councilman Davis said this has been a long time to get to this point and felt this was a great process with a lot of community participation.

In response to Councilman Smith, Mr. Glines briefly explained the difference between the Vision Plan and the form based code.

Councilman Smith noted some of the policy considerations in the Vision Plan that City Council should consider as we are doing long-range transit planning. The Plan also has background on Haywood Road that will help with the Charlotte Street corridor. He hoped that the N.C. Dept. of Transportation will lower the large "Pedestrian Crossing" signs. He also felt that the form based code will allow for continued growth and development on Haywood Street while holding onto the preservation of small businesses and housing.

Ms. Alice Oglesby, West Asheville Business Association, spoke in support of the Vision Plan noting that the community supports it as well. She felt that other parts of the community can benefit from this same process in working on their Vision Plan.

Mr. Steve Rasmussen, member of the Steering Committee, agreed that this was an open and transparent process and that the community found a lot of consensus on the three top priorities that the Plan reflects. He urged Council to adopt the Plan.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 14-37. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 86

B. RESOLUTION NO. 14-38 – RESOLUTION APPOINTING A MEMBER TO THE CITY-COUNTY AFRICAN AMERICAN HERITAGE COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the City-County African American Heritage Commission.

City Council established the City-County African American Heritage Commission on January 14, 2014, and three of the nine members are to be appointed by City Council.

The following individuals applied for the vacancies: Donnell Sloan, Rebecca Bernstein, Phyllis Utley, James E. Lee III, Jan Goffney, Warren G. Smith, Angel Redmond, Sheneika Smith, Sandra Elaine Kilgore, Marvin D. Chambers, Johnnie N. Grant, Annie Burton, DeWayne Barton, Sasha F. Mitchell, Mychal Bacoate, Desmond McAfee, Jesse Junior, Lamar Hylton, Georgia M. Shannon, Alfred J. Whitesides Jr., Daniel Jonas Young, Viola Spells and Damita Jo Wilder.

On February 11, 2014, it was the consensus of the Boards & Commissions Committee to interview Jan Goffney, Marvin D. Chamber, Johnnie N. Grant, DeWayne Barton, Lamar Hylton and Alfred J. Whitesides Jr.. Dr. Hylton and Mr. Barton were unavailable for interview; however, they were going to contact individual Council members outside the interview process.

After City Council spoke highly of all candidates, Jan Goffney received 4 votes; Marvin Chambers received 6 votes, Johnnie Grant received 1 vote, DeWayne Barton received no votes, Lamar Hylton received 7 votes, and Alfred Whitesides received 3 votes. Therefore, Jan Goffney was appointed to serve an initial one-year term; Marvin Chambers was appointed to serve an initial two-year term; and Lamar Hylton was appointed to serve a three-year term. All terms are to begin after the ninth member is appointed and until their successors have been appointed.

Councilwoman Wisler moved to appoint Councilman Pelly as the Council liaison to the Commission. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 87

C. RESOLUTION NO. 14-39 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Marc Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville-Buncombe Historic Resources Commission (HRC).

Brian Cook has resigned as a member of the HRC, thus leaving an unexpired term until July 1, 2015.

The following individuals applied for the vacancy: Stephens Smith Farrell, Tom Hartwell, Keaton Edwards, Jesse James, William S. Eakins, Gary Herndon, Patricia Darcy, Kendra Turner and Geoff Mohney.

On February 11, 2014, City Council instructed the City Clerk to arrange an interview for William Eakins, noting that Kendra Turner is known by City Council and it was not necessary to bring her in for an interview.

After Council spoke highly of the candidates, Kendra Turner received 2 votes and William Eakins received 5 votes. Therefore, William Eakins was appointed as a member of the Asheville-Buncombe Historic Resources Commission to serve the unexpired term of Mr. Cook, term to expire July 1, 2015, or until his successor has been appointed.

RESOLUTION BOOK NO. 35 – PAGE 88

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Ken Michalove spoke to Council about his concerns regarding Pack Place and the Asheville Art Museum.

Ms. Jeanie Rosenthal spoke to Council about the dangers of electronic cigarettes.

When Rev. Lisa Landis asked City Council on how she can obtain a prayer for relief, Mayor Manheimer said that she would be contacted by the City Manager's Office with instructions on how to submit a claim for alleged damages.

Mr. Steve Rasmussen strongly urged Council to oppose the 1-26 widening proposal that the N.C. Dept. of Transportation is calling "Section A" - the 8-10 widening of I-26.

Closed Session

At 7:10 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) to consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Pelly and carried unanimously.

At 7:25 p.m., Vice-Mayor Hunt moved to come out of closed session. This motion was seconded by Councilwoman Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:25 p.m.

Magdalen Bullison
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – March 18, 2014- 1:00 p.m.
First Floor North Conference Room

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

RESOLUTION NO. 14-40 - RESOLUTION IN MEMORY OF LAUREY MASTERTON

Mayor Manheimer read the resolution in memory of Laurey Masterton, and presented it to Heather and Lucinda Masterton, Laurey's sisters, who were touched that the Mayor and City Council wanted to honor her sister.

Resolution No. 14-40 was adopted by acclamation.

RESOLUTION BOOK NO. 36 - PAGE 89

RESOLUTION NO. 14-41 - RESOLUTION IN MEMORY OF MARTIN L. NESBITT JR.

Mayor Manheimer read the resolution in memory of Martin Nesbitt, and presented it to his son Martin Nesbitt, who was touched that the Mayor and City Council wanted to honor him.

Resolution No. 14-41 was adopted by acclamation.

RESOLUTION BOOK NO. 36 - PAGE 90

RESOLUTION NO. 14-2 - RESOLUTION APPOINTING ROBIN TATUM CURRIN AS CITY ATTORNEY OF THE CITY OF ASHEVILLE AND APPROVING MEMORANDUM OF EMPLOYMENT AGREEMENT

Mayor Manheimer read the resolution appointing Ms. Robin Tatum Currin as City Attorney of the City of Asheville. She then administered the Oath of Office.

On behalf of City Council, Mayor Manheimer thanked Interim City Attorney Martha Walker-McGlohon for her excellent service in filling in during the search process.

Councilman Smith moved for the adoption of Resolution No. 14-42. This motion was seconded by Councilman Smith and carried unanimously.

On behalf of City Council, Councilman Smith thanked Interim City Attorney Martha Walker-McGlohon for her hard work and dedication in filling in during this interim period.

RESOLUTION BOOK NO. 36 - PAGE 91

Worksession on Legislative Program

Mr. Jack Cozort provided to Council information on members of the legislature, for easier communication with them. He said that the Short Session starts on May 14; however a lot of work for the Short Session has already begun.

He reviewed with the Council the following interim study committees of interest (1) House Property Owner Protection Study (H632); (2) House Public Enterprise System and Use of Funds Study (H708); (3) House Land Development Study; and 94) House Unmanned Aircraft Study. The interim committees of interest at work (which can produce bills for the short session (1) Joint Legislative Committee on Local Government; (2) Revenue Study Laws; (3) Joint Legislative Transportation Oversight; (4) Joint Legislative Economic Development and Global Engagement Oversight Committee; (5) Joint Legislative Administrative Procedure Oversight Committee; and (6) Environmental Review Commission. Bills still eligible of note are (1) Design Controls (H150 sitting in Senate Rules); (2) Continuing Regulatory Reform (H677, S112, H94); (3) Rental Inspection Bill (H773); and (4) Electronic Notice (S287).

Mr. Cozort then gave a brief status report on the following specific City of Asheville bills (1) HB 74 - Regulatory Reform Act of 2013 (likely legislation in the short session to amend the part on environmental ordinances; (2) HB 568 - Asheville Deannexation; and (3) HB 150 - Zoning/Design & Aesthetic Controls.

Mr. Cozort then provided City Council with a sample legislative program format from the Town of Cary that included Advocacy Principles, Legislative Agenda, and their Position Statements. He suggested Asheville might wish to approach their legislative agenda in the same format.

After discussion, it was the consensus of Council to have the Governance Committee charged with drafting Advocacy Principles, not for the Short Session due to the timeframe, and to bring it back to the full Council for consideration.

At the suggestion of Councilman Davis, Mayor Manheimer said that there has been preliminary discussions about a joint meeting with the Buncombe County Board of Commissioners and we could add to the list of topics joint planning efforts.

Throughout discussion, the following topics were identified for the Governance Committee to review for position statements for the legislative program: review of last year's Legislative Program prepared by former City Attorney Bob Oast for any possible updates; a detailed position on House Bill 74 (Regulatory Reform Act of 2013) to support the legislation that would restore some environmental controls; in the Revenue Study Laws Committee regarding the privilege license tax issue; coal ash clean-up issue; I-26 funding; concealed carry in parks bill (highlight that we opposed the bill); a position on Senate Bill 287 for Electronic Notices; effort on the part of the Airport Authority to amend the bill that created the independent authority and to require that the City transfer title; and the topless issue.

Vice-Mayor Hunt stressed the importance of engagement and communication with our legislative representatives to help them understand the issues and to hopefully have positive outcomes. When he suggested a point person in the City Manager's Office to help coordinate the legislative engagement and communication with the Council and the legislators, City Manager Jackson said Mr. Alex Carmichael in the City Manager's Office, and Interim Deputy City Manager Mike Morgan have been performing in that role. It was the consensus of Council to instruct City Manager Jackson to have his legislative staff begin a more active role in prompting City Council to engage with our legislative delegation on our legislative program.

Councilwoman Wisler felt it was a good idea to coordinate with other cities and towns in Buncombe County. Mayor Manheimer responded that at the next monthly meeting of the Mayor's in Buncombe County she would raise that issue to see what level of interest there is. She felt it would be important to be able to show them our legislative agenda to see if they had any interest in any of the issues.

It was the consensus of Council that at the Governance Committee's next meeting that they discuss position statements as outlined above and draft a legislative program for Council's full consideration. In addition, they would discuss our delivery of the legislative program and relationship

component to our legislative delegation. She felt that due to our short timeframe until the Short Session, we may only be able to pull together one meeting with our legislators.

At 2:29 p.m., Mayor Manheimer recessed the meeting.

Magdalen Bullington
CITY CLERK

Eldon E Manheimer
MAYOR

Tuesday – March 25, 2014 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Boy Scout Marek Graves led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MARCH 11, 2014, AS "CLEAN ENERGY FOR US DAY"

Mayor Manheimer read the proclamation proclaiming March 11, 2014, as "Clean Energy for Us" in the City of Asheville. She presented the proclamation to Ms. Katie Bray, Program Director for Clean Energy For Us, and Ms. Heather Rayburn, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

At the request of Councilman Pelly, Consent Agenda Item "B" was removed from the Consent Agenda due to a conflict of interest.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 25, 2014, AND THE SPECIAL MEETING HELD ON MARCH 18, 2014

B. RESOLUTION OF INTENT TO PERMANENTLY CLOSE A PORTION OF ASHELAND AVENUE AND SETTING A PUBLIC HEARING ON APRIL 22, 2014

This matter was removed from the Consent Agenda, due to a conflict of interest by Councilman Pelly.

C. RESOLUTION NO. 14-44 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE AN UNNAMED ALLEY OFF SOUTH ANN STREET AND SETTING A PUBLIC HEARING ON APRIL 22, 2014

Summary: The consideration of a resolution of intent to permanently close an unnamed alley off of South Ann Street and set a public hearing on April 22, 2014.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, property owner Shalin Patel has requested the City of Asheville to permanently close an unnamed alley off of South Ann Street.

The Multimodal Transportation Commission met on February 26, 2014, and voted unanimously to support the closure of the unnamed alley off of South Ann Street.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent property
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

City staff recommends City Council adopt the resolution of intent to permanently close an unnamed alley off of South Ann Street and set the public hearing on April 22, 2014.

When Councilman Smith asked if this site is intended to be developed for a hotel, City Manager Jackson replied probably yes, but no plans have been submitted yet.

RESOLUTION BOOK NO. 36 - PAGE 95

D. RESOLUTION NO. 14-45 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE UNIVERSITY HEIGHTS AND A PORTION OF EDGEWOOD ROAD AND SETTING A PUBLIC HEARING ON APRIL 22, 2014

Summary: The consideration of a resolution of intent to permanently close University Heights and a portion of Edgewood Road and set a public hearing on April 22, 2014.

N.C. Gen. Stat. sec. 160A-296 gives cities the authority to permanently close streets and alleys within their jurisdictions and North Carolina General Statute # 160A-299 outlines the procedure to be followed. The University of North Carolina at Asheville has requested the City of Asheville to permanently close University Heights and a portion of Edgewood Road, both of which are contained within the university's property which is identified as parcel # 9649072895.

During a meeting on May 18, 2012, staff from the University of North Carolina - Asheville (UNC-Asheville) officially requested that these streets be transferred to them for ownership and maintenance activities. City staff's initial concern was the possibility of losing connectivity between W.T. Weaver Boulevard and Hyannis Street. The university responded via e-mail message dated July 14, 2012 that they had no current plans to either gate or close the streets. The University is pursuing the subject action for the following reasons:

- Enables the university to fully control and maintain the streets that are contained within their property.
- Enables the campus police to enforce parking and traffic control as dictated by N.C. Gen. Stat. sec. 116-44.4.
- Enables the use of State funding to improve and maintain the streets.
- Helps the university complete its master plan.

The City and UNC-Asheville staff has worked closely together during the past two years researching various ways to accomplish the subject task and we have concluded that the best way is through the closing procedures outlined in the statutes.

This item was reviewed by the Multimodal Transportation Commission on February 26, 2014, and they recommended approval.

Pros:

- There will be no future compromise of ingress/egress to other property.

- The closure would allow for more efficient use of the existing adjacent property.
- Enables the university to fully control and maintain the streets that are contained within their property.
- Enables the campus police to enforce parking and traffic control as dictated by N.C. Gen. Stat. sec. 116-44.4.

Cons:

- The City cannot prohibit the possibility of gating the streets although the university has stated that it has no current plans to do so.
- Minor loss of revenues from Powell Bill Funds although the revenues typically do not provide the full street maintenance cost.

City staff recommends City Council adopt the resolution of intent to permanently close University Heights and a portion of Edgewood Road and set a public hearing on April 22, 2014. Staff additionally recommends the street closure fee be waived since the City and UNC-Asheville continue to maintain a close partnership relationship.

RESOLUTION BOOK NO. 36 - PAGE 96

E. RESOLUTION NO. 14-46 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH LEAF COMMUNITY ARTS FOR REAL PROPERTY AT THE EAST ASHEVILLE CENTER AT 906 TUNNEL ROAD

Summary: The consideration of a resolution authorizing the City Manager to execute a Lease Agreement with LEAF Community Arts for real property at East Asheville Center at 906 Tunnel Road, Asheville, North Carolina.

LEAF Community Arts is a local non-profit arts education program matching artists with youth in schools and communities for hands-on workshops, residencies, interactive performances and mentoring that includes opportunities for youth to engage perform with the artists.

The East Asheville Center at 906 Tunnel Road is approximately 3,402 square feet and is located within a larger complex of City-owned property. The current uses within the complex of this property are: (1) The City of Asheville Fire Department Station 8 at 904 Tunnel Road; and (2) Buncombe County Public Library East Asheville Branch at 902 Tunnel Road.

At this time, the one-year lease between the City and LEAF Community Arts will expire June 30, 2014, and LEAF Community Arts wishes to establish a lease of the property for a five-year term.

The proposed lease terms are as follows:

- Term: Five years
- Rental: $1.00 per year and operate cultural programs using the Easel Rider Mobile Art Lab on behalf of the City
- Tenant responsibilities: Installation of all improvements, per zoning standards
- Utilities: All utilities to be paid by the tenant
- Maintenance: All maintenance to be performed by tenant
- Mutual rights to terminate lease
- Standard provisions of all City leases (e.g. insurance, indemnity, etc.) will also apply

The Notice of Intent to enter into a Lease Agreement with LEAF Community Arts was published on March 14, 2014, in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the Lease Agreement is being requested.

Pros:

- Mission of LEAF Community Arts supports education programs in the arts and culture
- Delivery of cultural arts programs to the community and within City activities
- Community investment in a recreation facility and cultural art programs at low cost to the City

Con:

- None

There is no fiscal impact on the city's annual operating budget. Although it does not increase the city's capital improvement budget, it does enhance the city's resources to maintain and improve public facilities, and to operate community programming.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with LEAF Community Arts on behalf of the City of Asheville.

When Councilman Smith asked how we might utilize this type of agreement with area non-profits in order to more closely align our strategic goals regarding achievement gap with our community center programming, Assistant Parks & Recreation Director Debbie Ivester said that we have lease agreements or partnership agreements where we have partners come into our facilities that not only lease the building but help us in programming. Big Brothers/Big Sisters brings a variety of services into our centers, especially during the youth programming. Their programming is clearly addressing youth in that academic arena but in a community center setting. We are in the process of building a comprehensive plan over the next 1-3 years.

In response to an earlier question raised by Councilman Pelly, Ms. Ivester noted that LEAF has been leasing the community center for one year and part of that arrangement is two-fold - LEAF continues to offer the space as a community resource similar to when the city was operating it. It's just a matter of contacting LEAF and making those arrangements. It is based on availability so they do continue to offer that as part of the arrangement in the lease agreement.

RESOLUTION BOOK NO. 36 - PAGE 98

F. ORDINANCE NO. 4287 - BUDGET AMENDMENT FOR PARK AVENUE NORTH BRIDGE REHABILITATION PROJECT

Summary: The consideration a budget amendment in the amount of $30,000 from funding available in the Community and Economic Development Capital Improvement Program (EDCI) for the Park Avenue North Bridge Rehabilitation Project.

The Park Avenue North Bridge, located in the River Arts District, is in disrepair. Recent state inspection reports indicate that the bridge needs immediate attention. Staff is requesting a budget amendment in the amount of $30,000 to perform a feasibility analysis of this bridge to evaluate the structural integrity of the bridge and recommend various options to rehabilitate or remove the bridge, along with the costs of these options.

Pro:

- Provide a professional evaluation of structural integrity of the Park Avenue Bridge.

Con:

- None

The project budget for the feasibility study is $30,000. These funds will be allocated from the EDCIP budget and will cover the cost of the feasibility study.

Staff recommends City Council adopt a budget amendment in the amount of $30,000 from funding available in the Community and Economic Development Capital Improvement Program.

ORDINANCE BOOK NO. 29 - PAGE 1

G. RESOLUTION NO. 14-47- RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A NON-MATCHING GRANT FROM THE NORFOLK SOUTHERN FOUNDATION FOR THE REGIONAL HAZARDOUS MATERIALS RESPONSE TEAM 6

ORDINANCE NO. 4288 - BUDGET AMENDMENT FOR THE REGIONAL HAZARDOUS MATERIALS RESPONSE TEAM 6

Summary: The consideration of: 1) a resolution authorizing the City Manager to accept a non-matching gift in the amount of $1,400 from the Norfolk Southern Foundation to be used in a Hazardous Material Response for Regional Response Team 6 Asheville Fire Department; and 2) a budget amendment in the amount of $1,400 to appropriate this gift for spending.

The Norfolk Southern Foundation has made funds available to help offset operational expensive for hazardous materials teams when training or purchasing equipment to enhance a response.

This matter was reviewed by the Public Safety Committee on February 24, 2014, and they unanimously supported it.

Pros:

- The Norfolk Southern Foundation has made funds available to help offset operational expensive for hazardous materials teams when training or purchasing equipment to enhance a response.
- Firefighter and citizen safety will be enhanced.

Con:

- There are no con's associated with this gift, as it is non-matching.

There is no fiscal impact associated with this gift, as it is non-matching.

City staff recommends that City Council accept the non-matching gift from the Norfolk Southern Foundation, to enhance AFD's capabilities to protect Asheville and Western North Carolina, and the associated budget amendment.

RESOLUTION BOOK NO. 36 - PAGE 99
ORDINANCE BOOK NO. 29 - PAGE 3

H. RESOLUTION NO. 14-48 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE A SEALED BID SALE OF ONE PARCEL OF CITY-OWNED PROPERTY LOCATED AT 30 ROCK HILL PLACE

Summary: The consideration of a resolution directing the City Clerk to advertise a sealed bid sale of one parcel of City owned property located at 30 Rock Hill Place.

The City of Asheville held a deferred rehabilitation loan from September 1996 in the amount of $39,000 on the property at 30 Rock Hill Place, Asheville (0.34 acres. PIN 9656-28-0496-00000). This property was foreclosed on by the 1st lien holder and the City of Asheville placed the winning bid at the foreclosure auction on January 7, 2014 in order to protect its investment by acquiring the property in order to resell. The City purchased the property for

$30,612. The City will use a broker to assist in the sales process, at an estimated cost of $1,000. Any profit from the sale of the property would be used to repay the Community Development Block Grant (CDBG) fund which was the original source of funding for the rehabilitation loan. Staff's estimate of the market value is between $45,000 and $60,000. Staff expects that some portion of the original CDBG funds invested in the property will be recovered. Staff is seeking authorization to commence a sealed bid process, as outlined below:

1. Upon approval of this resolution, the City Clerk will publish a notice of sealed bid sale in the Asheville Citizen-Times, identifying the parcel available for sale and all terms and conditions of the sale.
2. During the thirty day notice period, City staff will actively market the parcels with the assistance of the local realtor's network and the regional Multiple Listing Service (MLS).
3. On May 1, 2014 at 3:30 p.m. on the fifth floor of City Hall, City staff will host a public bid opening, and will review all sealed bids received for the parcels.
4. Staff will present highest bids for City Council authorization on May 13, 2014, with Council reserving the right to reject any and all bids.
5. Potential earliest closing date – June 16, 2014.

Staff is seeking to utilize the sealed bid process in an effort to benefit from the thirty day marketing period. For more information on the parcel and conditions of sale, please refer to the notes contained on the parcel map.

Pros:

- The potential sale will be at fair market value as established by the sealed bid process.
- It will return designated CDBG funds to the City for future grant allocations
- It will transfer responsibility for maintenance to the private sector.

Con:

- There is no negative impact.

All net proceeds from the sale of 30 Rock Hill Place will benefit the Community Development Block Grant fund. If the sale produces no profits, no return will be made to CDBG. If the sale results in a loss, the CDBG funds in the property will be forfeited, and the City's purchase expense would be paid from Housing Trust Funds.

Community Development staff recommends adoption of the resolution directing the City Clerk to advertise a sealed bid sale of 30 Rock Hill Place.

RESOLUTION BOOK NO. 36 - PAGE 100

I. RESOLUTION NO. 14-49 - RESOLUTION AMENDING RESOLUTION NO. 13-168 TO CORRECT THE NAME OF CONTRACTORS ASSIGNED TO THE TWO MUDSLIDE ROAD PROJECTS FOLLOWING THE 2013 SUMMER SUBSTANTIAL RAINFALL

Summary: The consideration of a resolution amending Resolution No. 13-168, to correct the name of the contractors assigned to the two mudslide road projects following the 2013 summer substantial rainfall.

City Council ratified and approved the City entering into two construction contracts to repair major road failures within the City following the torrential rainfall during the summer of 2013. Subsequent thereto, the City was approved for Federal FEMA funding for the cost of public infrastructure repairs. In the process of closing out the projects, staff discovered that both the 2013 staff report and resolution incorrectly interchanged the contractors for the two projects. The purpose of this resolution is to correct a public record and to minimize issues with FEMA reimbursement due to the error. As amended, the resolution now reflects: 1) that the contract for

Buchanan & Sons, Inc. of Whittier, N.C. was for the Sunset Drive and Skyview Place repairs in the amount of $267,674; and 2) that the contract for Young & McQueen Grading Company, Inc., of Burnsville, N.C., was for the Spooks Branch Road repairs for $425,450. Additionally, the resolution clarifies that funds may be expended on both projects up to the total project budget.

Pros:

- Corrects a mistake on the original Resolution.

Cons:

- None.

Adoption of this resolution correcting the names of the contractors has no financial impact.

City staff recommends City Council adopt a resolution amending Resolution No. 13-168, to correct the name of the contractors assigned to the two mudslide road projects following the 2013 summer substantial rainfall.

RESOLUTION BOOK NO. 36 - PAGE 101

J. RESOLUTION NO. 14-50 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH HENDERSON COUNTY TO LEASE A VAN

ORDINANCE NO. 4289 - BUDGET AMENDMENT TO SET UP BUDGET TO PURCHASE VAN FOR HENDERSON COUNTY'S TRANSIT SYSTEM

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease a van; and (2) a budget amendment, in the amount of $53,928, to set the budget to purchase a van for Henderson County's transit system.

As a result of the 2000 Census, the City of Asheville was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating in the overall urbanized area. The Federal Transit Administration named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the Federal funding administration. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are disbursed. The City of Asheville is accountable to the Federal Transit Administration regarding the use of all Federal funds and owns all the capital items that Henderson County purchases with their share of the Federal funds.

The estimated total cost of the subject project is $53,928. Federal funds will provide $38,046 covered with grant NC-90-X395; this grant requires a match of $13,082 provided by Henderson County, plus $2,800 for the title and tag. The City of Asheville performs all of the administrative tasks including the bidding process, requests for funding, review of documentation, and reporting. A State contract is in place and City staff will order the van as soon as the budget is amended.

Pros:

- The van will produce savings in maintenance and fuel costs.
- The Federal Transit Administration (FTA) provides 74% of the total estimated project cost.

- Henderson County provides 26% of the total estimated project cost plus tag and title's costs.
- There is **no** cost obligation for the City of Asheville other than administrative expenses.

Con:

- The City of Asheville is responsible for administrative expenses including staff time to oversee the project.

The total estimated project cost is $53,928, with 74% or $38,046 coming from Federal funds, 26% or $13,082 and tag and title in the amount of $2,800 coming from Henderson County. There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease one van and the associated budget amendment.

RESOLUTION BOOK NO. 36 - PAGE 102
ORDINANCE BOOK NO. 29 - PAGE 5

K. RESOLUTION NO. 14-51 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH ELLUM ENGINEERING INC. FOR ENGINEERING SERVICES FOR THE CTS WATERLINE EXTENSION CONSTRUCTION ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to execute a professional services agreement with Ellum Engineering, Inc. for engineering services in the not-to-exceed amount of $155,000 for the CTS Waterline Extension Construction Administration.

The City of Asheville Water Resources Department is seeking the services of a qualified engineering firm to work with staff to provide construction administration services, inspection services, and record drawing development for the project known as the CTS Waterline Extension. The CTS Waterline Extension project will consist of installing new waterlines and services in the Mills Gap Area of Buncombe County. Approximately 120 new meter services, 7,700 Linear Feet of 8-inch and 6,300 Linear Feet of 6-inch waterlines will be installed with fire hydrants, valves, and other related appurtenances. The project will also include installation of approximately 50,000 Linear Feet of private service line and three individual residential booster pump facilities.

The Water Resources Department issued a Request for Qualifications (RFQ) for Engineering Services related to the contract administration of the CTS Waterline Extension Construction Administration. In response to that RFQ, the WRD received four (4) proposals. Companies responding were:

1. Altamont Environmental, Inc. – Asheville, NC
2. Ellum Engineering, Inc. – Fairview, NC
3. McGill Associates – Asheville, NC
4. Vaughn and Melton Consulting Engineers, Inc. – Asheville, NC

A review team, comprised of staff from the City of Asheville Water Resources Department reviewed these proposals and selected the firm Ellum Engineering, Inc.

Cost incurred as a result of these engineering services, up to the maximum amount of $155,000, will be reimbursed to the City of Asheville Water Resources Department from Buncombe County. Funds for immediate payment for the services are available from the City of Asheville Water Resources Department's Capital Improvement Project budget.

Pros:

- The team put together by Ellum Engineering, Inc. has provided Engineering Services on various water system projects for the City of Asheville. Their experience and knowledge of our water system and project sites associated with the project area will minimize staff support and input during the process.
- This project will allow the City of Asheville Water Resources Department to meet the conditions of the Memorandum of Understanding with Buncombe County.

Con:

- Failure to award an engineering services contract would prevent the Water Resources Department from fulfilling the conditions of the Memorandum of Understanding with Buncombe County.

The funding needed for this agreement is currently allocated within the CTS Waterline Project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a professional services agreement with Ellum Engineering, Inc. for engineering services in the not-to-exceed amount of $155,000.00 for the CTS Waterline Extension Construction Administration.

RESOLUTION BOOK NO. 36 - PAGE 103

L. RESOLUTION NO. 14-52 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT OVER A PORTION OF CITY-OWNED PROPERTY AT CURVE STREET TO DUKE ENERGY PROGRESS INC.

Summary: The consideration of a resolution authorizing the City Manager to convey an easement over a portion of City-owned property at Curve Street to Duke Energy Progress, Inc. for a residential overhead power line.

The City of Asheville owns real property at PIN 964868587800000 on Curve Street and the parcel is used for right-of-way purposes. Curve Street runs through the center of the parcel, with additional land area on either side of the street. The total parcel measures 0.17 acres. The highest and best use of this parcel is right-of-way, given the placement of the roadway and the limited residual value of the remaining land.

One of the adjacent vacant lots is currently being developed for a single-family residence. Duke Energy Progress, Inc. has requested an easement for an overhead powerline to benefit the adjacent lot. The area of the easement is not currently being utilized by the city, and presents no apparent conflict with future use.

The proposed easement area is approximately 30 feet wide running a length of 36 feet, for a total of 1080 square feet.

Pro:

- The easement is appropriate for the current use of the right-of-way and would not interfere with any relevant future plans.

Con:

- None noted.

Staff recommends that City Council approve a resolution authorizing the City Manager to convey a 1080 square foot easement over a portion of City-owned property at Curve Street to Duke Energy Progress, Inc.

RESOLUTION BOOK NO. 36 - PAGE 104

M. ORDINANCE NO. 4290 - BUDGET AMENDMENT FOR IMPROVEMENTS TO THE WNC VETERANS MEMORIAL IN PACK SQUARE PARK

Summary: The consideration of a budget amendment in the amount of $4,080 for improvements to the WNC Veterans' Memorial located in Pack Square Park.

In 2011, the WNC Veterans' Memorial Board, a non-profit organization, donated the WNC Veterans' Memorial in Pack Square Park to the City. At the same time, the WNC Veterans' Memorial Board established two trust funds held by the Community Foundation of Western North Carolina. Both trust funds are designed to provide resources to support the perpetual upkeep and maintenance of the Memorial.

To date, the City has received $4,080 in contribution from the trust fund. Funds will be used to replace landscape materials and purchase new flags for the Memorial.

Pro:
- Provides funds for improvements WNC Veterans' Memorial located in Pack Square Park.

Con:
- None

A project budget authorizing recurring maintenance and repair to the WNC Veterans' Memorial located in Pack Square Park will be established with approval of this budget amendment. The project budget will authorize expenditures up to $4,080. These expenditures will be fully funded with trust fund contributions from the WNC Veterans' Memorial Fund held by the Community Foundation of Western North Carolina in the amount of $4,080 that has been received; thus, there is no net fiscal impact to the City's operating budget.

City staff recommends City Council to approve the budget amendment authorizing the City Manager to accept the trust fund contributions from the WNC Veterans' Memorial Fund held by the Community Foundation of Western North Carolina in the amount of $4,080 for maintenance and repair of the WNC Veterans' Memorial located in Pack Square Park.

ORDINANCE BOOK NO. 29 - PAGE 7

N. ORDINANCE NO. 4291 - BUDGET AMENDMENT TO SET UP CAPITAL PROJECT BUDGETS FOR CERTAIN FISCAL YEAR 2014 PARKS AND RECREATION MAINTENANCE ITEMS

Summary: The consideration of a technical budget amendment in the amount of $237,949 to transfer funds from Parks and Recreation's deferred maintenance operating budget to three capital project, the Velodrome Improvements in the amount of $27,000, Carrier Park Restroom Construction in the amount of $22,850, and Montford Recreation Center Basketball Floor for $188,099.

Parks and Recreation's deferred maintenance cost center in the General Fund is used for minor repairs and improvements for parks and recreation facilities. However, there were several items budgeted there in the current fiscal year that relate to large projects that will become fixed assets in the future. These items include: the design, easement acquisition, and surveying costs of $27,000 for the future improvement of the Velodrome; design costs of the $22,850 related to the future construction of restrooms at Carrier Park; and basketball floor design and construction at the Montford Recreation Center for $188,099.

In order to properly account for these future fixed assets, staff recommends that the budgets for these items being move from the General Fund to the General Capital Projects Fund. Therefore, staff is requesting City Council to approve a technical budget amendment to transfer $237,949 from the Parks deferred maintenance budget in the General Fund to three individual capital projects in the General Capital Project Fund.

Pros:

- This action will allow each capital project to reflect all the expenditures related to the construction and design related to it.

Cons:

- None

The technical budget is a one-time transfer that will increase the budget in the individual capital projects, while decreasing budget in the Parks and Recreation Deferred Maintenance budget.

Staff recommends City Council approve the technical budget amendment authorizing the City Manager to transfer $237,949 from the Parks and Recreation's deferred maintenance operating budget to the Velodrome Improvements, Carrier Park Restroom Construction, and the Montford Recreation Center Basketball Floor capital projects.

ORDINANCE BOOK NO. 29 - PAGE 9

O. ORDINANCE NO. 4292 - BUDGET AMENDMENT TO ADDRESS FEDERAL EMERGENCY MANAGEMENT AGENCY'S REIMBURSEMENTS TO COVER THE COST OF SEVERE STORMS THAT OCCURRED IN JULY 2013

Summary: The consideration of a budget amendment in the amount of $2,369,143.30 to: 1) budget in the Special Revenue Fund $2,366,706.81, in anticipated reimbursements from the Federal Emergency Management Agency and N.C. Dept. of Public Safety for the declared disaster identified as FEMA–4146-DR-NC; and 2) move $63,225.71 in budget from the General Fund and the Stormwater Fund to the Special Revenue Fund for repair costs not covered through the reimbursements above.

During the period of July 3-13, 2013, Western North Carolina including Buncombe County and the City of Asheville experienced severe storms leading to flooding, landslides, and mudslides.

On September 25, 2013, the U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA) announced that federal disaster aid has been made available to the State of North Carolina and ordered federal aid to supplement state and local efforts in the areas affected by severe storms, flooding, landslides, and mudslides during the period of July 3-13, 2013.

On October 11, 2013, staff met with the N.C. Division of Public Safety (NCDPS) and FEMA, and concluded that the City of Asheville would be eligible for financial assistance under declaration number FEMA-4146-DR-NC.

The damages to City infrastructure include:

1. Gashes Creek Rd. Dam Debris (K1426) – Torrential rains during the event caused heavy debris to flow down the Swannanoa River to pile up at the Gashes Creek Rd. Dam. Debris totaled 280 yards of vegetative debris and 200 tons of mixed debris. City crews

completed the work at a cost of $29,313.04. Work complete and 100% of reimbursement received.

2. City-Wide Culvert Debris (S1421) – Torrential rains and heavy overland flows during the event caused mixed debris to be deposited in storm drains and in culverts throughout the City of Asheville. Mixed debris totaled 294 cubic yards. City crews completed the work at a cost of $38,007.45, of which $34,476.22 was received as reimbursement.
3. City-Wide Debris (K1428) – Torrential rains and heavy overland flows caused sediment and rock to be deposited onto City roadways and parks. Debris totaled 192 cubic yards. City crews completed the work at a cost of $41,869.12, of which $41,798.74 was received as reimbursement.
4. Asheville Fire Department Emergency Protective (K1427) – City of Asheville Firefighters barricaded roadways that were flooded, blocked with debris and had power lines down; performed water rescues and pumped out flooded basements at a total cost of $3,499.66. 100% Reimbursement received.
5. Bent Tree Rd. Repair (1423) – Severe rainfall resulted in storm water flooding and flowing over the road causing severe erosion of the integral ground supporting the road and damage to the pavement. The area of erosion is approximately 75-ft-long x 20-ft-high x 5-ft-wide. Retaining wall plans are complete, road design is underway, and the contract is currently being reviewed. $28,116.65 of the total estimated cost of $648,806.15 has been received as reimbursement for expenses to date.
6. Sunset Drive Repair (K1422) - Severe rainfall resulted in storm water flooding and flowing over the road causing severe erosion of the integral ground supporting the road and damage to the pavement. The area of erosion is approximately 110-ft-long x 20-ft-high x 5-ft-wide. Retaining wall plans are 95% complete. Home condemnation will likely cause a delay in beginning construction. $7,500 Of the total estimated cost of $562,326.95 has been received as reimbursement for expenses to date.
7. Stormwater Infrastructure Repair, Multiple Sites (S1420) – 8 Of 11 sites have been repaired with $176,380.20 of the estimated $347,684.24 reimbursement received.
8. Spooks Branch Rd. (K1424) – Due to the heavy rains from 7/3/13 through 7/13/13 embankments at three sites were damaged on Spooks Branch Road. Surface runoff from the roadway and flooding of Spooks branch caused embankments to slip and embankments to have shear cracking. City crews and contract workers completed the work at a cost of $278,255.93 which is to be fully reimbursed. $208,692.00 has been received to date.
9. City-Wide Street Repair (K1429) – Seven roadways suffered minor damage and have been repaired by City crews at a cost of $46,192.64. Work complete and 100% reimbursement received.
10. Skyview Place (K1425) - Severe rainfall resulted in storm water flooding and flowing over the road causing severe erosion of the integral ground supporting the road and damage to the pavement. The hillside slid onto Sunset Drive below, which caused two roadways to be affected. Work has been completed at a total cost of $373,188.12, of which $311,127.53 is reimbursable. $233,345.60 has been received as reimbursement to date.

This budget amendment is necessary to properly allocate the disaster aid reimbursements to the correct project expenses, and to replenish City funds that have already been spent in the General Fund. The balance not covered by FEMA, estimated at $63,225.71 will come from the City's General Fund ($59,694.48) and Stormwater Fund ($3,531.23).

Pros:

- Recovery of costs associated with declared disaster.
- This will allow the City to pay contractors for work yet to be completed.

Cons:

- Without transfer of funds to the identified accounts, infrastructure will further deteriorate.
- Failure to approve the amendment will prevent completion of the unfunded projects.

Funds received will be reimbursement for General Fund and Stormwater Fund expenditures. This will relieve budget to allow additional projects to be completed. The $65,662.20 in non-reimbursable expenses in the General Fund and Stormwater Fund will be covered within the existing budgets in those two funds.

City staff recommends City Council adopt the budget amendment in the amount of $2,366,706.81, to: 1) budget in the Special Revenue Fund $2,303,481.10 in anticipated reimbursements from the Federal Emergency Management Agency and North Carolina Department of Public Safety for the declared disaster identified as FEMA–4146-DR-NC; and 2) move $63,225.71 in budget from the General Fund and the Stormwater Fund to the Special Revenue Fund for repair costs not covered through the reimbursements above.

ORDINANCE BOOK NO. 29 - PAGE 11

P. ORDINANCE NO. 4293 - BUDGET AMENDMENT TO ACCEPT DONATION FROM NESTLE PURINA PET CARE COMPANY FOR IMPROVEMENTS TO THE DOG PARK LOCATED AT FRENCH BROAD RIVER PARK

Summary: The consideration of a budget amendment in the amount of $25,000 for improvements to the dog park located at French Broad River Park.

The City of Asheville in the Parks and Recreation Department has received a $25,000 contribution from the Nestle Purina Pet Care Company to support improvements at the dog park located in the French Broad River Park.

Each year Purina designates a dog-friendly city, and selected Asheville as the dog-friendly city USA 2014. As part of the designation, Purina made a contribution to the City to support a public service that benefits Asheville area dogs and their owners. Funds will be used to make improvements to the dog park located in French Broad River Park which will relocate and renovate the main entrance to the dog park, reconfigure the large dog and small dog lots, and add new signage and mulch.

Pro:
- Provides funds to for improvements in the dog park located in French Broad River Park.

Con:
- None

A project budget authorizing one-time improvements to make improvements to the dog park at French Broad River Park will be established with approval of this budget amendment. The project budget will authorize expenditures up to $25,000. These expenditures will be fully funded with a contribution from the Nestle Purina Pet Care Company in the amount of $25,000 that has been received; thus, there is no net fiscal impact to the City's operating budget.

City staff recommends City Council to approve the budget amendment authorizing the City Manager to accept the contribution from the Nestle Purina Pet Care Company in the amount of $25,000 for improvements to the dog park at French Broad River Park.

ORDINANCE BOOK NO. 29 - PAGE 15

Q. ORDINANCE NO. 4294 - BUDGET AMENDMENT TO ACCEPT DONATION FROM FRIENDS OF WNC NATURE CENTER FOR A PICNIC PAVILION AND RESTROOM AT THE WNC NATURE CENTER

Summary: The consideration of a budget amendment in the amount of $28,170 for the design and construction of the picnic pavilion and restroom at the WNC Nature Center.

The City of Asheville in the Parks and Recreation Department has received a $28,170 contribution from the Friends of the WNC Nature Center to support the design and construction of a picnic pavilion and restroom at the WNC Nature Center. The picnic pavilion and restroom continues to build out the play plaza that opened in 2012 with the construction of the Arachnid Adventure Playground.

The Friends of the WNC Nature Center, a 501c3 non-profit charity, is a community group of individuals, businesses and grantors who together support the WNC Nature Center with funding to provide an enriching and educational experience for the Center's visitors.

Pros:
- Provides funds to support capital improvements at the WNC Nature Center.
- Provides funds to enhance special projects and guest services at the WNC Nature Center.
- Provides funds to assist in fulfilling standards and maintaining WNC Nature Center accreditation with the Association of Zoos and Aquariums.

Con:
- None

A project budget authorizing one-time improvements to design and construct the picnic pavilion and restroom will be established with approval of this budget amendment. The project budget will authorize expenditures up to $28,170. These expenditures will be fully funded with a contribution from the Friends of the Nature Center in the amount of $28,170 that has been received; thus, there is no net fiscal impact to the City's operating budget.

City staff recommends City Council to approve the budget amendment authorizing the City Manager to accept the contribution from the Friends of the WNC Nature Center in the amount of $28,170 for a picnic pavilion and restroom at the WNC Nature Center.

ORDINANCE BOOK NO. 29 - PAGE 17

R. ORDINANCE NO. 4295 - BUDGET AMENDMENT TO APPROPRIATE FUNDING FOR BUILDING MAINTENANCE AND TRAFFIC SAFETY PROJECTS THAT WAS HELD IN CONTINGENCY AT THE END OF FISCAL YEAR 2012-13

Summary: The consideration of a budget amendment, in the amount of $300,453, from unassigned General Fund fund balance to appropriate funding for building maintenance and traffic safety projects that was held in contingency at the end of Fiscal Year (FY) 2012-13.

In May 2013, the North Carolina General Assembly passed legislation to transfer Asheville's water system to an independent authority, an action that could potentially cost Asheville's General Fund $1.9 million due to the loss of the water system's contribution to shared central services. The Asheville City Council unanimously voted to legally challenge this legislation. Because the length and outcome of the legal case was unknown at that point, and the City was nearing the end of the FY 2013-14 budget process, staff recommended and City Council endorsed a plan to hold $1.9 million in contingency. This contingency plan included delaying and deferring projects from both FY 2012-13 and FY 2013-14.

Based on the current timeline for court action on the City's lawsuit, it is anticipated that the City will continue to own and operate the water system through the remainder of FY 2013-14. For this reason, staff is recommending that the funding for the projects that were delayed be returned to departmental budgets. The portion of the funding held from FY 2012-

13 will need to be restored via budget amendment due to the fact that the annual spending authorization for these projects lapsed on June 30, 2013. The budget amendment will appropriate from General Fund unassigned fund balance a total of $300,453 for building maintenance and traffic safety projects that were deferred in FY 2012-13. The amount appropriated for building maintenance is $230,453 and the amount for traffic safety projects is $70,000.

Pro:

- Restored funding for high priority building maintenance and traffic safety projects that was deferred in FY 2012-13.

Con:

- Requires an appropriation from unassigned fund balance.

This budget amendment includes the appropriation of $300,453 from unassigned fund balance in the General Fund. As reported to City Council during the recent audit presentation, the City ended FY 2012-13 with an unassigned General Fund fund balance of $15.48 million, which was approximately $2.3 million above the City's 15% policy target. To date this fiscal year, Council has approved the use of $205,000 in unassigned fund balance from the General Fund. With this additional $300,453 fund balance appropriation for the budget amendment, the City will have appropriated a total of $505,453 from unassigned fund balance in the current fiscal year. Unassigned fund balance will still be approximately $1.8 million above the 15% policy target.

City staff recommends City Council adopt a budget amendment, in the amount of $300,453, from unassigned General Fund fund balance to appropriate funding for building maintenance and traffic safety projects that was held in contingency at the end of Fiscal Year (FY) 2012-13.

ORDINANCE BOOK NO. 29 - PAGE 19

S. ORDINANCE NO. 4296 - BUDGET AMENDMENT TO ACCEPT ENERGY EFFICIENCY REBATES FROM DUKE ENERGY PROGRESS

Summary: The consideration of a budget amendment, in the amount of $11,229, from Duke Energy Progress for energy efficiency rebates.

The funds received are from Duke Energy Progress for the ongoing energy efficiency retrofits across the city, such as lighting improvement, and will be used to augment the Green Capital Improvement Plan, and also to provide resources for the Chief's Energy Challenge – an Asheville Fire Department initiative to reduce energy usage at fire stations that Sustainability is assisting with.

The $11,229 will be used as revenue to further fund energy programming.

City staff recommends City Council accept $11,229 from Duke Energy Progress for energy efficiency rebates.

ORDINANCE BOOK NO. 29 - PAGE 21

T. ORDINANCE NO. 4297 - BUDGET AMENDMENT TO AUTHORIZE THE USE OF NORTH CAROLINA STATE DRUG SEIZURE FUNDS FOR ELECTRONIC MONITORING, SURVEILLANCE EQUIPMENT AND FORENSIC SOFTWARE FOR THE ASHEVILLE POLICE DEPARTMENT

Summary: The consideration of a budget amendment, in the amount of $28,000 to authorize the use of North Carolina State Drug Seizure Funds to fund the purchase of electronic

monitoring and surveillance equipment and forensic software to aid in criminal investigations of motor vehicle theft, vehicle breaking and entering thefts, and other crimes investigated by the Asheville Police Department.

The North Carolina State drug seizure program is an equitable sharing program which divides the illegal proceeds from drug dealing between the North Carolina State government and local law enforcement agencies. It is designed to help off-set the considerable cost of drug enforcement, by allowing local law enforcement agencies to use seized monies for equipment, training, and improvements that might not necessarily be budgeted for by the agency. The illegal proceeds are divided with 25% going to the North Carolina Department of Revenue and 75% going to the local law enforcement agency initiating the seizure.

The City of Asheville Police Department has received $28,000 in North Carolina State drug seizure funding. This amendment will authorize the use of that funding to fully fund the purchase of electronic monitoring and surveillance equipment and forensic software not covered by the APD operating budget. This equipment is related to vehicle theft and cellular device data recovery.

Pros:

- North Carolina State drug seizure revenue used to purchase electronic monitoring and surveillance equipment and forensic software at no cost to city taxpayers.

Cons:

- None

The increase of $28,000 for purchasing electronic monitoring and surveillance equipment and forensic software. Accepting and allocating these funds is a financial benefit to the APD allowing us to better equip our employees. There is no immediate impact to the General Fund budget. There will be minimal future maintenance costs ($500-$1,000).

City staff recommends City Council adopt a budget amendment in the amount of $28,000 authorizing the use of North Carolina State Drug Seizure Funds to purchase electronic monitoring and surveillance equipment and forensic software for the Asheville Police Department.

ORDINANCE BOOK NO. 29 - PAGE 23

U. ORDINANCE NO. 4298 - BUDGET AMENDMENT FOR OUTSIDE LEGAL SERVICES

Summary: The consideration of a budget amendment in the amount of $95,000 from unassigned fund balance to appropriate funding for outside legal services that have exceeded the initial budget.

The City Attorney Office's adopted FY 2013-14 budget included $30,000 in funding for outside legal services. In a typical year, this level of funding provides adequate resources to meet the City's outside legal counsel expenses. In the current fiscal year, however, the City has had to engage additional outside legal counsel due to staff turnover in the City Attorney's Office and a higher than normal case load. As a result, expenses for outside legal services have exceeded the adopted budget. Staff estimates that an additional $95,000 in budget is needed to meet outside legal expenses for the current fiscal year. The budget amendment appropriates $95,000 from unassigned fund balance to meet this need.

Pro:

- Provides budget authorization for FY 2013-14 outside legal expenses.

Con:

- Requires an appropriation from unassigned fund balance.

This budget amendment includes the appropriation of $95,000 from unassigned fund balance in the General Fund. As reported to City Council during the recent audit presentation, the City ended FY 2012-13 with an unassigned General Fund fund balance of $15.48 million, which was approximately $2.3 million above the City's 15% policy target. To date this fiscal year, Council has approved the use of $205,000 in unassigned fund balance from the General Fund. With this additional $95,000 fund balance appropriation for the budget amendment and the $300,453 fund balance appropriation associated with a separate budget amendment on this same meeting agenda, the City will have appropriated a total of $600,453 from unassigned fund balance in the current fiscal year. Unassigned fund balance will still be approximately $1.7 million above the 15% policy target.

City staff recommends City Council approve the budget amendment in the amount of $95,000 from unassigned fund balance to appropriate funding for outside legal services that have exceeded the initial budget.

ORDINANCE BOOK NO. 29 - PAGE 25

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

B. RESOLUTION NO. 14-43 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE A PORTION OF ASHELAND AVENUE AND SETTING A PUBLIC HEARING ON APRIL 22, 2014

At the request of Councilman Pelly, Vice-Mayor Hunt moved to recuse Councilman Pelly from participating in this matter due to a conflict of interest. This motion as seconded by Councilwoman Wisler and carried unanimously.

Summary: The consideration of a resolution of intent to permanently close a portion of Asheland Avenue and setting a public hearing on April 22, 2014.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, 86 Asheland, LLC have requested the City of Asheville to permanently close a portion of Asheland Avenue

The Multimodal Transportation Commission met on February 26, 2014, and voted unanimously to support the closure of a portion of Asheland Avenue.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

City staff recommends City Council adopt the resolution of intent to permanently close a portion of Asheland Avenue and set the public hearing on April 22, 2014.

Councilwoman moved for the adoption of Resolution No. 14-43. This motion was seconded by Councilman Bothwell and carried unanimously (with Councilman Pelly being recused).

RESOLUTION BOOK NO. 36 - PAGE 92

III. PRESENTATIONS & REPORTS:

A. AMERICAN WATERWORKS ASSOCIATION VALUE OF WATER CAMPAIGN

Director of Water Resources Steve Shoaf said that the American Water Works Association (AWWA) has launched a "Value of Water" campaign. The purpose of the campaign is to increase people's awareness of the ways that water impacts their lives. The City of Asheville Water Resources Department will be engaging AWWA materials to help further the understanding of the importance of water to our community.

The AWWA has promoted several awareness campaigns. Two that were recently promoted were "Water is Life" and "Only Tap Water Delivers". The new campaign is intended to illustrate the "Value of Water" by linking the importance of water to some very common uses.

Water industry professionals worldwide are paying close attention to the effects of climate change. Topics frequently associated with the impact of climate change are water shortage and drought. Recently, large areas of the United States have experienced drought. Regardless of whether you ascribe to the arguments related to global warming and climate change, the importance of preparing for water supply shortages is recognized by all water systems.

Past decisions by community leaders have prepared the City of Asheville to meet the challenges to provide safe, reliable water. The City of Asheville Water Resources Department has taken several steps to prepare for water shortages and drought. The Department engaged consultants to assist in developing a Water Shortage Response Plan that provides operational guidance based on the status of our water supply. The Department is currently engaged in an initiative to identify causes of water loss and conduct annual water audits to quantify and benchmark our Non-revenue Water. Our ISO 14001 certification is also aimed at protecting the environment and precious resources like water.

The Asheville community is engaged in conserving and protecting our resources including water. The "Value of Water" campaign is intended to reinforce the community's link to water as it relates to our quality of life and the economic well-being of our citizens. As a reminder of this link, I have provided you with a coffee mug with the slogan "No Water No Coffee". The Water Resources Department will be distributing mugs in City Hall in hopes that employees and visitors will see the connection of water and the quality of their life.

At present, there is no fiscal impact. The AWWA awareness campaign is beneficial for water systems throughout North America.

This staff report is for informational purposes. No action is required.

IV. PUBLIC HEARINGS: None

V. UNFINISHED BUSINESS:

A. MOTION APPROVING A REQUEST FOR QUALIFICATIONS/REQUEST FOR PROPOSALS PROCESS FOR CITY-OWNED PROPERTY AT 68-76 HAYWOOD STREET

Economic Development Director Sam Powers said that this is a review review of city owned property located at 68-76 Haywood Street and PED Committee recommendation for redevelopment for economic development purposes.

This staff report offers a brief history of the site and a review of the previous RFQ/RFP process utilized for the site. At their February 18, 2014, meeting, PED Committee considered the disposition methods available to local governments in North Carolina, considered options available for the site, and recommended an economic development use of the property through a negotiated sale with an RFQ/RFP process for the subject property.

1. **Background**. The subject property consists of approximately 3/4 of an acre located on the southern side of the intersection of Haywood Street and Page Avenue in downtown Asheville. The U.S. Cellular Center, Vanderbilt Apartments, and Pack Memorial Library are across Haywood Street to the east. Property owned by the Catholic Church, currently vacant, is located immediately across Page Avenue to the North, slightly beyond that, and across Haywood Street, as it curves to the west is St. Lawrence Basilica. The Battery Park Apartments are across Page Avenue to the west. Immediately adjacent to the South are building in various commercial and office uses. The Grove Arcade is located to the south and west. The property is traversed by Battery Park Alley, running north to south.

   The City acquired this property in several transactions occurring during 2001 to 2004 in connection with a parking facility that was planned but not built. The property was to be used initially for staging for the parking deck construction. Upon completion of the parking deck, the property was to be developed for commercial or mixed use purposes.

2. **Previous Process**. In 2005-06, City Council asked staff to undertake a review of all city owned property that could be considered for redevelopment to help achieve Council strategic goals, including creation of workforce and affordable housing, higher and better uses of property, returning public property to the tax base, quality job creation, private capital investment, and development of public-private partnerships. After an extensive staff and Council review, the list of properties was narrowed to three sites, all of which were considered "low-hanging fruit" with fewer impediments to redevelopment. The 68-76 Haywood Street site, along with the Parks Maintenance site on Hilliard Avenue, and the Eagle-Market Street sites were the three sites selected. The City also retained a national real estate consulting firm to conduct an overview of the market conditions and to provide recommendations on appropriate development opportunities for each site.

   In 2007 – 2008, the City undertook a two-part process; an RFQ process to prequalify potential developers, and after the prequalified developers were selected, an RFP which solicited proposals from developers for the development of the subject property. In February of 2008, the City selected the proposal submitted by McKibbon Hotel Group ("MHG") for a 140 room hotel as the one with which it wished to proceed. The proposal was revised to delete public parking at the request of adjacent property owners and City Council and resubmitted in September of 2008.

   The timeline from 2009-2011 included numerous interactions with PED, City Boards and Commissions, RENCI, and the public during the development for the Downtown Master Plan. There was also mutual agreement between City Council and McKibbon Hotel Group to prioritize development efforts on a public/private partnership to construct a city parking deck and private hotel project at 51 Biltmore Avenue, which had been identified in the city's parking study as a top location for development of public parking, but which had been

previously unavailable for redevelopment. There was mutual agreement that 68-76 Haywood Street would proceed after 51 Biltmore was complete.

In December 2011 the City received an unsolicited offer to purchase the subject property from the Catholic Diocese of Charlotte. The City spent the next several month reviewing the process, and in August 2012 confirmed the city's position and entered into an agreement with MHG to purchase the property and undertake a due diligence period prior to execution of the option. During this period, a lawsuit was filed against the MHG and City. The lawsuit was later withdrawn by the plaintiffs, but MHG has maintained the right to continue the proceedings to recover damages they consider incurred as a result of the suit. MHG in late 2013 notified the city, as allowed in the purchase agreement, that they would not purchase the site.

3. **Disposition Process.** North Carolina General Statutes control the procedures for selling city-owned property, which make several competitive methods of sale available to cities, as well as negotiated sales for certain public purposes. Public methods of sale include upset bids, sealed bids and public auctions. The City of Asheville has most often utilized the upset bid method, although most of those sales have been for small parcels of property. A brief summary of the methods is as follows:
   a. *Public Auction* - After advertisement at least 30 days prior to the sale, a public auction may be conducted. City Council may accept or reject the highest offer within 30 days after the sale.
   b. *Sealed Bid* - The property is advertised for sale not less than 30 days before a scheduled bid opening, a bid deposit of not less than five percent is required, and the highest responsible bid must be accepted unless all bids are rejected.
   c. *Upset Bids* - The process begins when a bid is received whether unsolicited, the result of negotiations or in response to a solicitation for bids. If City Council proposes to accept the bid, the bid is advertised for upset bids. For a period of 10 days after the advertisement, a sealed upset bid may be submitted. If at the end of the 10 days, an upset bid is received, the new bid becomes the current high bid and the process is repeated. This continues until no upset bids are received. A bid deposit of not less than 5 percent is required. Once a final qualifying offer is received, Council must either accept or reject it.
   d. *Economic Development Property* - The statute pursuant to which the City proposed to sell the Subject Property to MHG was N.C.G.S. 158-7.1, which authorizes the sale of property by private negotiation and sale for economic development purposes. In order to dispose of property pursuant to this provision, the City must first hold a public hearing with advertised public notice.
      i) *Consideration/Fair Market Value* - Another requirement of the statute is that the consideration for the property cannot be less than the fair market value, subject to the conditions placed on the property. An appraisal prepared by Francis Naeger, MAI, dated March 9, 2012, established the value of the property at $2,526,000. This appraisal was performed with the following assumptions: (1) The existing parking garage (68 Haywood Street), restaurant building (76 Haywood Street), and office building (33 Page Avenue) have been demolished and removed, (2) The public alleyway located in between the four separate parcels has been relocated to the southern border of the parcels (exiting onto Page Street) to allow for a contiguous site, and (3) The development potential of the property is subject to certain limitations as to the use of the property and the height of the new structures. MHG had offered $2,526,000 for the Subject Property, subject to a capped reimbursement from the City for the expense of the demolition and removal work that the appraisal assumes has been done. A new appraisal was performed in October 2012 by Kevin Rimbault, MAI of the Marwin Group. This appraisal was subject to the same set of assumptions, and suggested a fair market value of $2,600,000.
      ii) *Economic Development Purpose* - Another requirement of the statute is that the conveyance of the property must be consistent with the economic development

purposes of the statute, which specifically include commercial and business uses, or otherwise in the public interest. There are some specifics in the statutes that must be met.

Economic development/planning considerations.
Consistency with economic plans. Development of the Subject Property is consistent with the City's economic development plans and the economic development purposes of the statute.

City's 2025 Plan states (p.71) that promotion of infill development ...is absolutely essential in addressing the tax equity, tax base enhancement, and Smart Growth development goals of the City.

Goal VIII of the Economic Development Chapter of the City 2025 Plan (p. 203): Create an inventory of property suitable for development or redevelopment for targeted industrial and commercial uses and implement a program to encourage development or conversion to these uses.

City Council in Nov 2006 agreed to make clearly known and that responders clearly understand that their opportunity to obtain City-owned property for development is dependant on their prior experience and success in meeting similar goals in other situations:

- Consistency with City Plans or policies, including Smart Growth and environmentally friendly/green building development practices
- Place-making design that complements our unique downtown business and residential communities and takes constructive pubic input into consideration
- Provision of strategically sited public parking
- Ability to accommodate all modes of transportation
- Potential for significant tax base enhancement
- Potential to promote new or revitalized entertainment venues

Downtown Master Plan.
The Downtown Master Plan indicates a need for new development downtown, stating (p. 19) that "...excellent compatible infill projects within the historic fabric must be a high priority," and that "there is a need for a new focus on larger, more complex projects targeted to sites in the traditional Downtown...". The Plan places this site in the "Traditional Downtown District." It states (p. 68) that in this area "thoughtfully designed new buildings are appropriate..." and that "continued investment in existing and new buildings is necessary for the District to continue to thrive." It further states that "Adding appropriate new development on Haywood can help existing properties - historic or not – gain value." This area is a designated "Intermediate Height Zone", which would allow a 12-13 story building on the site. All projects proposed in the downtown area also have a number of architectural requirements to improve the compatibility of new projects with the existing building fabric. These requirements include windows and doors along street frontages, a building stepback at between two and four stories and for taller structures a reduction in the scale of the building tower to assure light and air, improve views and limit shadows.

The site is near a designated "gateway" point – indicated on the page 67 map as being at the intersection of Haywood and O.Henry and the off and on ramps to 240. The Parks and Greenways map in the Appendix (S3-29) notes a recommended park for the tip of that intersection, across from the Basilica (north of the recommended redevelopment site). At some point in time a reconsideration of the street alignments in that area, developed in cooperation

with all landowners, could result in more graceful intersections, pedestrian amenities, and the potential for the type of "pocket park" envisioned on the Parks and Greenways map.

(iii) *Conditions/Development Agreement.* Council may direct that certain conditions be placed on the property intended to ensure that development there meets the economic development purposes for which it is being sold. These could include some broad design criteria. The contract to be signed by the parties could include a development agreement whereby the purchaser would prepare and submit a development schedule, to include the process for performing due diligence work, getting zoning and building approvals, and obtaining financing.

(iv) *Other Issues.* Depending of the size of any development, a project might or might not come to city council for approval. Nevertheless, the City owns the property, and may exercise design control through restrictions or covenants in connection with the sale of the property.

- *Design Control* - There are two main vehicles for doing this: (a) deed restrictions; and (b) contractual provisions. Deed restrictions should include conditions, such as the use of the property and broad dimensional restrictions, that are not likely to change, and may be necessary to ensure that the property is used for the purposes for which it is sold. The contract for the purchase and sale of the property covers such basic terms as price, description, and due diligence requirements. It will also specify a design preparation and review process - - following the UDO - - that will result in an approved final design for the project. The final design approval will be incorporated into a development agreement for the property. The property will then be conveyed for development in accordance with the agreement.
- *Financial Assurance* - It is difficult and prohibitively expensive to procure a guarantee of completion in a project of a large size and nature. Commercially reasonable practices include (a) obtaining a list of similar completed projects (b) a requirement for a commitment for financing from a recognized financial institution prior to closing; (c) evidence of satisfaction of financing conditions; (d) a requirement that construction be started by a certain date and completed by a certain date; (e) regular construction progress reports; (f) a right to repurchase the property if the project stalls or is abandoned; (g) a bond for removal or demolition of incomplete improvements, if necessary. It would be appropriate to include some combination of these provisions in a development agreement.
- *Damage to Surrounding Buildings* - The subject property is near or adjacent to several historically significant and structurally sensitive buildings, notably St. Lawrence Basilica, the Grove Arcade, and the Battery Park Hotel, all of which are on the National Register of Historic Places. A development agreement could include a requirement for seismic monitoring.

When the City began the City-owned property redevelopment process it retained a real estate research consulting firm (RERC) to conduct an assessment of the market potential for the sites being considered for redevelopment. RERC's research focused on residential and commercial development including retail, office, hotel/hospitality, and multifamily residential product uses. While a detailed market analysis was not performed for each of the sites, RERC's work was intended to generally test the market support for redevelopment concepts based on prevailing market conditions. The purpose of this analysis was to provide an overview of the identified market sufficient to distinguish land uses and development program implications for the subject sites and to support the development of a real estate asset management strategy that made economic sense, reflecting the prevailing market environment and general economic conditions. The site analysis for 68-76 Haywood Street property suggested (but didn't limit)

market appropriate use for an upscale hotel (150 rooms), retail/limited office (10,000 SF), and structured parking.

The Downtown Master Plan, which included months of intense pubic input, identified the subject site as appropriate for thoughtful, dense development. The property has repeatedly been shown through independent appraisals to have significant fair market value. The removal of distressed buildings from the site removed one of the constraints for a potential purchaser of the property. Land assembly can be the most prohibitive component of urban development projects, and the offering of City owned property reduces risk of the developer and should promote increased response.

At their meeting on March 7th, the Downtown Commission received an update from staff on the PED recommendation, timeline and anticipated discussions regarding the process options for the site. The Commission unanimously passed a resolution, based on their purposes and powers as stated in Section 2-77 regarding advising City Council on downtown development, requesting that they be involved in the process of creating the RFP.

The most recent independent appraisal placed Fair Market Value of the property at $2.6 Million. As part of the process, an updated independent appraisal would establish FMV. Additional substantial real estate and property taxes should be generated from development at the property.

At the February 18th PED Committee meeting staff sought PED direction for an appropriate process to achieve Council goals. PED considered two primary options based on the disposition methods available for local governments. The two options considered were:

(1) Negotiated Offer and Upset Bid - If the primary goal of Council is to return the property to the private sector, have limited conditions on the sale, generate substantial income from the disposition which would be used to further community and economic development goals, staff recommends marketing the property for an upset bid sale. Prior to advertising the property for sale, Council would establish the terms of sale (e.g. minimum price, amount for deposit, conditions of sale, timeline for closing). In accordance with the general statutes, this method of sale is designed to yield the highest and best return on the property, and as such a local government may not restrict by deed the uses to be made of the property if the restrictions will depress the price offered for the property. A notice representing the terms of sale would be published online and in the local newspaper. Council may direct staff to contract with a private real estate broker to perform marketing services and negotiate offers for the property. Any formal qualifying offer that meets the terms of sale would initiate an upset bid process, with the final bid being subject to Council approval. Council retains the right to withdraw the property from sale at any time and reject any and all bids that were not in the city's best interest.

(2) Request for Qualifications and Private Sale through Economic Development statute – If the primary goal of Council utilize the property to promote a greater Economic Development purpose, generate fair market value for the property and have greater input over the commercial/business use, then Council may elect to sell the property under the Economic Development Statute. This process requires that the property be sold at Fair Market Value and other requirements as previously discussed. A common method to solicit interest in purchasing property via this process is through a Request for Qualifications/Request for Proposals process. Once qualifications have been reviewed, a subset of fully qualified developers may be invited to submit a proposal for development within the context of the economic development purpose. The proposals would be evaluated and an offer would be negotiated with the developer deemed most responsive to RFP. When the offer is ready to be presented to Council, a public hearing is held on the conveyance. After the hearing is complete, Council may proceed with the transaction.

After discussion at the PED meeting, and public input from attendees at the meeting, PED voted 3-0 to recommend to City Council that the City Manager be authorized to proceed with development of an RFQ/RFP process for disposition of the property. Staff recommends confirmation of the PED recommendation for an RFQ/RFP process for this property.

Mr. Powers stated that the Downtown Commission adopted the following resolution at their March 14, 2014, meeting: "Whereas, the Downtown Commission met on Friday, March 14, 2014; and Whereas, the discussion of the disposal of buildings known as the Handi-Park and Flying Frog and the process for future development on this site was discussed; and Whereas, the Commission expressed their interest in being involved to the extent described in their purposes and powers of organization (Section 2-77), in the future decisions for the property. Therefore; the Commission voted that should City Council move ahead with the sale of the property, that the Downtown Commission should be involved in the process to develop the request for qualifications/ proposals (RFQ/P) for the property based on the design guidelines for downtown and the purposes and powers assigned to the Downtown Commission."

In response to Councilman Bothwell, Mr. Powers said that there has been no study regarding the comparable tax value of a park vs. adjacent residential parcels.

Mr. Powers responded to Councilwoman Wisler when she asked about how the RFQ/RFP process would work, noting that there will be a number of steps involved, but that staff would follow the process they undertook before for this property with an updated market assessment and an updated appraisal. At the RFQ stage, he felt we would want to involve groups, like the Downtown Commission who would be appropriate in some of the stakeholder meetings and public information sessions, and possibly use the Downtown Commission to review the statements of qualification and looking at the criteria that would be used to pre-qualify firms.

When Councilman Pelly asked if we would limit our RFP to non-hotel proposals, Mr. Powers said that after the market assessment is updated, that would determine whether additional hospitality might or not be an appropriate use on that site.

Councilman Smith said that since we have in place a policy regarding requirements in our economic incentives, he would be interested in learning more about how a similar requirement would look in this sort of arrangement.

Vice-Mayor Hunt moved proceed with an RFQ/RFP process for the City-owned property at 68-76 Haywood Street, with the following preferences (allowable under the law) to help our development partners understand the specifics of what the City leadership is interested in: (1) that the development must support the goals of the Downtown Master Plan; (2) that the project preferably be developed for expanding the tax base; (3) that the street level of the project incorporate uses that adds a vibrancy and public activity on the streets; (4) that the development move forward in the near term and that we avoid partnering with a developer that would acquire the property with a view that they may develop it multiple years down the road; (5) that the development would compliment the use of the U.S. Cellular Center; (6) that the development would protect and respect the Basilica and the Basilica's architecture; and (7) that the development favor the creation, along with the development of a publicly-accessible plaza, and that in order to achieve the plaza, that a public-private partnership be pursued to make that economically feasible. This motion was seconded by Councilman Smith.

Councilman Bothwell felt that inclusion of some type of plaza for this space is a good ideas. He felt that Council should set a referendum for November on whether voters want a city park on this property.

In response to Councilwoman Wisler, it was the consensus of Council to have the RFQ be brought back to City Council for final approval.

Mr. Henry M. Harris felt that the property should be some type of park as it is a valuable piece of public space.

Ms. Rebecca Hecht, member of the Downtown Commission, urged City Council to pause until they have a broader conversation about this property, noting that she felt a hotel is not the highest use of the property. If the property is sold, she would like to see the money go into workforce housing or back into the Parking Enterprise Fund.

Mr. Timothy Sadler wanted to see something family-oriented on that property.

Mr. Jonathan Wainscott urged Council to consider replacing the $2 Million investment into the Asheville Art Museum and donating this property instead.

The motion made by Vice-Mayor Hunt and seconded by Councilman Smith carried on a 6-1 vote, with Councilman Bothwell voting "no."

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-53 - RESOLUTION ADOPTING REVISIONS TO THE TRAFFIC CALMING POLICY AND ADOPTION OF AN ACTION PLAN FOR THE CURRENT FISCAL YEAR'S REGULAR CAPITAL IMPROVEMENT PLAN FOR TRAFFIC CALMING PROJECTS

Interim Public Works Director Ken Putnam said that this is the consideration of a resolution revising the Traffic Calming Policy and adopting an action plan for the current fiscal year's regular Capital Improvement Plan for traffic calming projects.

Staff from various internal departments has been meeting on a regular basis to discuss and suggest changes to the Traffic Calming Policy in anticipation that construction funding would be restored in the future. In the adopted budget for FY 2013-14, $100,000 has been approved to begin to address the "backlog" of traffic calming projects.

Staff initially provided the subject information to the Public Safety Committee on June 24, 2013, with a recommendation that the committee accept the staff report and instruct staff to continue to meet with affected stakeholders and then come back to the Public Safety Committee. Staff has met with the Asheville Police Department (the Community Resource Officers), the Neighborhood Advisory Committee, and the Bicycle and Pedestrian Task Force sub-committee and has received valuable input that has been incorporated into the recommended changes.

The Traffic Calming Policy was approved by City Council on February 22, 2000, (Resolution # 00-39). It is important to note that the policy only addresses residential local and collector-type streets. Throughout the early years, projects were completed that resulted in the installation of traffic calming devices on several city-maintained streets. In addition, several projects have been completed involving private funding sources including conditions placed on developer led projects. Public funding has not been available since about FY 2006-07.

Since public funding has not been available for several years the suggested changes are primarily intended to maximize the funds as staff works through the "backlog" list. These changes include the following items:

- **The only traffic calming devices that will be considered include speed humps, speed cushions, and/or other low-cost treatments that might be developed.** During March 2008, City Council discussed traffic calming (a major traffic calming project was underway at the time) and suggested that due to limited financial resources and the overall controversial nature of traffic calming, it might be better to concentrate on lower cost treatments. That way more money could be used for the actual construction phase

instead of the design phase. All projects will still be designed and constructed following established engineering guidelines and policies such as the Institute of Transportation Engineers (ITE) recommended practice for the Design and Application of Speed Humps and Speed Tables and the city's engineering standards and drawings. Most stakeholders agreed with this approach especially in addressing the existing backlog of potential projects. Staff recommends this change.

- **Eliminate the 40% petition and substitute a structured neighborhood awareness campaign and education process that would last for a minimum period of six months.** Much effort is required by staff and the affected stakeholders to fully implement a traffic-calming project including involving the neighborhood in a public meeting process to help with the actual design. The subject change would provide a more positive approach towards that effort by encouraging an actual shift in driving habits and patterns. Simply signing a petition typically does not affect driving habits and patterns. In addition, the awareness campaign and educational process should solidify a community because they will be working together towards a common goal. Stakeholders expressed concern about the effectiveness of this type of program since many of the drivers live outside of a specific neighborhood. Staff recommends this change for all new projects (projects that are not included on the "backlog" list as of June 30, 2013).

- **Allow projects to be constructed with partial private funding that would be matched with public funding.** Currently, projects are either funded with 100% public or private funds. The change would enable communities to provide partial funding as an additional option. Stakeholders expressed concern that affluent communities would have an advantage over non-affluent communities. Staff recommends this change in order to provide more flexibility and to be able to "stretch" the available public funding.

- **Traffic calming devices will not be installed on city-maintained streets that are in areas of the city that the Asheville Fire Department Standard of Cover Performance is less than 90%.** It is critical for the city to maintain an adequate standard of cover performance for fire and medical emergency response and in areas where that -- performance would be negatively affected, traffic calming devices should not be installed. Staff recommends this change.

- **Allocate a maximum of 3% of the annual construction funds to be used for the neighborhood awareness campaigns and education processes as well as offsetting some of the operating budgets cost for low-cost alternatives prior to a traffic calming project (for example, signs, pavement markings, and pavement markers).** The city would provide the materials for a community to participate in the neighborhood awareness campaign and education process in order to maintain structure and consistency. The monies would be used for pamphlets, pledge cards, window stickers, etc. and appropriate signs. Stakeholders expressed mixed concerns with the subject change ranging from "it is worth trying it out" to "it would have very little impact on driver behavior". Staff recommends this change beginning in FY 2014-15 with the idea that it could be tested on one or two new projects (projects that are not included on the "backlog" list as of June 30, 2013).

Staff has developed the following action plan and is prepared to move forward once approved by City Council:

- City Council will consider the recommended changes to the traffic calming policy and the action plan on March 11, 2014.
- Staff will hold internal department meetings during March to be sure that the top five to seven potential projects on the "backlog" list do not have any major issues (all projects on the "backlog" list have been analyzed and are listed in priority based on the established "point" system).

- Staff will define the actual petition areas and prepare the maps and petition forms for the top five to seven potential projects for the 60% petition process during March and April.
- Staff will meet with the appropriate neighborhood groups for the top five to seven potential projects to review the proposed projects and to instruct them on the 60% petition process during March and April (the neighborhood groups will be responsible to obtain the appropriate signatures). It should be pointed out that since the "backlog" list is quite old, interest in traffic calming on some of the streets might have declined due to a variety of reasons. Staff will make every reasonable effort to work with the affected stakeholders including helping them to establish neighborhood groups before dropping a street from the "backlog" list.
- The contract and construction phase will occur during May and June and it is anticipated that $100,000 will be obligated towards the top five to seven potential projects. At this time, it is uncertain if a single contract will be awarded or if multiple contracts will be awarded. In addition, staff does not anticipate that all of the work will be completed by June 30, 2014 (for the current fiscal year only) but that in future years, the work will be started and completed within the specific fiscal year. One of the unknowns is the 60% petition process and how long it might take to complete it. The top two streets on the "backlog" list (Bear Creek Road and Riverview Drive) will help staff determine how successful the overall process will be since they both have established neighborhood groups that are ready to move forward. Throughout the process, staff will constantly seek input from these neighborhood groups to determine what, if any, improvements should be made for the future projects.
- Staff will develop a structured neighborhood awareness campaign and education process including the appropriate materials during the first half of FY 2014-15 including input from the Asheville Police Department (the Community Resource Officers), the Neighborhood Advisory Committee, and the Bicycle and Pedestrian Task Force sub-committee.

This action was reviewed by the Public Safety Committee on June 24, 2013, and January 27, 2014, and it has received the committee's endorsement. One committee member asked that the requirement for the 60% petition (petition required before moving to the construction phase) be lowered to 50% + 1. The committee agreed to forward this suggestion to City Council for review and consideration. It is very reasonable to conclude that traffic calming can be a controversial issue within a community. Typically, there are citizens who strongly favor traffic calming devices as well as citizens who strongly oppose them. As a result, most traffic calming policies that staff is aware of include a petition process with a higher threshold of support in order to demonstrate consensus for a specific project. Remember, the petition process only includes the actual properties that are directly affected for a specific project. When City Council approved the Traffic Calming Policy during February 2000, they lowered the recommended threshold of 70% to 60%.

The fiscal impact for FY 2013-14 is $100,000 and the funds are included in the current budget. The fiscal impact for the neighborhood awareness campaign and education process and the low-cost alternatives beginning in FY 2014-15 is estimated to be about $3,000 +/- per year based on an annual CIP total of $100,000 (for traffic calming projects).

Staff recommends that City Council approve a resolution revising the Traffic Calming Policy and instructing staff to move forward with the action plan that is included as an attachment to the resolution. In addition, staff asks that City Council consider the request from the Public Safety Committee regarding the 60% petition requirement.

Mr. Rich Lee, west Asheville resident, felt that this traffic calming revision is long overdue, and thanked Council for making the process quick and easy and sustainable.

Councilman Pelly thanked staff for bringing these revisions forward. He was pleased that we are going to integrate a neighborhood awareness campaign and allow partial funding to help them.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-53. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 105

B. RESOLUTION NO. 14-54 - RESOLUTION REGARDING I-26 CONNECTOR

Councilman Davis recognized and thanked the members of the committee that worked with him on pulling together consensus on this resolution: Vice-Mayor Hunt, County Commissioner Joe Belcher, County Commission Holly Jones, County Commissioner Brownie Newman, Julie Mayfield from the WNC Alliance, and several representatives from the N.C. Dept. of Transportation (NCDOT). He noted that the I-26 funding has not done well in the past as we were competing with loop funding. That changed last year and we now feel that this resolution benefits our community in a number of ways. He did note that Alternate 3c is not a perfect alternative, but it's the one that comes closest to getting funding and getting the job done. Backing the route is not a final decision, but would improve the chances of getting the road built soon. He noted that the Buncombe County Commissioners adopted this resolution last week.

Vice-Mayor Hunt noted that in December City Council adopted amendments to the City's Greenway Master Plan largely to make sure that certain elements of connectivity would be acknowledged by the NCDOT as the project moved forward. He said the resolution addresses the need to identify a funding amount for the competitive funding formula and that the project is still very much a work in progress.

Vice-Mayor Hunt then read the resolution as follows: "Whereas, traffic congestion and safety are increasing problems along 1-240 and I-26 through Asheville, a critical route for regional commerce and tourism; and WHEREAS, local and regional residents, visitors, interstate travelers and commercial freight haulers rely on this route in ever increasing numbers; and WHEREAS, improvements to the I-240 and I-26 corridor should be minimally disruptive to the local community and should enhance the quality of life for residents and visitors wherever possible; and WHEREAS, North Carolina Department of Transportation (NCDOT) in its planning of TIP Project I-2513 (the project), has indicated preliminary commitment to alternatives that, compared to earlier proposals, reduce relocation of homes and businesses, reduce sound impact through better deployment of sound walls and provide critically needed bicycle, pedestrian and neighborhood connectivity infrastructure consistent with local government master plans; and WHEREAS, the NCDOT and the Federal Highway Administration have expressed openness to consider design alternatives that reduce scale and cost of the project, including the number of lanes required, should upcoming traffic demand studies warrant and justify reductions; and WHEREAS, in the event that the selected design alternative does not include modifications to the I-240 infrastructure on the east side of the French Broad River to support urban redevelopment, improved connection of neighborhoods, and improvements to local traffic patterns; local governments will evaluate a separate future project through the French Broad River Metropolitan Planning Organization (FBRMPO) to address those concerns; and WHEREAS, various detailed alternatives for design and implementation of the project are to be fully evaluated and provided to decision makers for formal consideration as required under the National Environmental Policy Act in the Environmental Impact Statement in the coming months; and local leaders, working rough the FBRMPO, can only then provide their final endorsement of any alternative; and WHEREAS, the City of Asheville, in its five-year capital improvement plan, has designated $1 million in co-funding for the project to support critically needed community-connectivity features; and WHEREAS, members of the community have expressed their strong preference that the project soon be funded and constructed in a way that solves current congestion and safety problems while mitigating negative project impacts and addressing community needs; and WHEREAS,

NCDOT is conducting preliminary cost benefit evaluations of similar projects statewide under the Strategic Prioritization Process to establish specifically which projects will be eligible for near-term funding of design and construction under the recently adopted Strategic Mobility Formula. THEREFORE BE IT RESOLVED by the Board of Commissioners for the County of Buncombe and the City Council of the City of Asheville, as follows: That the Board of Commissioners for the County of Buncombe and the Asheville City Council, along with the FBRMPO, hereby recommend that for the purpose of the upcoming scoring and ranking process, NCDOT use the estimated cost of $230 million associated with the preliminary 3c alignment alternative for the B section of the project; and, in preparation of the draft Environmental Impact Statement for the project, NCDOT clearly include elements that will address community needs for sound barriers and bicycle, pedestrian and neighborhood connections, including location, design, and the funding methodology of associated infrastructure elements.

Mr. Ricky Tipton, the NCDOT Division Construction Engineer, provided the timeline for the I-26 Connector as follows: (1) open house meeting in spring of 2014; New Draft Environmental Impact Statement - winter of 2015; (3) Public hearing - spring 2015; (4) Right of Way (section A) - late 2018 (10-year work plan); and (5) construction letting (Section A) - late 2020 (10-year work plan). He then showed a map of the differences of Alternate 3 vs. Alternate 3c. From Alternate 3 to Alternate 3c, residential relocations are down from 46 to 19 and the business relocations are about the same. The total cost for Alternate 3c is $230,000,000, and the total cost for Alternate 3 was $250,864,000.

In response to Councilman Bothwell, Mr. Tipton felt that Alternate 3c will have an impact to reduce the congestion westbound on the Bowen Bridge.

Councilman Davis felt it was significant to know that the NCDOT has been interested in helping us with the greenway pieces and that the City has set aside Capital Improvement Project funds to make those greenways and connectivity pieces come together. The City is stepping forward with actual dollars to help.

Mr. Tom Leavesley, business owner in Asheville, encouraged City Council to move this project forward.

Mr. Mike Bertrum, representing the Asheville Board of Realtors, said that any project that will offer more safety for motorists is a good thing. He felt that with a known plan, then people will know what real estate will be affected.

Mr. Rich Lee, west Asheville resident and member of I-26 Connect Us Project, felt it was premature to endorse an alternative prior to the Environmental Impact Statement. He felt that endorsing the least expensive alternative creates a risk that the community will be locked into that alternative.

Mr. Alan McGuinn, representing the Asheville Design Center, provided Council with a statement regarding the I-26 resolution. In summary, they "are concerned that the new formula for ranking statewide projects favors the least expensive alternative over other important design requirements that will impact our community for years to come. Alternatives for the project should be based on fulfilling programmatic requirements first, then the project can be refined to address budgetary constraints." They suggested withholding any recommendations prior to the completion of the Environmental Impact Statement.

Mr. Tom Muncy encouraged Council to adopt the resolution.

Mr. Nathaniel Cannady supported the resolution.

Mr. Matthew Burril felt it was time to get this project moving forward.

When Councilman Smith asked how the drawings will be shared with the public, Mr. Tipton said that the maps are on-line and that they will have very large detailed printed maps available at the public hearing.

Councilman Smith said that given the fact that no one wants a furtherance of the injustices done during urban renewal, he hoped that the NCDOT would incorporate the Burton Street Neighborhood Plan into future design characteristics of the construction and work with the community on the forced relocation process. Mr. Tipton responded how the NCDOT purchases right-of-way necessary to move forward with a project. They will offer a fair market value and then try to reach a negotiated agreement, noting that typically they settle in the high 90% of all their right-of-way takes through negotiation. For relocations, they look for comparable housing close to the area as possible and if there is not comparable housing within the same price range, there is assistance to help bridge the gap.

Vice-Mayor Hunt reiterated that the amount in the resolution is only for the purpose of ranking projects state-wide. After the draft Environmental Impact Statement is complete there will be another more fine-tuned number for each alternatives. He said we are not locking ourselves into some threshold dollar amount. Mr. Tipton agreed in that this is an estimate based on the knowledge we have today.

Councilman Bothwell agreed that everyone worked in good faith to move this project forward, however; he felt we are being told to opt for a much less expensive project, pointing out that this plan is a highway through Asheville, but it doesn't really address the issues Asheville has been seeking to address since 1992. There are social justice issues. This will also prevent making Patton Avenue into the boulevard that the Asheville Design Center envisioned. He felt that Asheville is not getting much from this project. He was resigned that this is what will probably go forward, but he didn't think it was the right thing for Asheville.

Mayor Manheimer talked to the N.C. Secretary of Transportation and highlighted the upcoming vote and the importance of this project to our community, but to also emphasize to him that one of the important components to Asheville that is included in this project is the bike/ped component and that our resolution would include language about that. She stated that the N.C. Secretary of State supported multimodal transportation, and was encouraged by his support for a more modern view of transportation.

Vice-Mayor Hunt moved for the adoption of Resolution No. 14-54. This motion was seconded by Councilman Davis and carried on a 6-1 vote, with Councilman Bothwell voting "no".

RESOLUTION BOOK NO. 36 – PAGE 107

C. RESOLUTION NO. 14-55 - RESOLUTION ADOPTING A POLICY FOR NAMING CITY OF ASHEVILLE STRUCTURES

Fire Chief Scott Burnette said that this is the consideration of a resolution adopting a policy for naming City of Asheville structures for employees who die while carrying out their duties for the City of Asheville

The City of Asheville does not currently have a written policy for naming a publicly owned property in honor of those that have served. There are numerous properties owned by the City of Asheville that do have this distinction. Examples are; 300 Merrimon Ave is now named the Harley E. Shuford Building, 161 South Charlotte is named the William F. Wolcott Jr. Building, and there are several parks and ball fields named to honor those that have served.

On February 24, 2014, the City Council Public Safety Committee reviewed this request and unanimously supported it.

Development of the policy would be of minimal fiscal impact. Fiscal impact of the actual naming would be determined on a case by case basis and would be included within each individual request to name a City of Asheville owned facility.

Staff recommends that City Council adopt a policy for naming City of Asheville structures for employees who die while carrying out their duties for the City of Asheville

Councilman Davis said that this is only a guideline reserved for extraordinary occasions, like loss of life on duty.

Vice-Mayor Hunt moved to adopt the policy with the following deletion: "The suggestion shall be in writing, and if the suggestion is from a member of the public, it must be supported by thirty (30) or more registered voters of the City, as evidenced by their signatures on the request. Upon receipt of a naming request or upon a consensus of the Council to name a particular property or portion thereof, the Council shall make an announcement at a schedule public hearing. So as to provide for an opportunity to receive input from appropriate sources, the Council will delay making a decision until the next regularly scheduled meeting, at the earliest." He felt that the language reads that any 30 people want to name public property after anyone, that they can bring that forward and that Council must vote on it. He felt it would be better to simply say that "Any proposal from the public or otherwise, can bring their request forward to either the Mayor or City Manager or any three members of Council, as is the normal process for placing items on the agenda." This motion was seconded by Councilman Smith.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

The motion made by Vice-Mayor Hunt and seconded by Councilman Smith carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 109

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mayor Manheimer noted that at Council's special meeting on March 18, 2014, City Council adopted (1) a resolution in memory of Senator Martin L. Nesbitt Jr., and (2) a resolution in memory of Laurey Masterton.

Mr. Timothy Sadler felt that Asheville should be a leader in customer service in the Development Services Center and encouraged customer service training for the staff in that Department.

Closed Session

At 7:19 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 8:22 p.m., Councilwoman Wisler moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:22 p.m.

Magdalen Burleson
CITY CLERK

Esther Manheimer
MAYOR

Tuesday – April 8, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL 2014 AS "CHILD ABUSE PREVENTION MONTH"

Mayor Manheimer read the proclamation proclaiming April, 2014, as "Child Abuse Prevention Month" in the City of Asheville. She presented the proclamation to Mr. Bill McGuire, Director/CEO of Child Abuse Prevention Services Inc., who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING APRIL AS "PARKINSON'S DISEASE AWARENESS MONTH"

Councilman Bothwell read the proclamation proclaiming April, 2014, as "Parkinson's Disease Awareness Month" in the City of Asheville. He presented the proclamation to Nancy and Jim Hall, and others, who briefed City Council on some activities taking place during the month.

C. PROCLAMATION PROCLAIMING APRIL 2014 AS "FAIR HOUSING MONTH"

Councilman Smith read the proclamation proclaiming April, 2014, as "Fair Housing Month" in the City of Asheville. He presented the proclamation to Ms. Lucia Daugherty, new Executive Director of the A-B Community Relations Council; Ms. Cassidy Moore, Fair Housing Outreach Coordinator; and Mr. Benjamin T. Many, Attorney with Pisgah Legal Services, who briefed City Council on some activities taking place during the month.

D. PROCLAMATION PROCLAIMING APRIL 6-12, 2014, AS "WEEK OF THE YOUNG CHILD"

Councilman Pelly read the proclamation proclaiming the week of April 6-12, 2014, as "Week of the Young Child" in the City of Asheville. He presented the proclamation to Ms. Amy Barry, Executive Director of Smart Start of Buncombe County, who briefed City Council on some activities taking place during the week.

E. PROCLAMATION PROCLAIMING APRIL 6-12, 2014, AS "NATIONAL VOLUNTEER WEEK"

Councilwoman Wisler read the proclamation proclaiming the week of April 6-12, 2014, as "National Volunteer Week" in the City of Asheville. She presented the proclamation to Mr.

Charles Lee, Hands On staff member, who briefed City Council on some activities taking place during the week.

F. RECOGNITION OF THE SISTER CITY DELEGATION FROM OSOGBO, NIGERIA, AND PROCLAMATION PROCLAIMING APRIL 8, 2014, AS "ASHEVILLE SISTER CITY - OSOGBO, NIGERIA DAY"

Mayor Manheimer and Vice-Mayor Hunt recognized the Sister City delegation from Osogbo, Nigeria, and read the proclamation proclaiming April 8, 2014, as "Asheville Sister City - Osogbo, Nigeria Day" in the City of Asheville. They presented the proclamation to Mr. Russ Martin and the Sister City delegation, who presented gifts to Mayor Manheimer.

II. CONSENT AGENDA:

At the request of Mayor Manheimer, Consent Agenda Item "E" was removed from the Consent Agenda due to a conflict of interest.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 25, 2014

B. RESOLUTION NO. 14-56 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE EARTH DAY ON APRIL 19, 2014

RESOLUTION NO. 14-57 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT MOOGFEST ON APRIL 25-27, 2014

RESOLUTION NO. 14-58 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT DOWNTOWN AFTER FIVE ON MAY 16, JUNE 20, JULY 18, AUGUST 15 AND SEPTEMBER 19, 2014

RESOLUTION NO. 14-59 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY FESTIVAL ON MAY 31, 2014

RESOLUTION NO. 14-60 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE HALF MARATHON & 10K ON JUNE 7, 2014

RESOLUTION NO. 14-61 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BIG LOVE FEST ON AUGUST 24, 2014

RESOLUTION NO. 14-62 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BREWGRASS FESTIVAL ON SEPTEMBER 20, 2014

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Asheville Earth Day on April 19, 2014; Moogfest on April 25-27, 2014; Downtown After 5 on May 16, June 20, July 18, August 15, and September 19, 2014; the Beer City Festival on May 31, 2014; the Asheville Half Marathon & 10K on June 7, 2014; the Big Love Fest on August 24, 2014; and the Brewgrass Festival at Memorial Stadium on September 20, 2014.

- Wild South has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Asheville Earth Day and at Moogfest and allow for consumption at these events.

  Asheville Earth Day will be held on Saturday, April 19, 2014, from 1:00 p.m. – 10:30 p.m. on Lexington Avenue between the intersections of Hiawassee and the I-240 underpass, extending within the metered parking lot located at the I-240 underpass, as per the event area limits referenced on the accompanying site map.

  Moogfest will be held on Friday, April 25 from 3:00 p.m. – 10:00 p.m., Saturday, April 26 from 12:00 p.m. – 10:00 p.m., and Sunday, April 27, 2014 from 12:00 p.m. – 6:00 p.m. on Lexington Avenue between the intersections of Hiawassee and Starnes, extending within the metered parking lot located at the I-240 underpass and portion of Cherry Street surface parking, as per the event area limits referenced on the accompanying site map.

- The Asheville Downtown Association has requested through the City of Asheville Office of Economic Development that City Council permit them to serve beer and/or unfortified wine at Downtown After 5 and allow for consumption at this event.

  Downtown After 5 will be held on Fridays, May 16, June 20, July 18, August 15 and September 19, 2014 from 5:00 p.m. – 10:00 p.m. on Lexington Avenue between the intersections of Hiawassee and the I-240 underpass, extending within the metered parking lot located at the I-240 underpass, as per the event area limits referenced on the accompanying site map.

- Big Brothers Big Sisters of WNC has requested through the City of Asheville Office of Economic Development that City Council permit them to serve beer and/or unfortified wine at the Beer City Festival and the Brewgrass Festival and allow for consumption at these events.

  The Beer City Festival will be held on Saturday, May 31, 2014 from 1:00 p.m. –7:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green, Spruce Street between the intersections of South Pack Square & College Street, and within the City Hall/Courthouse Parking Lot as per the area limits referenced on the accompanying site map.

  The Brewgrass Festival will be held on Saturday, September 20, 2014 from 12:00 p.m. – 8:00 p.m. within the boundaries of Memorial Stadium including a fenced extension of the premises as per the area limits referenced on the accompanying site map.

- The Asheville Track Club has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at the Asheville Half Marathon & 10K post event and allow for consumption at this event.

  The Asheville Half Marathon & 10K post event will be held on Saturday, June 7, 2014, from 8:00 a.m. – 1:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green and within the City Hall/Courthouse Parking Lot as per the area limits referenced on the accompanying site map.

- The Southern Appalachian Highlands Conservancy has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at The Big Love Fest and allow for consumption at this event.

  The Big Love Fest will be held on Sunday, August 24, 2014, from 12:00 p.m. – 8:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green, Reuter Terrace, Vance Median and Raised Lawn areas including South Spruce Street between the

intersections of South Pack Square and College Street, North Pack Square between the intersections of Biltmore Avenue and South Pack Square, South Pack Square between the intersections of Biltmore Avenue and South Market Street and within the City Hall/Courthouse Parking Lot as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Wild South, the Asheville Downtown Association, Big Brothers Big Sisters of WNC, the Asheville Track Club, and the Southern Appalachian Highlands Conservancy.

Con:

- Potential for public safety issues

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Asheville Earth Day, Moogfest, Downtown After 5, the Beer City Festival, the Brewgrass Festival, the Asheville Half Marathon & 10K, and the Big Love Fest.

RESOLUTION NO. 14-62 - RESOLUTION BOOK NO. 26 - PAGE 129

C. RESOLUTION NO. 14-63 - RESOLUTION TO REALLOCATE UNSPENT EMERGENCY SOLUTIONS GRANT FUNDS TO HOMEWARD BOUND FOR RAPID REHOUSING

Summary: The consideration of a resolution reallocating $10,221 of unspent Fiscal Year 2012-13 Emergency Solutions Grant (ESG) funds to Homeward Bound for Rapid Rehousing.

$10,221 of the Fiscal Year 2012-13 Emergency Solutions Grant funds granted to the City of Asheville was unspent by the September 30, 2013, grant year end. The State of North Carolina is making these funds available to our Continuum of Care with these stipulations:

1. Funds can only be awarded to organizations in our CoC that have a 2013-14 contract for NC ESG funds, either through a direct contract with the State or through a fiscal sponsor.
2. Funds can be spent only on rapid re-housing activities.
3. Organizations must be able to spend the reallocated funds by June 30, 2014

These unspent funds came from a combination the Asheville-Buncombe Community Christian Ministries allocation for Rapid Rehousing and the City of Asheville's HMIS allocation. Homeward Bound of WNC was the only other agency contracted for Rapid Rehousing funds in Fiscal Year 2012-13 and spent down their allocation by September 30, 2013. It is recommended that the full $10,221 be re-allocated to Homeward Bound of WNC for Rapid Rehousing.

Pro:

- Existing Rapid Rehousing funds have all been projected out through the end of the ESG grant year, September 30, 2014. This re-allocation allows for at least 7 additional households to be served.

Con:

- None

The proposed activity is a reallocation of funds already awarded. The purpose for which the funds were originally allocated will be met through a different funding source. No general funds are required to meet the original allocation purpose.

City staff recommends City Council accept the Housing and Community Development Committee recommendation for re-allocating the $10,221 Fiscal Year 2012-13 balance of Emergency Solutions Grant funds to Homeward Bound for Rapid Rehousing.

RESOLUTION BOOK NO. 36 – PAGE 132

D. RESOLUTION NO. 14-64 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT PRIVATE DONATIONS FROM THE COMMUNITY FOUNDATION OF WESTERN NORTH CAROLINA INC. FOR THE ASHEVILLE POLICE DEPARTMENT

ORDINANCE NO. 4299 - BUDGET AMENDMENT TO ACCEPT DONATIONS FROM THE COMMUNITY FOUNDATION OF WESTERN NORTH CAROLINA INC.

Summary: The consideration of (1) a resolution authorizing the City Manager to accept funds donated by The Community Foundation of Western North Carolina, Inc.; and (2) a budget amendment in the amount of $215 to appropriate these funds into the City's Special Revenue Fund budget.

The Asheville Police Department (APD) Public Housing Unit applied and received a grant through the Rotary Club of Asheville to establish the "Shop with a Cop" project. The grant was awarded and the Department has received $215 in funds. In order for APD to be able to spend these funds, Council must first approve a budget amendment authorizing use of those funds in the City's Special Revenue fund. The APD has requested that these funds be applied to the APD Private Donations project account to assist with the "Shop with a Cop" project. The APD wishes to acknowledge the generosity, and express gratitude for this support of the Asheville Police Department by the Rotary Club of Asheville.

Pros:

- Acceptance of gift from The Community Foundation of Western North Carolina, Inc.
- Support of the APD "Shop with a Cop" project
- Enhanced community outreach opportunities

Con:

- None

Appropriating these donations in the Special Revenue Fund has no fiscal impact on the City's General Fund Budget.

City staff recommends City Council approve: (1) a resolution authorizing the City Manager to accept funds donated by the aforementioned organization; and (2) a budget amendment in the amount of $215.00 to appropriate these funds into the City's Special Revenue Fund budget.

RESOLUTION BOOK NO. 36 - PAGE 133
ORDINANCE BOOK NO. 29 - PAGE 27

E. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE APPROPRIATE INSTRUMENTS TO ABANDON A WATERLINE AND EASEMENT LOCATED AT WEST EUCLID PARKWAY AND ST. CHARLES

PLACE, ASHEVILLE, N.C.

This matter was removed from the Consent Agenda due to a conflict of interest by Mayor Manheimer.

F. ORDINANCE NO. 4300 - BUDGET AMENDMENT FOR THE U.S. CELLULAR CENTER

Summary: The consideration of a budget amendment, in the amount of $430,000 from US Cellular Center Operating Revenue, to increase the US Cellular Center Fund budget to reflect updated Fiscal Year 2013-14 revenue and expenditure projections.

The US Cellular Center event load in FY 2013-14 has been higher than initially forecasted during last year's budget process. Both revenues and expenses are now on pace to exceed budget. In order to fund anticipated expenses over the last quarter of the current fiscal year, staff is recommending that the US Cellular Center Fund budget be increased by $430,000.

It is anticipated that revenue generated by concessions & show revenues will cover all of the cost of the budget amendment; therefore, no additional transfer from the General Fund is required at this time. The US Cellular Center has several events scheduled before June 30 that should generate significant revenues.

This amendment has been presented to the US Cellular Center Commission and recommended to City Council.

Pro:

- Provides sufficient budget authorization for anticipated expenditures in the US Cellular Center Fund without increasing the General Fund transfer.

Con:

- There is a slight chance that year-end revenues could fall short of current estimates if ticket sales are less than expected or concession revenues are lower.

As noted above, this budget amendment is funded with US Cellular Center operating revenues that will likely exceed original budget estimates. Therefore, there is no expected impact to the City's General Fund budget.

US Cellular Center staff and Commission recommend City Council approve a budget amendment to increase the US Cellular Center Fund budget by $430,000 to reflect updated Fiscal Year 2013-14 revenue and expenditure projections.

ORDINANCE BOOK NO. 29 - PAGE 29

G. RESOLUTION NO. 14-66 - RESOLUTION AMENDING THE 2014 CITY COUNCIL MEETING SCHEDULE TO INCLUDE THE BUDGET CALENDAR

Summary: The Asheville City Council hereby adopts the following budget calendar: (1) Budget worksession for policy direction on the operating budget on Tuesday, April 22, 2014, beginning at 3:00 p.m. in the 1st Floor North Conference Room in City Hall, located at 70 Court Plaza, Asheville, N.C.; (2) Budget worksession for policy direction on the Capital Improvement Plan budget on Tuesday, May 13, 2014, beginning at 3:00 p.m. in the 1st Floor North Conference Room in City Hall, located at 70 Court Plaza, Asheville, N.C.; (3) May 27, 2014 - Budget Presentation of the Fiscal Year 2014-15 Annual Operating Budget; and motion setting a public hearing on June 10, 2014 - Council Chamber in City Hall; (4) June 10, 2014 - Public hearing on the Fiscal Year 2014-15 Annual Operating Budget - Council Chamber in City Hall; and (5) June 24, 2014 - Adoption of the Fiscal Year 2014-15 Annual Operating Budget - Council Chamber in City Hall.

RESOLUTION BOOK NO. 36 - PAGE 135

H. RESOLUTION NO. 14-67 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY PROPERTY AT 550 NEW AIRPORT ROAD TO THE N.C. DEPT. OF TRANSPORTATION FOR RIGHT-OF-WAY PURPOSES

Summary: The consideration of a resolution authorizing the City Manager to convey 0.249 acres of real property located 550 New Airport Road to the N.C. Dept. of Transportation.

The City of Asheville owns approximately 10.37 acres of real property located at 550 New Airport Road. The parcel is subject to a ground lease by Fletcher Hospitality, LLC for the operation of the Clarion Inn. The main entrance to this property is off of New Airport Road (NC 280). The entire western boundary of the City's property exists alongside the NCDOT right-of-way for Interstate 26, at an interstate interchange and on ramp.

NCDOT has plans to retrofit the existing interchange at this location to a diverging diamond configuration in order to improve vehicular safety and traffic flow on and off Exit 40. Overall, the project provides much needed traffic improvements for this section of New Airport Road. The planned improvements, specifically a concrete median separating the travel lanes along the frontage of the City's property, will limit the utility of the main entrance at the Clarion Inn to a "right-in/ right-out" only. Per the plans, in order to make a left turn into the Clarion Inn property, a U-turn is necessary at the Rockwood Road Intersection. NCDOT plans to construct a bulb-out at the edge of the roadway in order to accommodate vehicles making this U-turn. Apart from NCDOT's plans, the City is seeking to mitigate the impacts of this ingress / egress issue by acquiring a secondary access point to the Clarion Inn property from Rockwood Road.

This NCDOT project, known as Project# I-5501, is currently in the Right-of-way acquisition phase and is set to begin construction this summer. At this time, NCDOT has requested to purchase approximately 0.249 acres of the city-owned property at 550 New Airport Road as right-of-way for this project. NCDOT has offered to pay $180,000 for the needed right-of-way. This purchase price is supported by two independent MAI appraisals.

Pros:

- The sale of 0.249 acres of property will support NCDOT's plans to retrofit an existing interchange and promote traffic efficiency and safety.
- The Conveyance of Real Property is at fair market value.

Con:

- Limits ingress/egress into City-owned property.

The proceeds of the sale of property will benefit the General Fund and will be designated for future economic and community development projects.

Economic Development staff recommends adoption of the resolution to convey 0.249 acres of real property at 550 New Airport Road to the N.C. Dept. of Transportation.

RESOLUTION BOOK NO. 36 - PAGE 136

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Wisler and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

E. RESOLUTION NO. 14-65 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE APPROPRIATE INSTRUMENTS TO ABANDON A WATERLINE AND EASEMENT LOCATED AT WEST EUCLID PARKWAY AND ST. CHARLES PLACE, ASHEVILLE, N.C.

Vice-Mayor Hunt moved to rescues Mayor Manheimer from participating in this matter due to a conflict of interest. This motion was seconded by Councilman Hunt and carried unanimously.

Summary: The consideration of a resolution authorizing the City Manager to execute appropriate instruments to abandon a waterline and easement located at West Euclid Parkway and St. Charles Place, Asheville, N.C.

In 2010, a subdivision for the property of Frank W. Hall Jr., was recorded in the Buncombe County Register of Deeds Office in Deed Book 153/74, which plat depicts a waterline and easement crossing parcels 90 and 91. The parcels being serviced by the aforementioned waterline were subsequently transferred to other lines, resulting in the abandonment of the waterline. By letter dated April 21, 2011, the City determined that the waterline and easement were no longer needed by the City and had been abandoned.

The property owner desires for the City to officially abandon the waterline and easement for which the City is receptive as the City does not anticipated any future need for the waterline and easement.

Pro:

- Removes burden on private property to promote private investment

Con:

- None

City staff recommends City Council approve the resolution authorizing the City Manager to execute appropriate instruments to abandon a waterline and easement located at West Euclid Parkway and St. Charles Place, Asheville, NC.

Vice-Mayor Hunt moved for the adoption of Resolution No. 14-65. This motion was seconded by Councilman Pelly and carried unanimously (with Mayor Manheimer being recused).

RESOLUTION BOOK NO. 36 - PAGE 134

III. PRESENTATIONS & REPORTS:

A. UPDATE ON SENATE BILL 74 - REGULATORY REFORM ACT

Ms. Erin Wynia, Legislative & Regulatory Issues Manager for the the N.C. League of Municipalities, provided City Council with an overview regarding the local government environment ordinances - Senate Bill 74 - Regulatory Reform Act.

Mr. Wynia responded to questions/comments raised by Council.

On behalf of City Council, Mayor Manheimer thanked Ms. Wynia for helping City Council understand this complex Bill.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A SIGN PACKAGE FOR THE ASHEVILLE OUTLETS LOCATED AT 800 BREVARD ROAD

At the petitioner's request, Councilman Davis moved to continue this public hearing until April 22, 2014. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-68 - RESOLUTION ADOPTING THE HOUSING TRUST FUND RECOMMENDATION TO FUND BIOTAT LLC FOR THE OAK HILL COMMONS PROJECT

Director of Community Development Jeff Staudinger said that this is the consideration of a resolution adopting the Housing Trust Fund recommendation to fund Biotat LLC for Oak Hill Commons Project in the amount of $58,106.

Mr. W. Ward Griffin, Member Manager of Biotat, LLC, proposes a 30-unit affordable housing development project specifically targeting the hard to house, primarily for chronically homeless individuals who have failed to succeed in other affordable housing environments and who are in need of specialized support services. The project is proposed to occupy a portion of a vacant 3.71-acre site in West Asheville located off of New Leicester Highway, near the intersection of Patton Avenue.

The proposed development is modeled after the successful Moore House project in Charlotte, North Carolina.

The project is supported by the Homeless Initiative Advisory Committee as the last necessary step to ending chronic homelessness in Asheville and Buncombe County, in alignment with the Ten Year Plan to End Homelessness. Its Hardest-to-House subcommittee worked with Mr. Griffin on the design of the project, including the assessment of market, the role of partners such as Mission Hospital and Homeward Bound, and the availability of rental subsidies for eligible residents. Homeward Bound will provide supportive services including individual case management services. Mission's representative to the committee has proposed an on-site clinic.

The developer and community partners are now actively seeking both the necessary development financing and the commitment of operational funds to make this project a reality.

Biotat, LLC (the project developer) has secured the project site through a purchase contract, and the Asheville Regional Housing Consortium is recommending the award of a $75,000 federal HOME loan for the project. On March 18, 2014, the Housing and Community Development Committee recommended the award of a $58,106. HTF loan for the Oak Hill Commons project.

Pros:

- The project follows national best practices in its development and operational design for housing those deemed hardest-to-house;
- The development is seen as the next necessary step to ending chronic homelessness in Asheville and Buncombe County;

- The development site is within ¼ mile of jobs, services, groceries, and transit; and is under developer control via a purchase contract;
- Site has capacity to add more units to complement proposed project;
- The proposed loan is an efficient use of Housing Trust Funds.

Con:

- Additional public and private financing commitments will be necessary for the project to move towards construction. These include additional development financing, as well as firm commitments for supportive services necessary for project success.

The proposed Housing Trust Fund support is within the budgeted amount for this fiscal year.

The Housing and Community Development Committee recommends City Council approve a resolution authorizing the following loan subject to the developer meeting all program requirements for loan closing: Oak Hill Commons, Biotat, LLC: $58,106 HTF loan with a 20-Year Term, 2% Interest Only, Deferred Principal Payment.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 14-68. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 137

B. ORDINANCE NO. 4301 - ORDINANCE ADOPTING THE 2014-15 FEES & CHARGES MANUAL

Budget Director Tony McDowell said that this is the consideration of an ordinance adopting the Fiscal Year 2014-15 Fees & Charges Manual.

The major types of revenue available to North Carolina counties and municipalities are local taxes (including property taxes); local fees, charges and assessments; and intergovernmental and miscellaneous revenue. Local governments have increasingly looked for appropriate opportunities to implement local fees and charges because they have the advantage of aligning service provision directly with payment; therefore, the person or entity receiving the benefit of a service pays for the service. In Asheville, these fees make up about 10% of the City's General Fund revenue and 36% of city-wide revenue. These fees generally fall into three major categories: general user fees and charges; regulatory fees, and; public enterprise fees and charges.

Proposed FY 2014-15 Fee Changes:

1. *Minor Changes in Most Funds.* Staff is recommending minor changes to fees in several funds, including the General Fund. The total additional revenue generated from the changes in each fund is summarized below.

Fund	Additional Revenue
General Fund	$78,000
Transit Services Fund	$50,000
US Cellular Center Fund	$38,500
Parking Services Fund	$8,600

2. *Continue Planned Annual Water Adjustments.* Based on the financial analysis completed last fiscal year, staff is proposing the following rate adjustments in the Water Resources Fund.

    - Single Family, Multi-Family, Small Commercial/Manufacturer: 1.5% increase
    - Large Commercial/Manufacturer (>1,000 CCF/month): 3.5% increase
    - Wholesale & Irrigation: 4.0% increase

These changes will produce approximately $458,000 in additional revenue in the Water Resources Fund.

The proposed FY 2014-15 fee adjustments were reviewed by the City Council Finance Committee on March 25, 2014. The Finance Committee had additional questions about some of the proposed Parks and Recreation fee adjustments that were presented on March 25. Staff is currently preparing a response to those questions, so those fee adjustments are not included in this fee package. The Finance Committee also heard a staff presentation on March 25 related to proposed fee adjustments in the Stormwater program. The Stormwater fee adjustments will be discussed at a future Council budget worksession and are therefore not included in the fee package under consideration tonight.

Pros:

- Provides additional revenue to help balance the FY 2014-15 budget.
- Provides staff with time to begin communicating fee changes to citizens, customers and stakeholders so they are aware of changes that will be implemented on July 1.

Con:

- None.

The fiscal impact of the proposed fee changes is outlined in the information above.

Staff recommends that Council adopt the proposed FY 2014-15 fee proposals.

There was a brief discussion, initiated by Councilman Davis, about the water rate increase which is in line with the schedule the consultants had recommended, and Council approved, two years ago. City Council determined that it would be better to gradually increase the fees each year instead of having a large increase every 10 years. The increase on water rates for the average homeowner is approximately $3.00 per year, noting that the water utility is a break even deal - that the City does not make money on water.

Councilman Smith noted that we have an excellent water system and this will allow us to maintain the quality of the system.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4301. This motion was seconded by Councilman Pelly and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 31

C. CODE FOR AMERICA FELLOWSHIP UPDATE

Chief Information Officer Jonathan Feldman said that this is a report to share staff-level exploration of a Code for America (CfA) Fellowship opportunity and seek concurrence regarding further exploration.

The Code for America Fellowship program matches cities with high-performing individuals who have given a year to civic service. The program's outcomes are listed in the organization's annual report (2013.codeforamerica.org), and generally seek to make government more efficient and beneficial through a mix of community collaboration and technology.

CfA uses a lightweight, "agile" form of project management and appraisal that emphasizes early and continuing evaluation prior to commitment. The Code for America Fellowship application is a mutual evaluation tool that allows both the City organization as well as Code for America to determine if a Fellowship is in both parties' interest, prior to any contract being executed with the City of Asheville.

Depending upon the project mutually chosen, this action would comply with the City Council Strategic Operating Plan. Staff plans on exploring projects with CfA that would substantially improve development services and/or economic development. Staff would only recommend going forward if the project substantially impacted City Council SOP goals such as the Economic Growth and Financial Sustainability focus area's goals regarding downtown vitality and job growth. Staff would vet the proposal with stakeholders (e.g. development services community) and would propose a funding source commensurate with the area of benefit (e.g. existing permit fees).

Pro:

- Allows city staff to explore the opportunity without making significant commitments of staff time or funding

Con:

- Because the process is called an "application," misunderstanding about the current level of commitment among citizens or other stakeholders could occur.

The cost of the program for the typical city is $220,000, with the balance of the funding being raised through community partners. However, there is no fiscal impact at this time, and staff would strongly suggest to Code For America that Asheville's commitment be at a significantly different level than that of Boston or San Francisco. Once initial exploration is complete, if staff was to recommend moving forward, staff would bring a funding request to City Council.

City staff recommends exploration of a Code for America Fellowship opportunity and the findings be brought back to City Council prior to any commitment being made.

D. BOARDS & COMMISSIONS

Regarding the Homeless Initiative Advisory Committee (HIAC), the following individuals have applied for the vacancy: Sabrah n'haRaven, Matthew Shepley, Allison Bond, Heather Smith, Carrie Pettler and Kristi Case. The HIAC recommended appointing Sabrah n'haRaven. It was the consensus of City Council to interview Sabrah n'haRaven and Heather Smith.

Regarding the Asheville-Buncombe Community Relations Council (CRC), the following individuals applied for the vacancy: Sandra Houts, Brandee Boggs and Fyffe Aschenbrenner. Councilman Smith, liaison to the CRC, said that the CRC will be holding a recruitment event and requested an additional one month delay. It was the consensus of Council to delay the appointment for one month.

RESOLUTION NO. 14-69 - RESOLUTION APPOINTING MEMBERS TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Marc Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Citizens-Police Advisory Committee.

Grant Osborne (south representative) has resigned as a member of the Citizens-Police Advisory Committee, thus leaving an unexpired term until July 1, 2014.

The following individuals applied for the vacancy: Buck Bragg and Bill Galbraith.

It was the consensus of the Boards & Commissions Committee to appoint Bill Galbraith.

Councilwoman Wisler moved to appoint Bill Galbraith to the Citizens-Police Advisory Committee (south representative) to serve the unexpired term of Mr. Osborne, term to expire July 1, 2014, and then a full three-year term, term to expire July 1, 2017, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 138

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Timothy Sadler felt we should use local vendors for snacks in meetings.

Rev. Christopher Chiaronmonte spoke the rights of unborn children.

Ms. Louise Heath and Ms. Marty Grist spoke about the danger of use of Round Up/Agent Orange on Asheville School and park lawns. Councilman Bothwell recalled a memorandum from City staff at the Sustainability Advisory Committee on Energy & the Environment Committee regarding this subject and it was the consensus of Council to have the City Manager provide that memorandum to Council.

Mr. Paul Berry, Mr. Lafayette Prescott, and Ms. Robbie Coleman, representing Asheville Voice for Animals, provided City Council with information regarding misuse and improper handling of elephants by Ringling Brothers. They urged Council to seek a ban on exotic animals by the circus. Mayor Manheimer thanked them for bringing this matter to their attention and noted City Council would review the matter. She asked City Manager Jackson to provide information on whether City Council has authority on who uses the US Cellular Center as a venue, and how other cities have moved in this direction, noting that any ban should be a community decision. Councilman Bothwell would support a ban on animal acts, and noted that since the City has a policy about no weapons on City property, the gun show at the U.S. Cellular Center moved from that venue. City Manager Jackson said that he would provide City Council with information and then seek their direction.

Closed Session

At 6:54 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: State of North Carolina, City of Asheville, and Metropolitan Sewerage District of Buncombe County . The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:53 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilwoman Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:53 p.m.

Magdalen Bullock
CITY CLERK

Esther G. Manheimer
MAYOR

Tuesday – April 22, 2014 - 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

Finance Director Barbara Whitehorn recapped the process. Expectations are modest growth in revenues: (1) Property tax - no increase to rate; (2) Sales Tax; (3) Building permits are up; and (4) Business privilege licenses. Her challenge from the City Manager has been to evaluate processes, trends and expenditure patterns and consider alternatives that may improve productivity and save money. While property taxes are not expected to increase significantly in Fiscal Year 2015, it is important to note that increasing permit activity is a leading indicator for property value increases, whether increases to existing property through improvements, or additions to the property tax roll through.

She explained their goals from Council are (1) continue to provide core services; and (2) priorities/ guidance from City Council (a) compensation - employee compensation pool; (b) transit - Sunday Service; and (c) Police strategic plan - compensation; vehicle replacement; take-home vehicle program; and management structure changes. The graffiti program one-time expense of approximately $300,000 will be included in the operating budget. She explained how savings identified in the Current Year will be swept into Fiscal Year 2014-15 budget to fund the cost of living adjustment. General Fund expenditures will be by managed savings in the current fiscal year,

She then reviewed the enterprise funds: (1) Water Fund (a) continued stable performance; (b) minor rate adjustments based on financial model were approved on April 8; and (c) $10.1 Million pay-go investment in water capital improvements; (2) Transit Fund (a) limited Sunday service; (b) continued financial pressure; and (c) General Fund support increased by $621,000; (3) Parking Fund (a) strong revenue growth; (b) no adjustments to garage or meter rates; and (3) maintain $616,000 in support to Transit Fund; and (4) US Cellular Center Fund (a) strong performance in Fiscal Year 2013-14; (b) anticipated savings from outsourcing custodial operations; and (c) no increase in General Fund operating support.

Throughout Ms. Whitehorn's presentation, she responded to various questions/comments from Council.

Ms. Whitehorn then reviewed the upcoming dates associated with adoption of the budget.

At 4:00 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – April 22, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. EMPLOYEE RECOGNITIONS

City Manager Jackson recognized Mr. David D. Bailey, President and CEO of the United Way of Asheville and Buncombe County, and Mr. Richard Caro, United Way's Resource Development Manager, who then recognized the Public Services Division Coordinator Police Chief William Anderson; along with the following Campaign Coordinators: Scott Burnette, Curtis Jones, Chris Collins, Brad Stein, Alex Carmichael, Rachel Buckner, Robin Rice, Gina Zachary, Jannice Ashley, Caroline Long, Christy Bass, Christy Edwards, Jakob Klodt, Alina Law, and Darlene Barnwell.

Mayor Manheimer thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

B. PROCLAMATION PROCLAIMING APRIL 20-26, 2014, AS "ADMINISTRATIVE PROFESSIONALS WEEK"

Vice-Mayor Hunt read the proclamation proclaiming April 20-26, 2014, as "Administrative Professionals Day" in the City of Asheville. He presented the proclamation to Ms. Mary Ann Schiller, Vice-President of the Land of the Sky Chapter of the International Association of Administrative Professionals, along with Sandy Stotesbury and Monica Strickland, who briefed City Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING APRIL 21-26, 2014, AS "NATIONAL COMMUNITY DEVELOPMENT WEEK"

Mayor Manheimer read the proclamation proclaiming April 21-26, 2014, as "National Community Development Day" in the City of Asheville. She presented the proclamation to Community Development Director Jeff Staudinger, and program partners, who briefed City Council on some activities taking place during the week.

D. PROCLAMATION PROCLAIMING MAY AS "MOTORCYCLE AWARENESS MONTH"

Councilman Davis read the proclamation proclaiming May, 2014, as "Motorcycle Awareness Month" in the City of Asheville. He presented the proclamation to Mr. Roger Williams, representing the Concerned Bikers Association, who briefed City Council on some activities taking place during the month.

E. PROCLAMATION PROCLAIMING MAY 4-10, 2014, AS "NATIONAL DRINKING WATER WEEK"

Councilman Bothwell read the proclamation proclaiming May 4-10, 2014, as "National Drinking Water Week" in the City of Asheville. He presented the proclamation to Mr. Ivan Thomas, Operations Manager for the Water Resources Department, who briefed City Council on some activities taking place during the week.

F. PROCLAMATION PROCLAIMING MAY 6-12, 2014, AS "NURSES WEEK"

Councilman Pelly read the proclamation proclaiming May 6-12, 2014, as "Nurses Week" in the City of Asheville. He presented the proclamation to Mission Hospital's Chief Nursing Officer Karen Olsen, along with Ms. Kathy Guyette, Stephanie Whitaker, Ginny Raviotta and Cherry Odom, who briefed City Council on some activities taking place during the week.

G. PROCLAMATION PROCLAIMING MAY 16-22, 2014, AS "STRIVE NOT TO DRIVE WEEK"

Councilwoman Wisler read the proclamation proclaiming May 16-22, 2014, as "Strive Not To Drive Week" in the City of Asheville. She presented the proclamation to Mr. Jim Grode, Chair of the Multimodal Transportation Commission, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

At the request of City staff, Vice-Mayor Hunt moved to continue to May 13, 2014, Consent Item "C" - Resolution authorizing a land exchange with the UNC-Asheville Foundation, Inc., for City-owned real property at Broadway Street for a greenway easement along Reed Creek. This motion was seconded by Councilman Bothwell and carried unanimously.

Consent Agenda Items "H" and "M" were removed from the Consent Agenda for discussion and/or individual votes.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 8 2014

B. RESOLUTION NO. 14-70 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A GRANT APPLICATION TO THE US DEPT. OF TRANSPORTATION TIGER PROGRAM FOR ELEMENTS IN THE FOLLOWING PROJECTS: RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT, FIVE POINTS ROUNDABOUT, CLINGMAN FOREST GREENWAY, TOWN BRANCH GREENWAY, FRENCH BROAD RIVER GREENWAY, AND LIVINGSTON STREET "COMPLETE STREETS" IMPROVEMENT PROJECT; AND TO AUTHORIZE THE CITY MANAGER TO SIGN A LETTER OF COMMITMENT TO PROVIDE MATCHING FUNDS IF THE CITY IS AWARDED THE GRANT

Summary: The consideration of a resolution authorizing the City Manager to submit a grant application to the U.S. Dept. of Transportation (USDOT) TIGER Program, and to authorize the City Manager to sign a letter of commitment to provide matching funds if the City is awarded the grant.

On March 3, 2014, the USDOT released a notice of funding availability for this, the sixth round of TIGER (Transportation Improvements Generating Economic Recovery) funds. Nationally, $565 Million will be allocated for construction projects; $35 Million for planning projects. The award minimum is $10 million.

Staff is in the process of preparing a TIGER VI grant application for transportation construction funding. The application will include the RADTIP and other complete streets and greenways improvements in the East of the Riverway area. Many of these projects were developed and studied in the East of the Riverway Multimodal Neighborhood Project, which was funded with a TIGER II Planning Grant.

The TIGER Program is a highly competitive discretionary grant program. Approximately five percent of applications receive funding. Applicants are asked to submit projects that will deliver five long-term outcomes: safety, economic competitiveness, state of good repair, livability and environmental sustainability. The TIGER Program also has an emphasis on economic recovery. Applications must include a benefit-cost analysis. The application is due on April 28th.

For this round of TIGER, projects must be ready for implementation by certain deadlines. All funds must be fully expended by September 2021. Generally this means that construction for all projects would be likely to happen between 2016 and 2020.

Staff has identified six key transportation projects that will create a multi-modal transportation network along the riverfront and East of the Riverway. These projects total approximately $27.1 million. Staff is in the process of refining the scope and budget of transportation elements that will be included. Although the minimum required match is 20%, successful projects usually have a much bigger commitment of local funds. Therefore, we anticipate submitting an application for $10-$15 million in TIGER funds. In other words, we expect for the local match to be more in the range of 45% to 65%. The application will need to include a commitment to provide matching funds. Staff is confident that other stakeholders and partners will contribute to the project and provide matching funds. However, these commitments will not be able to be made until after the application deadline. Therefore, the City will need to make a commitment in the application to provide the entire amount of the match.

The City of Asheville application will include the following project elements (cost estimates are subject to change):

- The RADTIP - a multi-modal transportation project that will construct roadway improvements, sidewalks, bike lanes and greenways along Lyman Street and part of Riverside Drive adjacent to the French Broad River. Total cost approximately $20 million.
- Five Points Roundabout – a key connection between the RADTIP and the multi-modal network in the East of the Riverway Area. Total cost approximately $600 thousand.
- Clingman Forest Greenway – connects the riverfront area with downtown. Total cost approximately $1.5 million.
- Town Branch Greenway – connects the riverfront, Southside neighborhood, and south slope of downtown. Total cost approximately $2.5 million.
- French Broad River Greenway (West Side – Duke Energy Donation) – completes a key link in the riverfront greenway system, connecting the French Broad River Park system to the RADTIP and the site of New Belgium Brewing. Total cost approximately $1 million.
- Livingston Street "Compete Street" Improvements – a recommendation of the East of the Riverway Connections plan. The project will be designed in close coordination with the neighborhood. Total cost approximately $1.5 million.

Local partnerships are an important element of successful TIGER Projects. Staff is reaching out to other agencies and key officials to ask for support of this grant application and for the suite of transportation projects. This effort is in concert with other efforts to develop funding partnerships that will contribute to the local match.

Pros:

- City Council has identified implementation of multi-modal transportation investments as a key strategic goal for the city.

- The City has engaged in and significantly invested in the planning activities that make the application timely and competitive;
- The TIGER Program is a significant funding opportunity that would allow the City to move forward on these investments.
- The City has already shown a commitment to implementing these projects as part of the Economic Development Capital Improvements Program.

Cons:

- If awarded, the City would be expected to provide matching funds and move forward with the projects.
- The projects would be required to follow federal guidelines for implementation.

The USDOT may choose to award the city with full or partial funding based on the application. If awarded, the city would begin the process of developing a grant agreement with USDOT. The specific funding amounts and project elements will be further defined at that time. By submitting the application, the City is indicating to the USDOT that the project matching funds will be committed, if the grant is awarded. Based on the preliminary budget numbers in the application, the City and its partners could expect to spend between $12 million and $17 million on these specific projects from FY16 to FY20. City funding will be included as part of the five-year Capital Improvement Program.

City staff recommends City Council adopt a resolution authorizing the City Manager to submit a grant application to the USDOT TIGER Program, and to authorize the City Manager to sign a letter of commitment to provide matching funds if the City is awarded the grant.

RESOLUTION BOOK NO. 36 - PAGE 139

C. RESOLUTION AUTHORIZING A LAND EXCHANGE WITH THE UNC-ASHEVILLE FOUNDATION, INC., FOR CITY-OWNED REAL PROPERTY AT BROADWAY STREET FOR A GREENWAY EASEMENT ALONG REED CREEK

Vice-Mayor Hunt moved to continue this item to May 13, 2014. This motion was seconded by Councilman Bothwell and carried unanimously.

D. RESOLUTION NO. 14-71 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH KIMLEY-HORN AND ASSOCIATES INC. FOR THE DEVELOPMENT OF THE MULTIMODAL TRANSPORTATION PLAN

ORDINANCE NO. 4302 - BUDGET AMENDMENT TO SET UP THE PROJECT BUDGET FOR THE DEVELOPMENT OF THE MULTIMODAL TRANSPORTATION PLAN

Summary: The consideration of: 1) a resolution authorizing the City Manager to enter into a General Services contract with Kimley-Horn and Associates, Inc. for the development of the Multimodal Transportation Plan for the City of Asheville; and 2) a budget amendment in the amount of $336,000; $200,000 awarded to the City by the Metropolitan Planning Organization as part of the Unified Planning Work Program in June 2013; and $136,000 from the City's General Fund and the Community and Economic Development CIP (EDCIP).

In order to address the City's growing transportation needs, the City of Asheville has proposed the development of a Multimodal Transportation Plan to analyze existing transportation infrastructure and to create strategies to develop a network of interconnected transportation modes. This plan will include measurable goals and detailed strategies for creating a vision to develop transportation networks to improve accessibility, connectivity and transportation

infrastructure throughout the City and at the same time becoming an element to promote economic development. The project is funded with FHWA metropolitan planning funds allocated through the French Broad River Metropolitan Planning Organization's Unified Planning Work Program grant, and with local funds.

The City issued a Request for Proposals for a Multimodal Transportation Plan in November 11, 2013. The RFP closed on December 13, 2013. Seven proposals were received from the following firms:

1. Moffat and Nichol, Raleigh, NC
2. Renaissance Planning Group, Inc., Durham, NC
3. Stantec Consulting Services, Inc., Raleigh, NC
4. Michael Baker Engineering, Inc., Asheville, NC
5. URS Corporation, Morrisville, NC
6. VHB Engineering NC, P.C., Raleigh, NC
7. Kimley-Horn and Associates, Inc., Raleigh, NC

The evaluation committee recommended Kimley-Horn and Associates, Inc. as the firm to provide services for the development of the City of Asheville Multimodal Transportation Plan. The firms were evaluated based on their experience, similar projects completed, team qualifications, quality of proposal, project management plan and project cost.

The project cost will be approximately $324,250, with $11,750 contingency added to that amount for unforeseen expenses the consultant may incurred during the development of the contract.

The Multi-modal Transportation Plan is intended to help further community goals and improve transportation facilities and services by:

1. Finding commonalities and efficiencies in existing transportation plans.
2. Analyzing current land use to determine areas of activity, and major generators and destination nodes and the effect of existing and proposed land use policies on the existing transportation network.
3. Improving the transportation of people and goods, using different modes and facilities.
4. Improving connectivity among main generators.
5. Providing guidance and transportation elements to implement the Complete Streets policy.
6. Planning a safe, efficient, accessible, cost-effective transportation system.
7. Providing a prioritized project list and policy recommendations that would reduce barriers to access transportation and ensuring an equitable transportation system.
8. Considering environmental impacts, including protecting and improving air quality and taking water quality and stormwater runoff issues into account.
9. Identifying funding opportunities.
10. Drafting a set of Street Design Guidelines with graphic illustrations.

This plan will be completed in approximately 14 months after signing the contract.

The Multimodal Transportation Commission endorses the development of this plan; a member of the Commission has been part of the Evaluation Committee.

Pros:

- The Multimodal Transportation Plan will analyze existing transportation infrastructure and needs across the city.
- It will create strategies to develop a network of interconnected transportation modes that promote efficient use of the transportation network and address inequality.

- The French Broad River Metropolitan Planning Organization (MPO) through the Unified Planning Work Program (UPWP) grant will provide $200,000 of the total cost which equates to $336,000.

Cons:

- The total maximum cost of the subject project is $336,000.
- Requires a City match of $136,000.

The cost of the Multimodal Transportation Plan will be approximately $324,250 with $11,750 contingency added to that amount for a total budget of $336,000. As noted above, $200,000 will be provided by the French Broad River Metropolitan Planning Organization (MPO) through the Unified Planning Work Program (UPWP) grant. The remaining $136,000 will come from the General Fund operating budget and the EDCIP. The adopted General Fund budget included $50,000 as the City's match or this grant. The additional $86,000 will be taken from EDCIP funds.

City staff recommends that City Council adopt 1) a resolution authorizing the City Manager to enter into a General Services contract with Kimley-Horn and Associates, Inc. for the development of the Multimodal Transportation Plan for the City of Asheville; and 2) a budget amendment in the amount of $336,000; $200,000 awarded to the City by the Metropolitan Planning Organization as part of the Unified Planning Work Program in June 2013; and $136,000 from the City's General Fund and EDCIP.

RESOLUTION BOOK NO. 36 - PAGE 140
ORDINANCE BOOK NO. 29 - PAGE 38

E. RESOLUTION NO. 14-72 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS ON I-240 FROM I-26/I-40 TO SR 1781 (BROADWAY)

Summary: The consideration of a resolution authorizing the City Manager to sign a municipal agreement with the N.C. Dept. of Transportation approving a project for making improvements on I-240 from I-26/I-40 to SR 1781 (Broadway) in Asheville.

The North Carolina Department of Transportation (NCDOT) plans to make improvements including concrete slab repair and/or replacements and resurfacing on I-240 from I-26/I-40 to SR 1781 (Broadway) in Asheville. The project, which is identified as I-5608, has a letting date of September 16, 2014. The NCDOT will prepare the environmental and/or planning documents, obtain applicable environmental permits, prepare the project plans and specifications, acquire any needed right-of-way, and construct or cause the project to be constructed including the administration of the construction contract.

It is understood that there are no municipally-owned water and/or sewer lines to be adjusted or relocated at this time. If during the project it becomes necessary to adjust or relocate municipally-owned water and/or sewer line, a separate utility agreement will be prepared.

The NCDOT has confirmed that the subject municipal agreement does not require a financial commitment.

Pros:

- A section of interstate highway will be improved.
- The NCDOT is funding and constructing the project.

Con:

- None

Staff recommends that City Council approve a resolution authorizing the City Manager to sign a municipal agreement with the NCDOT formally approving Project I-5608.

RESOLUTION BOOK NO. 36 - PAGE 141

F. ORDINANCE NO. 4303 - BUDGET AMENDMENT FOR DONATIONS FROM THE ASHEVILLE PARKS & GREENWAYS FOUNDATION AND OTHER PRIVATE DONATIONS FOR VARIOUS PARKS & RECREATION PROJECTS

Summary: The consideration of a budget amendment in the General Fund in the amount of $3,651 from donations for projects within the Parks and Recreation Department.

The City of Asheville has received donations totaling $3,651 from the Asheville Parks and Greenways Foundation and other miscellaneous donations to support projects within the Parks and Recreation Department. Funds will be used to support the projects listed below.

- $2,201 donation for Park Maintenance to purchase materials for the Our Parks Day, a volunteer work day at Carrier Park with the Asheville Parks and Greenways Foundation.
- $600 donation for Park Maintenance to purchase a bench for French Broad River Park.
- $850 donation for Aston Tennis Center to support the purchase of a tennis ball machine.

Pro:
- Provide funds to support parks, facilities and programming enhancements

Con:
- None

These donations enhance parks and recreation services at no impact to the General Fund operating budget.

Staff recommends City Council to approve a budget amendment in the General Fund in the amount of $3,651 from donations for projects within the Parks and Recreation Department.

ORDINANCE BOOK NO. 29 - PAGE 40

G. RESOLUTION NO. 14-73 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A LEASE WITH THE U.S. GENERAL SERVICES ADMINISTRATION FOR THE ASHEVILLE POLICE DEPARTMENT PROPERTY ROOM STORAGE SPACE AT THE VEACH-BALEY FEDERAL COMPLEX AT 151 PATTON AVENUE IN ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to execute a lease agreement with the U.S. General Service Administration for satellite property storage space at the Veach-Baley Federal Complex, located at 151 Patton Avenue in Asheville.

In an effort to address the lack of storage space for property and evidence related to police functions, the police department seeks to establish an off-site secure storage facility to house property and evidence as the existing storage space has been maximized. The subject property at 151 Patton Avenue provides approximately 2,185.28 square feet of storage space that is in good condition and requires minimal improvements to begin operations. The property is easily accessible with very good site/access security in place. The space has significant shelving and access controls.

The initial term for this proposed lease is 36 months, with renewal options within 60 days of the end of the fixed term. The contract cost for the leased premises is $21,852.80/year for a total of $65,558.40 for the 36 month term. The monthly payment of $1,821.07 shall be paid in advance, and the Lessor shall furnish the Lessee under the terms of this lease services and utilities as follows:

A. Janitorial and space maintenance services during normal building hours - 11 hours/day, excluding weekends and Federal holidays
B. All utilities during normal building hours – 11 hours/day, excluding weekends and Federal holidays.

Pros:

- Establishes secure property storage facility with convenient access;
- Facility is climate controlled with maintenance, janitorial services, and utilities included in the lease agreement;
- Facility provides ample storage for property and evidence which alleviates current space concerns at the Municipal Building.

Con:

- The impact of a 36 month fixed term lease on the police operations budget.

Fiscal impacts are as follows: FY14: $3,642.14 expenditure for remaining budget year. FY15-17: Lease cost of $21,852.80 per year to be included in the police department's annual operating budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with U.S. General Service Administration for satellite property storage space at the Veach-Baley Federal Complex, located at 151 Patton Avenue in Asheville.

RESOLUTION BOOK NO. 36 - PAGE 142

H. RESOLUTION AUTHORIZING A 60-DAY EXTENSION TO THE PACK PLACE EDUCATION, ARTS & SCIENCE CENTER INC. LEASE

This item was removed from the Consent Agenda for discussion and/or an individual vote.

I. RESOLUTION NO. 14--75 - RESOLUTION AUTHORIZING IMPLEMENTATION OF MAY 19, 2014, AS "FARE FREE DAY" TO PROMOTE TRANSIT DURING STRIVE NOT TO DRIVE WEEK

Summary: The consideration of a resolution authorizing the City Manager to implement a fare-free day to promote transit during the Strive Not To Drive Week, May 16-25, 2014.

Twenty-five years ago Bike to Work Day was launched in Asheville. Over the years this event evolved into Strive Not To Drive (SNTD) Week focusing more broadly on a variety of transportation alternatives to the single-occupant car, including carpooling, walking, and public transit.

SNTD Week is an annual event encouraging people to avoid driving their car for a day or part of a day in order to experience the benefits and opportunities of walking, bicycling, riding the bus, carpooling, telecommuting, etc.

This year the Transit Sub-committee of the SNTD Committee would like to offer commuters the following options:

1. Riders Appreciation Day on May 19, which will include breakfast at the Transit Station and free fare for the day.

2. The Transit Committee, a sub-committee of the Multimodal Transportation Commission, will set up informational tables at the transit station to provide general information about the bus system.

Pros:

- The fare-free day would help promote the Strive Not To Drive activities.
- Fare-free day during the SNTD week would show appreciation for transit system's core riders.
- The free fare would potentially attract new riders.

Con:

- The system would lose about $2,200 in revenue.

The system would lose about $2,200 in revenue from current riders.

Staff recommends a resolution authorizing the City Manager to implement a fare-free day in order to promote the Strive Not To Drive activities.

RESOLUTION BOOK NO. 36 - PAGE 144

J. RESOLUTION NO. 14-76 - RESOLUTION DIRECTING STAFF TO PREPARE A REPORT ON A MUNICIPAL SERVICE DISTRICT FOR THE SOUTH SLOPE AND SETTING A PUBLIC HEARING ON MAY 27, 2014

RESOLUTION NO. 14-77 - RESOLUTION DIRECTING STAFF TO PREPARE A REPORT ON A MUNICIPAL SERVICE DISTRICT FOR THE RIVER ARTS DISTRICT AND SETTING A PUBLIC HEARING ON MAY 27, 2014

RESOLUTION NO. 14-78 - RESOLUTION DIRECTING STAFF TO PREPARE A REPORT ON A MUNICIPAL SERVICE DISTRICT FOR NORTH CHARLOTTE STREET AND SETTING A PUBLIC HEARING ON MAY 27, 2014

Summary: The consideration of three resolutions to create three municipal service districts for the purpose of accelerating capital investment in the South Slope, River Arts District, and north Charlotte Street areas, and to set the public hearings for May 27, 2014.

The 2010 City of Asheville report titled "A Community Crossroads" recommended that a move toward more focused and strategic capital investments by the City could increase long term returns in community and economic development. In 2011 and 2012, staff began developing a long term Capital Improvement Plan strategy that aligned with Council's goals to support in-fill development, job creation, affordable housing, and multimodal transportation. This strategy or plan became known as the Economic and Community Development Capital Improvement Plan or EDCIP. To support the implementation of this plan, Council passed a three cent property tax increase in June 2013, two cents of which is reserved to implement the EDCIP.

Around the same time, the City contracted with Parker Poe and DEC Associates to review financing options and strategies that would leverage the taxpayers' new investment in EDCIP projects. While several types of debt financing are available, staff found that only a few are appropriate and allowable for the type of improvements the City wants to make. One option that the City has not previously utilized is the Special Obligation Bond (SOB). The benefit of financing CIP investments with SOBs is that they are appropriate for key infrastructure investments such as the River Arts District Transportation Improvement Project (RADTIP), and

that they are an established best practice within municipalities across the state. Projects that are financed through SOBs must be located in a municipal service district as outlined in Article 23 of Chapter 160 A of the North Carolina General Statutes.

To identify potential districts, staff considered mixed use areas where proposed public infrastructure investments would be most likely to find leverage in private investment (thus creating the most economic and community development return); staff has identified the South Slope, River Arts District, and north Charlotte Street areas as potential municipal service districts.

If Council desires to move forward with the process, the next step is for Council to adopt three resolutions, each directing staff to create a report detailing the individual, proposed municipal service district; and for Council to set public hearing dates for each proposed municipal service district.

The Planning and Economic Development Committee of Council reviewed this item at their March 2014 meeting and asked staff to move the item forward for Council consideration.

This request is in alignment with Council's 2013-2014 Strategic Plan for Focus Area 1: Economic Growth and Fiscal Responsibility (seek to ensure a sustainable financial future for Asheville by promoting an environment where citizens and businesses want to live, work and invest). In particular, it is part of a coordinated strategy for Goal 1: Invest and leverage investment in community infrastructure.

Pros:

- Adoption of three resolutions provides further direction to staff and advances the process for Council's consideration of adopting three municipal service districts forward.

Cons:

- None

The use of Special Obligation Bonds (SOB's) is a key financial component of the City's Economic and Community Development Capital Improvement Plan or EDCIP. The financial model being developed in conjunction with Parker Poe and DEC Associates uses revenue from the three cent property tax increase mentioned above, along with resources already dedicated to the City's existing debt service budget, to fund all additional debt service that may arise from the future issuance of SOB's.

City staff recommends City Council adopt the three resolutions as presented.

When Rev. Christopher Chiaronmonte expressed concern that this item that would allow City Council to tax individuals without voice, Councilman Bothwell noted that this is only a resolution directing staff to prepare a report and to set a public hearing.

K. RESOLUTION REGARDING NEW FDA REGULATIONS FOR FARMERS

This item was removed from the Consent Agenda for discussion and/or an individual vote.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Wisler and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

H. RESOLUTION NO. 14-74 - RESOLUTION AUTHORIZING A 60-DAY EXTENSION TO THE PACK PLACE EDUCATION, ARTS & SCIENCE CENTER INC. LEASE

Summary: City Council provided direction to the City's outside legal counsel concerning negotiations involving the City's lease with Pack Place Education, Arts & Science Center, Inc. City Council was advised of a proposed action on the Pack Place Board agenda for April 9 to make an offer to renew the lease with the City under its existing terms. City Council was advised that Pack Place tenant Colburn Earth Science Museum wished to remain in the premises until December 31, 2014. Outside legal counsel advised Council of the potential benefits to extending the Pack Place lease for 60 days, which would be to provide the opportunity for lease negotiations to continue and the needs of Colburn Earth Science Museum and other tenants to be met, and of not seeking rent or capital contribution from Pack Place tenants, to allow a transition period for Pack Place tenants. City Council authorized the City Manager to offer to extend the Pack Place lease for 60 days, and to not seek rent or capital contribution from Pack Place tenants through the end of 2014, contingent on Pack Place not making the offer to renew the lease under its existing terms at this time. On April 9, 2014, the Pack Place Board passed a resolution to extend the lease with the City by 60 days, and the motion to offer to renew the lease under the existing terms was withdrawn. This extension is authorized pursuant to the provisions of N. C. Gen. Stat. sec. 160A-272.

City Council authorized (1) The City Manager to extend the Pack Place lease for 60 days; (2) The City of Asheville to not seek rent or capital contribution from Pack Place tenants for the year 2014; and (3) The City Manager to execute any and all other documents to effectuate the 60 day extension to the Pack Place lease.

Interim City Attorney McGlohon asked that the resolution before Council be amended include a "Whereas" to read "Whereas, a notice shall be published regarding the 60-day extension."

Vice-Mayor Hunt moved for the adoption of the amended Resolution No. 14-74. This motion was seconded by Councilman Smith.

Mr. Ken Michalove, spoke against the the direct lease between the City and the Asheville Art Museum and urged them to continue the existing lease between Pack Place and the City for another 10 years.

The amended motion made by Vice-Mayor Hunt and seconded by Councilman Smith carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 143

K. RESOLUTION NO. 14-79 - RESOLUTION REGARDING NEW FDA REGULATIONS FOR FARMERS

The 2011 Food Safety and Modernization Act (FSMA) "aims to ensure the U.S. food supply is safe by shifting the focus from responding to contamination of the food supply to preventing it." Under FSMA, the U.S. Food and Drug Administration's (FDA) proposed rule, *Current Good Manufacturing Practice and Hazard Analysis and Risk-Based Preventative Controls for Food for Animals*, would regulate the process by which spent brewer's grain and spent distiller's grain could be used as a source of feed for animal livestock. This rule would subject the grain byproduct to the same sanitary handling, records keeping, packaging, and analysis regulations as manufactured livestock- and pet- food.

Brewery and agricultural industry associations nationwide have expressed opposition to the proposed rule, citing a lack of scientific analysis showing the longstanding practice to be unsafe and a financial burden that would disrupt the otherwise symbiotic relationship. The practice of using spent grains for animal livestock feed saves brewers and distillers from the costs of disposing of large quantities of the byproduct in landfills while simultaneously providing a nutrient-rich food source for farms. The cost of compliance with the new rule is expected to virtually eliminate this practice.

At this point in our analysis, staff finds no concern with the adoption of a resolution in opposition to new FDA regulations for farmers.

Vice-Mayor Hunt amended the resolution to reflect that City Council encourage the FDA to reconsider its regulation and only adopt a rule that both protects our food supply and is minimally disruptive to the long-standing practice of brewers providing wet grain to farmers, with supports both the farming and brewing industries.

When Mayor Manheimer asked for public comment, no one spoke.

Vice-Mayor Hunt moved to adopt the amended resolution. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 151

III. PRESENTATIONS & REPORTS: None.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO PERMANENTLY CLOSE UNIVERSITY HEIGHTS AND A PORTION OF EDGEWOOD ROAD

RESOLUTION NO. 14-80 - RESOLUTION TO PERMANENTLY CLOSE UNIVERSITY HEIGHTS AND A PORTION OF EDGEWOOD ROAD

Interim Director of Public Works Ken Putnam said that this is the consideration of a resolution to permanently close University Heights and a portion of Edgewood Road. This public hearing was advertised on March 28, April 4, 11 and 18, 2014.

N.C. Gen. Stat. sec. 160A-296 gives cities the authority to permanently close streets and alleys within their jurisdictions and N. C. Gen. Stat. sec. 160A-299 outlines the procedure to be followed. The University of North Carolina at Asheville has requested the City of Asheville to permanently close University Heights and a portion of Edgewood Road, both of which are contained within the university's property which is identified as parcel # 9649072895.

During a meeting on May 18, 2012, staff from the University of North Carolina - Asheville (UNC-Asheville) officially requested that these streets be transferred to them for ownership and maintenance activities. City staff's initial concern was the possibility of losing connectivity between W.T. Weaver Boulevard and Hyannis Street. The university responded via e-mail message dated July 14, 2012, that they had no current plans to either gate or close the streets. The University is pursuing the subject action for the following reasons:

- Enables the university to fully control and maintain the streets that are contained within their property.
- Enables the campus police to enforce parking and traffic control as dictated by N.C. Gen. Stat. sec. 116-44.4.
- Enables the use of State funding to improve and maintain the streets.

- Helps the university complete its master plan.

The City and UNC-Asheville staff has worked closely together during the past two years researching various ways to accomplish the subject task and we have concluded that the best way is through the closing procedures outlined in the statutes.

This item was reviewed by the Multimodal Transportation Commission on February 26, 2014, and they recommended approval.

Pros:

- There will be no future compromise of ingress/egress to other property.
- The closure would allow for more efficient use of the existing adjacent property.
- Enables the university to fully control and maintain the streets that are contained within their property.
- Enables the campus police to enforce parking and traffic control as dictated by N.C. Gen. Stat. sec. 116-44.4.

Cons:

- The City cannot prohibit the possibility of gating the streets although the university has stated that it has no current plans to do so.
- Minor loss of revenues from Powell Bill Funds although the revenues typically do not provide the full street maintenance cost.

City staff recommends City Council adopt the resolution to permanently close University Heights and a portion of Edgewood Road. Staff additionally recommends the street closure fee be waived since the City and UNC-Asheville continue to maintain a close partnership relationship.

In response to Councilman Bothwell, Ms. Heather Parlier, General Counsel for UNC-Asheville, said that the Board of Trustees passed a resolution announcing the University's plans to not close or otherwise block the road unless there is an emergency situation or unless they have a prior written agreement with the City.

Mayor Manheimer opened the public hearing at 5:50 p.m.

Mr. Dave Perkins, resident in Jackson Park, spoke against the road closings. He said that a resolution by the Board of Trustees is non-binding and felt that because the road closings affected many more than abutting property owners and the entire area should have been notified. He felt this closure will put more traffic on Merrimon and on the southern part of Barnard. If this resolution is adopted, he asked that a provision be included in the resolution ensuring that the roads will remain open.

When Councilman Smith asked if there was some way to give the neighbors comfort that UNC-Asheville will keep the roads open, Interim City Attorney McGlohon said that City staff did discuss that; however, it would not be possible because that would defeat the whole purpose of the statutory closing process.

Mayor Manheimer closed the public hearing at 5:56 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Wisler moved for the adoption of Resolution No. 14-80, and that the street closure fee be waived. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 152

B. PUBLIC HEARING TO PERMANENTLY CLOSE A PORTION OF ASHELAND AVENUE

RESOLUTION NO. 14-81 - RESOLUTION TO PERMANENTLY CLOSE A PORTION OF ASHELAND AVENUE

At the request of Councilman Pelly, Councilman Bothwell moved to recuse Councilman Pelly from participating in this matter due to a conflict of interest. This motion as seconded by Councilwoman Wisler and carried unanimously.

Interim Director of Public Works Ken Putnam said that this is the consideration of a resolution to permanently close a portion of Asheland Avenue. This public hearing was advertised on March 28, April 4, 11 and 18, 2014.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, 86 Asheland, LLC have requested the City of Asheville to permanently close a portion of Asheland Avenue

The Multimodal Transportation Commission met on February 26, 2014, and voted unanimously to support the closure of a portion of Asheland Avenue.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

City staff recommends City Council adopt the resolution to permanently close a portion of Asheland Avenue.

Mayor Manheimer opened the public hearing at 5:59 p.m., and when no one spoke, she closed the public hearing at 5:59 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-81. This motion was seconded by Vice-Mayor Hunt and carried unanimously (with Councilman Pelly being recused from voting).

RESOLUTION BOOK NO. 36 – PAGE 155

C. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNNAMED ALLEY OFF SOUTH ANN STREET

At the request of City staff, Councilman Davis moved to continue this public hearing until May 27, 2014. This motion was seconded by Councilman Bothwell and carried unanimously.

D. PUBLIC HEARING TO CONSIDER ADOPTION OF THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2014 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS

RESOLUTION NO. 14-82 - RESOLUTION ADOPTING THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2014 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS

Community Development Director Jeff Staudinger said that this is a public hearing to receive comments regarding the proposed Consolidated Action Plan for Fiscal Year (FY) 2014-2015, which sets out the proposed use of federal Community Development Block Grant (CDBG) and HOME Investment Partnership Act (HOME) funds for the coming fiscal year; followed immediately by Council's consideration of a resolution authorizing submission of this Consolidated Action Plan to the US Department of Housing and Urban Development. This public hearing was advertised on April 11 and 18, 2014.

The City will have $1,174,689 in CDBG funds and $1,195,779 in HOME funds available for the fiscal year beginning July 1, 2014. The City's Housing and Community Development Committee has made recommendations for the use of CDBG funds, which must be used in housing or community development programs in Asheville, and the Asheville Regional Housing Consortium has recommended uses for the HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties). A total of 17 CDBG and 11 HOME programs are recommended for funding. Allocations are consistent with the proposed Strategic Housing & Community Plan for 2010-2015.

Although the CDBG funds available this year are $49,500 less than last year, there were fewer requests for funding, and applications were generally funded at or close to the requested amounts. The exception is in the Public Service category, which is capped at 15% of this year's allocation and next year's expected program income. Requests in that category were $110,000 greater than could be funded.

The total HOME funds available this year are $288,600 less than last year, even though the HUD allocation was greater than last year. Over $2.8 million in funding was requested this year as opposed to $2.4 million last year. The Consortium Board met twice to consider proposals and develop its recommendations.

Funding for City management and administration is about $4,000 less in the HOME program and $11,500 less in the CDBG program than last year. The Community Development Division will maintain its staffing this year, but cuts, combined with an environment of increased federal administrative requirements make program administration challenging.

If the proposed projects receive the funding from other sources necessary to make them possible, HOME funds and CDBG funds will assist in creating 254 new affordable units, improving 28 housing units and helping an additional 157 households afford housing Consortium-wide. CDBG funds will also benefit almost 2,500 low-income City residents through homeless services, financial counseling, small business assistance, and other needed services. Our CDBG

partner agencies leverage $4.82 of other funding for every $1.00 of CDBG funding. Our HOME partners will raise over $25.00 for every $1.00 of HOME funds invested in their projects.

A public hearing will be held at the Council meeting of April 22. Comments received at the meeting will be incorporated into the Plan, as will comments submitted in writing. The plan is due to be submitted to HUD by May 15.

Pros:

- Approval of the Action Plan paves the way for the receipts of over $2,370,000 of HUD funding to the City and region, which will be used to create affordable housing and create jobs.
- HUD funding will leverage $35,900,000 of additional funding for these projects.
- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee and the Asheville Regional Housing Consortium.

Con:

- It is not possible to fund all the applications received, and most of those funded will receive less than the amount requested.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment.

Staff recommends approval of the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2014-15 to the U. S. Dept. of Housing and Urban Development.

Councilman Smith, Chair of the Housing & Community Development Committee, spoke in support of the resolution and expressed gratitude to the Committee and the members of the HOME Consortium for their patience. He also thanked the developers who will be receiving these funds for various housing projects.

Mayor Manheimer opened the public hearing at 6:04 p.m. and when no one spoke, she closed the public hearing at 6:04 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 14-82. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36– PAGE 158

E. PUBLIC HEARING TO CONSIDER A SIGN PACKAGE FOR THE ASHEVILLE OUTLETS LOCATED AT 800 BREVARD ROAD

ORDINANCE NO. 4304 - ORDINANCE GRANTING A SIGN PACKAGE FOR THE ASHEVILLE OUTLETS LOCATED AT 800 BREVARD ROAD

Urban Planner Julia Fields said that this is the consideration of an ordinance granting a sign package for the Asheville Outlets located at 800 Brevard Road. This public hearing was advertised on March 28 and April 4, 2014.

The proposed master signage plan is associated with a Level I renovation of an existing retail center at 800 Brevard Road. The subject property, comprised of approximately sixty (60) acres located on three (3) parcels, was originally developed in 1989 as an indoor regional mall, Biltmore Square Mall. The renovation and signage package are for a new rebranded development to be known as Asheville Outlets.

While the renovation includes little alteration of the square footage of the retail center it does involve removal of portions of the roof to create outdoor pedestrian-oriented corridors and the addition of amenities to the pedestrian corridors including benches, lighting, and landscaping. Also important to the rebranding of the property is a changed architectural appearance and signage. The development will have several public access points to the outlet buildings, over 2,700 parking spaces surrounding the development and approximately seventy-five (75) tenants. The project site is zoned Regional Business (RB) and is considered to be a multi-tenant development.

Anything not addressed in this sign package must meet City of Asheville standards.

Freestanding Development Identification Signage - The property on which the redevelopment is proposed is uniquely challenged. While it enjoys frontage on three (3) roadways – Interstate 26, Brevard Road, and Ridgefield Boulevard – its location some ten (10) to fifty (50) feet below these roadways severely limits visibility of the retail center. In recognition of the visibility/wayfinding issues of the property, when it was first developed, the Biltmore Square Mall developers erected a series of freestanding development identification signs located adjacent to Interstate 26, Brevard Road and Ridgefield Boulevard in addition to directional signs located within the parking fields on the property. The Asheville Outlets Signage Plan proposes to renovate or replace all the Biltmore Square Mall development identification signs currently located adjacent to Interstate 26, Brevard Road and Ridgefield Boulevard, and within the mall parking fields. In addition to the renovation/replacement of the existing development signage, the signage plan proposes an additional sign on Brevard Road to direct motorists from the north regarding access to the site. Under current City of Asheville signage regulations a multi-tenant development is allowed one development identification sign for each property boundary with street frontage with a maximum of two signs allowed. The proposed sign package requests five (5) such signs, all freestanding; all but one (1) of these signs will be a renovation/replacement. The proposed sizes, heights and setbacks for these signs are shown on the chart below. All signs in this category are proposed to be illuminated internally (faces or letters), have pin-mounted halo-lit letters, and/or utilize other compliant light sources.

Attached Identification Signage - In addition to updating the existing development identification signs, the submitted signage package proposes new attached signage for the development and tenants within the retail center (excluding the northern and southern commercial anchors – currently Belk and Dillard's). City of Asheville sign regulations allow each tenant in a multiple tenant development one (1) attached sign for each exterior public business entrance up to a maximum of two (2) signs. These signs must be located on the façade with the public entrance for that business. The total allowable sign area (per sign) is twenty-five (25) square feet of signage or one (1) square foot per one (1) linear foot of building frontage, whichever is greater, with a maximum size allowance of 200 square feet.

The submitted sign package proposes that the linear footage of the total exterior façade of the outlet center (minus screen walls and not including the northern and southern commercial anchor facades) be utilized in determining the amount of attached tenant signage that will be allowed for the development (not per tenant). This attached signage (including both tenant and development identification) would be located at the various public access points into the center, in any proportion, provided that the total area of the attached signs does not exceed the total permissible sign area. More specifically, this signage will be located on "towers" positioned at these access points or within 150 feet of the centerline of the public access points. Signage may be placed on all four sides of any individual tower but shall not be placed higher than twenty-one

(21) feet measured from the ground at the base of the tower. Should there be an individual tenant with a separate exterior entrance, attached signs for such tenant shall be permitted within fifty (50) feet of the entrance. This signage shall be included in the total signage allowed for the development. Attached signage may include wall, window, projecting, awning or canopy signs. In keeping with City regulations, signs located within internal pedestrian corridors or on facades facing internal pedestrian corridors are not regulated. Proposed projection and clearance standards are in line with City regulations (see table below). All signs in this category are proposed to be illuminated internally (faces or letters), have pin-mounted halo-lit letters, and/or utilize other compliant light sources. Window signs shall not be so illuminated.

Banners - The sign package proposes that banners be allowed both on building facades and on parking lot light poles within the development. The UDO allows similar banners for multi-tenant developments. The proposed banners for the outlet center meet the minimum and maximum sign area and minimum clearance regulations of the UDO (see table). The proposal requests that these signs be allowed to carry tenant and development identification or logos which are not permitted by City regulations. The proposal states that in most instances the banners will be of a graphic or seasonal nature as is permitted by the UDO. A maximum of twenty (20) banners on light poles and twenty (20) banners on building facades is requested. These signs would not be illuminated.

Vehicular Directional Signs - Four (4) existing vehicular directional signs eight (8) feet in height with twenty-seven (27) square feet of sign face (two faces) are located within the vehicular circulation areas of the existing development. These signs are being utilized by the current tenants. These signs do not conform in sign area or height to current City standards (four (4) signs allowed; four (4) square feet per face; three (3) feet in height) but are largely not visible from the public rights-of-way. The sign package proposes to redesign these signs to be six (6) feet in height with twenty-four (24) square feet of sign area per side. A maximum of six (6) such signs are proposed. All signs in this category are proposed to be illuminated internally (faces or letters), have pin-mounted halo-lit letters, and/or utilize other compliant light sources.

Parking Area Location Signs - The configuration of the proposed outlet center creates several different parking fields. As is typical with large commercial developments, parking area location signs are proposed to be located within the parking fields for the safety and convenience of customers. The signs are proposed to have four (4) sides with a maximum of six (6) square feet per side and be mounted on parking lot light poles. It is proposed that these signs will bear text to distinguish parking areas and may bear the name and/or logo of the development. The UDO is silent on such signage which means that they are not permitted. These signs shall not be illuminated.

Service Door Identity Signs - Exterior facing wall or door mounted signs on or near tenant rear service doors and on or near project ingress or egress corridor doors are requested as part of this sign package. One sign per service door is proposed with the letters on such signs to be no taller than four (4) inches. These signs may include tenant names, space numbers, addresses, phone numbers, hours, and similar information or any text required by governmental authorities. The UDO does not regulate such signage as they are not designed to be visible beyond the boundaries of the lot upon which they are located and/or from any public thoroughfare or right-of-way.

Sign Type	Proposed Quantity	Sign Details	UDO Regulations
Freestanding Development ID Pole Sign (Replace Existing)	1	Height –110 Feet (No Change) Sign Area –340 SF Per Face (No Change); 2 Faces Setback – 85 Feet (No Change)	This Sign is an Additional Sign to What is Permitted. UDO Allows Two Development or Joint ID Where

316

			There are Two Property Frontages It is an Existing Sign Change-Out – No Increase in Size/Ht/Setback
Freestanding Development ID Directional Ground Sign (New Sign)	1	Height –18 Feet Sign Area –200 SF Per Face; 2 Faces Setback – 15 Feet	Permissible Freestanding Development ID Sign Max. 25 Feet High Max. 200 SF Per Face; 2 Faces Setback – 15 feet
Freestanding Joint ID Ground Sign (Replace Existing)	1	Height –24 Feet (27 Feet Existing) Sign Area – 200 SF Per Face; 2 Faces Inclusive of Max. 40 Feet of Changeable Copy Per Face (207 Feet Existing) Setback – 30 Feet (No Change)	Permissible Freestanding Development ID Sign Max. 25 Feet High Max. 200 SF Per Face; 2 Faces Setback - 15 Feet
Freestanding Development ID Ground Signs (Replace Existing)	2	Height –10 Feet (11 Feet Existing) Sign Area – 86 SF Per Face (No Change); 2 Faces Setback – 21 Feet – Brevard Road (No Change) Setback – 17 Feet – Ridgefield Boulevard (No Change)	Additional Freestanding Development/Joint ID Sign to What is Permitted. 		Sign – 8 ft.	Projecting Sign - 3 ft. Max. Clearance Projecting Sign – 8 ft.
Banners	Max. 20 on Building Façade Max. 20 on Light Poles	Max. 24 SF Per Sign; 2 Faces Min. Clearance – 9 Feet Design and Material May Vary – with Season/Tenant Banners Located on Building Facades May Bear the Name and/or Logo of Development or Individual Tenants or May be of a Graphic or Seasonal Nature Banners Located on Light Poles May Not Bear the Name of Tenants but May Bear the Name/Logo of the Development or be of a Graphic or Seasonal Nature	Max. 24 SF Per Sign; 2 Faces Min Clearance 9 Feet All Consistent in Design and Material May Not Contain Commercial Advertising Message, Name or Logo
Vehicular Direction	Maximum - 6 Signs (4 Existing)	Height – Max. 6 Feet (Existing 8 Feet) Sign Area - Max. 24 SF Per Sign Face (27 Existing) ; 2 Faces	Height – Max. 3 Feet Sign Area – Max. 4 SF Per Sign Face; 2 Faces 4 Signs Permitted
Parking Area Location Signs	TBD	Height – Min. 10 Foot Clearance Sign Area – Max 6 SF Per Sign Face Faces – 4	Not Addressed in Code
Service Door Identity Signs	1 Sign Per Service Door	Maximum Letter Height – 4 Inches May Include Tenant Name, Space Numbers, Address, Phone Numbers and Similar Information	Not Regulated

Staff Findings: The stated purpose in the City's Unified Development Ordinance of allowing the consideration of a separate signage plan is as follows:

The purpose of allowing the consideration of a separate signage plan is to permit creativity in sign placement to address issues and constraints associated with topography, pedestrian-orientation, way-finding, and other conditions unique to the subject development.

In reviewing the proposed signage plan, the city council, per the ordinance, shall take the following matters into consideration:

- The extent to which the proposed signage plan deviates from the sign allowances otherwise applicable in this article.

- The rationale provided by the applicant for the deviations.
- The extent to which the signage plan promotes city goals for way-finding, pedestrian-orientation, and business identification.
- The degree to which the signage plan creatively and effectively addresses the issues and constraints unique to the site and with regard to signage.

While staff does find that there is fairly significant deviation from the ordinance found in this signage plan, the proposed Asheville Outlets center presents an especially unique situation that leads us to recommend approval. In terms of freestanding development signage, all but one of the signs proposed are existing signs that will be renovated/improved. Therefore, the impact of additional freestanding development identification signage will be minimal. Much of the other signage (attached, banners, service door identification) will not be visible from adjacent public rights-of-way or properties. Additionally, because of the site size and number of tenants that will be part of the proposed center, staff finds that easily identifiable wayfinding signage is critical to pedestrian and vehicular safety in such a development. The largest area of concern is that the attached signage on the exterior of the building is not necessarily located on the portion of the building that the tenant occupies (although it would be within 150 feet of a public access point). This may contribute to some confusion on the part of the visitor wishing to park in the vicinity of a particular tenant.

Pros:

- Provides clear and recognizable signage for a major regional shopping center.
- Utilizes many existing development identification signs.
- Addresses visibility challenges of development site and addresses way-finding and pedestrian orientation issues.
- Promotes a coordinated unifying theme for the development.

Cons:

- Exceeds existing standards found in the UDO.
- Establishes a possible precedent for larger developments for greater sign allowances.
- Attached signage may confuse visitors by not being located on the portion of the building that the tenant occupies.

City staff recommends City Council adopt the ordinance approving the sign package for 800 Brevard Road (Asheville Outlets) as submitted subject to the condition that any signage not addressed in the package would have to comply with the City's sign regulations or an amendment to this sign package would have to be approved.

Councilman Bothwell understood the need for the signage in the site; however, he could not support another large sign on the highway.

Councilman Pelly felt the variations are justified.

Mayor Manheimer opened the public hearing at 6:18 p.m., and when no one spoke, she closed the public hearing at 6:18 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4304. This motion was seconded by Vice-Mayor Hunt and carried on a 6-1 vote, with Councilman Bothwell voting "no."

ORDINANCE BOOK NO. 29 – PAGE 42

F. PUBLIC HEARING TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES TO REMOVE UNNECESSARILY RESTRICTIVE AND POTENTIALLY EXPENSIVE REGULATORY REQUIREMENTS IN THE COMMERCIAL INDUSTRIAL DISTRICT AND INDUSTRIAL DISTRICT BY ELIMINATING LANDSCAPING REQUIREMENTS WHERE SMALL ADDITIONS TO EXISTING FACILITIES ARE PLANNED

ORDINANCE NO. 4305 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO REMOVE UNNECESSARILY RESTRICTIVE AND POTENTIALLY EXPENSIVE REGULATORY REQUIREMENTS IN THE COMMERCIAL INDUSTRIAL DISTRICT AND INDUSTRIAL DISTRICT BY ELIMINATING LANDSCAPING REQUIREMENTS WHERE SMALL ADDITIONS TO EXISTING FACILITIES ARE PLANNED

Urban Planner Julia Fields said that this is the consideration of an ordinance to amend Chapter 7 of the Code of Ordinances to remove unnecessarily restrictive and potentially expensive regulatory requirements in the Commercial Industrial District and Industrial District by eliminating landscape requirements where small additions to existing facilities are planned. This public hearing was advertised on April 11 and 18, 2014.

Section 7-11-3(b) establishes the instances in which landscape standards are applied when development is proposed in the City of Asheville. The section outlines which developments require full compliance with landscaping regulations and addresses those developments that are subject to lesser levels of compliance. Specifically, Section 7-11-3(b)(1.1)b. provides that:

> *Building expansions or additions that are less than 50 percent of the pre-expansion floor area must meet the landscaping requirements only in the area around the addition which is parallel to any edge of the expansion area and extending to the property line or street pavement edge.*

This latter provision has worked well in most applications both in gaining some landscape compliance as additions are proposed but also in terms of finding an equitable and economically viable way of applying landscape standards to smaller additions.

There have been some situations, however, with properties zoned Commercial Industrial (CI) and Industrial (I) where this provision has resulted in substantial landscaping being required, with substantial expenditure, resulting from a very small planned expansion. As an example in one recent instance an approximately 3% expansion to a very large industrial operation would require that the entire parking field for the operation be redesigned to meet the parking lot landscape standards.

In order to avoid extensive landscape requirements being applied to small additions on industrially zoned properties, staff is proposing that the following language be added as a new subsection 7-11-3(b)(1.1)c. of the Unified Development Ordinance:

> *Building expansions or additions occurring on properties zoned Commercial Industrial or Industrial that result in an expansion of less than 5 percent of the pre-expansion floor area or 3,000 square feet in size whichever is less, are not required to meet additional landscape standards. Cumulative expansions occurring over a three year period that exceed this threshold shall have to meet all applicable landscape standards.*

While this proposal addresses industrial properties only, staff will continue to research the regulations as they affect development in other zoning districts and may determine that additional modifications should be considered.

The Asheville Planning and Zoning Commission reviewed and recommended approval (unanimously) of this wording amendment. No one from the public spoke on the issue and staff has received no comments/concerns as of the completion of the staff report.

This proposal does not directly relate to the goals outlined in the Strategic Operating Plan but is most closely aligned with the goal for "economic growth and financial sustainability" in promoting an environment conducive to the expansion of existing businesses.

Pros:

- Eliminates excessive landscape requirements/expenditure for small industrial expansions.
- Is in keeping with other recent amendments concerning the applicability of standards to industrially zoned properties.

Con:

- Some may feel this application unfairly addresses only industrially zoned properties.

City staff recommends approval of this wording amendment. The Asheville Planning and Zoning Commission reviewed and recommended unanimous approval at their meeting on April 2, 2014.

Mayor Manheimer opened the public hearing at 6:22 p.m., and when no one spoke, she closed the public hearing at 6:22 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4305. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 57

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. ORDINANCE NO. 4306 - ORDINANCE AMENDING CHAPTER 10 (NUISANCES) OF THE CODE OF ORDINANCES BY ADDING ARTICLE VI (REGULATION OF GRAFFITI)

Assistant City Manager Cathy Ball said that staff recommends adoption of an ordinance to allow significant civil penalties to perpetrators and encourage property owners to quickly remove graffiti from their property. Staff also recommends that Council approve moving forward with a 90 day graffiti initiative program to significantly reduce graffiti vandalism in the City.

The City of Asheville recognizes that graffiti vandalism has sufficient negative impact on the economic vitality and quality of life of our community. Since 2007 the City has made efforts to remove graffiti from public property. The City spends approximately $90,000 per year to remove graffiti from public property. The City utilizes nuisance court resources to assist in the removal. Some of which have been charges with graffiti vandalism. During this period of time, we have removed over 10,000 tags.

The City has also attacked this problem with higher level of police enforcement. Under the current state law, the City has processed graffiti vandals to the maximum of their ability.

The difference between beautiful mural wall art and graffiti vandalism may be difficult for some to define. Quite simply, graffiti vandalism is illegal and unwanted damage to private property. Murals are commissioned and add value to our economic vitality. National data supports the fact the graffiti vandalism has several negative impacts on communities. Some of which are listed below.

- Property owners incur tremendous expense in removing graffiti.
- Vandalism left unaddressed breeds more vandalism. (Broken Windows theory)
- The negative image that graffiti generates results in a loss of customers to business owners.
- Property and business owners may incur devalued property.
- Taxpayers' dollars are spent removing graffiti from public buildings, monuments and park structures.
- The overall image of a community is affected.

We know from research that there are three essential elements to reducing graffiti vandalism in our community. These are education, enforcement and rapid removal.

1. ***Education***: Education efforts related to graffiti can be viewed in two general categories: General and Public Engagement. Essential to both educational components is Community ownership of the problem. There continues to be coordination of efforts between City staff and community stakeholders to increase education while at the same time minimizing publicity.

2. ***Enforcement:*** The Asheville Police Department (APD) has developed a comprehensive strategy to improve reporting, provide a consistent investigative response and use predictive analytics in an effort to focus enforcement resources.

3. ***Rapid Removal:*** The N.C. Communities benchmarked require property owners to clean the graffiti off their buildings in a specified amount of time to avoid civil penalties. While many N.C. cities have found this to be the most effective way to reduce or eliminate graffiti, *Asheville will not assess a civil penalty against the property owner.* Instead, through outreach and education, Asheville is hopeful that most property owners will partner with the City and/or remove graffiti; if that does not happen the City may consider asking for equitable relief from the courts.

The City's "Graffiti Removal Initiative" consists of three steps. The **first** step is to immediately impose significant escalating civil penalties on the perpetrator. The scale is detailed as follows: First offense $200; Second offense: $250; (ii) Third offense $500; (iii) Fourth offense $750; and (iv) Fifth and any subsequent violations $1,000. The adoption of this ordinance does not preclude the criminal enforcement allowed by state law. This will begin April 23, 2013.

The **second** step is a 90 day concentrated initiative to aggressively remove graffiti from public property. A 90 day graffiti removal initiative to allow the property owners to get significant assistance from the City is proposed from July 1, 2014 to September 30, 2014. During this time, the property owner can request assistance from the City. The property owner would be required to sign a waiver and agree to pay 10% of the cost of removal. The City would pay up to $500 per building per incident. The City would consider budgeting $300,000 toward this 90 day graffiti removal initiative.

Ms. Ball then walked Council through the process: (1) property owner contacts City to request removal of graffiti; (2) City staff visit the site and estimates the cost of the removal; (3)

Property owner signs a waiver and agrees to pay 10% of the cost (City contribution is maximum amount of $500 per incident); (4) City contracts to have contractor remove graffiti within 48 hours; (5) Contractor removes graffiti; (6) City pays the contractor; (7) City bills property owner; (8) property owner pays City 10%. She noted that Asheville Greenworks has notified that they have an anonymous donor who has offered to pay the 10% ($30,000). Mayor Manheimer asked that Asheville Greenworks thank the donor for his generous offer.

In summary regarding the second step, prior to July 1, 2014, (1) the City would establish an hourly rate to pay contractors for graffiti removal; (2) City pre-qualifies several contractors to perform work on a rotational basis; (3) City establishes a 1-800 graffiti removal hotline; (4) partners with community to assist with an intense communication plan; and (5) City establishes a budget of $300,000 for the 90-day initiative.

The **third** step in the graffiti removal initiative is to require property owners to remove graffiti on their property with a reduced level of assistance from the City. This step would begin on October 1, 2014, when the ordinance if fully in effect, the City would still provide assistance to the property owners in the graffiti removal process but the owner will be responsible to reimburse 100% of the cost of removal. This ordinance does not fine the property owner for failure to remove graffiti.

The long-term strategy is to encourage property owner to remove graffiti immediately: (1) City notifies property owner of graffiti; (2) property owner has 7 days to remove graffiti; (3) property owner may request assistance from the City to remove graffiti. Property owner should contact the City preferably within the 7 days; (4) City's assistance is coordinating clean up with pre-qualified contractors, provided the property owner signs waiver and agrees to pay 100% of the cost of the removal; (5) City contacts to have graffiti removed in 48 hours; (6) City pays contractor; and (7) City bills property owner 100% of the removal cost.

If the property owner does not comply, the City may choose to take legal action against the property owner. Even though there are no fines in the ordinance for property owners, if the property owner continues to refuse to remove the graffiti, the City has options available as we do with any other nuisances.

Regarding how the contractor will remove the graffiti, the contractor will utilize standard means and methods to remove graffiti, including pressure washing, applying a tag removing chemical, or painting over the graffiti.

The City will not remove graffiti from historic properties, but our historic resources staff will work with the property owner to provide technical assistance.

Regarding if the contractor will match the building paint color when the contractor paints over the graffiti, the contractor will be required to stock a standard gray paint. If the property owner wants the same color, they can provide it to the contractor.

We recognize we are a city full of art, but when it's tagged, that does not represent our community well.

The City's new Graffiti Ordinance encourages property owners to immediately remove graffiti. The ordinance will not become effective as to the property owner until October 1, 2014, while the City implements a graffiti removal assistance program, to partner with and assist private property owners in removing graffiti from their properties. Upon a property owner's failure to remove graffiti and/or partner with the City to remove the graffiti, the City will, upon compliance with process, remove the graffiti and assess a lien against the property. Additionally, the perpetrators will continue to be subjected to criminal prosecution, while the new ordinance will also require the assessment of a civil penalty against the perpetrator, based upon an escalating formula.

Pros:

- Encourages graffiti to be removed quickly.
- Provides for stricter monetary penalties to perpetrators.
- Establishes an assistance program for property owners.
- Property owners will not be fined for failure to remove graffiti from their property.
- Small business owners will have an opportunity to earn money removing graffiti from properties.

Cons:

- The fiscal impact is substantial but important to attach the graffiti vandalism issue.

The City would include $300,000 in the FY 2015 Manager's Recommended Budget for the first 90 days of the graffiti removal initiative. Administrative cost will also be included in the FY 2015 Manager's Recommended Budget for the program. The money for this initiative would come from the City's fund balance.

Staff recommends adoption of an ordinance to allow significant civil penalties to perpetrators and encourage property owners to quickly remove graffiti from their property. Staff also recommends that Council approve moving forward with a 90 day graffiti initiative program to significantly reduce graffiti vandalism in the City.

Councilman Bothwell thanked City staff for their work on this and was entirely sympathetic to the property owners whose property is tagged; however, he voiced the following concerns to the ordinance: (1) he was opposed to using taxpayer dollars to clean up private property; (2) catching perpetrators is the biggest single deterrent and increasing fines for the perpetrators don't have much effect; and (3) research shows that fining property owners has had a positive effect in getting property owners to comply. Responsible property owners will take care of their property and the fines will be placed on irresponsible property owners. He could not support this ordinance as proposed.

Councilman Bothwell suggested (1) adding a cap on the number of instances per property owner; (2) make it a rule that graffiti must be removed within 48 hours and then start fining $5 per day; and (3) in the long-term, just have property owners find their own contractor to remove the graffiti and not have the City pay the contractor and then get reimbursed by the property owner.

Councilman Davis agreed with several comments by Councilman Bothwell; however, he felt this is the best way to get started.

Mayor Manheimer provided Interim City Attorney McGlohon with some amendments to the ordinance, noting mostly grammatical changes; notice requirements being in sync with other notice requirements; and removal of the civil penalty increasing incrementally.

Councilman Davis moved to adopt Ordinance No. 4306, as amended. This motion was seconded by Councilman Pelly.

In response to Councilman Bothwell, Interim City Attorney McGlohon said that since our ordinance specifically authorizes civil penalty assessment, those penalties, according to case law would not have to go to the School system.

Councilman Smith was not happy about using public resources on private property; however, we have the responsibility to recognize there is a real public good and we will be partnering with our business community. We need to recognize that it will take this whole community coming together. He looked forward in exploring some other options.

Councilman Pelly recognized that this is a work in progress and after a period of time, the ordinance will be reviewed for possible amendments.

City Manager Jackson said that capping the number of properties is an excellent suggestion and they will build that into the administration of the clean-up program. He did note that they are not taking on the responsibility of cleaning up public utilities. That will also be outlined in the administration of the clean-up program.

Councilman Smith confirmed that property owners have the option of calling the City for a contractor or they can call the contractors directly.

Mayor Manheimer said that the proposed ordinance does not include a fine for property owners who fail to remove graffiti from their property. She emphasized that the City will review the ordinance in 6-12 months. She did note, though, that almost every community they researched included a fine for property owners who failed to clean up their property. This ordinance is tailored for our community. The bottom line is we are all trying to get to the same place - get rid of graffiti.

The following individuals spoke regarding the graffiti ordinance:

Mr. Bruce Kennedy - develop a listening program and find ways to encourage creativity
Mr. Chris Peterson, representing the Downtown Business Group - support ordinance
Ms. Susan Roderick - support ordinance
A Gentleman - suggest a hot line, reward fund, cameras, and steeper fines
Mr. Robert Roepnack, representing Asheville Greenworks - support ordinance
Rev. Christopher Chiaronmonte - suggest a wall for graffiti artists; incorporate an incentive for jail inmates to clean up graffiti
Rev. Lisa Landis - suggest education in school system to explain harm of graffiti
A Gentleman - support future public artwork opportunities and ultimately property owners are fined if they don't clean up their property
Ms. Kitty Love, Executive Director of the Asheville Area Arts Council - support ordinance and suggestion to work with graffiti artists on mural projects
Mr. Donald Danes - suggestion for public funds to cover insurance deductibles
Mr. Byron Greiner, representing the Asheville Downtown Association and member on the Downtown Commission - support ordinance
A Gentleman - support ordinance and offer services on graffiti abatement
Mr. John Kloeckner - suggestion for wall for graffiti artists
Mr. Timothy Sadler - suggestion for wall for graffiti artists
Ms. Pattiy Torno - related experience of legal graffiti wall in River Arts District which resulted in a blossom of graffiti everywhere in the River Arts District

Mayor Manheimer said that we are in a climate to where it is prudent to take proposed new ordinances and run them by our new legislators because we do not want to run the risk of repeal by the state when we are trying to make our best effort on a local level. We have met with our legislators on this ordinance.

Councilwoman Wisler felt this is a good first step. She felt it is difficult to set up a listening program when many perpetrators are from out of Asheville.

Councilman Pelly noted that in a report that Mayor Manheimer circulated, one of the recommendations was to find ways to channel behavior into more acceptable activities, such as venues for mural artists or sanctioned graffiti walls. He asked that Council allow the Public Safety Committee to explore this issue more and talk with some of the stakeholders in the community to see if there is a solution that is right for Asheville.

Councilman Bothwell felt that the $300,000 might be better spent on more enforcement or addressing those group causes in the community. He felt we are doing something, but not doing anything useful.

Councilman Smith said that as we work with our legislators on penalties at the state level, he wanted to ensure that this remains a misdemeanor and not a felony.

It was the consensus of Council to ask the Public Safety Committee to explore this issue more and talk with some of the stakeholders in the community to see if there is a solution that is right for Asheville.

The motion made by Councilman Davis and seconded by Councilman Pelly carried on a 6-1 vote, with Councilman Bothwell voting "no."

ORDINANCE BOOK NO. 29 – PAGE 59

At 7:35 p.m., Mayor Manheimer announced a short recess.

B. RESOLUTION NO. 14-83 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN INTERLOCAL AGREEMENT WITH THE COUNTY OF HENDERSON REGARDING REAL PROPERTY LOCATED ON FERRY ROAD, IN THE COUNTY OF BUNCOMBE, STATE OF NORTH CAROLINA

Mayor Manheimer said that Asheville and Henderson County (Henderson) are parties to several agreements regarding regional water issues, including the "First Amended and Restated Water Supply and Water Service Agreement, ("1995 Agreement");" and among the terms of the 1995 Agreement are provisions regarding approximately 137.21 acres of real property located on Ferry Road (Bent Creek area), in the County of Buncombe, and more particularly described in Deed Book 2152, Page 4, and in Plat Book 50 Page 107 of the Buncombe County Register of Deeds, (Real Property). Asheville and Henderson claim an interest in the Real Property. Pursuant to a Consent Judgment entered in Buncombe County Superior Court in 2002 (file number 01 CVS 344), the Real Property was conveyed by Asheville to Henderson County by deed recorded July 15, 2002, in Book 2852, Page 775, Buncombe County Registry; and Asheville and Henderson desire to enter into this Interlocal Agreement to address the real property.

Mayor Manheimer said that this interlocal agreement was adopted by Henderson County on April 16, 2014, by Henderson County Commissioners. She explained that, in general, it provides that the 137.21 acres in the Bent Creek area that is owned by Henderson County, but subject to a deed that provides for the property's reversion in the near future if certain conditions are not met, be sold and the proceeds be split between Henderson County and Asheville. Asheville's proceeds will go to Buncombe County for use for a public safety purpose, such as a training center, and Henderson County's proceeds will be used for the same. It does not require that the proceeds be used for the same facility, but there is an ongoing dialogue with Buncombe County to try to work together to share in a joint facility. Buncombe County is working hard to find an appropriate site and funding for such a facility and City Manager Jackson has been in contact with County Manager Green and the County would like our participation in such an endeavor. This also brings resolution to a long-standing unresolved issue with Henderson County over what to do with the disposal of the Bent Creek property. She felt this is a great opportunity to do that and hoped Council would support the resolution authorizing her to sign the interlocal agreement.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Wisler moved for the adoption of Resolution No. 14-83. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 35 – PAGE 161

C. RESOLUTION NO. 14-84 - RESOLUTION ADOPTING THE 2014-15 LEGISLATIVE AGENDA

Mayor Manheimer said that this is the consideration of a resolution adopting the City Council Legislative Agenda for the 2014 Session of the North Carolina General Assembly.

The session of the North Carolina General Assembly that begins on May 14, 2014, is a "short" session.

As set forth in the Adjournment Resolution, only certain categories of bills will be eligible for consideration; such bills include: (1) Bills that passed out of the chamber in which they were introduced, and that were received in the other chamber ("crossover bills"); (2) Bills implementing the recommendations of study commissions ("study bills"); and (3) Local bills that meet certain requirements (non-controversial, unanimous support among local delegation, etc. "local bills"). The City of Asheville is interested in some bills that fall into each of these categories.

The following is the 2014-15 Legislative Agenda, which has been reviewed with our legislators:

"Environmental Issues

- Support changes to HB 74, Regulatory Reform Act, to restore local control regarding environmental protection.
- Seek legislation requiring the appropriate clean up and disposal of coal ash in coal ash ponds.

"Revenue

- Support reducing the complexity and inequity of the privilege license tax while maintaining the tax as a locally controlled source of revenue that supports services to businesses and consumers.
- Seek changes to Session Law 2013-414 to exempt farmers markets and farmers market managers from N.C.G.S. 66-255, allowing farmers markets and farmers market. managers to operate without the requirements of registration lists and vendor certificates.
- Seek legislation to give municipalities the option to use electronic legal public notices in lieu of newspaper publication. In FY 2012-2013 the City of Asheville spent $85,000 on notification advertisements and publications.

"Transportation Infrastructure

- Seek funding of the I-26 Connector Project as recommended by joint resolution of the Board of Commissioners for the County of Buncombe and the Asheville City Council.

"Graffiti

- Seek to strengthen and/or clarify current state law to more effectively deter and punish perpetrators who damage property, such as by committing vandalism with graffiti."

Pro:

- Opportunity for City Council of the City of Asheville to identify matters of local and State-wide interest where legislative action is needed or desired.

Con:

- None

City staff recommends the adoption of the City Council Legislative Agenda for the 2014 Session of the North Carolina General Assembly.

When Councilman Davis asked if there was any discussion from the Governance Committee about the topless issue, Mayor Manheimer replied that there was discussion.

Councilman Bothwell remains opposed to the I-26 connector, but will support the Legislative Agenda.

Councilwoman Wisler wondered if next year it might be better to have the legislative agenda be adopted formally by the entire City Council prior to discussing it with our legislators. Mayor Manheimer noted the valid process question and explained that we wanted to work with our legislators to get a general feel from them about what might or might not be pending or what might or might not be reasonable. The idea was to have dialogue with our legislators before we rolled it old cold to them. She noted that some cities work with their legislators to develop a legislative agenda. This is a beginning of a new way and we are feeling our way out in terms of process. This time we managed it in the Governance Committee, met with our legislators one on one, and then brought it forward to the full Council.

Vice-Mayor Hunt noted that this is for the Short Session and there is a relatively small list. For the Long Session there will be a lot of new initiatives coming up and he felt our challenge is to develop an on-going dialogue with our legislators so by the time one year from now we would be looking at a similar process for the Long Session, but there will have been multiple interactions building up.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-84. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 162

D. RESOLUTION ADOPTING THE CITY COUNCIL 2014-15 STRATEGIC OPERATING PLAN

This item was removed from consideration to be considered at the May 13, 2014, meeting.

E. RESOLUTION NO. 14-85 – RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Homeless Initiative Advisory Committee.

Ms. Marcie Walker resigned as a member from the Homeless Initiative Advisory Committee, thus leaving an unexpired term until November, 1, 2014.

The following individuals have applied for the vacancy: Sabrah n'haRaven, Matthew Shepley, Allison Bond, Heather Smith, Carrie Pettler and Kristi Case.

The Homeless Initiative Advisory Committee recommended appointing Sabrah n'haRaven. On April 8, 2014, it was the consensus of Council to interview Sabrah n'haRaven and Heather Smith. Ms. Smith has moved out of state.

Councilman Smith moved to appoint Sabrah n'haRaven as a member on the Homeless Initiative Advisory Committee to serve the unexpired term of Ms. Walker, term to expire November 1, 2014, or until her successor has been appointed. This motion was seconded by Councilwoman Wisler and carried unanimously.

RESOLUTION BOOK NO. 36– PAGE 164

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Councilman Wisler, liaison to the Asheville City Board of Education, welcomed Dr. Pamela Baldwin as the new Superintendent of Asheville City Schools (effective July 5, 2014), and thanked Dr. Bobbie Short for her dedication as Interim Superintendent.

Mayor Manheimer reminded the community about Moogfest beginning April 23, 2014.

Councilman Smith stated that Asheville resident Caleb Johnson is one of the top finalists for American Idol and hoped that if he wins Asheville will hold some kind of public celebration.

Rev. Christopher Chiaronmonte spoke about the rights of unborn children.

Rev. Lisa Landis spoke about the leadership shown by some Council members.

Mr. Timothy Sadler suggested the City prepare a document to give to new development showing the impact they are bringing to the City and suggest they have a plan to offset that impact.

In response to Mr. John Kloeckner about who to contact about a suggestion for Asheville's next signature event, City Manager Jackson said that he would have Mr. Jon Fillman in Economic Development contact Mr. Kloeckner on his proposal.

Mr. Steve Agan suggested City Council make a part of their legislative agenda for the Long Session support of proposed legislation of the local government tort claims act.

In response to Mr. Jerry Rice's suggestion of improving City Council's image, Mayor Manheimer said that we are in the process of making improvements in the Council Chamber.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:41 p.m.

Magdalen Bellerson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – April 29, 2014– 6:30 p.m.
Charles T. Koontz Intermediate School

Community Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and Deputy City Clerk Jaime Mathews

Absent: Councilman Gordon D. Smith

Mayor Manheimer opened the meeting, welcomed the audience and introduced City Council members.

City Manager Jackson highlighted several south Asheville projects.

Mayor Manheimer then gave an overview of the draft City Council Strategic Operating Plan, which contains the following three focus areas: Focus Area 1 - Economic growth and sustainability; Focus Area 2 - Affordability and economic mobility; and Focus Area 3 - High quality of life.

Small group discussions on the areas of choice were held. City Council will use the ideas generated as a resource for their process of finalizing the Strategic Operating Plan and developing and prioritizing action items.

At 7:30 p.m., Mayor Manheimer adjourned the meeting.

Magdalen Bowlson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – May 13, 2014- 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Capital Improvement Program

Finance Director Barbara Whitehorn said that the City is embarking on a Capital Improvement Program that targets services areas with critical needs and areas with economic development potential. Leveraging the $.02 of the ad valorem tax dedicated for capital improvement projects and using other funding sources including installment financing, special obligation bonds, pay-as-you-go funding and grants and contributions from other agencies, the City will invest approximately $132 million in capital improvements over the next five years.

During the 2013-14 budget process, Council approved an increase to the ad valorem tax rate of $.03. One cent of the increase was to fund ongoing operations, with two cents dedicated to funding capital projects and related debt service.

To ensure that the available funds are used to their highest and best potential, City staff evaluated proposed capital projects against the following criteria: (1) Does the project meet one or more of the strategic goals of City Council? (a) Economic Development; (b) Public Safety; (c)Multi-Modal Transportation; and (d) Affordable Housing; and (2) Is the project critical to ongoing service delivery?

If projects met one or both of these criteria, the cost, timing, staff labor commitment and other determining factors were analyzed to determine when projects should be funded within the plan.

Projects that are "shovel-ready," (design is complete and contracts are ready to be let to begin construction) are planned for the first two years, with other projects coming in as they are likely to be ready and the responsible departments have capacity to manage them.

Implementing this capital improvement program allows the City of Asheville to fund critical infrastructure needs as well as take advantage of economic development opportunities.

The City of Asheville will be issuing debt as part of the funding for this program. Over the next five years, staff expects to issue approximately $24 million in special obligation bonds and installment finance approximately $29 million. The City's financial advisors have aided staff in developing a model for funding and debt service that accommodates this debt within the existing tax rate. *No increase in tax is recommended as part of this program.*

City staff recommends that Council review the materials provided and give direction for final preparation of the City Manager's recommended budget. The date for presentation of the City Manager's recommended budget is May 27, 2014.

She then provided Council with information showing the projects included in the first five-year piece of the plan, and throughout her presentation, she responded to various questions/comments from Council. Projects include RADTIP Transportation Project; Downtown

Recycling & Trash Containers; Eagle/Market Street; Handi Park Demolition; Park St. Bridge; Pack Place Capital Maintenance; Azalea/Lake Craig; and Multimodal Transportation Plan.

She then reviewed some high profile projects over the next 5 years: Azalea Road - $1,037,588; Charlotte Street - $3,850,000; Eagle Market Place - $3,949,500; Finalee Landslide Mitigation - $550,000; East of the Riverway (RADTIP) - $22,000,000; East of the Riverway (Five Points Roundabout) - $700,000; East of the Riverway (Clingman Forest Greenway), - $1,500,000; East of the Riverway (Town Branch Greenway) - $2,500,000; East of the Riverway (French Broad River West Greenway) - $1,000,000; East of the Riverway (Livingston Complete Street) - $1,500,000; Total cost of East of Riverway - $29,200,000 (hoping that half of that will be funded through the Tiger VI project); Craven Street - $5,400,000; Chunn's Cove Bridge Rehabilitation - $500,000; Hendersonville Road Sidewalks - $4,125,000; New Leicester Highway Sidewalks - $3,630,000;

In summary, she said this is a new Capital Improvement Plan. It's a 5-year capital plan with Council adopting a 1-year capital budget as part of the plan.

Upon inquiry of Councilwoman Wisler, Assistant City Manager Cathy Ball explained the ways that money gets committed. City Manager Jackson said that he would provide Council with an analysis of the 2015 Capital budget identifying previously approved and continuation projects.

Public Works Director Greg Shuler responded to Vice-Mayor Hunt regarding the street resurfacing program.

Vice-Mayor Hunt asked that the reference to the I-26 Connector be renamed "I-26 Connector Enhancements" to make sure that it's understood that the City is enhancing improvements above and beyond with the N.C. Dept. of Transportation is doing.

Information Technology Director Jonathan Feldman responded to questions raised by Councilman Bothwell concerning the radio infrastructure improvements.

Assistant City Manager Cathy Ball responded to questions raised by Councilman Smith regarding funds for the Affordable Housing Trust Fund and funds going towards other efforts of affordable housing.

Vice-Mayor Hunt asked that a topic at a future Finance Committee meeting be the review of debt capacity, debt retirement schedules, and bond rating.

There was considerable discussion about the need for neighborhood sidewalks. It was the consensus of Council to shift some funds to neighborhood sidewalks.

Ms. Whitehorn noted that if Council wishes to add more neighborhood projects, staff will have to shift current projects out to further years. She asked for their guidance on which projects Council feels are less critical and can be moved out further.

City Manager Jackson suggested that before Council starts to shift current projects to allow for more neighborhood sidewalks, that he be allowed to work with the Multimodal Transportation Commission to evaluate the five-year Capital Improvement Plan relative to proportion of the sidewalk allocation within the total allocation for transportation capital projects. He noted that this shift would not be reflected in the presentation of the City Manager's recommended budget May 27; however, the adjustments would be reflected prior to public hearing for budget adoption.

Upon inquiry of Councilman Bothwell, City Manager Jackson suggested that Council re-visit the Public Art Policy.

The worksession was adjourned at 4:22 p.m.

Tuesday – May 13, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

ANNOUNCEMENTS

Mayor Manheimer welcomed new City Attorney Robin T. Currin.

Mayor Manheimer also noted that Mr. Caleb Johnson, contestant on American Idol, made a hometown visit to Asheville on Saturday, May 10, 2014.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MAY 18-24, 2014, AS "NATIONAL PUBLIC WORKS WEEK"

Mayor Manheimer read the proclamation proclaiming May 18-24, 2014, as "National Public Works Week" in the City of Asheville. She presented the proclamation to Mr. Jeremy Hyatt and Mr. Eric Suhren, representing the Stormwater Division; Mr. Chris Maloney and Mr. Anthony, representing the Sanitation Division; Ms. Lora Morgan and Mr. Brad Hunter, representing the Streets Division; and Mr. John Gavin and Mr. Lee Morrison, representing the Engineering Division.

B. PROCLAMATION PROCLAIMING MAY 21, 2014, AS "PRITCHARD PARK DAY"

Councilman Davis read the proclamation proclaiming May 21, 2014, as "Pritchard Park Day" in the City of Asheville. He presented the proclamation and thanked Ms. Kim MacQueen, Chair of Downtown Asheville Residents Neighborhood, along with many other volunteers, especially acknowledging the work of the late Trina Mullen in making Pritchard Park the wonderful Park it is today.

C. PROCLAMATION PROCLAIMING MAY 24-SEPTEMBER 1, 2014, AS "AMERICAN RED CROSS 100 DAYS OF SUMMER"

Vice-Mayor Hunt read the proclamation proclaiming May 24 - September 1, 2014, as "American Red Cross 100 Days of Summer" in the City of Asheville. He presented the proclamation to Mr. Andrew Jacobs, who thanked Council for their support.

II. CONSENT AGENDA:

Councilman Bothwell suggested removal of Consent Agenda Item "B" since no bids have been received and no action of Council is required.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 22, 2014, AND THE COMMUNITY MEETING HELD ON APRIL 29, 2014

B. RESOLUTION TO SELL ONE PARCEL OF CITY OWNED PROPERTY LOCATED AT 30 ROCK HILL PLACE

This item was deleted from the Consent Agenda due to no bids being received and no action of Council required. Staff will continue to market the property.

C. RESOLUTION NO. 14-86 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SPORTS FESTIVAL FROM MAY 23-25, 2014

RESOLUTION NO. 14-87 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE PACK SQUARE PARK CANOPY UNVEILING ON MAY 28, 2014

RESOLUTION NO. 14-88 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 5 WALNUT ANNIVERSARY EVENT ON MAY 29, 2014

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival from May 23 – May 25, 2014; the Pack Square Park Canopy Unveiling on May 28, 2014; and the 5 Walnut Anniversary event on May 29, 2014.

- Mountain Sports Festival has requested through the City of Asheville Office of Economic Development that City Council permit them to serve beer and/or unfortified wine at the Mountain Sports Festival and allow for consumption at this event.

  The Mountain Sports Festival will be held on Friday, May 23 from 4:00 p.m. – 10:00 p.m., Saturday, May 24 from 10:00 a.m. – 10:00 p.m., and Sunday, May 25, 2014 from 10:00 a.m. – 6:00 p.m. at Carrier Park as per the event area limits referenced on the accompanying site map.

- The Asheville Downtown Association has requested through the City of Asheville Office of Economic Development that City Council permit beer and/or unfortified wine be served to guests at the Pack Square Park Canopy Unveiling and allow for consumption at this event.

  The Pack Square Park Canopy Unveiling will be held on Wednesday, May 28, 2014, from 5:30 p.m. – 7:30 p.m. at Pack Square Park, as per the event area limits referenced on the accompanying site map.

- LEAF in Schools & Streets in conjunction with 5 Walnut Wine Bar has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at the 5 Walnut Anniversary and allow for consumption at this event.

  The 5 Walnut Anniversary event will be held on Thursday, May 29, 2014, from 5:00 p.m. – 10:00 p.m. on Walnut Street between the intersections of Broadway and Carolina Lane, as per the event area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Mountain Sports Festival, the Asheville Downtown Association, and LEAF in Schools & Streets

Con:

- Potential for public safety issues

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival, the Pack Square Park canopy unveiling, and 5 Walnut Anniversary event.

RESOLUTION NO. 14-86 - RESOLUTION BOOK NO. 36 - PAGE 165
RESOLUTION NO. 14-87 - RESOLUTION BOOK NO. 36 - PAGE 168
RESOLUTION NO. 14-88 - RESOLUTION BOOK NO. 36 - PAGE 161

D. RESOLUTION NO. 14-89 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT THE CONVEYANCE OF PROPERTY UNDER THE CONTROL OF THE N.C. DEPT. OF TRANSPORTATION THAT WILL BECOME THE RIGHT-OF-WAY FOR PINEY MOUNTAIN ROAD AND TO AUTHORIZE THE MAYOR TO CONVEY BACK TO THE N.C. DEPT. OF TRANSPORTATION PROPERTY THAT WAS ERRONEOUSLY CONVEYED TO THE CITY OF ASHEVILLE VIA A QUITCLAIM DEED DATED OCTOBER 13, 2011

Summary: The consideration of a resolution authorizing the Mayor to accept the conveyance of property under the control of the N.C. Dept. of Transportation that will become the right-of-way for Piney Mountain Road, and to authorize the Mayor to convey back to the N.C. Dept. of Transportation property that was erroneously conveyed to the City of Asheville via a quitclaim deed dated October 13, 2011.

City Council approved Resolution No. 01-131 on August 28, 2001, accepting Piney Mountain Road as a city-maintained street subject to approval by the N.C. Dept. of Transportation (NCDOT). The Board of Transportation for the NCDOT approved this action on February 7, 2002.

Typically, when this type of transfer occurs, the receiving party gets the entire street including stormwater infrastructure, signs, pavement markings, and right-of-way. This specific situation is unique because Piney Mountain Road lies within the overall right-of-way along I-240 in the Chunns Cove Road area of East Asheville. Therefore, the City did not receive the actual right-of-way for Piney Mountain Road.

City staff has been working with the NCDOT over the years to obtain the appropriate right-of-way and we thought it was achieved when we received the quitclaim deed dated October 13, 2011. After City staff recorded the deed with the Buncombe County Register of Deeds (Deed Book 4973 Page 371), we discovered that the NCDOT had actually conveyed 40+ acres to the City which included a section of I-240. City staff immediately contacted the NCDOT and for the past two years, both parties have been working together to make the appropriate correction. The agreed upon right-of-way uses the controlled access fence as the western boundary and includes about 14+/- acres.

Pros:

- An appropriate right-of-way will be part of Piney Mountain Road.
- Would eliminate and/or minimize future access connection issues.

Con:

- There are no known cons.

There is no immediate fiscal impact to the City regarding the subject action.

Staff recommends that City Council approve a resolution authorizing the Mayor to accept the conveyance of property under the control of the NCDOT that will become the right-of-way for Piney Mountain Road and authorizing the Mayor to convey back to the NCDOT property that was erroneously conveyed to the City of Asheville via a quitclaim deed dated October 13, 2011.

RESOLUTION BOOK NO. 36 - PAGE 174

E. RESOLUTION NO. 14-90 - RESOLUTION ACCEPTING AN EXTENSION OF OLD HAW CREEK ROAD AS A CITY-MAINTAINED ROAD

Summary: The consideration of a resolution to accept an extension of Old Haw Creek Road as a city-maintained street.

Code of Ordinances sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. The developer submitted a written request via e-mail message on November 5, 2013, asking the City to accept the subject street extension as a city-maintained street.

Old Haw Creek Road Extension from the end of Old Haw Creek Road to its dead-end is a developer-constructed street that has an average width of 20 feet with grass shoulders, a length of 0.05 mile, and a right-of-way width of 45 feet.

Transportation Department staff and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual. In addition, the developer verified that the subject street extension was constructed to current City of Asheville standards.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

Pros:

- The City of Asheville will receive Powell Bill Funds from the N.C. Dept. of Transportation to help maintain the street.
- The street provides access in a residential community.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept an extension of Old Haw Creek Road as a city-maintained street.

When Councilwoman Wisler asked why the City does not ask the developer for funds to help future maintenance of the road, Transportation Director Ken Putnam said that would be a policy direction staff would need to receive from Council. The City has the authority to accept streets that have been brought up to the standards in our Asheville Standard & Specifications Manual. Once the City takes it over, it opens up that area for potential development that could then benefit the City in property tax revenue.

City Manager Jackson suggested the Finance Committee review the street acceptance policy, along with a survey of the standard practices throughout the state.

RESOLUTION BOOK NO. 36 - PAGE 176

F. RESOLUTION NO. 14-91 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER FOR A CONTRACT WITH ASHEVILLE STAFFING INC. FOR TEMPORARY SERVICES IN THE CITY'S PARKING GARAGES AND SURFACE PARKING LOTS THROUGH JUNE 30, 2014

Summary: The consideration of a resolution authorizing the City Manager to execute a change order for a contract with Asheville Staffing, Inc for temporary services in the City's parking garages and surface parking lots through June 30, 2014.

The City of Asheville, through the Parking Services Division, currently operates four parking garages and several monthly parking and pay-by-space surface parking lots downtown. Parking Services Division uses a combination of City employees and contract temporary workers to provide service and customer assistance in these facilities and lots. Generally, City employees work during the business day and early evenings while contract temporary services are used for fill-ins, special events, and to extend garage hours during late evenings, weekends, and holidays. Use of temporary workers enhances customer service and allows greater flexibility as needs vary greatly depending on time of year and events booked at the U.S. Cellular Center, outside special events, and other large venues downtown.

Estimating the needs for fill-ins and special event staffing 6 -18 months in advance is at best an educated guess. This current fiscal year has presented Parking Services with pleasant but unexpected staffing challenges in garages and lots. Demand for garage transitory parking has far exceeded expected demand so far this fiscal year. In addition, due to superb scheduling by US Cellular Center staff, special events staffing demand has been stronger than expected as well. These actions translate into higher than projected revenues coming in for the garages; especially in transitory and special event parking where temporary staffing is primarily utilized. And, we still have some large special events scheduled such as the circus and high school graduations that should sell well. The current contract with Asheville Staffing is not to exceed $89,000 for the current fiscal year. Staff is requesting authorization to execute a change order to make the contract not to exceed $130,000 for the fiscal year ending June 30, 2014.

Pros:

- Enhances customer service by providing staffing to speed egress from the garages on weekends/holidays and special events.
- Provides safe and convenient facilities for residents' and visitors' parking.
- Using temporary service employees is the most cost effective and flexible manner to augment the Parking Services Division's staffing requirements.
- Allows parking Services to capitalize on extended weekend/nights/holiday hours to bring in additional revenue.

Con:

- Additional $41,000.00 expenditure.

The necessary funds are already budgeted in the Parking Services' Operating Budget for FY 2013-14.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a change order in the contract with Asheville Staffing to increase the contract amount to not exceed $130,000 for the current fiscal year.

RESOLUTION BOOK NO. 36 - PAGE 178

G. RESOLUTION NO. 14-92 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE NORTH CAROLINA HUMAN RELATIONS COUNCIL FOR A FAIR HOUSING OUTREACH PROGRAM

ORDINANCE NO. 4307 - BUDGET AMENDMENT FOR A FAIR HOUSING OUTREACH PROGRAM

Summary: The consideration of a resolution to accept a fair housing outreach grant and a budget amendment, in the amount of $25,000, from the North Carolina Human Relations Commission.

The North Carolina Human Relations Commission (NCHRC) requested support last fall for an application they were making to HUD for a grant to support fair housing outreach in selected regions across North Carolina. Their application was successful. NCHRC has asked the City to directly join in the "Partnering to Develop a Comprehensive Fair Housing Outreach, Recruitment and Investigative Program, and has made available a $25,000 sub-grant of HUD funds to the City of Asheville to support this effort.

The Community Development Division has recruited the Asheville Buncombe Human Relations Council and the Land of Sky Regional Council to perform the outreach activities, which will include 10 fair housing events in Asheville and Buncombe County over the next year, and the distribution of fair housing marketing materials.

NCHRC sought this grant because of their concern that the low incidence of fair housing complaints here and in other areas of the State is due to a lack of understanding about fair housing protection. Our efforts here will primarily focus on outreach to human service providers and others who provide referral and assistance to persons in our community. Outreach materials will be published in English, Spanish and Russian.

Pro:

- Persons throughout the City and County will be informed of the protection offered to them through fair housing laws.

Con:

- None.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing community development division staff will administer the program. No general funds are requested to support this program.

Staff recommends accepting $25,000 from the North Carolina Human Relations Commission to support a Fair Housing Outreach program by adoption of the resolution and budget amendment.

RESOLUTION BOOK NO. 36 - PAGE 179
ORDINANCE BOOK NO. 29 - PAGE 64

H. RESOLUTION NO. 14-93 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH THE

N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS ON NC 81 SWANNANOA RIVER ROAD AT ITS INTERSECTION WITH GASHES CREEK ROAD (AZALEA ROAD)

Summary: The consideration of a resolution authorizing the City Manager to sign a construction agreement with the North Carolina Department of Transportation (NCDOT) approving a project for making improvements on NC 81 (Swannanoa River Road) at its intersection with Gashes Creek Road (Azalea Road) in Asheville.

The North Carolina Department of Transportation (NCDOT) plans to make improvements including sidewalk, curb and gutter, and widening for a left-turn lane at the intersection of NC 81 (Swannanoa River Road) and Gashes Creek Road (Azalea Road) in Asheville. The project, which is identified as WBS Element # 3613.3.11, will be constructed during the Summer and Fall of 2014. The NCDOT will prepare the environmental and/or planning documents, obtain applicable environmental permits, prepare the project plans and specifications, relocate and adjust all conflicting utilities, and construct or cause the project to be constructed including the administration of the construction contract.

All work will be performed within the existing right-of-way if possible. In the event any additional right-of-way or construction easements are required, the City will acquire them at no cost to the NCDOT. As a partner with the NCDOT, the City is currently securing appropriate construction easements (At this time, we do not anticipate any fiscal impact in the securing of the construction easements).

Once the project is completed, the City will be responsible to maintain the newly constructed sidewalk.

The subject agreement is a companion agreement to one that was approved by City Council on May 14, 2013 via Resolution # 13-102 which includes a payment from the City of Asheville of $75,000 that will be applied to the construction phase of the project (the project includes a traffic signal at the intersection).

Pros:

- A much needed left-turn lane will be provided.
- The NCDOT is funding and constructing the project.

Con:

- The City will be responsible to maintain the sidewalk.

There is no immediate fiscal impact to the City regarding the subject agreement.

Staff recommends that City Council approve a resolution authorizing the City Manager to sign a construction agreement with the North Carolina Department of Transportation (NCDOT) approving a project for making improvements on NC 81 (Swannanoa River Road) at its intersection with Gashes Creek Road (Azalea Road) in Asheville.

RESOLUTION BOOK NO. 36 - PAGE 180 .

I. RESOLUTION NO. 14-94 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE THE EXCHANGE OF CITY-OWNED REAL PROPERTY ALONG BROADWAY AND CATAWBA FOR AN IMPROVED GREENWAY EASEMENT OWNED BY THE UNC-ASHEVILLE FOUNDATION INC.

Summary: The consideration of a resolution authorizing the exchange of City-owned real property along Broadway and Catawba for an improved greenway easement owned by the UNC-Asheville Foundation, Inc. also located off of Broadway Street.

The City of Asheville and the University of North Carolina - Asheville Foundation, Inc. entered into a Memorandum of Understanding (MOU) on December 13, 2013, concerning the development of a greenway section of the Reed Creek Greenway corridor at 525 Broadway Street. The MOU outlined the partnership and cost-sharing goals relative to the Greenway, and also acknowledged the intent to resolve property ownership and long-term maintenance of the greenway.

Accordingly, the City of Asheville and the UNC-Asheville Foundation have negotiated an exchange of real property based on the terms outlined below. Pursuant to N. C. G. S. 160A-271 a notice was duly published in the Asheville Citizen-Times on April 11, 2014, describing the exchange of properties.

The property at 525 Broadway Street is owned by the UNC Asheville Foundation and measures in total approximately 8.8 acres (PIN 9649-05-1813-00000 and PIN 9649-05-5513-00000). At this location, the Reed Creek Greenway has been designed to follow the creek that runs through this property, and connect to existing sections of greenway at Catawba Street and on the other side of Broadway at WT Weaver Boulevard. UNC Asheville has now commenced construction of the greenway, with estimated completion sometime this summer. The final product will yield a 10 foot asphalt multi-use path that extends approximately 1100 feet from Catawba to the corner of the property at Broadway. Including maintenance areas, the proposed easement would encompass approximately 1.65 acres, including the path, benches, signage, trash receptacles and storm water retention ponds. The City will acquire this area as a greenway easement once all the greenway improvements are completed. With the acceptance of this easement, the City accepts responsibility for long-term infrastructure and ground maintenance of this area.

In exchange for this greenway easement, the UNC-Asheville Foundation requests that the City convey two parcels of real property at the same location (PINs 9649-05-6562-00000 and 9649-05-4826-00000) measuring a total of 0.58 acres. One parcel is configured as a long narrow strip along the frontage of Broadway Street and the other parcel contains a 0.27 acre corner at Broadway and Catawba. The City intended to use these parcels for the Reed Creek Greenway, hence the unique configuration of the parcels. Since the UNC Asheville Foundation is offering to situate the greenway in a more ideal location (proximity to the Creek and shielded from Broadway traffic), City staff recommends City Council to convey these two parcels in consideration. Being that the total value of the greenway improvements exceed the market value of the two City parcels, this exchange is considered full and fair.

Pro:

- Assemblage of land necessary for the implementation of the Reed Creek Greenway.

Con:

- Increased maintenance, repair and operating costs for this section of Reed Creek Greenway.

The land exchange requires no additional compensation in that the exchange is of equivalent value, thus implying no short-term fiscal impact. Long-term fiscal impact includes increased maintenance costs year over year and future replacement costs of infrastructure.

City staff recommends City Council adopt a resolution authorizing the exchange of real property interests at 525 Broadway Street with the UNC-Asheville Foundation, Inc.

Vice-Mayor Hunt spoke in support of the good partnership with the UNC-Asheville.

RESOLUTION BOOK NO. 36 - PAGE 181

J. RESOLUTION NO. 14-95 - RESOLUTION UPDATING THE ASHEVILLE

STANDARD SPECIFICATIONS AND DETAILS MANUAL

Summary: The consideration of a resolution updating the Standard Specifications and Details Manual.

An effort to update the Standard Specifications and Details Manual has been ongoing since 2009. A Focus Group was established that included staff from the various City Departments and local engineering firms to review and make suggestions regarding the appropriate revisions. This group met five times during the months of April and May 2009. Other stakeholder groups, including the Bicycle and Pedestrian Task Force, provided written comments.

The Standard Specifications and Details Manual was approved by City Council on May 20, 1997 via Resolution #97-68 with an effective date of May 27, 1997 to coincide with the effective date of the Unified Development Ordinance (UDO). Since 1997, three major revisions have been approved. The first revision which included changes that were developed from application and practice was approved by City Council on March 28, 2000 via Resolution # 00-61. The second revision which included fire protection water supply requirements was approved on June 12, 2001 via Resolution # 01-84. The third revision which included a new lighting section was approved on March 28, 2002 via Resolution # 02-98. The purpose of the manual is to provide design guidelines and technical specifications for construction activities related to streets, sidewalks, water systems, storm drainage, parking lots, and pavement structure. It outlines the minimum construction standards which would be allowed within the City limits and the extraterritorial zoning jurisdiction (no longer valid) and it is applicable on both public and private property.

The Engineering Department (now Division) is the primary Department (Division) responsible for enforcement of the standards through the Construction Inspectors. The City Engineer is responsible for any requested variance or deviation from the standards unless otherwise noted. One example is waiving the sidewalk requirement (City Council is the only authority that can grant a sidewalk waiver).

Copies of the manual, which are bound in 3-ring binders, are available to the public at a one-time cost of $25. Updates are available at no cost. Staff does not anticipate having to provide copies of the updated manual in 3-ring binders because it will be available in pdf format.

Pros:

- Continues to provide minimum design and construction standards, guidelines, and specifications.
- Includes guidelines and specifications for complete streets principles.
- The development community provided input through the local engineering firms.

Con:

- There are no known negative impacts.

There is no known fiscal impact associated with this action.

City staff recommends that City Council approve a resolution updating the Standard Specifications and Details Manual.

RESOLUTION BOOK NO. 36 - PAGE 183

K. RESOLUTION NO. 14-96 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH CHERRY BEKAERT & HOLLAND FOR AUDITING SERVICES FOR FISCAL YEAR 2013-14

Summary: The consideration of a resolution authorizing the Mayor to execute a contract with Cherry Bekaert & Holland (hereinafter referred to as Cherry Bekaert) for auditing services for fiscal year 2013 - 2014.

North Carolina General Statute 159-34 requires that local governments have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission. In response to the aforementioned general statute, staff recommends retaining the services of Cherry Bekaert to conduct the audit of the city's accounts for the fiscal year ending June 30, 2014. The proposed fee for fiscal year 2013-2014 audit and financial statement preparation is $85,000.

As part of the engagement, Cherry Bekaert will provide a document required by the Auditing Standards Board that provides a framework for the auditor's communication with the Mayor and City Council and identifies some specific matters to be communicated. Pursuant to the Auditing Standards Board requirement, Cherry Bekaert will communicate timely and directly with the Mayor and City Council on matters related to the financial statement audit that are, in the auditor's professional judgment, significant and relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. Additionally, Cherry Bekaert will provide an audit schedule with milestones and timetables in an effort to improve audit planning and ensure that the audit report is delivered timely to the Local Government Commission.

Pro:
- Contracting with Cherry Bekaert aligns with City Council's financial policy, and will help ensure the timely and successful completion of the annual audit.

Con:
- None noted.

A fee of $85,000 has been proposed for the audit and is included in the Finance Department's portion of the annual operating budget.

City staff recommends adoption of the resolution authorizing the Mayor to execute a contract with Cherry Bekaert & Holland in the amount of $85,000 for auditing services for fiscal year 2013-2014.

RESOLUTION BOOK NO. 36 - PAGE 184

L. RESOLUTION NO. 14-97 - RESOLUTION ADOPTING A RIGHT-OF-WAY ACQUISITION POLICY

Summary: The consideration of a resolution adopting a Right-of-Way Acquisition Policy to ensure consistency and documentation when acquiring right-of-way and/or easements for infrastructure improvements.

The City of Asheville is committed to infrastructure improvements including sidewalk installation, roadway improvements, and water and storm water infrastructure upgrades. In some cases, additional right-of-ways or easements are needed to make these improvements.

Many times staff is successful in obtaining easements through negotiations with the property owner. In some cases the property owners will donate the property at no cost to the City. Other times, the City will pay an assessed value for the property depending on the nature of the need (temporary or permanent). In a few cases it can become very difficult to negotiate with a

property owner and other measures such as eminent domain are necessary to complete the project.

The purpose of the policy is to provide consistency and documentation in the process in the event that eminent domain is necessary. The Metropolitan Sewerage District utilizes a similar policy to acquire easements for sewer installation and rehabilitation.

Staff presented the policy to the Planning and Economic Development Committee in April. That committee recommended the policy be reviewed by the full body of City Council.

Pros:

- ☐ Establishes a standard policy and procedure for acquisition of right-of-way for infrastructure improvements.
- ☐ Allows for fair compensation to property owners for land the citizens need to make infrastructure improvements.
- ☐ Consistent with the policy the Metropolitan Sewerage District uses to acquire easements.

Cons:

- ☐ None

Staff requests approval of the Right-of-Way Acquisition Policy for the purpose of acquiring right-of-ways and easements for infrastructure improvements.

RESOLUTION BOOK NO. 36 - PAGE 185

M. RESOLUTION NO. 14-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY 0.764 ACRES OF REAL PROPERTY AND OTHER ASSOCIATED PROPERTY RIGHTS LOCATED AT THE ASHEVILLE REGIONAL AIRPORT TO THE N.C. DEPT. OF TRANSPORTATION

RESOLUTION NO. 14-99 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS FOR DISPOSITION OF A 0.483 ACRE REMNANT PROPERTY GENERALLY LOCATED AT THE ASHEVILLE REGIONAL AIRPORT TO YOUNGBLOOD OIL COMPANY INC.

Summary: The consideration of a resolution authorizing the City Manager to convey 0.764 acres of real property and other associated property rights located at the Asheville Regional Airport to N.C. Dept. of Transportation (NCDOT) for right-of-way purposes; and the consideration of a resolution directing the City Clerk to advertise for upset bids for disposition a 0.483 acre remnant property at the same general location to Youngblood Oil Company, Inc.

The City of Asheville holds title to the real property at the Asheville Regional Airport, and leases that property to the Asheville Regional Airport Authority (Airport). The Airport property is included in the Airport Layout Plan (ALP), which is approved by the FAA. In order for property included in ALP to be conveyed, the City of Asheville must execute the deeds of conveyance as grantor, and the FAA—in consultation with the Airport--must "release" the property from the ALP. Because the property was acquired with FAA financial assistance, and has been held for use by the Airport, the conditions of the FAA release include that the proceeds of sale be reimbursed to the FAA and to the City in the same proportion as the initial contribution to the purchase price. The City's portion of those proceeds must be used at the Airport. The release typically requires the deed of conveyance to include restrictions to ensure that the use of the property will not interfere with airport operations.

The North Carolina Department of Transportation (NCDOT) has plans to improve New Airport Road in front of the Asheville Airport. NCDOT has plans to re-route the existing Interstate interchange to a diverging diamond configuration in order to improve vehicular safety and traffic flow on and off Exit 40. Overall, the project provides much needed traffic improvements for this section of New Airport Road. This NCDOT project, known as Project# I-5501, is currently in the Right-of-way acquisition phase and is set to begin construction this summer. At this time, NCDOT has requested to purchase right-of-way and associated property rights at the Asheville Regional Airport, as follows.

Property Right	Area	Value
Permanent Right-of-way (fee simple)	0.764 acres	$570,000
Temporary Construction Easement	2.023 acres	$110,000
Permanent Utility & Drainage Easement	0.233 acres	$130,000
Dual Use Easement	0.045 acres	-
Personal property (signs, street lights, fencing, landscaping)	-	$245,000
Residual damages to property	-	$110,000

The total offer is $1,165,000 for the real property needs of NCDOT. This value is based on an independent MAI fair market appraisal. The Airport is amenable to the transaction and will seek the required approval and release from the FAA for this conveyance. The applicable law, NCGS 160A-274, authorizes the City to convey the property to a governmental entity (in this case, the DOT) upon such terms as it "deems wise," and there are no special procedures, other than Council approval.

This NCDOT property need has resulted in a property remnant on the east side of New Airport Road at Airport Park Road. This property remnant measures 0.483 acres, and after installation of the planned improvements by NCDOT, the property will no longer be usable by the Asheville Airport. As such, the adjacent land owner, Youngblood Oil Company, Inc., has come forward with an offer to purchase the property remnant. This offer is in the amount of $420,000 and is considered fair market value based on the NCDOT appraisal. In order to sell this property to Youngblood, a private party, the City is required to use one of several competitive procedures specified in the statute. In this case, staff recommends the process set out in NCGS 160A-269, negotiated offer and upset bid, which is the process usually employed by the City. The Youngblood offer is treated as an opening offer, and Council indicates its intent to accept. That offer is advertised, and is subject to an "upset bid" for a period of 10 days. If City Council approves the resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $420,000. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $441,095 or higher.) Since the current bid from Youngblood represents fair market value, the resolution provides that if no qualifying, competing bid is received, then City Council agrees to convey this parcel to Youngblood Oil Company, Inc. for $420,000.

Pros:

- The sale of property will support NCDOT's plans to retrofit an existing interchange and promote traffic efficiency and safety.
- Private sale will convert public land into taxable real property.

Cons:

- None noted.

All financial proceeds associated with the real property disposition are subject to FAA regulations governing the allocation of these proceeds; specifically, proceeds of sale must be

delivered to FAA as a reimbursement for the initial acquisition of said property and/or must be utilized for airport purposes.

Economic Development staff recommends adoption of the resolution to convey real property at the Asheville Regional Airport to NCDOT, and further recommends the adoption of the resolution directing the City Clerk to advertise for upset bids for the remnant property at New Airport Road and Airport Park Road.

RESOLUTION NO. 14-98 - RESOLUTION BOOK NO. 36 - PAGE 192
RESOLUTION NO. 14-99 - RESOLUTION BOOK NO. 36 - PAGE 193

N. ORDINANCE NO. 4308 - BUDGET AMENDMENT TO BUDGET INSURANCE RECOVERY FUNDS FOR THE PURCHASE OF FIRE DEPARTMENT EQUIPMENT

Summary: The consideration of a budget amendment in the General Fund in the amount of $80,500 from insurance recovery funds to purchase equipment for the Fire Department.

On December 14, 2013, a City of Asheville fire engine (1996 KME) was involved in an accident that resulted in the fire engine being totaled. As a result of the accident, the City will receive $80,500 in insurance recovery funding to settle the property damage claim. The fire engine that was totaled in the accident was set to be replaced by a new engine that was already on order and will arrive in June. For this reason, the Fire Department is not recommending that another fire engine be purchased at this time. Instead, the department is proposing to utilize the insurance recovery funding to equip a fire apparatus for Station 1 that will be deployed during the day. This daytime fire engine will provide full credit as a reserve apparatus, which will allow the Fire Department to reduce its heavy apparatus fleet by one vehicle, which will save significantly on future apparatus replacement cost.

Pros:

- Provides funding for Fire Department equipment purchase that will allow for operation of a daytime fire engine that will improve operational effectiveness.
- Reduces Fire fleet by one engine, which will save approximately $550,000 in future apparatus replacement cost.

Con:

- None.

The insurance recovery funds will be received in the City's Property & Liability Fund and then be transferred to the City's General Fund, where the equipment purchase will be made.

City staff recommends City Council adopt the budget amendment in the General Fund in the amount of $80,500 from insurance recovery funds to purchase equipment for the Fire Department.

ORDINANCE BOOK NO. 29 - PAGE 66

O. RESOLUTION NO. 14-100 - RESOLUTION DIRECTING STAFF TO PREPARE A REPORT FOR THE CREATION OF A MUNICIPAL SERVICE DISTRICT FOR THE SOUTH SLOPE AND CANCELLING THE PUBLIC HEARING ORIGINALLY SET FOR MAY 27, 2014

RESOLUTION NO. 14-101 - RESOLUTION DIRECTING STAFF TO PREPARE A REPORT FOR THE CREATION OF A MUNICIPAL SERVICE DISTRICT FOR THE RIVER ARTS DISTRICT AND CANCELLING THE PUBLIC HEARING ORIGINALLY SET FOR MAY 27, 2014

RESOLUTION NO. 14-102 - RESOLUTION DIRECTING STAFF TO PREPARE A REPORT FOR THE CREATION OF A MUNICIPAL SERVICE DISTRICT FOR NORTH CHARLOTTE STREET AND CANCELLING THE PUBLIC HEARING ORIGINALLY SET FOR MAY 27, 2014

Summary: The consideration of amending three resolutions previously adopted by City Council on April 22, 2014, by cancelling the public hearing dates of May 27, 2014, but retaining the direction to staff to create reports detailing a proposed municipal service district for the South Slope, River Arts District and north Charlotte Street.

On April 22, 2014, City Council adopted Resolution Nos. 14-76, 14-77 and 14-78 directing City staff to create reports detailing a proposed municipal service district for the South Slope, River Arts District and north Charlotte Street. At that time, the public hearing dates were set for May 27, 2014.

Providing adequate notice to all real property owners required that the City request records from the county and state. Due to the length of time needed to process those requests, it was determined that the public hearing should be held at a later date.

Additionally, recent information received by the City's bond counsel indicated that the proposed municipal service districts need not be formally accepted at this time due to the schedule for issuing Special Obligation Bonds, which will not occur until Fiscal Year 2016. Therefore, public hearings to establish the proposed municipal districts will be rescheduled at a later date.

City staff recommends amending three resolutions previously adopted by City Council on April 22, 2014, by cancelling the public hearing dates of May 27, 2014, but retaining the direction to staff to create reports detailing a proposed municipal service district for the South Slope, River Arts District and north Charlotte Street.

RESOLUTION NO. 14-102- RESOLUTION BOOK NO. 36 - PAGE 198

P. RESOLUTION NO. 14-103 RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY 125 JACOB HOLM WAY TO BUNCOMBE COUNTY

Summary: The consideration of a resolution authorizing the City Manager to convey 2.43 acres of real property located at 125 Jacob Holm Way to Buncombe County.

The City of Asheville owns approximately 2.43 acres of real property located at 125 Jacob Holm Way (PIN 9617-72-4466) outside of the western boundary of Asheville City limits off of Sand Hill Road. The City purchased this property for $243,000 in 2008 for a new fire station to serve Biltmore Lake. City Council reviewed the initial acquisition of this parcel in closed session on September 19, 2006. The City acquired this parcel from Fletcher Partners through commercial real estate broker Bob Lewis, who was also part owner of Fletcher Partners. The Closed session minutes reflect that the list price for the property was based on the unit price of $100,000 per acre for a total price of $243,000. Per the purchase contract, the Seller was also responsible for site grading to prepare for a fire station foundation and parking.

In that Biltmore Lake was not annexed into City limits, a fire station in this location is no longer needed. As such, the property is considered surplus and available for sale. At this time, Buncombe County has requested to purchase the property at fair market value. The County intends to assemble this parcel into a neighboring tract of land that was purchased for the new

Enka District Intermediate School. A recent MAI appraisal states that the parcel is valued at $195,000.

Pros:

- The sale of this property is at fair market value.
- This property will be used for a new Enka Intermediate School by Buncombe County

Con:

- The parcel was purchased during a period of inflated real property values and the current offer from the County is $48,000 less than what was paid for the property.

The sale of this property will benefit the General Fund and will be designated for future economic and community development projects.

Economic Development staff recommends adoption of the resolution to convey 2.43 acres of real property at 125 Jacob Holm Way to Buncombe County.

RESOLUTION BOOK NO. 36 - PAGE 200

Q. RESOLUTION NO. 14-104 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A JOB ACCESS AND REVERSE COMMUTE GRANT TO FUND PART OF THE COST OF PROVIDING SUNDAY SERVICE

Summary: The consideration of a resolution authorizing the City Manager to apply for a Job Access and Reverse Commute (JARC) grant to fund part of the cost of providing Sunday service.

The French Broad Metropolitan Planning Organization has released a call for projects for the JARC program which is part of Section 5307 of the new MAP 21 transportation bill. This program is available to transit agencies, non-profits or for profit agencies for transit capital and operating projects. The MPO Board has authorized the use of 10% of Section 5307 for projects that fulfill JARC goals.

JARC is a formula grant program oriented to provide job access in the urbanized area. The formula is based on the number of eligible low-income and welfare recipients in these areas.

The job access refers to projects relating to the development and maintenance of transportation services designed to transport welfare recipients and eligible low-income individuals to and from jobs and activities related to their employment.

The reverse commute refers to a public transportation project designed to transport residents of urbanized areas and other than urbanized areas to suburban employment opportunities.

To be eligible, the program requires an intensive planning process and the development of a Coordinated Public Transportation and Human Services Transportation Plan or CTP-HSTP based on community participation. The CTP-HSTP was developed in conjunction with the French Broad Metropolitan Planning Organization, Buncombe, Henderson and Haywood Counties, human services agencies, public and private transportation providers, the North Carolina Department of Transportation and the general public to assess current transportation needs, identify gaps and to set goals. The plan was approved on March 29, 2012, by the French Broad River MPO's Board, which includes elected representatives from each of the eighteen local governments which make up the MPO. Project will be selected in a competitive process.

Sunday service has been identified in the CTP-HSTP and in the City's Transit Master Plan as one of the priorities for citizens that need access to jobs seven days a week or during the weekend.

The City's Fiscal Year 2015 proposed budget currently includes funding to begin limited Sunday service on January 1, 2015. The full annual cost of providing this service will be $321,000. Operating expenses are an eligible activity under the JARC program and the City will apply for 50% of the total annual cost or $160,500 to pay for Sunday service.

Pro:

- JARC could subsidize Sunday service for a maximum of $160,500.

Con:

- The City has to contribute 50% of the cost, or $160,500.

The project cost is $321,000; the City will contribute 50% of the cost or $160,500, and if awarded, FTA will pay for the remaining 50%.

City staff recommends that City Council approve a resolution authorizing the City Manager to apply for a Job Access and Reverse Commute (JARC) grant to fund part of the cost of providing Sunday service.

RESOLUTION BOOK NO. 36 - PAGE 201

R. RESOLUTION NO. 14-105 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ROGERS GROUP INC. FOR THE ASPHALT PAVING IMPROVEMENTS PROJECT - FISCAL YEAR 2014

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,121,330.25 plus a contingency of 43% ($478,669.75) with Rogers Group, Inc. of Nashville, TN, for the project known as Asphalt Paving Improvements – Fiscal Year 2014, City of Asheville Project # ENG-13-14-006.

A list of warranted streets was put together to be addressed by this contract. The project was advertised on March 18, 2014, and due to an insufficient number of bids, advertised again on April 11, 2014. Bids were opened on April 21, 2014, with Rogers Group, Inc. of Nashville, TN, being the lowest responsible bidder with a bid of $1,121,330.25. This unit price contract bid presents the City with a great value and the potential for adding more streets to this year's paving project based on our budget of $1,600,000.00. The City did its due diligence in establishing that this was a responsible bid. A 43% contingency ($478,669.75) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work produced from this contract would fix a number of roads that are in drastic need of repair.

Pros:

- Will repair approximately 5.44 miles of roadways within the Asheville City limits.
- Extremely competitive prices maximize resources.

Cons:

- The project will cost the City approximately $1,121,330.25.
- Project management and contract administration will consume staff time.

The total budget for this project, including contingency, is $1.6 million, and included as part of the FY 2013-14 Public Works Departmental budget.

City staff recommends City Council adopt the resolution awarding the contract to Rogers Group, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,121,330.25 plus a contingency of 43% ($478,669.75) with Rogers Group, Inc. for the project known as Asphalt Paving Improvements – Fiscal Year 2014, City of Asheville Project # ENG-13-14-006.

RESOLUTION BOOK NO. 36 - PAGE 202

S. RESOLUTION NO. 14-106 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ARMEN CONSTRUCTION LLC FOR THE NORTH LOUISIANA AVENUE SIDEWALK IMPROVEMENTS PROJECT - PHASE 4

ORDINANCE NO. 4309 - BUDGET AMENDMENT FOR THE NORTH LOUISIANA AVENUE SIDEWALK IMPROVEMENTS PROJECT - PHASE 4

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Armen Construction, LLC for the amount of $126,820 and any change order within the project budget for the project known as North Louisiana Avenue Sidewalk Improvements, Phase 4, City of Asheville Project #E1014; and the associated budget amendment, in the amount of $25,000, from savings in other sidewalk projects to fund costs that exceeded the original budget.

This project will build a much needed sidewalk along North Louisiana Avenue and provide connectivity from the Skyview Community to Patton Ave. Pedestrians currently must walk on the side of the road, in a ditch, or in the street itself. The scope of work includes sidewalk, curb and gutter, drainage, retaining walls, wheelchair ramps, driveways, and utility relocation. The project is funded in part with U.S. Department of Urban Development Community Development Block Grant (CDBG).

The N. Louisiana Sidewalk Improvements – Phase 4 project was advertised April 11, 2014, - April 28, 2014. The bids were opened informally Monday April 28, 2014, and the following two bids were received:

- Patton Construction Group, Inc. of Asheville, NC in the amount of $156,640
- Armen Construction, LLC of Charlotte, NC in the amount of $126,820

Pros:

- Improves pedestrian safety.
- Funded by a Federal grant, with minimal City General Fund contribution.
- Encourages walking, thereby reducing carbon emissions.

Cons:

- Project management and contract administration will consume staff time.

The project budget will be $142,000. CDBG will provide $117,000 (previously budgeted), and $25,000 will be allocated from savings in other sidewalk projects. .

City staff recommends the City Council adopt the budget amendment in the amount of $25,000; and the resolution awarding the contract to Armen Construction, LLC and authorizing the City Manager to execute contract and any change order within the budgeted amount.

RESOLUTION BOOK NO. 36 - PAGE 203
ORDINANCE BOOK NO. 29 - PAGE 68

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda B, since no bids have been received and no action from Council is required. This motion was seconded by Councilwoman Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ANNUAL STATE OF AIRPORT

Mr. Lew Bleiweis, Director of the Greater Asheville Regional Airport, reviewed their 2013 Annual Report.

In response to Mayor Manheimer, Mr. Bleiweis responded to the Airport's exciting re-use of coal ash for fill for the runway.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN APPEAL OF THE PLANNING & ZONING COMMISSION'S DECISION TO APPROVE A LEVEL II SITE PLAN FOR THE CAMBRIA SUITES HOTEL PROJECT LOCATED AT 15 PAGE AVENUE, FOR A 12-STORY HOTEL WITH GROUND LEVEL COMMERCIAL SPACES

At Mayor Manheimer's request, Councilman Smith moved to recuse Mayor Manheimer from participating, due to a conflict of interest. This motion was seconded by Councilman Davis and carried unanimously. Mayor Manheimer handed over the gavel to Vice-Mayor Hunt and left the meeting room.

Vice-Mayor Hunt said that pursuant to Section 7-5-9.1 (b) (11) "appeals of decisions of the Asheville Planning & Zoning Commission regarding developments requiring Level II site plan approval in the Central Business District shall be heard by the Asheville City Council. Further appeals shall be made to Buncombe County Superior Court in accordance with subsection (a) (12)." The Planning & Zoning Commission voted 5-0 to approve the Cambria Suites Hotel Level II site plan. Thereafter, an appeal was filed to Council by Gary Davis, pursuant to Section 7-5-9.1 (b) (11).

City Attorney Currin reviewed with Council the appeal process, which will be using quasi-judicial procedures. It is important to note that in a quasi-judicial proceeding, Council protects the due process rights of the parties. There are several components of a quasi-judicial hearing as follows: (1) all testimony will be sworn; (2) any decision reached by City Council must be supported by findings of fact and conclusions of law and those findings and conclusions must be based on competent material and substantial evidence in the record; (3) this is a Level II site plan appeal under Section 7-8-18 (f) of the Code of Ordinances, and those are the only standards in front of Council in this appeal; and (4) if documentary evidence is presented to Council, please give your opponent a copy so they have an opportunity to review it. She then explained the order of the presentations, noting that all of the witnesses can be cross-examined. Council can, at anytime, ask questions of the staff or any of the witnesses. Regarding time limits, the parties will not be restricted to any time limits; however, any individual from the public who would like to speak will be limited to 3 minutes each.

City Attorney Currin asked if any member of Council has had any conversations or any involvement in the case that would prevent them from listening to the evidence tonight and giving an unbiased decision. Councilman Davis disclosed that he was a member of the Downtown Commission when the design review of Cambria Suites Hotel was discussed; however, he would consider this issue with an open mind on all the matters before the Council without pre-judgment and that he will make his decision based solely on what is before Council at the hearing. In addition, Vice-Mayor Hunt disclosed that he attended the Downtown Commission meeting when the design review of Cambria Suites Hotel was discussed; however, he too would consider this issue with an open mind on all the matters before the Council without pre-judgment and that he will make his decision based solely on what is before Council at the hearing.

City Attorney Currin said that as documentary evidence is submitted, City Clerk Burleson would be noting the entry of that evidence into the record.

After hearing no questions about the procedure, Vice-Mayor Hunt opened the public hearing at 5:48 p.m.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

Urban Planner Alan Glines said that this is the consideration of an appeal (pursuant to Section 7-5-9.1(b)(11) of the Asheville Unified Development Ordinance (UDO) of Planning and Zoning Commission's decision to approve a Level II Site Plan for the Cambria Suites Hotel project located at 15 Page Avenue, for a twelve-story hotel with ground level commercial spaces (City Exhibit 1 - Staff Report, which has been provided to City Council and both parties). This public hearing was advertised on May 2 and 9, 2014 (City Exhibit 2 - Affidavit; City Exhibit 3 - Certificate of Notice).

Using various maps and plans (City Exhibit 4), Mr. Glines then reviewed his following staff report (City Exhibit 1; City Exhibit 5 - Record of Proceedings):

"Site Conditions: The project site consists of one parcel .46 acre (20,031 square feet) with frontage on Battery Park Avenue and primary access along Page Avenue. There is a city-maintained alley at the rear of the property which provides access through this site to neighboring properties. An existing structure will be demolished – a two-story retail building that once housed Kosta's and Subway with a total square footage of 28,000 square feet according to Buncombe County tax records. The structure is not a contributing structure in the downtown national register district.

"The proposal is a twelve-story hotel with ground level commercial spaces with the hotel tower located on the north side of the structure. Plans show a building height of 115 feet to the highest occupied floor (and 136 feet to the top of the tallest architectural element) with a gross floor area of 120,000 square feet (just over 112,000 s.f. conditioned space). Floors two and three will be parking floors within the larger base of the structure, and the basement level will also be used for parking. Total parking will include 151 spaces made up of 147 regular spaces, one van space, and three accessible spaces. As specified in the UDO, the parking levels in a parking structure are not counted in the overall square footage of the building.

"The hotel will have 136 hotel room suites, an amenity floor with a restaurant (with outdoor seating) and meeting space (on the fourth level), and about, 3,400 square feet of commercial space on the ground level that will include a restaurant. The outdoor terrace at the fourth level will total 4,000 square feet.

"Primary vehicular and pedestrian access to the site is planned for the main entrance at the western side of the hotel building where there will be a drop-off area for guests under the main structure. The commercial spaces have frontage along Page Avenue with a separate

pedestrian entrance. (Mr. Glines explained the floor plans and elevations, using various drawings in City Exhibit 4).

"The Downtown Master Plan (DTMP) was initiated in 2008 and adopted by City Council on May 12, 2009. The consultant team very early on identified a number of key components that the plan would address including how to manage and encourage new development while maintaining community character which includes views into and out of the downtown area, vistas from the street and between buildings, and encouraging variety in taller structures. The project plans make references to these issues in the following ways:

- Community Vision- protect landmark buildings and views to and from our downtown setting

- Shape building form to promote quality of place excerpts-
    - Encourage variety in height, massing and character to respect context, animate the skyline, preserve valued views and offer development options

    - D. Step upper floors back above a defined streetwall for daylight and pedestrian scale

    - E. Keep taller buildings slender to preserve view corridors and daylight between them.

"These goals apply to all properties in the Central Business District and are dependent on their exact location in downtown and the scale of development proposed now or in the future. They have been incorporated into the UDO for the most part and were in a few cases adjusted through the review and adoption process. This project site is located towards the north end of the traditional downtown core.

"Compliance with Central Business District Regulations in the UDO: (Mr. Glines explained the regulations, using the Downtown Master Plan Concepts: Height Zones Map - City Exhibit 4)

"Building Height- The site is located in the intermediate height zone which allows floor heights up to 145 feet. The proposed building will be twelve stories with a final floor height of 115 feet and the total height of the building to the tallest roof element, 136 feet.

"Base middle cap orientation- The design has a distinct base created by the use of cast limestone material for the first four levels of the building. The middle section will have a change of material by use of a red brick colored stucco. The upper two hotel floors and the roof feature will change color and material again using a silver gray stucco surface to create a contemporary cap for the building. The tower portion was revised following discussion with the design review subcommittee of the Downtown Commission to incorporate a contemporary cap. There is a strong architectural element over the entrance to the hotel that continues up to the top of the building made up of lighter finished metal and metallic-finished stucco on upper floors.

"Street Wall Stepback- The intent statement found in 7-8-18 (f) (13) (a) notes that the reduction of the perceived heights of building elements are enacted "to enhance the traditional scale of downtown and ensure adequate air and light at the sidewalk level and neighboring properties, a visual demarcation will be established across the façade of the building at a height that is defined as the *street wall.* Corresponding to this elevation on the façade a *step-back* across the front or side(s) will be provided...." (Mr. Glines reviewed the Traditional Downtown Core Map - City Exhibit 4)

"The project has selected a step-back implementing the side setback option. It incorporates the third and fourth floors as the setback height allowed by the ordinance based on

properties located in the *traditional downtown core*. The side step-back is proposed to be 74 feet measured from Battery Park Avenue which actually exceeds the requirements in the UDO. The UDO stipulates that any series of step-backs need not exceed 10% of the lot area, in this case 2,000 square feet. The developer is proposing almost 4,000 square feet of roof top deck spaces. At the Downtown Commission meeting, the developer explained that he is proposing this larger than required stepback solution because of his interest in preserving the western views for the condominium owners in the neighboring building to the extent that he is able.

"The appeal of this Level II project to the City Council is largely based on concern from an adjacent condominium owner at 21 Battery Park Avenue that the requirement for towers with floor levels above 75 feet were not properly applied, affecting his property."

Mr. Davis raised an objection that Mr. Glines was about to rebut his case and he is not a party to this. He said he is going far beyond to where he went in his recommendation to the Planning & Zoning Commission and he would be happy to cross examine Mr. Glines; however, Mr. Glines should not be trying to rebut his case at this time when he is presenting conditions. City Attorney Currin said that Mr. Glines, as a staff member, is giving a summary of the decision of the Planning & Zoning Commission. Mr. Davis has presented an appeal and Mr. Glines is stating the staff's position. She said that Mr. Davis will have time to cross-examine Mr. Glines and ask him any questions. Vice-Mayor Hunt overruled Mr. Davis' objection.

Mr. Glines continued with the review of his staff report (City Exhibit 1) as follows:

"*Tower Dimensions*- The tower dimensions with floor levels above 75 feet is limited in the ordinance for wall length and floor plate size.

"To avoid large 'slabs' in the tower portions of a development, any horizontal dimension of a tower may not exceed the maximum dimension of 145 feet established for the downtown CBD. The tower width is 140 feet for the primary façade along Page Avenue and 71 feet measured from Battery Park Avenue. The proposal is within the range of allowed widths for the tower portion of the development.

"The floor plates for building towers with floor levels above 75 feet are also limited based on lot size and the particular downtown context. The UDO provided these options under 7-8-18(f.)(13)b(1.) Floor plate limited:

a. For parcels 20,000 square feet and larger, the gross floor plate area is limited to 40 percent of the lot area;

b. For parcels smaller than 20,000 square feet, gross floor plate area may not exceed 8,000 square feet.

c. For parcels greater than 16,000 square feet, the agency or official responsible for project review may consider floor plates up to 50 percent if it is surrounded by substantial permanent public or private open space that allows for views and access to direct sunlight.

"The Cambria Hotel proposal is pursuing a tower floor plate option 'c.' based on 50% of the lot area, which is an option for projects that can demonstrate that they are 'surrounded by substantial public or private open space that allows for views and access to direct sunlight'.

"Open Space Requirements - Section 7-2-5 of the UDO defines *open space* as: 'Open space means an area that is intended to provide light and air, and is designed for either environmental, scenic, or recreational purposes. Open space may include, but is not limited to, lawns, decorative planting, walkways, active and passive recreation areas, playgrounds,

fountains, swimming pools, wooded areas, and water courses. Open space shall not be deemed to include driveways, parking lots or other surfaces designed or intended for vehicular travel.'

"Open space in an urban setting is further refined in 7-11-4 of the UDO in which 'Urban Open Space amenities mean public sidewalks significantly in excess of standard sidewalk requirements, streetscape and hardscape areas accessible to the public including sidewalk café areas, areas containing public art and similar amenities.'"

Vice Mayor Hunt asked if it's staff's interpretation that the height limit of the Grove Arcade constitutes a result of open space because of its relative height compared to this property. Mr. Glines responded that it certainly contributes to this area. He said that pre-DTMP we had no height limits and no provisions for any step-backs at all on any downtown property. The DTMP recognized the importance of limiting tower heights to keep them slender but also have a benefit of ensuring views, air and light throughout the downtown from the sidewalk level and from long-term vistas into downtown and vistas out and across the City. The DTMP was intending that towers be limited on each and every parcel so that a big portion of each and every parcel would also be open. It's unique in this case that we have a height limited substantial building a block long that affords views. The open space in the Grove Arcade represents opening and air and light to the sidewalk level too, not just neighboring properties. It does factor into open space, but it doesn't satisfy all of it together.

In response to Vice-Mayor Hunt, Mr. Glines said that the Grove Arcade height limitation is based on some deed restriction.

Councilman Bothwell felt that Mr. Glines is interpreting the DTMP in that way, but there is nothing in our ordinances that says we should to take into consideration the height of adjacent buildings.

Mr. Glines continued with the review of his staff report (City Exhibit 1) as follows:

"Although the Central Business District is exempt from open space requirements as a rule, the provision for the floor plate of the tower to reach 50% of the lot area relies on a finding of being surrounded by substantial permanent public and private open space. It is worth noting that the open space need not be found only on the subject property but also on properties surrounding it. Considering the site plan and the specific context in the downtown area, staff believes that the tower meets this standard based on the following considerations:

- Substantial sidewalk areas surround this property directly adjacent to the site and across the street

- The combination of building step-back(s) which are again noted in 7-8-18(f.)(a.)(2.) are required 'in order to enhance the traditional scale of downtown and ensure adequate air and light at the sidewalk level and neighboring properties, a stepback at the street wall height is required according to the following standards. In no case shall the required step-back(s) decrease the buildable area by more than ten percent." The step-back provided in the proposal is substantial and exceeds the step-back amount (200% of the required amount by ordinance) and ensures that air and light reach the sidewalk level and neighboring properties. This decision was made by the developer to preserve views to the south and west for neighboring properties but which has the added benefit of positively impacting the street and sidewalk by ensuring that the surrounding area is not overwhelmed by tall buildings

- The proposed hotel building has a step-back for the tower from the north side of the property for all floors above the fourth floor which supports the open space standard.

- The Grove Arcade located directly to the west is height protected through the sale of air rights to maintain its existing configuration of four stories which ensures that air and direct sunlight reach the sidewalk and neighboring properties.

- The roof of the podium height of the proposed Cambria Hotel building (at the third and fourth floor levels) provides a restaurant amenity serving as open space for hotel guests and the public.

- The sidewalk adjacent to the project site is the location for an urban trail public art piece known as "Grove's Vision' and will remain at this location in support as an urban open space amenity.

- Café spaces are located along Battery Park Avenue and Page Avenue which provides scenic and active urban open space.

- Street trees, wide pedestrian crossings, wayfinding signage, and benches are a part of the surrounding streetscape, existing and proposed as a part of the new development and are among noted urban open space amenities.

- The 21 Battery Park Avenue building is setback from its western property line (the common property line with the Cambria Hotel project) by 50 feet and this space is used for surface parking and access to underground parking but also includes area for residents' overhanging balconies which ensures that sunlight and air are accessible to this property and neighboring properties and supports the open space standard.

- At the height of the eighth story a deck for hotel guests with rooms adjacent to it is provided in support of the open space standard.

- By definition, the floor plate requirement for the hotel tower above 75' is limited to 50% of the lot area, then the other negative space of the lot in this same area is open and not built upon above this level.

"Thus the open space considered in this situation is both on-site and surrounding the parcel and provides the benefit of assuring access to views and direct sunlight by including areas that provide light and air, for environmental, scenic, and recreational purposes. The open space enhances the experience for pedestrians at the sidewalk level, allows for views between buildings and assures air and light for neighboring properties. This staff interpretation of a correct application of this standard was accepted by the Downtown Commission and the Planning and Zoning Commission.

Shadow Impact limits- As described in 7-8-18(f)(7)(e.) shadows from new construction on large and small public parks or public plazas are limited by the following standard: (1.) Shadow impacts on any one point are limited to no more than two hours between the hours of 10:00 a.m. and 2:00 p.m. on the spring or fall equinox at ground level; March 21 or September 21 respectively.

"Concern was raised by the same condominium owner at 21 Battery Park Avenue that the shadow study was not conducted to consider the shadow impacts of the proposed tower on the eastern sidewalk area that is adjacent to the Grove Arcade pursuant to the noted shadow impacts standard. Staff did not initially consider the shadow impact standard because the sidewalk area while providing a vibrant community amenity with outside dining, is neither a park or plaza that is still staff's position. The sidewalks were widened and the current traffic and parking configuration installed when the Grove Arcade was renovated in the late 1990's. however, since the initial submittal was received, shadow studies were conducted for this area by the applicant and show no impact that would be in violation of the noted standard.

"Tower Placement- The tower is placed towards the northern side of the parcel in order to minimize the impacts to neighbors at 21 Battery Park Avenue. The tower was shifted from the actual property line on that side by 10 feet in order for upper story windows to be permitted which also supports the open space standard by allowing access to air and light. The windows are a requirement for the upper stories of buildings in the UDO and the proposed windows comply with the requirement.

"Streetscape- The proposed streetscape follows the pattern established in downtown with concrete sidewalks following the running-bond pattern. The sidewalks exceed minimum standards for downtown. Street trees will be placed in tree grates in a regular pattern along both street frontages. At the Technical Review Committee meeting, the Fire Department noted a requirement for additional clear space in front of the tower along Page Avenue for aerial access needs so some trees will be eliminated from this area. Opportunities for planters are being explored for this location.

"Fenestration and primary pedestrian entrance- This proposal complies with the CBD standards, for both ground level and upper floors. Both frontage streets are key pedestrian streets, so the minimum standard is 70% ground level fenestration (windows, doors and other openings) and is provided at 73% along Battery Park Avenue and 80% along Page Avenue. Upper floors must meet a 20% fenestration standard and all facades meet the requirements for openings. The Battery Park and Page Avenue elevations are proposing 42% and 65% respectively.

"Recent Area Zoning Actions: The Hyatt Place Hotel was approved in the vicinity at Montford Avenue and Haywood Street and construction has begun with clearing on the site.

"As a Level II project, the Cambria Suites project was reviewed by the Technical Review Committee (for technical compliance), the Downtown Commission (mandatory review, voluntary compliance of design standards), and the Planning and Zoning Commission (approval authority for technical compliance).

"The Technical Review Committee (TRC) recommended approval at their January 6, 2014, meeting, with conditions. Subsequent to that the TRC met on March 3 and granted final project approval.

"The Downtown Commission discussed the project at length at their meeting on January 10, 2014. Their comments centered on the following topics which they asked to be shared with the Planning and Zoning Commission:

- Sidewalk connection and crosswalk to the Grove Arcade is important.
- Assuring that a local-made art piece or some other special treatment will be provided for the center space of the parking drop-off area since the plans did not show anything at the time. Since their review, a few items have changed in this area including the fire fighting command room which will now form a 'back drop' for this space between the columns. The architects are working to provide a focal point at this location.
- Some concern about the number and width of the driveway aisles since driveways tend to compromise the pedestrian experience and the UDO trends away from multiple driveways in the CBD. The Traffic Engineer reviewed the plans and did support for the current configuration.
- Appreciation of the effort by FIRC Development to shift the tower portion to the north end of the property to assure some views for neighbors located in 21 Battery Park Condominiums.

- Idea for a garbage compactor and recycling on this site that could be shared by other nearby businesses since there are few locations in downtown well situated for these needed facilities.

- Parking will be available to visitors of the hotel, restaurant and to the retail tenants.

- There was some concern about noise from the amenity floor affecting nearby residents but Mr. Fraga explained that his own hotel guests would also have the same concern.

- Interest in having sufficient signage so that guests do not get lost.

- Some concern about traffic flow along Page Avenue and acknowledgement that this topic is beyond the effects of this particular project.

- Interest in additional windows being provided at the fourth level where the meeting rooms are located to open up the façade for uses that could benefit from natural light.

- Agreement that the building proposed meets the basic development requirements outlined in the UDO.

"The Planning and Zoning Commission reviewed the project and voted 5-0 to recommend approval at their meeting on February 5, 2014. During that review, Mr. Gary Davis, an attorney with a condominium unit in the neighboring property at 21 Battery Park Avenue, raised concerns about the review process for the project from the level of review that the project received and how the project is meeting specific development standards for properties located in the Central Business District. Staff answered questions from the Commission and the Commissioners voted unanimously to recommend approval.

"Subsequently, Mr. Davis filed the appeal on February 25, 2014, of the Level II approval of the Commission to the Council. This is the first appeal of a Level II approval downtown under the standards adopted with the Downtown Master Plan

"The Planning and Zoning Commission voted unanimously to approve the Cambria Suites project at their meeting on February 5, 2014. The Downtown Commission voted to approve the project unanimously at their meeting on January 10, 2014. Staff believes the project meets the requirements of the UDO and the intent of the Downtown Master Plan because the project brings new investment and added vitality to the traditional downtown core and enhances community character."

Councilman Bothwell confirmed sidewalks are public spaces for the purpose of providing open space, but they are not public spaces for the purpose of shadows. Mr. Glines agreed noting that the sidewalks are not public parks or public plazas.

When Mr. Gary Davis asked to be allowed to make a opening statement prior to cross examination of Mr. Glines, Mr. Joe McGuire, attorney representing FIRC, had no objection to Mr. Davis presenting a short opening statement before he asks Mr. Glines questions.

Mr. Davis said that he is an attorney and a witness. He reviewed with Council a PowerPoint and it's going to be in the nature of his opening. Some of it will include evidence that he intends to present as a witness. What he proposed to do, once he finishes his opening, he will enter his exhibits into evidence mentioned in the opening. He will come back up for cross-examination.

Mr. Davis said that he owns an office space in 21 Battery Park on the second floor. He's also a resident of Asheville as of November, 2013. The space is for his law office firm which he practices environmental and land use law. He chose his office location because that is his favorite part of downtown Asheville and largely because of the Grove Arcade. Using Appellant Exhibit 10, he showed the view toward his office. He chose that office space because of the light from the western side of the building that reduces his need for electric lighting for his office and he also chose it because of the location and his appreciation of the historic nature of this area of downtown. He said it has been said many times that this project complies with the Downtown Master Plan and the UDO - it does not. His main issue is that the proposed tower for the Cambria Suites Project covers 25% more of the parcel than it should under the UDO. That is a tremendous bonus for the developer. It also consequently significantly impacts his building and his office. He is not representing everyone in Battery Park, but representing only himself, but there are others who have concerns about light and the blockage of light by this building that unnecessarily violates the UDO. There is a reasonable compromise that complies with the UDO but doesn't pervert the definition of open space. He referred to Appellant Exhibit 11, stating that this is essentially what would happen to his office space and roughly 1/3 to ¼ of the people on the western side of 21 Battery Park. But his office space will be down in a deep dark hole after this project is completed. He didn't believe this should have been a Level II project and he has reasons which he presented to the Planning & Zoning Commission. They are presented in his appeal. City Attorney Currin has written a letter and he assumed that the letter was part of the record for this hearing.

Mr. McGuire objected in that he felt this issue of which level review is not part of this hearing today. City Attorney Currin agreed. She said she has no problem with Mr. Davis preserving his objection to this proceeding as a Level II, but we are not going to accept evidence as to why it is or is not.

Mr. Davis said he was just preserving his issue.

In response to Vice-Mayor Hunt, City Attorney Currin said that for this purpose there is a Level II site plan and a Level III site plan. There is a certain size level that triggers the Level III review. There are also some other components that make something Level II vs. Level III. Now the determination as to whether something is a Level II vs. a Level III is an interpretation of the zoning ordinance. Zoning staff is charged with an interpretation of the zoning ordinance - not City Council. At the time the applicant came in, there was a determination made that this should be a Level II site plan. If there was an objection at that point, the review board for that is the Board of Adjustment. The City Attorney's Office wrote a letter and informed Mr. Davis of that. She pointed out another problem in treating this as a Level III - City Council cannot say this Level II project should be a Level III project because that would be a conditional zoning request, and the only entity that can request a conditional zoning is the property owner. This property owner has not asked for that. Before Council is an appeal for the Level II project only.

Mr. Davis also raised the issue that the appeal should be heard as a legislative conditional zoning matter and that was taken care of in a letter. He wanted to make sure that letter was part of the record. He said there are no procedures laid out in the UDO for his hearing and we are essentially operating under the direction of the City Attorney as to what procedures should apply.

Mr. Davis said that the issue he raised under the UDO is the floor plate limits for the tower. Using Appellant Exhibit 2 (Section 7-8-18 of the Code of Ordinances), he noted the floor plate is limited in (a) and (b) to either 40% or a maximum of 8,000 square feet. Subsection (c) is the issue Mr. Glines was discussing "for parcels greater than 16,000 square feet, the agency or official responsible for project review may consider floor plates up to 50 percent if it is surrounded by substantial permanent public or private open space that allows for views and access to direct sunlight." Subsection (c) is the crux of his appeal. According to a survey presented to the Planning Department there are two parcels that were combined into one for this project and they

total 19,929 square feet (Appellant Exhibit 9). The last drawing submitted said 20,031 square feet. The drawing also said 10,015 square feet for the tower floor plate.

Mr. Davis presented his exhibits has and will be using in his testimony: Appellant Exhibit 1 (Sec. 7-5-9.1 of the Asheville Code of Ordinances); Appellant Exhibit 2 (Sec. 7-8-18 of the Asheville Code of Ordinances); Appellant Exhibit 3 (definitions of "open space" and "plaza space" found in Sec. 7-2-9 of the Asheville Code of Ordinances); Appellant Exhibit 4 (Sec. 7-11-4 of the Asheville Code of Ordinances); Appellant Exhibit 5 (Cover Page and Plan A1.08 - Floor Plan for Levels 9-12); Appellant Exhibit 6 (Plan A2.01 - Exterior Elevation); Appellant Exhibit 7 (Plan A2.06 - Exterior Perspective); Appellant Exhibit 8 (Survey); Appellant Exhibit 9 (Buncombe County Map of parcel in question including property cards); Appellant Exhibit 10 (Photo of 21 Battery Park - Suite 206) from parking lot); and Appellant Exhibit 11 (Illustrative exhibit showing arrows pointing to his law office).

Mr. McGuire objected to Appellant Exhibit 9 because he did not see how it was relevant. Mr. Davis said that he would offer that in cross-examination of Mr. Glines. Mr. McGuire reserved his objection.

City Attorney Currin said Appellant Exhibits 1-8 have been admitted into the records; Appellant Exhibit 9 (not admitted yet due to objection reserved); and Mr. McGuire reserved objection to Appellant Exhibits 10-11 until they see the use.

Mr. Davis said that Appellant Exhibit 10 (Photo of 21 Battery Park Avenue - Suite 206); and Appellant Exhibit 11 (Illustrative exhibit showing arrows pointing to his law office). Mr. McGuire then did not object to Appellant Exhibits 10 and 11. Therefore, Appellant Exhibits 1-8 and 10-11 were admitted into the record.

Using Appellant Exhibit 8, he said the survey shows total area of two parcels of 19,929 square feet. That would be below 20,000 square feet for purpose of the UDO limitation on the tower floor plate and restrict it to 8,000 square feet. Using Appellant Exhibit 5, the plans show a 20,031 square feet parcel area and 10,015 for the tower floor plate. He did not know where the discrepancy is in the parcel area, but if you apply the UDO provision on the floor plate limitation, a little over 8,000 square feet. Using Appellant Exhibit 5, he said the dimensions don't match up with the 10,015 square feet. He entered into the Appellant Exhibit 12 (Plan A2.06 which illustrates the floor plate tower relation to 21 Battery Park Building). Under subsections (a) & (b) under 7-8-18 (f) (13) (b) it's approximately 8,000 square feet. By using subsection (c) that Mr. Glines used, the developer is receiving a 25% greater floor plate for the tower than the limit would be in (a) and (b). The wording in subsection (c) is what this appeal is about - open space. He cited the definition of "open space" in Appellant Exhibit 3. The definition tells you some of what open space means and some of what open space is not. It does not tell you that tops of buildings are open space. He said that open space standards define open space as land. Using Appellant Exhibit 4 (which is Open Space Standards) he referred the Council to where the word "land" is used for open space. No where says tops of buildings can be considered to be open space. There is an explicit statement in Appellant Exhibit 4 that says "In no case shall the following land be used for open space; ... land occupied by streets, drives, parking areas, required landscape buffers or structures other than recreational structures ...." He said his expert will testify about how open space is typically used in planning and how it was used in Asheville - it's not meant to the the tops of buildings or the air space above buildings. He stressed that Subsection (c) states "... project review may consider floor plates up to 50 percent if it is *surrounded by* by *substantial permanent* public or private open space that allows for views and access to direct sunlight." No where is there substantial open space that fits the UDO definition. Again, the tops of buildings can't be used as open space, and the air space above buildings can't be used as open space. All Mr. Glines said that the project appears to meet this standard because the Grove Arcade is height protected and the surrounding area has much shorter buildings, including the lower podium height of the amenity level of the hotel at the south end of the project. Using Appellant Exhibit 5, the width is considered to be the street frontage on Page Avenue, and the length is the

other direction. The drawing shows 79.75 feet long and 138 feet wide, which totals 11,005 square feet. That is more than 50% of the parcel area. The developer says 10,015 square feet. He felt the solution is to comply with the 8,000 square foot limit. If the length of the building along Battery Park stays the same, then the width would have to change to be 100 feet (not 140 feet). That would essentially move the tower part of the building back to where there would be no blockage of any light or air for 21 Battery Park and he would not have an objection to the project going higher if it was necessary to maintain the same number of rooms. That is the solution he felt was required by the UDO, or at least a remand to say that you can't apply the open space definition in the manner that it was applied in this case. A reconfigured project would have to come back before Council.

Vice-Mayor Hunt said that the reconfigured project would have to go back to the Planning & Zoning Commission, not City Council. City Attorney Currin said that the developer would have to agree to amend his application and ask City Council to rule on that, or Council has to rule what is before them.

At 7:03 p.m., after was no objection from Mr. Davis or Mr. McGuire, Vice-Mayor Hunt announced a 5-minute recess.

City Attorney Currin reviewed the next order of events. Mr. McGuire will cross-examine Mr. Davis and then Mr. Glines will be cross-examined by Mr. Davis and Mr. McGuire. Mr. Davis' witness will then testify and be subject to cross-examination.

The following is a verbatim transcript of the cross-examination:

"Mr. McGuire - You understand today's review is a non-discretionary technical review of the UDO?

Mr. Davis - No I don't. It's a quasi-judicial hearing concerning the UDO.

Mr. McGuire - But it relates to the technical requirements of meeting the UDO.

Mr. Davis - It relates to discretionary requirements as well that are as part of the UDO.

Mr. McGuire - And questions about views or whatever are not part of what the UDO deals with in this situation.

Mr. Davis - That's not true. It does deal with views.

Mr. McGuire - And you've been in your condo for how long?

Mr. Davis - For approximately 6 months. Your office did the closing.

Mr. McGuire - And as a land use attorney, you understand that no view is guaranteed in an urban environment.

Mr. Davis - No particular view is guaranteed, but views are guaranteed as part of the UDO

Mr. McGuire - Where in the UDO is the view guaranteed?

Mr. Davis - Well it's guaranteed in the provision we have been talking about. For one, dealing with floor plate area.

Mc. McGuire - Does it say guarantee a view? Or does it say view is a consideration?

Mr. Davis - It says to preserve views.

Mr. McGuire - Okay, so it's no guarantee.

Mr. Davis - Not for any particular view.

Mr. McGuire - Right. Do you understand that Mr. Fraga's Haywood Park Hotel views were blocked when your condominium project as put in?

Mr. Davis - Actually it's my understanding that he didn't own it at that time.

Mr. McGuire - But whoever did own it, that's part of being a downtown environment. Someone may build a building that blocks your views. That happened to my office, that happened to Mr. Haywood of the Haywood Park Hotel and now you think is happening with your office.

Mr. Davis - I understand Mr. Fraga bought the Haywood Park Hotel after that happened.

Mr. McGuire - Okay. And were you in any way, like Mr. Glines, involved in writing and revising the UDO?

Mr. Davis - I was not. I wasn't living here.

Mr. McGuire - So anything you know about its meaning is based upon you think should happen in this particular case.

Mr. Davis - No, that's not true. I've read all of the minutes of the City Council pertaining to the adoption of the UDO. I've read the UDO in great deal, so that is not true.

Mr. McGuire - So you're well read on it.

Mr. Davis - And I also have an expert witness who will testify.

Mr. McGuire - And are you aware that Mr. Fraga made substantial changes to this design to accommodate views of some of the residents of 21 Battery Park?

Mr. Davis - I was at a meeting in October of 2013 when Mr. Fraga presented essentially the same project that he is presenting today. And whether there were any changes made before that presentation to the neighborhood as a neighborhood meeting, I don't know.

Mr. McGuire - And if there were a neighborhood meeting, which I think there was months before you came to town, obviously you know nothing about that neighborhood meeting.

Mr. Davis - No, the neighborhood meeting was October 2013 and I was present for that.

Mr. McGuire - And at that point, Mr. Fraga got input from the various residents.

Mr. Davis - And ignored it.

Mr. McGuire - He ignored your input.

Mr. Davis - No, he ignored the input from several people at that meeting including several residents of the west side of 21 Battery Park who complained about their lack of light and their views.

Mr. McGuire - Now, you say that this project may be under 21,000 square feet so that (b) would apply rather than (c)?

Mr. Davis - Under 20,000.

Mr. McGuire - Yes. But you don't have any evidence as to whether it's just under or just over, do you?

Mr. Davis - I have the dimensions that were listed on the plans provided to the City Council.

Mr. McGuire - Before they were revised.

Mr. Davis - I have the revised plans.

Mr. McGuire - Okay. And do you have any evidence to support under the revised plans where it shows it's under 20,000 square feet?

Mr. Davis - I have the survey of the parcels. I don't know how you can get any better than that.

Mr. McGuire - And the revised parcel shows it's not more than 20,000 square feet, correct?

Mr. Davis - I haven't seen a revised survey.

Mr. McGuire - Okay. Now when you talk about open space, all of your comments before Council, up to now, had to do with on top of the Grove Arcade, correct?

Mr. Davis - No.

Mr. McGuire - Did you talk about whether there was open space on any other side of the project?

Mr. Davis - Well there are buildings on every side of the project.

Mr. McGuire - But, can you not have open space between buildings?

Mr. Davis - You can have some open space between buildings, yes.

Mr. McGuire - And if fact the deep dark hole that you're talking about is 50 feet from your project over to the building we are talking about, correct?

Mr. Davis - That is correct, but that is parking space which cannot be used as open space under the UDO.

Mr. McGuire - It does give you air and light.

Mr. Davis - But it's not open space.

Mr. McGuire - Okay, so we want to get technical, that's fair enough.

Mr. Davis - That's what we're here for.

Mr. McGuire - Absolutely and we will get technical, but in terms of your being in a deep dark hole it's 50 feet over that hole.

Mr. Davis - I've seen the shadow studies that were referred to, but not shown to anybody and that deep dark hole is deep and dark all but 2 hours a day.

Mr. McGuire - Now?

Mr. Davis - And with the project.

Mr. McGuire - You've seen that the shadow study shows that the shadow impact requirements have been complied with in this case.

Mr. Davis - Assuming that is a valid study it shows that for the public plaza, which is what I consider the sidewalk along the Grove Arcade a public plaza, that it is only impacted about an hour a day.

Mr. McGuire - So you're not arguing the shadow impact and you have no evidence relating to that today?

Mr. Davis - I don't have any evidence to refute the drawing that I've seen that Mr. Glines apparently reviewed very briefly.

Mr. McGuire - Okay, so that's not an issue for decision today - shadow impacts.

Mr. Davis - It's an issue if your client brings it up.

Mr. McGuire - Okay, but not from your viewpoint?

Mr. Davis - I didn't bring it up.

Mr. McGuire - Okay. Now there is open space. First of all, the definition of open space. The definition in the UDO gives examples. Correct?

Mr. Davis - It gives a definition plus examples.

Mr. McGuire - And the examples are, says the examples are not limited to those examples. Open space is not limited to those examples, correct?

Mr. Davis - It says may include, but is not limited to. Correct.

Mr. McGuire - So you would interpret that as someone who wrote that knew that there might be other examples of open space.

Mr. Davis - Except that the open space is further limited by the definitions and the language in the open space standards.

Mr. McGuire - And you understand generally open space standards may vary from one use to another?

Mr. Davis - They do, yes.

Mr. McGuire - And there's nothing in the open space definition in anyway that excludes including the top of the Grove Arcade.

Mr. Davis - Well, let's be specific. In 7-2-5 there is nothing that even remotely resembles the top of the Grove Arcade. But it doesn't exclude it explicitly. But in 7-11-4 it does.

Mr. McGuire - Now if you had, say the original tower on the Grove Park Inn that was intended by Mr. Grove, do you know who Mr. Grove is?

Mr. Davis - I do. I haven't met Mr. Grove

Mr. McGuire - Of course he's been gone for decades. But, you've seen the design.

Mr. Davis - I have - it's right on the street corner.

Mr. McGuire - And if that had been built so that the Grove Arcade will, how many more ... 8 or 10 Mr. Grove?

Mr. Davis - I don't know.

Mr. McGuire - That would certainly affect the light and air on the other side of the street.

Mr. Davis - But it's a skinny tower.

Mr. McGuire - It's a skinny tower, but the point is that if you had.

Mr. Davis - To a certain extent, yes.

Mr. McGuire - If you had a skinny or fat or any kind of tower over there that took up open space, it would keep air and sunlight from coming down to where the current building is and where your building is.

Mr. Davis - But it would probably comply with the UDO because it's a very small percentage of the lot.

Mr. McGuire - And is there any definition here about how much open space there has to be? That's something that the staff is to fairly interpret?

Mr. Davis - The term is substantial and I think that's for the City Council to interpret?

Mr. McGuire - That's correct. But there is no set percentage or amount of air or otherwise.

Mr. Davis - No, it just says substantial, permanent public or private.

Mr. McGuire - Now, let me ask you a couple of things just about your space, if I may. I think this is working okay if I can show you these photographs so that folks can see them. That shows a little bit of a shadow. But, does "x" mark the spot?

Ms. Currin - Make sure that you speak in the mikes so we can get the recording.

Mr. McGuire - Does this show "x" where your condo is?

Mr. Davis - Yes.

Mr. McGuire - And does this also show that? That is your condo on the other side of those trees.

Mr. Davis - It is obscured by a tree, but yes.

Mr. McGuire - Okay. And you're not complaining about the tree cutting out your air and light, are you?

Mr. Davis - No, in the winter time I have a perfect view of the Grove Arcade.

Mr. McGuire - And is that another photo that shows your condominium behind those trees?

Mr. Davis - Yes.

Mr. McGuire - And is this photograph show "x" where the side of your condominium is?

Mr. Davis - We're in the back of the building or the north side of the building? Yes.

Mr. McGuire - Right. And what does that area look over to, the wall?

Mr. Davis - That looks over to the wall of the Haywood Park Parking Garage.

Mr. McGuire - Okay. And is this a photograph showing "x" at where about the level of that ladder goes up to where your condo is?

Mr. Davis - That's my office window to the right of the "x". Yes.

Mr. McGuire - And is this a fair view - it's actually taken from that ladder - of your view from your condo?

Mr. Davis - With the leaves on the trees, yes.

Mr. McGuire - Okay. And is this the view from your alley window, that is, you look over at a wall?

Mr. Davis - It's better than that, I think.

Mr. McGuire - Okay. But basically it looks over to the wall?

Mr. Davis - It does look at the wall.

Mr. McGuire - Now in considering open space it's also legitimate, is it not, to consider space on sidewalks?

Mr. Davis - The sidewalks that are substantially larger than the requirements.

Mr. McGuire - And that would be true of the sidewalk in front of the Grove Arcade, correct?

Mr. Davis - I don't know.

Mr. McGuire - Well you called it a public plaza?

Mr. Davis - Well, I mean it's one I think is wide at points and not wide at other points.

Mr. McGuire - Well how can it be a public plaza but not big enough to be a walkway for purposes of air and space?

Mr. Davis - If that is, it's not substantial.

Mr. McGuire - Are you being consistent on this Mr. Davis?

Mr. Davis - Of course I am.

Mr. McGuire - You want to say it's a plaza, but it's not open space.

Mr. Davis - I don't know the requirements for sidewalks.

Mr. McGuire - But it's open space and the open space definition specifically includes walkways.

Mr. Davis - That, it does.

Mr. McGuire - So it would include sidewalks.

Mr. Davis - It could include sidewalks if you look at 7-11-4 however, it restricts that to sidewalks that are substantially larger than the requirements.

Mr. McGuire - Ones that might even be called a plaza.

Mr. Davis - Correct.

Mr. McGuire - Okay. And you would have to consider not only the roof of the Grove Arcade but the open space over what you call the plaza between the Grove Arcade and this projected building.

Mr. Davis - I don't understand the question.

Mr. McGuire - Open space whether or not it includes above the Grove Arcade would certainly include the space on the larger than usual, you call, public plaza area between the Grove Arcade and where this building would be.

Mr. Davis - If those sidewalks were wider than the requirements. Substantially wider than the requirements, yes.

Mr. McGuire - Then do you dispute that they are substantially wider with the tables?

Mr. Davis - I don't know. I didn't hear Mr. Glines talk about the requirements, so I don't know.

Mr. McGuire - So you don't take any position on that.

Mr. Davis - I don't.

Mr. McGuire - And there is also open space on the north end going across Battery Park, correct? There are sidewalks over there, on both sides of that street.

Mr. Davis - There is a sidewalk on the east side of Battery - I'm sorry - you talking the north end, or what?

Mr. McGuire - Yes, of the building. Battery Park Avenue.

Mr. Davis - The north end of the building would not be on Battery Park. That's the south end of the building.

Mr. McGuire - It would be across looking over to the ... that have light next to the Grove Arcade's expanded sidewalks.

Mr. Davis - There are sidewalks over there. I don't know how wide they are.

Mr. McGuire - But you know there is dining out on them, correct?

Mr. Davis - There is, yes.

Mr. McGuire - And there is - you can walk in between the dining area and the restaurant so it's wider than a normal sidewalk.

Mr. Davis - Well there's a bump-out for dining.

Mr. McGuire - Okay and that makes it - you would call that a plaza?

Mr. Davis - No.

Mr. McGuire - Okay, ... some of the open space.

Mr. Davis - It's a sidewalk.

Mr. McGuire - Which is open space under the walkway example of open space.

Mr. Davis - Only if it's substantially larger than the requirements.

Mr. McGuire - And you have no idea whether any of these sidewalks where they have alfresco dining and so forth is substantially larger.

Mr. Davis - I don't.

Mr. McGuire - You defer to Mr. Glines on that?

Mr. Davis - I didn't hear him testify to that.

Mr. McGuire - You did hear him testify though that he considered open space to be those sidewalks?

Mr. Davis - I did.

Mr. McGuire - Okay. So we did cover that he thought those sidewalks were open space.

Mr. Davis - And he said he didn't think it was a public plaza either.

Mr. McGuire - One other question about the Grove Arcade top. You're aware that there is an agreement in place with the Historic Preservation Society that allows no further building above where it is now.

Mr. Davis - I have reviewed an easement.

Mr. McGuire - Yes.

Mr. Davis - If that's what you're talking about.

Mr. McGuire - Yes, and that easement says no further building up above the top of the building cap.

Mr. Davis - Unless it was changed. The easement restricts that, but easements can be changed.

Mr. McGuire - But it restricts it permanently, correct.

Mr. Davis - Permanent easements can be changed.

Mr. McGuire - But what we're talking about today is what open space there is today, correct?

Mr. Davis - No, we're talking permanent open space. That's the term used in the UDO.

Mr. McGuire - And, how much open space is there between where this building will be and your balcony?

Mr. Davis - I haven't measured it. And that's not open space under the definition in the UDO because it's parking.

Mr. McGuire - Is it all parking?

Mr. Davis - Yes. There's a ramp for vehicular access, which is also excluded as open space.

Mr. McGuire - So, you want to exclude some air and light because you can technically under the UDO ... open space on the other three sides.

Mr. Davis - No, I'm not trying to exclude anything. The UDO excludes it.

Mr. McGuire - That's all."

City Attorney Currin said that Mr. Glines will be cross-examined by Mr. Davis and Mr. McGuire.

Mr. McGuire wanted to make sure that what has been admitted by Mr. Glines, in terms of his report and his exhibits, is actually in evidence (City Exhibit 1 - Staff Report; City Exhibit 4 - Maps and Plans). Mr. Davis had no objection.

The following is a verbatim transcript of the cross-examination:

"Mr. Davis - Mr. Glines, how long have you been with the City of Asheville as a planner?

Mr. Glines - I've been with the City of Asheville since 1997. I was a park planner coming in.

Mr. Davis - Okay. How long have you been an urban planner?

Mr. Glines - Since, I believe the date was 2001.

Mr. Davis - Okay. Roughly 13 years. In that entire 13 years have you ever approved any open space determination based upon the space above a building?

Mr. Glines - I'm trying to remember if we've had a rooftop deck in the past.

Mr. Davis - Or have you?

Mr. Glines - We've had rooftop decks approved in the past, but in the downtown area we don't require open space, so they didn't have to meet any standard besides that they were ...

Mr. Davis - Anywhere in the City of Asheville have you approved open space which includes area above a building?

Mr. Glines - I'm thinking of some other projects. I'm thinking of the Pioneer building on Broadway. I can't remember all of the features of that plan, but they do have a rooftop open area on the top, and they also have space in front. But I can't ... which combination of space on top and which space constitutes the open space.

Mr. Davis - In other words, you don't know.

Mr. Glines - I can think of examples with the buildings developed in the City of Asheville who have rooftop spaces. Whether or not they had to meet technical standards to meet the open space I can't say right off the top of my head.

Mr. Davis - You understand when a developer counts something as open space they essentially dedicate it that way, right?

Mr. Glines - I don't know that. Yes, okay.

Mr. Davis - Well, I mean it's part of their project from there-on. They have to preserve their open space that they dedicate as part of their approval process. Right?

Mr. Glines - If it's a - yes.

Mr. Davis - And so you would know if you had approved a certain amount of open space that was space above a building.

Mr. Glines - Of the building to meet the open space? I can't recall everything that we reviewed years.

Mr. Davis - Did you receive a document request from me for any documents wherein you approved open space as a space above a building?

Mr. Glines - We have seen that. We have not had time to respond to it. It came last week, late.

Mr. Davis - It came last week, but you haven't found anything yet.

Mr. Glines - I haven't had a chance to look.

Mr. Davis - Okay. Let's go back to the types of things you said count as open space for this project. And before we do that, what do you mean by substantial.

Mr. Glines - A good amount. A good amount.

Mr. Davis - A good amount. Are we talking blocks worth? Are we talking thousands of square feet?

Mr. Glines - I think that in this case, studying this site, that you are probably in the thousands of square feet.

Mr. Davis - If you count the tops of buildings, right?

Mr. Glines - And you typically count the ground as well.

Mr. Davis - Let's go into what you said counting here. The first, let me make sure we're looking at the definitions. It might be easier to go back and do this. Let's look at the open space standards and let's start with that. It says the classes of land, enumerated in the subparagraphs below may be utilized to meet the requirements of this section. You understand that is what your UDO Sec. 7-11-4 (d) says, right?

Mr. Glines - Right. Section 11 said that.

Mr. Davis - Right. And then it goes on to say that in no case shall the following land be used for open space; land occupied by streets, drives, parking areas, required landscape buffers, or structure other than recreational structure.

Mr. Glines - I see that written there, sure.

Mr. Davis - And is that something you are familiar with in your practice?

Mr. Glines - You can find that in 7-11-4 of the open space standards of the UDO. Correct.

Mr. Davis - And you did not review this when it came to determining what substantial open space was for the proposed FIRC project?

Mr. Glines - We have considered this and reviewed it.

Mr. Davis - And you have a list of bullets in your staff report that you went through with the City Council a few moments ago and the first one was, substantial sidewalk area surround this property directly adjacent to the site and across the street. Now, are these land use for public sidewalks significantly in excess of the standard sidewalk requirements?

Mr. Glines - I believe that they are.

Mr. Davis - Which ones.

Mr. Glines - I believe that, the downtown standard for sidewalks is 10 feet for new construction and proposed and new sidewalks in all cases will be greater than 10 feet. So, I believe, we have a scaled plan, we can study the exact sidewalk in front of the building as proposed. It will be at least 11 feet. So, is one foot substantial? It's 10% more than the requirement?

Mr. Davis - 11 feet for which one are you talking about?

Mr. Glines - For the Cambria Project proposed.

Mr. Davis - The one that's required for the project itself?

Mr. Glines - Yes.

Mr. Davis - And that's not public sidewalk is it?

Mr. Glines - Oh yes.

Mr. Davis - Well it's public in the sense that.

Mr. Glines - Totally public.

Mr. Davis - The public can use it but the developer is being required to provide it as part of the project approval.

Mr. Glines - Correct, but it is a public sidewalk. And then on Battery Park Avenue, again, adjacent to the building, the sidewalks there are quite substantial. They are at least 15 feet today, and when the site is developed and approved, or developed and built. Five feet more in the downtown area - 5 feet over 10 feet, we are thrilled, I can tell you that as a planner, we're

thrilled to have 15 foot sidewalks anywhere in the downtown area. And that's substantial. In the Grove Arcade, if I can.

Mr. Davis - Let me ask you a question about that. Are those sidewalks.

Mr. McGuire - Let him finish his answer.

Mr. Davis - I was going to ask him a question about what he just said, and then he can continue.

Ms. Currin - Let him finish his answer.

Mr. Davis - Okay.

Mr. Glines - I'll be brief and I apologize. Just, in front of the Grove Arcade, that sidewalk is quite substantial. I took a tape measure out there and did measure it. And, it's 18 feet is the standard width in front of the Grove Arcade. 18 feet. And that includes the dining spaces and the wide isle and the street trees and the benches, all in that terrific public space out front. And that's not counting those dining spaces that have to be ... and some of the other spaces that have bigger bulb-outs on the corner or half way up the block there's greater spaces developed for those, for public amenity space. And that was beautiful improvements done by the Grove Arcade when the Grove Arcade was improved. As I said before, it wasn't dedicated as a plaza, but it is valuable open space.

Mr. Davis - You would consider it a plaza, wouldn't you?

Mr. Glines - I, no I don't consider it a plaza because the Grove Arcade is privately managed. It's not something, that from a public standpoint, we have control over. The Grove Arcade Foundation does.

Mr. Davis - We're going to leave that issue aside. The next bullet that you had was the combination of building step-backs which are required under the UDO for this project. That is land occupied by structures other than recreational structures, correct?

Mr. Glines - I think they're recreational structures. I think they're recreational uses.

Mr. Davis - A hotel is a recreational structure?

Mr. Glines - I think the bar and restaurant are. And I think the outdoor plaza is for the enjoyment of patrons who visit the hotel and stay there.

Mr. Davis - Is that what you would consider recreation? Public recreation in this City?

Mr. Glines - It's private recreation.

Mr. Davis - I bet I recreate some in that capacity myself, but that's not what the UDO considers open space, is it?

Mr. Glines - In this consideration I don't think it's limited that. I think that can be counted.

Mr. Davis - Even though 7-11-4 says in no case shall structures other than recreation structures be considered?

Mr. Glines - You're on top of a building. Is there any other use on top of that building? It's for recreational purposes on top. Can you not have a rooftop deck or other facility? What's a balcony? It's part of a - a balcony is part of.

Mr. Davis - Let me. I know you want to argue your point. You were meeting with Mr. McGuire before you came on for cross-examination. Was he giving you pointers about your testimony?

Mr. Glines - He certainly wasn't.

Mr. Davis - Okay, what were you discussing with Mr. McGuire?

Mr. Glines - Ms. Daniel wanted to talk about in urban settings, .. about the witness, who might be a potential witness, but an urban setting is common to use rooftop decks as open space - to meet open space requirements if you have them to meet.

Mr. Davis - Which is prohibited by 7-11-4. Correct?

Mr. Glines - I don't agree with that. I don't agree with what you're interpreting that up there.

Mr. Davis - I'm just reading words.

Ms. Currin - Let's move along. Asked and answered about 10 times.

Mr. Davis - The next bullet point. The Grove Arcade is height protected. That doesn't comply with 7-11-4. The top of the Grove Arcade.

Mr. Glines - But the definition, the basic definition starting in the beginning of the UDO ... open space means an area that is intended to provide air and light. What does that do in that

roof? Because it's not really built upon it will always provide a western view that provides air and light to everybody that's east of it.

Mr. Davis - Except for people east of the Fraga building, right?

Mr. Glines - Not everybody.

Mr. Davis - But looking at 7-11-4, you would agree that it prohibits the use of structures as open space, correct?

Mr. Glines - But if you have a rooftop deck, is that not designed as a recreational space? You don't think it is.

Mr. Davis - Is there a rooftop deck on the Grove Arcade?

Mr. Glines - I don't think so.

Mr. Davis - Now, onto the next one. The roof of the podium height at the proposed Cambria Hotel building at the third and fourth levels provides a restaurant. You say that serves as open space?

Mr. Glines - I do.

Mr. Davis - That's land occupied by structures other than recreational structures, correct?

Mr. Glines - I would say that is designed to be a recreational space.

Mr. Davis - Is that not a commercial space for the benefit of the patrons of the hotel and the people who frequent the restaurant for the profit of FIRC?

Mr. Glines - I don't think that's a restriction on ... open space. It already says it's private or public. It doesn't have to be free.

Mr. Davis - So dining is recreation in your interpretation?

Mr. Glines - It is.

Ms. Currin - Let's move on. You've asked him that many times. Let's keep going.

Mr. Davis - Sidewalks adjacent to the project site is the location for an urban trail public art piece known as "Grove's Vision." You counted that already, right? You counted the sidewalk already?

Mr. Glines - Yes, but that sidewalk also has a public art component which is part of an urban space amenity.

Mr. Davis - Are you going to count it twice?

Mr. Glines - I'm counting it as a feature that adds to the consideration of that area beginning substantially providing urban open space amenities.

Mr. Davis - The term is substantial open space, I believe. So does that add to the open space?

Mr. Glines - I think it's a special corner and I think we don't have it in every corner. And actually it might be in a bulb-out section of the street section.

Mr. Davis - And then you're next bullet is café spaces along Battery Park Avenue and Page Avenue. You counted those already too, right?

Mr. Glines - If they're open space amenities. So we're making a point of how this area, altogether - there's trees, benches, wider sidewalks, pedestrian crosswalks, wayfinding signage, signage put in for the ... all contribute to open space type of designation.

Mr. Davis - You counted it already. Yes or no.

Mr. Glines - I don't know what you're saying - counted, because I'm not coming up with a number. Are you? I'm not coming up with a number.

Mr. Davis - I'm asking you if you have. I mean, I asked you what substantial was. Are you counting that as substantial an area?

Mr. Glines - If it's a meaningful area, absolutely.

Mr. Davis - Does it add to the substantiality of the area, meaning the area - the square footage of open space.

Mr. Glines - It adds to the usefulness of the area.

Mr. Davis - You counted it all ready as square footage then?

Mr. Glines - I didn't count square footage.

Mr. Davis - Okay. Street trees, wide pedestrian crossings, benches, surrounding landscaping - you counted that already right?

Mr. Glines - Counted or considered it? I think it. I think it.

Mr. Davis - It's replicatitive of the bullet you already had that dealt with the sidewalks.

Mr. Glines - I think it's illustrative of what an urban open space setting should have and that's what our expectation is, which I think is what is provided on the property.

Mr. Davis - It's not adding to the area. You already took that into account.

Mr. Glines - ... additional air - those are air shared spaces for it.

Mr. Davis - The height of the 8th story deck, which is a deck for hotel guests with rooms adjacent to it. You considered that open space too, didn't you?

Mr. Glines - I did.

Mr. Davis - That's land occupied by structures other than recreational structures? Is a hotel a recreational structure?

Mr. Glines - The deck is when it's adjacent to the room. A balcony is when it's adjacent to the room, isn't it?

Mr. Davis - Wouldn't any developer love to have you interpret the UDO this way ...?

Ms. Currin - Please just ask him questions and let's move along.

Mr. Davis - I mean you're setting a precedent here, Mr. Glines. Is this a precedent you think should be set for the City?

Mr. Glines - In the downtown area it's a special environment. The open space is not required to even be on the same site, which is unusual. All over this Section 7-11-4 is expecting it all to be provided on site. In the downtown area, we have special districts where it doesn't have to do that. It can, but it doesn't have to in order to meet the standards. So this is why all the other things are important factors in considering viable useful urban open space in an urban environment. That's the thing we've been trying to create in the downtown area. A viable urban space that has spaces up above and below.

Mr. Davis - Would you like to answer my question please?

Mr. Glines - In the Downtown Master Plan, we talk about vista parks. How do we get more vista parks? This is a goal in the Master Plan. This is kinda how we do it. We're going into the direction of rooftop decks - it's a great thing. It adds to the recreational use.

Mr. Davis - Mr. Glines, you gave this developer a 25% bonus for the open space that you considered to be substantial. Is that a precedent that is being set with this hearing?

Mr. Glines - I think each case.

Ms. Currin - Let me interject. He is not. You're at this hearing to ask this Council to give that bonus. He is not giving the bonus.

Mr. Davis - I withdraw that question. You have another bullet that is your last one that says, by definition the floor plate requirement of the hotel tower above 75 feet is limited to 50% of the lot area under your determination. Then, the other negative space in the same area is open and not built upon above that level. Well, it is built upon, correct? It will be built upon.

Mr. Glines - Not above the level of 75 feet.

Mr. Davis - Okay, but it's not open space because it is land other than recreation structures. I mean, it's not open space but.

Mr. Glines - It's an area of a void, it's a void ...

Mr. Davis - How about building.

Mr. Glines - That supplies what happens with that space - the gap. There's a gap. Mr. Fraga is designing a gap at the podium height. And that gap is open space. It means areas intended to provide light and air. What else would that purpose be for? You can't occupy it but you can enjoy it. It has a lot of scenic quality.

Mr. Davis - It does not meet the definition of open space in the UDO, correct?

Mr. Glines - I believe it could.

Mr. Davis - The entire 50% that is not the tower is now a structure.

Mr. Glines - It's ...

Mr. Davis - Could you let me finish my question?

Mr. Currin - Alright. Let's question and answer and wrap it up because you've asked him the same thing many times. Let's just get it done.

Mr. Davis - I'm getting ... he has presented to you for the first time at this Council meeting. 7-11-4 says that you - in no case shall structures, other than recreational structures be used as open space. This 50% that you're counting again for the FIRC property is a structure other than a recreational structure, correct?

Mr. Glines - It's above areas. It's above areas that will be used in ways that have a recreational component to them. They're for balconies and decks.

Mr. Davis - So, you're going to count that again. You've already counted the balconies and decks.

Mr. Glines - I'm not counting them again.

Mr. Davis - Okay. You've got all these bullet points, but really you're counting the tops of buildings and sidewalks, correct?

Mr. Glines - Yes.

Mr. Davis - And, one thing that I want to clarify too, is the approval from the Planning & Zoning Commission, your staff report and the staff report, I think, for the City Council says that there was a traffic study done for traffic on Battery Park. I'm sorry, on Page Avenue. That traffic study was not in your file. Have you reviewed one?

Mr. Glines - I personally have not reviewed one, and I'll have to look at that note to confirm. To make sure that's ...

Mr. Davis - And one final thing, this,

Mr. Glines - If I might could say that the traffic studies are reviewed by the Transportation Department - the City Engineer.

Mr. Davis - Okay. Now this shadow study that was done that you referred to, you didn't present that today, did you?

Mr. Glines - I did not.

Mr. Davis - And, it only arrived in your office May 6, correct?

Mr. Glines - I don't remember the date, but I could accept that ...

Mr. Davis - And you didn't review it to determine if it was a valid study, did you?

Mr. Glines - I did review it to determine it was a valid study.

Mr. Davis - And how did you do that?

Mr. Glines - I reviewed the incremental images based on point in time information provided ...

Ms. Currin - I think that probably, Mr. McGuire is that going to be presented by your, in your presentation?

Mr. McGuire - Although it really hasn't been made an issue ..

Mr. Davis - I'll withdraw that question, except for. What you're saying is that you just reviewed the images they provided to you, correct?

Mr. Glines - Correct.

Mr. Davis - Okay, that's all I have."

Councilman Bothwell said that according to the presentation heard, the proposed square footage of the tower represent 55% of the surveyed area. Where those numbers on the plans correct? Mr. Glines said they identified early in the staff report that there is a corner parcel that was not originally included in the survey and it wasn't registered by Buncombe County. He said it was his understanding that it was just below 50%.

The following is a verbatim transcript of the cross-examination:

"Mr. McGuire - Mr. Glines, did your answer just explain why there is no question about this project being under subsection (c) rather than (b)?

Mr. Glines - Yes.

Mr. McGuire - Okay. By the way, you said you were a park planner for a number of years?

Mr. Glines - Yes.

Mr. McGuire - On the day when we are celebrating Pritchard Park, who designed Prichard Park, the current Pritchard Park?

Mr. Glines - I had a lot to do with that.

Mr. McGuire - Okay, thank you. Now, in terms of the open space, you were asked if you considered open space above a building. Have you had any building like the Grove Arcade where there was a permanent easement allowing nothing to be built above that air space?

Mr. Glines - I haven't. I can't think of another example.

Mr. McGuire - And is that important that ... if you could consider open space above a building if the air space is permanently protected?

Mr. Glines - I think it's substantial information and quite an unusual situation.

Mr. McGuire - Now, you've actually, you've talked about giving a bonus to Mr. Fraga. You approached this on behalf of the City?

Mr. Glines - Yes.

Mr. McGuire - And in fact you've added requirements to this project, I believe, having to do with the north, south side, sorry, setback?

Mr. Glines - Yes.

Mr. McGuire - Alright. And you've changed the project because you thought it needed to be done so with the UDO.

Mr. Glines - That's correct.

Mr. McGuire - But now, with those changes that have been made, you say this project fully complies with the UDO.

Mr. Davis - ... question. I think it's beyond cross, it's friendly cross.

Ms. Currin - Well, you asked him a lot of questions about whether it complied with the UDO or whether it didn't, so I think he can follow-up with that. If you want to call him as a witness, I think you can do that as well. But we might as well, I think - do you want to use him as a substantive witness as well?

Mr. McGuire - No. Could you please put that standard up, so we can see it again?

Mr. Glines - The definition?

Mr. McGuire - Okay. Now you've heard Mr. Davis say that within an ordinance or a law the same phrase can mean something different in different places?

Mr. Glines - Right.

Mr. McGuire - Is that true of open space standards?

Mr. Glines - I think so in this case.

Mr. McGuire - And, in fact, this standard is more restrictive because it relates to actually designating something as open space. Is that correct?

Mr. Glines - Correct.

Mr. McGuire - Whereas, the standard of open space for the purposes of this project, it doesn't have to be designated, it just has to be considered?

Mr. Glines - That's correct.

Mr. McGuire - So, would you apply this more restrictive standard for an open space designation to the project at issue?

Mr. Glines - No.

Mr. McGuire - Okay. And you say that the patio or deck on the side of this project would be used for recreational purposes?

Mr. Glines - I feel that's recreational purposes.

Mr. McGuire - And you feel that dining out is a recreational purpose?

Mr. Glines - I think it is. Especially in downtown Asheville.

Mr. McGuire - And if you put aside, completely put aside the Grove Arcade and the top of that space that is permanently dedicated to be open - if you put that aside, do you still think there is sufficient open space?

Mr. Glines - I think that, yes. And I think that most areas of downtown would love to have the sidewalk configurations and opportunities for the streetscape that we have at the Grove Arcade and surrounding areas. We are working towards that. That's really a model, it's really a model for downtown is to have the wider sidewalks. We're working on it all the time. Every project we get we try to assure that we're getting minimal, but trying to get more. So, I think it's a model for downtown.

Mr. McGuire - And so, taking out the top of the Grove Arcade, which was one of the nine examples of open space - the other eight are sufficient you feel to look at this and make that consideration and approve the project?

Mr. Glines - I do.

Mr. McGuire - Thank you."

When Vice-Mayor Hunt asked if there is any permanency of open space, Mr. Glines said that the City's most permanent open spaces are street rights-of-way. The City has converted pavement to increase sidewalk space. He used the example of Pritchard Park where the sidewalk along College Street was doubled to 17 feet to increase the open space.

Vice-Mayor Hunt clarified that in Section 7-2-5, the open space requirement definition provides guidance of some examples of open space, but it also uses the phrase that "open space may include, but is not limited to." Mr. Glines said that this is in the unique context of downtown. This is helpful from looking at the general expression of open space and the intent in downtown based on reading the Downtown Master Plan. The purpose of all those extra regulations to restrict development in the downtown area to make sure we had plenty of areas that were not built upon above 75 feet. All projects are studied on a case by case basis.

When Councilman Bothwell questioned the square footage again, Mr. Jeff Hunter, architect for the developer, said that the inconsistency of the square footage is because there are some cut-outs from the dimension in the overall plan.

Councilwoman Wisler asked Mr. Glines if when he looks at evaluating substantial open space, was he looking at the definition in Sec. 7-2-5, and not Sec. 7-11-4, and that would be consistent with what you have considered in the past with downtown properties. Mr. Glines replied yes, for downtown projects, Section 7-2-5 is where he would look.

When Councilman Pelly asked if open space needs to be publicly accessible, Mr. Glines said no, that on the sidewalk level, the public could go to the space, that's true. The test says public or private open space. There is the assumption that you could have a private balcony or deck that no one else could use, such as the hotel guests who have a balcony for their own purpose. If someone wanted to go to the restaurant but not spend money they could enjoy the space, and that would be considered open space. The Downtown Master Plan was trying to get at vista parks, and encouraged rooftop vista parks. That Code did not give us a lot of direction on whether it has to be free, but even if you go to the top of the Empire State Building you're paying for it - it's public but there is a fee.

Councilman Bothwell suggested that in the future the word "substantial" be defined.

Mr. Davis asked Mr. Glines "Let's assume this developer is entitled to use the rooftop of the Grove Arcade as open space as you proposed. Let's say the next developer wants to build a tower on the other side of the Grove Arcade, on the western side of it. Can they use the same open space, the same rooftop as open space? Mr. Glines replied "I think we would study the context of that." Mr. Davis said "Can you answer yes or no." Mr. Glines said "I think it would count. If it were on the west side and they were developing on the west side and they were surrounded on the other side." Mr. Davis said "Using the same open space." Mr. Glines said "The Grove Arcade is useful open space if you're on the west side or east side because the sun is gong to reach your building." Mr. Davis said "The north side or the south side. You can totally surround the Grove Arcade with towers using your definition of open space." Mr. Glines said "The north side already has a tower, so I don't think." Mr. Davis said "The south side." Mr. Glines said "The south side has a City building and I don't know if we have any plans for that." Mr. Davis said "Theoretically you could do that under your definition of open space." Mr. Glines said "I think it's surrounded by."

Vice-Mayor Hunt asked Mr. Glines if there was a green, pristine public park on the side of the Grove Arcade, would it be the intent of the ordinance that that would qualify as open space for any buildings that surrounded it. Mr. Glines replied yes.

At 8:08 p.m., Councilman Smith moved to suspend the hearing for a break. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

Closed Session

At 8:08 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(3). The statutory authorization is contained in N.. G. S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Roger S. Aly; City of Asheville. The statutory authorization is contained in G.S. 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in G.S. 143-318.11(a)(5). This motion was seconded by Councilman Pelly and carried unanimously.

At 8:35 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

At 8:35 p.m., Vice-Mayor Hunt announced that the hearing would proceed.

Mr. Davis said that he has one witness, Mr. Gerald Green, and submitted Mr. Green's resume as Appellant Exhibit 13.

The following is a verbatim transcript of Mr. Green's testimony:

"Mr. Davis - Mr. Green, you state your qualifications please.

Mr. Green - I have a Masters Degree in Planning from the University of Tennessee and I've been fortunate enough to spend the 30 years since I received that degree planning in western North Carolina. I was Planning Director for the City of Brevard in Transylvania County five years. Worked for the City of Asheville 14 years, 5 years as Chief Planner, and for better or for worse, I was the lead author on the UDO. Then I went into private practice for a little over 8 years, with projects by my firm receiving honors of outstanding planning awards from the NCAPA. For the past three years I've been Planning Director for Jackson County, North Carolina.

Mr. Davis - So you're currently serving as Planning Director, is that correct?

Mr. Green - That's correct.

Mr. Davis - Does that include urban planning as well?

Mr. Green - We do the urban planning for the County and the four municipalities in Jackson County.

Mr. Davis - And when you were with the City of Asheville, you would be involved in urban planning?

Mr. Green - Yes.

Mr. Davis - Now, you have testimony that you would like to present that concerns primarily the issue of the UDO requirement for floor plate area?

Mr. Green - Yes. And I'll start by saying it's an honor being back in this room before you. I regret that some of my friends, Lou Bissette I've known for 25 years and have the utmost respect for, Craig Madison, and even my friends and colleagues Alan and Judy. I regret being with a different opinion this time, but I hope this shows that.

Ms. Currin - Let me interrupt for a second. If he's giving an opinion, are you tendering him as an expert witness?

Mr. Davis - I am, yes. And, again not knowing what procedure you wanted to use in court, sometimes in court, in Federal Court, you question the witness about his qualifications and there's no objection if he becomes an expert.

Ms. Currin - Well, what I think we need to do before we get an opinion.

Mr. Green - I'll regret that statement.

Ms. Currin - Is he going to testify and give his expert opinion, or is he going to testify about facts?

Mr. Davis - He's going to give his expert opinion.

Ms. Currin - Okay. What area are you going to qualify him as an expert in?

Mr. Davis - He's an expert in urban planning.

Ms. Currin - Okay, why don't you go ahead and go through that process first so we can know whether he's qualified, so whether we can know he can testify.

Mr. McGuire - We can stipulate that ... is an expert.

Ms. Currin - Alright. It's been stipulated. Are you tendering him as an expert?

Mr. Davis - Who am I tendering him to?

Ms. Currin - The Council.

Mr. Davis - Yes, I am.

Ms. Currin - Okay. Alright. Then he's accepted. Alright. Let's go on.

Mr. Green - Thank you. I'd like to start by clarifying how the UDO works. The definition in Section 7.2.5 of open space, which has been discussed at length here this evening, is used as the opening arena for the discussion of open space. It sets a general standard. Then the standards within 7-11-4 for open space are the more specific standards that apply to the application of those standards and those regulations throughout the City. Now with the incorporation of urban open space, all of 7-11-4 should be looked at as a whole. So the standard you see here do apply. One of the challenges we have in here this evening, is the lack of clarity in some of those standards. The reason that it appears to be a lack of clarify is that some of the people, witnesses, here this evening have taken one section of 7-11-4 and asked you to consider that, without considering all of 7-11-4. Some of the issues that are important to consider as set forth in 7-11-4 include what the open space purpose - it's to meet the recreational needs of residents including, excuse me, improving the aesthetic character of the community, reducing stormwater runoff, and enhancing air quality. Because you think about what is being considered as open space here, remember what those purposes are. Those are in 7-11-4 and dictate the type of properties and areas that should be considered open space. 7-11-4, or 7-11-4 (d) stipulates the types of areas that could be considered for open space. And this applies to all types of open space set forth in 7-11-4. You can't pull one section out from another and not include the entirety. It states that in no case shall the following land be used for open space - land occupied by streets, drives, parking areas, or structures other than recreational structures, and land with a minimum width of less than 24 feet unless part of a greenway system. And that, that again sets some pretty specific standards for open space. That must be considered as you are considering what properties are considered as open space. There is an interesting provision in 7-11-4 that 7-11-4 (f) maintenance that states that the owner or lessee of the property designated as the open space shall be responsible for the maintenance of the open space. We've heard here this evening of a lot of different areas being considered as open space and I would argue in this case that if something is considered open space and there is a requirement for open space to be provided and returned, in this case a bonus, then that land or that area is being designated as open space for the purpose of this project. Who will be responsible for maintaining the area over the Grove Arcade? Are the owners of the Grove Arcade going to be charged with maintaining that for the benefit of the proposed development? Are the sidewalks to be maintained by the taxpayers of Asheville for the benefit of this development? These are questions that come up in considering this. Again, due to the lack of clarity of the standards that have been put into the UDO to deal with urban open space. Some issues with the staff interpretation of open space is considered for this project include a question and a guiding principle, for me, has been that when there is a significant private benefit for a project, increasing the floor plate by 25% is a significant private benefit, there should be a commensurate public benefit to offset that private benefit. I don't know where, I have not been able to find where that public benefit is in this case. Why are we giving them 25% more in the floor plate. I can't answer that question. Is there a public benefit there? And that's just a guiding principle in my terms of this. And the location of open space has not been clearly defined. We've heard that it's the street or sidewalk in front of the Grove Arcade, it's the air space over the Grove Arcade, it's the 50 feet between the 21 Battery Park and the proposed development. For clarity, it would be good to have some type of graphics showing where those open spaces are and how they apply to this

development. Will this open space - once it's identified for this project, and this question was raised by someone else, will it be available for some other project? Can we have the same space used over and over again as open space for other projects. That question was not answered. These are significant questions that now you have to answer as part of this project. The use of public spaces, including sidewalks as open space for the project, has to be based upon a finding that the sidewalk is significantly and excess of the standard sidewalk requirements. There's been an argument here that the wider sidewalks are significantly in excess of the standards. I apologize to the attorneys in the room, but significant, substantial which are two words which have been repeated over and over again here, are fodder for attorneys. And that's what we have - that's what we're having here tonight. A battle among attorneys. Because subjective terms like significant and substantial were used. A guiding principle that another attorney told me while I was working for the City of Asheville was be clear and concise and let the developer know what you want. When you say significant and substantial, that's anyone's interpretation. Depending on who's before you at that time. The use of air space over the proposed building as open space is a question to me and I'm not sure it goes back to this rule here and complies with that or the definition of open space in Section 7-2-5, but there's been enough discussion of that and I won't go into that further other than to raise that question. Counting the street trees, the wider sidewalks relates back to the question of maintenance of those facilities. That the 7-11-4 (f) says that the owner of those have to maintain them as open space for the benefit of this project. Again, is that what you want in this case. I have a big question about the setback of 21 Battery Park - the 50 foot, being used as open space. The standards in 7-11-4 clearly state that the areas used for parking and drives cannot be used as open space. In this case, the interpretation has been made that that is open space because it provides light and air. I think that's quite a leap and if that determination is made, how long before the parking lot at the Asheville Mall is determined to be open space for some development. I think we need clarify and more consistency and more direction with these standards than we have, so that the developer is not faced with these types of challenges and you're not faced with these types of challenges. Counting negative space above 75 feet as open space also fails to meet the purpose of the open space standards. Again, this is the area, the blank or negative space above that 75 foot section of the proposed development. At this hour, I'll try to be quick. I've spent enough long hours in this building so I won't go much further. In summary, in closing I just want to say I think there has been a misinterpretation of the open space standards with regard to this project. The impact on the adjacent properties has not been fully considered with this. The implications for future developments, you're setting a precedent here tonight with your decision. I don't think that the standards are clear enough for you to set that precedent. This project should be put on hold or denied until these inconsistencies, lack of clarity is addressed with better standards in the ordinance that don't conflict with the provisions in the same section of the ordinance. That's all I had.

Mr. Davis - I have a follow-up question on the record. I'm going to refer you, Mr. Green, to you.

Ms. Currin - You might want to talk in the mike.

Mr. Davis - I'm sorry, thank you. Refer you to Exhibit 2, which is 7-8-18 of the UDO, and this particular section deals with the floor plate area that you're familiar with - we've talked about that. And, let me ask, first of all, if (a) or (b) apply of that section, what would the floor plate be restricted to?

Mr. McGuire - Objection. ...

Mr. Davis - As long as you agree to 8,000 square feet.

Ms. Currin - I don't believe anybody's asking to trigger (a) or (b).

Mr. Davis - I know that, but if (a) or (b) applied, what would it be.

Mr. Green - It would be 8,000.

Mr. Davis - And since they used (c) how many square feet are they asking for?

Mr. Green - 50% of the total floor, or land area - 10,500. 10,015.

Mr. Davis - In your opinion, is the tower over 75 feet at the proposed development surrounded by substantial permanent public or private open space that allows for views and access to direct sunlight?

Mr. Green - No.

Mr. Davis - Thank you.
Ms. Currin - Okay, Mr. McGuire.
Mr. McGuire - Mr. Green, you worked with Mr. Glines and Ms. Daniels?
Mr. Green - Yes, I worked for the City with Mr. Glines. And, Ms. Daniels came to the City after..
Mr. McGuire - And they're experts in this as well as you?
Mr. Green - Yes.
Mr. McGuire - There's no question about that. Now you left well before the Master Plan that we're talking about here today got developed?
Mr. Green - That's correct. I attended some of the meetings.
Mr. McGuire - But you didn't have anything to do with writing or revising like Mr. Glines did.
Mr. Green - No, sir.
Mr. McGuire - And in terms of open space, would you think it's fair to say that the difference between open space where you work in Jackson County and in downtown Asheville is.
Mr. Green - Definitely yes.
Mr. McGuire - Now on the floor plate standard again, sorry, is anyone asking that open space be designated in this hearing today? Is that even an issue before the City Council?
Mr. Green - It's an issue because based on that open space provision of open space, the developer is able to exceed what would be the maximum floor plate.
Mr. McGuire - I got that, but in terms of this code about open space standards, nothing is to be designated or not here tonight, is it?
Mr. Green - The requirement is that open space be provided to.
Mr. McGuire - I got that, but nothing is to be designated when it says.
Mr. Green - I would argue that by providing and getting that private benefit that open space is being designated. It's being identified. It's being attached to this project, and in my opinion, that is designating it as open space.
Mr. McGuire - Okay. And, you're big complaint is that the standards are not clear.
Mr. Green - They're not clear.
Mr. McGuire - And do you think a developer should wait until - this is the first time this has come before City Council, right.
Mr. Green - Yes.
Mr. McGuire - And, when you look at this standard for open space designation it actually discounts landscape buffers, right?
Mr. Green - That's correct.
Mr. McGuire - Would woods be a landscape buffer?
Mr. Green - Only if they are required as part of the project and they are shown on the plan as the buffer for that.
Mr. McGuire - But the other definition of open space allows wooded areas to be included.
Mr. Green - The one in 7.
Mr. McGuire - Yes, the one where before the Council tonight actually allows wooded areas is .
Mr. Green - Both of these are before the Council tonight. As I stated earlier, that definition 7-2-5 sets the first level of what can be considered. These standards in 7-11-4 further refine that.
Mr. McGuire - So you don't consider the fact that the definition that Mr. Glines considered allows decorative planting and wooded areas, but this open space designation definition excludes landscape buffers.
Mr. Green - There's a difference between the two.
Mr. McGuire - Exactly. That would be all.
Mr. Green - Okay, thank you."

Mr. Davis said that Mr. Green was his last witness.

The following is a verbatim transcript of Ms. Judy Daniels' testimony:

Mr. McGuire - You would please introduce yourself?

Ms. Currin - Could you ask her the questions in the mike? Sorry, I just don't want to have a bad recording.

Mr. McGuire - Could you please introduce yourself?

Ms. Daniels - Yes, I'm the Planning Director for the City of Asheville.

Mr. McGuire - And how long have you been in that position.

Ms. Daniels - 6 years.

Mr. McGuire - And what are your, I'll short-circuit it because Mr. Green acknowledged that you were an expert as well, but what is your background and where have you worked, opposed to Jackson County.

Ms. Daniels - Well, I have been in urban planning for over 30 years. Went to the University of Memphis. I came to the City of Asheville from Montgomery County, Maryland. The last 5 years I was there I was the lead of the planning group for Bethesda, North Bethesda, Chevy Chase area - very urban area of Montgomery County.

Mr. McGuire - Okay, we would ask that Ms. Daniels be designated an expert in land use planning.

Mr. Davis - No objection.

Ms. Currin - Okay, then we'll accept her as an expert.

Mr. McGuire - Thank you. Now, Ms. Daniels, the report that was presented to City Council that each Council person has reviewed, Mr. Glines prepared it, but was it actually from you?

Ms. Daniels - It is officially from the Planning Director, and of course, I review every report, and edit them, and make sure they are correct and sufficient.

Mr. McGuire - And does Mr. Glines report to you?

Ms. Daniels - Yes, yes he does.

Mr. McGuire - And, when he gave you his earlier report and it discussed open space, tell the Council on how you looked at that from your background in urban planning.

Ms. Daniels - Well, both from my background and from my knowledge of the Downtown Master Plan, which was adopted while I was here and I worked with Alan on adopting the standards that came before the Council, in my background and knowledge before coming here, the common definition of open space in an urban setting is pertaining to the light and air and not own property not designated as public or private - it's all geared around creating light and air in an urban setting. An example might be the Grove Arcade with the air rights, I mean that have been sold, the whole concept of transferring development rights off of buildings, is to protect light and air for urban dwellers. And, it can be considered by any normal definition in perpetuity. New York City pioneered this for that particular purpose.

Mr. McGuire - So you've had experience in looking at whether the top of a building could be considered as open space?

Ms. Daniels - That is commonly done in an urban setting. We approved numerous buildings in Bethesda and Chevy Chase with that type of designation.

Mr. McGuire - And, is my assumption correct, Bethesda is more urban at this point than Asheville is?

Ms. Daniels - Quite.

Mr. McGuire - So it's been ahead of us in terms of looking at open space.

Ms. Daniels - Yes, I think it's worth knowing that the consultants who worked with us on the Master Plan are from Boston. They are used to working in an urban setting. Asheville wanted an urban oriented Master Plan. You need to have this broader definition of open space in order to build an urban environment. You can't build a city and not have built environments that provide light and air, not just trees and grass. We've got to have the trees and grass - that's good too. But this stepping back buildings, all the elements that are in the UDO now that relate to this are - it first says you are not required to have open space, but if you go up and you're stepping back and you meet this floor plate, then you need to be surrounded by things that provide light and air to the urban residents and visitors, but they are not designated in the sense of being land.

Mr. McGuire - So, would you say that this definition is how Council should be guided or not?

Ms. Daniels - Our estimation is that it's not the guideline. Our first line is in the UDO where we have the definition that - such as, but not limited to, and we have the light and air knowledge and then we go to the section related to the downtown Central Business District and Alan went through the list that pertain to that. There is no hard and fast standard. It would be rather hard to do that, and that is not a common practice.

Mr. McGuire - So the open space that Mr. Glines considered has the not limited to.

Ms. Daniels - Yes.

Mr. McGuire - This open space definition for designation is very restrictive.

Ms. Daniels - It's more of a suburban standard.

Mr. McGuire - And is the issue of designating open space before us in anyway tonight?

Ms. Daniels - Well, to me we have fulfilled the requirement of the UDO in addressing, in our staff report, how the step-back tower and the open areas provide the light and air required in the UDO. And recreational spaces.

Mr. McGuire - Now, what of any correlation is there between requiring or having that available to be considered by the Planning Department, with having a setback or a step-back requirement?

Ms. Daniels - The building is step-back in order to increase the light and air around it. The recreational facilities provided, again, open up - or within that urban designation of open space that can be public or private. The public can access it and as we were pointing out - perhaps you can just sit up there, or perhaps you need to order a glass of iced tea or something. But it is accessible for the public. More than that, it provides those recreational opportunities collectively that are part of an urban environment.

Mr. McGuire - So you would find this passive recreation within the definition of open space?

Ms. Daniels - Yes.

Mr. McGuire - And.

Ms. Daniels - And that's not a swimming pool, I think that's just a pond so it's not going to be active.

Mr. McGuire - Right, but it's very fair to consider all of these levels as open space.

Ms. Daniels - Correct, yes.

Mr. McGuire - And, you heard Mr. Glines say that even if you didn't count the top of the Grove Arcade, which you think is open space, but if you didn't' count that the other open space spaces, and we had 8 other including the sidewalks and the step-backs, would you consider all of those the valid ...

Ms. Daniels - I would. I consider the Grove Arcade to be icing on the cake. Again, the height of a building would not - the fact that it's a two story building would not count. That it is a building with it's air rights sold, does make it an important thing to consider.

Mr. McGuire - And is that something you've seen in city urban planning?

Ms. Daniels - Yes. That's why people sell air rights to create permanent light and air-type open space. Sometimes they may have a deck on top. Sometimes they may not.

Mr. McGuire - That would be all the questions."

The following is the verbatim testimony of cross-examination of Ms. Daniels:

"Mr. Davis - Let's keep this up for just a minute. Ms. Daniels, you said that you get your definition of open space from your experience in Maryland or other large cities, right?

Ms. Daniels - No, I got it from the UDO.

Mr. Davis - Well, they have a different definition of open space in some of those cities, correct?

Ms. Daniels - I was going by our definition of open space and I was going by what is in the UDO that was added to it with the Downtown Master Plan, and I was collectively looking at it in terms of how open space is interpreted in urban environments.

Mr. Davis - But the definition you're pointing out does not specifically allow for open space to be built upon land, does it?

Ms. Daniels - It's ... What we went with, which is our standard is a collective - the combination of the definition of open space in the definition section applied in the CBD which

talks about stepping back from the floor plate and going up and then you have to be surrounded by the open areas - I don't have that in front of me - Excuse me. Okay, Central Business District is exempt from open space requirements. The provision before a plate of the tower to reach 50% relies on a finding of being surrounded by substantial permanent public and private open space. Public and private open space can be a number of things as noted in the open space requirements of Section 7-2-5 which is an area intended to provide light and air. It may include, but not limited to, etc.

Mr. Davis - My questions is, no where in there does it mention the space above a built environment.

Ms. Daniels - I don't think that is at issue.

Mr. Davis - Well, Mr. Glines has counted several spaces above buildings as open space.

Ms. Daniels - I think we are counting open spaces as areas that provide light and air and that include, are not limited to these things and what we are including is that sort of space, sidewalk space, the light and air provided by the transfer of the air rights above the Grove Arcade, the collective list that Mr. Glines had in his report.

Mr. Davis - So you would agree with all of his bullets they add to open space.

Ms. Daniels - I agree with all of his bullets in his report.

Mr. Davis - And, as high as you want to go. I mean you can go hundreds of feet in the air and consider that substantial open space.

Ms. Daniels - In this case, for this building, this is what we considered open space.

Mr. Davis - Parking area as open space?

Ms. Daniels - That is clearly not something we need to include. We had a list of what we did include that is pertinent to this project.

Mr. Davis - And you would read out of existence the definition of open space or the further refinements to the definition in Section 7-11-4.

Ms. Daniels - I think 7-11-4 relates more to suburban settings. We have a definition that says open space is an area intended to provide light and air. It may include, but it's not limited to, then we have the guidance in the CBD standards, which says that open space - let's see - surrounded by substantial permanent public and private open space. We consider that open space. It's accessible to the public. We considered the sidewalks accessible to the public. They are providing light and air and recreational opportunities, passive in nature, sitting and enjoying, and for the surrounding buildings having light and air - access to them - that is an urban standard.

Mr. Davis - I understand that is how you are considering it. But it's not reflected in the UDO.

Ms. Daniels - It's not the way you interpret the UDO.

Mr. Davis - It's not written in the UDO.

Ms. Daniels - It's not the way you interpret. The zoning law is subject to interpretation, as I think you said.

Mr. Davis - We understand that, but there is nothing in the UDO that says you can use the area above a building for open space.

Ms. Daniels - There's nothing in the way that you interpret the UDO. We interpret it differently.

Mr. Davis - Okay. I think ultimately the City Council should ...

Ms. Daniels - Absolutely.

Mr. Davis - Just a final thing in terms of a question I asked Mr. Glines. Since you've been at the City of Asheville, you have never used the area above a building for open space.

Ms. Daniels - The City of Asheville has not had many building built until recently. We've been in a recession.

Mr. Davis - Is the answer yes or no.

Ms. Daniels - I am not familiar with every building that's been built in the City. This is the first tall building that has been approved since this UDO, this Master Plan has been adopted. I cannot answer to the past.

Mr. Davis - Any use of the work open space.

Ms. Daniels - We would have to do more research and I am told that the only received this request a week or so ago and we haven't had time to fulfill your request.

Mr. Davis - I'm asking you as the person who approves all the planning reports that come out of your office.

Ms. Daniels - I have been approving planning reports for 6 years and in my experience that I have been here, there haven't been any proposed.

Mr. Davis - There's been no proposed open space one way or the other?

Ms. Daniels - There's been no - that I recall, and you are asking me to recall a body of work or Mr. Glines to recall an extensive body of work on the floor without having the opportunity to do our research.

Mr. Davis - Well, I'm not asking you to do anything, other than answer my question.

Ms. Daniels - You're asking us to recall information we have not had time to research.

Mr. Davis - Okay. But as you stand here today, you are not aware of any.

Ms. Currin - She's answered. She doesn't have the opportunity - She doesn't know on the top of her head I think is her answer.

Ms. Daniels - Correct.

Mr. Davis - Okay, thank you very much."

Mr. McGuire said that he had no further witnesses. He did say that he had the architect here and he felt the issues have been narrowed down to the open space question. But if there are any other questions, other than relate to that, which he felt has been covered adequately, the architects are here and are available to answer questions.

Mr. Mark Mucci, with Minds Eye Architecture in Charlotte North Carolina and architect for the project, spoke in support of the project.

When Councilman Pelly asked if Mr. Mucci has used this a way of fulfilling open space requirements in other cities, Mr. Mucci has not personally used it, but he does have a Masters Degree in Architecture and did extensive studies in urban design and know that it is a common practice in urban environments.

In response to Councilman Davis, Mr. Mucci reiterated that the inconsistency of the square footage is because there are some cut-outs from the dimension in the overall floor plate and confirmed that we are dealing with 50% floor plate.

The following is a verbatim transcript of the cross-examination of Mr. Mucci:

Mr. Davis - I'm sorry, I missed your name, sir.

Mr. Mucci - Mark Mucci.

Mr. Davis - Mr. Mucci, you just testified that this was subject to the 50% floor plate requirement for the limitation of the floor plate area, is that right?

Mr. Mucci - Yes, as approved by.

Mr. Davis - And that's only because of the open space. That's only if substantial open space is provided that you get to that 50%, correct?

Mr. Mucci - That's my understanding.

Mr. Davis - And if it weren't for that substantial open space, which we are asking the Council to make a finding on tonight, it would be restricted to 8,000 square feet, right?

Mr. Mucci - I believe that's correct.

Mr. Davis - And that's the bonus that we've been talking about. Your clients getting an extra 2,000 square feet of floor plate area as the result of providing, in a way we've discussed all night, substantial open space, right?

Mr. Mucci - On individual floors, that's correct.

Mr. Davis - Above 75 feet. The tower.

Mr. Mucci - That's correct.

Mr. Davis - Now, it is feasible to reduce the width of the tower from it's current width of 140 feet to 100 feet, correct?

Mr. Mucci - Yes.

Mr. Davis - And you could go higher than you are currently being allowed to go at 132 feet, correct?

Mr. Mucci - That's not economically feasible though. The structure system that we're using is limited to 8 floors above the podium. And if we increase the height of the building, we would increase the cost of the structure to the point where Mr. Fraga would not want to build it.

Mr. Davis - Under the UDO, you would be permitted to go higher than 132 feet.

Mr. Mucci - That's correct.

Mr. Davis - And approximately how high?

Mr. Mucci - We probably, we could get two more stories, I believe.

Mr. Davis - And how many rooms would you sacrifice if you moved the 140 feet width to the 100 feet width?

Mr. McGuire - ...

Ms. Currin - I agree, you are asking him direct examination.

Mr. Davis - I'll withdraw it. That's all I have."

When City Attorney Currin asked if any members from the public would like to speak, no one spoke.

Mr. Davis and Mr. McGuire were fine to rest.

Vice-Mayor Hunt closed the public hearing at 9:20 p.m.

City Attorney Currin said that the issue before City Council is whether or not to reverse the decision of the Planning & Zoning Commission to approve the Level II site plan. We've heard a lot of things, we know it's zeroed in on the one provision of the UDO, which is whether or not there is an increase in the floor plate that is allowed because the parcel is surrounded by substantial public or private open space that allows for views and access to direct sunlight.

Vice-Mayor Hunt confirmed that this is about Council's interpretation of the UDO as published. City Attorney Currin said that question before Council is did the Planning & Zoning Commission, when they approved this and they applied Section 7-8-18, did they do the right thing. And in doing that, you are going to look at the arguments that have been put before the Council and apply the UDO as written. As Council does that, there are terms and provisions which one side may say means something and the other side may say it means something else. You need to ascertain what the intent of the UDO was. Council has some discretion to do that. When you say substantial open space, Council will have to make that call, based on what they heard.

Councilman Davis said he was very involved in the Downtown Master Plan. The Downtown Master Plan changed a lot of the UDO. If the Downtown Master Plan was not adopted, this project would have come to City Council for review. The intent in the Central Business District, and especially in the core, is to build density and offer good projects. He felt open space is for the purpose of air and light and in an urban environment you're not going to have the opportunity to build pocket parks, as you build hotels. He felt that designated open space is what is around it, e.g., wider sidewalks. This is the kind of project we are looking to design. He felt it was logical how the Planning & Zoning approved the project.

Councilman Davis moved to uphold the decision of the Planning & Zoning Commission. This motion was seconded by Councilman Pelly.

Councilman Bothwell felt that we may need to revisit the Downtown Master Plan to see if there are places we need to adjust. He was uncomfortable with the Master Plan raising the threshold of Level III projects. At it reads, it seem to him that if there is substantial open space, the planner may permit up to 50%. That puts an awful lot on the planner, and that may be a decision Mr. Glines shouldn't be burdened with. He felt that's really a policy choice. Personally

he didn't think that it's substantial, but as the UDO is written, he would have to support the motion.

City Attorney Currin said that Council has to independently determine whether it's substantial. Councilman Bothwell felt the definition is not clear enough to say whether it is or it's not. But under the written language, he didn't think that he could say that this is not substantial.

Councilman Smith said that Council adopted the Downtown Master Plan in an effort to create more clarify and predictability. Even the best laid plans have grey areas that are being revealed though this process. He would also support revisiting the Plan. Above all, open space being about light and air in our urban environment, in our downtown core, and making it livable in that sense to where we don't end up shadowing all our streets, I think that was the intention behind it. He would be supportive of the motion.

Councilman Pelly agreed there is some ambiguity built into defining open space, but hearing all the evidence, he felt that this project has met the standards.

City Attorney Currin said that the law requires that Council adopt written findings of fact and conclusions of law. She would draft that document and it will come back to Council at their May 27 meeting for approval. Any appeal time would be 30 days after adoption of that document.

The motion made by Councilman Davis to uphold the decision of the Planning & Zoning Commission, and seconded by Councilman Pelly carried unanimously.

At 9:35 p.m., Councilman Smith moved to excuse Mayor Manheimer from the remainder of the meeting. This motion was seconded by Councilwoman Wisler and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-107 - RESOLUTION ADOPTING THE CITY COUNCIL 2014-15 STRATEGIC OPERATING PLAN

City Manager Jackson said that this is the consideration of a resolution adopting City Council's Strategic Operating Plan for Fiscal Year 2014-2015.

At the February 7-8, 2014, Council Retreat, Asheville City Council discussed and prioritized focus areas for the coming year. During the retreat, it was noted that presenting goals in a way that highlights the interconnected nature of Council's strategic goals would be ideal. The 2014-2015 strategic focus areas are broken into three broad categories that relate to economic systems, social systems and environmental systems.

The focus areas are:

Economic Growth & Sustainability - Seek to ensure a sustainable financial future for Asheville by promoting an environment where citizens and businesses want to live, work and invest.

Affordability & Economic Mobility - Seek to ensure a sustainable future for Asheville through a standard of living that is affordable and attainable for people of all incomes, life stages and abilities.

High Quality of Life - Seek to ensure a sustainable future for Asheville by promoting a safe environment where basic needs are met and all people can enjoy a high quality of life.

City Manager will produce a comprehensive quarterly report and Committee Chairs will produce updates on policy initiatives designed to further achievement of strategic goals for Economic Growth and Sustainability, Affordability and Economic Mobility, and High Quality of Life.

Pros:

- Provides Council and City staff with an overall direction and goals of the organization.
- Provides Council and City staff with a measure of success.

Con:

- None.

The Strategic Operating Plan will provide direction for Council and the Executive Management Team throughout the budgeting process.

City staff recommends that City Council adopt the resolution adopting Council's Strategic Operating Plan.

When Vice-Mayor Hunt asked for public comments, none were received.

Vice-Mayor Hunt said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-107. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 204

B. BOARDS & COMMISSIONS

Regarding the Community Relations Council (CRC), it was the consensus of City Council to continue the vacancy for an additional month (pursuant to the request of the CRC).

RESOLUTION NO. 14-108 – RESOLUTION APPOINTING A MEMBER TO THE DOWNTOWN COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Downtown Commission.

Mr. Matt Sprouse has resigned from the Downtown Commission, thus leaving an unexpired term until December 31, 2015.

The following individuals applied for the vacancy: Keaton Edwards, Pamela Winkler, and Ryan Israel.

It was the consensus of the Boards & Commissions Committee to appoint Pamela Winkler, who was recommended by the Downtown Commission.

After speaking about the qualifications of all candidates, Councilman Davis moved to appoint Pamela Winkler to serve the unexpired term of Mr. Sprouse, term to expire December 31, 2015, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 209

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Timothy Sadler commented about (1) if City taxpayer money was used for the parade for Caleb Johnson on Haywood Road; (2) need for maintenance of the restrooms at the Transit Center; and (3) Up-to-date calendar on the City's website of boards & commissions.

Mr. Todd Stimson, Ms. Kerry Trammel, and Ms. Ariel Stimson urged City Council to educate the public about medical use of cannabis for cancer patients. They also felt there is a bad stigma attached to requests for medical use of cannabis. In addition, they asked for Council to support House Bill 941 which is to require the Legislative Research Commission to study issues related to the medical use of cannabis. Councilman Smith and Councilman Bothwell felt asking the Council to support having this move to the Research Commission is a reasonable request. Vice-Mayor Hunt said that entire Council will consider this when they discuss what they will advocate at the legislative level.

Ms. Jeanie Rosenthal provided a number of documents to Council "to better understand the Partner Property Management handling of the smoking problem in the supposedly non-smoking The Griffin apartment building." She asked council to work to ensure a local management company be hired to make the apartments truly smoke-free and healthier.

Mr. Gilian Kearns was concerned about the dangers of pedestrians on Haywood Road.

Councilwoman Wisler encouraged the public to find ways to "Strive Not To Drive."

VIII. ADJOURNMENT:

Vice-Mayor Hunt adjourned the meeting at 10:13 p.m.

Magdalen Bowlesson
CITY CLERK

MAYOR

Tuesday – May 27, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

When Brother Christopher Chiaronmonte raised a point of order regarding City Council not allowing prayer at the beginning of the meeting, Mayor Manheimer said that she has taken the invocation off the agenda, but that does not mean that prayer is not allowed.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MAY 27, 2014, AS "USS ASHEVILLE SSN 759 DAY"

Mayor Manheimer read the proclamation proclaiming May 27, 2014, as "USS ASHEVILLE SSN 759 Day" in the City of Asheville. She presented the proclamation to Commander Douglas Bradley, who thanked City Council for this recognition and presented Mayor Manheimer with gifts to refresh the USS ASHEVILLE exhibit on the First Floor of City Hall.

B. PROCLAMATION PROCLAIMING JUNE 2-8, 2014, AS "HEMP HISTORY WEEK"

Mayor Manheimer read the proclamation proclaiming June 2-8, 2014, as "Hemp History Week" in the City of Asheville. She presented the proclamation to Mr. Timothy Sadler, and others, who explained some activities that would take place over the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 13, 2014

B. RESOLUTION NO. 14-109 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW ANCHOR EVENTS AND PRITCHARD PARK CULTURAL ARTS PROGRAM THROUGH REDESIGNED EVENT PARTNERSHIP AGREEMENTS, AND CONTINUATION OF FEE DISCOUNTS TO NON-PROFIT ORGANIZATIONS

Summary: The consideration of a resolution authorizing the City Manager to renew anchor events and Pritchard Park Cultural Arts Program through redesigned event partnership agreements, and continuation of fee discounts to non-profit organizations.

The City of Asheville charges everyone a fee to permit and have priority use of parks, permitted amenities, or public facilities. These fees cover extra operational expenses associated with events and guarantee space for the permittee. At the same time, some events produced by non-profit agencies or other sister organizations - such as concerts, art shows, cultural

celebrations, theater performances, health fairs, sports events, and others – can also directly further the City's core programs. Consequently, reducing or waiving permit fees and considering in-kind support from city operational departments (i.e., Public Works, Asheville Police Department, Asheville Fire Department) can be an opportunity to leverage the City's ability to provide these programs while reaching a wider and more diverse audience, thus serving a public purpose. As a result, in recognition of the value these events bring the city of Asheville and the broader community, the city has historically offered support to events that meet certain criteria.

In March 2010, City Council authorized staff to enter into three-year agreements to sponsor five anchor events (Asheville Drum Circle, Asheville Holiday Parade, Downtown After 5, Goombay, and Shindig on the Green) in the form of full permit fee waivers and in-kind labor support (police, sanitation, etc.) valued at $102,211. In November 2012 City Council authorized staff to extend the existing agreements with the anchor event organizations using the same terms for an additional year, FY13-14 while an evaluation was conducted on the City's overall event programming strategy. A summary of the annual support approved for the anchor events is provided in Table A, below.

TABLE A

Anchor Events	Fee Waivers	Labor Support	Total Support
Asheville Drum Circle	$3,875	$0	$3,875
Asheville Holiday Parade	$1,562	$39,462	$41,024
Downtown After 5	$2,143	$14,780	$16,923
Goombay Festival	$2,942	$26,869	$29,811
Shindig on the Green	$7,414	$3,164	$10,578
Anchor Event Support			**$102,211**

In addition to the anchor events, City Council approved a discount for property use and permit fees, which amounted to a 75% reduction, for events that were produced by a registered 501c non-profit verified through documentation; open to the general public; and remained responsible for general liability insurance and other related event costs including police coverage, barricades, parking meter closures, etc. Staff has executed those agreements with FY 13-14 as the concluding year.

In May 2011, City Council unanimously voted to provide public support for a period of three years for cultural art programs at Pritchard Park produced by the Asheville Downtown Association at a maximum estimated value of $18,775 not included in the above table. Referenced as the Pritchard Park Cultural Arts Program (PPCAP), the events have included a weekly exercise program, weekly music performances, and have helped foster additional community partnerships. The programming has been successful in adding positive experiences to a challenged public space and serves a public purpose through promoting economic and community development. The combined support value provided to the anchor events and the Pritchard Park Cultural Arts Program is shown in Table B, below.

TABLE B

Anchor Events & PPCAP	Fee Waivers	Labor Support	Total Support
Pritchard Park Cultural Arts Program	$18,775	$0	$18,775
Anchor Event Support (Table A)			$102,211
Total Combined Event Support			**$120,986**

Current State: In October 2013, outdoor special event programming was transitioned to the Office of Economic Development. Staff was tasked with cultivating strategic partnerships to capitalize on the benefits of special events, leverage city resources to help achieve City Council goals in a manner that is both fiscally responsible and achieves maximum economic and community development returns, and that helps chart a long term course for outdoor special events to move towards fiscal self sustainability.

There is significant community standing, cultural benefit and value leveraged through the City's investment in anchor events (Asheville Drum Circle, Asheville Holiday Parade, Downtown After 5, Goombay, Shindig on the Green) and in the Pritchard Park Cultural Arts Program. Staff recommends continued support of these events through consolidated partnership agreements with three non-profit organizations. This revised agreement structure will continue to ask the partner organizations, in the form of an annual application, to outline their performance objectives for each anchor event; to define any significant variances expected in the anchor event programming goals set for each organization, and to submit an annual report which the city and the partner organization can use as a shared tool to gauge and track the effectiveness of mutual investments. The partnership structure also encourages reinvestment in additional mutually agreed programming opportunity achieved as a result of high output achieved by reducing barriers specific to an event, increasing flexibility while compounding the overall benefits provided through synergistic opportunities.

The total event support value for partner organizations for conducting anchor events and Pritchard Park Programming, as referenced in Table B, has been rounded at a minimal increase to accommodate programming enhancements, event growth and fee increases. A summary of the proposed structure for calendar years 2014-2016 is provided in Table C, below.

TABLE C

2014 – 2016 Cultural Event Partnership Agreements	Maximum Annual In-Kind Support Value
Asheville Downtown Association	$82,000
FHC via Community Betterment Foundation (or future 501c non-profit designee)	$13,000
YMI Cultural Center	$30,000
Total Support	**$125,000**

This item was presented to the Planning & Economic Development Committee for consideration on May 20, 2014, and they voted unanimously to recommend approval of the resolution to City Council, with modifications that added provisions for an annual application process and annual report as outlined in this staff report.

Pros:

- Allows the city to leverage programming and events to reach a wider and more diverse audience
- Converts prior event sponsorships into goal-driven organizational partnerships that encourage higher output by reducing barriers
- Meets strategic operating plan goals of leveraging investment in special event partnerships
- Supports non-profit organizations
- Stimulates the local economy while providing quality cultural programming and diversity
- Provides multi-year consistency

Cons:

- Events produced under partnerships result in department staff costs for the utilization of in-kind services including Police, Fire and Public Works
- Events produced under partnerships result in lost revenue for permits, parking fees and rentals
- The 75% reduction in permit fees for non-profit organizations results in lost revenue for the city; however, the city does not budget for this revenue since it tends to fluctuate from year to year.

Partnership agreements and fee discounts result in lost revenue, and labor support results in increased personnel expenses (as summarized in Table A). In-kind labor costs for anchor events have been included in the City's budget during the agreement period. If these agreements are extended for calendar years 2014-2016, associated expense and revenue impacts will be included in the City's budget.

City staff recommends a three-year continuation of a 75% reduction in property use and event permit fees for outdoor special events that are open to the public and produced on public property by a registered 501c non-profit organization under the criteria as described herein.

City staff recommends that City Council pass a resolution authorizing the city manager or his designee to allow the Office of Economic Development to establish three-year partnership agreements with the Asheville Downtown Association, the YMI Cultural Center, and a non-profit organization supporting Shindig on the Green under the criteria as described herein.

RESOLUTION BOOK NO. 36 - PAGE 210

C. RESOLUTION NO. 14-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A RENEWAL OF THE ADOPT-A-PARK AGREEMENT WITH JUST FOLKS INCLUDING A WAIVER FOR PARK USE FEES FOR TRIANGLE PARK FOR FISCAL YEAR 2014-15

Summary: The consideration of a resolution authorizing the City Manager to sign a renewal of the Adopt-a-Park Agreement with Just Folks including a waiver for park use fees for Triangle Park for FY 2014-2015.

Just Folks is a local non-profit organization whose primary purpose is to support community-building activities in the Eagle/Market Street area known as "The Block". The members of the Board of Directors are residents who grew up in the area and are actively engaged in efforts to improve the environment in the area by supporting more positive uses of the park. Their focus on Triangle Park began eight (8) years ago and for the past three (3) years City Council has authorized the City Manager to sign an Adopt-a-Park agreement with Just Folks that included a waiver of park use and permit fees for up to $2,500. This amount is based on the group receiving the 75% non-profit discount for event permitting fees. The waiver has made it possible for them to produce events that activate Triangle Park by providing a variety of positive activities including music festivals, community cookouts and other community-building events in the Park May to December on Saturdays and Sundays.

During FY 2013-2014, Just Folks has fulfilled the terms of their Adopt-a-Park agreement with the following accomplishments:

- Conducting regular clean-ups;
- Partnering with community members and the Asheville Design Center to complete installation of a mural depicting the history of "The Block";
- Weeding and maintaining the planted beds;
- Mulching paths and planting beds;
- Providing volunteers to participate in these and other projects;

- Providing the tools and materials to carry out regular maintenance and special approved projects;
- Conducting fund raising activities to support programs and maintenance of the park;
- Holding a minimum of two (2) events each weekend during the months of May through December. Events included approximately 145 hours of concerts, programs, and community cookouts that were free and open to all members of the community.

The presence of Just Folks members and their programming in the park continues to contribute to the reduction of nuisance behaviors in and around the park and an improved appearance for the park. Over the past three (3) years their efforts have made the park safer and more attractive to downtown visitors and community members and helped the city meet specific City Council goals for economic and community development.

Just Folks is requesting that their Adopt-a-Park agreement with the city be renewed for FY 2014-2015, to include a continuance of waivers for park usage and event permitting fees at the same level of $2,500 approved for FY 2013-2014.

Pros:

- Strategic partnerships allow the city to leverage programming and events to reach a wider and more diverse audience.
- Provides additional quality cultural programming and diversity in a park that is generally not used for this type of event.
- Reduces staff time in processing fee wavier requests related to this group's events.
- This action is consistent with other partnerships the City has entered into for park programming in key community development areas.

Con:

- The reduction in permit fees result in lost revenue for the city; however, the city has not budgeted for this revenue in FY 2013-2014.

The estimated value of the waived park usage fees is $2,500; however, this revenue has not been included in the FY 2014-2015 budget.

Staff recommends that City Council authorize the City Manager to sign an Adopt-a-Park Agreement with Just Folks including a fee waiver for park usage fees associated with programming in Triangle Park.

RESOLUTION BOOK NO. 36 - PAGE 211

D. RESOLUTION NO. 14-111 - RESOLUTION AUTHORIZING THE CITY MANAGER TO INCREASE THE CONTRACT AMOUNT FOR THE AGREEMENT WITH FORSYTH INITIATIVE FOR RESIDENTIAL SELF HELP TREATMENT INC. FOR TEMPORARY LABOR SERVICES

Summary: The consideration of a resolution to increase the contract amount for master service contract number 91400113 with Forsyth Initiative for Residential Self Help Treatment Inc., (F.I.R.S.T.), authorized by Resolution Number 13-386, dated August 27, 2013

The City of Asheville uses temporary workers to perform a variety of tasks including unskilled work in concrete, asphalt, drainage, traffic control, building maintenance, trash and brush collection, event preparation and other like work in the Public Works and U.S. Cellular Center Departments. Master service contract number 91400113 was issued to F.I.R.S.T. in the amount not to exceed $155,000.

F.I.R.S.T. is a local non-profit organization operating from 32 Knox Road in Ridgecrest, NC. F.I.R.S.T. offers a combination of therapeutic treatment, vocational training and life skills

development for people with chronic substance abuse addictions to assist them in becoming responsible members of society. Participants receive treatment, room and board, transportation and other benefits. The result is positive for the community for the reason that the participants learn to live a productive lifestyle as opposed to being a burden on society. The City of Asheville has utilized F.I.R.S.T. participants for the past 10 years with excellent results.

The Sanitation Division has experienced a higher need for temporary workers due to lengthy staff vacancies and higher than anticipated spring brush volumes. The U.S. Cellular Center has also experienced a higher need for temporary workers due to an increase of events booked FY14. The Sanitation Division is requesting an additional $10,000 and the U.S. Cellular Center is requesting an additional $50,000 totaling $60,000, increasing the master service contract number 91400113, from $155,000 to $215,000 for FY14. Funds have been identified in existing FY14 accounts to cover this increase, without any adverse effects to existing programs.

Pros:

- Supports employment opportunities for at risk youth and adults
- Reduced expenses for recruiting, hiring and benefits for full-time employees
- Reduced expense for temporary labor as opposed to traditional temporary labor agencies
- Carpooling will reduce the negative impact to the environment
- Supports diversified job growth and business development
- Enhances diversity in the City as an organization so that the workforce more closely resembles the community

Con:

- None

The requested increase of $60,000 to master service contact number 91400113 has been identified in the U.S. Cellular Center Department and the Sanitation Division's FY14 budgets accounts to cover this increase, without any adverse effects to existing programs.

Staff recommends City Council adopt a resolution to increase the contract amount for master service contract number 91400113 with Forsyth Initiative for Residential Self Help Treatment Inc., from $155,000 to $215,000 for FY14

RESOLUTION BOOK NO. 36 - PAGE 212

E. RESOLUTION NO. 14-112 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A TRAFFIC AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION APPROVING A PROJECT FOR THE FABRICATION AND INSTALLATION OF A DIRECTIONAL SIGN FOR THE RIVER ARTS DISTRICT ALONG I-240 EASTBOUND IN ADVANCE OF THE AMBOY ROAD EXIT IN WEST ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to execute a traffic agreement with the N.C. Dept. of Transportation approving a project for the fabrication and installation of a directional sign for the River Arts District along I-240 eastbound in advance of the Amboy Road exit in West Asheville.

Through the efforts of the Asheville Area Riverfront Redevelopment Commission (AARRC), the N.C. Dept. of Transportation (NCDOT) has agreed to install a directional sign bearing the message "River Arts District" along I-240 eastbound in advance of the Amboy Road exit in West Asheville.

The City of Asheville has agreed to provide the funds for the fabrication and installation of the sign and after the sign is installed, the NCDOT will be responsible for general maintenance

activities including cleaning and vegetation removal. The City will be responsible to provide funds for the re-fabrication and installation of a replacement sign if the original sign loses its reflectivity, is stolen, destroyed or otherwise damaged.

Pros:

- A directional sign for the River Arts District will be installed along I-240 Eastbound.
- The NCDOT and the City of Asheville are partnering to accomplish the subject project.

Cons:

- The City is responsible to fund the fabrication and installation of the sign.
- The City is responsible to fund the re-fabrication and installation of any replacement signs.

The total estimated cost of the subject project is $1,500 and the funds will come from the current Transportation Department operating budget.

Staff recommends that City Council approve a resolution authorizing the City Manager to execute a traffic agreement with the NCDOT approving a project for the fabrication and installation of a directional sign for the River Arts District along I-240 eastbound in advance of the Amboy Road exit in West Asheville.

RESOLUTION BOOK NO. 36 - PAGE 213

F. RESOLUTION NO. 14-113 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER TO INCREASE THE CONSTRUCTION CONTRACT WITH COOPER CONSTRUCTION COMPANY INC. FOR THE HENDERSONVILLE ROAD WATER LINE CONSOLIDATION PROJECT

ORDINANCE NO. 4310 - BUDGET AMENDMENT FOR THE HENDERSONVILLE ROAD WATER LINE CONSOLIDATION PROJECT

Summary: The consideration of a resolution by City Council authorizing the City Manager to execute a change order in the amount of $88,771.54 to increase the construction contract with Cooper Construction Company, Inc., from $441,266.00 to $530,037.54 for the Hendersonville Road Water Line Consolidation Project; and a budget amendment in the amount of $44,645.00 from savings in another capital project.

On January 28, 2014, City Council awarded the construction contract to Cooper Construction Company, Inc., for the Hendersonville Road Water Line Consolidation Project. The project consists of abandonment of a problematic 6-inch cast iron water line located on the east side of Hendersonville Road. Water services attached to the 6-inch water line will be transferred to the 24-inch ductile iron water line located on the west side of Hendersonville Road. Abandonment and removal of existing vacant services are also a part of the project scope.

In order to complete the construction and close out the project, a change order is needed to increase the contract amount by an additional $88,771.54 for a total contract amount of $530,037.54. The change order is needed because of overruns to the original quantities estimated and the addition of areas to be patched in preparation for paving.

Pro:

- Approval of the change order will allow the City to complete construction of the water system and close out the project, which replaces old, undersized failing lines with new lines to improve service, reduce maintenance cost and provide better fire protection.

Con:

- If the change order is not approved, then the project cannot be finished in time to meet NCDOT's paving schedule.

The Water Resources Department currently has $485,393.00 budgeted for this project. The remaining funds of $44,645.00 needed for the change order will be transferred from the Monte Vista / Sand Hill Road Master Plan capital project. The Monte Vista project has been reduced in scope, allowing funds to be transferred out to other projects as needed. In order to use the funds in the Monte Vista project, a budget amendment is necessary.

Original Construction Amount	$485,393.00
Amount Needed for Change Order	$ 44,645.00
Total Amount for Project	$530,038.00

The amount remaining in the Monte Vista / Sand Hill Road Master Plan capital project will remain in the project budget to complete the project.

City staff recommends City Council approval of the City Manager to execute a change order in the amount of $88,771.54 to increase the construction contract with Cooper Construction Company, Inc., from a total in the amount of $441,266.00 to $530,037.54 for the Hendersonville Road Water Line Consolidation Project; and a budget amendment in the amount of $44,645.00 from savings in another capital project.

RESOLUTION BOOK NO. 36 - PAGE 214
ORDINANCE BOOK NO. 29 - PAGE 70

G. RESOLUTION NO. 14-114 - RESOLUTION SUPPORTING THE N.C. DEPT. OF TRANSPORTATION IN DESIGNING AND CONSTRUCTING A PROJECT TO MAKE STORM DRAINAGE IMPROVEMENTS ALONG THE NORTH SIDE OF US 70 (TUNNEL ROAD) BETWEEN KENILWORTH ROAD AND BUCKSTONE PLACE

Summary: The consideration of a resolution supporting the N.C. Dept. of Transportation in designing and constructing a project to make storm drainage improvements along the north side of US 70 (Tunnel Road) between Kenilworth Road and Buckstone Place.

The North Carolina Department of Transportation (NCDOT) has prepared plans to construct a project making much needed storm drainage improvements along the north side of US 70 (Tunnel Road) including resurfacing all four travel lanes using Small Construction Funds. The total estimated cost of the project is $248,000 and it is anticipated that the Board of Transportation will approve the project at its regularly scheduled meeting during June 2014.

Since Small Construction Funds are involved, a resolution of support from the affected city is required or the funds might be "lost". All of the work will be contained within the public right-of-way for US 70 (Tunnel Road) and it will be accomplished by the NCDOT and/or its contractor.

Pros:

- Much needed storm drainage improvements will be made along a section of US 70 (Tunnel Road).
- The NCDOT will fully fund and construct the project.
- After completion of the project, the NCDOT will maintain the improvements.
- The NCDOT and the City of Asheville are partnering to accomplish the subject project.

Con:

- None

There is no fiscal impact to the City of Asheville.

Staff recommends that City Council approve a resolution supporting the NCDOT in designing and constructing a project to make storm drainage improvements along the north side of US 70 (Tunnel Road) between Kenilworth Road and Buckstone Place.

RESOLUTION BOOK NO. 36 - PAGE 215

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Pelly moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. DOWNTOWN POLICE ENHANCEMENT PLAN

Police Chief William Anderson gave a brief review of the background of the Downtown Police Enhancement Plan: (1) During the months of July and August 2013, the Central Business District (CBD) saw a significant increase in crime as compared to the same period in 2012; (2) Violent crime increased 52%; (3) Property crime increased 34%; and (4) Complaints related to nuisance behaviors also increased.

The APD implemented the "Downtown Enhancement Plan" to address increased criminal behavior. The Downtown Unit (DTU) took a more proactive enforcement approach through physical arrests, citations and additional staffing. The mission of the Downtown Unit remained one based on Community Oriented Policing; however, enforcement of criminal violations took precedent.

The goal of the Downtown Enhancement Plan was to reduce crime and increase public safety. The pros were (1) Increased law enforcement presence in the Central Business District; and (2) Reduction in crime and nuisance behavior in the Central Business District. The cost of increased enforcement and APD presence was absorbed within the Police Department's existing budget.

The 90-day evaluation period of 09/08/13 – 12/07/13 was compared against the same time frame for 2012. Crime Statistics include: Robbery decreased by 22%; Aggravated assault decreased by 36%; Overall violent crime decreased by 24%; and Burglary decreased by 36%. The overall property crime decreased by 23%. The DTU officers issued 185 citations and made 249 arrests during the evaluation period. The DTU increased their business checks by 236%, increasing the number of self-initiated "check business" calls from 187 to 628. The DTU increased their crime prevention efforts by 77%, evaluating and acting on recognized issues in the CBD. Through self-initiation, crime prevention calls for service increased from 95 to 168.

Strategies currently utilized by the APD in an effort to continue to reduce criminal activity and improve public safety throughout the Central Business District of Asheville include: (1) Homeless / Transient Outreach Program (a) Program designed to provide written outline of available resources and strategies to ensure these populations are made aware of the Police Department's strategy in dealing with criminal behavior; (b) Roll Call training (conducted in April 2014); (c) CIT training for all officers; and (d) Continued partnership with Resource Providers; (2)

APD Policy on Homeless Persons (a) Purpose of directive is to outline standard operating procedures to be used in the interaction with homeless individuals, homeless camp protocols, and information on outreach assistance to social service resources; (3) Ongoing Meetings with the ABC/ALE and Establishments Who Serve Alcohol (a) Most recent one held March 31, 2014, which included drug-induced sexual assault training; (4) Volunteer Program at 29 Haywood Street (a) Hours are Wednesday – Friday from 12-4 p.m.; and (b) Duties: Greet walk-ins, answer phone, provide directions, provide information on community resources, contact district officers when needed for reports or other police related information; (5) Street Entertainer Ordinance (a) Reviewing ordinance with the COA Legal Dept.; (6) Park Wardens (a) Looking at schedules, responsibilities, etc.; (7) Updated Shoplifter and Graffiti Guide (a) Includes prevention tips as well as reporting information; (8) FTO Program (a) Trainees will now be assigned to the DTU during their field training phase; (9) Safe Cam Initiative (a) Program that encourages business and property owners in the CBD to utilize their surveillance camera systems to make areas safer for shoppers and the community while providing a public service to the citizens of Asheville; and (10) Augment Schedule (a) Frequent review of current patrol schedule to ensure both efficiency, effectiveness, and proper manning .

In summary, the mission of the Downtown Unit will remain one based on Community Oriented Policing; however, enforcement of criminal violations will continue to take precedent. Continued enforcement will consist of proactive enforcement of criminal violations, which includes proactive arrests verses citations for repeated nuisance and alcohol related crimes.

In response to Councilwoman Wisler, Chief Anderson said that we are also reaching out to other areas in the City regarding graffiti.

Councilman Davis, downtown business owner, said that he has seen benefits from implementation of the Plan.

B. QUARTERLY REPORTS

Strategic Operating Plan

A report submitted by City Manager Jackson was provided to Council on the short and long term goals at the 2013 strategic planning retreat, and staff is providing its 3rd Quarter progress of the three focus areas.

The 3rd Quarter report provides a comprehensive update to in all focus areas, to include quarterly progress over the past 6 months, as noted by the Q2 and Q3 designations, respectively. The summary document provides City Council the opportunity to review in detail operational efforts from all departments in city government.

This information is to update City Council on key operational initiatives specific to the Strategic Operating Plan. No action is necessary at this time.

Financial Report

A report by the Budget Manager Tony McDowell was provided to Council as follows:

"The following financial information reflects the City's overall financial position for the fiscal year through March 2014.

"Amendments. The General Fund budget presented in this third quarter report reflects the adopted budget of $95,861,764 along with eleven budget amendments approved by City Council. A summary of the budget amendments that were approved as of March 31, 2014, is presented below. The budget amendments that involved an appropriation from fund balance are noted with an asterisk. The total fund balance appropriation as of March 31 was $600,453.

Adopted Budget	95,861,764
Budget Amendments:	
Technical: Move Changing Together to Grant Fund	(79,060)
Technical: Move Computer Purch. to Capital Fund	(350,000)
Add School Resource Officer	49,842
Senior Op Center/Harvest House Grant	7,786
Energy Efficiency Rebates	11,229
Norfolk Southern Haz Mat Gift	1,400
Lyman Street Quiet Zone Payment*	15,000
Moogfest Contribution*	40,000
Storm Control Expenses*	150,000
Outside Legal Expenses*	95,000
Release Water Contingency Funds*	300,453
3/31/2014 Budget	$96,103,414

*Fund Balance Appropriation

"Revenues. Through March 31, 2014, the City has collected $81.3 million in General Fund revenue, which represents approximately 85% of the total General Fund revenue budget. Revenue collections through the first three quarters of this fiscal year are running slightly ahead of where they were one year ago in terms of budget versus actual. The City has received eight months of sales tax revenue, and collections are up 3.3% compared to the prior year. Sales tax revenue growth in the current year has been slower than in the prior year and less than projected when the budget was developed last spring. As a result, staff is projecting that sales tax revenue will come in under budget by $350,000. Development Services (DSD) revenue continues to perform well; as of the end of March, DSD revenues had already exceeded budget estimates. With the bulk of property tax revenue received in December and January, that revenue source is now at 97% of budget, which is typical for this point in the fiscal year. Overall, staff is currently projecting that *FY 2013-14 General Fund revenue will come in right on budget.*

"Expenditures. General Fund expenditures through March 31, 2014 totaled $60.0 million or 61% of budget, which is slightly under where they were at this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are at budget through the first three quarters. Expenditures for fuel, fleet maintenance, health care, and utilities continue to perform better than budget through the first three quarters. ***Based on the trends noted above, staff is projecting that expenditures (excluding contract and purchase order commitments) will finish the year under budget by $4.6 million (95% of budget).***

"Fund Balance. The City ended FY 2012-13 with available fund balance of $15.4 million, which equated to 17.6% of FY 2012-13 expenditures. Based on *current revenue and expenditure projections for FY 2013-14, staff estimates that available fund balance at June 30, 2014 will be $16.7 million or 17.7% of estimated expenditures."*

C. PRESENTATION OF THE 2014-15 ANNUAL OPERATING BUDGET

Director of Finance Barbara Whitehorn said that the three budget goals are (1) Begin Implementation of the Police Strategic Plan; (2) Address Employee Compensation; and (3) Transit System Improvement. Other Council Strategic Goals include implementing Graffiti initiative and developing the Capital Improvement Plan.

Budget priority goals include (1) Police Strategic Plan, with four *key component (a)* Compensation; (b) Vehicle Replacement; (c) Take-Home Vehicle Program; and (d) Management Structure Changes; and (2) Employee Compensation (a) Budgeted 3% increase pool - $1.5

million; and (b) Managed Savings in Current Fiscal Year - COLA Funded by Identified Savings in FY 2014-2015; and Fund Balance maintained at desired level.

Using a chart, Ms. Whitehorn then reviewed the General Fund Fund Balance.

Additional budget priority goals include (1) Transit Improvements (a) *Sunday Service* - Limited Sunday transit service will be added in January, 2015; and (b) *Route C* - A reengineering of Route C to address transfer wait times will be implemented in January, 2015; and (2) Graffiti Initiative (a) *Graffiti Ordinance* - Adopted in April, 2014; and (b) *90-Day graffiti removal initiative (i)* City assistance with removal; (ii) July 1-September 30, 2014; and (iii) General Fund Balance allocation of $300,000.

Legislative assumptions include (1) Disposition of the City of Asheville's water system: The budget assumes continued operation and management of the system because the outcome of the legal challenge remains unknown; and (2) Privilege License Tax (PLT) Reform: The final outcome of tax reform is not yet determined. *Current Version of HB 1050 (5/23/2014)* PLT repealed entirely as of July 1, 2015. 2014-2015 PLT levied only on businesses with a physical location inside the City.

Using a chart, she reviewed the revenues and expenditures of the 2013-14 adopted budget, the 2013-14 revised budget, the 2013-14 estimated budget, and the 2014-15 proposed budget.

Enterprise Funds include (1) Water Fund (a) Continued Stable Performance; (b) Rate adjustment based on long-term model adopted April 8; and (c) $10.1 million pay-go investment in water capital improvements; (2) Stormwater Fund (a) Stormwater fee structure - Proposed tiered approach; and (b) Additional funds to be used for capital improvements; (3) Transit Fund (a) Continued Financial Pressure; (b) Addition of Limited Sunday Service; (c) Reengineering of Route C; and (d) General Fund Support increasing $534k; (4) Parking Fund (a) Strong revenue growth; (b) No adjustment to existing rates; and (c) Maintaining $616k in support to Transit Fund; and (5) US Cellular Center Fund (a) Strong performance in FY 2013-2014 - High event load anticipated to continue; (b) Anticipated savings from outsourcing custodial operations; and (c) No increase in General Fund Support.

She then reviewed the 2014 adopted, 2014 revised and 2015 proposed employees and positions.

Regarding Capital Improvement Program, she reviewed the definitions. *Capital Improvement Program* - The overall program developed for City of Asheville capital improvement; *Capital Improvement Plan* - The five-year rolling project schedule; and *Capital (Improvement) Budget* - The single-year budget adopted annually.

She then explained the 2,2,2 - **2¢** - In the 2013-14 Budget City Council adopted a $.02 tax increase to fund capital improvements (and $.01 for capital maintenance); **$2.2 million (additional tax per penny = $1.1m)** - Staff worked with DEC Associates and Parker Poe to determine debt capacity and design a working model; and **2 Days** - Key staff and DEC Associates met to prioritize projects and develop the first draft of a five-year plan.

Ms. Whitehorn reviewed the following Capital Improvements for 2014: RADTIP Transportation Project (multimodal improvements) - $2,208,000; Downtown Recycling & Trash Containers - $175,000; Eagle/Market (Affordable/Workforce Housing) - $2,249,500; Handy Park Demo - $413,978; Park Street Bridge (multimodal improvements) - $30,000; Park Place Capital Maintenance - $2,000,000; Azalea/Lake Craig (multimodal improvements) - $1,037,588; and Multimodal Transportation Plan (multimodal improvements) - $86,000. Total is $8,200,066.

She explained why to leverage the funds? Pay-Go only: $2.2 million in additional projects can be funded annually; or $2.2 million saved annually over time to fund one large project every 10-15 years. She then explained that we will do the Draw Program (1) Using Pay-Go, Installment Financing and Special Obligation Bonds - $90 million capacity over 5 years; and (2) External Sources of Funds (a) Grants; and (b) Partnerships. Total Cost of Projects Planned for 2015-2019: $132 million.

She explained the following project criteria for the Capital Improvement Program - (1) Safety; (2) Council Strategic Goals (a) Economic Growth and Sustainability; (b) Affordable Housing & Community Development; and (c) High Quality of Life; (3) Outside Funding Sources; and (4) Return on Investment (a) Social, Environmental and Financial.

The 2014-19 project summary for the Capital Improvement Program is as follows: Affordable Housing - $8,949,500; Public Safety - $15,751,000; Multimodal Transportation - $49,051,623; Economic Development - $7,696,050; Quality of Life - $9,175,000; and Maintenance - $41,899,193. The total of $132,522,366 does not include anticipated revenue offsets of $44,394,132. She then reviewed the 2015 capital budget reconciliation.

In summary: the 2014-15 budget is (1) Continuation Budget; (2) Meets Council Key Goals; (3) No Tax Rate Increase; and (4) Capital Improvement Program.

Ms. Whitehorn said that the public hearing on the budget will be on June 10, 2014, and adoption of the budget is scheduled for June 24, 2014.

When City Council requested additional information on the following items, City Manager Jackson said that for those questions not readily answerable, he would provide that information between now and the next meeting/public hearing: what is the status of the transit management contract that is up for renewal; unable to reconcile the new Economic Development budget by $55,000; what is the plan to enforce short-term rentals; in non-departmental public safety where the City pays 50% of the costs of the Police ID Bureau and Crimestoppers Programs, do other municipalities in Buncombe County contribute and are those programs effective; need understanding in non-departmental community development of reduction of $140,000; regarding employee raises, will 3% be built into the budget each year, or will Council look at this on an annual basis; Council consideration (between now and the fall) of where we want to be with the Housing Trust Fund and broader goals for affordable housing; regarding the proposed tiered rate structure for stormwater fees, how will the the square footage be determined; and, what is staff's analysis of the claim that changes in the state sales tax law will make up for the money the City will lose when the Bill to end privilege license fees takes effect.

D. LEGISLATIVE UPDATE

City Manager Jackson introduced Paul Fetherston, new Assistant City Manager.

Mr. Fetherston said that the legislative "Short Session" began on May 14, 2014, and is the extension of the regular session, which adjourned in July. Eligible bills in the short session include (1) Crossover bills; (2) Study bills; and (3) Local bills that meet certain requirements. He then highlighted the following bills: (1) Environmental Issues - S729 - Governor's Coal Ash Action Plan (Addresses notification requirements for discharges and dam repairs, impoundment water monitoring and inspections, emergency action plans, and establishes requirements for coal combustion products impoundment closure; (2) Environmental Issues - S786 - Energy Modernization Act (This drilling and hydraulic fracturing bill contained a provision to cap the amount property tax revenue could increase from year to year by 8%. That provision has been replaced with a study); (3) Local Governmental Authority - H150/S139 - Zoning Design & Aesthetic Controls (Restricts local governments' ability to institute design and aesthetic controls on 1 and 2 family dwellings); (4) Local Governmental Authority - S734/H1136 - Authority to Adopt Certain Ordinances (Repeals section of H74, passed in the "long session," limiting local

governments from enacting environmental ordinances); (5) Local Governmental Authority - H1191 - Authority to Adopt Local Ordinances (Prevents local governments from regulating fertilizer or the removal, replacement, and preservation of trees on private property within its jurisdiction); (6) Revenue - H1050 - Omnibus Tax Law Changes (Passed the House with $100 privilege license tax (PLT) cap per physical location. Current Senate version includes reform that: (a) Repeals cities' authority to levy PLT in FY15/16; (b) Limits FY 14/15 PLT to businesses with a physical location inside a city; and (c) Limits PLTs for FY 14/15 to FY 13/14 rate); and (8) Graffiti - no bill at this time.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO PERMANENTLY CLOSE AN UNNAMED ALLEY OFF SOUTH ANN STREET

RESOLUTION NO. 14-115 - RESOLUTION TO PERMANENTLY CLOSE AN UNNAMED ALLEY OFF SOUTH ANN STREET

Director of Public Works Greg Shuler said that this is the consideration of a resolution to permanently close an unnamed alley off South Ann Street. This public hearing was advertised on March 28, April 4, 11 and 18, 2014. On April 22, 2014, this public hearing was continued to this date at City staff's request.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, property owner Shalin Patel has requested the City of Asheville to permanently close an unnamed alley off of South Ann Street.

The Multimodal Transportation Commission met on February 26, 2014, and voted unanimously to support the closure of the unnamed alley off of South Ann Street.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent property
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

City staff recommends City Council adopt the resolution to permanently close an unnamed alley off of South Ann Street.

Mayor Manheimer opened the public hearing at 6:16 p.m., and when no one spoke, she closed the public hearing at 6:16 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Hunt moved for the adoption of Resolution No. 14-115. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 216

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 20 AND A PORTION OF 28 DEAVERVIEW ROAD FROM RS-8

RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT AND HIGHWAY BUSINESS DISTRICT TO OFFICE DISTRICT/CONDITIONAL ZONING FOR THE CONSTRUCTION FO A DENTAL CLINIC, INCLUDING A REQUEST FOR MODIFICATIONS TO THE LANDSCAPING AND PARKING

ORDINANCE NO. 4311 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 20 AND A PORTION OF 28 DEAVERVIEW ROAD FROM RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT AND HIGHWAY BUSINESS DISTRICT OFFICE DISTRICT/CONDITIONAL ZONING FOR THE CONSTRUCTION FO A DENTAL CLINIC

Urban Planner Julia Fields that this is the consideration of an ordinance to conditionally zone property located at 20 and a portion of 28 Deaverview Road from RS-8 Residential Single Family High Density District and Highway Business District to Office District/Conditional Zoning for the construction of a dental clinic, including a request for modifications to the landscaping and parking. This public hearing was advertised on May 16 and 23, 2014.

Ms. Fields said that the applicant is requesting review of a conditional zoning submittal proposing to rezone property from Highway Business District and RS-8 Residential Single-Family High Density District to Office District/Conditional Zoning in accordance with Section 7-7-8 of the UDO, for the construction of a dental clinic/office facility.

The subject property consists of a .21 acre parcel located at 20 Deaverview Road and a portion (.378 acre) of a .6 acre parcel located at 28 Deaverview Road in West Asheville. The property contains a dental clinic and parking at 20 Deaverview Road, zoned Highway Business (HB) District with additional parking for the clinic and a single-family home located at 28 Deaverview Road, zoned Residential Single-Family High Density District (RS-8).

The applicant, Dr. Thomas L. Morton, Jr., proposes to construct a new dental clinic to the south of the requested rezoning site with accompanying parking largely located along Deaverview Road. A small parking area (2 spaces) and parking garage (2 spaces) are proposed to access off of Green Hill Avenue for employee parking. The two properties will be recombined to subdivide off the single-family home which will remain and will continue to be zoned RS-8. The requested conditional zoning (Office) is for the remainder of the property which will house the new dental clinic and associated parking. It is proposed that the existing practice will remain in operation while the new clinic is being constructed. The practice will close briefly while the existing building and parking is demolished and new parking and storm drainage are constructed.

The new building will be one-story in height with a basement containing storage/flex office space and the garage. The building has a gross floor area of 6,800 square feet and a 3,400 square foot footprint. It is planned to contain 3,350 square feet of space for the clinic with 2,850 square feet of flex office and storage space.

Principal access to the site is proposed to be from Deaverview Road where there are currently two entrances to the property and dental clinic. This proposed principal access leads to a parking area containing fifteen parking spaces and a drop off circle with Porte-cochere. A secondary access for employees is shown off of Greenhill Avenue. This secondary access leads to two parking spaces and a two vehicle parking garage. A modification is requested for parking (two spaces). Twenty-one spaces are required; nineteen are provided. Sidewalks are to be provided along Deaverview Road (existing but to be improved) with a fee in lieu of sidewalk approved for the frontage along Greenhill Avenue. Parking for a single bicycle and handicapped parking (two spaces) is shown on the site plan.

Landscaping is required for this project and includes street trees, street buffer, parking lot landscaping, property line bufferyards, and building impact landscaping. Landscaping shown on the submitted plans is compliant with the exception of the property line along Greenhill Avenue.

A modification is requested to allow a small portion of the driveway to encroach into the property line buffer in this area.

The proposal was approved with conditions by the Technical Review Committee on April 7, 2014. A number of TRC comments have been addressed in the submittal received by the City Council.

The Asheville Planning and Zoning Commission held a public hearing on this matter at their meeting on May 7, 2014. Three people (either owning or residing at an adjacent property – 34 Deaverview Road) spoke concerned about traffic and stormwater runoff issues. Following the hearing, the Commission voted 5-0 to recommend approval to Asheville City Council including support for the requested modifications.

While the location of the new dental clinic building is on property currently zoned RS-8, it is adjacent to property zoned HB. The existing dental clinic has been on the property to be zoned Office CZ for many years. Some of the parking for the existing clinic is currently located on the RS-8 zoned parcel. The site is bordered by properties zoned HB to the east and south (containing a medical equipment/clinic facility and parking for a restaurant located on Patton Avenue). To the north and west the property abuts or is across a street from parcels largely zoned RS8 and containing single family homes.

Conditional Zoning Findings: 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. *That the proposed use or development of the land will not materially endanger the public health or safety.*
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. *That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.*
   There are no significant natural or topographic features on the site or in the immediate vicinity.

3. *That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.*
   A dental clinic and accompanying parking are already located on the subject property so the proposed use should not injure the value of adjoining or abutting property. The landscaping and site improvements proposed should enhance the area. The Office District has operations standards limiting activities associated with non-residential uses.

4. *That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.*
   The development proposed abuts commercial uses on two sides and single-family homes on the other sides. Buffering will be provided against the single-family zoned properties. The scale of the proposed new structure is in keeping with the buildings in close proximity.

5. *That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.*
The proposed development supports the land use goal of pursuing compatible redevelopment in appropriate areas.

6. *That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.*
The development site is located just off of Patton Avenue in West Asheville. The W3 transit line services the area. Adequate water supply, police protection, waste disposal and similar facilities are verified during the TRC review process.

7. That *the proposed use will not cause undue traffic congestion or create a traffic hazard.*
The proposed use of the property is the same as the existing use located there. Although there will be limited access to the site via Greenhill Drive (existing access is only off of Deaverview Road) it is not anticipated that this will cause traffic issues.

The proposed development supports the land use goal stated in the *Asheville City Development Plan 2025* of pursuing compatible redevelopment in appropriate areas.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Considerations:

- The proposal is for the redevelopment of a property to support the same use type as currently exists.
- The proposal shows enhanced landscaping and site improvements to the property.
- There will be limited vehicular access off of Greenhill Drive.

Staff recommends approval of the request to conditionally zone the proposed site (.588 acres) to Office District/Conditional Zoning. Staff also recommends support for the modifications to the landscaping and parking standards as requested. Staff finds the request is reasonable and consistent with the Comprehensive Plan and other adopted plans in that (1) The proposed development supports the land use goal stated in the *Asheville City Development Plan 2025* of pursuing compatible redevelopment in appropriate areas; and, (2) The proposal is for the redevelopment of property to support the same use type as currently exists at the site but with enhanced landscaping and site improvements.

Mayor Manheimer opened the public hearing at 6:22 p.m.

Mr. Long, tenant and son of owners of 34 Deaverview Road, expressed concerns with the proposed conditional zoning in that it will eliminate a portion of mature trees behind his home, existing stormwater runoff onto his property will increase, new configuration will cut his garden behind his home in half, and will affect his income because he won't be able to rent the house with these problems. He asked that a fence be installed between the properties and that the stormwater runoff be addressed.

Mr. Mark Wilson, registered landscape architect for the applicant, clarified that there will be no parking in the landscaped area in which they are requesting a modification. He said they have a stormwater design that will accommodate every adequately everything the site is contributing currently and will in the future. They are producing no more impervious surfaces now than what are already on the site. The topographical survey, provided by licensed surveyor, indicates that even though there may be a minor area where stormwater is going onto the neighbor's property, primarily the majority of the stormwater is on the owner's own property.

Mr. Timothy Sadler urged the applicant and the property owner to find good middle ground.

Dr. Thomas Morton Jr., applicant, explained that he has tried to work with Mr. Long in the past about the drainage issues. Mr. Long wanted to construct a wall between the properties split the cost of $25,000. Instead, Dr. Morton said that he constructed a nice curb on this property to make sure that any water would flow back onto his property. His new plan will stop all access on his neighbor's driveway, except for their renters. His initial plan was to keep the mature trees, but due to City regulations, some had to be cut. He intends to keep as many trees as possible.

In response to Vice-Mayor Hunt, Ms. Fields said that the plan is conceptual in nature because we don't want an applicant to fully engineer a site before they receive approval for what is a legislative decision from City Council. This did go to the Technical Review Committee before it went to the Planning & Zoning Commission. While staff looks conceptually at drainage issues, the fully engineering drawings of both grading and stormwater will take place post-approval, should the project be approved. The project will go back for final Technical Review Committee and at that time they will need to have the fully engineered drawings and be compliant with all our stormwater regulations, and get both grading and stormwater approval. There are provisions to divert the water onto the site, whereas, now there doesn't seem to be any water control, other than what the applicant has tried to do. There will be less impervious surface under this plan. She said that those are the reasons why staff is supportive of the plan.

Director of Development Services Shannon Tuch said that the applicant is redrawing their property lines and the residential piece of property will remain RS-8. Staff doesn't review the portion of the property that remains residential because it's not included in the scope of the work. From the stormwater prospective, the impervious surface in the project area that currently exists will be reduced. As a result of the reduction of impervious surface, they are not required to do stormwater quality, only quantity. They have to control the flow of the water which is what they are doing. In looking at this preliminarily, we don't anticipate an increase in water flow off the property - we anticipate a decrease in water flow off the property.

In response to Councilwoman Wisler, Ms. Tuch said that staff welcomes the property owner to retain as many trees as possible.

When Councilman Pelly asked what recourse Mr. Long would have after the project is built and the stormwater runoff still exists, Ms. Tuch said that if the water is from the neighbor's property, it's a civil issue between private property owners. If after the project is built and staff discovers that something is not working according to the plan, then they go back to the property owner for correction.

Ms. Elizabeth Morosani, spouse of Dr. Morton, noted that their survey shows that most of Mr. Long's garden is on their property.

Mr. Joseph Malkie felt that someone should ensure that the agricultural integrity is protected.

Mayor Manheimer closed the public hearing at 6:47 p.m.

When Councilman Smith asked if Ms. Fields has heard any comment from the urban farm people on the other side of Greenhill Avenue, she replied no.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the

master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4311 to conditionally zone property located at 20 and a portion of 28 Deaverview Road from RS-8 Residential Single Family High Density District and Highway Business District to Office District/Conditional Zoning for the construction of a dental clinic, with approval for the modifications to the landscaping and and parking standards, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) A subdivision recombination will have to be approved and recorded prior to permit issuance; and (6) Per the UDO (Office District), all activities associated with non-residential uses, including deliveries and refuse collection, shall be conducted between the hours of 7:00 a.m. and 9:00 p.m. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

ORDINANCE BOOK NO. 29 - PAGE 72

V. UNFINISHED BUSINESS:

A. APPROVAL OF FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR THE CAMBRIA HOTEL SUITES - LEVEL II PROJECT SITE PLAN APPEAL

At the request of Mayor Manheimer, Councilman Smith moved to rescue Mayor Manheimer from participating in the matter due to a conflict of interest. This motion was seconded by Vice-Mayor Hunt and carried unanimously. At this time, Mayor Manheimer handed over the gavel to Vice-Mayor Hunt to proceed with the meeting.

Vice-Mayor Hunt said that the public hearing on this matter was held on May 13, 2014, and no further comment would be accepted.

City Attorney Currin said that the appeal that was heard on May 13, 2014, was a quasi-judicial matter so there was evidence presented under oath and exhibits presented. City Council reached a decision to affirm the decision of the Planning & Zoning Commission and approve the site plan. The decision has to be reduced to writing and Council is charged with resolving disputed issues of fact and making findings of fact and conclusions of law based on what was heard at the hearing. She took the evidence and prepared a proposed findings of fact and conclusions of law which memorialize that decision. Those are in front of the Council at this meeting. When those findings and conclusions are approved, that is the time when the decision becomes official, and it is provided to the applicant and appellant. If there is any legal challenge or appeal, that is when the 30 day period begins to run. If the findings and conclusions are acceptable to City Council, she suggested approval.

Vice-Mayor Hunt said that members of Council have been previously furnished with a copy of the findings of fact and conclusions of law and it would not be read.

Councilwoman Wisler moved to adopt the findings of fact and conclusions of law for the Cambria Hotel Suites Level II Project - Site Plan Appeal. This motion was seconded by Councilman Bothwell and carried unanimously (Mayor Manheimer recused).

City Attorney Currin also noted that the appellant submitted several objections and suggestions that he had for the proposed findings. Those objections and suggestions were provided to City Council for review prior to final approval.

At this time, Vice-Mayor Hunt returned the gavel to Mayor Manheimer to continue presiding at the meeting.

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Ken Michalove spoke against the City using tax funds to support the Art Museum. He provided City Council with a letter dated May 27, 2014, in which several budgeting questions were raised for Pack Place and the Asheville Art Museum.

Mr. Roger McCredie asked if Vice-Mayor Hunt and City Manager Jackson were authorized by City Council, at their April 8, 2014, closed session, to demand at the April 9, 2014, Pack Place Board of Directors meeting that the Pack Place Board adopt a resolution asking for a 60-day extension of its existing lease (ends on June 30, 2014) in order to tie up loose ends and settles its affairs. Mayor Manheimer asked that City Attorney Currin look into the process of lease extensions and report back to Mr. McCredie.

Brother Christopher Chiaronmonte felt that Asheville won't repent because they took out the prayers at the Council meetings.

Mr. Timothy Sadler encouraged a thorough review of the transit management contract prior to renewal.

Mr. Joseph Malkie commented about customer service of the bus drivers and suggested a review of the injustice of the routes.

Closed Session

At 7:12 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to a lawsuit involving the following parties: State of North Carolina and City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Pelly and carried unanimously.

At 7:54 p.m., Vice-Mayor Hunt moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:54 p.m.

Magdalen Bowerson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 10, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; Deputy City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF RUN FOR THE WALL XXVI

On behalf of City Council, Councilman Davis thanked City Manager Gary Jackson, Executive Director of Planning & Multimodal Transportation Cathy Ball, Director of Communication & Public Engagement Dawa Hitch and Economic Development Specialist Jon Fillman for their participation in the Run for the Wall XXVI. He also said that the City of Asheville was awarded a plaque for their participation.

B. RECOGNITION OF CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY STUDENTS

Mayor Manheimer said that seven years ago, Mayor Bellamy and the Asheville City Council envisioned a new program that would place students with meaningful summer internships with City departments and partnering organizations throughout Asheville. This program would empower its students to get involved in their communities, support them in their quest for college, and reward them with a generous scholarship. Last year, 56 students at Asheville High School applied to the CAYLA program. After a rigorous application process, 24 students were selected. CAYLA's prestigious summer internships enable our students to explore careers and learn from caring adult professionals. Members of the CAYLA Class of 2014 interned with valuable community partners, including the Asheville Area Chamber of Commerce, the United Way, MAHEC, and Moog Music. Each Friday during the summer, the students attended day-long leadership workshops on a range of topics, including financial literacy, communication skills, and building consensus. Of the graduating seniors, all will be attending four-year colleges this fall – and many have earned significant merit scholarships. Since last June, the group has completed 26 different community service projects, with organizations including ABCCM, MANNA Foodbank, the Salvation Army, Brother Wolf, and Habitat for Humanity. Over the years, CAYLA students have given more than 2,800 volunteer hours. In recognition of their accomplishments and the critical role they will play in Asheville's future, the City of Asheville awards each CAYLA student a scholarship in the amount of $2,000.

With that, she read the names of the CAYLA students who were in the meeting this evening: Kanaje Allen, Brittany Boseman, Brandy Burgin, Jonaca Crooks, Markevis Davis, Michael Davis, Emmanuel Figaro, Jalyn Folston, Jahni Gilliland, Raekwon Griffin, Caleah Hallum, Ella Heldreth-Schmitt, Tyshaun Johnson, Phoenix Keyser, Mariah Lee, Brianca Livingston, Manny Lomeli-Garcia, Diana Marquez, Oscar Marquez, A.J. Mitchiner, Randesha Neely, Owen Ruth, Symone' Simmons and Promyss Watley.

Mayor Manheimer praised Erika Germer for her hard work on this program.

C. PROCLAMATION PROCLAIMING JUNE 10, 2014, AS "LIANA MURRAY DAY"

Mayor Manheimer read the proclamation proclaiming June 10, 2014, as "Liana Murray Day" in the City of Asheville. She presented the proclamation to Ms. Murray, 2014 Class from Asheville High School, who will represent North Carolina on Capitol Hill as part of the 2014 U.S. Presidential Scholars.

D. PROCLAMATION PROCLAIMING JUNE 13-22, 2014, AS "POLLINATION CELEBRATION WEEK"

Councilman Bothwell read the proclamation proclaiming June 13-22, 2014, as "Pollination Celebration Week" in the City of Asheville. He presented the proclamation to Ms. Phyllis Stiles, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 27, 2014

B. RESOLUTION NO. 14-116 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH PATTON CONSTRUCTION GROUP INC. FOR THE SUMMER 2013 WATER SYSTEMS IMPROVEMENTS PROJECT

ORDINANCE NO. 4312 - BUDGET AMENDMENT FOR THE SUMMER 2013 WATER SYSTEMS IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction agreement with Patton Construction Group, Inc., for the bid amount of $870,358.00 plus a contingency amount of $130,556.00 for a total project budget of $1,000,914.00 for the Summer 2013 Water System Improvements Project; and a budget amendment in the amount of $950,914.00 from savings in other capital projects that were completed under budget.

On April 25, 2014, the Water Resources Department issued an Invitation for Bids for the Summer 2013 Water System Improvements Project. This project consists of several job sites: (1) Hookers Gap and Wade Dr, which includes the installation of approximately 610 Linear Feet (LF) of 6-inch Ductile Iron Pipe (DIP); (2) Craig Circle, which includes the installation of approximately 1,630 LF of 6-inch DIP; (3) Ridge Avenue and Alta Ave, which includes the installation of approximately 1,580 LF of 6-inch DIP; (4) Dogwood Road (south) and White Pine Circle, which includes the installation of approximately 1,600 LF of 6-inch DIP; and (5) South Lexington Avenue, which includes the installation of approximately 650 LF of 8-inch DIP. All water line installations will include the installation of related appurtenances and materials required in order to complete the work. This project will replace existing undersized and failing waterlines in order to improve hydraulics, improve fire protection, and increase reliability. The Water Resources Department (WRD) issued an Advertisement For Bids for the construction project. In response to the Advertisement For Bids, the WRD received four (4) bids.

Companies responding were:

1. Buckeye Bridge LLC – Canton, NC
2. Cooper Construction Company, Inc. – Hendersonville, NC
3. Patton Construction Group, Inc. – Asheville, NC
4. T&K Utilities, Inc. – Asheville, NC

The bids were reviewed by City Staff and Patton Construction Group, Inc., was selected as the lowest responsible bidder at a bid of $870,358.00. A contingency amount of $130,556.00 has been added for a total project budget of $1,000,914.00.

Pros:

- This project will replace existing, undersized waterlines with a durable, reliable water system for the project neighborhoods.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects in order to provide safe and reliable service.
- Approval of the construction contract to the lowest responsible bidder will invest City funds in the local economy.

Con:

- Failure to award a construction contract would prevent the completion of this waterline system improvement and goal of continued investment in our infrastructure.

All of the projects except for Dogwood Road (south) were originally intended to be completed by an in-house Construction Crew funded through the Water operating budget. The crew, however, was dissolved so the projects will now be contracted out and funded through the Water CIP budget. As noted, the only location budgeted in the CIP Budget was Dogwood Road (south) for $50,000.00. The remaining funds of $950,914.00 needed to fund the full project will be transferred from the completed NCDOT Brevard Road and McIntosh Road Water Line Replacements projects. In order to transfer funds from these completed capital projects, a budget amendment is necessary.

Amount in Project Budget	$ 50,000.00
Amount Needed for Construction Contract	$ 950,914.00
Total Amount for Project	$1,000,914.00

City staff recommends City Council approval of the City Manager to enter into a construction agreement with Patton Construction Group, Inc., for the bid amount of $870,358.00 plus a contingency amount of $130,556.00 for a total project budget of $1,000,914.00 for the Summer 2013 Water System Improvements Project; and a budget amendment in the amount of $950,914.00 from savings in other capital projects that were completed under budget.

RESOLUTION BOOK NO. 36 - PAGE 219
ORDINANCE BOOK NO. 29 - PAGE 96

C. RESOLUTION NO. 14-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE 2014 BYRNE JUSTICE ASSISTANCE GRANT THROUGH THE US DEPT. OF JUSTICE

Summary: The consideration of a resolution authorizing the City to apply for funds through the 2014 Byrne Justice Assistance Grant – Local Solicitation in the amount of $56,677.

The Asheville Police Department requests authorization to apply for the 2014 Byrne JAG – Local Solicitation. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. If the grant is approved the Asheville Police Department and Buncombe County Sheriff's Department will be allocated $56,677 based on the award matrix, with Asheville receiving $42,143 and Buncombe County receiving $14,534. The distribution of funds would be approved through a signed MOU.

APD plans to purchase in-car video systems to place in patrol cars. These recordings would generally serve as evidence to be utilized in court for the prosecution of criminal cases. However, these recordings could also be used to aid in resolving allegations of wrongdoing by

officers. This would allow for an even greater level of protection of officers and citizens. The digital cameras provide high quality and high resolution video/audio recording of events in and around the patrol car. Recordings such as this help protect the interests of citizens as well as the interests of police officers. Recordings captured with these cameras could potentially aid in mitigating potential civil liability for the City of Asheville by illustrating in detail the actual events that transpired. The secure evidentiary storage and wireless upload capabilities of the system create a user friendly system that is extremely secure and versatile.

The Buncombe County Sheriff's Department plans to purchase thermal imaging equipment. This thermal technology is useful during night time applications when trying to locate a suspect or an endangered person. This equipment could be used in a variety of ways to save lives and apprehend suspects, while helping protect the officers engaged in the pursuit.

There will be an expense of $42,143 by the APD for the in-car video systems. The Buncombe County Sheriff's Department will expend $14,534 for the purchase of thermal imaging equipment. This accounts for the total allocation of $56,677 for this Grant.

This is a 100% funded non-local match grant that will enable the APD to greatly enhance documentation of patrol related activities such as vehicle stops, pursuits, etc. The video evidence will prove to be very valuable in court for both civil and criminal offenses. Additionally, such evidence will be valuable to for internal investigations into officer actions and encounters. This will enhance accountability for officer actions and increase officer and public safety.

Pros:

- Increasing In-Car video will allow for better documentation of police related incidents.
- Increases officer and citizen accountability through recorded interactions.

Con:

- Additional burden on the electronic secure storage capacity for storage of the videos
- Maintenance and replacement costs for the camera equipment which has an expected average service life of five years

There is a minimal fiscal impact at this time for City Council to approve the resolution authorizing the City to apply for the grant. If the grant is awarded, there would be maintenance and replacement costs for the equipment that would need to be included in future fiscal year budgets. Additionally, funding will be needed to provide additional secure server/storage space to maintain the evidentiary video.

City staff recommends City Council adopt the resolution authorizing the City Manager to apply for grant funds through US Office of Justice Programs in the amount of $56,677.

RESOLUTION BOOK NO. 36 - PAGE 221

D. RESOLUTION NO. 14-118 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL UTILITY AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE RELOCATION AND ADJUSTMENT OF MUNICIPALLY OWNED WATERLINES WITHIN THE I-26 / NC 280 (AIRPORT ROAD) INTERCHANGE PROJECT AREA

Summary: The consideration of a resolution authorizing the City Manager to execute a Supplemental Utility Agreement with NCDOT for the relocation and adjustment of municipally owned waterlines within the I-26 / NC 280 (Airport Road) interchange project area; the adjusted estimate for the relocation and adjustment of the waterlines is $196,900.

On July 23, 2013, City Council authorized the City Manager to execute a Municipal Utility Agreement with NCDOT for the I-26 / NC 280 Interchange Project (No. I-5501) in the amount of $164,000. The Water Resources Department was recently informed that the cost of the project has been increased to $196,900. Since the City of Asheville owns and maintains municipal waterlines within the right-of-way of the project area, the Water Resources Department is responsible for 100% of the cost associated with adjustment or relocation of the waterlines.

Pros:

- Execution of the agreement allows the City of Asheville Water Resources Department to meet its obligations to NCDOT for the adjustment or relocation of municipal waterlines within the NCDOT right-of-way.
- Execution of the agreement allows the required adjustment or relocation of municipal waterlines to be performed under the NCDOT construction contract, which will provide construction efficiencies producing cost savings and allow construction schedules to be met.

Cons:

- Failure to execute the agreement hinders the City of Asheville Water Resources Department ability to meet obligations to NCDOT for the adjustment or relocation of municipal waterlines within the NCDOT right-of-way.
- Failure to execute the agreement prevents the required adjustment or relocation of municipal waterlines from being performed under the NCDOT construction contract. This will create difficulties with construction coordination, create a lack of efficiencies and add to the overall cost of the construction.

The funding needed for this agreement is currently allocated within the NCDOT I-26 Widening Project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a Supplemental Utility Agreement with NCDOT for the relocation and adjustment of municipally owned waterlines within the I-26 / NC 280 (Airport Road) interchange project area; the adjusted estimate for the relocation and adjustment of the waterlines is $196,900.

RESOLUTION BOOK NO. 36 - PAGE 222

E. RESOLUTION NO. 14-119 - RESOLUTION APPROVING THE STRATEGIC PARTNERSHIP FUND (FORMERLY THE OUTSIDE AGENCY PROGRAM) AWARDS

Summary: The consideration of a resolution approving the recommendations of the Housing & Community Development (HCD) Committee for the 2015 Strategic Partnership Fund (formerly Outside Agency Grants).

The HCD Committee received applications from 14 eligible organizations for Strategic Partnership Funds for 2015. One application was withdrawn after submittal. The Committee considered these applications at their meeting on May 20, 2014, and now recommends 11 applications for funding. The recommendations are:

Agency	Funding Support Purpose	2015 Funding Recommendation
Appalachian Sustainable Agriculture Project	Funds will expand the reach and impact of the Growing Minds at Market (GM@M) to vulnerable children and families in the Asheville area.	5,000

Asheville Area Arts Council	Funds will support the Creative Industry Entrepreneurship Program, which offers professional and workforce development services through an array of business management training opportunities and the Artist's Resource Center.	10,000
Asheville Design Center	Funds will support Phase II (hard-scaping) of the Hall Fletcher Elementary Outdoor Learning Center.	4,000
Asheville Greenworks	Funds will support the on-going mission of the organization to clean up litter, reduce graffiti, recycle and reduce waste, and beautify with tree plantings, park restorations and flower beds.	10,000
Child Abuse Prevention Services, Inc.	Funds will help reduce and prevent child abuse, strengthen families and assist children and families who have experiences abuse through prevention education, parenting education, and crisis intervention/counseling.	5,000
Children First	Funds will support the Learning Center program in Pisgah View, Deaverview and Woodbridge apartment complexes.	20,000
Green Opportunities	Funds will assist in the creation and management of a community garden at the newly renovated W.C. Reid Center.	10,000
Homeward Bound	Funds will support the A-HOPE Day Center outreach, intake and support for homeless persons, and provide support for weekend operations.	25,000
One Youth At A Time	Funds will provide mentoring and tutoring, guided growth activities, job training and placement assistance to at-risk and critically at-risk youth ages 8-19.	4,400
Partners Unlimited	Funding will be used to pay for 16 NovaNET site licenses, program registration fees for low-income students, and personnel costs.	2,500
United Way 2-1-1	Funds will support 2-1-1, a community service information line that connects people to community resources. 2-1-1 is a free confidential service available by phone 24/7 to speakers of all languages. Its database of public and non-profit services is also available online and via mobile devices.	2,500

Total recommended funding is $98,400. This amount is unchanged from last year's Outside Agency Program, when funding for agencies now allocated through department line-item budgeting is factored into the total.

Pros:

- Approval of the Strategic Partnership Fund provides operating support to Asheville-based organizations that are providing direct services for Asheville residents.

- The Strategic Partnership Fund reflects the carefully considered recommendations of the City's Housing & Community Development Committee.

Con:

- Budget constraints continue to curtail the availability of funds; supported organizations will need to find alternate sources of program support. All worthy proposals could not be funded.

Strategic Partnership Funds are funded from the City's general fund. The funding recommendations do not exceed the fiscal limits included in the FY 2014-2015 Proposed Budget of $98,400.

The HCD Committee recommends approval of the 2015 Strategic Partnership Fund grants as presented.

RESOLUTION BOOK NO. 36 - PAGE 223

F. RESOLUTION NO. 14-120 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE THE SALE OF A REMNANT PIECE OF PROPERTY OFF COXE AVENUE TO SOUTH SLOPE HOLDINGS, LLC

Summary: The consideration of a resolution directing the City Clerk to advertise for upset bids for the sale of 512 square feet of remnant real property located off of Coxe Avenue to South Slope Holdings, LLC.

A recent title search of private property located at 185 Coxe Avenue discovered that the City of Asheville holds title to a 4 feet by 128 feet strip of vacant property located at the southern boundary line of 185 Coxe Avenue. The City of Asheville was deeded this strip of property in 1923 for a walkway to connect to the former Asheland Avenue School that operated in the 1930's and 1940's. The school was closed in the 1950's.

At this time, the property 185 Coxe Avenue has been purchased by South Slope Holdings, LLC for redevelopment and the company wishes to purchase this remnant property. Being that the property has limited practical utility, the method to establish fair market value is the upset bid process set forth in NCGS 160A-269. South Slope Holdings, LLC has put forth a bid of $1,000 for the property. If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $1,000. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $1,100 or higher.) Since the function of the upset bid process is to confirm fair market value, the resolution provides that if no qualifying, competing bid is received, then City Council agrees to convey this parcel to South Slope Holdings, LLC for $1,000.

The Parks Department and Transportation Department have confirmed that this property in not needed for future multi-modal transportation infrastructure.

Pros:

- Private sale will convert public land into taxable real property.

Cons:

- None.

Financial proceeds associated with the real property disposition are to benefit the Economic and Community Development Capital Improvement Project budget.

Staff recommends adoption of the resolution directing the City Clerk to advertise for upset bids for a property located off of Coxe Avenue.

RESOLUTION BOOK NO. 36 - PAGE 224

G. RESOLUTION NO. 14-121 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE THE SALE OF A REMNANT PIECE OF PROPERTY OFF HAZZARD STREET TO HELEN LINDBERG AND C.C. COURTNEY

Summary: The consideration of a resolution directing the City Clerk to advertise for upset bids for the sale of 0.06 acres (approx. 2600 square feet) of remnant real property located off of Hazzard Street to Helen Lindberg and C.C. Courtney.

The City of Asheville owns two parcels of remnant property located off of Hazzard Street that measure 0.03 acres each, for a total of 0.06 acres (PIN # 9648-69-9941 & 9648-79-0902). These parcels were deeded to the City by the Housing Authority in 1995 at the end of the Urban Renewal program. The parcels are configured in a flag-lot shape and have limited utility to the broad market of buyers. The adjacent property owners have put forth an offer of $3,000 to purchase both parcels.

Being that the property has limited practical utility, the method to establish fair market value is the upset bid process set forth in NCGS 160A-269. Helen Lindberg and C.C. Courtney have put forth a bid of $3,000 for the properties. If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $3,000. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $3,200 or higher.) Since the function of the upset bid process is to confirm fair market value, the resolution provides that if no qualifying, competing bid is received, then City Council agrees to convey this parcel to Helen Lindberg and C.C. Courtney for $3,000.

The Parks Department and Transportation Department have confirmed that this property in not needed for future multi-modal transportation infrastructure.

Pros:

- Private sale will convert public land into taxable real property and will relieve the City of ongoing maintenance responsibility.

Cons:

- None.

Because this property is associated with Federal Funds via Urban Renewal, the financial proceeds are to benefit the Community Development Block Grant fund.

Staff recommends adoption of the resolution directing the City Clerk to advertise for upset bids for a property located off of Hazzard Street.

RESOLUTION BOOK NO. 36 - PAGE 225

H. RESOLUTION NO. 14-122 - RESOLUTION ADOPTING THE CITY OF ASHEVILLE'S FINANCIAL POLICY TO INCLUDE HEALTH FUND RATES AND A REVISION TO THE DEBT POLICY

Summary: The consideration of a resolution adopting changes to the City of Asheville's Financial Policy to include Health Fund rates and a revision to the Debt policy.

National Advisory Council on State and Local Budgeting (NACSLB) and the Government Finance Officers Association (GFOA) recommend that local governments adopt a financial policy to help frame resource allocation decisions and guide financial management. Staff annually reviews the policy to ensure its continued relevance and to identify any gaps that need to be addressed by City Council. As part of this annual review process, staff is recommending that Council consider approving an updated policy.

The two most significant updates to the policy include the addition of a section on "Internal Service Fund" and an expansion of the section on "Debt". Each of these areas is described further below.

1. I. Internal Service Fund – Health Insurance Fund
   In February 2011 City Council appointed five (5) members of the community to serve on the Healthcare Task Force Committee. Council directed the group to conduct a broad review of health insurance benefits extended to City employees. Among the committee's recommendations was stabilization of the Health Insurance Fund to mitigate unforeseen catastrophic claims, larger than expected medical inflation trends, Incurred But Not Reported (IBNR) claims liability and the impact of the Affordable Care Act. The policy's objective is to establish mechanisms for rate setting, budgeting, and reserve requirements that will sustain the City's self-funded health insurance program.

2. J. Debt
   Revisions to the debt policy were endorsed by the City's Bond Counsel and Financial Advisor in order to 1) comply with federal tax law, and to 2) demonstrate to ratings agencies City Council's intent to preserve or improve the City's bond ratings through sound debt management.

   On May 27, 2014, the City Council Finance Committee endorsed the amendments.

Pro:

- Adoption of the revised Financial Policies codifies City Council's intent to maintain sound financial management practices.

Con:

- None.

City staff recommends that Council adopt a resolution adopting changes to the City of Asheville's Financial Policy to include Health Fund rates and a revision to the Debt policy.

RESOLUTION BOOK NO. 36 - PAGE 226

I. ORDINANCE NO. 4313 - ORDINANCE DESIGNATING A 25 MPH SPEED LIMIT ON GALAX AVENUE FROM VIRGINIA AVENUE TO THE END OF CITY MAINTENANCE; MINERAL SPRINGS ROAD FROM BEAUCATCHER ROAD TO TUNNEL ROAD; AND STANCLIFF DRIVE FROM OVERLOOK ROAD TO PHEASANT DRIVE

Summary: The consideration of an ordinance to enact and/or change the speed limits to 25 mph on Galax Avenue from Virginia Avenue to the End of City Maintenance, Mineral Springs Road from Beaucatcher Road to Tunnel Road, and Stancliff Drive from Overlook Road to Pheasant Drive.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 25 mph speed limit would be reasonable and safe on Galax Avenue from Virginia Avenue to the End of City Maintenance, Mineral Springs Road from Beaucatcher Road to Tunnel Road, and Stancliff Drive from Overlook Road to Pheasant Drive.

Pros:

- City staff has been able to respond favorably to citizen's requests.
- The new speed limits will be consistent with roads of like character and design.
- This action will also bring some of the roads into line with our speed limit policies.
- Based on the 85th percentile speeds, most drivers would adhere to the recommended speed limits on these roads.

Cons:

- The initial cost to install the appropriate speed limit signs is about $150.00.
- Typically, speed limit signs have a serviceable life of five to seven years.

The initial cost to install the appropriate speed limit signs is about $150.00 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance changing the speed limit to 25 mph speed limit on Galax Avenue from Virginia Avenue to the End of City Maintenance, Mineral Springs Road from Beaucatcher Road to Tunnel Road, and Stancliff Drive from Overlook Road to Pheasant Drive.

ORDINANCE NO. 29 - PAGE 98

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. LEGISLATIVE UPDATE

Assistant City Manager Paul Fetherston highlighted the following bills: S786 - Energy Modernization Act; HB1050 - Omnibus Tax Law Changes; includes Privilege License Tax reform; S729 - Governor's Coal Ash Action Plan; H150/S139 - Zoning Design & Aesthetic Controls; S734/H1136 - Authority to Adopt Certain Ordinances; H1191 - Authority to Adopt Local Ordinances; H531 - ETJ/Zoning - Weaverville & Buncombe/Correction; H1113 - Bent Creek Property Sullivan Act Exemptions; S743/H1031 - NC Economic Development Partnership Modifications; and H1142 - Modify Film/Historic Rehab Tax Credits. He also mentioned Town Hall Day; and the Water Update: SL 2013-50 (H488: Regionalization of Public Utilities) - on June 9, 2013, the Wake County Superior Court found in the City's favor of the Water System lawsuit.

Mayor Manheimer gave a brief update on their meetings during Town Hall Day in Raleigh last week. She was also pleased to reiterate that the Wake County Superior Court Judge found

in the City's favor of the Water System lawsuit. We will find out whether that is appealed within the next 30 days.

Councilman Bothwell thanked Barry Summers for his relentless work on the water issue.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 1 SUNSET PARKWAY FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT TO OFFICE II DISTRICT/ CONDITIONAL ZONING TO ALLOW FOR THE OPERATION OF A RESIDENCE AND A CANINE REHABILITATION CENTER, WITH REQUESTED LANDSCAPE AND PARKING MODIFICATIONS

Mayor Manheimer announced that the applicant has requested a continuance until July 22, 2014. Councilman Smith moved to continue this matter until July 22, 2014. This motion was seconded by Councilman Bothwell and carried unanimously.

B. PUBLIC HEARING TO CONSIDER ADOPTION OF THE FISCAL YEAR 2014-15 ANNUAL OPERATING BUDGET

PUBLIC HEARING TO CONSIDER REVISING THE STORMWATER UTILITY FEE

Finance Director Barbara Whitehorn said that conducts a public hearing each year to receive public input on the Proposed Annual Operating Budget prior to adoption of the Annual Budget Ordinance and the revision to the stormwater utility fee to allow a 3-tiered fee structure. This public hearing was advertised on May 30 and June 6, 2014.

The Fiscal 2014/2015 Proposed Annual Operating Budget was presented to City Council on May 27, 2014. The Fiscal Year 2014/2015 Proposed Budget is balanced while maintaining the current Ad Valorem tax rate of $0.46 per $100 of assessed value. All essential City services are continued in the Proposed Budget. A copy of the Proposed Budget is available for public inspection in the City Clerk's office. The Proposed Budget is also available for viewing on the City's website (www.ashevillenc.gov).

In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 30 and June 6, 2014. Adoption of the Fiscal 2014/2015 Budget Ordinance is scheduled for June 24, 2014, at the regularly scheduled City Council meeting. The Proposed Budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption, with the only exception being the Ad Valorem Tax rate, which cannot be changed once the Budget is adopted.

Staff recommends City Council conduct the public hearing on the City of Asheville Fiscal Year 2014/2015 Proposed Annual Operating Budget and include public input in its consideration of the Budget.

Ms. Whitehorn explained the two legislative developments (1) Privilege License Tax Update (a) repeal effective Fiscal Year 2015-16; and (b) minor changes in Fiscal year 2014-15; and (2) City prevailed in the Water System lawsuit judgment. She then reviewed the Neighborhood Sidewalk Program, noting that the Multimodal Transportation Team recommendation is $550,000 over five years with CIP, and reductions in other project allocations. She then showed a chart of the revisions. The Program is funded at $100,000 for Fiscal Year 2015 and will be reevaluated for funding and program in the Fiscal Year 2016 budget process.

She recapped that this is a continuation budget, it meets City Council's key goals, there is no tax rate increase, and there is included a Capital Improvement Program.

Transportation Director Ken Putnam responded to various questions from Council, some being, but are not limited to: why are we not using the existing sidewalk criteria; how much sidewalk will we be able to get built for $550,000 over 5 years; what is the status of the Pedestrian Master Plan; and when is the Multimodal Transportation Plan expected for adoption.

At the suggestion of Councilwoman Wisler, and consensus of Council, the Finance Committee was directed to include in their work plan for the year to do an analysis of the Buncombe County tax collections process to see if there are other options, e.g., the City doing the collection in-house.

Mayor Manheimer opened the public hearing for the budget and the stormwater utility fee structure at 5:56 p.m.

Mr. Chris Peterson acknowledged that there would not be a property tax increase next fiscal year; but was concerned that City Council is taxing the citizens in other ways, e.g., the stormwater utility fee increase. He felt the high administrative costs to administer the fee should be reviewed.

Mr. Saul Chase felt that there was not enough money allocated for neighborhood sidewalks.

Ms. Amy Cantrell thanked City Council for recognizing that public transportation needs to be a priority. She presented Council with a petition containing 349 signatures thanking Council for Sunday bus service, later night service, and changes to the C route.

Ms. Itiyopiya Ewart thanked City Council for their support of transit services, including Sunday bus service, and neighborhood sidewalks.

Mr. Steve Olin spoke in support of additional neighborhood sidewalks.

A bicyclist suggested revising the budget so people can get a clear sense of how much the City is allocating to bicycling.

Mr. Ken Michalove was not satisfied with the City's response to his budget questions regarding Pack Place and the Asheville Art Museum. He raised concerns of Council's lack of due diligence as it pertains to the leasing of Pack Place and contributions to the Asheville Art Museum.

Mr. Roy Harris spoke in support of Sunday bus service and neighborhood sidewalks.

Mayor Manheimer closed the public hearing at 6:20 p.m.

Councilman Pelly acknowledged that the budget will bring significant improvements to our community; however, $550,000 for neighborhood sidewalks over 5 years won't go far - roughly 1 mile of sidewalk. He acknowledged that we can't have sidewalks on every street, but he felt that the connector streets are the streets that we need to target in the future. He was concerned that with a $132 Million Capital Improvement budget, only $550,000 is being allocated for neighborhood sidewalks. He felt that amount was inadequate and hoped that, as important as the rest of the Capital Improvement Program is, this will be something that Council would re-consider allocating additional funds.

Councilman Bothwell agreed with Councilman Pelly. He explained the need for stormwater management as incidents of high volume water events are increasing. He noted that

the fee proposed does not affect homes 2,000 square feet and under. He said the increase ranges from $2.80 to $5.50 a month (on a 5-6,000 square foot home). He felt it's an essential safety matter and the City Council is trying to address the need.

Mayor Manheimer noted that the stormwater fee we are proposing is far less than other cities across the state, noting that we are a little more challenged than other cities in terms of managing stormwater. There are very large infrastructure projects that this fee will be used for that are more regional in nature. This is a needed step to develop a strong stormwater system for the future.

Deputy City Attorney McGlohon said that when the amendment to the Fees & Charges Manual is adopted that it will have to have a delayed implementation time of 60-90 days for the residential increases.

Councilman Smith agreed with Councilman Pelly about our values being reflected in the budget. The budget looks at a way to provide adequate economic stability, and also looking at economic mobility. The City has to keep getting as creative as they can.

Mayor Manheimer said that adoption of the Fiscal Year 2014-15 Annual Operating Budget will occur on June 24, 2014. In addition, the ordinance amending the Fees & Charges Manual regarding a 3-tiered stormwater fee structure will be considered on June 24, 2014, with the public hearing on the amendment to the stormwater ordinance in August, 2014.

C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE REGARDING RESIDENTIAL DEVELOPMENT DENSITY STANDARDS IN CERTAIN COMMERCIAL ZONING DISTRICTS

At the request of City staff, Councilwoman Wisler moved this public hearing be continued until July 22, 2014. This motion was seconded by Councilman Bothwell and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Greater Asheville Regional Airport Authority, the following individual applied for the vacancy: Gary Herndon. It was the consensus of Council to postpone action for two weeks on this appointment.

Regarding the Citizens-Police Advisory Committee, the following individual applied for a vacancy: Buck Bragg. It was the consensus of Council to postpone action on these appointments, noting that all members are appointed until their successors have been appointed.

Regarding the Civic Center Commission, the following individuals applied for the vacancy: Nick King, Sheila Surrett, Gary Herndon, Geoff Mohney, Yvonne Cook-Riley and Greg Duff. It was the consensus of Council to re-advertise one additional month.

Regarding the Community Relations Council, the following individuals applied for the vacancy: Sandra Houts, Brandee Boggs and Fyffe Aschenbrenner. It was the consensus of Council to re-advertise for one additional month.

Regarding the Multimodal Transportation Commission, it was the recommendation of the Boards & Commissions Committee, and consensus of Council to amend the membership composition of the Multimodal Transportation Commission to have 2 members representing

transit interests, 2 members representing greenway interests, 2 members representing bicycle/pedestrian interests, and 3 at-large members; and advertise for vacant seats.

Regarding the Neighborhood Advisory Committee, the following individuals applied for a vacancy: Nick King, Teddy Jordan and Julie Hansbury. It was the consensus of Council to (1) reappoint Robert Roepnack, Barber Melton and Elaine Poovey; and interview Teddy Jordan and Julie Hansbury.

Regarding the Public Art and Cultural Commission, the following individuals applied for a vacancy: Denise Drury, Jay Fields, Jenny Bowen and Jay Miller. It was the consensus of Council to (1) reappoint Victor Palomino, Jaan Ferree, Gwynne Rukenbrod and Guillermo Rodriguez; and (2) interview Denise Drury, Jay Fields, Jenny Bowen and Jay Miller.

RESOLUTION NO. 14-123 – RESOLUTION APPOINTING THE CHAIRMAN TO THE CIVIL SERVICE BOARD

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a Chair to the Civil Service Board to serve until June 25, 2015, or until their successor is appointed, whichever occurs first.

It is the responsibility of City Council to appoint the Chair of the Civil Service Board and the Chair of the Civil Service Board shall be appointed annually by City Council.

On August 27, 2013, City Council adopted Resolution No. 13-179 which appointed Mr. Marvin Rosen to serve as Chair for one year (June 25, 2014) or until his successor was duly appointed by Council, whichever occurred first.

In 2013, a process was established for future appointments to the chair role of the Civil Service Board. Said process offered members of the Civil Service Board to express interest in serving as Chair.

At the Civil Service Board meeting in May, 2014, all members were advised to contact City Clerk Burleson if they were interested in serving as Chair. Mr. Rosen was the only interested member.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Rosen as Chair.

Vice-Mayor Hunt moved to reappoint Mr. Marvin Rosen as Chairman of the Civil Service Board to serve a one-year term, term to expire June 25, 2015, or until his successor is duly and annually appointed by the City Council, as provided by law. This motion was seconded by Councilwoman Wisler and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 232

RESOLUTION NO. 14-124 – RESOLUTION APPOINTING A MEMBER TO THE WNC REGIONAL AIR QUALITY AGENCY

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the WNC Regional Air Quality Agency.

The term of Dean Kahl expires on July 1, 2014.

No one applied for the vacancy.

It was the consensus of the Boards & Commissions Committee to reappoint Dr. Kahl.

Mayor Manheimer moved to reappoint Dean Kahl to serve an additional six-year term, term to expire July 1, 2020, or until his successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 233

RESOLUTION NO. 14-125 – RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE CRIME-STOPPERS BOARD OF DIRECTORS

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Crime-Stoppers Board of Directors.

The terms of Anthony Mitchell and Karl Katterjohn expire on June 30, 2014.

The following individual applied for the vacancy: Tom Fisher.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Mitchell and Mr. Katterjohn.

Vice-Mayor Hunt moved to reappoint Anthony Mitchell and Karl Katterjohn to each serve a three-year term, terms to expire June 30, 2017, or until their successors have been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 234

RESOLUTION NO. 14-126 – RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Historic Resources Commission.

The terms of Brendan Ross and Richard Fast expire on July 1, 2014.

The following individuals applied for the vacancy: Tom Hartwell, Keaton Edwards, Jesse James, Gary Herndon, Patricia Darcy, Kendra Turner and Geoff Mohney.

It was the consensus of the Boards & Commissions Committee to reappoint Ms. Ross and Mr. Fast.

Vice-Mayor Hunt moved to reappoint Brendan Ross and Richard Fast to each serve a three-year term, terms to expire July 1, 2017, or until their successors have been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 235

RESOLUTION NO. 14-127 – RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Recreation Board.

The terms of Todd Dunnuck, Mildred Nance-Carson, Josh O'Conner and Jordan Veale expire on June 30, 2014.

The following individuals have applied for a vacancy: Kimberly Reed, Mary Michael and Patrick Dennehy.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Dunnuck and Mr. O'Conner; and appoint Kimberly Reed and Patrick Dennehy.

Councilman Smith moved to (1) reappoint Todd Dunnuck and Josh O'Conner to each serve a three-year term, terms to expire June 30, 2017, or until their successors have been appointed; and (2) appoint Kimberly Reed and Patrick Dennehy to serve a three year term respectively, terms to begin July 1, 2014, and expire June 30, 2017, or until their successors have been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 236

RESOLUTION NO. 14-128 – RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that Mayor Esther Manheimer has has to resign from the Asheville Area Riverfront Redevelopment Commission, thus leaving a vacancy for the City Council ex-officio voting member.

Vice-Mayor Hunt moved to appoint Councilman Jan Davis to serve on the Asheville Area Riverfront Redevelopment Commission in an ex-officio voting capacity until he is no longer a member of the Asheville City Council. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 237

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Jeanie Rosenthal updated City Council on the inactivity of Partnership Property Management to enforce people not smoking at least 25 feet from their apartment complexes. She provided Council with an article on the negative impact of e-cigarette smoking.

Mr. Bob Spitzen asked for Council's assistance to see if a lis pendens has been served on his son who owns 76 Lanvale Avenue. Deputy City Attorney McGlohon stated that the City Attorney's Office is familiar with Mr. Spitzen's issue and is trying to resolve the issue.

Ms. Itiyopiya Ewart thanked City Council for their support of transit services, including Sunday bus service, and neighborhood sidewalks.

Mr. Timothy Sadler thanked Council for their work on the water system lawsuit and asked, under the Freedom of Information Act, how many employee hours went into the establishment of the Cultural Recreation Authority and the Water System lawsuit.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:51 p.m.

Magdalen Bruleson
CITY CLERK

Esther G Manheimer
MAYOR

Tuesday – June 24, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Rev. Christopher Chiaronmonte raised a point of order regarding prayer at Council meetings.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

At the request of City staff, (1) Consent Agenda Item "F" will be continued until July 22, 2014; (2) Consent Agenda Item "J" was removed from the Consent Agenda for an individual vote; (3) Consent Agenda Item "L" was removed from the Consent Agenda entirely until a further date; and (4) Consent Agenda Item "O" was removed from the Consent Agenda for discussion and/or individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 10, 2014

B. RESOLUTION NO. 14-129 - REIMBURSEMENT UPDATING THE FY 2013-14 DEBT REIMBURSEMENT RESOLUTION ADOPTED BY CITY COUNCIL ON AUGUST 27, 2013, DECLARING THE INTENT OF THE CITY TO REIMBURSE ITSELF FROM DEBT PROCEEDS FOR EXPENDITURES INCURRED IN CONNECTION WITH THE DEMOLITION OF CITY PROPERTY ON HAYWOOD ROAD (HANDY PARK) AND THE CONSTRUCTION OF A RETAINING WALL ON THE SITE

RESOLUTION NO. 14-130 - RESOLUTION DESIGNATING THE CITY MANAGER AND CHIEF FINANCIAL OFFICER AS AUTHORIZED OFFICERS TO DECLARE THE INTENT OF THE CITY TO REIMBURSE ITSELF FOR FUTURE CAPITAL EXPENDITURES INCURRED IN CONNECTION WITH DEBT OBLIGATIONS

Summary: The consideration of: 1) a resolution updating the FY 2013-14 debt reimbursement resolution adopted by City Council on August 27, 2013, declaring the intent of the City to reimburse itself from debt proceeds for expenditures incurred in connection with the demolition of City property on Haywood Street (Handy Park) and the construction of a retaining wall on the site; and 2) a Resolution designating the City Manager and Chief Financial Officer as authorized officers to declare the intent of the City to reimburse itself for future capital expenditures incurred in connection with debt obligations.

City Council adopted a debt reimbursement resolution on August 27, 2013, declaring its intent to reimburse itself with debt proceeds for certain capital projects and

equipment expenditures that were authorized in the FY 2014 budget. These expenditures included the construction and improvement of streets, bridges, sidewalks and multimodal facilities, the renovations and improvements to City Hall, Pack Place, and park/athletic facilities, the acquisition and construction of park facilities and greenways, the acquisition, construction and improvement of workforce housing, the acquisition of vehicles and equipment and utility improvements.

In February 11, 2014, City Council approved a contract for the Handy Park Building Demolition and Retaining Wall Construction. As outlined in the staff report at the time, the contract will be funded with debt proceeds as part of the Community and Economic Development Capital Improvement Program (EDCIP). Since this project was not included as part of the original debt reimbursement resolution adopted last August, staff recommends that Council adopt an updated reimbursement resolution.

In addition, staff is also seeking Council approval of a resolution designating the City Manager and Chief Financial Officer as authorized officers to declare the intent of the City to reimburse itself for future capital expenditures incurred in connection with debt obligations. Currently, all reimbursement resolutions must be approved by City Council. Staff is requesting that Council approve a resolution delegating this approval authority to the City Manager and the Chief Financial Officer. The purpose of the reimbursement resolution is to provide the City with the ability to move forward with the projects and reimburse its accounts upon the issuance of the debt. The reimbursement resolution itself does not specifically authorize the issuance of the debt. Those resolutions will be drafted in connection with the actual debt issuance and will be approved by City Council.

Pro:

- Enables the City to begin spending money on the Council's approved capital projects, vehicles and equipment that were to be financed from debt proceeds.

Con:

- Lost opportunity to earn interest (although at very low interest rates in the range of 1/10 of 1% to 1/4 of 1%) on the City's unrestricted cash and investments which are temporarily diverted to pay for the capital projects pending reimbursement from the debt issuance.

The Reimbursement Resolution will result in some minimal loss of interest income. Bidding and proceeding with the authorized capital projects may result in better pricing thus lower the actual amount of the debt financing. The repayment of the debt issuance is incorporated in the debt management plan.

Staff recommends City Council adopt: 1) a resolution updating the FY 2013-14 debt reimbursement resolution adopted by City Council on August 27, 2013 declaring the intent of the City to reimburse itself from debt proceeds for expenditures incurred in connection with the demolition of City property on Haywood Street (Handy Park) and the construction of a retaining wall on the site; and 2) a resolution designating the City Manager and Chief Financial Officer as authorized officers to declare the intent of the City to reimburse itself for future capital expenditures incurred in connection with debt obligations.

RESOLUTION NO. 14-129 - RESOLUTION BOOK NO. 36 - PAGE 238
RESOLUTION NO. 14-130 - RESOLUTION BOOK NO. 36 - PAGE 239

C. RESOLUTION NO. 14-131 - RESOLUTION APPROVING AN INSTALLMENT FINANCING AGREEMENT TO FINANCE VEHICLES AND EQUIPMENT AND DELIVERY THEREOF AND PROVIDING FOR CERTAIN OTHER RELATED MATTERS

Summary: The consideration of a resolution authorizing execution of a $1,810,000 installment financing contract for FY2014 CIP Vehicles and Computer Equipment.

Appropriations for FY2014 include $1,810,000 for various vehicles and computer equipment, with the capital expenditures financed through debt proceeds.

The City distributed on May 30, 2014, a Request for Proposal ("RFP") seeking competitive bids for the financing. Twelve proposals were received, the most favorable of which was submitted by Wells Fargo Bank (the "Bank") at an interest rate of 1.22% per annum for a term of 48 months (computer equipment) and 59 months (vehicles). The loan is structured with level principal payments and semiannual payments.

The proposed resolution authorizes an installment financing contract between the City of Asheville and the Bank for the purchase of the vehicles and computer equipment, and it authorizes the City Manager, City Attorney, Finance Director and City Clerk to execute and deliver any and all necessary documents. The contract will place a security interest in the vehicles and computer equipment in favor of the Bank in order to secure the City's obligation under the contract. Pursuant to a previously adopted reimbursement resolution, proceeds from this financing contract will allow the City to reimburse itself for the cost of the vehicles and computer equipment which have already been procured.

Pros:

- Provides funding of capital expenditures at a very favorable effective interest rate.
- Financing capital purchases spreads the cost of acquisition over several years of the useful life of the asset.
- Reimbursing this capital purchase with the proceeds of the financing, as opposed to paying for the purchase by using the City's available cash balances, increases currently available funds through restoration of fund balance.
- The financing conforms to the approved Financing Plan for capital expenditures.

Con:

- Financing the purchase increases nominally the lifetime cost of the acquisition due to the payment of interest and closing costs on the amount financed.

The annual debt service payments for this financing range between approximately $403,000 in the first year and approximately $284,000 in the fifth year. Funds are included in the City's FY 2014-15 proposed debt service budget to cover this cost.

City staff recommends that City Council adopt the resolution authorizing the City Manager to execute an installment purchase contract and closing process with Wells Fargo Bank for the acquisition of the vehicles and computer equipment.

RESOLUTION BOOK NO. 36 - PAGE 240

D. RESOLUTION NO. 14-132 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH TENNOCA CONSTRUCTION COMPANY INC. FOR THE CRAVEN STREET IMPROVEMENTS PROJECT

ORDINANCE NO. 4321 - BUDGET AMENDMENT FOR THE CRAVEN STREET IMPROVEMENTS PROJECT

RESOLUTION NO. 14-142 - RESOLUTION AUTHORIZING THE CITY MANAGER TO COMPLETE NEGOTIATIONS WITH NEW BELGIUM BREWERY AND MODIFY THE EXISTING MEMORANDUM OF

UNDERSTANDING TO ALLOW FOR COST SAVING PARTNERSHIPS DURING THE CONSTRUCTION PROCESS

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a contract with Tennoca Construction Company, Inc. for the construction services necessary to complete the Craven Street Improvements Project; and (2) a budget amendment in the amount of $6,901,570.66, which includes pay-go, debt, and grant resources from the Water Resources Fund, Stormwater Fund, Parking Fund, and the General Fund CIP, to fund the contract and a 15% contingency.

In addition, City staff is requesting City Council consideration of a resolution authorizing the City Manager to revise the Memorandum of Understanding with New Belgium Brewery to include construction partnerships that will mutually benefit both the City of Asheville and New Belgium Brewery.

On June 12, 2012 City Council approved a contract with ColeJenest & Stone for professional services for the design of the Craven Street Improvement project. This project includes improvements to the existing two lane roadway by implementing a complete street approach to the design. The new facility will include bike lanes, sidewalk, stormwater improvements, stream restoration, greenway, parking areas and two-way vehicular traffic. The bids for the project were opened on June 17, 2014. Three bids were received as follows:

- NHM Constructors, Asheville, N.C. - Bid - $6,243,708.81
- Tennoca Construction, Candler, N.C. - Bid - $6,001,365.79
- Buchanan and Sons, Whittier, N.C. - Bid - $6,531,727.77

The City of Asheville determined Tennoca Construction Company to be the lowest responsive and responsible bidder for the project.

The City has three funding partners on this project: (1) Golden Leaf Foundation has provided $300,000; (2) the Economic Development Administration from the Department of Commerce has partnered to provide approximately $1.12M; and (2) the Clean Water Management Trust Fund through RiverLink has provided $365,000. The remaining cost of the project will be paid through the Stormwater, Water, and Parking Funds and General Fund utilizing a combination of pay-go funds and debt proceeds.

Within the scope of the project, Tennoca will perform the construction services necessary to provide improved transportation connections (including pedestrian, bike and vehicular) to the Craven Street area. New Belgium Brewery is continuing their project and anticipates being complete in the winter of 2015.

The City and NBB has an existing MOU in place, with the different elements of the construction project. The City and NBB desire to amend the MOU to allow for cost saving measures, to include but not limited to: grading, Stormwater BMP's and Stream Restoration. Further, the cost saving will address the large box culvert that is partially located within the City's right-of-way and on NBB property. A revision to the MOU will be necessary for the City to be able to complete this work and receive reimbursements.

This action meets Council goals by enhancing the city's long-term financial commitment to infrastructure maintenance and capital improvements. Additionally, this project leverages internal and external partnerships for pursuing capital improvements and infrastructure projects.

This project follows the commitment made to New Belgium Brewery to make the necessary improvements in this area. The project also further enhances the environment by placing Stormwater Best Management Practices devices to provide water quality treatment in the area. The stream restoration is part of the project.

This project complies with the Council's Strategic Plan to promote Financial Sustainability by partnering with other organizations such as Clean Water Management Trust Fund, Economic Development Administration, and the Golden Leaf Fund; and promotes a High Quality of Life by providing a safe community for our citizens. This action also meets Council goals by enhancing the City's long-term financial commitment to infrastructure maintenance and capital improvements.

Pros:

- Improvements to the transportation facility in this area, including vehicles, pedestrians and bike facilities.
- The project moves forward with a timely opening date of December 2015.
- Provides safe access for the citizens that visit this area.
- Promotes the environment through water quality devices and the stream restoration.
- Makes safety improvements to the Hazel Mill and Craven Street intersection

Cons:

- Construction will be disruptive to the area for approximately 1 year.
- Continued coordination of the project will be time consuming.

The design budget for the project, which was previously approved by Council totaled $852,604. The construction contract amount, along with the 15% contingency that is being approved and budgeted tonight totals $6,901,570.66, which brings the total budget for the project to $7,754,174.66. As mentioned above, the City has secured $1,787,401 in funding from partner agencies for this project. The remaining budget amount of $5,966,773.66 will be divided between the General Fund, Stormwater Utility Fund, Parking Fund, and Water Resources Fund based on the cost of the various elements of the project. A complete summary of the budget for the project is shown below.

Revenue Sources:	
EDA Grant	1,122,401.00
Golden Leaf Grant	300,000.00
CWMTF Grant	365,000.00
Water Fund Pay-Go	344,860.75
Parking Fund Debt Proceeds	381,883.50
Parking Fund Pay-Go	97,362.00
Stormwater Fund Debt Proceeds	1,112,833.95
Stormwater Fund Pay-Go	206,810.96
General Fund Debt Proceeds	3,732,879.50
General Fund Pay-Go	90,143.00
Total Revenue	**7,754,174.66**
Expenses:	
Design	852,604.00
Construction	6,901,570.66
Total Expenses	**7,754,174.66**

City staff recommends City Council approve (1) a resolution authorizing the City Manager to complete negotiations and sign a contract with Tennoca Construction Company, for the

construction services necessary for completion the Craven Street Project $6,001,365.79, and to enter into change orders to this contract not to exceed 15% of the original contract or $900,204.87; and (2) a budget amendment, in the amount of $6,901,570.66, which includes pay-go, debt, and grant resources from the Water Resources Fund, Stormwater Fund, Parking Fund, and the General Fund CIP, to fund the contract and a 15% contingency.

In addition, City staff recommends City Council approve a resolution authorizing the City Manager to modify the existing Memorandum of Understanding with New Belgium Brewery to allow for cost saving partnerships during the construction process.

RESOLUTION NO. 14-135 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE NEW BELGIUM CLIPS BEER & FILM TOUR ON SEPTEMBER 5, 2014

RESOLUTION NO. 14-136 - RESOLUTION AUTHORIZING THE SALE AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ORGANICFEST ON SEPTEMBER 7, 2014

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at Ingle's Independence Day Celebration on July 4, 2014; Riverfest on August 9, 2014; New Belgium Clips Beer & Film Tour on September 5, 2014; and Organicfest on September 7, 2014.

- The Asheville Downtown Association has requested through the City of Asheville Office of Economic Development that City Council permit them to serve beer and/or unfortified wine at the Ingle's Independence Day Celebration and allow for consumption at this event.

  The Ingle's Independence Day Celebration will be held on Friday, July 4, 2014 from 2:00 p.m. – 10:00 p.m. at Pack Square Park as per the event area limits referenced on the accompanying site map.

- Riverlink has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Riverfest and allow for consumption at this event.

  Riverfest will be held on Saturday, August 9, 2014, from 1:00 p.m. – 7:00 p.m. at French Broad River Park as per the event area limits referenced on the accompanying site map.

- Asheville on Bikes has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at the New Belgium Clips Beer & Film Tour and allow for consumption at this event.

The New Belgium Clips Beer & Film Tour will be held on Friday, September 5, 2014, from 7:30 p.m. – 10:30 p.m. at Pack Square Park as per the event area limits referenced on the accompanying site map.

- Asheville Greenworks has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Organicfest and allow for consumption at this event.

  Organicfest will be held on Sunday, September 7, 2014, from 10:00 a.m. – 6:00 p.m. at Pack Square Park as per the event area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for the Asheville Downtown Association, Riverlink, Asheville on Bikes, and Asheville Greenworks

Con:

- Potential for public safety issues

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Ingle's Independence Day Celebration, Riverfest, New Belgium Clips Beer & Film Tour, and Organicfest.

F. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE AGREEMENT WITH ROYAL PINES CENTER FOR REAL PROPERTY AT JAKE RUSHER PARK AT 139 PEACH TREE STREET, ASHEVILLE, NORTH CAROLINA

This item has been moved until July 22, 2014.

G. RESOLUTION NO. 14-138 - RESOLUTION TO ESTABLISH THE CRITERIA FOR A DESIGN-BUILD DELIVERY METHOD FOR CONSTRUCTION CONTRACTS AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO REVIEW AND APPROVE THE WRITTEN CRITERIA FOR EACH INDIVIDUAL DESIGN-BUILD PROJECT

RESOLUTION NO. 14-149 - RESOLUTION AUTHORIZING THE CITY MANAGER TO USE THE DESIGN-BUILD DELIVERY METHOD FOR CONSTRUCTION OF THE NATURE CENTER PAVILION AND RESTROOM PROJECT

Summary: The consideration of (1) a resolution establishing the criteria for a Design-Build Method for Construction Contracts, and authorizing the City Manager or his designee to review and approve the written criteria for each individual design-build project to ensure compliance with these adopted criteria; and (2) a resolution authorizing the City Manager to use the Design-Build Delivery Method for construction of the Nature Center Pavilion and Restroom Project.

Prior to the enactment of North Carolina General Statutes 143-128.1A (formerly Session Law 2013-401 and HB 857), state law authorized four contracting methods for large building construction projects: single-prime, separate-prime (also referred to as multi-prime), dual-bidding (bidding both sing- and separate-prime simultaneously), and construction management at risk.

Design-build was considered an alternative construction method requiring either State Building Commission approval or legislative authorization. While design-build was not statutorily restricted for either building construction projects costing up to $300,000 or for construction projects that did not involve a building, the competitive bidding requirements of NCGS Article 8 of Chapter 143 made entering in those type of contract both legally and practically unwieldy. Consequently it was not uncommon for local governments in NC to request, and the General Assembly to enact, local bills authorizing individual local governments to use design-build for specific projects. Session Law 2013-401 eliminated the need for these types of local acts for future projects.

The design-build method is an integrated approach to a construction project that delivers both design (architectural and engineering) and construction services under one contract with a single point of responsibility. Under this delivery method, the City is provided the benefit of the design team and contractor working together to achieve the City's objectives under a single contract. That is, a designer works directly with the contractor instead of working separately for the City.

Under the design-build method, project specifications are not drawn prior to initiating the contracting process. Instead, the City advertises general information about the project and selects the design-builder based on its qualifications to design and construct the project. Once under contract, the design-builder works with the City to design the project based on the City's project criteria, usually by preparing a preliminary design followed by detailed specifications after the City's approval of the preliminary design.

To initiate the contracting process, the City must establish written criteria for determining when design-build is appropriate for a project. Further, *the statute requires that the City adopt the criteria for each individual project.* The next section of this staff report defines in Part 1 the criteria to be used for each individual project. Part 2 then applies this set of criteria to the Nature Center Pavilion and Restroom Project.

Though the statute requires that written criteria be adopted for each project that utilizes the design-build method, it does not specifically require governing board approval of such criteria. However, from a compliance standpoint, some from of higher level approval is advisable and therefore Part 1 requests authorization for the City Manager to approve individual project criteria on all future projects.

Criteria for Determining Whether the Design-Build Delivery Method is Appropriate for a Project:

Part 1 – Establishment of Criteria

Criteria 1: The extent to which the City can adequately and thoroughly define the project requirements prior to the issuance of the request for qualifications (RFQ) for a design-builder. The design-build method may be used if it is determined that, for the project, the City has professional staff that are both qualified and experienced to thoroughly define project requirements prior to the issuance of a request for qualifications (RFQ) for a design-builder. Consideration will be given to the qualifications and experience of City staff and the availability of professional staff in the areas of purchasing, finance and legal to assist in the development of an RFQ.

Criteria 2: The time constraints for the delivery of the project. The design-build delivery method may be used if a project has a firm date by which a facility must be operational and the normal delivery method (i.e. RFQ, study, design, bid and construct) is likely not to be timely. The size and cost of a project will dictate complexity and schedule.

Criteria 3: The ability to ensure that a quality project can be delivered. The design-build delivery method may be used if it is determined that, for the project, the City has professional and experienced staff to ensure that the design-build firm will provide a quality project within the

budget constraints established by Council. Consideration will be given to the qualifications and experience of City staff charged with management of the project.

Criteria 4: The capability of the City to manage and oversee the project, including the availability of experienced staff or outside consultants who are experienced with the design-build method of project delivery. The design-build delivery method may be used if it is determined that, for the project, the City has professional and experienced staff that are knowledgeable of design-build projects or, in the alternative, experienced consultants local to Asheville are available to be retained to perform the construction management of a design-build contract.

Criteria 5: A good-faith effort to comply with historically underutilized business participation requirements (NCGS 143-128.2, NCGS 143-128.4), and to recruit and select small business entities. The design-build delivery method may be used if it is determined that, for the project, requirements will be imposed which ensure that contractors will comply with the M/WBE goals set by Council.

Criteria 6: The criteria utilized by the City, including a comparison of the costs and benefits of using the design-build delivery method of a given project in lieu of the other delivery methods identified. The criteria utilized by the City when considering a design-build delivery method for a project will be as follows:

- Is the project well defined and does it include qualitative and quantitative characteristics that make a design-build contract more appropriate than other methods of delivery?
- Is the project timeline overly constrained and will it be necessary to have the facility complete and operational within a short timeframe?
- Will it be necessary to have beneficial use of a portion of the facility while it is under construction?
- Given the scope of the project, is there a maximum budget that must be adhered to in order to allow negotiations and flexibility to make appropriate decisions on scope as the project progresses?
- Does the design-build delivery method meet the ultimate operational goals established for a given facility and the quality of product achieved as a result of a more fluid and flexible delivery method?

In general terms, if it is determined that the expected expense of a design-build project will be no more than ten (10%) greater than the expected expense of a traditional RFQ, study, design, bid and construct project, the design-build delivery method may be utilized.

Part 2 – Application of the Criteria to the Nature Center Pavilion and Restroom Project

Criteria 1: The extent to which the City can adequately and thoroughly define the project requirements prior to the issuance of the request for qualifications (RFQ) for a design-builder. Within the Parks & Recreation Department's Planning and Development Division the City has professional personnel with extensive experience in project solicitation, project management, construction design, and contract management. Additionally professional personnel are available in the areas of purchasing, finance, risk management, minority business, and legal to assist in the development of an RFQ.

Criteria 2: The time constraints for the delivery of the project. Through the State of North Carolina the WNC Nature Center will receive grant funding that requires the funds to be encumbered within FY14-15. Construction of the restroom and pavilion will be complete by winter 2014-15. By utilizing the design-build method the City is able to combine RFQ and contractor selection into one-step reducing the overall project schedule by at least one month,

and reduce staff resources by preparing one solicitation. Additionally, if the design and construction phases can take place simultaneously the overall project schedule could be reduced by another month, allowing the project timeline to be compressed by 60 days or more.

Criteria 3: The ability to ensure that a quality project can be delivered. Within the Parks & Recreation Department's Planning and Development Division the City has professional personnel with extensive experience in project management, construction design and management. The division's staff has a proven history in budget and construction/design project management to ensure that the design-build firm will provide a quality project within the budget constraints established by Council.

Criteria 4: The capability of the City to manage and oversee the project, including the availability of experienced staff or outside consultants who are experienced with the design-build method of project delivery. Within the Parks & Recreation Department's Planning and Development Division the City has professional and experienced personnel that are knowledgeable of design-build projects. Should it become necessary to contract the construction management of a design-build contract, there are experienced consultants available.

Criteria 5: A good-faith effort to comply with historically underutilized business participation requirements (NCGS 143-128.2, NCGS 143-128.4), and to recruit and select small business entities. The City of Asheville has adopted a Minority Business Plan to encourage participation by minority businesses in the award of contacts. Bidders are hereby notified that this bid is subject to the provisions of that Plan. It is the policy of the City to (1) provide minorities an equal opportunity to participate in all aspects of its contracting and procurement programs, and (2) prohibit any and all discrimination against persons or businesses in pursuit of these opportunities.

Criteria 6: The criteria utilized by the City, including a comparison of the costs and benefits of using the design-build delivery method of a given project in lieu of the other delivery methods identified. As noted under criteria #2, one of the benefits of the design-build method is that it may reduce overall project timeline by more than 60 days. This has a direct fiscal impact on the project budget. The design- build delivery method is not expected to involve any additional expenses beyond those necessary to deliver a complete project through the traditional RFQ, study, design, bid, and construct project method. The budget for the proposed project is $100,000, including preliminary planning, provided the scope of design services can be reduced. This enables more of the approved project budget to go directly towards the physical improvements of the facilities. It is expected that the design-build process will enable approximately 5% of the available funds (about $5,000) to be allocated to the construction over what a typical design-bid-build process would allow. These benefits to both the project schedule and cost make the design- build option more appealing than the more conventional design-bid-build in this instance.

Pros:

- Criteria provides a means to determine the applicability of the Design-Build Delivery Method to any City project
- Application of the criteria to the Nature Center Pavilion and Restroom Project will expedite delivery of the finished project

Cons:

- n/a

Project is budgeted and there is no additional financial impact.

Staff recommends that City Council adopt (1) a resolution establishing the criteria for a Design-Build Method for Construction Contracts, and authorizing the City Manager or his designee to review and approve the written criteria for each individual design-build project to

ensure compliance with these adopted criteria; and (2) a resolution authorizing the City Manager to use the Design-Build Delivery Method for construction of the Nature Center Pavilion and Restroom Project.

RESOLUTION NO. 14-138 - RESOLUTION BOOK NO. 36 - PAGE 256
RESOLUTION NO. 14-149 - RESOLUTION BOOK NO. 26 - PAGE 268

H. ORDINANCE NO. 4314 - ORDINANCE AMENDING THE COMPOSITION OF THE MULTIMODAL TRANSPORTATION COMMISSION

Summary: A report on the Multimodal Transportation Commission's first year of operations; and consideration of an ordinance amending the membership composition of the Multimodal Transportation Commission.

The Multimodal Transportation Commission (MMTC) was constituted by Council on May 14, 2013. The Commission first meeting was in August 28, 2014, and it has been meeting monthly since then.

The membership is composed by three members of the Transit Subcommittee ; three members of the Greenway Subcommittee; three members of the Bike and Ped Task Force; and three ex-officio members - one each from the Planning and Zoning Commission, Neighborhood Advisory Committee and Sustainability Advisory Committee on Energy and the Environment.

During this year the Commission has worked on a variety of topics:

- Adoption of bylaws and Rules and Procedures.
- Reinstatement of the Transit and Greenway Committees, as subcommittees of the MMTC and appointed members to those sub-committees.
- Some members have participated in different procurement processes, helping staff in the hiring process; this includes the Multimodal Transportation Plan and the French Broad River Greenway and Amboy Bridge Connection.
- Members have provided valuable input and endorsed different transportation plans: Greenways Master Plan, East of the Riverway Transportation Plan, Transit operation improvements for FY15.
- Members have reviewed street closures.

Staff considers the MMTC work paramount to advance the City's multimodal transportation goals. This first year has proven to be very productive; even when there are very different backgrounds the commission is speaking with one voice, it is a very cohesive group of people and members understand the big picture. Their guidance will be very important as the City embarks in the development of the Multimodal Transportation Plan.

There have been questions about how the membership is chosen and with Legal's advice the language has been revised to make clear that it is Council's prerogative to decide the MMTC membership. The current voting membership is as follows: Three members representing transit interests; three members representing greenway interests; and three members representing Bicycle/Pedestrian interests.

The Boards & Commissions Committee, at their June 10, 2014, meeting reviewed the membership and recommended the following: Two members representing transit interests; two members representing greenway interests; two members representing bicycle/pedestrian interests; and three at-large members.

All members shall be City residents and appointed by City Council with advice from the Commission.

Candidates who are current members of the standing Subcommittees (Transit and Greenway) or active members of the Bicycle/Pedestrian Task Force and who are recommended by their respective Subcommittee or Task Force shall receive preference in the selection process but shall not be guaranteed a slot. All candidates must submit an application for consideration of appointment to the Multimodal Transportation Commission.

All Commission members selected to represent Greenway or Transit interests shall, upon appointment to the Commission, automatically be deemed members of the appropriate Subcommittee. Members selected to represent Bicycle/Pedestrian interests, if not already active in the Bicycle/Pedestrian Task Force, shall be encouraged to do so.

There is no change recommended for the three ex officio non-voting members: one member of the Planning and Zoning Commission; one member of the Sustainability Advisory Committee on Energy and the Environment; and one member of the Neighborhood Advisory Committee. The ex officio members shall be selected by their respective commissions.

Staff and the MMTC recommend adding this language for guidance into the existing ordinance.

Pro:

- The MMTC mission is aligned with City goals and their advisory role will help staff shaping the future of the City's transportation network.

Con:

- None.

Staff recommends City Council amend the membership composition of the Multimodal Transportation Commission as follows: (1) Two members representing transit interests; (2) Two members representing greenway interests; (3) Two members representing bicycle/pedestrian interests; (4) Three at-large members; and (5) Three ex-officio non-voting members (a) one member of the Planning & Zoning Commission; (b) one member of the Sustainability Advisory Committee on Energy & the Environment; and (c) one member of the Neighborhood Advisory Committee.

ORDINANCE BOOK NO. 29 - PAGE 89

I. RESOLUTION NO. 14-139 - RESOLUTION AUTHORIZING THE CITY MANAGER TO IMPLEMENT THE ASHEVILLE SAFECAM PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to implement the Asheville SafeCam Program.

The purpose of the SafeCam Program is to encourage business and property owners within the City of Asheville to utilize their surveillance cameras and make areas safer for shoppers and the community while providing a public service to the citizens.

The program allows owners of commercial buildings to register their existing camera systems free of charge, with the Asheville Police Department, and assist in criminal investigations by providing the digital recordings upon request. This is expected to assist in identifying offenders in such crimes as vandalism, assaults, shoplifting, and other crimes. The camera system must be installed on the outside of the building to provide surveillance for the business and the public space.

In order to be eligible, applicants must be the owner of a commercially occupied property or an operating tenant business with the approval of the property owner, or an established

business association or community based organization representing a number of businesses in a particular area.

During the course of an investigation of an incident, an investigator would make contact with the person listed on the registration form. Arrangements would be made to obtain a copy of the video to assist in the investigation.

The application process will be handled at the Asheville Police Department at the Police Information Desk.

This was reviewed by the Public Safety Committee on June 2, 2014, and was unanimously supported.

Pros:

- Assist with criminal investigations
- No cost for businesses
- Proven effectiveness in other cities
- Possible crime deterrent
- Another partnership opportunity for police and community

Con:

- Staff time to review applications and register SafeCam participants

City staff recommends City Council authorize the City Manager to implement the Asheville SafeCam Program

RESOLUTION BOOK NO. 36 - PAGE 258

J. RESOLUTION NAMING FIRE STATION 1 AFTER CHARLES AUGUSTUS WERHAN

This item was removed from the Consent Agenda for an individual vote.

K. RESOLUTION NO. 14-141 - RESOLUTION AMENDING THE 2014 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE JULY 29, 2014, COMMUNITY MEETING

RESOLUTION BOOK NO. 36 - PAGE 260

L. RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS FOR THE SALE OF 1.3 ACRES OF REAL PROPERTY LOCATED OFF OF RESERVOIR ROAD TO BEAUCATCHER HEIGHTS DEVELOPMENT CORPORATION

This matter was removed from consideration until a further date.

M. RESOLUTION NO. 14-143 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT OVER A PORTION OF CITY-OWNED PROPERTY AT CURVE STREET TO DAVID WILLIAMSON FOR A RESIDENTIAL DRIVEWAY EASEMENT

Summary: The consideration of a resolution authorizing the City Manager to convey an easement over a portion of City-owned property at Curve Street to David Williamson for a residential driveway easement.

The City of Asheville owns real property at PIN 964868587800000 on Curve Street and the parcel is used for right-of-way purposes. Curve Street runs through the center of the parcel, with additional land area on either side of the street. The total parcel measures 0.17 acres. The highest and best use of this parcel is right-of-way, given the placement of the roadway and the limited residual value of the remaining land.

One of the adjacent vacant lots is currently being developed for a single-family residence. The owner of this lot, David Williamson, has requested an easement to install a driveway to his vacant lot. The area needed for this driveway easement is not currently being utilized by the city, and presents no apparent conflict with future use.

The proposed easement area is approximately 435.6 square feet. As set forth in the City's Right of Way policy, the method for calculating the value of this easement is equal to 50% of the underlying land value. Based on the tax assessed value, the total fee for the easement is $200.

Pro:

- The easement is appropriate for the current use of the right-of-way and would not interfere with any relevant future plans.

Con:

- None noted.

Financial proceeds associated with the real property disposition are to benefit the Economic and Community Development Capital Improvement Project budget.

Staff recommends that City Council approve a resolution authorizing the City Manager to convey a 435.6 square foot easement over a portion of City-owned property at Curve Street to David Williamson.

RESOLUTION BOOK NO. 36 - PAGE 262

N. RESOLUTION NO. 14-144 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDS DONATED TO THE ASHEVILLE POLICE DEPARTMENT

ORDINANCE NO. 4315 - BUDGET AMENDMENT TO APPROPRIATE FUNDS DONATED TO THE ASHEVILLE POLICE DEPARTMENT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept funds donated to the Asheville Police Department; and (2) a budget amendment in the amount of $1,100 to appropriate these funds into the City's Special Revenue Fund budget.

The Asheville Police Department (APD) has received $1,000 in donated funds from the Brooks-Howell Home and $100 from Parker's Karat Patch, Inc. In order for APD to be able to spend these funds, Council must first approve a budget amendment authorizing use of those funds in the City's Special Revenue fund. These funds are to be used by the APD as needed for specific purposes. The APD has requested that these funds be applied to the APD Private Donations project account to assist with the APD Shop With a Cop Program. The APD wishes to acknowledge the generosity, and express gratitude to, the Brooks-Howell Home and Parker's Karat Patch, for their support of the Asheville Police Department.

Pros:

- Acceptance of gift from various citizen groups;
- Enhancement of the APD North Asheville Community Policing efforts.

Con:

- None

Appropriating these donations in the Special Revenue Fund has no fiscal impact on the City's General Fund Budget.

City staff recommends City Council approve: (1) a resolution authorizing the City Manager to accept funds donated to the Asheville Police Department; and (2) a budget amendment in the amount of $1,100 to appropriate these funds into the City's Special Revenue Fund budget.

RESOLUTION BOOK NO. 36 - PAGE 263
ORDINANCE BOOK NO. 29 - PAGE 90

O. RESOLUTION AUTHORIZING THE CITY STAFF TO PROCEED WITH THE STATUTORY CONDEMNATION PROCESS FOR PROPERTY LOCATED AT 61 HAYWOOD ROAD, ASHEVILLE, N.C., FOR THE PUBLIC PURPOSE OF CONSTRUCTION OF A SIDEWALK

This item was removed from the Consent Agenda for discussion and/or individual vote.

P. RESOLUTION NO. 14-146 - RESOLUTION REVISING THE EXISTING CONTRACT WITH PINNACLE LANDSCAPING LLC FOR GROUND MAINTENANCE SERVICES AT PACK SQUARE PARK

Summary: The consideration of a technical resolution revision to the existing contract resolution with Pinnacle Landscaping, LCC for ground maintenance services at Pack Square Park.

On July 23, 2013, City Council approved the contract between the City and Pinnacle Landscaping, LCC in the amount of $115,795 for a twelve (12) month period with an option for two (2) twelve (12) month renewals based on contractor performance.

The contract also included 1) $10,000 contingency for unit cost associated with repairs to landscaping, irrigation, and seasonal maintenance items such as snow removal for a total of $125,795; and 2) the City Manager's authorization to approve change orders not to exceed the approved contract budget. However when the contract was approved, these items were not included in the resolution.

In order for the resolution to 1) reflect the actual terms of the contract, 2) to be authorized to spend the $10,000 contingency, and 3) for the City Manager to be authorized to approve change orders, staff is requesting City Council to approve a technical resolution revision to the existing contract with Pinnacle Landscaping, LCC for ground maintenance services at Pack Square Park.

This action complies with the City Council Strategic Operating Plan in that it supports Park Maintenance operations at the highest levels of fiscal responsibility as well as enhances a basic city service. It also complies with the Parks, Recreation & Cultural Arts Master Plan in that it provides ongoing maintenance and care for the City's park system.

Pro:

- Supports the efficient delivery of core park maintenance services.

Con:

- None

$125,795 for the contract and any necessary change orders between the city and Pinnacle Landscaping, LCC for ground maintenance in Pack Square Park is already budgeted in the Parks and Recreation Department operating budget for Pack Square Park. Thus, there is no additional impact to the City's General Fund budget from this action.

City staff recommends City Council adopt a technical resolution revision authorizing $10,000 contingency, and authorizing the City Manager to approve change orders to the existing contract with Pinnacle Landscaping, LCC for ground maintenance services at Pack Square Park.

RESOLUTION BOOK NO. 36 - PAGE 265

Q. ORDINANCE NO. 4316 - BUDGET AMENDMENTS FOR PARK MAINTENANCE RELOCATION PROJECT AND FIRE STATION LAND PURCHASE PROJECT

Summary: The consideration of two year-end FY2014 capital budget amendments: 1) Park Maintenance Relocation project in the amount of $40,000; and 2) Fire Station Land Purchase project in the amount of $11,400. Both projects will be funded with proceeds from debt issuance.

The City's FY2015 Capital Improvement Budget, which Council is scheduled to adopt at its June 24, 2014 meeting, includes funding for both the Park Maintenance Facility Relocation project and the Fire Station Land Purchase project. However, based on the timelines for those projects, the City expects to incur some minor expenses associated with those projects prior to the end of FY2014. In order to provide budget authorization for those FY 2014 expenses, staff is requesting that Council approve the budget amendments.

Pros:

- Provides budget authorization for FY2014 project expenses.
- Conforms the City's financial records with generally accepted accounting and reporting standards.

Con:

- None.

As noted above, the Park Maintenance Facility Relocation project and the Fire Station Land Purchase project are both part of the FY2015 Capital Improvement Budget, and their full expenses are included in the City's five-year capital improvement financial model. Both projects will be funded with debt proceeds.

City staff recommends City Council adopt the two year-end FY2014 capital budget amendments: 1) Park Maintenance Relocation project in the amount of $40,000; and 2) Fire Station Land Purchase project in the amount of $11,400.

ORDINANCE BOOK NO. 29 - PAGE 92

R. RESOLUTION NO. 14-147 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH NHM CONSTRUCTORS, LLC, FOR THE BENT TREE ROAD RETAINING WALL CONSTRUCTION PROJECT

ORDINANCE NO. 4322 - BUDGET AMENDMENT FOR THE BENT TREE ROAD RETAINING WALL CONSTRUCTION PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $594,567.50 plus a contingency of

10% ($59,456.75) with NHM Constructors, LLC for the project known as Bent Tree Road Retaining Wall Construction; and (2) a budget amendment in the amount of $37,994 from Federal Emergency Management Agency and the North Carolina Department of Public Safety funds to increase the existing project budget to cover the contract and the 10% contingency.

From January 1, 2013 to July 8, 2013, the Asheville area received 41.67 inches or rainfall, exceeding the City's normal annual rainfall for the same time period by 4.68 inches. More specifically, the Asheville area received almost 5 inches of rain within the 24-hour period from July 3 to July 4, 2013. During this 24-hour period stormwater runoff rapidly undermined steep soil banks, causing damage to the asphalt/pavement shoulders of many City roads due to the wearing pressure of the high-velocity stormwater flow. In particular, the stretch of Bent Tree Rd. adjacent to and above the property located at 36 Bent Tree Rd. experienced significant structural damage to the soils underlying the road surface.

Several large and complicated landslides required consultation outside the City workforce, and several consultants were chosen for the more extensively damaged areas. To reinforce the road surface, a design including a soldier pile and lagging retaining wall, bookended by soil nail slopes, was chosen for this site, and includes an extensive road rebuild. The project was advertised on May 27, 2014.

Bids were opened on June 19, 2014, with two bids received as follows:

- NHM Constructors of Asheville, NC. Bid - $594,567.50.
- Uretek Mid-Atlantic of Colfax, NC. Bid - $778,009.20.

NHM Constructors, LLC was the lowest responsible bidder with a bid of $594,567.50. A 10% contingency ($59,456.75) has been added to allow payment for any unforeseen costs that typically arise during construction. A large portion of this work will be reimbursable under federal emergency grant funding; however, City funds will need to be expended prior to reimbursement. The work produced from this contract would resolve liability issues associated with a deteriorating road structure and rebuild the road's underlying support.

Pros:

- Will remove a potential liability issue from the City's transportation network.
- Improve access to an area of valuable residences, improving the City's tax base.

Cons:

- Project management and contract administration will consume staff time.
- Temporary financial obligations of project work.

As noted above, this project will be funded as part of the reimbursements from the Federal Emergency Management Agency and the North Carolina Department of Public Safety for the declared disaster identified as FEMA-4146-DR-NC.

City staff recommends City Council adopt: 1) the resolution awarding the contract to NHM Constructors, LLC and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $594,567.50 plus a contingency of 10% ($59,456.75), for a total of $654,024.25, with NHM Constructors, LLC for the project known as Bent Tree Road Retaining Wall Construction; and 2) a budget amendment in the amount of $37,994 from Federal Emergency Management Agency and the North Carolina Department of Public Safety funds to increase the existing project budget to cover the contract and the 10% contingency.

RESOLUTION BOOK NO. 36 - PAGE 266
ORDINANCE BOOK NO. 29 - PAGE 116

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

When Mr. Ken Michalove asked if there was anything on the Consent Agenda about Pack Place or the Asheville Art Museum, Mayor Manheimer replied there was none.

Councilman Bothwell moved for the adoption of the Consent Agenda, (1) with the continuance of Item F to July 22, 2014; (2) with an individual vote for Item J; (3) with the deletion entirely of Item L; and (4) with discussion and/or individual vote for Item O. This motion was seconded by Councilwoman Wisler and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

J. RESOLUTION NO. 14-140 - RESOLUTION NAMING FIRE STATION 1 AFTER CHARLES AUGUSTUS WERHAN

Summary: The consideration of naming Fire Station 1 after City of Asheville Firefighter Gus Werhan.

City of Asheville Firefighter Charles "Gus" Werhan tragically lost his life on December 9th, 1963, while fighting a fire at 23 Biltmore Ave. The Werhan family has requested that Gus be honored by naming City of Asheville Fire Station 1 after Charles Augustus Werhan.

Pros:

- Having a City of Asheville owned facility that has been named to honor a public servant who has died in the line of duty is an ultimate recognition of public service.

Cons:

- None have been identified or known at this time.

The purchase of a plaque commemorating the naming would be the associated expense to this consideration.

Staff recommends that the Asheville City Council name Fire Station 1 after Charles Augustus Werhan.

Fire Chief Scott Burnette was pleased to introduce Mr. Werhan's wife, daughter and brother.

Councilman Bothwell moved for the adoption of Resolution No. 14-145. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 259

O. RESOLUTION NO. 14-145 - RESOLUTION AUTHORIZING THE CITY STAFF TO PROCEED WITH THE STATUTORY CONDEMNATION PROCESS FOR PROPERTY LOCATED AT 61 HAYWOOD ROAD, ASHEVILLE, N.C., FOR THE PUBLIC PURPOSE OF CONSTRUCTION OF A SIDEWALK

Summary: The consideration of a resolution authorizing City staff to proceed with the statutory condemnation process as set forth in Article 3 of Chapter 40A of the N.C. General Statutes for the property located at 61 Haywood Road, Asheville North Carolina, for the public purpose of construction of a sidewalk.

The City of Asheville is planning to make multi-modal improvements to a portion of Haywood Road, from Craven St. to the new traffic signal at Beechum's curve. This project has

garnered strong support from many in the community. The public meeting that was held on November 21, 2013, had a good turnout, with all present being in favor of the proposed work. All of the easements necessary for the project to proceed have been obtained except for the one at 61 Haywood Rd. The property owner and/or his representative have been contacted numerous times by certified letter, email, telephone and face to face meetings. After many attempts at negotiations, the property owner was not willing to donate the easement, so the City made an offer of $3,259.05, per our Sidewalks and Related Infrastructure Right of Way Acquisitions Policy and Procedures. The owner refused to respond to the offer within the time allotted. Later, the property owner counter-offered with $25,000. An appraisal of the property was conducted according to North Carolina General Statutes by a certified MAI appraiser. The appraised value of the easement was found to be $6,950. An offer of $6,950 was made to the property owner, but the owner refused and counter-offered with $10,000. The property owner has been informed of our intent to condemn a portion of the property for the easement needed to construct the sidewalk.

This action complies with the Sidewalks and Related Infrastructure Right of Way Acquisitions Policy and Procedure and the City Council Strategic Operating Plan in that it will continue construction and maintenance of pedestrian and bicycle infrastructure.

Pros:

- Will allow for approximately 1,600 linear feet of new sidewalk within the Asheville City limits.
- Will allow for approximately 2,800 linear feet of new bike lane within the Asheville City limits.
- Project will improve pedestrian and bicyclist safety.
- Project encourages walking and biking, thereby reducing carbon emissions.

Cons:

- The condemnation cost will be taken from the project budget.
- The condemnation process will consume staff time.
- Condemning properties can create a negative image of the City.

The funds needed for the condemnation will come from the project budget of $220,000. Once bids for the project are received, staff will evaluate the need for additional funding.

City staff recommends City Council adopt the resolution approving: (1) Condemnation to acquire an easement across the property at 61 Haywood Rd. Asheville, North Carolina, for public use and benefit as set forth in Article 3 of Chapter 40A of the North Carolina General Statutes; (2) The City Attorney's Office and/or designee, is directed to institute the necessary proceedings under applicable provisions of the North Carolina General Statutes to acquire the property interest herein described; and (3) The City Manager to execute any necessary documents related to the easement acquisition by condemnation of property.

When Mayor Manheimer asked for comments from the public on this matter, no one spoke.

Councilwoman Wisler moved for the adoption of Resolution No. 14-145. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 264

III. PRESENTATIONS & REPORTS:

A. LEGISLATIVE UPDATE

Assistant City Manager Paul Fetherston highlighted the following bills: S729 - Governor's Coal Ash Action Plan; H150/S139 - Zoning Design & Aesthetic Controls; S734/H1136 - Authority to Adopt Certain Ordinances; H1191 - Authority to Adopt Local Ordinances; H531 - ETJ/Zoning - Weaverville & Buncombe/Correction; S594 - Omnibus Justice Amendments; H1145 - Registration Required for Mopeds; H1113 - Bent Creek Property Sullivan Act Exemptions; H1247 - Asheville Regional Airport; S743/H1031 - NC Economic Development Partnership Modifications; S493 - 2014 Regulatory Reform Act; Extension of historic building rehabilitation tax credits included in the House's budget, but not the Senate's; and Various proposals for film incentives have appeared in the House and Senate and negotiations are ongoing. Bills of Significance signed into law are as follows: H1050 - Omnibus Tax Law Changes; includes Privilege License Tax reform; and S786 - Energy Modernization Act.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 573 FAIRVIEW ROAD FROM NEIGHBORHOOD BUSINESS DISTRICT TO COMMUNITY BUSINESS I DISTRICT/ CONDITIONAL ZONING FOR AN ART INSTRUCTION FACILITY, WITH REQUESTED LANDSCAPING MODIFICATIONS

ORDINANCE NO. 4317 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED 573 FAIRVIEW ROAD FROM NEIGHBORHOOD BUSINESS DISTRICT TO COMMUNITY BUSINESS I DISTRICT/ CONDITIONAL ZONING FOR AN ART INSTRUCTION FACILITY WITH LANDSCAPE MODIFICATIONS

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located on 573 Fairview Road from Neighborhood Business District to Community Business I District/Conditional Zoning for the use of an existing building as an art instruction facility, with landscape modifications. This public hearing was advertised on June 13 and 20, 2014.

The project area consists of a single 0.985-acre parcel located at 573 Fairview Road with secondary frontage along Shannon Drive. The parcel is currently zoned Neighborhood Business (NB) and contains an existing building that has most recently been used for offices. The site is primarily surrounded by residential uses and residential zoning to the south, southwest and east (RS-8) as well as a number of commercial uses adjacent along Fairview Road, also zoned NB (north and west).

The proposal is to utilize the existing building and site layout for the Roots & Wings School of Art and Design, which provides instructional services to all ages, but with an emphasis on youth, including morning pre-school, artist studios and office space. The existing structure has frontage on Fairview Road and contains 8,756 square feet, primarily single-story but with a small two-story portion. There is also a small storage shed behind the building.

Access and parking will remain in the same general location as the present configuration with the exception that the driveway onto Fairview Road will become one-way egress (currently two-way). Visitors will access the site from Shannon Drive and exit onto Fairview Road.

The *minimum* number of parking spaces required when all three uses (preschool, office and studios/instruction) are active is 22. A total of 23 parking spaces are shown on plans. While the plan meets the minimum for parking, it is worth noting that uses in the CBI district are allowed a 25% reduction in number of required parking spaces (not being utilized). The proposal also

includes an accessible space as well as a loading berth and bike parking on site. On-street parking will not be permitted along either Fairview Road or Shannon Drive.

There are existing five-foot wide sidewalks along Fairview Road that will remain. A new five-foot sidewalk will be provided along Shannon Drive.

Landscaping is required for this project and includes a property line buffer, street buffer, street trees, parking lot landscaping and building impact landscaping. The applicant is requesting modifications to the property line buffer due to the reuse of the existing site layout and contextual design considerations. The proposed alternative compliance is detailed below.

Open space not technically required for this project because the lot is less than one acre in size; however with the grassed recreation area and playground, 0.17 acres of open space is provided.

Modifications:

1. Property line buffer – a type B (30 foot wide) property line buffer is required adjacent to RS-8 zoned properties to the south and southwest of the site as well as along Shannon Drive.
    1. There is a small portion of the southern property line directly behind the building (approximately 50 feet) where the location of the existing building is too close to the property line to provide the landscape buffer. No planting is possible in this area. *Staff is supportive of this modification due to existing site constraints.*
    2. Around the south and west sides of the grass field and playground (adjacent to RS-8), the applicant is proposing to reduce the width and materials of the property line buffer by fifty percent to 15 feet. *Staff is supportive of this modification because it is along the open space, which is a low impact area and provides an additional separation from the more active portion on the front of the site.*
    3. As a street-facing property line with RS-8 across the ROW, a 30 foot wide buffer would be required along Shannon Drive as well. The applicant is proposing to add a five-foot wide sidewalk along the entire street frontage to create a more pedestrian friendly environment. The layout will incorporate a four-foot grassed strip, the five-foot sidewalk and then an additional planting strip to accommodate street trees, the street buffer against the parking lot and additional evergreen shrubs for screening. The planting strip will be four-feet wide between Fairview Road and the entrance drive and widened to six-feet to the rear of the property, along the grass field. *Staff is supportive of this modification because it accommodates the sidewalk installation and existing utility poles along Shannon Drive. Also, street trees and shrubs in a planting strip are a more integrated and contextually-appropriate streetscape pattern in a neighborhood setting than a full property line buffer would be in this location.*

This proposal was approved with conditions by the Technical Review Committee on May 19, 2014, and requires review Final TRC review prior to zoning approval. The Planning & Zoning Commission evaluated this request at their meeting on June 4, 2014, and voted unanimously to support the conditional zoning and proposed modifications. Numerous letters of support have been received by staff. Although not technically required, the applicant held a community meeting on May 29 to present the proposal to the neighborhood and receive feedback.

The applicant is proposing to conditionally rezone the site from Neighborhood Business to Community Business I due to the fact that the current zoning designation does not permit instructional services, schools, artist studios or day care/pre-school uses. Community Business I is a similar zoning district to NB in that it is intended for smaller-scale, neighborhood-centered uses and the proposed uses listed above would be permitted. All of the uses proposed are identified in the UDO's impact table as "low."

There are a number of commercial uses located along this stretch of Fairview Road in the Neighborhood Business zone, intermixed with single-family residential uses (both in the NB zone as well as RS8). Typically this is an appropriate mix as long as the non-residential uses are community-based and low-impact. The uses proposed in this application are expected to be compatible with the residential neighbors and proposed landscaping should both improve the site and provide some buffering for the single-family homes to the east across Shannon Drive and behind the parcel. The open space provides an additional separation between the parking area and the neighbors. Utilizing the existing site layout, the parking remains closer to Fairview Road and the front of the parcel and by reconfiguring the access so that all cars leave from Fairview Road, impact to adjacent neighbors should be minimized.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. *That the proposed use or development of the land will not materially endanger the public health or safety.*
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. *That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.*
   The applicant is proposing to reuse the existing building and general site layout. There are no significant topographic features on the site. Improvements that will be undertaken to provide sidewalks and define the drive aprons on both frontages will improve access. Existing mature trees will remain on site and significant landscaping will be added.

3. *That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.*
   The proposed use of the land for preschool, art studio/instruction space and associated offices is not expected to injure the value of adjoining or abutting properties. The uses will be contained within an existing building and are along a section of corridor permitted for low-impact, non-residential uses. Improvements to the site, including sidewalks and landscaping, are expected to be an enhancement.

4. *That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.*
   The proposed uses for this site (preschool, art studio/instruction and associated offices) are considered to be in harmony with the scale, bulk and coverage of the area in that they are re-using an existing building and site layout and site improvements proposed (sidewalks, landscaping) will enhance the appearance of the site and mitigate impacts to neighbors. The character of the area is largely single-family residential but this site is within a portion of the Fairview Road corridor that is already zoned for (and contains) non-residential uses. Community-based, low-impact uses such as those included in the application are considered to be appropriate and compatible adjacent to neighborhoods. The proposed traffic flow change for all vehicles to exit onto Fairview Road should further protect the neighbors on Shannon Drive.

5. *That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.*
   As enumerated below, the proposal complies with policies adopted by the City in several ways, most notably through the reuse of an existing building, the installation of new sidewalks and site improvements that will add native vegetation and preserve open space.

6. *That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.*
   This project does not propose new construction and has been determined by the TRC to have adequate water supply, police protection, waste disposal and similar facilities. The site is located on the "C" transit line, with a stop right at Shannon Drive and Fairview Road.

7. That *the proposed use will not cause undue traffic congestion or create a traffic hazard.*
   The proposed uses on the site are not expected to create undue traffic congestion or create a traffic hazard. The number of trips anticipated per day was not sufficient to warrant a Traffic Impact Study and Fairview Road can easily accommodate the new users. Enhancements proposed to the site should improve access and internal flow. Also, sidewalks along Fairview Road and Shannon Drive will increase pedestrian safety.

The proposal complies with policies adopted by the City in several ways. As stated in the *City Development Plan 2025,* reusing older buildings is "the most sustainable construction" and helps to preserve and protect neighborhood vitality (pg. 74, 149) and appropriately-scaled non-residential uses should be allowed in appropriate locations (pg. 152). The addition of street trees, sidewalks and bike parking on-site as well as the location along a transit route supports users of multimodal transportation; the streetscape will be enhanced and automobile dependence may be minimized (pg. 74, 159, 163). A large amount of the site will be left as an open grassed field and additional, native landscaping will be added to the parking field, adding to sustainability and environmental goals (pg. 75, 96).

This proposal aligns with City Council's focus area on providing a "High Quality of Life" for residents by adding sidewalks that enhance safety and also reusing an existing building to provide opportunities for education, art and creativity.

Based on the above findings and the analysis provided in the report and as stated in the recommendation below, staff finds this request to be reasonable.

Considerations:

- The project proposes the reuse of an existing building and generally using the same site layout, with improvements to access and traffic flow.
- Sidewalks will be provided along Shannon Drive and a small portion of new sidewalk along Fairview Road.
- Trees will be preserved and additional landscaping will be added throughout the site to soften the streetscape and provide buffering to adjacent properties.
- Although not technically required, open space is preserved on the rear portion of the site.

Staff recommends approval of the proposed conditional zoning to allow for the preschool, studio/instruction space and associated offices to use the existing building at 573 Fairview Road and to improve the site with landscaping, sidewalks and access changes as proposed, inclusive of the landscape modifications as detailed above, finding that the request is consistent with City-adopted plans and strategic goals.

Ms. Bernstein said that the petition has requested that the City eliminate the description of being an "art-based" preschool and just call it a preschool in case the basis for the curriculum changes slightly over time. City staff has no problems with that.

Mayor Manheimer opened the public hearing at 5:27 p.m., and when no one spoke, she closed the public hearing at 5:27 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City in the following ways (1) Low-impact community-based uses such as those proposed are considered appropriate along corridors such as this location; (2) Reuse of the existing building and general site layout minimizes disturbance to neighbors; (3) Access to and from the site will be reconfigured to have less impact on Shannon Drive residents; (4) Sidewalks will be provided along both road frontages; (5) Open space and existing trees will be preserved on site and (6) Additional landscaping will be provided around and within the site, and moved for the adoption of Ordinance No. 4317 to conditionally zone property located on 573 Fairview Road from Neighborhood Business District to Community Business I District/Conditional Zoning for the use of an existing building as an art instruction facility, with landscape modifications, subject to the following conditions:

1. Approval is for the reuse of an existing building for offices, instructional services, art studios and preschool.
2. Signage shall be separately permitted and shall meet the standards of the City of Asheville Sign Ordinance (Article XIII of Chapter 7 of the Code of Ordinances).
3. All site lighting must comply with the City's Lighting Standards (Section 7-11-10 of the Code of Ordinances). Proposed lighting plans must be submitted at Final TRC.
4. All landscaping must meet the minimum size requirements set forth in Section 7-11-3(f)(3) of the UDO. All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans.
5. The property line buffer is modified in the following ways:
    a. Elimination of buffer behind existing building due to existing site constraints.
    b. 50% reduction in width and materials along the south and west boundaries.
    c. Four-foot grass strip, five-foot sidewalk and four to six foot planting strip behind the sidewalk along Shannon Drive to accommodate street trees, street buffer and additional evergreens.
6. Traffic flow will be restricted to entry-only on Shannon Drive and exit-only on Fairview Road.
7. New sidewalks will be provided along Shannon Drive and a portion of new curb and sidewalk will be constructed on Fairview Road in front of the existing building.
8. On-street parking for the uses will not be permitted along either Fairview Road or Shannon Drive.
9. The applicant is providing 0.17 acres of open space via a grass field and playground area.
10. All activities associated with the uses will occur between the hours of 7 am to 10 pm.
11. The project shall comply with all conditions outlined in the TRC staff report as indicated below:
    a. Plans are required to be submitted in engineering scale between 1"=10' and 1"=60'.
    b. Please add a plan note whether existing streets are publically or privately maintained and dimension ROW width.
    c. Street trees are required along Fairview Road (7-11-3).
    d. Please provide calculations for street trees for Fairview Road and the front section of Shannon Drive, based on linear frontage. Please provide calculations

for street buffers for both frontages as well (7-11-3). For clarity, it may be helpful to put all of the calculations to the side of the drawing (similar to the parking calcs).

e. Please note that shrubs are also part of the required Parking Lot landscaping (7-11-3).
f. The existing driveway on Fairview Rd does not meet current standards. The plans show a one-way driveway, so the opening should be between 14 and 20 feet wide.
g. All sidewalks, driveways, and other structures in the public right-of-way must meet the standards of the current draft Public Rights of Way Accessibility Guidelines (PROWAG).
h. Bike storage area is noted on plan, but please show bike parking details.
i. Please include wheel stops at the ADA spots to prevent vehicles from rolling into the walkway
j. Show tree species on plan
k. If planting under high voltage wires, small maturing trees are required. Move trees back from wires if possible
l. Make sure new trees will be planted in the appropriate season
m. A Grading Permit will be required. Specific comments are not covered under this zoning review, and will be covered under a separate permit review. A separate grading submittal will need to be made at the time of Final TRC Submittal. Any revisions or resubmittals are to be submitted to the Development Services Department per the instructions at the end of this letter.
n. This project may qualify for an exemption to the requirement for a Stormwater Permit as a redevelopment. Provide pre- and post-development pervious and impervious areas along with the percentage of pre- and post-impervious area to allow for a determination of the requirements for a Stormwater Permit.
o. Wastewater allocation approval issued. If any food service or non-domestic waste is produced, MSD pre-treatment group will have to review and approve.
p. Plumber will need to evaluate existing sewer service line and determine location & connection point. Off-site easements may be required depending on location.

12. The project will undergo final review by the TRC prior to issuance of any permits and compliance with the items listed above will be required at that time.
13. A planning inspection is required prior to obtaining a certificate of occupancy. This inspection should be scheduled through the Development Services inspection line.

This motion was seconded by Councilwoman Wisler and carried unanimously.

ORDINANCE BOOK NO. 29 - PAGE 94

D. PUBLIC HEARING TO CONSIDER REZONING 226 HILLIARD AVENUE FROM REGIONAL BUSINESS DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 4318 - ORDINANCE TO REZONE 226 HILLIARD AVENUE FROM REGIONAL BUSINESS DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 4319 - ORDINANCE AMENDING THE OFFICIALLY ADOPTED HEIGHT ZONE MAP AND CONTEXT TRANSITION EDGE MAP PERTAINING TO THE REZONING OF 226 HILLIARD AVENUE

Urban Planner Jessica Bernstein said that this is the consideration of (1) an ordinance to rezone 226 Hilliard Avenue from Regional Business District and RS-8 Residential Single-Family High Density District to Central Business District and (2) an amendment to the officially adopted

Height Zone Map and Context Transition Edge Map pertaining to the rezoning of 226 Hilliard Avenue. This public hearing was advertised on 13 and 20, 2014.

Ms. Bernstein said that the site proposed for rezoning consists of five parcels with a combined area of 1.68 acres, located at the southwest corner of Hilliard and Asheland Avenues, just outside of the Central Business District. The site contains a single-story building (approximately 24,000-square feet) surrounded by surface parking. The four larger parcels are currently zoned Regional Business (RB) and the smallest interior parcel is zoned RS-8.

The applicant is proposing a standard rezoning of the five parcels to Central Business District (CBD).

This is the third standard rezoning request received by staff in this immediate location to expand the CBD along its southwest boundary. In the past year, City Council approved similar rezoning requests across Asheland Avenue to the east (1.54 acres from RB to CBD at 86 Asheland Avenue on June 25, 2013 and 2.45 acres from RB to CBD at 172 Asheland Avenue on August 27, 2013).

Because of the repeated requests, staff and the Downtown Commission (DTC) have been exploring a multi-parcel, City-initiated rezoning on the remaining parcels along Asheland Avenue from Hilliard Avenue to Southside Avenue. Various maps provided in the Downtown Master Plan (2009) included this area along Asheland Avenue due to its proximity to the CBD, wide right-of-way and potential for urban growth. Staff and members of the DTC held a meeting with Asheland Avenue property owners in January 2014 and plan to continue the dialogue with affected neighbors this year, intending to pursue the corridor rezoning and expand the CBD.

Approval of the rezoning request requires an amendment to the Downtown Height Zones map and a recommendation by the Downtown Commission. Similar to the previous requests along Asheland Avenue, staff proposes extending the intermediate height zone in this location, which would allow for a maximum height of 145 feet. Additionally, the context transition edge would be applied along the parcel boundary adjacent to RS-8 zoning and would limit the building height allowed adjacent to that neighborhood. The Key Pedestrian Streets map has already been amended in 2013 to extend along Asheland Avenue and would apply to this site.

The Downtown Commission evaluated this proposal at their meeting on May 9, 2014, and unanimously supported the rezoning request as well as the application of the intermediate height zone and context transition edge.

The proposal was reviewed by the Planning & Zoning Commission at their meeting on June 4, 2014, and recommended for approval by a vote of 4-1. The opposing Commissioner was generally supportive of the rezoning with the exception of the small parcel currently zoned RS-8. There was one member of the public present to speak at the meeting, a resident of the nearby residential neighborhood, who expressed desire for the City to meet with neighborhood residents sooner rather than later regarding the corridor rezoning effort.

This site sits at the corner of Hilliard and Asheland Avenues at the edge of the CBD with office uses to the west (zoned CBD); offices and commercial uses (Hot Spot) to the north (zoned CBD); offices (Keller Williams) to the east (zoned CBD); and medical offices and single-family residential to the south (zoned Office Business and RS-8). Uses allowed in the CBD would be appropriate and compatible on this site. Design standards mandated by the UDO would require that any future development be pulled up towards the corner and focused on the street rather than set back with parking in the front, as seen with the current suburban-style of development on the site and along the corridor. While the maximum height permitted (145 feet) would be significantly greater than current RB zoning (80 feet), the context transition edge would limit the height of structures within 100 feet of the neighborhood and provide a gradual scale at that property line.

There are policies throughout the *Asheville City Development Plan 2025* supporting the need for higher-densities and a mix of uses, especially concentrating on downtown and areas close to the CBD for this type of development. CBD zoning allows for a greater variety of uses and higher residential densities while maintaining and requiring design elements that will encourage multi-modal transportation and an urban form of development that is more amenable to the pedestrian experience.

The *Plan* mentions the value of living in walkable neighborhoods close to the CBD for the mix of activities and opportunities within proximity and the application of the context transition edge should align with statements on needing to protect those older neighborhoods surrounding downtown.

The Land Use & Transportation section contains a specific goal to "continue to look for opportunities to expand the boundaries of the CBD to areas appropriate for that type of development".

The *Downtown Master Plan* recommends strategies for the continued vitality of the downtown and specifically included this section of Asheland Avenue as an area of potential growth and expansion for the CBD. A number of maps in the plan expanded beyond the current CBD boundary because these edge areas were noted as having the potential to grow and improve following an urban development pattern.

Based on the above findings and the analysis provided in the report and as stated in the recommendation below, staff finds this request to be reasonable.

Considerations:

- Expansion of the CBD is generally recommended in the *2025 Plan* and specifically recommended along Asheland Avenue in the *Downtown Master Plan*
- Application of the context transition edge and development standards in the UDO pertaining to building placement should minimize some impact to the adjacent neighborhood with future development
- Two similar requests have been approved in this immediate location over the past year, leading to staff and the Downtown Commission pursuing a multi-parcel rezoning effort.

Staff recommends approval of the proposed rezoning, finding that the request to expand the CBD is consistent with City-adopted plans and strategic goals for development in this area

Mayor Manheimer opened the public hearing at 5:33 p.m., and when no one spoke, she closed the public hearing at 5:33 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City in the following ways: (1) References to CBD expansion in the 2025 Plan and the Downtown Master Plan; (2) Staff-led multi-parcel corridor rezoning is being pursued; (3) Design standards and the application of the context transition edge should minimize impact from future development on adjacent neighborhood, and moved for the adoption of Ordinance No. 4318 to rezone 226 Hilliard Avenue from Regional Business District and RS-8 Residential Single-Family High Density District to Central Business District. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 99

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City in the following ways: (1) the proposed map amendments are in accordance with adopted land use changes; (2) the proposed map amendments implement portions of the City Council-adopted Downtown Master Plan, 2025 Plan and supports the goals and vision plan; and (3) the map amendments will support the redevelopment of the south area of downtown and provide protection to adjacent residential uses, and moved for the adoption of Ordinance No. 4319 to amend the Height Zone Map (intermediate height zone) and Context Transition Edge Map. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 29 - PAGE 102

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4320 - ORDINANCE ADOPTING THE FISCAL YEAR 2014-15 ANNUAL OPERATING BUDGET, INCLUDING FEES & CHARGES AMENDMENTS TO (1) INCLUDE A 3-TIERED STORMWATER FEE STRUCTURE, WITH A DELAYED IMPLEMENTATION OF 90 DAYS FOR THE RESIDENTIAL INCREASE; (2) THE PARKS & RECREATION ATHLETIC FEES; (3) TECHNICAL ADJUSTMENT (RIGHT OF WAY CUT PERMIT PENALTY); AND (4) TRANSIT MONTHLY AND ANNUAL PASS FEES

Director of Finance & Management Services Barbara Whitehorn said that this is the consideration of an ordinance to adopt the Fiscal Year 2014/2015 Annual Budget along with changes to the Fees and Charges Manual discussed below.

The Fiscal 2014/2015 Proposed Annual Operating Budget was presented to City Council on May 27, 2014. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 30 and June 6, 2014. City Council conducted a public hearing on the Proposed Budget on June 10, 2014. The Fiscal 2014/2015 Proposed General Fund Budget is balanced while maintaining the current Ad Valorem tax rate of $0.46 per $100 of assessed value. All essential City services are continued in the Proposed Budget.

Technical Budget Changes

Since the Proposed Budget was presented to City Council, there have been two technical adjustments that have altered the budget that is presented tonight for Council adoption.

- **Street Cut Utility Fund:** In order to more effectively meet customer service expectations in the street cut program, Public Works staff has requested that two additional FTE positions be added for Fiscal 2014/2015. The budget impact of these two additional positions is $66,986. As a result of this change, the Street Cut Utility Fund budget that is presented for adoption tonight now totals $1,650,800. The Street Cut Utility Fund budget is fully supported by charges to its users, so this budget change has no impact on the General Fund.

- **City Attorney's Budget:** After the Fiscal 2014/2015 Proposed Budget was presented to City Council, staff reviewed the City Attorney Department budget and made changes to plans for contracted legal services to accommodate the addition of one additional position (Associate City Attorney) within the original proposed budget. As a result, FTE positions in the City Attorney Department show an increase of one in Fiscal 2014/2015.

- **Capital Improvement Program:** In the 2015 capital budget, $100,000 has been reallocated from the Town Branch Greenway project ($50,000) and the Charlotte Street

Pedestrian and Bike Improvement project ($50,000) to fund the Neighborhood Sidewalk Program. This is a reallocation of funds only; there is no change to the budgeted total for 2015 CIP.

Ms. Whitehorn noted that, pursuant to best practices, a section has been added into the ordinance as follows: "Section 10. Compensation for the Mayor, Vice-Mayor and Councilmembers will be $19,743.36 -$20,335.66, $16,385.20 - $16,876.76, and $14,505.14 - $14,940.29 respectively. Travel for official activities will be reimbursed under the same plan used for City employees." This added section has no effect on the numbers.

Fees and Charges Manual Amendments

In conjunction with adoption of the Fiscal 2014/2015 Annual Operating Budget ordinance, staff is also seeking Council approval of the following amendments to the City's Fees and Charges Manual:

- **Stormwater Rate Structure:** The current rate for single family properties is $2.34 per month. The proposed rate structure is a tiered system - Properties from 225–2000 square feet will pay $2.50 per month; properties from 2001-4000 square feet will pay $4 per month and properties greater than 4001 square feet will pay $5.50 per month. For non-single family properties, the current rate of $2.34/ERU (Equivalent Residential Unit) per month will be increased to $4/ERU per month. Staff is seeking Council approval of the new fee structure tonight; however the new rates will not become effective until Council also amends the stormwater ordinance. It is anticipated that the new rates will go into effect ninety days after the start of the new fiscal year.

- **Parks & Recreation Athletic Fees:** When the Fiscal 2014/2015 proposed fees and charges adjustments were presented to the Finance Committee on March 25, the Committee asked for additional information related to the proposed changes to the athletic field usage fee and the non-city athletic registration fee. At its May 27 meeting, the Committee received this additional information and heard a report from staff. The adjustments presented for adoption tonight reflect the original proposal that staff brought forward at the March 25 Committee meeting.

- **Transit Monthly & Annual Passes:** After further review, staff is recommending that Council indefinitely delay implementation of changes to the monthly and annual transit pass fees that were approved on April 8, 2014. This delay will enable staff time to further review the fee structure and avoid any potential undue hardship on transit riders.

- **Technical Adjustment (Right of Way Cut Permit Penalty):** When City Council adopted the Fiscal 2014/2015 fees and charges adjustments on April 8, 2014, staff inadvertently included with that action a new civil penalty for failure to obtain a right of way cut permit. However, all penalties must be set forth in the City's code of ordinance, not in the Fees and Charges Manual. As a result, staff is seeking Council approval of a technical adjustment to remove this item from the Fees and Charges Manual. Staff will bring this civil penalty change back to Council in July to correctly adopt it as part of the City's code of ordinance.

Pros:

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.
- General Fund Budget is balanced with no tax rate increase or fund balance appropriation and all essential City services are continued.

Con:

- None.

As noted above, the Proposed FY 2014/2015 General Fund budget is balanced with no property tax rate change and the maintenance of all existing programs and services. The Proposed FY 2014/2015 General Fund budget includes a $2.0 million appropriation from unassigned fund balance. Based on revenue and expenditure projections for FY 2013/2014, staff estimates that the City's unassigned fund balance will increase by $1.3 million to $16.7 million. This level unassigned fund balance will provide sufficient resources for the City to appropriate $2.0 million in fund balance as part of the FY 2014/2015 budget and still maintain an unassigned fund balance that exceeds the City's 15% policy target.

Staff requests that Council: 1) adopt the FY 2014/2015 Annual Budget Ordinance, including the changes noted above, and 2) amend the Fees and Charges Manual with the changes noted above.

When Mayor Manheimer said that the public hearing on this budget was held on June 20, 2014.

In response to Councilman Davis, City Manager Jackson said that staff will research the Eblen Foundation in-kind services in our work plan for the coming year and report back to Council.

Mr. Ken Michalove spoke about issues regarding "the hostile takeover of Pack Place".

Councilman Pelly said there are a lot of exciting projects ahead and was pleased that staff found compromises for the stormwater increases, and the implementation of the neighborhood sidewalk project.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Wisler moved for the adoption of Ordinance No. 4320. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 106

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-137 – RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Neighborhood Advisory Committee.

The terms of Robert Roepnack, Barber Melton and Elaine Poovey expire on July 1, 2014. In addition, Ms. Carmen Ramos-Kenney has resigned, thus leaving an unexpired term until July 1, 2016.

The following individuals applied for a vacancy: Nick King, Teddy Jordan and Julie Hansbury.

On June 10, It was the consensus of the Boards & Commissions Committee to reappoint Mr. Roepnack, Ms. Melton and Ms. Poovey; and interview Teddy Jordan and Julie Hansbury.

It was the consensus of Council to (1) reappoint Robert Roepnack (representing 28804 zip code), Barber Melton (representing 28805 zip code), and Elaine Poovey (at-large

representative); to each serve a three-year term, terms to expire July 1, 2017, or until their successors have been appointed.

In addition, after speaking highly of all the candidates, Teddy Jordan received 7 votes and Julia Hansbury received no votes. Therefore, Teddy Jordan was appointed, as the at-large representative, to fill the unexpired term of Ms. Ramos-Kennedy, term to expire July 1, 2016, or until her successor has been appointed.

RESOLUTION BOOK NO. 36- PAGE 255

K. RESOLUTION NO. 14-148 – RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Public Art & Cultural Commission.

The terms of Victor Palomino, Jaan Ferree, Julie Calhoun-Roepnack, Gwynne Rukenbrod, Guillermo Rodriguez and Leslie Klingner expire on June 30, 2014.

The following individuals have applied for a vacancy: Denise Drury, Jay Fields, Jenny Bowen and Jay Miller.

On June 10, it was the consensus of the Boards & Commissions Committee to reappoint Mr. Palomino, Ms. Ferree, Ms. Rukenbrod and Mr. Rodriguez; and interview Denise Drury, Jay Fields, Jenny Bowen and Jay Miller. Ms. Drury was interested in appointment; however, would be unavailable for an interview.

It was the consensus of Council to reappoint Victor Palomino, Jaan Ferree, Gwynne Rukenbrod and Guillermo Rodriguez to each serve a three-year term, terms to expire June 30, 2017, or until their successors have been appointed.

In addition, after speaking highly of all the candidates, Jay Miller received 1 vote, Jay Fields received 6 votes, Jenny Bowen received 6 votes, and Denise Drury received 1 vote. Therefore, Jay Fields and Jenny Bowen were each appointed to serve a three year term, terms to begin July 1, 2014, and expire June 30, 2017, or until their successors have been appointed.

RESOLUTION BOOK NO. 36- PAGE 267

C. RESOLUTION NO. 14-150 – RESOLUTION APPOINTING A MEMBER TO THE GREATER ASHEVILLE REGIONAL AIRPORT AUTHORITY

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Greater Asheville Regional Airport Authority.

The terms of David Hillier and Bob Roberts expire on June 30, 2014. Due to legislation, the seat of Mr. Hillier will now be a seat for Henderson County.

The following individual applied for the vacancy: Gary Herndon.

On June 10, it was the consensus of the Boards & Commissions Committee and City Council to postpone action on this until June 24.

Vice-Mayor Hunt moved to reappoint Bob Roberts to the Asheville Regional Airport Authority and the Greater Asheville Regional Airport Authority to serve an additional four-year term, term to expire June 30, 2018, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 270

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Timothy Sadler suggested City Council set a goal for local food production; and suggested the hiring of a new employee to analyze new development.

Mr. Dan Bridges urged Council to contact the state about upgrading handicapped placards.

Closed Session

At 6:01 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to a lawsuit involving the following parties: The State of North Carolina; and The City of Asheville. The statutory authorization is contained in G.S. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:27 p.m., Councilwoman Wisler moved to come out of closed session. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:27 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – July 22, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

ANNOUNCEMENTS

Mayor Manheimer announced that points of order can only be raised by members of City Council.

Mayor Manheimer also noted that the public comment period is an opportunity for the public to comment and it is not a dialogue opportunity between the public and City Council.

I. PROCLAMATIONS:

A. AMERICAN PUBLIC WORKS ASSOCIATION SCHOLARSHIP & AWARD WINNERS

Executive Director of Planning & Multimodal Transportation Cathy Ball introduced American Public Works Association current President Russell Byrd and Past President B. Keith Pugh, Engineering Services Director from the City of High Point, who in turn honored Ms. Kathi Willis, Mr. Lee Morrison and retired employee Mr. Lyle Willis during the APWA-NC Annual meeting in New Bern.

Mr. Byrd said that Kathi Willis, Administrative Assistant with Public Works Administration and the Capital Projects Management (Engineering) Division has worked for the City since 1991. In addition she has served as the State APWA-NC Chapter Secretary since 2008 providing management and conference planning support. In 1999 the Chapter Board instituted an award entitled the President's Award. This special award, at the sole discretion of the Chapter President is to recognize an individual whose efforts during the year singularly contributed to the betterment and success of the chapter.

Mr. Pugh said that Lee Morrison, Construction Inspector with the Capital Projects Management (Engineering) Division has worked for the City of Asheville since 2006. He has been attending classes to help him understand fully what is necessary to provide quality service to the citizens of Asheville. In addition to his schoolwork and his position as a construction inspector, Lee is a lieutenant at a local volunteer fire department, and an Eagle Scout. He has also just received his advanced certificate as an NC Road Scholar. He is certified in many aspects of his job and is a valued team member with the City.

Mr. Pugh also recognized retired City employee Lyle Willis, who is not a member of the Association; however, helps the leadership of the Association succeed. He embodies the ideals of the person who works behind the scenes.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 24, 2014

B. RESOLUTION NO. 14-151 - RESOLUTION AMENDING THE CITY COUNCIL MEETING SCHEDULE TO CANCEL THE AUGUST 12, 2014, CITY COUNCIL REGULAR MEETING

RESOLUTION BOOK NO. 36 - PAGE 271

C. RESOLUTION NO. 14-152 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SUPERIOR LANDSCAPING FOR GROUND MAINTENANCE AT VARIOUS PARKS, GREENWAYS AND FACILITIES

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Superior Landscaping to provide ground maintenance services at various parks, greenways and facilities in the north and east districts in Asheville in the amount of $117,200 for a twelve (12) month period with an option for two (2), twelve (12) month renewals based on contractor performance.

The Parks and Recreation Department contracts with multiple vendors for ground maintenance services in the six districts in Asheville. On August 12, 2013, the department issued an Advertisement for Bids for ground maintenance services in these districts to include mowing, trim and edge, and leaf and debris removal. Four vendors were the lowest responsive and responsible bidders. Of these, Superior Landscaping, located at 9 Linda Vista Drive in Asheville, bid is in the amount requiring City Council approval for a total of $117,200.

The ground maintenance contract will extend until June 30, 2015 with the option for two (2), twelve (12) month renewals based on contractor performance.

Pro: Supports the efficient delivery of core park maintenance services.

Con: None

The $117,200 to support the ground maintenance contract in the various parks, greenways and facilities in the north and east districts in Asheville is budgeted in the FY 2014-2015 Parks and Recreation Department operating budget as part of the Parks Maintenance division budget.

City staff recommends City Council to adopt a resolution authorizing the City Manager to enter into a contract and execute contract change orders with Superior Landscaping to provide ground maintenance services in the various parks, greenways and facilities in the north and east districts in Asheville in the amount of $117,200 for a twelve (12) month period with an option for two (2), twelve (12) month renewals based on contractor performance.

Councilman Bothwell hoped that as we move forward with landscaping contracts that we be clear that want them to exclude Round-Up from their chemical arsenal and exclude pesticides that are responsible for killing honey bees.

Councilman Smith agreed with Councilman Bothwell and also wanted to make sure that our landscaping contractors are aware of our food action plan and that we would like for them to incorporate those edibles into their landscaping plans.

RESOLUTION BOOK NO. 36 - PAGE 272

D. RESOLUTION NO. 14-153 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AGREEMENT FOR LEGISLATIVE REPRESENTATION SERVICES WITH JACK COZORT

Summary: The consideration a resolution authorizing the Mayor to enter into an agreement for legislative representation services with Jack Cozort.

Jack Cozort ("Cozort") has been providing legislative/lobbying services for the City since May 2012. A contract was executed at that time, which was effective until September 4, 2012. Cozort has been present at both short and long legislative sessions since May 2012 and has provided valuable services to the City by, among other things, monitoring legislation, aiding with the City's legislative agenda, and advocating for the City's interests in the General Assembly.

Even though Cozort has continuously represented the City since May 2012, and the City has continued to pay him $5,000 per month ($60,000 per year), it was only recently noted by the Purchasing Department that the contract had expired, so a new agreement is needed. Cozort is currently representing the City at the 2014 short session, and the City needs the same for the 2015 long session beginning in January 2015. The new contract would be effective through January 1, 2016. Because of the numerous bills which contain items which significantly affect the City, it is important for the City to have a presence in Raleigh, through the end of the 2015 long session. Cozort can provide this, and to date, has done so effectively for the City.

The cost of providing this service is $60,000 a year, plus costs, payable monthly at a rate of $5,000 per month for the contract term.

Pros:

- Strengthens the City's presence in the seat of State government during legislative sessions.
- Provides monitoring of important legislation, aids in furthering the City's legislative agenda and advocates for the City's interest in the General Assembly.
- Cozort has substantial experience in legislative matters at the N.C. General Assembly.

Con:

- None noted.

The fiscal impact is $60,000 per year. Funding for this contract is included in the FY 2014-15 adopted General Fund budget.

Adoption of the resolution is recommended.

RESOLUTION BOOK NO. 36 - PAGE 273

E. RESOLUTION NO. 14-154- RESOLUTION AUTHORIZING THE MAYOR TO EXPRESS THE CITY OF ASHEVILLE'S WILLINGNESS TO PROVIDE THE REQUIRED 20% LOCAL MATCH AND FUNDING FOR RIGHT-OF-WAY IF FEDERAL TRANSPORTATION FUNDING IS AUTHORIZED FOR ANY OF SEVERAL PEDESTRIAN OR BICYCLE PROJECTS IN THE CITY

Summary: The consideration of a resolution authorizing the Mayor to express the City of Asheville's willingness to provide the required 20% local match and funding for right-of-way if federal transportation funding is authorized for any of several pedestrian or bicycle projects in the City.

This request is a result of recent legislative changes preventing state transportation funds from being spent on stand-alone pedestrian or bicycle projects and changes in the way that the

N.C. Dept. of Transportation (NCDOT) evaluates transportation projects for inclusion in the 10-year transportation improvement program (TIP).

Stand-alone pedestrian or bicycle projects may still compete within the state's prioritization system for federal funding, but without any state funding available, the City must commit to providing the required 20% local match if the project is to be considered for inclusion in the TIP. Additionally, according to NCDOT procedures, right-of-way (ROW) must also be locally funded, so the commitment includes an amount for projected ROW costs if applicable.

The City has four projects under Strategic Planning Office (of) Transportation (SPOT) consideration at this time. They are:

- Construct sidewalk on Riceville Road from Tunnel Road to Bull Mountain Road. (SPOT cost estimate: $600,000; 20% local match: $120,000 plus $60,000 ROW)

- Construct pedestrian improvements along McDowell Street and Choctaw Street, which would include sidewalk gap closure, ADA upgrades and crossing improvements along McDowell Street from Phifer/Southside Ave to Choctaw Street and then on Choctaw Street to Biltmore Ave. (SPOT cost estimate: $446,000; 20% local match: $89,200 plus $26,000 ROW)

- Add bicycle lanes and sharrows at pinch points on Broadway Street from I-240 to Riverside Drive. This is anticipated to involve a combination of lane and road diets. (SPOT cost estimate: $410,000; 20% local match: $82,000)

- Bicycle improvements for McDowell Street and All Souls Crescent, including bike lanes, sharrows and striped shoulder, from McDowell St at Southside Avenue and continuing on All Souls Crescent to intersection with US 25/Hendersonville Rd. (SPOT cost estimate: 291,000; 20% local match: $58,200)

From what we have seen in the preliminary scoring, we are not expecting these projects to score well enough to be added to the next 10-year TIP, but without the resolutions, the projects will be dropped from consideration for the funding.

Pros:

- Allows the listed city projects to remain in contention for federal funding that would leverage city funds by four times
- Is an opportunity to bring these projects to fruition faster than would otherwise be possible
- We expect to know the outcome in August or September, so the period of uncertainty is short

Con:

- If the funds are awarded, the projects might delay other capital projects.

There is no fiscal impact, unless the grant funds are awarded. If awarded, the city would be responsible for providing the match through the Capital Improvement Program (CIP) in the year(s) programmed by the state and the MPO. Since there is no allocation in the current 5-year CIP for these matches, there is the potential that other capital projects might have to be delayed in order to fund the match requirements.

City staff recommends City Council authorize the Mayor of City of Asheville to execute a statement of commitment to provide the required 20% local match and funding for right-of-way if federal transportation funding is authorized for any of several pedestrian or bicycle projects in the City, as set forth herein, by signing the letter committing to the funding local match as described.

RESOLUTION BOOK NO. 36 - PAGE 274

F. RESOLUTION NO. 14-155 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A FEDERAL AVIATION ADMINISTRATION GRANT FOR THE ASHEVILLE REGIONAL AIRPORT TO REHABILITATE RUNWAY 16-24, PHASE 1

Summary: The consideration of a resolution authorizing the Mayor to approve a Grant Offer from the Federal Aviation Administration (FAA) in the amount of $8,935,654.

The FAA has offered a grant agreement to the Asheville Regional Airport. This grant, in the amount of $8,935,654, is for the following: Rehabilitate Runway 16-34, Phase 1 (Grade and Drain Temporary Runway; Acquire Land for Development, Construct Retaining Wall, Engineering/ Design/RPR Services, Force Account Services, FAA Reimbursable Agreements).

Staff recommends adoption of the resolution authorizing the Mayor to execute the grant agreement for Project No. 3-37-0005-44-2014.

RESOLUTION BOOK NO. 35 - PAGE 275

G. RESOLUTION NO. 14-156 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH RIVERTOP CONTRACTING INC. FOR THE DOWNTOWN CLEANING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $286,340 plus a contingency of 4.7% ($13,659) with Rivertop Contracting, Inc. for the project known as Downtown Cleaning, City of Asheville Project # DC-15-01.

This contract covers the contracted pressure washing of sidewalks located in the City of Asheville Central Business District. The project was advertised on April 23, 2014. Bids were opened with Rivertop Contracting, Inc. of Swannanoa, NC, being the lowest responsive bidder with a bid of $286,340. A 4.7% contingency ($13,659) has been added to allow payment for any unforeseen costs that typically arise during construction. Below are the two responsive bidders:

Rivertop Contracting, Swannanoa, NC $286,340.00
DeAngelo Brothers, Inc., Hazleton, PA $418,036.40

The work produced from this contract will resolve a great concern of downtown business owners and residents.

Pros:

- Will result in the most heavily used areas of the CBD being pressure washed completely 4 times in the life of the contract and the lesser used areas being pressure washed completely 2 times in the life of the contract.
- Will result in all areas of the CBD having loose debris removed 5 days per week.

Con:

- Project management and contract administration will consume staff time.

$300,000 was budgeted for Downtown Cleaning in the general fund. This amount was approved by City Council and included in the Fiscal Year 2014-15 budget.

City staff recommends City Council adopt the resolution awarding the contract to Rivertop Contracting, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a

contract in the amount of $286,340 plus a contingency of 4.7% ($13,659) with Rivertop Contracting, Inc. for the project known as Downtown Cleaning, City of Asheville Project # DC-15-01.

Councilman Davis asked that City Council receive a copy of the scope of the contract. He was excited about the possibility of a cleaner downtown.

Executive Director of Planning and Multimodal Transportation Cathy Ball said that they will have a checklist on the website for the different projects; and, that they have asked the contractor to wear clothing to identify that they are associated with the downtown cleaning project.

RESOLUTION BOOK NO. 36 - PAGE 276

H. RESOLUTION NO. 14-157- RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A GENERAL SERVICES AGREEMENT WITH CAROLINA MANAGEMENT TEAM FOR THE WATER RESOURCES WATER STORAGE TANK AND PIPE COATING AND MAINTENANCE PROJECT

Summary: The consideration of a resolution by City Council authorizing the City Manager to enter into a general services agreement with Carolina Management Team (CMT) in an amount not to exceed $150,000 for the Water Resources Water Storage Tank and Pipe Coating and Maintenance Project for the 2014-15 fiscal year with an option to renew for an additional two fiscal years in an amount not to exceed $150,000.00 each year contingent upon funding.

On May 16, 2014, the Water Resources Department issued a Request for Proposals (RFP) for the Water Storage Tank and Pipe Coating and Maintenance Project. The scope of the project is for the maintenance, rehabilitation, repair, and repainting of water storage tanks and pump station piping at various locations in the water distribution system. The project locations include: Concord Tank exterior, Fairview Downs Tank exterior, Patton Mountain Tank exterior, South Buncombe Pump Station, Mills River Water Treatment Plant Finished Water Piping, Mills River Water Treatment Plant Pipe Gallery, and Poplar Ridge Tank 2 exterior.

On June 11, 2014, Water Resources received one (1) proposal for the project in response to the RFP. The company responding was Carolina Management Team in Enka, NC for a total bid of $148,078.

The total bid includes: the base work to rehabilitate, repair, and repaint the aforementioned project locations; the cost to add three (3) additional sites depending on funds availability; and crack / spall repair. A review team comprised of Water Resources staff reviewed CMT's proposal and selected them for the project based on their qualifications, understanding of project scope, cost, and project schedule.

After the first year of the contract, the Water Resources Department desires to extend CMT's contract for an additional two fiscal years, both at $150,000 each year, contingent upon funding. The two year option to renew the contract benefits the City as follows: eliminates the time and expense associated with re-bidding; eliminates the logistics and operational requirements to stabilize another Contractor's workforce on site; continued work with a company who has a proven track record for excellent work and a known contract cost.

Pros:

- Approval of the project will allow Water Resources to complete necessary maintenance on various water storage tanks and pump station piping in need of rehabilitation and repair. The project will also make these sites more aesthetically pleasing.

- The project will provide a local company with work for at least the next year, possibly the next three years if the department is allowed to renew the contract for two additional fiscal years.
- The WRD will realize cost savings by not having to rebid the project.

Cons:

- If the project does not continue, the water storage tanks and pump station piping on the list to be rehabilitated and repaired will continue to degrade, which may eventually jeopardize the system's water quality.

No additional appropriations are necessary as funds are budgeted in the Water Resources Capital Improvement Projects Fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a general services agreement with Carolina Management Team (CMT) in an amount not to exceed $150,000 for the Water Resources Water Storage Tank and Pipe Coating and Maintenance Project for the 2014-15 fiscal year with an option to renew for an additional two fiscal years in an amount not to exceed $150,000 each year contingent upon funding.

RESOLUTION BOOK NO. 36 - PAGE 277

I. **RESOLUTION NO. 14-158 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH LAND OF THE SUN INC, D/B/A FLETCHER GRADING CONTRACTORS, FOR THE WESTWOOD ROAD STORM DRAINAGE IMPROVEMENT PROJECT**

ORDINANCE NO. 4323 - BUDGET AMENDMENT FOR THE WESTWOOD ROAD STORM DRAINAGE IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to enter a contract with Land of the Sun, Inc. doing business as Fletcher Grading Contractors for the construction services necessary to complete the Westwood Road Storm Drainage Improvements; and a budget amendment in the amount of $72,147 from Stormwater Fund reserves to fully fund the contract and a 15% contingency.

Westwood Road has a failing drainage system currently in existence. City crews have made minor repairs to the area in the past. The City obtained the professional services of McGill Associates for the design work associated with this stormwater improvement.

Within the scope of the project, Fletcher Grading Contractors will abandon the existing failing storm drainage system, place curb and gutter as necessary for the success of the project and install approximately 990 linear feet of storm drainage infrastructure.

The project was posted for bid on June 12, 2014. A mandatory pre-bid meeting was held with a moderate turnout on June 19, 2014. The bids were opened and June 26, 2014 and the following were the results:

Fletcher Grading Company	2157 Brevard Road, Arden NC	**$306,215**
NHM Constructors, LLC	PO Box 6385, Asheville NC	$427,578
Graham County Land Company, LLC	750 Tallulah Road, Robbinsville, NC	$461,870

The City receive bids from qualified contractors to perform the construction activity outlined in the approved documents for the Westwood Road Storm Drainage Improvement Project and the City of Asheville determined that Fletcher Grading Contractors, LLC and their bid of $306,215 as the low responsible and responsible bidder

Pros:

- Improvements to the storm drainage system in this area will prevent future maintenance issues.
- Provides safe access for the citizens that visit this area.
- Moves forward with the goals of the Stormwater Utility program to make capital investments through projects.

Cons:

- Construction will be disruptive to the area for approximately 3 months.

The total initial cost of the contract is $306,215; however an additional 15 percent contingency is recommended for this project, which brings the total expected budget to $352,147. The FY 2013-14 Stormwater CIP included an original budget of $280,000 for this project. In order to fully fund the contract amount and the 15% contingency, the original budget must be amended by $72,147. This additional funding will be taken from Stormwater Fund reserves that exceed the 8% policy target.

City staff recommends City Council approve a resolution authorizing the City Manager to enter a contract with Land of the Sun, Inc. doing business as Fletcher Grading Contractors for the construction services necessary to complete the Westwood Road Storm Drainage Improvements for $306,215 and to enter into change orders to this contract not to exceed 15% of the original contract or $45,932; and a budget amendment in the amount of $72,147 from Stormwater Fund reserves to fully fund the contract and the 15% contingency .

RESOLUTION BOOK NO. 36 - PAGE 278
ORDINANCE BOOK NO. 29 - PAGE 118

J. RESOLUTION NO. 14-159 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO AN EXISTING AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENTAL AND NATURAL RESOURCES FOR THE BILTMORE AVENUE BRIDGE FLOOD REDUCTION PROJECT

ORDINANCE NO. 4324 - BUDGET AMENDMENT TO ACCEPT FUNDS FROM THE N.C. DEPT. OF ENVIRONMENTAL & NATURAL RESOURCES FOR FLOOD MITIGATION EFFORTS FOR THE BILTMORE AVENUE BRIDGE FLOOD REDUCTION PROJECT

Summary: The consideration of a resolution authorizing the City Manager or designee to execute an amendment to an existing agreement with the N.C. Dept. of Environmental and Natural Resources (DENR) to supplement the current contract by an additional $750,000 in order to complete the design, permitting, property acquisition and continue coordination with the Army Corps of Engineers for the Biltmore Avenue Bridge Flood Mitigation Project; and a budget amendment in the amount of $750,000 to appropriate additional Senate Bill 7 funding received from DENR.

The Hurricane Recovery Act of 2005 (Senate Bill 7) allocated funds for planning and implementation of projects to aid in flood damage reduction for North Carolina communities hardest hit by the 2004 hurricane season. Through a study completed by Brown and Caldwell and the ongoing feasibility study the Army Corps of Engineers is conducting, the Biltmore Avenue Bridge Flood Mitigation Project has shown potential to provide significant flood reduction benefits. The flood control project includes the removal of floodplain fill and flood bench restoration to allow for a larger conveyance areas under the existing Biltmore Avenue Bridge.

On May 15, 2007, City Council approved a resolution allowing the City Manager to enter into the following three contracts with DENR:

- $2,500,000 for a three phase flood damage reduction measure which institutes a watershed-wide program for flood damage reduction in the Swannanoa
- $2,000,000 for acquiring property that is prone to flooding
- $75,000 to work with the Army Corps of Engineers to develop an emergency flood preparedness plan for Biltmore Village

On September 13, 2011, City Council approved a resolution authorizing the City Manager to enter into an agreement to the existing contract and additional funds were provided from Senate Bill 7. The City did not utilize all the funds for acquisition of property, $715,888 was remaining. This $715,888 will be re-allocated and additional DENR (Senate Bill 7) funds in the amount of $374,251 was approved for the flood damage reduction measures contract. The $1,090,139 supplements the existing NCDENR contract ($2,500,000) for a new total amount of $3,590,139.

With the additional funds now available for the Biltmore Avenue Bridge Flood Mitigation Project ($750,000), the original contact amount has been increased to $4,340,139 for the combined efforts for item 1 listed above.

On May 26, 2009, by Resolution No. 09-108, the City Manager was authorized to enter into a Feasibility Cost Share Agreement for the Swannanoa Flood Risk Management Project with the Army Corps of Engineers to provide professional services for a feasibility study for reducing flood damage in the Swannanoa River Watershed. The CORPS continues to be involved with this project and it is anticipated that a draft feasibility report will be available in 2015.

On June 28, 2011, City Council approved the City Manager to enter a contract with McGill Associates to perform the engineering services necessary to provide flood mitigations to the properties down stream of the Lake Craig Dam which will include the evaluations of the existing dam. McGill Associates are also providing engineering services associated with the improved roadway connections to the John B. Lewis Soccer Complex and provide a much needed connection to the City of Asheville water system. In an effort to keep consistent working relationships and expectations from both the Army Corps of Engineers, NC Division of Water Resources, and the City, McGill Associates is being recommended to continue the flood reduction efforts for the Biltmore Avenue Bridge Flood Mitigation Project.

These funds will be in addition to the $3,590,139 Million that have been made available for the City to perform flood mitigation work. The funds available for the completion of the engineering services for the Swannanoa Flood Risk Management project, to complete Phase I of the Lake Craig Project (currently under construction) and to include the Biltmore Avenue Bridge Flood Risk Management Project now totals $4,340,139.

Pros:

- Implements the priority objective of the Swannanoa Flood Risk Management Project
- To continue to work with state, local and federal partners on a flood mitigation plan
- Priorities are set for expending the remainder of state flood mitigation funding
- This funding will allow the completion of the design phase of the Biltmore Avenue Bridge Flood Mitigation Project

Cons:

- Construction of the project will require the involvement and funding of the US Army Corps of Engineers or the North Carolina Division of Water Resources.

Funding for the design, property acquisition, permitting and continued partnership with the Army Corps of Engineers for the Biltmore Avenue Flood Mitigation Project is currently coming from the Division of Water Resources Senate Bill 7 money. Future construction cost associated

with this project will be funded through partnerships with the Army Corps of Engineers and the City of Asheville with the possibility of additional funds from the Division of Water Resources. The additional $750,000 from Division of Water Resources Senate Bill 7 will allow the city to complete the design, permitting, property acquisition and continue coordination with the Army Corps of Engineers for the construction of the Biltmore Avenue Bridge Flood Mitigation.

Staff recommends City Council approve a resolution authorizing the City Manager or designee to execute an amendment to an existing agreement with DENR to supplement the current contract by an additional $750,000 in order to complete the design, permitting, property acquisition and continue coordination with the Army Corps of Engineers for the Biltmore Bridge Flood Mitigation Project; and a budget amendment in the amount of $750,000 to appropriate additional Senate Bill 7 funding received from DENR.

RESOLUTION BOOK NO. 36 - PAGE 279
ORDINANCE BOOK NO. 29 - PAGE 120

K. RESOLUTION NO. 14-160 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE PROFESSIONAL SERVICES CONTRACT WITH MCGILL ASSOCIATES FOR THE BILTMORE AVENUE FLOOD MITIGATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to complete negotiations and enter into the necessary agreements for an amendment to the existing professional services contract with McGill Associates for the engineering services necessary for the completion of the design of the Biltmore Avenue Bridge Flood Mitigation Project to be included in the current contract for the Lake Craig/Azalea Road Project.

McGill Associates is the design team for the ongoing work associated with the Lake Craig/Azalea Road Project. During the process, McGill's team continues to work closely with the Army Corps of Engineers on the Swannanoa Flood Mitigation Project. As this project has moved forward, McGill has continued to help facilitate the projects along the Swannanoa River and be actively involved with the Flood Mitigation Efforts. The goals of these projects have been to provide additional flood protection to Biltmore Village and the surrounding area.

As the City and the consulting team of McGill Associates have continued to work closely with the Army Corp of Engineers on the final stages of the Swannanoa Flood Risk Management Project, the Biltmore Avenue Bridge Flood Mitigation Project has continued to be a key component to these flood reduction efforts. The Corps has the Biltmore Avenue Bridge Flood Reduction Project as a top project on the study. As McGill Associates have worked closely with the Corps to develop the Lake Craig/Azalea Road flood reduction models and have been actively involved in continuing conversations and necessary actions associated with the Swannanoa Flood Risk Management Project, they are best suited to move forward with the communication with the Corps and to implement the design of the flood reduction project within Biltmore Village.

The Hurricane Recovery Act of 2005 (Senate Bill 7) allocated funds for planning and implementation of projects to aid in flood damage reduction for North Carolina communities hardest hit by the 2004 hurricane season. Through a study performed by Brown and Caldwell and also the Army Corps of Engineers, the Biltmore Avenue Bridge Flood Mitigation Project has shown potential to provide significant flood reduction benefits. As the projects funded throughout the state have been finalized, the state has indentified additional funds that can be utilized toward the flood reduction efforts in the Swannanoa River Basin. The project that fits the criteria from the Corps and also the Division of Water Resources is the Biltmore Avenue Bridge Project.

Within the scope of the project, McGill Associates will perform the engineering services necessary to provide flood mitigation to the properties in the Biltmore Village Area. The Biltmore Avenue Flood Mitigation Project was a high priority in the Swannanoa Flood Risk Management Project which was accepted by City Council on May 10, 2011.

The Biltmore Ave. Bridge Flood Mitigation will continue the efforts of flood reduction within the Biltmore Village Area by moving forward with the design any necessary property acquisition ahead of the Corps study. The Corps is in the final stages of their report and expect to have a draft Feasibility Study out in 2015.

Pros:

- Implements the priority objective of the Swannanoa Flood Risk Management Project
- To continue to work with state, local and federal partners on a flood mitigation plan
- Priorities are set for expending the remainder of state flood mitigation funding
- This funding will allow the completion of the design phase of the Biltmore Avenue Bridge Flood Mitigation Project

Cons:

- Construction of the project will require the involvement and funding of the US Army Corps of Engineers or the North Carolina Division of Water Resources.

The change order portion of this flood mitigation project is funded through the State in compliance with the Hurricane Recovery Act of 2005. With the additional funding from the SB 7 ($750,000), the Biltmore Ave. Bridge Flood Mitigation Project can move forward with the design, permitting and property acquisition. City Staff is working with the Army Corps of Engineers as well as the North Carolina Division of Water Resources to identify future funding sources for potential flood mitigation projects within the Swannanoa River Basin.

City staff recommends City Council approve a resolution authorizing the City Manager to complete negotiations and enter into the necessary agreements for an amendment to the existing professional services contract with McGill Associates for and additional $297,000 for the engineering services necessary for the completion of the design of the Biltmore Avenue Bridge Flood Mitigation Project to be included in the current contract for the Lake Craig/Azalea Road Project.

RESOLUTION BOOK NO. 36 - PAGE 280

L. RESOLUTION NO. 14-161 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH SCHNABEL ENGINEERING SOUTH, PC, FOR THE NORTH FORK DAM INTAKE TOWER AND CONDUIT REPAIRS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract amendment with Schnabel Engineering South, PC, to increase the existing contract in the amount of $302,400 for a total project budget of $710,590 to expand the scope of services to include bidding and construction administration services for the North Fork Dam Intake Tower and Conduit Repairs Project.

On March 12, 2013, City Council awarded the Engineering Design Services Contract to Schnabel Engineering for the North Fork Water Treatment Plant Dam/Tunnel Project in the amount of $408,190.00, which included a contingency for a total project budget of $428,600.00. Water Resources is ready to move into the bidding and construction phase of this project. Schnabel has presented a scope of work and cost proposal for engineering services associated with the Intake Tower and Conduit Repairs at the North Fork Water Treatment Plant. Due to their intimate knowledge of the North Fork Dam, Schnabel Engineering is the most qualified firm to complete the additional scope of services. The additional scope of services will include: assistance with advertising, bidding, and the selection of a contractor; inspection and testing services; construction observation and reporting; contract administration; development of record drawings; and additional tasks as outlined in their proposal.

Pro:

- Continued use of Schnabel Engineering as the most qualified engineering firm to assist with the bidding and construction phase of the project.

Cons:

- The cost for the additional scope is notable but if Schnabel Engineering is not awarded this contract the project will be delayed.
- If another firm is awarded the contract, the most qualified engineering firm will not be selected.

The funding needed for the contract and the contingency is currently allocated within the project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute a contract amendment with Schnabel Engineering South, PC, to increase the existing contract in the amount of $302,400 for a total project budget of $710,590 to expand the scope of services to include bidding and construction services for the North Fork Dam Intake Tower and Conduit Repairs Project.

RESOLUTION BOOK NO. 36 - PAGE 281

M. RESOLUTION NO. 14-162 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION (MPO) FOR GRANTS OF FEDERAL TRANSPORTATION FUNDS, AND IF THE APPLICATIONS ARE SUCCESSFUL, TO ACCEPT GRANTS AND SIGN NECESSARY AGREEMENTS WITH THE MPO, OR STATE OR FEDERAL AGENCIES TO RECEIVE THE FUNDS

Summary: The consideration of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (MPO) for grants of federal transportation funds, and if the applications are successful, to accept grants and sign necessary agreements with the MPO, or state or federal agencies to receive the funds.

The MPO has opened a call for projects to use federal Surface Transportation Program – Directly Attributable (STP-DA) funds and Transportation Alternative Program (TAP) funding sources. The MPO expects to have approximately $6.1 million in STP-DA for fiscal years 2016 and 2017, and $566,000 in TAP funding for fiscal years 2013 and 2014. All of these funds are expected to be distributed via this competitive call for projects.

Staff is pursuing funding for the following projects:

- One ART bus for $450,000; with 80% funded by the grant
- A bike share study for $50,000; 50% funded by the grant
- River Arts District Transportation Improvement Project (RADTIP) right of way acquisition, 50% funded by the grants. Application for this project will be made to both funding sources and for all available years.

If received, all but the bike share study grant would help fund projects already programmed in the city's capital improvements program (CIP). This would not supplant city funding already available because the CIP planning process presumed partial grant funding for these projects.

Each of these projects is ready to move forward as the funding becomes available, and are not expected to need any additional environmental documentation to proceed. Ability to deliver projects in the designated timeframe is a requirement of the grant.

Pros:

- Allows the City of Asheville access to up to $6.6 million in capital, planning and infrastructure investment
- Allows the City of Asheville to take the next step in moving the RADTIP project forward
- Would replace a 12 year old bus that is nearing the end of its expected life cycle
- Allows the city to move toward a bike share system

Con:

- Commits the city to funding to the match, at least for the time the applications are pending.

If successful, the grant applications will involve the spending of city funds to leverage between 50% and 80% grant funding for these projects, up to a grant value of $6.6 million. As noted above, all but the bike share study grant would help fund projects already programmed in the city's capital improvements program (CIP).

City staff recommends City Council adopt a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (MPO) for grants of federal transportation funds, and if the applications are successful, to accept grants and sign necessary agreements with the MPO, or state or federal agencies to receive the funds.

RESOLUTION BOOK NO. 36 - PAGE 282

N. RESOLUTION NO. 14-163 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTACT WITH UNIFIED AV SYSTEMS FOR RENOVATIONS TO THE AUDIO VISUAL SYSTEMS

ORDINANCE NO. 4325 - BUDGET AMENDMENT FOR AUDIO VISUAL SYSTEMS

Summary: The consideration of: 1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $174,065 with Unified AV Systems for renovations to the city's government channel and audio visual systems in the Council Chamber and first floor conference room; and 2) a technical budget amendment in the amount of $174,065 to create a project budget for the contract utilizing savings in other capital projects.

The City of Asheville produces and broadcasts City Council and other meetings held in the City Council Chambers. Meetings are broadcast live on the local government access channel, Charter Cable channel 193, and recorded for scheduled re-broadcasting on Charter Cable 193 and on the City's YouTube channel. Council meetings are also live streamed for internet viewing. Historically, the channel has also scheduled and broadcast original programming and bulletin board information.

The last significant equipment upgrade occurred in the late 1990s and included broadcast equipment in the control room as well as audio visual equipment in the Council Chamber and First Floor Conference Room. That equipment is reaching the end of its useful life with key components already failing.

Renovations will include:

- Updated broadcast equipment

- Addition of large flat-screen monitors to the Council Chamber
- Replacing standard definition cameras with high definition cameras and adding a fourth camera to the Council Chamber
- Updated audio visual equipment for the Council Chamber and first floor conference room
- Updated production equipment in the downstairs Control Room, including remote camera controller, character generator, live production switcher, video server, and video bulletin board.
- Updated equipment for live streaming

Five (5) proposals were received March 28, 2014. Proposals were reviewed by an evaluation team including a representative from the Buncombe County government access channel (BCTV) with telephone interviews following the review of the proposals. Best and final offers were submitted June 2, 2014. Unified AV Systems was unanimously recommended for contract award by the team. The proposals with the top two scores were:

- Ronco Specialized Systems is headquartered in Buffalo, NY with local project work completed from their Charlotte, NC office. $183,869

- Unified AV Systems is headquartered in Atlanta, GA with local project work completed from their Greensboro, NC office. $174,065

Pros:

- Renovations will improve sound quality and allow members of the public to view presentation materials from every seat in the Council Chamber.
- Renovations will improve the failing audio visual system in the first floor conference room.
- Renovations will allow programming, including City Council meetings, to be scheduled for broadcast throughout the week creating opportunities to once again apply for supplemental PEG funding. Currently, these payments are roughly $30,000 per year.
- High definition cameras will significantly improve the online viewing experience.

Cons:

- High Definition upgrades will be limited to an analog signal through the city's cable provider.
- Technology continues to change at a rapid pace with more and more users gaining access to online viewing. It is possible, at some time in the future, government channels will become obsolete. The portion of the contract to be invested in broadcast-only equipment is $15K.

There is approximately $18,308 remaining in a prior year capital project that was established for government channel equipment replacement. The remaining $155,757 needed to fund the contract with Unified AV Systems will come from savings in the City Hall renovations project. A technical budget amendment is required to create a new project budget utilizing the savings in these two other projects.

City staff recommends City Council adopt: 1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract not to exceed $174,065 with Unified AV Systems for the project known as Government Channel and Council Chamber Audio Visual Renovations; and 2) a technical budget amendment in the amount of $174,065 to create a project budget for the contract utilizing savings in other capital projects.

RESOLUTION BOOK NO. 36 - PAGE 283
ORDINANCE BOOK NO. 29 - PAGE 122

O. **RESOLUTION NO. 14-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONSTRUCTION CONTRACT WITH BRANTLEY CONSTRUCTION FOR THE U.S. CELLULAR CENTER RENOVATIONS PROJECT**

RESOLUTION NO. 14-165 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE PROFESSIONAL SERVICES CONTRACT WITH BETSCH ASSOCIATES/CLARK NEXSEN FOR THE U.S. CELLULAR CENTER RENOVATIONS PROJECT

Summary: The consideration of resolutions to authorize the City Manager to: 1) execute an amendment to the construction contract with Brantley Construction in the amount of $11,399.33 for additions to construction related to the US Cellular Center renovations. After the approval of the pending contract amendment, the total contract amount will be $3,006,235.61; and 2) execute an amendment to the professional services contract with Betsch Associates/Clark Nexsen in the amount of $7,340.00 for additional design services related to the US Cellular Center renovations for a total contract amount not to exceed $1,116,795.00.

The renovations to the ExploreAsheville.com Arena and common areas of the US Cellular Center renovation project are nearing completion. A temporary certificate of occupancy has been issued and staff expects a final Certificate of Occupancy for the project to be issued before the end of the month. As often is the case in an older facility, unexpected issues related to ADA access and water service/backflow prevention, which surfaced during construction, have necessitated change order directives to the contractor and additional design services from the architect. These items have increased the respective construction and professional services contracts above the administrative limit staff can authorize, and City Council action is necessary to amend the contracts.

Pros:

- Action updates the construction contract to meet the obligations for the required construction necessitated by unforeseen conditions at the beginning of the design.
- Action updates the professional services contract to meet the obligations for the required design necessitated by unforeseen conditions at the beginning of the design.
- Action will support improved facilities in the renovated facility.

Con:

- None noted. Funding for this is available in the USCC Capital Budget.

Funding for the amendments to the construction and professional services contracts is already in the Capital Budget for the Project, so no budget amendment is required.

Staff recommends City Council approve resolutions to authorize the City Manager to: 1) execute an amendment to the construction contract with Brantley Construction in the amount of $11,399.33 for additions to the construction related to the US Cellular Center renovations; 2) execute an amendment to the professional services contract with Betsch Associates/Clark Nexsen in the amount of $7,340.00 for additional design services related to the US Cellular Center renovations project.

RESOLUTION BOOK NO. 36 - PAGE 284
RESOLUTION BOOK NO. 36 - PAGE 285

P. **RESOLUTION NO. 14-166 - RESOLUTION AUTHORIZING THE CITY MANAGER TO MAKE APPOINTMENTS TO THE 51 BILTMORE CONDOMINIUM ASSOCIATION**

Summary: The consideration of a resolution authorizing the City Manager to appoint a director to the 51 Biltmore Condominium Association, and make related committee appointments.

The 51 Biltmore Project is the project that includes the Aloft Hotel, a City parking garage, and vacant property that is being held for possible future development. As Council may recall, the ownership structure of this public-private project, using the downtown development act, is a condominium.

The condominium association is governed by a board of directors consisting of three members—each member/owner appoints one director. The association by-laws also provide for the appointment of an executive board and various committees. There is not much common area, and each member/owner is substantially responsible for its respective property, so there is not much business for the condominium association to conduct. However, meetings are sometimes necessary. Former Finance Director, Lauren Bradley, was the City's appointed director, but she is no longer employed by the City, and it is necessary for a new City representative to be appointed.

The resolution authorizes the City Manager to appoint and remove City representatives to the 51 Biltmore Condominium Association, including committee and board members, in accordance with the Association by-laws.

Pros:
- Fills a *de facto* vacancy on the board of directors.
- Allows City Manager to make future appointments without Council action.

Con:
- None noted.

Adoption of the resolution is recommended.

RESOLUTION BOOK NO. 36 - PAGE 286

Q. RESOLUTION NO. 14-167 - RESOLUTION SETTING A PUBLIC HEARING ON AUGUST 26, 2014, FOR A LAND USE INCENTIVE GRANT AGREEMENT FOR 146 ROBERTS STREET (RAD LOFTS)

Summary: The consideration of a resolution setting a public hearing on August 26, 2014, for a land use incentive grant agreement for 146 Roberts Street (RAD Lofts).

The owners/developers of RAD Lofts have applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on January 10, 2012. The following report summarizes their application and reports on eligibility and points.

RAD Lofts LLC has contracted to purchase the 2.88 acre site formerly home to the Dave Steel Company. The site is located at the intersection of Roberts Street and Clingman Extension in the River Arts District of Asheville. The develop estimates a total development cost of $52 million. The project consists of

- 209 residential rental apartments (144 one-bedroom apartments and 65 two-bedroom apartments). 220 of the parking spaces within the parking structure noted below will accommodate residents of the community;
- A two story parking deck for residents and for the public (on an hourly rental basis), street front retail spaces, live work spaces and second floor office space. This commercial component will be 48,500 sq. ft. plus 136 parking spaces.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- Equity: A 20% equity contribution is required. The project developers indicate they will contribute at least 30% equity to the project.
- Energy Star Certification: The developers indicate the project will achieve Energy Star certification.
- Location: The project is located within 1/8 of a mile of a designated major transportation corridor (Riverside Drive).

The developer will not agree to assume all legal costs if the Land Use Incentive policy is challenged. This is a required element of the adopted Land Use Incentive Policy and therefore, Council may want to consider an amendment to the existing policy at the public hearing.

Public Benefit

The project proposes the following Public Benefit Elements:

- Workforce Housing units, assuming an annual rental increase of 3%, for the proscribed period: 100% *of total units* for which the developer request 20 points.
- Affordable Housing units assuming an annual rental increase of 3%, for the proscribed period: 5 units, for which the developer requests 10 points.
- Green Building/Energy: *Energy Star certified* (5 points)
- Includes a minimum 20% non-residential (5 points)
- Within the Sustainability Bonus area (5 points)
- Brownfield Redevelopment (5 points)

The developer has scored the project with 50 points. Based on this score, the project would be eligible for a 5 year Land Use Incentive Grant.

The project meets the following 2013-14 Strategic Plan Goals: (1) *Economic Growth and Financial Sustainability:* The project contributes significantly to the objective of supporting a mixed use neighborhoods in the River Arts District. (2*) Affordable Housing and Community Development*: the project creates locationally efficient affordable and workforce housing;

The project meets applicable Master Plans in the following ways: (1) The project supports the goals of the *2009 City Transit Master Plan* by its location "along major transit corridors..." ; and (2) The project supports the goals of the *2009 Sustainability Management Plan*, which calls for the City to encourage Transit Oriented Development.

Exemption Request

The current assessed value of the property is $501,800 (land only). The developer's estimate of completed project taxable value is $40,000,000, and has estimated the value on which the LUIG is made at 80% of that ($32,000,000). The current annual city tax, based on current assessed value, is $2,308. The annual estimated city tax post completion, based on the developer's estimate of value is $184,000. Thus, the estimated annual Land Use Incentive Grant would be $144,891.72, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 5 years, the estimated Grant would be $724,458.60.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $81,806.40. The value of each 10% of the fee rebate would be $8,181. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 50 point level, the fee rebate would be $40,903.20.

As noted in the developer's cover letter, the project is also eligible for a State Brownfield Grant, which would provide a five year sliding grant equal to approximately $823,000. This grant is also calculated from the taxes owed by the project, and is applicable to both state and county taxes. The developer requests that the City's LUIG be applied to the amount not covered by the Brownfield Grant over an eight year period, as opposed to equal payments over the requested five-year period. This would result in a grant disbursement that would increase annually over the five year term, as the brownfield grant decreased, and then pay the remainder over three additional years; it would not change the amount of the grant.

Staff recommends that Council set a public hearing date of August 26, 2014, for the consideration of the Land Use Incentive Grant request, as detailed above.

RESOLUTION BOOK NO. 36 - PAGE 287

R. ORDINANCE NO. 4326 - BUDGET AMENDMENT FOR THE VELODRONE IMPROVEMENTS AND CARRIER PARK RESTROOM RENOVATIONS

Summary: The consideration of a technical budget amendment in the amount of $17,500 to transfer funds from Parks and Recreation's deferred maintenance operating budget to two capital projects; the Velodrome Improvements in the amount of $4,000, and Carrier Park Restroom Renovations in the amount of $13,500.

The Parks and Recreation Department deferred maintenance cost center in the General Fund is used for minor repairs and improvements for parks and recreation facilities. There are items budgeted there in the current fiscal year that relate to large projects. These items include $4,000 to complete the design services for future improvements to the Velodrome, and $13,500 to complete the design services for future renovation of restrooms at Carrier Park.

Staff is requesting City Council to approve a technical budget amendment to increase $17,500 to two individual capital projects in the General Capital Project Fund from the Parks and Recreation Department deferred maintenance budget.

Pro:

- This action will allow each capital project to reflect all the expenditures related to the construction and design related to it.

Con:

- None

The technical budget is to complete the design of the Velodrome improvements and Carrier Park Restroom renovations. The project budget will authorize expenditures up to $17,500. These expenditures have been fully funded through the transfer of funds from the Parks and Recreation Department deferred maintenance operating budget.

City staff recommends City Council approve the technical budget amendment authorizing the City Manager to increase $17,500 to the Velodrome Improvements and Carrier Park Restroom Renovations capital projects.

ORDINANCE BOOK NO. 29 - PAGE 124

S. ORDINANCE NO. 4327 - BUDGET AMENDMENT TO SUPPORT THE INITIATIVES OF THE WNC DIVERSITY ENGAGEMENT COALITION

Summary: The consideration of a budget amendment in the amount of $10,000 from General Fund unassigned fund balance to support the initiatives of the WNC Diversity Engagement Coalition (WNC DEC) in Fiscal Year 2015.

The WNC DEC is a network of anchor institutions dedicated to engaging a diverse and inclusive workforce in Western North Carolina. With a combined workforce of more than 15,000 employees, WNC DEC combines resources, expertise, and social capital to recruit, retain, and advance individuals from under-represented communities within the coalition. In addition to the City of Asheville, partners include AB Tech, Buncombe County, the Chamber of Commerce, MAHEC, Mission Health, and UNC Asheville. Over the next year the coalition will be opened up to additional partners.

WNC DEC works to create intentional networks of support, development, and practices that increase the diversity of professional and executive talent in the region and fosters work environments that realize the benefit of a fully engaged workforce. Currently WNC DEC is focusing on three main initiatives:

- Offering a series of professional development workshops for employees and community members;
- Implementing best practices of coaching, mentoring and sponsoring for identified employees; and
- Developing nationally-accredited accountability standards for the WNC DEC partner institutions.

The requested commitment of $10,000 from each of the anchor institutions will allow for the continuation of the WNC DEC's programs in the coming fiscal year to include:

- Professional development classes: ongoing development classes for anchor institution members and members of the community. This will include related costs such as printing, snacks, etc;
- Coaching: one-on-one coaching hours for anchor institution employees with a personal development coach;
- Social Networking and Social media: establishing and continuing a social media presence for the coalition;
- Social events: programming and costs associated with local networking events; and
- Development of accountability standards for member institutions.

Pro:

- The City of Asheville will remain a key player in implementing a critical diversity initiative in our community

Con:

- Requires an appropriation from unassigned fund balance

Based on current unassigned fund balance estimates, the City has sufficient resources to appropriate the $10,000 associated with this budget amendment and still maintain an unassigned fund balance that exceeds the City's 15% policy target.

City staff recommends City Council approve a budget amendment to fund the WNC DEC FY15 projects with a contribution of $10,000 from General Fund unassigned fund balance.

ORDINANCE BOOK NO. 29 - PAGE 126

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ASHEVILLE POLICE DEPARTMENT STRATEGIC PLAN 2014 - 2017

At the direction of City Council, the Asheville Police Department has been working with Dolan Consulting Group to develop a three year Strategic Plan. This process began in August 2013 with meetings involving all APD personnel, City of Asheville department directors and other staff; local law enforcement and public safety agency partners, community groups, and the Citizens Police Advisory Committee. These meetings were facilitated by the consultants, and were held to gather input on potential areas for departmental growth. The focus was on departmental strengths and areas for development. Planning areas consisted of (1) Operations (a) recruitment and retention - Goal is to enhance recruitment and retention); (b) leadership - Goals are to create an environment that promotes fairness, consistency, and accountability; and provide employees with current and high quality training, and provide equity in career development opportunities; (c) organizational structure - Goals are to allocate staff to ensure the goals of the APD are met in an efficient manner; and improve APD's reaction to crime; and (c) equipment and technology - Goals are to ensure the ability to upgrade and/or replace equipment and technology as needed in the future; and maintain a professional, safe and operable fleet of department vehicles); and (2) Community (a) community quality of life - Goal is a committed partnership with the community to reduce crime and improve the quality of life; and (b agency outreach and communication - Goal is to ensure that the community is informed in a timely manner about current events, programs and news.

Time markers and performance measures (1) three-year Strategic Operations Plan; (2) each goal, objective and action item has specific time markers and performance measures to evaluate outcomes; (3) team leaders are responsible for their Planning Areas; and (4) the Strategic Operations Plan is a living document that will be evaluated and revised as needed over the next three years.

When Councilwoman Wisler suggested the Chief to be creative in using volunteers, Chief Anderson said that it is in their action plan to expand their volunteer opportunities. In addition, they will be working closely with the City's Communication and Public Engagement Division.

In response to Councilman Smith, Chief Anderson explained how they are committed to crisis intervention training for their officers.

Councilman Davis said that the Public Safety Committee received an update to the APD Downtown Enhancement Plan, noting that they have heard positive comments, including, but not limited to how the Downtown Unit is very responsive to calls and there is a good APD presence on the streets.

B. LEGISLATIVE UPDATE

Assistant City Manager Paul Fetherston highlighted the following bills: H1224 - Local Sales Tax for Education; H625 - Temporary Health Structures; H189 - Challenges to State Laws; H1145 - Registration Required for Mopeds; S594 - Omnibus Justice Amendments; S38/H15 - Amend Environmental Laws 2014; S729 - Governor's Coal Ash Action Plan; H150/S139 and S734 - Zoning Design and Aesthetic Controls; S734 - Regulatory Reform Act of 2014; H531 - ETJ/Zoning - Weaverville and Buncombe/Correction; H1113 - Bent Creek Property Sullivan Act

Exemptions; H1247 - Asheville Regional Airport; H1050 - Omnibus Tax Law Changes; includes Privilege License Tax reform; and S786 - Energy Modernization Act.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE REGARDING RESIDENTIAL DEVELOPMENT DENSITY STANDARDS IN CERTAIN COMMERCIAL ZONING DISTRICTS

Councilman Bothwell moved to continue this public hearing until October 14, 2014. This motion was seconded by Councilwoman Wisler and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 1 SUNSET PARKWAY FROM RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT TO OFFICE II DISTRICT/ CONDITIONAL ZONING TO ALLOW FOR THE OPERATION OF A RESIDENCE AND A CANINE REHABILITATION CENTER, WITH REQUESTED LANDSCAPE AND PARKING MODIFICATIONS

On June 10, 2014, this public hearing was continued to this date, at the applicant's request. On July 17, 2014, Mr. Derek J. Allen, attorney for the applicant Mark Ledyard, wrote a letter to Mr. Alan Glines stating "I am writing to inform you that Mark Ledyard hereby withdraws his application for approval by the City of Asheville for a request to rezone property located on 1 Sunset Parkway, Asheville, NC. We appreciate your efforts and the time and consideration of the members of the City Council.

C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO CHAPTER 7 OF THE CODE OF ORDINANCES TO AMEND THE DEFINITION OF "GATED COMMUNITIES"

ORDINANCE NO. 4328 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO AMEND THE DEFINITION OF "GATED COMMUNITIES"

Director of Development Services Shannon Tuch said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinances to amend the definition of "Gated Communities." This public hearing was advertised on July 11 and 18, 2014.

Ms. Tuch said that in 2007 the Asheville City Council adopted a prohibition on gated communities throughout the city's jurisdiction. In conjunction with the prohibition, a definition of gated community was also adopted.

The prohibition was enumerated in each and every zoning district that allowed residential development. The only exception to this was for those existing gated communities that had phased expansion plans previously documented in an approved Master Plan prior to the adoption of the prohibition. This potentially applied to only two existing communities that have since been removed from the city's jurisdiction.

Since the adoption of the prohibition, there have been several inquiries for existing developments to gate residential communities. In some cases, it was a desire to gate an entire community, in other cases it was to gate only a portion of, or one entrance to a community. The ordinance language and meeting minutes from the hearing establishing the prohibition clearly communicates that restricting access to an entire neighborhood or a large subdivision would not be allowed, however, these same documents were less clear when it came to these other requests that would not have the same effect. The intent of this amendment is to clarify and

redefine ***Gated community*** so that gates may be used in certain situations, providing property owners the ability to secure individual properties but, not restrict access between properties.

This proposed UDO text amendment amends the existing definition found in Section 7-2-5 of the City of Asheville's Code of Ordinances. The current definition reads:

> ***Gated community*** means a subdivision, neighborhood or residential community to which entry is restricted to residents and their guests. Often includes barriers such as gates, security personnel, fences and/or walls.

There have been several instances where multi-family developments have sought to gate access to their parking areas either for security or traffic control purposes. Strictly interpreting the definition would not allow the installation of a gate at the parking entrance so these requests have been denied. Staff is proposing to amend the current definition to allow gates in a limited capacity when located exclusively on an individual property and when it does not restrict access between properties. The proposed definition is as follows.

> ***Gated community*** means a subdivision, neighborhood or residential community where any vehicular or defined pedestrian access to more than one parcel is unavailable to the general public as the result of a barrier that may include, but would not be limited to, gates, security personnel, fences or walls. This definition would not include gates or other barriers limiting access to an individual parcel.

This simple amendment would allow a property owner to secure their property through easy to maintain and low cost means, but does not restrict the movement between properties.

This wording amendment is primarily designed to address security concerns related to unrestricted access to private properties. Controlling access and empowering property owners is supported by Police Goals I & III of the ***Asheville City Development Plan 2025***.

> **Goal I.** Partner with the community to enhance the quality of life and resolve neighborhood concerns.
>
> **Goal III.** Utilize resources efficiently in preventing and suppressing criminal activity.

Additionally, this amendment preserves the goal of connectivity and community described in the Land Use & Transportation section of the City Development Plan, which reads:

> **Goal X.** The City should assure that as land is developed or redeveloped, provision is made for access by various means of transportation.
>
> > Strategy #1. The City should revise its subdivision regulations to require pedestrian and, where feasible, vehicular connections within the subdivision and between the subdivision and adjacent property.

The Planning & Zoning Commission reviewed this item at their regular June 4, 2014, meeting. Three members of the public spoke regarding the proposed amendment, two were strongly in favor, one individual was neutral but expressed concern regarding the need to maintain connectivity. The Commission had several questions exploring when gates may be permitted and when they would not. After some deliberation, the Commission voted 4:2 supporting the amendment (one Commissioner was absent).

Considerations:

- Provides opportunities for controlling access to private homes, parking or amenity areas when located on a single parcel.

- Preserves access and movement between properties, whether on public or private roads.

City staff recommends approval of this wording amendment.

Mayor Manheimer opened the public hearing at 5:51 p.m., and when no one spoke, she closed the public hearing at 5:51 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4328, to approve the proposed wording amendment to Section 7-2-5 of the Code of Ordinances of the City of Asheville and finds this request is reasonable and is consistent with the Comprehensive Plan and other adopted plans for the following reasons: (1) Controlling access and empowering property owners supports the Police Goals of the Asheville City Development Plan; (2) The amendment preserves the goal of connectivity and community in the Land Use & Transportation section of the Asheville City Development Plan; and (3) The amendment protects personal security and promotes effective traffic control. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 128

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 14-168 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A LEASE AGREEMENT WITH THE COLBURN EARTH SCIENCE MUSEUM

RESOLUTION NO. 14-169 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A LEASE AGREEMENT WITH THE ASHEVILLE ART MUSEUM

RESOLUTION NO. 14-170 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A LEASE AGREEMENT WITH THE DIANA WORTHAM THEATRE

Vice-Mayor Hunt, member of the Pack Place Board, said that the proposed three tenant leases is a significant change in the property management structure at Pack Place. For many months there has been a lot of work and effort which has culminated to these leases. The City is now prepared to move forward with three direct leases. Since the City is the ultimate steward of Pack Place, they want to make sure that its occupants are successful. The City takes that duty very seriously. These direct leases are brokered outcomes but the staff of the City and the many stakeholders have worked very hard to make sure that the balanced interest of all parties are knitted together the best ways possible. He thanked the founders and early supporters of Pack Place, which opened 22 years ago. Because of the state of downtown Asheville there was real vision and real risk-taking by those supporters. He also thanked the staff and board members of Pack Place Board Inc. who have worked hard in the the property management role. There were a number of funding partners who worked together 22 years ago and he thanked the Buncombe County Commissioners for their role. At this time, the City is eager to support and work along side the Asheville Art Museum, the Diana Wortham Theatre and the Colburn Earth Science Museum. Even though the Colburn Earth Science Museum will occupy the space for one more year under this lease arrangement, he hoped they will find a new home and acknowledged to the community that Colburn is a vital important asset to our area. He felt that moving forward with these three direct leases is a reasonable and balanced way to move forward.

City Manager Gary Jackson said that this is the consideration of (1) a resolution authorizing the Mayor to execute a lease agreement with the Colburn Earth Science Museum; (2)

a resolution proposing approval of a lease with the Asheville Art Museum, directing the City Clerk to publish notice of such lease proposal and authorizing the Mayor to execute a lease agreement upon expiration of the 10 day public notification period; and (3) a resolution proposing approval of a lease with the Diana Wortham Theatre, directing the City Clerk to publish notice of such lease proposal and authorizing the Mayor to execute a lease agreement upon expiration of the 10 day public notification period.

The City owns the real estate which has been under lease to Pack Place Education, Arts, & Science Center, Inc. ("PPEASC) since 1988. The current lease term ends July 31, 2014. The City has given notice to PPEASC that it is in breach of the current lease. City Council has directed staff to notify PPEASC that it will not renew the existing lease. City Council has directed staff to negotiate direct leases with the tenants of Pack Place Center. Proposed leases have been negotiated with three tenants—Asheville Art Museum, Colburn Earth Science Museum and the Diana Wortham Theatre. The action before Council is to act on the proposed leases with the Asheville Art Museum, the Colburn Earth Science Museum, and the Diana Wortham Theatre

Asheville Art Museum

Premises leased: Space currently occupied by AAM.

Term: 30 years, with two renewal options of ten years each.

Rental Rate: Nominal fee and additional consideration in the form of major renovations to be undertaken by AAM and capital maintenance contributions. Tenant responsible for ordinary care and maintenance and utilities within its exclusive and controlled areas. Tenant to contribute a pro-rata amount for maintenance and utilities of Pack Place Center shared areas.

Capital Maintenance: Beginning in the fiscal year starting July 1, 2015, AAM to make payments into City fund for capital maintenance of Pack Place Center. Annual amounts are $21,000, $25,200, $29,400, $33,600, and $37,800. Payments will be re-evaluated every five years, or at the conclusion of proposed AAM renovations, based on conditions existing at the time. Payments will be suspended for three years during construction of proposed AAM renovations.

Commencement of Construction: Before beginning construction, AAM must obtain all permits, prepare an ingress/egress plan that complies with State Building and Fire Safety Codes, and provide evidence satisfactory to the City Manager that financing has been obtained to carry out AAM renovations, such conditions to be met on or before December 31, 2018.

Separation changes: AAM must pay the cost of all capital repair and maintenance of Pack Place Center necessary to ensure compliance with fire and safety codes, and ADA, up to a cap of $250,000. This compliance provision includes fire code compliance sprinkler installation in the Arcade Breezeway to Biltmore Avenue, and installation of an elevator from the DWT lower lobby level to the Pack Square level DWT lobby. The cap is indexed from 2014 to the PPI set by the Associated General Contractors of America, and does not apply to repair and maintenance caused by any change in the North Carolina Building Code, or any federal law or regulation, not in effect at the time the parties enter into the lease.

AAM must fund and perform relocation of the Pack Place Historic Interpretive Exhibit, at a cost sufficient to create a newly designed, interactive display that meets the approval of the State Historic Preservation Office ("SHPO"), not to exceed $25,000.

AAM must pay DWT the sum of $47,000 for office relocation and upfit expenses for space currently occupied by Colburn Earth Science Museum. In the event DWT is required to relocate its offices before August 1, 2015, due to construction, the City agrees to provide comparable office space to DWT from the 121st day after AAM makes payment of $47,000 to DWT up to August 1, 2015.

Colburn Earth Science Museum

Premises leased: Space currently occupied by Colburn.

Term: August 1, 2014 to June 7, 2015.

Rental Rate: $1450 per month beginning January 1, 2015. Tenant responsible for ordinary care and maintenance and utilities within its exclusive and controlled areas.

Diana Wortham Theatre

Premises leased: Space currently occupied by Diana Wortham Theatre and primary exhibit space currently occupied by Colburn.

Term: 30 years, with two renewal options of ten years each. Colburn space may be occupied after June 7, 2015.

Rental Rate: Nominal fee and additional consideration in the form of capital maintenance contributions. Tenant responsible for ordinary care and maintenance and utilities within its exclusive and controlled areas. Tenant to contribute a pro-rata amount for maintenance and utilities of Pack Place Center shared areas.

Capital Maintenance: Beginning in the fiscal year starting July 1, 2015, Diana Wortham Theatre to make annual payments to the City of $15,000, $18,000, $21,000, $24,000 and $27,000. The annual payments are calculated based on the square footage leased and will be adjusted upward based on additional space made available upon termination of Colburn lease.

Office Relocation: Permanent Diana Wortham Theatre offices will be relocated into the space vacated by Colburn. Diana Wortham Theatre will receive a sum of $47,000 for office relocation and upfit expenses from AAM. In the event Diana Wortham Theatre is required to relocate its offices prior to August 1, 2015, due to construction, the City agrees to provide comparable office space to Diana Wortham Theatre during the interim period.

Pros:

- The proposed lease with the Asheville Art Museum ("AAM") provides a framework for long-term funding of capital maintenance needs of Pack Place Center. The proposed lease favorably resolves the capital maintenance funding issue which has been problematic under the existing Pack Place lease.
- The proposed AAM lease will allow AAM to move forward with a planned $17 million renovation project.
- The proposed lease provides reasonable protection to the City and other tenants of Pack Place Center against construction related issues related to the proposed AAM renovation.
- The proposed Diana Wortham Lease lease provides for satisfactory relocation of their offices with construction of the AAM renovation, and offers additional space for Diana Wortham Theatre programming.
- The proposed Colburn lease provides operational certainly to Colburn certainty over the next 11 months, as it charts its new course, including a planned move from Pack Place Center.

Con:

- The proposed leases do not resolve all issues between AAM and Diana Wortham Theatre.

City Council adopt (1) a resolution authorizing the Mayor to execute a lease agreement with the Colburn Earth Science Museum; (2) a resolution proposing approval of a lease with the Asheville Art Museum, directing the City Clerk to publish notice of such lease proposal and authorizing the Mayor to execute a lease agreement upon expiration of the 10 day public notification period; and (3) a resolution proposing approval of a lease with the Diana Wortham Theatre, directing the City Clerk to publish notice of such lease proposal and authorizing the Mayor to execute a lease agreement upon expiration of the 10 day public notification period.

The following individuals spoke in opposition of the direct leases:

Mr. Jerry Rice, County resident
Mr. Ken Michalove
Ms. Judy Strong
Rev. Lisa Landis

The following individuals spoke in support of the direct leases:

Mr. W. Louis Bissette, attorney representing the Asheville Art Museum
Mr. Marc Rudow, attorney representing the Diana Wortham Theatre
Ms. Vicky Ballard, Executive Director of the Colburn Earth Science Museum

In response to Councilman Pelly, Assistant City Attorney Jannice Ashley said that the City has authority to enter into leases longer than 10 years.

Councilman Davis thanked everyone involved in these negotiations and gave a brief background of Pack Place noting that Pack Place has been a big draw to downtown Asheville over the years. This has been a complex and difficult issue, but in reality, the City wanted to get to a better place and the direct leases will achieve that goal.

Councilman Bothwell noted that the government has been involved in Pack Place for a long time felt this is a good move forward for the City and the tenants.

Mayor Manheimer also thanked everyone for their hard work, time and effort on this great achievement.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and they would not be read.

Councilman Davis moved for the adoption of Resolution No. 14-168. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 288

Councilman Bothwell moved for the adoption of Resolution No. 14-169. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 289

Councilman Pelly moved for the adoption of Resolution No. 14-170. This motion was seconded by Councilman Smith and carried unanimously.

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Civic Center Commission, the following individuals applied for the vacancy: Gary Herndon, Geoff Mohney, Yvonne Cook-Riley, Greg Duff, Anthony Mitchell, Bill Russell, Brian Rowland and Harris Livingstain. It was the consensus of the Boards & Commissions Committee and City Council to (1) reappoint Carol Ann Lydon; (2) arrange interviews for Greg Duff and Yvonne Cook-Riley; and (3) acknowledge that Bill Russell is a candidate; however, it is not necessary to bring him in for an interview.

Regarding the Community Relations Council (CRC), the following individuals applied for a vacancy: Fyffe Aschenbrenner and Kate Sampson. It was the consensus of City Council to continue the vacancy for an additional month (pursuant to the request of the CRC).

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacancy: David Allen Wilson, Meredith Gregory, Lothar Dohse, Steven Obremski, John Stuart Ridout and Michael Sule. It was the consensus of the Boards & Commissions Committee and City Council to continue consideration until August 26, 2014, until the Multimodal Transportation Commission has an opportunity to give recommendations.

CONFIRMATION OF THE PLANNING & ZONING COMMISSION CANDIDATES AND QUESTIONS

The following individuals applied for vacancies on the Planning & Zoning Commission: Geoff Mohney, Mark DeVerges, Pratik Bhakta and David Brown. In addition to these individuals, the current incumbents (Jeremy Goldstein, Jane Mathews and Kristy Carter) are interested in reappointment.

It was the consensus of City Council that all applicants, including the incumbents, respond in writing to the following five questions: (1) Please take time to review the City's 2025 Plan land use plan. How strongly does your own vision align with that plan, and in what ways might it differ?; (2) Name one Planning & Zoning Commission decision in the last 18 months you've agreed with and one you've disagreed with or would have struggled with. Please explain your rationale for each.; (3) What are some of the positive or negative effects of Asheville's zoning regulations?; (4) How has existing zoning promoted/inhibited the construction of affordable housing in Asheville? What changes could be made to further the creation of affordable housing?; and (5) Are there any changes to the City's processes, including but not limited to public input, for addressing zoning changes that you would like to see made?

After all written responses have been received, the City Clerk will send all seven documents to City Council to narrow the field to six (including three incumbents) interviews. Those interviews will take place in the afternoon of August 26, 2014, with appointments to be effective immediately.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Jerry Rice urged City Council to have their police officers trained in the area of mental illness and crisis intervention sooner rather than later.

Rev. Lisa Landis made several comments regarding a civil rights lawsuit she filed, a video about injustice by the Asheville police, the Police Department audit room investigation, and hearing impaired equipment.

Mr. Bob Spitzen spoke about his civil and property rights.

Ms. Jeanie Rosenthal updated City Council on electronic cigarettes.

Closed Session

At 7:07 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: Roger S. Aly; City of Asheville. The statutory authorization is contained in G.S. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 8:07 p.m., Vice-Mayor Hunt moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:07 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – August 26, 2014- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. EMPLOYEE RECOGNITIONS

City Manager Jackson recognized (1) Roger Massey whose actions played an important part in saving the homeowner's life by ensuring her safety; (2) Chris Coral who received one of only 10 scholarships awarded by the International Association of Venue Management (IAVM); (3) Karen Moss, Secretary Senior in the Public Works Department, received the North Carolina Chapter of American Public Works Association Solid Waste Division, 2014 Herman Drake Award; (4) Mark Foster, Jonathon Coates, Frank Stroupe, Bobby Hensley, Tim Bass, Bernard McDowell, Eric Suhren and Kirby Howell, who participated in the High Point, North Carolina, ice storm cleanup crew; and (5) Officer Ervin Hunter, Officer Scott Fry and Officer James French, who with their quick, decisive and brave actions eliminated the opportunity for the suspect to perpetrate any harm to the staff and citizens in the Asheville Mall.

Mayor Manheimer thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

B. PROCLAMATION PROCLAIMING SEPTEMBER 8-12, 2014, AS "MINORITY ENTERPRISE DEVELOPMENT WEEK"

Mayor Manheimer read the proclamation proclaiming September 8-12, 2014, as "Minority Enterprise Development Week" in the City of Asheville. She presented the proclamation to Mr. James Lee, and other Minority Enterprise Development Board Members, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 22, 2014

B. RESOLUTION NO. 14-171 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE LEXINGTON AVENUE ARTS & FUN FESTIVAL ON AUGUST 31, 2014

RESOLUTION NO. 14-172 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY CUP EVENT ON AUGUST 31, 2014

2

RESOLUTION NO. 14-173 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE GOOMBAY FESTIVAL ON SEPTEMBER 12-13, 2014

RESOLUTION NO. 14-174 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE DOG DAY AFTERNOON EVENT ON SEPTEMBER 28, 2014

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at Lexington Avenue Arts & Fun Festival on August 31, 2014; Beer City Cup on August 31, 2014; Goombay on September 12 & 13, 2014; and Dog Day Afternoon on September 28, 2014.

- Arts 2 People has requested through the City of Asheville Office of Economic Development that City Council permit them to serve beer and/or unfortified wine at Lexington Avenue Arts & Fun Festival and allow for consumption at this event.

  Lexington Avenue Arts & Fun Festival will be held on Sunday, August 31, 2014 from 11:00 a.m. – 9:00 p.m. at Lexington Avenue, Walnut Street & Hiawassee Street.

- WNC Soccer Foundation has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Beer City Cup and allow for consumption at this event.

  Beer City Cup will be held on Sunday, August 31, 2014, from 9:00 a.m. – 11:00 p.m. at Memorial Stadium as per the event area limits.

- YMI Cultural Center has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Goombay and allow for consumption at this event.

  Goombay will be held on Friday, September 12, 2014, from 2:00 p.m. – 10:00 p.m. and Saturday, September 13, 2014 from 10:00 a.m. – 10:00 p.m. at Pack Square Park.

- Asheville Humane Society has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Dog Day Afternoon and allow for consumption at this event.

  Dog Day Afternoon will be held on Sunday, September 28, 2014, from 1:00 p.m. – 5:00 p.m. at Carrier Park as per the event area limits referenced.

Pro:

- Allows fundraising opportunities for Arts 2 People, WNC Soccer Foundation, YMI Cultural Center, and Asheville Humane Society

Con:

- Potential for public safety issues

There is no fiscal impact.

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Lexington Avenue Arts & Fun Festival, Beer City Cup, Goombay, and Dog Day Afternoon.

C. **RESOLUTION NO. 14-175 - RESOLUTION SETTING A PUBLIC HEARING ON OCTOBER 14, 2014, TO CONSIDER THE CREATION OF A MUNICIPAL SERVICE DISTRICT FOR THE SOUTH SLOPE**

RESOLUTION NO. 14-176 - RESOLUTION SETTING A PUBLIC HEARING ON OCTOBER 14, 2014, TO CONSIDER THE CREATION OF A MUNICIPAL SERVICE DISTRICT FOR THE RIVER ARTS DISTRICT

RESOLUTION NO. 14-177 - RESOLUTION SETTING A PUBLIC HEARING ON OCTOBER 14, 2014, TO CONSIDER THE CREATION OF A MUNICIPAL SERVICE DISTRICT FOR NORTH CHARLOTTE STREET

Summary: The consideration of three resolutions to create three municipal service districts for the purpose of accelerating capital investment in the South Slope, River Arts District, and north Charlotte Street areas, and to set the public hearings for October 14, 2014.

The 2010 City of Asheville report titled "A Community Crossroads" recommended that a move toward more focused and strategic capital investments by the City could increase long term returns in community and economic development. In 2011 and 2012, staff began developing a long term Capital Improvement Plan strategy that aligned with Council's goals to support in-fill development, job creation, affordable housing, and multimodal transportation. This strategy or plan became known as the Economic and Community Development Capital Improvement Plan or EDCIP. To support the implementation of this plan, Council passed a three cent property tax increase in June 2013, two cents of which is reserved to implement the EDCIP.

Around the same time, the City contracted with Parker Poe and DEC Associates to review financing options and strategies that would leverage the taxpayers' new investment in EDCIP projects. While several types of debt financing are available, staff found that only a few are appropriate and allowable for the type of improvements the City wants to make. One option that the City has not previously utilized is the Special Obligation Bond (SOB). The benefit of financing CIP investments with SOBs is that they are appropriate for key infrastructure investments such as the River Arts District Transportation Improvement Project (RADTIP), and that they are an established best practice within municipalities across the state. Projects that are financed through SOBs must be located in a municipal service district as outlined in Article 23 of Chapter 160 A of the North Carolina General Statutes.

To identify potential districts, staff considered mixed use areas where proposed public infrastructure investments would be most likely to find leverage in private investment (thus creating the most economic and community development return); staff has identified the South Slope, River Arts District, and north Charlotte Street areas as potential municipal service districts, also referred to as Innovation Districts.

If Council desires to move forward with the process, the next step is for Council to set public hearing dates for each proposed municipal service district. On May 13, 2014, City Council directed staff to prepare a report for the creation of a Municipal Service District for this area.

The Planning and Economic Development Committee of Council reviewed this item at their March 2014 meeting and asked staff to move the item forward for Council consideration.

Pros:

- Adoption of three resolutions provides further direction to staff and advances the process for Council's consideration of adopting three municipal service districts forward.

Cons:

- None

The use of Special Obligation Bonds (SOB's) is a key financial component of the City's Economic and Community Development Capital Improvement Plan or EDCIP. The financial model being developed in conjunction with Parker Poe and DEC Associates uses revenue from the three cent property tax increase mentioned above, along with resources already dedicated to the City's existing debt service budget, to fund all additional debt service that may arise from the future issuance of SOB's.

City staff recommends City Council set the public hearings for the creation of municipal service districts on October 14, 2014.

Ms. Judy Strong asked when these items come up for public hearings on October 14, 2014, that staff include information about how much the additional debt that may arise from the future issuance of Special Obligation Bonds.

RESOLUTION NO. 14-177 - RESOLUTION BOOK NO. 26 - PAGE 305

D, RESOLUTION NO. 14-178 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ADECCO USA INC. FOR INFORMATION TECHNOLOGIES SERVICES CONTRACT EMPLOYEES

Summary: The consideration of a resolution authorizing the City Manager to sign a renewal contract to Adecco USA, Inc. for contract staffing in the amount of $95,000 for fiscal year 2015.

IT Services has outsourced contract employees for over three years to provide Help Desk and administrative staffing. An increase of $12,000 from Fiscal Year 2014 due to a slight increase in regular staffing cost, plus additional on-call staffing, brings the contract to the City Council review threshold.

IT Services outsources or insources services based on service levels, flexibility, and cost. During the Fiscal Year 2012 budget process, staff worked with Finance and HR to determine staffing levels for systems analysis and programming as well as administration and Help Desk. Some level of outsourced staff was recommended at that time instead of bringing on new full time employees. As part of the Fiscal Year 2015 budget process, this practice was reviewed by ITS.

Pros:

- Continued service levels for Help Desk customers
- Continued service levels for administrative needs

Con:

- None noted

The total cost of $95,000 was included and adopted in Fiscal Year 2014-2015 budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign a new contract with Adecco USA, Inc.

RESOLUTION BOOK NO. 36 - PAGE 306

E. RESOLUTION NO. 14-179 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE CHANGE ORDERS WITH COPELAND HOLDINGS (CH) SECURITY SERVICES INC. FOR CITY HALL SECURITY

Summary: The consideration of a resolution authorizing the City Manager to execute change orders with Copeland Holdings (CH) Security Services, LLC up to $61,185 for on-going contracted Asheville City Hall armed security guard services.

The City of Asheville entered into a contract with Copeland Holdings (CH) Security Services, LLC in 2012 to provide armed security guard services for City Hall. The term of the contract is April 9, 2012 through June 30, 2013 with annual options to renew through June 30, 2016. The City's Risk Management Division, which manages the contract, is requesting authorization to amend the contract to pay anticipated fiscal year 2015 expenses. Since the total cost of the contract will now exceed $90,000, this resolution requests the Mayor and City Council to grant the City Manager authority to execute change orders to said contract up to the annual budgeted amount.

Pro:

- Continued service levels to safeguard City Hall, it's occupants and visitors

Con:

- None noted

The total Fiscal Year 2014-15 cost of $68,000 was included in the adopted budget in the Risk Management Division of the Finance Department.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign change orders for Copeland Holdings (CH) Security Services, LLC.

RESOLUTION BOOK NO. 36 - PAGE 307

F. RESOLUTION NO. 14-180 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH CAVANAUGH & ASSOCIATES, P.A., FOR THE NON-REVENUE WATER MANAGEMENT CONTRACT

Summary: The consideration of a resolution to renew the contract with Cavanaugh & Associates, P.A., for the non-revenue water program.

On August 13, 2013, City Council authorized the execution of a contract with Cavanaugh & Associates, P.A., for the Non-revenue Water (NRW) Management project in the amount of $151,925.00. The Water Resources Department has an annual non-revenue water rate of approximately 30%. In an effort to reduce this percentage, the department has been working with Will Jernigan at Cavanaugh & Associates, P.A., to provide feedback and guidance on the department's Non-revenue Water (NRW) Program and Water Audit.

In the past year, Cavanaugh & Associates has helped Water Resources conduct a water audit and reduce water loss by approximately 10%. The renewal of this contract will continue the NRW program for another 13 months and focus on performing another Annual AWWA M36 Water Audit and continuing NRW Program Implementation and Support to include: (1) refining and advancing proactive leakage management practices; (2) refining and advancing proactive meter management practices; (3) making improvements to high-revenue customer meter assemblies for testing and maintenance purposes; and (4) developing long-term pressure

6

management strategies for pilot areas. Water Resources staff need continued guidance over the next 13 months to complete development of a comprehensive NRW Program that will continue to reduce the department's overall non-revenue water percentage. Contract renewal will cost the City $93,520.00, which is in the Water Resources Operating Fund.

Pros:

- This project has helped reduce the department's water loss by approximately 10%. Completion of this project will continue to help the department reduce water loss.

Con:

- This action will add an additional 13 months of consulting to guide the Annual Water Audit and NRW Program Implementation. By doing so, Water Resources will have a more robust program.

Contract renewal funding is currently allocated within the Water Resources Operating Fund.

City staff recommends City Council authorize the City Manager to enter into a renewal contract with Cavanaugh & Associates for the non-revenue water program.

RESOLUTION BOOK NO. 36 - PAGE 308

G. RESOLUTION NO. 14-181 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH STEWART, INC., FOR THE FRENCH BROAD RIVER GREENWAY AND AMBOY BRIDGE CONNECTOR

Summary: The consideration of a resolution authorizing the City Manager to enter into a Professional Services contract with Stewart, Inc. for the development of the French Broad River Greenway and Amboy Bridge Connector for the City of Asheville.

The City is building a multi-use path, recommended in the Greenway Master Plan, in land that will be donated to the city by Duke Energy Progress, Inc. in the southwestern bank of the French Broad River. This greenway and the missing piece under the Amboy Bridge are connecting the French Broad River Park and Greenway with the Craven Street greenway, creating a continuous transportation corridor of approximately 4 miles.

The City issued a Request for Qualifications for Design and Construction Drawing Development for Various Greenway Connections and Transitional Corridors in August 2013. The RFP closed on October 11, 2013. Eleven proposals were received from the following firms:

1. Altamont Environmental, Inc., Asheville, NC
2. BWSC - Barge, Waggoner, Summer & Cannon, Knoxville, TN
3. Design Workshop, Inc., Asheville NC
4. Equinox Environmental Consultation and Design, Asheville, NC
5. Kaizen Collaborative, Atlanta, GA
6. LandDesign, Inc., Charlotte, NC
7. Leung Planning & Design, Atlanta-Decatur, GA
8. McGill Associates, PA, Asheville, NC
9. Milone & MacBroom, Inc., Greenville, SC
10. Stewart, Inc., Raleigh, NC
11. Vaughn & Melton Consulting Engineers, Asheville, NC (only bid on the greenway)

The evaluation committee recommended Stewart, Inc. as the firm to provide services for the design and construction drawings for these two projects. The firms were evaluated based on their experience, similar projects completed, team qualifications, and quality of proposal. Scope and cost were successfully negotiated with the recommended firm.

The project cost will be $247,870.91 and $2,129.09 in contingency. This plan will be completed in approximately 14 months after signing the contract.

A member of the Multimodal Transportation Commission has been part of the Evaluation Committee.

Pros:

- This project advances multi-modal transportation in the city and creates a network of continuous greenways of about 4 miles.

Cons:

- None noted.

The cost of the Design and Construction Drawings for the French Broad River Greenway and Amboy Bridge project will be approximately $250,000. This project is already budgeted in the adopted FY 2014-15 CIP.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into a general services agreement with Stewart, Inc. to develop the Design and Construction Drawings for the French Broad River Greenway and Amboy Bridge project for the City of Asheville.

RESOLUTION BOOK NO. 36 - PAGE 309

H. ORDINANCE NO. 4329 - ORDINANCE AMENDING CHAPTER 11 OF THE CODE OF ORDINANCES TO REGULATE TRESPASS TOWING FROM PRIVATE PARKING LOTS

Summary: The consideration of amending Chapter 11 of the Code of Ordinances to the repeal of portions of Section 11-18(c1) of the Asheville City Code to comply with King v. Town of Chapel Hill, ___ N.C. ___, 758 S.E.2d 364 (2014).

1. King v. Town of Chapel Hill.

On June 12, 2014, the North Carolina Supreme Court issued an Opinion in King v. Town of Chapel Hill. Among other things, the King Court addressed the validity of certain provisions of the Chapel Hill's ordinance governing the towing of vehicles from private parking lots.

One of the provisions in the Chapel Hill towing ordinance which was addressed in King, allowed the Town Council to adopt a "fee schedule" which set the amount that towing companies could charge to vehicle owners (a "fee cap"). The Supreme Court held this provision to be unlawful. The Court held that there was; "no rational relationship between regulating fees and protecting health, safety or welfare. Further the fee schedule provision implicate[d] the fundamental right 'to earn a livelihood.'" 758 S.E.2d at 371. (quoting Roller v. Allen, 245 N.C. 516, 518-19, 96 S.E.2d 851, 854 (1957)). The Court stated that it could not construe N.C. Gen. Stat. § 160A-174 to permit the fee schedule because "[t]he prices that citizens pay for towing are wholly unrelated to the protection of citizen health, safety," or welfare. Id. at 371. "[B]y capping fees, the town inappropriately place[d] the burden of increased costs incident to the regulation solely on towing companies." See id. at 371. The Court concluded that Chapel Hill "exceeded its authority by imposing a fee schedule for nonconsensual towing from private lots," and declared these provisions unlawful. Id.

2. City of Asheville Ordinance and Policy.

8

Section 11-18 (c1) of the Asheville City Code (Ordinance Number 3728) governs "trespass towing." "Trespass towing" is defined as the practice of towing, removing or storing a vehicle "that is parked or left on private property without the consent of the vehicle operator." Section 11-18(c1)(2) states as follows:

> (2) *Fees.* The fees for trespass towing services charged to the vehicle operator are subject to the following limitations:
>
> a. The fee for a completed tow (removal from a private lot) may not exceed $100.00, and shall be all inclusive (herein "base fee").
>
> b. The fee for releasing vehicles as pursuant to subsection (3) below, may not exceed 50 percent of the base fee.
>
> c. The fee for storing a towed vehicle shall not exceed 25 percent of the base fee, and shall not begin to accrue until the vehicle has been stored at least 12 hours, beginning with the time of notification of the police.
>
> d. The fee for releasing an immobilized or "booted" vehicle shall not exceed 50 percent of the base fee.

Based on the analysis in King, the fee cap for towing in Section 11-18(c1)(2) appears to be unlawful and, thus, should be repealed. The remainder of Section 11-18(c1) is not impacted by the King decision.

In addition, there were some existing ambiguities in the enforcement provisions relating to the Trespass Towing ordinance, and we have used this opportunity to clear those up as well. These are also incorporated into the proposed amended ordinance.

Pros:

- Brings ordinance into compliance with Supreme Court precedent.

Cons:

- Enables towing companies to charge unlimited fees.

Adoption of the proposed ordinance is recommended.

ORDINANCE BOOK NO. 29 - PAGE 130

I. RESOLUTION NO. 14-182 - RESOLUTION AMENDING THE CITY'S LAND USE INCENTIVE POLICY

Summary: The consideration of amendments to the City's current Land Use Incentive Policy ("LUIP").

The City originally adopted its current Land Use Incentive Policy in November 2010; it was later amended in March 2011 to add a point system to the guidelines. The LUIP was again amended in 2012 to expand the eligible geographic area. Since its approval, the LUIP has been used infrequently and, in fact, although two projects have been approved, none have actually

been constructed, so in practice, the LUIP has never actually been utilized for its intended purpose. In order to encourage use of the LUIP and to clarify the applicable procedures, we would propose several amendments, including the deletion of an existing provision which requires the applicant-developer to assume all legal costs for challenges to the LUIP.

The statutory authority for the LUIP is found at N.C. Gen. Stat. § 158-7.1 and § 160A-456. N.C. Gen. Stat. §158-7.1 is entitled "Local Development." That provision provides, in part, as follows:

> (a) Each county and city in this State is authorized to make appropriations for the purposes of aiding and encouraging the location of manufacturing enterprises; making industrial surveys and locating industrial and commercial plants in or near such city or in the county; encouraging the building of railroads or other purposes which, in the discretion of the governing body of the city . . . will increase the population, taxable property, agricultural industries and business prospects of any city or county. . . .

Section 160A-456 is entitled "Community Development Programs and Activities" and allows the City to appropriate and expend funds for "community development programs and activities," including housing for "low and moderate income persons."

The LUIP provides developers the opportunity to request incentive grants from Council for developments that will further the City's annual strategic goals and other policies and plans and will further public purposes; specifically, projects which will provide the City with: additional work force and affordable housing; and/or increased "green" and energy saving projects. Among other things, work force and affordable housing aid in increasing the City's population, taxable property, and business prospects, because it allows more individuals to afford to live in the City and contribute to the work force, and as new development, provides for an increased tax base. "Green" development, which expends less energy, whether it be residential, commercial or industrial, also increases the tax base and encourages energy saving and environmentally conscious businesses to locate in the area and increases jobs. These objectives further valid and lawful public purposes, including economic development, energy conservation and the provision of affordable housing.

The proposed amendments clarify the LUIP and eliminate the previous requirement that the applicant-developer assume legal costs. We are hopeful this will encourage more applications and will increase and encourage housing for low and moderate income persons and energy saving development in the City.

The revised LUIP was presented to the HCD Committee on August 19, 2014.

Pro:

- The revised Land Use Incentive Policy clarifies the program and will encourage more applications.

Con:

- None noted.

Land Use Incentive Grants are decided on a case by case basis based on Council's discretion. Payment is from the City's General Fund. The City will be responsible for any legal challenges to the Policy.

Adoption of the proposed Policy is recommended.

RESOLUTION BOOK NO. 36 - PAGE 310

J. RESOLUTION NO. 14-183 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE ASHEVILLE HUMANE SOCIETY FOR ANIMAL SHELTER SERVICES WITHIN THE TERRITORIAL LIMITS OF THE CITY OF ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Asheville Humane Society (AHS) for animal shelter services within the territorial limits of the City of Asheville (City).

The City has contracted with AHS for animal shelter services. The cost for the animal shelter services to the City of Asheville for Fiscal Year 2014-2015 will be $19,167.00 per month for total of $230,004. The AHS contract amount has remained relatively unchanged over the past two years:

- FY13 $230,004.00
- FY14 $230,004.00

Pro:

- The City continues to have a safe and organized manner in which to care for impounded animals without incurring the costs of construction and operation of an animal shelter.

Con:

- None identified.

The FY 2014-2015 contract, which maintains the FY 2013-2014 cost, reflects the new quarantine fee adopted by the Council on April 8, 2014 and became effective on July 1, 2014. The contract requires the AHS to levy the quarantine fee, and permits the AHS to retain, waive or enter into payment plans with individuals regarding the quarantine fee. Funding for the contract is included in the adopted FY 2014-15 Police Department budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Asheville Humane Society for Animal Shelter Services for the term of July 1, 2014, through June 30, 2015.

RESOLUTION BOOK NO. 36 - PAGE 315

K. RESOLUTION NO. 14-184 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH DR. PAUL MARTIN, MD, D/B/A ASHEVILLE ADDICTION CONSULTANTS, PA, FOR PHYSICIAN SERVICES

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement for physician services provided through the City's Health Services Division.

In January 1995, Council authorized the City Manager to enter into an agreement for part-time physician services in the Health Services division. Dr. Paul Martin entered into a contractual agreement with the City of Asheville to provide 3 clinic days to City employees and retirees and dependents covered by the City's health plan. These clinic days have been very successful for Health Services.

Pros:

- The Health Services Clinic provides on-site care for non-critical health needs.
- Onsite care and services for employees, covered retirees and dependents saves the City of Asheville money in expenses that are not paid in unnecessary doctor, urgent care and emergency room visits

- The on-site employee health clinic is a valuable benefit for City employees. Their dependents and retirees.
- Dr. Martin is a trusted member of the Health Services staff team.

Con:

- There are no foreseen cons for these services

This is a one year $120,000 contract. Funding for the contract is included in the adopted FY 2014-15 Health Care Fund budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign an agreement for physician services with Dr. Paul Martin, MD, DBA Asheville Addiction Consultants, PA to continue to provide physician services to employees, covered retirees and covered dependents.

RESOLUTION BOOK NO. 36 - PAGE 316

L. RESOLUTION NO. 14-185 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PROCEED WITH THE MASTER CONTRACT WITH RIVERSIDE STUMP DUMP INC. FOR THE BRUSH AND LEAF DISPOSAL FOR THE CITY OF ASHEVILLE

Summary: The consideration of a resolution to proceed with the second year and third year for master contract number 91400115 with Riverside Stump Dump Inc. for brush and leaf disposal.

The City of Asheville utilizes Riverside Stump Dump Inc. providing brush and leaf disposal services.

At Riverside Stump Dump Inc the brush and leaves the City of Asheville delivers are ground to several different sizes of much and then sold to residents for use in their gardens, around trees and prevent weed growth. Over time the mulch is reduced to a material like soil and enhances the quality of the soil.

Brush and leaves are also provided to Danny's Dumpster located at the Azalea Road beneficial fill site. Danny's Dumpster is a pilot composting operation using mulch as an ingredient along with food waste collected from local restaurants. The process ends with a rich compost material used to enhance soils and gardens.

The second year and third year of a three year master service contract number 91400115 with Riverside Stump Dump Inc. is a not to exceed amount of $97,440 in Fiscal Year 2015 and Fiscal Year 2016 is based on approved budgets in a not to exceed amount of $97,400, combined, equaling $194,800. All Departments participating in this master contract have funds allotted Fiscal Year 2015 and Fiscal Year 2016 for brush and leaf disposal

Pros:

- Diversion of brush and leaves from Buncombe County landfill
- Provides City staff with opportunities to investigate composting processes
- Supports green and sustainability goals
- Supports a local business

Con:

- Non identified

Funding for the Fiscal Year 2015 contract amount is already included in departmental adopted budgets.

Staff recommends City Council adopt a resolution to approve the second and third year of master contract number 91400115 with Riverside Stump Dump Inc. in the amount of $97,400 Fiscal Year and $97,400 Fiscal Year 2016 totaling $194,800.

RESOLUTION BOOK NO. 36 - PAGE 317

M. RESOLUTION NO. 14-186 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR THE CONCRETE REPAIR - MAINTENANCE AND ADA IMPROVEMENTS CONTRACT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $195,475 with Patton Construction Group, Inc. for the project known as Concrete Repair – Maintenance and ADA Improvements, and to authorize the City Manager to execute any change orders that are required to provide full sidewalk maintenance service for the full fiscal year.

This contract provides for the repair of a number of known sidewalk and curb issues found throughout the City. The project was advertised on July 10, 2014. Below are the list of the bidders:

Patton Construction Group, Inc., Arden, NC – $195,475
Appalachian Paving and Concrete, Asheville, NC - $208,475
Armen Construction, Inc, Charlotte, NC - $298,870

Bids were opened with Patton Construction Group, Inc. of Arden, NC, being the lowest responsible bidder with a bid of $195,475. The work produced from this contract would resolve some known concrete infrastructure problems that need to be addressed and provide a greater level of customer service.

Pros:

- Will continue reducing a backlog of concrete infrastructure in need of repair.
- Address pedestrian safety by providing the required maintenance.

Con:

- This contract will not be able to address the entire backlog.

Funding for this concrete repair and maintenance contract is included in the adopted Fiscal Year 2014-15 Public Works General Fund budget.

City staff recommends City Council adopt the resolution awarding the contract to Patton Construction Group, Inc. and authorize the City Manager to execute a contract in the amount of $195,475, with any change orders that are required to provide full sidewalk maintenance service for the full fiscal year.

RESOLUTION BOOK NO. 36 - PAGE 318

N. RESOLUTION NO. 14-187 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A JOINT AGREEMENT WITH BUNCOMBE COUNTY AND BOARD OF TRUSTEES OF A-B TECHNICAL COMMUNITY COLLEGE TO EXPAND THE COMMUNITY COLLEGE'S LAW ENFORCEMENT JURISDICTION TO THE ALLIED HEALTH BUILDING

Summary: The consideration of a resolution authorizing the Mayor to enter into a joint agreement with the Board of Trustees of Asheville Buncombe Technical Community College ("AB Tech") and Buncombe County to provide for AB Tech's Police Department to perform law

enforcement activities and have the powers of arrest for the real property identified as Pin No. 9648-33-4217, the Allied Health Building.

Asheville Buncombe Technical Community College is currently in the process of constructing an Allied Health Building on real property owned by Buncombe County. The Allied Health Building will be part of the AB Tech Campus and the AB Tech Police Department will need authority to perform law enforcement activities on the property of the Allied Health Building as well as the powers of arrest. The Asheville Police Department will continue to support the AB Tech Police Department by continuing to provide additional public safety response to crimes in progress and technical law enforcement services such as investigative support or forensic processing upon request.

Pros:

- Provides the AB Tech Police Department with consistent jurisdiction, authority to perform law enforcement activities and the powers of arrest on the property of the Allied Health Building.
- Minimizes the need for law enforcement response from the Asheville Police Department or other area law enforcement agencies to the Allied Health Building.

Con:

- None

City staff recommends that City Council adopt a resolution authorizing the Mayor to enter into a joint agreement with Asheville Buncombe Technical Community College and Buncombe County to allow the AB Tech Police Department to have limited jurisdiction to perform law enforcement activities and have the powers of arrest on real property described as Pin # 9648-33-4217, and more particularly described in Deed Book 5188 at Page 994 of the Buncombe County Registry.

RESOLUTION BOOK NO. 36 - PAGE 319

O. ORDINANCE NO. 4330 - FIRST READING OF ORDINANCE RENEWING THE FRANCHISE AGREEMENT TO OPERATE A TROLLEY BIKE TOUR SERVICE WITH ASHEVILLE BIKE TAXI LLC WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance renewing a franchise agreement for the operation of a pedal bicycle taxi service within the City of Asheville.

City Council approved ordinance # 4131 on October 23, 2012 (first reading) and on November 13, 2012 (second and final reading) granting a franchise agreement for the operation of a pedal bicycle taxi service.

The service has been operating for two years now and it has become a popular attraction. The Asheville Police Department and the Transportation Department are not aware of any negative traffic-related or public safety issues regarding the service.

The only other change to the Agreement provisions is that the term of the Agreement will be indefinite, rather than annual, subject to the City's right to terminate at any time if there is a violation of the terms of the Agreement, or with 30 days notice for any reason.

Pros:

- Supports diversified job growth and business development.
- Enhances the visitor experience to downtown Asheville.
- Franchise agreement fees in the amount of $365 per year.

Con:

- Could impact vehicular traffic flow (No significant traffic-related or public safety issues during the first year of operation).

The City of Asheville receives franchise agreement fees in the amount of $365 per year.

Staff recommends that City Council approve an ordinance renewing a franchise agreement to Asheville Bike Taxi, LLC for the operation of a pedal bicycle taxi service within the City of Asheville.

Councilwoman Wisler supported the renewal of the franchise agreements; however, asked that, in connection with the budget process, staff revisit the fees so that they support the administrative costs.

ORDINANCE BOOK NO. 29 - PAGE 131

P. ORDINANCE NO. 4331 - FIRST READING OF ORDINANCE RENEWING THE FRANCHISE AGREEMENT TO OPERATE A PEDAL BICYCLE TAXI SERVICE WITH AMAZING PUBCYCLE WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance renewing a franchise agreement for the operation of a trolley bike tour service (pub-cycle) within the City of Asheville. In addition, a River Arts District Route is being added to the agreement.

City Council approved ordinance # 4149 on December 11, 2012 (first reading) and on January 8, 2013 (second and final reading) granting a franchise agreement for the operation of a trolley bike tour service (pub cycle). Next, City Council approved ordinance # 4205 on June 25, 2013 (first reading) and on July 23, 2013 (second and final reading) changing the beginning date of the franchise agreement from March 1, 2013 to the date of commencement of operations. That actual date was August 17, 2013.

The service has been operating for a year now and it has become a popular attraction. The Asheville Police Department and the Transportation Department are not aware of any negative traffic-related or public safety issues regarding the service.

Amazing Pubcycle would like to add another route identified as the River Arts District Route. At first, the route would only be used during weekends and by request. Since the primary terminal point is the New Belgium site, the route would probably not be fully implemented until 2015 or 2016. The route has been reviewed and approved by the Asheville Police Department and the Transportation Department.

There is only one change to the Agreement provisions, this is to make the term of the Agreement indefinite, rather than annual, subject to the City's right to terminate at any time if there is a violation of the terms of the Agreement, or with 30 days notice for any reason.

Pros:

- Supports diversified job growth and business development.
- Enhances the visitor experience to downtown Asheville.
- Franchise agreement fees in the amount of $365 per year.
- Revenues to the Parking Enterprise Fund in the amount of $1,680 per year.

Con:

- Could impact vehicular traffic flow (No significant traffic-related or public safety issues during the first year of operation).

The City of Asheville receives franchise agreement fees in the amount of $365 per year. In addition, the Parking Enterprise Fund receives $140 per month ($1,680 per year) from Amazing Pubcycle for a dedicated parking space in the Biltmore Avenue Parking Garage to store the vehicle when it is not being used.

Staff recommends that City Council approve an ordinance renewing a franchise agreement to Peech Development, Inc. d/b/a Amazing Pubcycle for the operation of a trolley bike tour service (pub-cycle) within the City of Asheville including the addition of a River Arts District Route.

Councilwoman Wisler supported the renewal of the franchise agreements; however, asked that, in connection with the budget process, staff revisit the fees so that they support the administrative costs.

ORDINANCE BOOK NO. 29 - PAGE 138

Q. ORDINANCE NO. 4332 - FIRST READING OF ORDINANCE RENEWING THE FRANCHISE AGREEMENT TO OPERATE A TROLLEY SERVICE WITH GRAY LINE TROLLEY TOURS WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance renewing a franchise agreement for the operation of a trolley service within the City of Asheville.

City Council approved ordinance # 3531 on August 28, 2007 granting a franchise agreement for the operation of a trolley service to Asheville Trolley Company, LLC d/b/a Gray Line Trolley Tours of Asheville.

The service has been operating for seven years now and it is a popular attraction. The Asheville Police Department and the Transportation Department are not aware of any negative traffic-related or public safety issues regarding the service.

There is only one change to the Agreement provisions, this is to make the term of the Agreement indefinite, rather than annual, subject to the City's right to terminate at any time if there is a violation of the terms of the Agreement, or with 30 days notice for any reason.

It should be pointed out that although the franchise agreement has not officially been renewed since it was originally approved, the owner has been pro-active and he has paid the annual franchise agreement fee through July 31, 2013.

Pros:

- Supports diversified job growth and business development.
- Enhances the visitor experience to downtown Asheville.
- Franchise agreement fees in the amount of $365 per year.

Con:

- Could impact vehicular traffic flow (No significant traffic-related or public safety issues during the seven years of operation).

The City of Asheville receives franchise agreement fees in the amount of $365 per year.

Staff recommends that City Council approve an ordinance renewing a franchise agreement to Asheville Trolley Company, LLC d/b/a Gray Line Trolley Tours of Asheville for the operation of a trolley service within the City of Asheville.

Councilwoman Wisler supported the renewal of the franchise agreements; however, asked that, in connection with the budget process, staff revisit the fees so that they support the administrative costs.

ORDINANCE BOOK NO. 29 - PAGE 143

R. RESOLUTION NO. 14-188 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A BUNCOMBE COUNTY TOURISM DEVELOPMENT PRODUCT DEVELOPMENT FUND GRANT FOR THE RIVERFRONT DESTINATION DEVELOPMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to submit a grant application to the Buncombe County Tourism Development Authority to support Riverfront Destination Development.

The 2014 grant cycle for Tourism Product Development Funding (TPDF) opened in May of this year. TPDF is for the purpose of construction projects that will add new or increase existing room nights in Buncombe County lodging facilities. Phase I of the grant process included the City's preliminary application to the TPDF to determine eligibility. City staff received notification of eligibility and an invitation to submit to Phase II of the process in late June of this year; Phase II Applications are due August 20, 2014. The Buncombe County TDA will announce grant awardees and amounts on October 31.

For Phase II, City Staff proposes to apply for $3 million in grant funds that will support Riverfront Redevelopment Capital Improvement Project construction costs of over $10 million. If TPDF grant funds are obtained, this high impact project- part of a much larger set of riverfront revitalization investments being made by the City and the private sector, long term- will start construction in April 2015 and finish construction around April 2017.

In essence, the City's application proposal is to construct a comprehensive set of projects that will help transform the River Arts District and its gateways from a place that has scattered and hard to find- yet stellar- attractions, into a fully developed destination where points of interest and experiences are easy to find, attentive to visitor needs, and a pleasure to get to.
The City of Asheville application will include the following project elements:

1) Construction of a signed and marketed network of riverfront walk and bike ways that will help people explore and connect to the district; this network will effectively knit together major attractions and also functions, like San Antonio's Riverwalk, as a destination in itself. Projects include:
    - *French Broad River Greenway West Bank connection: New Belgium Brewing Asheville to French Broad River Park*- This one- and-a-half mile multi-use path will connect the city's most beautiful riverfront park and the three miles of existing riverfront greenways and parks beyond it with the production and visitor's facilities and tasting room for the United States third largest craft brewery (New Belgium Brewing Asheville).
    - *French Broad River Greenway East Bank connection: Craven Street to 14 Riverside Drive*- This experience-filled multi use path through the heart of the most urbane section of riverfront will connect visitors to 170 local artists, a constructed wetland that doubles as public art, and the future site of 300,000 to 1 million square feet of new mixed use development on Riverside Drive.
    - *Clingman Forest Greenway*- This half mile of hilly urban forest is populated by a plethora of native plants and a small stream. It takes visitors from the heart of the River Arts District into downtown Asheville's western edge via Aston Park.

- *5 points roundabout pedestrian connection-* This will be a future landmark that serves to connect and orient visitors between the Clingman Forest and Town Branch Greenways.
- *Town Branch Greenway-* This mile of relatively flat walking path takes you from the independent restaurants, galleries and studios lining Depot Street, to the south slope of downtown and the medical district, all while interpreting local history.

2) Construction of critical public amenities like restrooms , safe pedestrian connections, boat ramps and "visitor launch pads" that keep people in the district longer, and link and leverage the existing and the proposed tourism attractions built by the private sector. Projects include:
   - *Public restrooms-* There will be four public toilets at the 14 Riverside Drive Arts and Culture Dispensary.
   - *Visitor Launch Pad-* This will be an unstaffed, high tech place to learn about shopping, studios, galleries, events and eateries in the River Arts District, with cross referencing to the visitor launch pad at Craven Street.
   - *Visitor Launch Pad at the Public Parking Lot at Craven Street Bridge-* This will be an unstaffed, low tech place to learn about trails, greenways, river history and outdoor recreation, with cross referencing to the info kiosk at 14 Riverside Drive.
   - *Boat Ramp at Amboy Road* –This new river access point will give anglers and motorized boat enthusiasts ample parking and easy access to a day on the French Broad River.
   - *Improved Boat Ladder and park amenities at Jean Webb Park-* This improvement will give kayakers and canoeists a highly visibly and easy place to put-in or take out after a day on the river, or serve as a great place to "people-on-the-river" watch.
   - *Amboy Road Crosswalk to Smoky Mountain Adventure Center-* This project will create a safe passage between a new climbing center/ outdoor recreation hub and the public parking, public boat ramp, and public river access just across the street.
3) Construction of two new attractions: a new riverfront arts and culture dispensary that also supports river access and river use; and a set of train viewing platforms trackside at Lyman Street that will draw visitors in with the promise of an entertaining and an educational trackside experience, all while providing protection from the elements, a place to rest for a while, and a safe way to navigate across the tracks to the River Arts District's other desirable attractions.
   - *14 Riverside Drive Arts and Culture Dispensary,* When completed, this historic waterfront building will be renovated to support highly visible arts and culture programming and increase awareness of, and connection to, the French Broad River.
   - *Train Viewing Platforms-* These artist built shelters on either side of the Lyman Street at-grade railroad crossing that are the perfect place to watch the trains go by and learn about the contributions of the railroad industry to the history of Asheville and Western North Carolina.

The Asheville Area Riverfront Redevelopment Commission reviewed this item at their August 14, 2014 meeting. The Commission voted unanimously to: (1) Authorize Chairperson Pattiy Torno to write a letter of support for the City's application and (2) To advise City Council that the AARRC strongly supports the City's proposed application, and that if a grant is awarded, that the AARRC strongly recommend City Council accept the funds as part of a fiscally sustainable strategy for the implementation of the riverfront portions of the City's 5 year CIP.

Pros:

- City Council has identified implementation of riverfront redevelopment capital investments as a key strategic goal for the city.

- The TPDF is a significant funding opportunity that would allow the City to move forward on these investments.
- The City has already shown a commitment to implementing these projects as part of the Economic Development Capital Improvements Program.

Con:

- If awarded, the City is required to partner on marketing efforts for the French Broad riverfront as a destination, which may require shifting of current priorities or addition of resources not provided by this grant fund.

The Buncombe County TDA may choose to fully award the grant request of $3 million, not award, or partially award funds. If any award is offered and accepted, the city would experience a positive impact to the budget. However, because of grant construction timing requirements, and because certain grant projects are additions to the current 5 year CIP, funding allocations project-by-project may nominally shift. An announcement of an award would begin the process of the City developing a grant agreement with BCTDA that further defines the specific funding amounts and project elements included in the partnership effort. Through proposed partnerships like these, staff continues to develop diverse funding sources for riverfront redevelopment capital investments that will increase the City's fiscal sustainability and the anticipated economic impact of the plan.

City staff recommends City Council adopt a resolution authorizing the City Manager to submit a grant application to the Buncombe County TDA Tourism Product Development Fund to support Riverfront Destination Development.

RESOLUTION BOOK NO. 36 - PAGE 320

S. RESOLUTION NO. 14-189 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH ESRI, INC. FOR A THREE-YEAR CONTRACT FOR GIS SOFTWARE MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to sign a new Enterprise License Agreement with ESRI, Inc. in the amount of $150,000 over 3 years payable in $50,000 yearly installments for Geographic Information Systems (GIS) software.

The City of Asheville has used ESRI GIS software for 13+ years as a keystone software information system. Many internal processes including asset management, code enforcement, public safety dispatch, stormwater utility billing, infrastructure maintenance, sanitation service, development services, etc., rely on GIS expertise and software. Citizens also rely on GIS for Internet information portals such as the mapAsheville applications (Development Mapper, Crime Mapper, and Priority Places, etc). City Council also relies on the City's GIS via planning and development decision visualizations.

The existing contract has held maintenance flat for the past 3 years. Typical increases in such software maintenance contracts average approximately 5% per year. With the execution of another 3 year contact, we will be able to hold our maintenance costs at $50,000 per year for next 3 years. Annual maintenance payments are required in order to keep software in a reliable and supported state. This contract also means that the City may provide unlimited staff installations as well as server software installation of this software thus saving money on additional licensing fees as a result of expanded services.

Pros:

- Increased support of departmental business requirements via greater options for GIS software licensing.
- Ability to install additional software without additional purchases.

- Hold the line on increasing software maintenance costs.

Con:

- If continued funding for future years is not appropriated, some staff will lose ability to utilize some GIS software.

The first year cost of $50,000 was included in the adopted FY2014-2015 budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign an Enterprise License Agreement with ESRI, Inc.

RESOLUTION BOOK NO. 36 - PAGE 321

T. RESOLUTION NO. 14-190 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT THE CITY OF ASHEVILLE BEING IDENTIFIED AS THE DESIGNATED RECIPIENT FOR SECTION 5310 FUNDS

Summary: The consideration of a resolution authorizing the Mayor to accept the City of Asheville being identified as the designated recipient for Section 5310 Funds.

The current Federal Transportation Bill which is known as MAP-21 (Moving Ahead for Progress in the 21st Century) consolidates the former Elderly and Disabled Program and the New Freedom (Section 5317) program into a single program intended to enhance mobility for seniors and persons with disabilities by providing funds to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services.

The Section 5310 program is designed to supplement FTA's other capital assistance programs for seniors and persons with disabilities. This program would continue the goals of Elderly and Disabled and New Freedom programs by funding alternative forms of transportation where traditional services are unavailable, inappropriate, or insufficient. Funds can be used for capital planning and operations. The apportionment to the region is about $325,000 per year.

To be eligible, the program requires a Coordinated Public Transportation and Human Services Transportation Plan (CPT-HSTP), which is developed by the French Broad River Metropolitan Planning Organization, which assesses current transportation needs, identifies gaps and sets goals. The plan is adopted by the French Broad River MPO's Board. Projects will be selected following a competitive process.

The City will be responsible as designated recipient for the program management including overseeing the use of these funds according to Federal Transit Authority (FTA) regulations. Program management will require the use of city resources including staff. As a designated recipient, the city can use 10% of the funds for administrative purposes.

The program can address some of the transportation challenges faced by the elderly and disabled population in the region and it will benefit the region by providing funds that would otherwise not be available. Therefore, staff recommends accepting the designation.

Pros:

- Increases the ability of transportation providers to meet the needs of transit-dependent populations.
- Enables funds to be used in the region that would otherwise not be available.
- Since the city is the designated recipient for Section 5307 Funds, staff is familiar with the various responsibilities involved.

Cons:

- Increases staff workload.
- Might require additional part-time staff (analyze during the first year)

The City can use 10% of the funds for administrative purposes.

Staff recommends that City Council approve a resolution authorizing the Mayor to accept the City of Asheville being identified as the designated recipient for Section 5310 Funds.

RESOLUTION BOOK NO. 36 - PAGE 322

U. RESOLUTION NO. 14-191 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH MOTOROLA INC. FOR RADIO SYSTEM MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with Motorola, Inc. to provide maintenance coverage for the City's radio system.

Motorola, Inc. has provided maintenance services for the City's radio communications system since installation of the system in 1992. The service agreements are renewed annually. The maintenance cost per unit of equipment for the renewal period of August 1, 2014 through July 31, 2015.

The renewal agreement reflects an annual charge of $144,305.88 and covers additional equipment purchased by the City to equip new vehicles and replace broken equipment. The agreement also covers infrastructure that has come out of the installer's warranty during the past year.

Pros:

- The primary benefit of this contract is to keep the City's radio system reliable and operational for public safety officers. By keeping the radio system in optimal condition the City is also able to provide communication services to several outside agencies, thereby improving interagency communications.

Con:

- None noted.

Funding for this contract was appropriated in the adopted Fiscal Year 2014/15 Information Technology Services departmental budget.

City staff recommends City Council authorize the City Manager to sign an agreement with Motorola, Inc. to provide maintenance coverage for the City's radio system for the term of August 1, 2014, through July 31, 2015.

RESOLUTION BOOK NO. 36 - PAGE 323

V. RESOLUTION NO. 14-192 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE AN OFFER OF PURCHASE FOR UPSET BIDS REGARDING AIR RIGHTS FOR THE PROPERTY LOCATED ALONG THE BACK AREA OF S. LEXINGTON STREET OF THE ALOFT/51 BILTMORE PARKING DECK TO KING JAMES PROPERTIES LLC

Summary: The consideration of a resolution directing the City Clerk to advertise for upset bids for the sale of 227.94 square feet of air rights at 56 S. Lexington Avenue to King James Properties, LLC.

The City of Asheville controls the sidewalk and street right-of-way located at 56 South Lexington Avenue, and in turn controls encroachments into the overhead airspace above the sidewalk. At this time, King James Properties, LLC is planning to construct a multi-story apartment building along the back property line of the Aloft Hotel and 51 Biltmore Public Parking garage. This apartment building includes balconies for each unit that extend into the City-controlled air space. Being that balconies are permanent, this encroachment into the public air space must be treated as a sale, and therefore the City requires that the sale of air rights follow certain disposition procedures; specifically, the upset bid process.

On August 4, 2014, a qualifying bid was received from King James Properties, LLC in the amount of $1,550 for the purchase of 227.94 square feet of air space for the purpose of constructing permanent balconies to a proposed building at 56 S. Lexington Avenue. This bid was based on a 2014 MAI appraisal of the property and reflects fair market value for the air rights. If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $1,550. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $1,677.50 or higher.) Since the function of the upset bid process is to confirm fair market value, this resolution provides that if no qualifying, competing bid is received, then City Council agrees to convey this specified area of air rights to King James Properties, LLC for $1,550. The statute also provides that the Council may at any time reject any and all offers.

Pros:

- The sale will be at fair market value.

Con:

- There is no negative impact.

Financial proceeds associated with the real property disposition are to benefit the Economic and Community Development Capital Improvement Project budget.

Staff recommends adoption of the resolution directing the City Clerk to advertise for upset bids for air rights located at 56 S. Lexington Avenue.

RESOLUTION BOOK NO. 36 - PAGE 324

W. RESOLUTION NO. 14-193 - RESOLUTION TO AMEND RESOLUTION NO. 13-42 TO INCLUDE THE BIDDING AND CONSTRUCTION SERVICES IN THE EXEMPTION FROM THE ARCHITECTURAL ENGINEERING AND SURVEYING ANNOUNCEMENT REQUIREMENT OF N.C. GEN. STAT. SEC. 143-64.31 FOR THE NORTH FORK DAM INTAKE TOWER AND CONDUIT REPAIRS PROJECT; AND TO AUTHORIZE THE CITY MANAGER TO EXECUTE A PROFESSIONAL ENGINEERING SERVICES AGREEMENT WITH SCHNABEL ENGINEERING SOUTH, PC, FOR BIDDING AND CONSTRUCTION SERVICES FOR SAID PROJECT

Summary: The consideration of a resolution to amend Resolution No. 13-42 dated March 12, 2013, to include the bidding and construction services in the exemption from the architectural, engineering and surveying announcement requirement of NCGS §143-64.31 for the North Fork Dam Intake Tower and Conduit Repairs Project; and to authorize the City Manager to execute a professional engineering services agreement with Schnabel Engineering South, PC, for the proposal amount of $302,400.00 for bidding and construction services for said project.

22

On March 12, 2013, City Council awarded the Engineering Design Services Contract to Schnabel Engineering for the North Fork Water Treatment Plant Dam/Tunnel Project in the amount of $408,190.00. In the initial design services contract with Schnabel Engineering, the bidding and construction services phase of the contract was inadvertently excluded. Water Resources is ready to move into the bidding and construction phase of this project and is seeking an amendment to the previously approved exemption.

Schnabel has presented a scope of work and cost proposal in the amount of $302,400.00 for engineering services associated with bidding and construction services for the Intake Tower and Conduit Repairs at the North Fork Water Treatment Plant. Due to their intimate knowledge of the North Fork Dam, Schnabel Engineering is the most qualified firm to complete the additional scope of services. The additional scope of services will include: assistance with advertising, bidding, and the selection of a contractor; inspection and testing services; construction observation and reporting; contract administration; development of record drawings; and additional tasks as outlined in their proposal.

Overall, while the project itself is not a large job, the interruptions of service, designed work and risks involved make it a complex project from an engineering perspective. Due to such complexity and risk, the cost estimates appropriately and reasonably considered the involvement of personnel such as Senior Engineers, Project Engineers, technicians, and support staff. As a result, engineering services will cost about $710,500 for a project estimated at a construction cost of $1.5 million dollars. Such estimates, while significant, are reasonable in staff's experience.

Water Resources is seeking a new contract with Schnabel Engineering under an amendment of the previous exemption given in Resolution No. 13-42 dated March 12, 2013, for the design phase of the project, with said amendment being retroactive to March 12, 2013.

This item appeared on the July 22, 2014, City Council agenda with a different approach. The July 22 action approved a contract amendment for Schnabel Engineering utilizing the exemption that was approved on March 12, 2013. As a technical correction to meet the intent of the regulations, today's action amends the exemption and approves a new contract for Schnabel Engineering. Upon approval of the proposed resolution, the July 22, 2014 approval becomes void.

Pros:

- Continued use of Schnabel Engineering as the most qualified engineering firm to assist with the bidding and construction phase of the project.
- Schnabel Engineering is the most qualified firm to complete the bidding and construction services.

Con:

- The cost for the additional scope is notable for an exemption and contract amendment.

The funding needed for the contract and the contingency is currently allocated within the project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council adopt a resolution amending Resolution No. 13-42 dated March 12, 2013, to include the bidding and construction services in the exemption from the architectural, engineering and surveying announcement requirement of NCGS §143-64.31 for the North Fork Dam Intake Tower and Conduit Repairs Project; and to authorize the City Manager to execute a professional engineering services agreement with Schnabel Engineering South, PC, for the proposal amount of $302,400.00 for bidding and construction services for said project, retroactive to March 12, 2013.

City staff recommends that upon adoption of the resolution of amendment, that resolution no. 14-161 be repealed.

RESOLUTION BOOK NO. 36 - PAGE 325

X. ORDINANCE NO. 4333 - ORDINANCE AMENDING CHAPTER 16 OF THE CODE OF ORDINANCES REGARDING UNAUTHORIZED RIGHT-OF-WAY CUTS

ORDINANCE NO. 4334 - ORDINANCE AMENDING APPENDIX B OF THE CODE OF ORDINANCES TO INCREASE THE CIVIL PENALTIES OF UNAUTHORIZED RIGHT-OF-WAY CUTS

Summary: The consideration of an ordinance amending (1) Chapter 16, Article II (Public Right of Way Cuts), and (2) Appendix B (Schedule of Civil Penalties) of the Code of Ordinances of the City of Asheville to update the penalties for cutting into City Streets/Sidewalks without a permit.

The City of Asheville requires utility companies and contractors when placing or repairing utilities, to obtain a permit prior to cutting into any of its streets, sidewalks, alleys, squares or other public right-of-ways. Each application for a cut permit shall be accompanied by the required permit fee as set forth in the City's fees and charges manual. The penalty for failure to obtain a cut permit would be $250 initially and $100 daily thereafter. If the cut work extends beyond ten working days, a penalty of $100 per day up to a maximum of $5,000 per permit, shall be assessed in addition to the regular permit fee. In addition, any person who cuts into a public right-of-way without first obtaining the cut permit required shall be monetarily penalized.

The increased penalty fees will help deter contractors and individuals from doing work in the City right of way without a permit, and keep the work within the permitted time frame. Staff has evaluated the costs involved with delivering the services associated with this fee, and recommends a fee increase to allow for full cost recovery.

Pros:

- Increased penalties will deter work from occurring without a valid permit
- The Street Cut Enterprise Fund will be able to fully recover costs involved with the service

Con:

- None

Any additional revenue generated will be recorded in the Street Cut Enterprise Fund.

City staff recommends City Council adopt an Ordinance amending (1) Chapter 16, Article II (Public Right of Way Cuts), and (2) Appendix B (Schedule of Civil Penalties) of the Code of Ordinances of the City of Asheville to update the penalties for cutting into City Streets/Sidewalks without a permit.

ORDINANCE NO. 4333 - ORDINANCE BOOK NO. 29 - PAGE 147
ORDINANCE NO. 4334 - ORDINANCE BOOK NO. 29 - PAGE 148

Y. ORDINANCE NO. 4335 - BUDGET AMENDMENT FROM INSURANCE RECOVERY FUNDS FOR POLICE VEHICLES

Summary: The consideration of a budget amendment in the General Capital Projects Fund in

the amount of $21,447.94 from insurance recovery funds from two non-Asheville Police Department at-fault auto accidents to utilize towards the purchase of a new Police Department vehicle.

On July 29, 2013, a City of Asheville Police vehicle was involved in a non-City at-fault accident that resulted in the vehicle being totaled and the City received $13,747.94 to settle the property damage claim. In addition, on May 11, 2014, a City of Asheville Police vehicle was involved in a non-City at-fault accident that resulted in the vehicle being totaled and received $7,700.00 to settle the property damage claim. The Police Department seeks to utilize the insurance recovery funds from the two settlements totaling $21,447.94 towards the purchase of a new Police vehicle.

Pro:

- Provides funding for Police Department vehicle purchase to support operational effectiveness.

Con:

- None.

The insurance recovery funds will be received in the City's Property & Liability Fund and then be transferred to the City's General Capital Projects Fund, where the vehicle purchase will be made.

City staff recommends City Council adopt the budget amendment in the General Capital Projects Fund in the amount of $21,447.94 from insurance recovery funds to be utilized towards the purchase of a Police Department vehicle.

ORDINANCE BOOK NO. 29 - PAGE 149

Z. ORDINANCE NO. 4336 - BUDGET AMENDMENT TO PURCHASE FIVE ADDITIONAL BUS SHELTERS UNDER THE STIMULUS FUNDING GRANT

Summary: The consideration of a technical budget amendment in the amount of $60,662 to create a new project in the City's Special Revenue Fund to purchase five additional bus shelters under the stimulus funding grant.

The City of Asheville was awarded $2,590,439 under the economic stimulus funding, as published in the Federal Register Volume 74, No. 42, page 9675 on March 5, 2009. The city used those funds to purchase five diesel buses, ten shelters, and three CNG buses and one van for Henderson County. All of the projects were finished before the deadline of September 30, 2013.

After finishing the projects, $60,662 of ARRA funds were left unspent. The Federal Transit Administration issued a waiver to all grantees that had still funds left in ARRA and asked for all the funds to be spent by September 30, 2015. $35,902 of those funds are part of the City's apportionment, the rest are part of Henderson County's apportionment.

The only project that can be accomplished by the deadline is the acquisition of additional shelters. The City is planning to acquire approximately five more shelters and spend all the funds remaining in the grant, two for the county and three for the city. The city has developed specs to bid the project if this budget amendment is approved.

This project will be completed in approximately 6 months after signing the contract.

Pros:

- All the funds allocated to the region will be used.
- Funds cover 100% of the expense.
- This project increases transit infrastructure and quality of service.

Cons:

- None.

The cost of acquiring 5 new shelters will be approximately $60,662. These funds will cover 100% of the expense. City staff recommends that a new project be created in the Special Revenue Fund to account for these expenses and the offsetting ARRA revenue. The technical budget amendment will provide authorization to create and budget for this project.

City staff recommends that City Council adopts a technical budget amendment in the amount of $60,662 to create a new project in the City's Special Revenue Fund to purchase five additional bus shelters under the stimulus funding grant.

ORDINANCE BOOK NO. 29 - PAGE 151

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. LEGISLATIVE UPDATE

RESOLUTION NO. 14-197 - RESOLUTION ADOPTING THE LEGISLATIVE ADVOCACY PROPOSAL

Mr. Jack Cozort, the City's legislative representative, summarized the 2013 legislative session. He said the 2013 Session of the North Carolina General convened on May 14, 2013, and adjourned on August 20, 2013.

There were issues on the table that affected municipalities in many respects: regulatory, economically, budget matters, zoning, etc. It is anticipated that the balancing of the authority of cities and the amount of control exercised by the General Assembly will continue to be a substantial issue for consideration in the 2015 session of the General Assembly.

The following matters affect all municipalities: (1) Restrict the authority of cities to enact tree ordinances (H1191) - never heard in committee; (2) Restrict the authority of city or county to enact ordinances related to design and aesthetic controls (H150) - passed house, passed senate committee, not heard on senate floor; (3) Limitation of local government sales tax (H1224) - passed senate, defeated in house. (4) Repeal protest petitions (S493) - long history, died in committee at end of session; (5) Increase penalties for graffiti (S594, among others) - passed house, died in senate; (6) Regulate mopeds (H1145) - passed and signed by governor; (7) Enact ethics requirements for local officials (S493) - passed house, died in senate; (8) End of business privilege tax on July 1, 2015 (H1050) - passed and signed into law by governor.; (9) Extend use of tax credits for historic rehabilitation (various house bills) - passed house in multiple bills, died in senate; and (10) Extend film credits (various bills) - final version that passed was a $10 million grant program.

Matters unique to Asheville include: (1) Sale of growlers by certain ABC permitees (H829) - passed; (2) Bent creek property Sullivan act exemption (H1113) - passed; (3) Spirituous liquor tastings/City of Asheville (H1156) - died in house; (4) Asheville Regional Airport (H1247) - passed; and (5) ETJ clarification (H531) - passed.

Matters to consider for 2015 include: (1) replace revenue from business privilege tax; (2) re-enact tax credits for historic rehabilitation; (3) cities continue to be able to regulate and manage their own utilities; (4) possible increase in punishment for graffiti and indecent exposure; (5) transportation and local education funding; (6) regulating "b&b" places where people are just opening up their homes/short term home rental; (7) digital dispatching services (uber/lyft); (8) analyze study committees to determine scope of issues likely to be considered in 2015; and (9) film industry incentives.

Mayor Manheimer said that the N.C. League of Municipalities would like our items by this Friday. Because of the tight deadline, she has asked Executive Assistant to the Assistant City Manager Alex Carmichael gather the following items for consideration: (1) Stormwater - Preserve municipal authority to regulate environmental standards such as erosion control or stormwater quality; (2) Municipal Operations - Support measures which maximize the ability of local governments to provide and manage high quality services to meet the needs of the community. This includes but is not limited to utilities, enterprise funds; etc.; (3) Regulation of Car Sharing Services - Grant municipalities the authority to regulate digital dispatching services; (4) Aesthetic and Design Controls - Preserve municipal ability to regulate design and aesthetic controls in historic districts; (5) Preserve Municipal Fiscal Health - Identify means to generate increased revenues for public education and transportation infrastructure without impacting municipalities' dwindling revenue; (6) Restore Lost Revenues - Restore revenue lost due to the repeal of Privilege License Tax authority; (7) Restore Economic Development Incentives with Impact on Local Communities - Restore programs such as film tax credits and historic building tax credits; (8) Coal Ash - Continue to seek legislation that strengthens the requirements for the appropriate clean up and disposal of coal ash in coal ash ponds that is equitable to rate payers; (9) Graffiti Vandalism - Seek to strengthen and/or clarify state law to more efficiently deter and punish perpetrators who damage property, such as by committing vandalism with graffiti; and (10) Clarify Laws related to Public Toplessness - Clarify laws related to public toplessness including but not limited to, clarification of indecent exposure law, N.C. Gen. Stat. sec 14-190.9.

Mayor Manheimer said that the Governance Committee will develop the agenda with broad policy provisions.

Councilman Smith suggested we send a letter of thanks to all the municipalities that supported Asheville, and the League of Municipalities for standing with us, on our fight for the water system. He also supported graffiti crimes be a misdemeanor and not a felony.

Councilman Bothwell hoped that the legislature does not attempt to make toplessness a felony. He felt that we should demand appropriate clean up and disposal of coal ash in coal ash ponds. Mayor Manheimer noted that earlier City Council adopted a more thorough resolution on coal ash and suggested we attach that resolution to the City's agenda that we send to the League.

Mr. Cozort said there will be opportunities to fine-tune this agenda, but it's important that we get these items in front of them as soon as possible.

Vice-Mayor Hunt moved to adopt Resolution No. 14-197 adopting the legislative advocacy proposal to the N.C. League of Municipalities, being the ten items outlined above by Mr. Carmichael, with the following amendments (1) attachment of the City's previously adopted resolution regarding coal ash; and (2) that graffiti crimes be a misdemeanor and not a felony. This motion was seconded by Councilman Davis and carried unanimously.

When Mayor Manheimer asked for public comment, no one spoke.

Councilwoman Wisler hoped that next year Council will have more time to work through the process and timing of the N.C. League of Municipalities' needs.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR 146 ROBERTS STREET (RAD LOFTS)

RESOLUTION NO. 14-195 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LAND USE INCENTIVE GRANT FOR 146 ROBERTS STREET (RAD LOFTS)

Executive Director of Planning & Multimodal Transportation Cathy Ball said the owners/developers of RAD Lofts have applied for a Land Use Incentive Grant per the City's Land Use Incentive Policy. She then presented an overview of the RAD Loft project, including all of the partnership opportunities between the developer and the City.

RAD Lofts LLC has contracted to purchase the 2.88 acre site formerly home to the Dave Steel Company. The site is located at 146 Roberts Street, at the intersection of Roberts Street and Clingman Extension in the River Arts District of Asheville. The developer estimates a total development cost of $52 million. The project consists of

- 209 residential rental apartments (144 one-bedroom apartments and 65 two-bedroom apartments). 220 of the parking spaces within the parking structure noted below will accommodate residents of the community;
- A two story parking deck for residents and for the public (on an hourly rental basis), street front retail spaces, live work spaces and second floor office space. This commercial component will be 48,500 sq. ft. plus 136 parking spaces.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- Equity: A 20% equity contribution is required. The project developers indicate they will contribute at least 30% equity to the project.
- Energy Star Certification: The developers indicate the project will achieve Energy Star certification.
- Location: The project is located within 1/8 of a mile of a designated major transportation corridor (Riverside Drive).

Public Benefit

The project proposes the following Public Benefit Elements:

- Workforce Housing units, assuming an annual rental increase of 3%, for the proscribed period: 100% *of total units* for which the developer requests 20 points.
- Affordable Housing units assuming an annual rental increase of 3%, for the proscribed period: 5 % (11 units), for which the developer requests 10 points.
- Green Building/Energy: *Energy Star certified* (5 points)
- Includes a minimum 20% non-residential (5 points)
- Within the Sustainability Bonus area (5 points)
- Brownfield Redevelopment (5 points)

The developer has scored the project with 50 points. Based on this score, the project would be eligible for a 5 year Land Use Incentive Grant. Staff notes that the developer has requested 15 more points for Workforce and Affordable Housing than in the published guidelines. Per the Land Use Incentive Policy, City Council is authorized to allow more or less points on any

particular factor, depending upon, among other things, the character and potential benefits and/or detriments of an individual project.

Staff supports funding the RAD Lofts development with a five year Land Use Incentive Grant for the following reasons:

- The project will make an approximate $38,000,000 construction investment in the River Arts District. Impact:
  - 300 or more jobs created during the development and construction period;
  - Approximately $16,000,000 in direct wages to construction workers;
- The project will add 209 units to the City's permanent housing stock. That housing:
  - Will be "locationally efficient," costing residents between 15% and 25% less in transportation costs than most other locations currently being developed for rental housing:
  - Will include 5% affordable units;
  - Will include 95% "workforce" units affordable to housing earning 120% of median income.
- The project will add almost 50,000 square feet of commercial space. Impact:
  - The creation of approximately 50 new permanent jobs;
  - The infusion of $2 million or more annually into the local economy.

Also they feel this project will spur additional investment in both residential and commercial development- RAD Lofts in the leading transformational development for this area.

The project meets the following 2013-14 Strategic Plan Goals: (1) *Economic Growth and Financial Sustainability:* The project contributes significantly to the objective of supporting a mixed use neighborhoods in the River Arts District. (2) *Affordable Housing and Community Development*: the project creates locationally efficient affordable and workforce housing.

The project furthers the goals and objectives of the LUIP and N.C. Gen. Stat. §§ 158-7.1 and 160A-456 by providing housing for low and moderate income persons and energy saving development, which serve to further public purposes, increase the tax base and population and business prospects of the City.

The project meets applicable Master Plans in the following ways: (1) The project supports the goals of the *2009 City Transit Master Plan* by its location "along major transit corridors..." ; and (2) The project supports the goals of the *2009 Sustainability Management Plan*, which calls for the City to encourage Transit Oriented Development.

Fiscal Impact: Estimated maximum value of Land Use Incentive: The current assessed value of the property is $501,800 (land only). The developer's estimate of completed project value is $40,000,000, and he has estimated the taxable value on which the LUIG is made at 80% of that ($32,000,000). The current annual City tax, based on current assessed value, is $2,308. The annual estimated City tax post completion, based on the developer's estimate of value is $147,200. Thus, the estimated annual Land Use Incentive Grant would be the difference between the current City tax and the estimated post-completion City tax, $144,891.72, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 5 years, the estimated Grant would be $724,458.60.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $81,806.40. The value of each 10% of the fee rebate would be $8,181. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 50 point level, the fee rebate would be $40,903.20.

As noted in the developer's cover letter, the project is also eligible for a State Brownfield Grant, which would provide a five year sliding grant equal to approximately $823,000. This grant is also calculated from the taxes owed by the project, and is applicable to both state and county taxes. The developer requests that the City's LUIG be applied to the amount not covered by the Brownfield Grant over the five year period, as opposed to equal payments over the requested five-year period. This would result in a grant disbursement that would increase annually over the five year term; it would not change the amount of the grant.

The Housing and Community Development Committee voted 2-1 to recommend approval of the request. Staff recommends that Council act upon the request of RAD Lofts LLC for a Land Use Incentive Grant.

Mr. Harry Pilos, developer, explained his request for the additional 15 points for workforce and affordable housing. He said he will be using part of the taxes to help subsidize the small business rents. That is a benefit that goes beyond affordable housing. The program is that 138 spaces will be available to the public for $1/hour in a secured garage. He said they are trying to battle a lot of odds - provide parking, bring more small businesses to the area, promote the River Arts District, bring in residential, and provide a neighborhood grocery store. He said they are trying to create a good product and to hold down the rents, he needs the additional 15 points, for a total of 50 points.

In response to Councilman Smith, Mr. Pilos explained how this is a $50 Million investment.

When Councilwoman Wisler asked what the period of time is for a developer to commit to affordability, Mr. Pilos said it is 10 years.

Mr. Pilos responded to Vice-Mayor Hunt regarding the possible tenants, stating that he has five letters of intent. They are trying to be picky in deciding the tenants because they do not want to take away from the local businesses already located in the area. They will not have national tenants.

Mayor Manheimer opened the public hearing at 6:23 p.m.

Mr. Timothy Sadler felt it was important to curve gentrification in Asheville and this is a step in the right direction. He suggested hiring local workforce as much as possible and to include, as part of the contract, working with Asheville Green Opportunities. He asked City Council to consider an incentive for the Oak Street Commons that will be moving forward in the future.

Mr. Charles Worley, attorney for Mr. Pilos but speaking on behalf of himself, spoke in support of this development and Mr. Pilos' request for the extra 15 points on the incentive grant. Mr. Pilos redeveloped the Sawyer Building and it has benefitted all of Asheville. The project is a combination of affordable housing, retail space and parking. All components are critical in a project of this size. He felt this project is good for the River Arts District and Asheville.

Ms. Pattiy Torno, Chair of the Riverfront Redevelopment Commission but speaking as an individual, was pleased to see the area being developed. However, she expressed concern about the lack of affordable studio space and parking. She felt that more projects in the River Arts District will be moving forward and hoped that Council will not spend all they have to offer on this project alone.

Mayor Manheimer closed the public hearing at 6:32 p.m.

Vice-Mayor Hunt felt we need to be more proactive and the City is eager to advance in the RADTIP and add lots of infrastructure that will have the effect of inspiring more developers to develop in the area. Our policy approach does not make it so that a developer has to include

studio space. He supported the additional 15 award emphasizing we are not revising the policy because the policy allows City Council the latitude to award additional points based on different factors. There are many compelling features in this project, most of which is the stimulus it will provide in the River Arts District, teamed with the infrastructure improvements we will make under the RADTIP.

Vice-Mayor Hunt moved for the adoption of Resolution No. 14-197, to award RAD Lots a land use incentive grant with a total of 50 points. This motion was seconded by Councilman Davis.

Councilman Davis favored the 50 points and felt the policy is a good guideline with granting the City Council the flexibility to consider other factors.

Councilman Bothwell felt that we might be overbuilding parking and if it proves there is too much, that the extra parking might be converted into studio spaces. He felt the people living there and working nearby may not have a need for a car.

Councilman Smith said there is a lot of good development in the area and Mr. Pilos is bringing in an exceptional project. He said that Council has been seeking to inject more predictability into approval processes and into our policies. The difference between 35 points ($510,000) and 50 points ($725,000) is $215,000. He proposed that we stay within the 35 points and if Council wants to see the other $215,000 go towards this project that we get it from General Fund. He felt we need to create predictability. He could not support 50 points, but did support the project at 35 points.

Councilwoman Wisler also supported the project, but only with the award of 35 points. She was uncertain on whether we have identified what the flexibility factors, should another person come in with a request for additional points under this policy.

Councilman Pelly felt that soon there will be a lot going in the River Arts District. City Council was prepared to provide incentives for New Belgium (understanding that was a different program) to locate in that area, and he felt this is a significant enough project for him that it warrants 50 points.

Mayor Manheimer supported the 50 points for the project. When Council adopted the policy, one thing that was difficult was trying to know where the numbers would land when developers start preparing their pro forma. We were not certain what that number was so we built in some flexibility so we could look at each project as they came forward and make adjustments as needed, depending on the nature of the project, the mix of the project, and how the different components of our policy fit into that project. This is the first time we are applying this policy and Council knew that when the policy was adopted it would need to be adjusted due to market changes, costs of construction changes, what is affordable or workforce, retail rental market changes, etc. It's difficult to adopt a hard-fast policy that is relevant over time. She felt this project is a good fit for the future of the River Arts District. She wanted to be clear that everyone understands that this incentive grant is only rebated back to the developer once this project is brought on line and we are only talking about the increase in tax revenue that the land then produces. It is essentially a rebate of the additional tax revenue that the project itself generates.

Councilman Smith said that this policy will be revisited by the Housing & Community Development Committee so hopefully it will be a finer instrument.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

The motion made by Vice-Mayor Hunt and seconded by Councilman Davis to adopt Resolution No. 14-195 to award RAD Lofts with a land use incentive grant with a total of 50 points, carried on a 5-2 vote, with Councilman Smith and Councilwoman Wisler voting "no."

RESOLUTION BOOK NO. 36 - PAGE 328

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE THREE LEVELS OF TIERING FOR DETACHED SINGLED FAMILY PROPERTIES

ORDINANCE NO. 4337 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE THREE LEVELS OF TIERING FOR DETACHED SINGLED FAMILY PROPERTIES

Stormwater Services Manager McCray Coates said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance regarding stormwater utility to provide three levels of tiering for detached singled family properties. This public hearing was advertised on August 15 and 22, 2014.

This past summer, the City of Asheville received record rainfall. As staff was investigating many areas of concern, citizens were asking staff to perform additional maintenance activities and perform more watershed analysis which would help identify flood mitigation projects. Staff continued to make the repairs to the aging infrastructure and damages associated with the summer rainfall events. Following several individual meetings with citizens concerning specific items, staff decided to have a public meeting to discuss the vulnerabilities of the city.

During this meeting, which took place in November, several citizens came forward and asked the city to increase the level of services for the stormwater program. One focus of the citizens was to increase the maintenance activities which could include having two maintenance crews. The work these crews would perform could include perform ditching activities, additional replacement of existing drainage structures, and more frequent inspections to the current system. Also included would be the opportunity to evaluate the current status of the stormwater system throughout the public easements and rights of way and develop a priority needs list.

An additional focus area was the evaluation of the watersheds for flood control opportunities. This watershed analysis could include finding areas that would promote water quality and also provide flood mitigation areas also. Detailed analysis of the hydraulic system would be conducted for the watershed studies. Also, priority lists would be developed from this program.

Shortly following the meeting, the city hired the team of McGill Associates and Martin-McGill to investigate the current status of the program and to also look at what would be necessary to expand the program to meet the needs the citizens were asking for. City Staff presented options from the McGill Team to the finance committee who provided direction to staff.

On June 10, 2014, City Council held a public hearing on the 2014-15, proposed City Budget. Concurrent with that public hearing was the public hearing on revising the stormwater utility ordinance to adopt a new fee schedule. The new fee schedule was adopted by City Council on June 24, 2014, and authorizes the assessment of fees against detached single family properties based upon the square footage of impervious surface. The square footage is broken down into three tiers for single family properties, Level I: 225-2000 at $2.50 per month; Level II: 2001-4000 at $4.00 per month; and Level III: 4000+ at $5.50 per month. The implementation of the new fee schedule for detached single family properties was delayed for sixty (60) days to provide sufficient time to amend the UDO to allow for a 3 tier fee assessment.
The approved fee for non-single family properties was approved and is moving forward. This fee is based on impervious area. The fee is $4.00 per month per Equivalent Residential Unit which is equal to 2,442 square feet.

Staff presented the amended language to the Planning and Zoning commission on August 6, 2014, and received unanimous approval.

Pros:

- Citizens will be receiving a higher level of services from additional maintenance activities.
- The City is able to provide a higher level of service by prioritizing critical needs of the stormwater system.
- The City is able to provide the revenue sources to implement larger scale projects, such as the Biltmore Ave Bridge flood mitigation project.
- The City is able to provide preventative maintenance activities which should increase the life cycle of the infrastructure.
- This program will provide a visioning tool which staff can work toward and address future needs and prioritize those needs.

Con:

- The citizens' stormwater utility fee will increase.

As noted earlier in the report, the new tiered stormwater utility fee structure has already been approved by council, and revenue from the new fee structure is included in the FY 2014-15 adopted budget. This action would allow these increases to take place.

City staff recommends the City Council to approve the revisions to the Stormwater Service Utility and Enterprise Fund Ordinance (7-12-6) of the Unified Development Ordinance.

Mayor Manheimer opened the public hearing at 6:48 p.m., and when no one spoke, she closed the public hearing at 6:48 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4337. This motion was seconded by Councilman Pelly and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 153

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-196 – RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Civic Center Commission.

The terms of John West, Carol Ann Lydon and Flora Marr, expire on June 30, 2014.

The following individuals applied for the vacancy: Gary Herndon, Geoff Mohney, Yvonne Cook-Riley, Greg Duff, Anthony Mitchell, Bill Russell, Brian Rowland and Harris Livingstain.

On July 22, 2014, it was the consensus of the Boards & Commissions Committee and City Council to (1) reappoint Carol Ann Lydon; (2) arrange interviews for Greg Duff and Yvonne Cook-Riley; and (3) acknowledge that Bill Russell is a candidate; however, it is not necessary to bring him in for an interview.

After commenting on the qualified candidates, Bill Russell received 6 votes, Greg Duff received 4 votes and Yvonne Cook-Riley received 4 votes. Another vote was taken to break the tie and Greg Duff received 3 votes and Yvonne Cook-Riley received 4 votes. Therefore, Bill Russell and Yvonne Cook-Riley were appointed to each serve a three-year term, terms to expire June 30, 2017, or until their successors have been appointed. In addition, Councilman Bothwell moved to reappoint Carol Ann Lydon to serve an additional three-year term, term to expire June 30, 2017, or until her success is reappointed. This motion was seconded by Councilwoman Wisler and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 330

B. BOARDS & COMMISSIONS

Regarding the Affordable Housing Advisory Committee, the following individuals applied for the vacancy: Michael Sule, Randall Barnett, James Mastrogiacomo and Laura Simmelink. It was the consensus of Council to (1) reappoint Jayden Gurney (incumbent) and Mae Creadick (incumbent); and interview (2) interview William Irby (incumbent), Brian Alexander (incumbent), Randall Barnett, James Mastrogiacomo and Laura Simmelink.

RESOLUTION NO. 14-198 – RESOLUTION APPOINTING A MEMBER TO THE AFRICAN AMERICAN HERITAGE COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the African American Heritage Commission.

Dr. Lamar Hylton has resigned from the Commission, thus leaving an unexpired term until July 1, 2016.

The following individuals applied for the vacancies: Donnell Sloan, Rebecca Bernstein, James E. Lee III, Warren G. Smith, Sheneika Smith, Sandra Elaine Kilgore, Annie Burton, Mychal Bacoate, Jesse Junior, Georgia M. Shannon, Alfred J. Whitesides Jr., Daniel Jonas Young, Viola Spells, Damita Jo Wilder, Willie Cameron Jr., DeWayne Barton, and Tiffany DE'Bellott.

On August 26, 2014, it was the consensus of the Boards & Commissions Committee to appoint Alfred J. Whitesides Jr.

Councilman Smith moved to appoint Alfred Whitesides to the African American Heritage Committee to serve the unexpired term of Dr. Hylton, term to expire July 1, 2016, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 332

RESOLUTION NO. 14-199 – RESOLUTION APPOINTING MEMBERS TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Citizens-Police Advisory Committee.

The terms of Carol Rogoff Hallstrom, Larry Holt, Allen Brailsford and Debbie Applewhite expire on June 30, 2014.

The following individual applied for the vacancy: Buck Bragg.

It was the consensus of the Boards & Commissions Committee to reappoint Ms. Hallstrom, Mr. Holt, Mr. Brailsford and Ms. Applewhite.

Councilman Smith moved to reappoint Carol Rogoff Halstrom (representing north Asheville), Larry Holt (representing central Asheville); Allen Brailsford (representing west Asheville) and Debbie Applewhite (representing east Asheville), to each serve a three-year term, terms to expire June 30, 2017, or until their successors have been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 333

RESOLUTION NO. 14-200 – RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville-Buncombe Community Relations Council (CRC).

The term of Tracy Miles expired on December 31, 2013.

The following individuals applied for the vacancy: Fyffe Aschenbrenner and Kate Sampson.

The CRC requested any consideration of vacancies be delayed until April 8 in order for the Board to participate in a board profile process. On April 8, May 13 and July 22, the CRC requested a one-month delay in order to complete a recruitment event.

The CRC recommended appointment of Fyffe Aschenbrenner and it was the consensus of the Boards & Commissions Committee to appoint Fyffe Aschenbrenner.

Councilman Smith moved to appoint Fyffe Aschenbrenner to serve a three-year term, term to expire December 31, 2016, or until her successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

RESOLUTION BOOK NO. 36 - PAGE 334

RESOLUTION NO. 14-201 – RESOLUTION APPOINTING MEMBERS TO THE MULTIMODAL TRANSPORTATION COMMISSION

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Multimodal Transportation Commission.

The terms of Itiyopia Ewart, Marcia Bromberg and Till Dhose expired on July 1, 2014.

The following individuals applied for the vacancy: David Allen Wilson, Meredith Gregory, Till Dohse, Steven Obremski and John Stuart Ridout.

Because of the recent amendment to the members, all three vacancies will be for at-large members. It was the consensus of the Boards & Commissions Committee, with recommendation from the Multimodal Transportation Commission, to reappoint Till Dohse and appoint Steven Obremski and John Ridout.

Councilwoman Wisler moved to appoint the following three at-large representatives: Till Dohse, Steven Obremski and John Ridout, to each serve a three-year term, terms to expire July 1, 2017, or until their successors have been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 36- PAGE 335

RESOLUTION NO. 14-194 - RESOLUTION APPOINTING A MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Buncombe County Tourism Development Authority.

The term of Jim Ellis (individual who is involved in the tourist business and who has demonstrated an interest in tourism development but who does not own or operate a hotel, motel or other taxable tourist accommodation) expires on August 30, 2014.

The following individuals have applied for this vacancy: Brian Rowland, Michael Adams, Rebecca Hecht, W. Ken Stamps, Elizabeth Button, Kitty Love and Michael Whalen.

The Boards & Commission Committee recommended reappointing John Ellis.

When Councilman Smith noted the number of high qualified candidates that applied for this position and that he would prefer to interview them to get their views, Mayor Manheimer said that she and Vice-Mayor Hunt spoke with Mr. Ellis regarding his potential representation of Asheville and felt comfortable in his reappointment.

At Mayor Manheimer's request, Councilwoman Wisler moved to recuse Mayor Manheimer from participating in this matter due to a conflict of interest. This motion was seconded by Councilman Smith and carried unanimously.

Mr. Timothy Sadler felt that even though Mr. Ellis is an outstanding member, he felt it would be more appropriate for Council to look at appointing a brewer to the Authority.

Councilman Pelly moved to reappoint John Ellis (individual who is involved in the tourist business and who has demonstrated an interest in tourism development but who does not own or operate a hotel, motel or other taxable tourist accommodation) to serve an additional three-year term, term to expire August 30, 2017, or until his successor has been appointed. This motion was seconded by Councilman Davis and carried on a 5-1 vote, with Councilman Smith voting "no" and Mayor Manheimer being recused.

RESOLUTION BOOK NO. 36 - PAGE 327

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Judy Strong spoke to Council about fiscal issues and felt that we should be spending the City's taxpayer dollars on making sure that the Asheville Police Department is well funded and equipped.

Mr. Timothy Sadler suggested a plain clothes initiative in the Police Department. He also suggested the City dedicate 1-2 seats on the Tourism Development Authority for the brewing community.

Mr. Warren Furmann was concerned that Splashville has not been functioning for two weeks. He also spoke in strong support of transit service on Sundays. City Manager Jackson said that he would provide an update on Splashville via e-mail to City Council before the end of the week. Councilman Smith noted that City Council has budgeted for limited Sunday transit service.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:15 p.m.

Magdalena Bulleson
CITY CLERK

MAYOR

Tuesday – September 9, 2014 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 21, 2014, AS "DAY OF PEACE"

Councilman Bothwell read the proclamation proclaiming September 21, 2014, as "Day of Peace" in the City of Asheville. He presented the proclamation to Kala Shaffer, representing Peace is Possible North Carolina, who briefed City Council on some activities taking place during the day.

ANNOUNCEMENT

Mayor Manheimer was pleased to announce that the City of Asheville has received the U.S. Dept. of Transportation's Fiscal year 2014 National Infrastructure Investments or TIGER VI Discretionary Grant for the River Arts District Transportation Improvement Plan. This $14.6 Million grant will go towards the $30 Million project. The City received help from RiverLink, Riverfront Redevelopment Plan, Buncombe County Tourism Development Authority, N.C. Dept. of Transportation, Land-of-Sky Regional Council, former City leaders, Representatives Meadows and McHenry, and others. She said this is a step in the right direction.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 26, 2014

B. RESOLUTION NO. 14-202 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A UTILITY RELOCATION AGREEMENT WITH PROPERTY OWNER OF 311 COLLEGE STREET (PULLIAMSPAKE LLC) TO TO RELOCATE A FAILING STORM DRAINAGE PIPE

Summary: The consideration of a resolution authorizing the City Manager to execute a utility relocation agreement with property owners of 311 College Street (PulliumSpake, LLC), to construct a new storm drainage pipe paralleling South Charlotte Street on City property to replace a failing storm drainage pipe on this property with a 50%/50% cost share.

During the investigation of a future development for 311 College Street, the development team found an arch concrete culvert bisecting the property. After thorough investigation by the City's legal staff, it was determined that during the early 1920's the City had acquired an easement and constructed the drainage structure in this location. Upon further investigation from

the development team which involved physically entering the system, it was discovered that there are several concerns with the drainage system including partial failure in a couple of locations.

As the legal team continued to research this area, it was discovered that the section of pipe located along the Buncombe County parcel was also installed in a partnership between the property owners at that time and the City. This was also performed in the 1920's.

As staff discussed this with the development team, a plan to relocate the system along South Charlotte Street and reconnect the system on the property currently owned by Buncombe County became the most cost effective and viable option.

As this system is beginning to fail, this partnership would be the most cost effective method to correct these issues. The plan would involve the City reverting the easement back to the property owners, (Buncombe County and PulliumSpake, LLC) and obtaining new easements from both property owners for the new drainage system.

The plan would be for the development team to design and construct the system and the City would then reimburse the development team up to 50% of the cost of design and construction not to exceed $245,002.50.

This work will involve placing a new drainage system running along S. Charlotte Street the crossing back under S. Charlotte Street to connect in to a stable section of the concrete culvert. The project will need additional easements to make the connections.

Staff recommends that a new pipe be installed along S. Charlotte Street to bypass the failing storm drainage system.

Pro:

- If this recommendation is approved, the construction team would be able to move quickly on the construction of the new pipe, minimizing future damage to properties.

Con:

- The City Stormwater Utility is paying a portion of the cost of the project.

The engineer's estimate with a 10% contingency is $490,005. $245,002.50 is proposed to be funded by the Stormwater Utility Enterprise Fund using capital funding already included in the FY 2014-15 adopted budget. The remaining cost of $245,002.50 is proposed to be paid by the private property owners. The project will be completed by the developers' construction crews.

City staff recommends City Council authorize the City Manager to execute an utility replacement agreements with property owners (PulliumSpake, LLC) to construct a new storm drainage pipe along S. Charlotte Street to replace a failing storm drainage pipe.

RESOLUTION BOOK NO. 36 - PAGE 336

C. RESOLUTION NO. 14-203 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH THOMAS CONSTRUCTION CO. INC. FOR THE HORIZON HILLS WATERLINE IMPROVEMENT PROJECT

ORDINANCE NO. 4338 - BUDGET AMENDMENT FOR THE HORIZON HILLS WATERLINE IMPROVEMENT PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a construction agreement with Thomas Construction Co. Inc., for the bid amount of $1,779,590.40; (2) a contingency amount of $266,939.60 for a total project budget in the amount

of $2,046,530.00 for the Horizon Hill Waterline Improvement Project; and (2) a budget amendment in the amount of $1,873,762 from Water Resources Fund Balance.

This project consists of the construction and installation of: approximately 13,150 linear feet of 8-inch & 6-inch ductile iron pipe, a limited amount of 2-inch copper pipe, and all necessary accessories and appurtenances to replace the existing water mains, including valves, hydrants, service connections, abandonment of existing water mains and appurtenances, and other miscellaneous work in order to improve water service to the Horizon Hill Neighborhood. The Water Resources Department (WRD) issued an Advertisement For Bids for the construction project. In response to the Advertisement For Bids, the WRD received six (6) bids.

Companies responding were:

1. Davis Grading, Inc. – Shelby, NC
2. Dilliard Excavating – Sylva, NC
3. Buckeye Construction Company, Inc. –Canton, NC
4. Cooper Construction Company, Inc. – Hendersonville, NC
5. T&K Utilities, Inc.– Asheville, NC
6. Thomas Construction Co. Inc., - Johnson City

Following a review of bids by City staff and W. K. Dickson & Co. Inc., Thomas Construction Co. Inc., was selected as the lowest responsible bidder at a bid of $1,779,590.40. A contingency amount of $266,939.60 has been added for a total project budget amount of $2,046,530.00.

Pros:

- This project will replace existing waterlines, which are undersized for adequate fire protection and due to age, have a high risk of failure causing costly repairs for the City and Water Resources Department and frequent outages for the customers; with a durable, reliable sustainable water system for the Horizon Hill Neighborhood.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of this important waterline system improvement.

The Water Resources Department currently has $172,768 budgeted for the construction contract. The remaining funds of $1,873,762 needed for the contract and contingency will be appropriated from Water Resources Fund Balance. In order to transfer funds from the Water Resources Fund Balance, a budget amendment is necessary.

Amount in Horizon Hills Waterline Project for Construction Contract	$ 172,768
Additional Amount Needed for Construction Plus Contingency	$1,873,762
Total Amount Needed for Project, including contingency	$2,046,530

City staff recommends City Council take the following actions: (1) authorize the City Manager to enter into a construction agreement with Thomas Construction Co. Inc., for the bid amount of $1,779,590.40; (2) authorize a contingency amount of $266,939.60 for a total project budget in the amount of $2,046,530 for the Horizon Hill Waterline Improvement Project; and (3) authorize a budget amendment in the amount of $1,873,762 from Water Resources Fund Balance.

F. SECOND READING OF ORDINANCE NO. 4332 - ORDINANCE RENEWING THE FRANCHISE AGREEMENT TO OPERATE A TROLLEY SERVICE (GRAY LINE TROLLEY) WITHIN THE CITY OF ASHEVILLE

Summary: See August 26, 2014, minutes for first reading.

ORDINANCE BOOK NO. 29 - PAGE 143

G. RESOLUTION NO. 14-2-4 - RESOLUTION AUTHORIZING THE CITY TO APPLY FOR FISCAL YEAR 2014 EMERGENCY SOLUTIONS GRANT FUNDS

Summary: The consideration of a resolution to apply for Fiscal Year 2014 Emergency Solutions Grant funds.

In the process approved by Housing and Community Development Committee at the August 19, 2014 HCD meeting, the City submitted a timely application to the State of North Carolina Division of Aging and Adult Services (DAAS), Housing and Homeless Unit for Emergency Solutions Grant (ESG) funding. This funding supports community agencies who are providing eligible emergency response and housing stabilization activities for those who are homeless. Funding recommendations were made to the Housing and Community Development Committee by the Homeless Initiative Advisory Committee. These recommendations followed a process that included submittal of letters of intent from eligible agencies, review and preliminary selection by the ESG Subcommittee of the Advisory Committee, and endorsement of those recommendations by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee.

The following are the agency project applications being submitted in the City of Asheville's Regional Application:

	Emergency Response	Housing Stabilization	Total
Organization			
ABCCM	$	$ 18,500	$ 18,500
Helpmate	$ 22,000	$ -	$ 22,000
Homeward Bound	$	$ 71,992	$ 71,992
Salvation Army	$ 20,000		$ 20,000
City of Asheville	$	$ 12,000	$ 12,000
TOTAL REQUESTS	$ 42,000	$ 102,492	$ 144,492

These awards are conditional on the application being approved by the State. These conditions will include, but are not limited, to adequate documentation of required matching funds. These matching funds are provided by the individual agencies (and not the City), except in the case of the proposed allocation to the City. That allocation will support the administration of the Homeless Information Management System (HMIS), and the City provides matching funds through its annual allocation of general funds for the Homeless Initiative.

The application and proposed agency funding was unanimously supported by the HCD Committee at their August 19, 2014, meeting.

Pro:

- ESG funding is a key funding resource for emergency shelter, and is now becoming an important resource for rapid rehousing of persons experiencing homelessness;

Con:

- None noted.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing community development division staff will administer the program. No general funds are requested to support this program.

Staff recommends that Council approve the resolution authorizing the City to apply for ESG funding, and to provide those funds to the agencies for the programs approved by the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit.

RESOLUTION BOOK NO. 36 - PAGE 343

H. RESOLUTION NO. 14-205 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE METROPOLITAN PLANNING PROGRAM, SECTION 5303 OF THE FEDERAL TRANSIT ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grants administration and reporting activities, short range and long range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Projects Coordinator position (90% of the grant) and a portion of the Transportation Manager position (the remaining 10%) for time spent on transit planning.

This funding makes possible to have dedicated staff developing and engaging in complex processes such as the transit master plan implementation, and to develop programs required by the Federal Transit Administration for recipient and subrecipients to ensure compliance with federal regulations.

FY 2014-15 funding totals $84,230. The subject grant will provide 80% of the anticipated funding ($67,384), the North Carolina Department of Transportation will provide 10% ($8,423), and the City will provide the remaining 10% ($8,423). The grant funding and the City's local

match in the amount of $8,423 are currently budgeted in the Transportation Department's approved budget for the current fiscal year.

The Transit Committee supports the subject action.

Pros:

- The subject grant supplements funding for two existing positions.
- The subject grant enables the City of Asheville to use $75,807 in Federal and State funds for transit planning activities. Transit planning activities include but are not limited to: analysis of transit data, implementation of the transit master plan, route development and scheduling; operational improvements, development of the Title VI and DBE programs; development of specifications related to transit products; bus stop program and shelter installation.

Con:

- A 10% local match in the amount of $8,423 is required.

The total grant funding for Fiscal Year 2014-15 is $84,230. The City is required to provide a 10% local match in the amount of $8,423. The anticipated grant funding and the City's local match in the amount of $8,423 are currently budgeted in the Transit Services fund.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2014-15.

RESOLUTION BOOK NO. 36 - PAGE 344

I. RESOLUTION NO. 14-206 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE APPRENTICE/INTERN PROGRAM FOR FISCAL YEAR 2014-15

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the Apprentice/Intern Program for FY 2014-15.

The NCDOT Public Transportation Apprenticeship Program gives current college seniors the opportunity to work in the field of public transportation management upon receiving their undergraduate degree. The 12-month program, which starts July 1st, provides exposure to all aspects of a transit system and allows apprentices to gain experience in managing public transportation operations.

The City applied for this program and was granted funding. After a selection program was conducted by the NCDOT the City has hired Gregg Godwin to work in the Transportation Planning Division, Transportation Department. Mr. Godwin will focus specifically on improving the ADA program, which include updating the eligibility criteria to use the paratransit system and the city's discount program for people with disabilities, developing a user guide, and looking at reducing inefficiencies in program operation. He will also assist with route planning, analysis of transit related surveys and procurement processes.

FY 2014-15 funding totals $32,423. The North Carolina Department of Transportation will provide 90% of the anticipated funding ($29,180), and the City will provide the remaining 10% ($3,243). The grant funding and the City's local match in the amount of $3,243 are currently budgeted in the Transportation Department's approved budget for the current fiscal year.

The Transit Committee supports the subject action.

Pros:

- The subject grant supplements funding for an apprentice position for FY 2014-15.
- The subject grant enables the City of Asheville to use $29,180 in State funds for transit planning activities.

Con:

- A 10% local match in the amount of $3,243 is required.

The total grant funding for Fiscal Year 2014-15 is $32,423. The City is required to provide a 10% local match in the amount of $3,243. The anticipated grant funding and the City's local match in the amount of $3,243 are currently budgeted in the Transit Services fund.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the Apprentice/Intern program for FY 2014-15.

RESOLUTION BOOK NO. 36 - PAGE 345

J. RESOLUTION NO. 14-207 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP FOR THE 482 SUNSET DRIVE RETAINING WALL CONSTRUCTION PROJECT

ORDINANCE NO. 4339 - BUDGET AMENDMENT FOR THE 482 SUNSET DRIVE RETAINING WALL CONSTRUCTION PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $740,688.00 plus a contingency of 15% ($111,103.20) with Patton Construction Group, Inc. for the project known as 482 Sunset Drive Retaining Wall Construction; and (2) a budget amendment in the amount of $476,069.63 from reimbursements from the Federal Emergency Management Agency and the N.C. Dept. of Public Safety for the declared disaster identified as FEMA-4146-DR-NC to fully fund the contract and other costs associated with the project.

From January 1, 2013, to July 8, 2013, the Asheville area received 41.67 inches or rainfall, exceeding the City's normal annual rainfall for the same time period by 4.68 inches. More specifically, the Asheville area received almost 5 inches of rain within the 24-hour period from July 3 to July 4, 2013. During this 24-hour period stormwater runoff rapidly undermined steep soil banks, causing damage to the asphalt/pavement shoulders of many City roads due to the wearing pressure of the high-velocity stormwater flow. In particular, the stretch of Sunset Drive adjacent to and above the property located at 482 Sunset Drive experienced significant structural damage to the soils underlying the road surface.

Several large and complicated landslides required consultation outside the City workforce, and several consultants were chosen for the more extensively damaged areas. To reinforce the road surface, a design including a soldier pile and lagging retaining wall was chosen for this site, and includes some road rebuilding. The project was advertised on July 29, 2014. Bids were opened and the following bids were received:

Patton Construction Group Inc.	Asheville NC	$740,688.00
NHM Constructors, LLC	Asheville NC	$908,400.00

Patton Construction Group, Inc. was the lowest responsible bidder with a bid of $740,688.00. A 15% contingency ($111,103.20) has been added to allow payment for any

unforeseen costs that typically arise during construction. The work produced from this contract would resolve liability issues associated with a deteriorating road structure and rebuild the road's underlying support. The work complies with the City of Asheville's Strategic Operating Plan Focus Area 1 Goal 1, and Focus Area 3 Goal 1.

Pros:

- Will remove a potential liability issue from the City's transportation network.
- Improve access to an area of valuable residences, improving the City's tax base.

Cons:

- Project management and contract administration will consume staff time.
- Temporary financial obligations of project work.

In March 2014, City Council adopted an initial budget for this project that totaled $562,326.95. Staff now anticipates that the total cost for this project will be $1,038,396.58. The budget amendment tonight in the amount of $476,069.63 will fully fund the contract and other costs associated with the project. As noted above, this project is fully funded by reimbursements from the Federal Emergency Management Agency and the North Carolina Department of Public Safety for the declared disaster identified as FEMA-4146-DR-NC.

City staff recommends City Council adopt (1) a resolution awarding the contract to Patton Construction Group, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $740,688.00 plus a contingency of 15% ($111,103.20), for a total of $851,791.20, with Patton Construction Group, Inc. for the project known as 482 Sunset Drive Retaining Wall Construction; and (2) a budget amendment in the amount of $476,069.63 from reimbursements from the Federal Emergency Management Agency and the N.C. Dept. of Public Safety for the declared disaster identified as FEMA-4146-DR-NC to fully fund the contract and other costs associated with the project.

ORDINANCE BOOK NO. 29 - PAGE 156

K. RESOLUTION NO. 14-208 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER FOR ENGINEERING DESIGN SERVICES WITH W.K. DICKSON & CO., INC. FOR THE HORIZON HILLS WATERLINE IMPROVEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a change order in the amount of $104,480 to increase the engineering design services contract for W. K. Dickson & Co., Inc. from a total in the amount of $205,350 to $309,830 for the Horizon Hill Waterline Improvement Project.

On July 23, 2013, City Council awarded the engineering design services contract to W. K. Dickson & Co., Inc. for the Horizon Hill Waterline Improvement Project. The contract originally consisted of a survey, a hydraulic analysis, engineering design, construction administration, and other related professional services for approximately 9,500 linear feet of 6-inch and 8-inch waterlines within the Horizon Hill area neighborhoods. During the initial design and analysis phase, it was determined that more of the existing water system needed to be replaced and the area and scope of the project needed to be expanded in order to meet the project objectives of the replacement of existing substandard and failing waterlines in favor of new waterlines to create improved water service and fire protection. An additional 3,650 linear feet of waterline survey, hydraulic analysis, engineering design, construction administration, and other related professional services was added to the engineering design services contract.

The additional engineering services for the increased linear feet and scope of waterline replacement creates the need for a change order to increase the contract amount by an additional $104,480.00 for a total contract amount of $309,830.00.

Pro:
- Approval of the change order will allow the city to complete the engineering services for the entire project.

Con:
- If the change order is not approved, then the project cannot be completed to meet the intent of the project.

The funding needed for this change order is currently allocated within the Horizon Hill Waterline Improvement Project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a change order in the amount of $104,480 to increase the engineering design services contract for W. K. Dickson & Co., Inc. from a total in the amount of $205,350 to $309,830 for the Horizon Hill Waterline Improvement Project.

RESOLUTION BOOK NO. 36 - PAGE 347

L. ORDINANCE NO. 4340 - BUDGET AMENDMENT FOR SERVICES WITHIN THE PARKS AND RECREATION DEPARTMENT

Summary: The consideration of a budget amendment in the amount of $53,795 from donations for services within the Parks and Recreation Department.

The City of Asheville has received donations totaling $53,795 from the Asheville Parks and Greenways Foundation and other donations to support projects and programs within the Parks and Recreation Department. Funds will be used to support the projects listed below.

- $51,594 to purchase supplies, materials and equipment for FY15 activities at recreation centers, swimming pools, special events, senior programs, summer camp, outdoor recreation, and therapeutic recreation.

- $2,201 to purchase materials for maintenance in parks.

Pro:
- Provide funds to support parks, facilities and programming enhancements

Con:
- None

These donations enhance parks and recreation services at no impact to the General Fund operating budget.

Staff recommends City Council to approve a budget amendment in the amount of $53,795 from donations for projects within the Parks and Recreation Department.

ORDINANCE BOOK NO. 29 - PAGE 158

M. ORDINANCE NO. 4341 - BUDGET AMENDMENT FOR AN ALLOCATION FROM THE N.C. DEPT. OF COMMERCE FOR THE WNC NATURE CENTER

Summary: The consideration of a budget amendment in the amount of $72,400 for an allocation from the North Carolina Department of Commerce for the WNC Nature Center.

Each year the State of North Carolina in the Department of Commerce allocates funds to museums, science centers and zoos in North Carolina. The WNC Nature Center is eligible to annually receive an allocation to be used for capital improvements, animal exhibits, materials, and goods and services at the WNC Nature Center.

The allocation is intended to support the 20/20 Vision Site Plan for the WNC Nature Center. The funds will be used to support construction of a pavilion and restroom which is identified as a high priority in the site plan.

Pros:

- Provides funds to support capital improvements at the WNC Nature Center.
- Provides funds to enhance special projects and services to WNC Nature Center visitors.
- Provides funds to assist in fulfilling standards and maintaining WNC Nature Center accreditation with the Association of Zoos and Aquariums.

Con:

- None

The project budget for one-time facility improvements at the WNC Nature Center will increase by $72,400. This increase is funded by an allocation from the State of North Carolina Department of Commerce. Thus, there is no impact to the City's General Fund budget.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to accept funds from the North Carolina Department of Commerce to increase the project budget by $72,400 for capital improvements at the WNC Nature Center.

ORDINANCE BOOK NO. 29 - PAGE 161

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Davis and carried unanimously.

III. PRESENTATIONS & REPORTS: None.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER ADOPTION OF THE HAYWOOD ROAD FORM BASED CODE FOR THE HAYWOOD ROAD CORRIDOR

ORDINANCE NO. 4342 - ORDINANCE ADOPTING THE HAYWOOD ROAD FORM BASED CODE AS AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE AND ASSOCIATED MAP AMENDMENTS FOR THE REZONING OF THE CORRIDOR PARCELS

Urban Planner Alan Glines said that this is the consideration of adoption of the Haywood Road Form Based Code (HRFC) amendment to the Unified Development Ordinance (UDO) and associated map amendments for the rezoning of corridor parcels. This public hearing was advertised on August 29 and September 5, 2014.

Mr. Glines said that Form Based Codes are a newer zoning tool that focuses on the form and placement of new structures on parcels instead of relying on a list of permitted uses. By emphasizing the building form, the character of the area is enhanced and protected because the buildings with their defining features and their placement in relation to the street and sidewalk create a strong neighborhood context. The Haywood Road Form Code is a redevelopment tool and is divided into six zoning types based on their location on the corridor and potential for a mix of development. The proposed zoning will support orderly investment and new neighborhood-scaled construction (while encouraging the retention of existing building) along Haywood Road and includes community-identified pedestrian oriented requirements. While the proposal is centered along Haywood Road, in some limited areas adjoining properties are also included in the proposed district that could relate to or support Haywood Road properties. The Haywood Road Form Code (HRFC) has been developed through the work of a consultant team led by Lee Einsweiler of Code Studios from Austin Texas and other consultants including Sasha Vrtunski, a local planner and team members who considered traffic and market analyses.

The HRFC will be a document within the Unified Development Ordinance (UDO). In some ways the form code is a stand-alone piece but in places general sections of the UDO are also relevant for development proposals and will overlap for purposes of plan review. The form code contains a zoning map, descriptions and requirements for each of six proposed districts. The common theme of the new zoning is pedestrian-oriented development with a mix of uses encouraged but not required. Buildings will be oriented towards the street-facing portion of their lot with parking to the side or rear of the building. While most of these concepts are ***not*** new to Asheville and are found in other districts in the UDO, they are assembled together and presented in a new way with a focus on the scale of the building appropriate to the specific context and presented in a visually accessible format. Form Based Codes could be a positive precedent for other areas and corridors of Asheville.

Six general districts outlined in the HRFC:

- **Core District (HR-1):** The Core District is associated around the community's two historic Haywood Road main street areas that for many people define the character of west Asheville. This district focuses on commercial uses and permits office and residential uses on upper floors. While there are no existing structures taller than two stories, the height of new buildings would allow a maximum height of four stories with a step-back above the second-story level. The Core District is red on the new zoning map and is replacing the two central business districts on the corridor. Since west Asheville has the only two CBD areas outside of the downtown CBD district, the proposed ordinance also includes the removal of a west Asheville CBD description from 7-8-18 of the UDO.

- **Expansion District (HR-2):** The Expansion District is a mixed-use district that will support a wide range and scale of commercial buildings. Residential units are encouraged on upper floors of structures. The height of new buildings is limited to four stories (with a step-back required above the second story). The two Expansion District areas are located to the east of the two proposed Core Districts with building standards that will extend the strong character of the Core area. The Expansion area is orange on the new zoning map and replaces mainly Community Business II (CB II) zoning.

- **Corridor District (HR-3):** The Corridor District is a mixed-use district found in two large sections of Haywood Road. These areas are located to the west of the two historic Core areas and will be most suitable for residential uses and limited office and retail activities. The building height in the Corridor District is three stories and unlike the other districts, the buildings may provide a wider setback from Haywood Road to create additional pedestrian or green spaces in front of the building. The Corridor District is green on the new zoning map and replaces mainly Institutional and CB II zoning.

- **Traditional District (HR-4):** The Traditional District provides a limited range and scale of development because the character of this area is of much smaller structures on small shallow parcels. New construction in this district will be limited to two stories. The Traditional District is below Beecham's Curve and is bright blue on the new zoning map and replaces CB II zoning.

- **Live-Work District (HR-5):** The Live-Work District is located above the French Broad River and focuses on residential uses while providing an opportunity to work in a shared space. The non-residential uses are limited to those that complement a residential environment such as studios or office uses. Building heights in this district will be limited to three stories. The Live-Work District is located in the area above the French Broad River and is yellow on the new zoning map. Currently this area is primarily CB II zoning with a limited amount of residential multi-family medium density parcels (RM-8).

- **Town District (HR-6):** The Town District is focused along Patton Avenue and although it is a mixed-use district it will relate closely to the highway environment in that area. The Town District allows new construction up to six stories tall but with the potential to have a network of smaller streets with a unique urban environment. The Town District is centered in the area close to Patton Avenue and Parkwood Road and is dark blue on the new zoning map. Currently this area is zoned Highway Business (HB).

The HRFC draft was developed after a five day charette held in West Asheville in September 2013. That effort continued with the release of a charette report in February 2014 followed by a large community meeting and smaller meetings with stakeholders in March. Since then the plan has been presented in a work session with the Planning and Zoning Commission in April. A letter was mailed to all property owners whose property was under consideration for a zoning change in advance of the April work session. Since then staff has continued to meet with stakeholders who had questions about the specific districts and concerns about changes to the development potential on their parcels. Regular updates for these meetings were provided to the Planning and Zoning Commission at several of their scheduled meetings during the intervening months.

In preparation of the formal hearing process for adoption of HRFC for the Planning and Zoning Commission and City Council, notification measures were undertaken which included:

- Legal advertisement in the newspaper listing all property parcel identification numbers with proposed zoning categories.
- 900 letters sent to owners affected by the proposed zoning changes and to neighboring property owners within 200 feet of those properties.
- Posting of almost 40 'Z' signs with the date for the meeting along the corridor area.
- Updates to the web site and staff provided an interview for the local newspaper (story was published on Tuesday August 12, 2014).
- Updates for the West Asheville Business Association website and Facebook.
- Email to an on-going list of interested residents and property owners (numbering about 250)

Since the letters were sent and notifications made there have been about 45 citizen inquiries to staff via email, phone calls or in-person visits to understand the zoning changes or ask specific questions pertaining to their property or specific use.

The Comprehensive Plan encourages denser sustainable infill development along existing corridors in the city. Changes to the UDO that further these goals are encouraged. Form codes are a newer innovative tool that focus on community goals developed through public

processes highlighting input and involvement and this is encouraged in the Comprehensive Plan. Part of the Comprehensive Plan is the *Haywood Road Vision Plan* that was adopted in February 2014. This plan created with extensive community input provides a view for the future of Haywood Road that includes mixed-use development and multimodal transportation along with a number of other community identified goals such as historic preservation and economic health. The details of the form code proposal provide specific requirements that mesh with the community vision and furthers the objectives of the Comprehensive Plan.

The Haywood Road Form Code fits within City Council's goal for *Economic Growth and Financial Stability* because the strategic plan seeks to create strong mixed-use neighborhoods that identify underperforming zones and focus redevelopment efforts to include job growth, housing, recreation, and multi-modal transportation. The Haywood Road Form Code is a redevelopment plan that embodies these goals along an important corridor in the city. The proposal also aligns with Council's goal of providing a *High Quality of Life* in that development must focus on the public realm, providing multimodal transportation access, wider sidewalks and safe and vibrant community spaces.

The HRFC was developed through a public process that included a 5-day community charette held in September of 2013 and numerous community meetings with community stakeholders and the large presentations to the community. Although precise numbers are difficult to determine it is estimated that several hundred community members and property owners participated at some point in the development of this plan. After a work session with the Planning and Zoning Commission in April, staff continued to meet with community members and owners of property to answer questions about the proposal and in some cases recommended amendments to the proposal based on those conversations.

The Planning and Zoning Commission reviewed the plan at their mid-month meeting on Thursday August 21, 2014, and recommended approval with a vote of 6-0. There were a large number of attendees at the meeting for the form code which was the only item on the agenda and nine people spoke during the public hearing period. There were some concerns about the scale of potential development along the corridor (although existing zoning permits similar scale) and some concern about the growth of traffic and the need for sidewalks along Haywood Road. Overall the level of support for the plan was high. The Planning and Zoning Commission recommended some minor amendments to the draft which have been incorporated into the final draft version to be presented to City Council.

Considerations:

- As with any new ordinance of this scale there may be unintended omissions which once discovered would be brought forward as future amendments to the ordinance
- The consultants proposed limited strategic expansions of commercial zoning into the residential areas surrounding Haywood Road but in the future there may be others that may be proposed and would be considered through individual rezoning applications
- Although staff have been aware of this zoning proposal since its inception there will be a normal learning curve as new projects come in since there are a number of new concepts in the proposed plan

Staff recommends the adoption of the Haywood Road Form Code and amendments to the zoning map and believes that the form code and rezoning proposal are reasonable and in the public interest and are consistent with the Comprehensive Plan because the goals of the Comprehensive Plan for denser and sustainable infill redevelopment are met and because it aligns with the goals of the strategic plan for creating strong mixed-use neighborhoods focusing redevelopment efforts to include job growth, housing, recreation and multi-modal transportation through the form code document and rezoning of the identified parcels.

Mayor Manheimer opened the public hearing at 5:18 p.m.

The following individuals spoke in support of the Code, however, noted some various concerns as follows: increased density on corridor; parking spill-over in neighborhoods; need for Haywood Road Parking Study to be completed before implementation of Code; 4-story buildings too high; and need for more green space:

Ms. Deidra Duffy
Resident on Craggy Avenue
Rev. Christopher Chiaronmonte
Mr. Austin Walker
Ms. Linda Giltz
Mr. Michael Connelly
Mr. Timothy Sadler
Ms. Liz Pryor

Mayor Manheimer closed the public hearing at 5:43 p.m.

Councilman Pelly noted that this is an evolving process and would look forward to seeing how it evolves over the years.

In response to Councilman Pelly, Mr. Glines explained how the Code is reflecting potential growth. At the two-story level, there is a setback which will reduce the impact from the street. He noted that not every property is sized for a 4-story building.

Councilman Smith said that the City is working on some foundational infrastructure investments. He was pleased that we will have a parking plan moving forward, which may include some one-way streets, permit parking, or perhaps some on-street meter parking. He'd also like to explore a shorter transit route, like a loop from Haywood Road to Patton Avenue to the River District and then to downtown. He did acknowledge that there is a lot of cut-through speeding traffic on Druid Drive. He said we will continue to work with the N.C. Dept. of Transportation to examine how to move pedestrians safely across Haywood Road.

Vice-Mayor Hunt was eager to see the Form Based Code move forward.

Mayor Manheimer said that the only other form based code that the City has is the Downtown Master Plan and that has worked well as a usable tool in guiding development downtown. City Council is interested in seeing our urban corridors rezoned for form based codes. This is a community based process.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hunt moved to approve the Haywood Road Form Code amendment and the Council finds that the request is reasonable and in the public interest and is consistent with the Comprehensive Plan and other adopted plans, because the proposal encourages denser sustainable infill development and will facilitate creating strong, safe mixed-use neighborhoods focusing redevelopment efforts to include job growth, housing, recreation and multi-modal transportation for a high quality of life and based on information provided during the hearing. This motion was seconded by Councilwoman Wisler and carried unanimously.

Vice-Mayor Hunt moved to adopt the zoning map amendment to implement the Haywood Road Form Code for the properties identified in the proposed zoning map and the Council find that the request is reasonable and in the public interest and is consistent with the Comprehensive Plan and other adopted plans, because the amendment supports denser sustainable infill development and will facilitate creating strong, safe mixed-use neighborhoods focusing development efforts to include job growth, housing, recreation and multi-modal transportation and

based on information provided during the hearing. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 163

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF GREYMONT VILLAGE APARTMENTS LOCATED ON SARDIS ROAD FROM INDUSTRIAL DISTRICT AND COMMERCIAL INDUSTRIAL DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING FOR THE CONSTRUCTION FO A MULTI-FAMILY APARTMENT DEVELOPMENT

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone Greymont Village Apartments located on Sardis Road from Industrial District and Commercial Industrial District to RM-16 Residential Multi-Family High Density District for the construction of a multi-family apartment development. This public hearing was advertised on August 29 and September 5, 2014.

The overall project location straddles the City of Asheville / Buncombe County jurisdictional line and consists of a total of 41.1 acres. The portion of the project within the City limits is a single parcel, approximately 11.8 acres in size. The parcel is currently spit-zoned with a small portion Commercial Industrial and the bulk of the site zoned Industrial. The parcel has a "flag lot" configuration with approximately 123 feet of frontage along Sardis Road; the "pole" (zoned CI) contains a 70 foot wide Progress Energy transmission line easement and will not be disturbed.

Adjacent zoning includes CI to the north, IND to the east and County zoning to the west (EMP) and south (R3). The (City) site is currently owned by Industries for the Blind, with their use adjacent, located on Sardis Road. Other nearby uses include multiple car dealerships and light industrial uses (metal roofing, plastic manufacturing), the forestry service offices/garage and a truck rental business.

Overall Project Proposal: The multi-family apartment complex development proposes a total of 356 units in 14 residential buildings and one community building with 713 parking spaces throughout the site. The City and County portions are divided by a stream running through the site (with existing wetlands and a required 30 foot buffer area).

Buncombe County approved the project as a Conditional Use Permit in 2008; however those approvals have lapsed. The proposal has been approved by the County's Board of Adjustment (August 2014) and includes variances to allowed height as well as parking.

City Portion: Within the City of Asheville jurisdiction, the project includes four buildings containing 108 units: one building is 3-stories and three buildings are a ¾ split configuration and all have a maximum height of 30.5 feet (44'3" to the top of the roof peak). Plans propose a mix of 1-bedroom (24 units), 2-bedroom (60 units) and 3-bedroom (24 units) layouts.

Access, Sidewalks, Parking: Vehicles access the site from Greymont Lane, which is within the Buncombe County jurisdiction and is proposed to be improved to 18 feet with 18 inch curb and gutter. No secondary access point is shown on plans.

Greymont Lane circles through the site and into the COA portion of the project, terminating in a parking area with a total of approximately 198 parking spaces, including six accessible spaces. Also, 10 bike parking spaces are provided, distributed among the buildings.

There are no sidewalks shown along the portion of the property fronting on Sardis Road, which is the only COA right-of-way frontage, nor are there sidewalks proposed along the access

road (Greymont Lane). There are internal walkways within the site, linking the parking area and buildings.

Landscaping & Open Space: Landscaping is required for this project and includes street trees, parking lot landscaping, building impact landscaping and tree save area. There is a significant area of the site that will not be disturbed due to a required stream buffer and existing vegetation within this area may be used to satisfy some landscaping requirements if needed.

Fifteen percent of the total lot area is required to be dedicated as open space, which would be approximately 76,909 square feet for this site. Just over that minimum is provided, with 76,980 square feet shown on the plans (or approximately 1.77 acres).

There are two retaining walls on the City's portion of the site, showing a maximum height of 17 feet. Aesthetic treatment or landscaping is required for all walls over eight feet in height, according to Section 7-10-5 of the UDO.

This proposal was approved with conditions by the Technical Review Committee (TRC) on July 21, 2014, and requires review by City Council and Final TRC prior to zoning approval.

The Planning & Zoning Commission reviewed this request at their meeting on August 6, 2014, and ultimately voted to support the request by a vote of 4-3 with an additional condition that the applicant provide an accessible walkway for visually-impaired residents to connect with the IFB property adjacent. At the meeting, Commissioners in support of the project felt that:

- The addition of rental units in this part of town was a needed element,
- That the proposed density on the "buildable area" (as presented by the applicant) was sufficient,
- That the industrial suitability of this particular site was low and
- That the pending approval of the County piece supported the development of the City portion.

Commissioners in opposition to the proposal:

- Wanted to see hard numbers on how many units would be provided for visually-impaired residents (*the applicant stated at the meeting that these units are something they are planning to provide but haven't worked out the details yet),*
- Wanted to know what the actual rents would be *(at the meeting the applicant indicated that their rents would be at or below workforce levels as established by the City of Asheville but haven't established numbers yet),*
- Did not believe they had received any conclusive evidence that the site isn't well suited for an industrial use and
- Felt that the site itself was not compatible with a residential use due to the lack of typical residential-infrastructure in the immediate vicinity.

No communication has been received from the public as of the writing of this report.

Zoning: The proposal requires a change in zoning due to the fact that the maximum residential density in the Industrial district is only 2 units per acre and would result in only approximately 24 units allowed on the City portion of the site. The current proposal for 108 units on 11.8 acres is approximately 9 units per acre.

Per the applicant, only 6.8 acres of the site is buildable due to restrictions from the Progress Energy easement and stream buffer. The applicant contends that therefore their proposed density should be considered as 16 units per acre (or further contends that the "buildable area" should only include the 5.05 acre portion of the site to the north of the stream,

resulting in a density of around 20 units per acre). Staff disagrees with this analysis presented by the applicant at the Planning & Zoning Commission meeting and retains the 9 unit per acre determination because while a (horizontal) portion of the site might not be buildable, staff practice does not factor out encumbered areas on a site when determining density. An applicant could use those existing site constraints as a justification to request additional height and build "up" rather than "out" to maximize the allowed density on a parcel.

There was some internal discussion whether to apply the conditional rezoning request to the entire City parcel as RM-16 or to leave the "flag pole" currently zoned as CI as is. With the entire site as RM-16, any future redevelopment on the CI-zoned sites to the north and the Industries for the Blind site would be required to include a 20 foot landscaped property line buffer. This is required by the UDO whenever non-residential development is proposed adjacent to residential uses and is an appropriate mitigation tool; however it does result in a burden to that industrial development that would not apply if this land stayed zoned CI. It is worth noting that the "flag pole" portion is encumbered by a 70 foot wide utility easement which essentially acts as a buffer already.

Conversely, leaving the CI zoning in place results in a split-zoned parcel which is not ideal and would result in setback discrepancies. The City generally seeks to avoid creating split-zoned lots and the application is proceeding with a full site rezoning request as shown on plans.

Industrial Suitability: At the Planning & Zoning Commission hearing, the applicant's stance was that the site is not suited to an industrial use due to the access and size of the resulting buildable area (as described above). Staff finds that a parcel of this size, access and topography is not unsuitable for uses allowed in the Industrial zoning district, based on an analysis of existing industrial parks throughout the City and Buncombe County. There are a variety of sizes of sites currently active with industrial uses across the region, ranging from less than one acre up to 19 acres, with varying topography and with similar access on two and three-lane roads.

Recent Zoning Actions: The most applicable zoning actions related to this project are not necessarily geographically-related but more so of a similar zoning nature. However, notable projects in the area include the Franklin School of Innovation (Level I – under review); the Buncombe County Intermediate School and the larger piece of this residential development within the County.

Relating to zoning, most recently City Council approved a conditional rezoning from IND to RM-16 for the development of a multi-family apartment complex on Sweeten Creek Road (The Avalon; 5-2 vote, February 2014). While this request was ultimately approved by City Council, it was not without considerable discussion regarding balancing the loss of industrially-zoned land and the need for projects to meet City goals on residential density and affordability.

Compatibility Analysis: Zoning and uses adjacent to this site include CI to the north (vacant parcel, metal roof manufacturing, heating and cooling contractor); IND to the east (Industries for the Blind); Buncombe County R3 to the south (vacant, proposed extension of this residential development) and Buncombe County EMP to the west (Progress Energy sub-station). Along the northwest property line is a 70 foot wide high power transmission line easement. The current uses in the immediate vicinity are not definitively incompatible with a residential development; however the context is generally thought of as having a low level of compatibility.

The proposed development is located back off of Sardis Road behind and among industrial and manufacturing uses. Per submitted plans, there are no sidewalks proposed along Buncombe County's Greymont Lane and no sidewalks exist along Sardis Road either, which otherwise could get residents safely out of the complex. When staff is evaluating the suitability of an area for a new use, the analysis includes examining factors such as whether or not there are community amenities and infrastructure that would be found in a typical residential area and the

answer is no, not at this time. Outside of the immediate area there are neighborhoods and residentially-supported community uses (library over a mile away, proposed intermediate school approximately 0.5 mile away, Buncombe County Sports park over two miles away) however the lack of sidewalks or transit is not conducive to safe pedestrian or bike access to these uses.

City staff did another analysis of over 50 sites throughout the City and Buncombe County and found many active, successful industrial uses and manufacturing operations. A lot of the sites have very small parcels and similar access. We found that the average parcel size was 5 acres, and this site is 11.8 acres. Staff felt that even with the challenges of stream buffers and small pockets of steeper slopes, it would still be suitable in terms of size and access for an industrial use.

Conditional Zoning Findings: Section 7-7-8(d)(2) of the UDO states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. *That the proposed use or development of the land will not materially endanger the public health or safety.*
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. *That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.*
   The site has a stream bisecting it with significant wetlands and some existing vegetation. The proposed development protects the stream with a 30 foot buffer and preserves the wetlands and trees by incorporating this area into the required open space and tree save area. The natural features will be protected during the construction process. There are several retaining walls within the development to accommodate grade changes on the site (approximately 60 feet of vertical change across the site).

3. *That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.*
   The proposed use of the land for residential use is not expected to injure the value of adjoining or abutting property; with perhaps the only exception being that once the site is zoned residentially, adjacent properties would be required to install a landscape buffer along the common property line in the case of new construction or substantial improvement to their sites.

4. *That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.*
   While there are residential uses in the larger area (primarily westwards towards Biltmore Lake, over a mile from the site) the general area surrounding this project location along Sardis Road is not of a residential nature. The character is largely commercial and industrial, with predominant uses including car dealerships, truck rental, light industrial uses (metal roofing, plastic manufacturing) and the forestry service offices/garage. Prior to reaching the residential neighborhoods off of Sand Hill Road is the Jacob Holm Way industrial park and Coca-Cola bottling plant. Additionally, there is a 70 foot wide high power transmission line running along the northwest boundary of the proposed project.

Several proposed projects in the vicinity are more compatible with and supportive of a residential environment, such as the Buncombe County Intermediate School, Franklin School of Innovation and the larger County piece of this same development. Also, the proximity to AB-Tech Enka Campus and Buncombe County Sports Park is supportive of a residential use.

Ultimately, because of the existing non-residential nature of the immediate vicinity, the proposed use is not considered to be in harmony with the scale, bulk, coverage, density and character of the current uses in the area in which it is proposed. For reasons identified in the compatibility analysis above, even with the construction of the County-portion of the project, staff does not believe that this is an appropriate and harmonious location for a residential development at this time.

5. *That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.*
   As enumerated below, the proposal is not aligned with several key goals of the City's plans and policies, most notably the loss of industrial land and not maximizing residential density, the lack of dedicated affordable housing and locating a residential development in an area lacking in transit, pedestrian and bike access.

6. *That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.*
   The proposal has been determined by the TRC to have adequate water supply, police protection, waste disposal and similar facilities. Aside from those attributed to a personal vehicle, transportation facilities are lacking as the site is approximately 1.7 miles from the nearest transit stop (W2) at the Biltmore Square Mall and there are no sidewalks in the area.

7. *That the proposed use will not cause undue traffic congestion or create a traffic hazard.*
   A traffic impact study (TIS) is required because the volume of traffic is expected to warrant a study and is under review. The project is not expected to create a hazard or undue congestion based on the proposed plans, and the recommendations contained by the TIS.

Compliance with Comprehensive Plan: One of the smart growth principles in the Asheville City Development Plan 2025 highlights the importance of [infill] development where infrastructure can be easily provided. Also there are comments within the Plan relating to schools as "places of...important neighborhood and community centers." There are two new schools proposed in close proximity to this site. However, the Plan does stress the importance of linking residential neighborhoods, schools and residential amenities with safe pedestrian and bike access and this location is lacking in that regard.

Also in the Plan is a recommendation for residential projects to have a higher density, especially able to support transit and the future expansion possibilities of the Asheville Regional Transit system (currently no City transit routes run along Sardis Road). This proposal is at just around 9 units per acre (when taking into account the full acreage, as staff does as standard practice to determine maximum residential density) which is at the low end of the minimum density determined as necessary for optimum transit performance and doesn't maximize the density potential for the site.

Affordable housing options are highlighted throughout the Plan as a strong community need; and as of the writing of this report, no dedicated affordable or workforce rents are proposed.

One of the City of Asheville's adopted Smart Growth Land Use policies noted in the Plan states that Industrially zoned land should be reserved for industrial purposes and not lost to lower density development. The proposed conditional rezoning does not comply with this policy. Additionally, the Sustainable Economic Development Strategic Plan (2000) notes that the shortage of industrial sites within the City as an area of potential concern, stating that the City should seek to ensure the availability of suitable sites will meet the business needs of the City into the future. Staff's analysis is that the size, access and slopes/encumbrances on this site are comparable to other industrial areas and do not impede its suitability for industrial uses.

City Council's adopted goals for 2014-2015 stress expanding Asheville supply of affordable housing and maintaining a high quality of life for residents. This project does not offer any dedicated affordable units and there is some question as to whether locating residential uses in an area surrounded by non-residential and industrial uses is the most ideal location to enhance quality of life. Additionally, Council has a goal on expanding the supply of housing and this proposal does not maximize the residential density in the proposed zoning district. Additionally, one of Council's strategic goals is to support economic growth and this rezoning would be a loss of scarcely available industrial land; a loss of land on which to locate a business that has the zoning in place to attract private investment and create jobs.

Based on the above findings and the analysis provided in the report and as stated in the recommendation below, staff does not find this request to be reasonable, consistent with the comprehensive plan or within the best public interest.

Considerations:

- The Comprehensive Plan, as well as the Sustainable Economic Development Strategic Plan, includes a stated policy to preserve Industrially-zoned land for industrial uses and ensure the availability of sites for future business needs. Staff's analysis has found that the size of and access to the site is not inconsistent with other industrial uses through the City.
- Application does not propose to dedicate any units as affordable, which is a clearly stated goal for the City.
- The residential density is at the low end of the optimal density for supporting transit or maximizing the site.
- The project preserves sensitive environmental area through the stream buffer.
- There are two new schools proposed in the vicinity and residential amenities nearby, which this proposal could support *(however there is not safe pedestrian or bike access along Sardis Road nor transit)*.
- The larger portion of the overall project has been approved by the County, which would bring residential into this industrial area regardless of City support.

Based on policies stated in the Comprehensive Plan and other plans, as well as direction provided by City Council in recent policy discussions, staff cannot recommend support of the proposed rezoning. With the concern over the loss of Industrially-zoned land for a proposal that does not substantially align with City Council's adopted strategic plan goals, the basis for support is low.

However, both the Planning and Zoning Commission and City Council have supported similar rezoning actions in the recent past and the EDC did not pose strong objections to the proposal when consulted. City Council may consider this rezoning independent of the existing policies. While staff still does not support approval, should Council decide otherwise, staff strongly recommends that the conditions be requested of the applicant in order to allow the application to further some important City policies and the public interest.

Pursuant to Section 7-7-8 of the UDO, the conditions pertaining to this application must be mutually agreed upon by both the applicant and City Council. The applicant has not agreed to the suggested Conditions 2, 3, 4 and 11 (m) outlined below.

1. Approval is for a 108-unit apartment complex contained in four buildings with 24 one-bedroom units, 60 two-bedroom units and 24 three-bedroom units, in accordance with the attached site plan.
2. *WORKFORCE RENTS – All units will be offered at the workforce maximum or lower. The workforce rent limits are according to income standards determined by the City of Asheville Community Development Department.*[1]
3. ACCESSIBLE UNITS – *The project will provide at least 20 units specifically for visually-impaired residents.*[2]
4. ACCESSIBLE WALKING PATH TO ADJACENT LOT – *The applicant will provide an accessible walking path from the residential structure(s) to the Industries for the Blind facility adjacent to this site.*[3]
5. There are 198 parking spaces with six accessible spaces and 10 bicycle parking spaces.
6. Signage shall be separately permitted and shall meet the standards of the City of Asheville Sign Ordinance (Article XIII of Chapter 7 of the Code of Ordinances).
7. All site lighting must comply with the City's Lighting Standards (Section 7-11-10 of the Code of Ordinances). Proposed lighting plans must be submitted at Final TRC.
8. All landscaping must meet the minimum size requirements set forth in Section 7-11-3(f)(3) of the UDO. All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans.
9. The applicant is providing 76,980 acres of open space and thirty-percent of the lot as tree save area. There is a 30-foot stream buffer in the open space area.
10. Retaining walls will comply with aesthetic treatments or landscaping as required in Section 7-10-5 of the UDO.
11. The project shall comply with all conditions outlined in the TRC staff report as indicated below:
    a. Street trees are required along all road frontages (Sardis Road) per 7-11-3.
    b. If required, the applicant must obtain driveway permit and encroachment agreement from NCDOT. Submit the driveway permit package, which includes four sets of plans and applications, to the Planning Department to be forwarded to the Transportation & Engineering Department *(Ted Williams)* for signatures and the City will then forward them to the appropriate NCDOT office.
    c. If required, all driveway connections to public streets must conform to City of Asheville Std. Detail 3.15A including 42 inch corner radii. Include the appropriate detail on the plans. ADA accessibility must be maintained through the driveway.
    d. Sidewalk and curb and gutter construction is required for property frontage along Sardis Road. Sidewalk must be 5 feet wide with a 5-foot wide buffer strip between street and sidewalk. A 10-foot wide easement/right of way area, centered on the sidewalk, is required for sidewalk maintenance. Revise plans accordingly. Sidewalk requirements along Sardis Road must be met through construction of the sidewalk or via a recorded easement and payment of a fee-in-lieu.
    e. Bicycle racks must support the bicycle frame in at least two places, allowing the frame and wheel to be locked using a u-lock or cable lock; prevent the wheel of the bicycle from tipping over; not damage the bicycle; be durable and securely anchored; and allow front in or back in parking. Inverted "U" racks or "A" racks, as well as some other designs, meet this requirement. Detailed information may be obtained from Barb Mee at (828) 232-4540.
    f. Access drive must meet all applicable codes and be a minimum of 20 feet wide.
    g. Accessible routes within the site shall be provided from public transportation stops; accessible parking; accessible passenger loading zones; and public streets or sidewalks per 1104.4
    h. Per 1107.4 At least one accessible route shall connect accessible building or facility entrances with the primary entrance of the (residential buildings and with those facilities that serve the units; dumpster, club house, playground etc.)- If taking exception 1; please indicate the slope of the finished grade which makes

this requirement *technically infeasible.*

i. Accessible parking count does not comply with the requirements of NCBC Section 1106.2. This is a parking requirement above and beyond those found in table 1106.1; by my calculations you should have 15 HC parking spaces dispersed among the parking areas at the apartment buildings.
j. The parking area adjacent to the playground should also provide HC parking. "Where parking is provided, accessible parking shall be provided" Ref Section 1106.1
k. All required exits to provide an accessible route to the Public Way or a Safe Dispersal Area per section 1027.6 of the 2012 NCBC. It is likely that the residential buildings will have more than one point of egress; please coordinate the egress locations with the Architect and provide additional sidewalk as needed.
l. Based on current Emergency Operations Center CAD mapping system Buncombe County emergency services will respond to and serve all buildings with Greymont Ln street address assignments.
m. Single access road only approved if ALL buildings are sprinklered using NFPA 13 standard.
n. Show turning radius for fire trucks.
o. Hydrants to be no further than 600' from building.
p. FDC to be within 100' of hydrant.
q. Water Engineering will perform an independent review of the plan for water service for this project. Applicant should follow the Plan Review process described on Water's Home Page.
r. Specific grading, erosion control, stormwater and/or flood plan review comments are not covered under this zoning review and will be covered under separate permit review. Separate grading and stormwater permits will be required and applications shall be submitted concurrent or prior to submittal of TRC final plans. Detailed plans and calculations will be required with the Permit Applications. Any revisions or re-submittals are to be submitted to the Development Services Department per the instructions at the end of this letter.
s. Quality and quantity stormwater management <u>will</u> be required for this project in accordance with Section 7-12-2 of the City of Asheville Unified Development Ordinance.
t. Stormwater BMP's must comply with the requirements of the City of Asheville Unified Development Ordinance, Section 7-12-2, the City of Asheville Standard Specifications and Details Manual and the NCDENR Stormwater BMP Manual unless otherwise approved by the Stormwater Administrator.
u. Please note that there appear to be jurisdictional streams and wetlands in the proposed area of work. Copies of the Corps of Engineers 404 and NCDENR 401 Permits for work within jurisdictional waters will need to be provided to the City of Asheville, Development Services Department prior to release of Grading and Stormwater Permits.
v. An NCDOT Driveway Permit and/or Encroachment Agreement will be required to perform work within an NCDOT maintained right-of-way. Copies of any required permits must be submitted prior to release of the Grading Permit.
w. A pre-construction conference will be required for this project. The conference will be scheduled after all City departments have completed their review, and after any required Grading, Stormwater and Flood Permits have been approved.
x. A security for re-vegetation is required for all land-disturbances which will exceed five acres. The security shall be in the form of a construction bond or letter of credit and must be provided prior to issuance of the grading and stormwater permit. The security shall be sufficient to re-vegetate proposed disturbed areas and must be valid for one year from the issuance of the permit and be updated throughout the process. The City of Asheville has set the re-vegetation amount at $3,500.00 per acre.

y. Setback from existing adjacent property and right-of-way lines for retaining walls and constructed moderate and severe slopes must be at least equal to the height of the retaining wall or slope, unless a subsurface exploration analysis of the area is provided by a North Carolina registered professional engineer with geotechnical expertise and the analysis indicates that the reduction in the setback will not cause greater risk of damage to adjacent public and private properties.

z. A wastewater allocation approval has been issued for this project. A sewer extension and separate review is required for this project. Recommend approval with conditions that applicant completes all the requirements listed on the allocation approval letter and complies with any other comments during plan review.

aa. A sewer service application for each building along with payment of applicable fees will be required prior to release of building permits.

bb. Certificates of occupancy will be held until sewer extension project has been completely closed out by MSD.

12. The project will undergo final review by the TRC prior to issuance of any permits and compliance with the items listed above will be required at that time.
13. A planning inspection is required prior to obtaining a certificate of occupancy. This inspection should be scheduled through the Development Services inspection line.

She explained that Conditions 2-4 were statements made by the applicant to the Planning & Zoning Commission on different aspects they would put into the project but unwilling to commit to them. Regarding workforce rents, the applicant stated that all of the units would be at the City's workforce maximum or lower, but when staff asked the applicant to commit, they would not. Accessible units were discussed as the site is adjacent to the IFB. The applicant is planning to incorporate specific units into the development that were for visually impaired residents. The Commission felt that would be a great benefit, so staff asked them to state how many units they would dedicate, but they were unwilling to commit to a specific number of units. Staff suggested 10 units. Regarding the walkable path, the applicant stated that they wanted to put in a walking path from the development to the IFB site. Staff recommended it be an accessible walking path, given the path was specifically for the visually-impaired residents. The applicant has agreed to provide a walking path, but not commit to making it an accessible walking path. Regarding Condition 11 (m), typically with this number of units, the City would require two points of access, so in lieu of providing two points of egress, because there is only 108 units in the City, it would not trigger two access points, but the overall project would trigger 2 access points. The Fire Department has recommended that when you only have the one access point is to do the NFPA-13 sprinkler standard. But, because it is not technically required because Council is only looking at the City's portion of 108 units, that is just a suggestion. She did note that although the County's portion is not under City Council's review, the City contracts with the County to provide the fire protection in this area, so essentially from the fire protection standpoint, they are all the City's units to protect.

Mr. Lou Bissette, attorney representing the developer, explained the IFB's need to be in a position to market their property. He said that he has the utmost respect for Planning staff; however, he disagreed with their recommendation on this project. He said Buncombe County has just approved the construction of 248 units on their property. He is now asking for City Council to approve 108 units on 11.77 acres of adjacent land in the City's jurisdiction. The estimated investment in the City by the developer will be approximately $10 Million for the 108 units. The need for multi-family housing in Asheville and Buncombe County is great. The Sardis Road corridor is primarily rural in nature but is becoming a rapidly growing area in our community. There are two new schools going in across from this site, the Buncombe County Sports Complex is nearby and the Asheville Outlets will be employing 1,500 people, which will need places to live. The Planning & Zoning Commissioner Jim Edmonds stated that they need this type of housing in his community. In addition, the Chairman of the Planning & Zoning Commission Jeremy Goldstein said that as a commercial realtor he didn't see any economic benefit from the site for a

very long time if it remains industrial, and that the City would benefit from the development by gaining the apartments plus needed tax revenues if rezoned. Mr. Bissette said that the property is not suited for an industrial designation. Out of the 11.77 acres, only 5.5 acres are suitable for construction. The other acres are either under the power lines or in the wetlands. Using a map, he showed that even the 5.5 acres has several severe slope issues, which will require extensive grading and retaining wall construction. He recently talked with Mr. Ben Teague, Vice-President of Economic Development for the Chamber of Commerce, who thanked Council for trying to retain industrial land in the City of Asheville. He also said that Mr. Teague said that this property is totally non-competitive and supported the rezoning. Mr. Teague said that the Chamber doesn't even market that site as its grade would be low and very uncompetitive for their clients. He said that there are at least 20 IFB employees who have indicated an interest of renting units in the Greymont Village Apartments. Discussions have taken place for many months between the developer and IFB about upfits what would be appropriate for blind and visually-impaired tenants. In addition, the two parties have agreed to an acceptable walking path from the Greymont property to the IFB plant. Regarding the affordability of the units, the rates are planned to be reasonable and affordable for a broad range of our citizens. Using a graph, he showed the workforce/current market/affordable housing rates. He said the City's maximum affordable rent for workforce housing is 1-bedroom - $1,267; 2-bedrooms - $1,418; and 3-bedrooms - $1,563. Although they cannot commit to dedicated rental rates due to a number of issues (including financing), if the development opened tomorrow, the leasing rates would be as follows - 1-bedroom - $846; 2-bedrooms - $923; and 3-bedrooms - $1,409. All those rates are well below the maximum workforce housing rates. The development will not come on-line for at least two years and the developer is not prepared to commit to rental rates. He explained why he felt the project does meet all seven conditional use standards. He urged City Council to support the rezoning request.

Mayor Manheimer opened the public hearing at 6:35 p.m.

Mr. Patrick Bradshaw, representing Civil Design Concepts, said that on the building area of 5.5 acres, it will require about 30 feet of retaining wall to even get the 5.5 acres suitable. He felt that while the property is industrially zoned, from an engineering perspective it is not industrially suitable. Regarding the sprinkler system, he said that NFPA-13R speaks to residential units. All the occupied spaces are sprinklered. The primary difference between NFPA-13R and NFPA-13 draws a line between life safety. Both are on an equal footing on a life safety prospective. NFPA-13 speaks to property coverage (sprinkling unoccupied spaces, i.e. attics). Based on other projects constructed by the developer, NFPA-13R is very much the norm. He said there is a true dollar sign attached to the NFPA-13 standard.

Mr. Randy Buckner, Director of Operations for IFB, gave an overview of the IFB. He explained how this is a very important project and if rezoned, it will allow them to finish their work on their capital campaign projects to improve the quality of life for their employees. They have 20 employees who are interested in relocating to the residential development, which will save them in transportation costs to and from the IFB. The developer has agreed to make a blind-friendly walking path, which will not cross any traffic. The developer has also agreed to work with the Low Vision Department to make some of the units more blind-friendly. He urged City Council to approve the rezoning.

Mr. Charles Pine, Chairman of the local IFB Advisory Board, explained the other capital projects that would be built for their employees. If the land is sold, it will allow them to give their employees what they need. He supported the rezoning.

Ms. Kendra Penland, member of the IFB Advisory Board, explained how IFB serves a critical purpose. The sale of the property (if rezoned) will allow them to expand their operations, retain and add new employees. It's about quality of life.

Ms. Lucille Mahoney, employee at IFB, spoke about the wonderful organization of IFB. She urged the Council to rezone the property as it will be a wonderful convenience for any employee who lives in the residential development.

Brother Christopher Chiaronmonte agreed that it was important to keep industrially-zoned land, but felt that if the property is rezoned, that the developer commit to the number of blind-friendly apartments.

Mayor Manheimer closed the public hearing at 6:55 p.m.

In response to Vice-Mayor Hunt, Mr. Buckner said that they do have (1) an agreement with the developer for a suitable walking trail between the plant and the residential development; (2) an arrangement for a significant number of units that the developer will make blind-friendly; and (3) an agreement that there will be a preference for the IFB's employees for the blind-friendly units. Vice-Mayor Hunt felt that those items can be managed between the IFB and the developer and the City doesn't need that assurance.

In response to Vice-Mayor Hunt, Mr. Buckner showed a map outlining where the expansion of the IFB can occur to handle their future needs.

Vice-Mayor Hunt, member on the Economic Development Coalition Board, said that there there is an indication that over the next five years this community does not have industrial sites sufficient to entertain the kind of growth and jobs that we have had over the past five years. Our greatest deficiency is industrial land. We must be able to provide sites for companies to employ people. However, based on the Mr. Teague's statement that this site is not suitable for industrial development, he would support the rezoning. He will, however, work hard to reorganize our zoning to know where those industrial sites are located and defend the zoning of them in the future.

Vice-Mayor Hunt moved to approve the conditional zoning request for Greymont Village Apartments on Sardis Road from Commercial Industrial and Industrial to Residential Multi-Family High Density-CZ, based on the site plan and conditions in Exhibit B.1 agreed upon by the applicant (minus 2, 3, 4 and 11 (m)), and find that the request is reasonable, in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) The project adds needed residential rental units to the City; and (2) The project preserves sensitive environmental area through the stream buffer.

City Attorney Currin wanted to make sure that Mr. Bissette agrees to the condition that the approval is in accordance with the site plan attached to the staff report. Mr. Bissette agreed with that condition.

Mr. Bissette said that the conditions not agreed to are Conditions 2, 3, 4 and 11 (m). Again, he said that their market rents are well below the workforce maximum rents. They are not agreeable to committing to those rents. They are also not willing to dedicate a certain number of units since they don't know what will happen in 5-10 years. They have agreed to make the units blind-friendly but don't know what the word "accessible" means. Regarding the walking path, they have agreed to construct a walking path, but again, they don't know what "accessible" means. Regarding the sprinkler system standard, the developer has built hundreds of apartment complexes and they have never used NFPA-13 - always NFPA-13R. He was told that the City's Fire Marshal agreed that there was no difference in life safety between the two standards. The problem for them is the NFPA-13 standard is so much more expensive - the difference between NFPA-13 and NFPA-13R represents $750,000 in additional costs.

In response to Mayor Manheimer, Development Services Director Shannon Tuch explained that with a large portion of the development not being in the City's jurisdiction, there is a question about whether or not the City can consider the portion of the property that is not in our

jurisdiction. There was some concern about whether we could call it one development or if we needed to limit ourselves to just the portion of the property that is within the City limits. But, as Council has heard earlier, the City will be responsible for providing the fire protection services in that area. From a technical standpoint, we were prepared to stay it would not be required because we would be limiting ourselves to the 108 units that are in the City's jurisdiction, however, looking larger, and in an effort to meet higher City goals to provide adequate service in that area, we would require the NFPA-13 standard for the project as a whole through the conditional zoning. If 200 units were in the City's jurisdiction, there would be no question - it would be required.

Councilman Smith was pleased to hear about the proposed lower rents and noted they are about 82% of medium rents. He was puzzled that there have been many developers that have come before Council that have been able to commit to rent rates. He wondered if there was an openness to committing to 82% of medium, so it can move with the market, or with the base rates suggested being able to adjust those upwards 3% per year to create some kind of commitment. Since we are going to lose this industrial land and help the folks who most need it, he would want us to have a commitment in place. Without a commitment, he did not think he could support the rezoning.

Mr. Dennis Burton, land development manager representing the owner, said that it's only a good business decision to work with the people close by. As far as affordable housing, they cannot have any economic restrictions on the units based on how this project was put together initially. The owner is receptive to enter into discussions about partnering with the City to build affordable housing on another site. They are a market rate developer and those are the current market rates we have in this area. Regarding the NFPA-13 vs. the NFPA-13R, he said this is not a life safety issue. The additional cost for the NFPA-13 will raise the pro forma of this site and it will be a deal-killer.

Councilman Bothwell was concerned about the loss of industrially-zoned land. He noted that land values change a lot over time and what was not buildable in 1920 is buildable in 1970. He did not believe that this is not a good industrial site. If you can put up retaining walls and build an apartment complex, you can put up retaining walls and have an industrial site. He is also troubled about the lack of commitment to the cost of the units. Conditional zoning is to get something good for the community. Other developers are able to commit to 10-years for some framework for the rents. Regarding the fire protection, he suggested a second access be constructed. He could not support the rezoning request.

Councilwoman Wisler understood that the developer intends to do the right thing with rents, but since he won't commit, it puts City Council in a bad position in the future. She could not support the rezoning.

Councilman Pelly believed the development is in the wrong location. City Council is prepared to commit to rezone the property; however, he could not support the rezoning if the developer is not willing to make a commitment in return.

Councilman Davis felt this apartment complex will be built in an area of town with no affordable housing. He felt the area will grow. He felt that the funds generated from the sale of this land will allow them to complete some of their capital projects. The County has already approved their portion of the project, and felt this is an opportunity for the City. He will support the rezoning.

In response to Mayor Manheimer, City Attorney Currin said that if the project is voted down by City Council, there is a one-year waiting period before the project can be brought back for review, unless the project is substantially different.

Mr. Bissette said that they will be willing to work on some of the outstanding issues and hoped that the City will reciprocate.

Vice-Mayor Hunt withdrew his motion.

Councilwoman Wisler moved to continue this matter until October 14, 2014. This motion was seconded by Councilman Bothwell and carried unanimously

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 14-209 - RESOLUTION ADOPTING THE RIVERSIDE DRIVE DEVELOPMENT PLAN

Urban Planner Stephanie Monson Dahl said that this is the consideration of a resolution adopting the Riverside Drive Redevelopment Plan

In 2013, The City of Asheville hired a team led by Heritage Directions, LLC, to identify redevelopment strategies for ten acres of underutilized City owned land in the heart of the City's River Arts District Transportation Improvement Plan (RADTIP) project area. The plan is complete and has been reviewed by staff, the Asheville Area Riverfront Redevelopment Commission, and the Planning and Economic Development Committee of City Council.

Plan Summary

The Riverside Drive Development Plan (RDDP):

- Recommends that the preferred renovation strategy for 14 Riverside Drive- an existing 1900 square foot building just to the north of 12 Bones restaurant- revolve around providing visitor amenities such as public restrooms and district information, and providing a place where one can always find some arts and culture programming happening
- Recommends an open space concept plan for several acres of city owned riverfront, just south and north of existing Jean Webb Park, that aligns with the RADTIP plans, leverages the arts and culture character of the district, and provides attractive improvements to stormwater management/water quality
- Presents four massing scenarios (with corresponding fiscal analyses sketches) for new mixed-use construction, centered around the historic smokestack and former Ice House site, that suggest the potential direction for a feature redevelopment partnership
- Suggests improvements in circulation, arts and culture, preservation, and environmental stewardship that helps tie the redevelopment effort together.

Key Recommendations/Policy Considerations from the Plan

The consultants have identified the following as integral to the success of the plan:

- RADTIP implementation
- Careful development of riverfront open space amenities and greenway between 12 Bones and the Captain Bowen Bridge
- Creation of better connections between New Belgium Brewing and Riverside Drive open space
- Installation of River District Wayfinding and Orientation for visitors
- Design and construction of a parking garage that connects to Roberts Street from Riverside Drive
- Coordination and construction of a flood zone sensitive piece of infrastructure called the Pedestrian Transition Zone
- Development of better regulations for the area such as a Form Based Code with design guidelines

- Speedy renovation of 14 Riverside Drive as a community and visitor resource
- Maximizing the City's development potential on property designated for higher density mixed use buildings
- Encouraging partnerships with nearby landowner and stakeholders to leverage the City's land resource and create better development opportunities.

Community and Advisory Board Engagement in the Plan

- The consultants had over sixty points of contact with the public which ranged from individual stakeholder meetings to widely publicized public engagement efforts on site (at 14 Riverside Drive)
- A final public presentation occurred on March 18 at the Rev. Wesley Grant Sr. Southside Center
- The AARRC has received multiple plan updates and received a presentation on key findings for the final draft in March 2014; the Planning and Design Review subcommittee of the Commission reviewed and provided edits to the plan.
- The AARRC, at their at their August 14, 2014, meeting, voted unanimously In favor of the following motions:

  1) *"We advise City Council to adopt the Riverside Drive Development Plan as presented.*

  2) We advise City Council to adopt the Riverside Drive Development Plan as an update to the City's adopted Wilma Dykeman RiverWay Master Plan, and adopt it as a plan that shall stand on its own, a plan not to be excluded from use if the Wilma Dykeman RiverWay Master Plan becomes outdated.
- At their regular August 19, 2014, meeting, PED members, after receiving a presentation and asked clarifying questions of staff and the lead project consultant, voted unanimously to recommend that Council consider adopting the plan as recommended.

Alignment with Strategic Operating Plan:

This plan, if adopted, can be a significant contributor to achieving goals set in Council's 2014-2015 Strategic Operation Plan. The plan:

- Will help implement the Economic Development Capital Improvement Plan (Goal 1, under Economic Growth and Sustainability): The RDDP provides recommendations on how to program, design and construct the open space and greenway portions of the RADTIP, a signature initiative within the City's EDCIP.
- Will help the City invest and leverage investment in community infrastructure (Goal 2, under Economic Growth and Sustainability): The RDDP evaluates ten acres of City owned property to determine its best use; evaluation of City owned property is an action item outlined under this Council goal.
- Directly addresses Goal number 3 in Economic Growth and Sustainability, i.e. it suggests economic development and community investment opportunities through partnerships, planning and incentives.
- Provides financials for staff to evaluate how to " work with developers to increase production of affordable housing units by providing financial assistance and other development incentives" which is an action item under Goal 1 for Affordability and Economic Mobility
- Promotes redevelopment that prioritizes "transportation that supports and multimodal system, including walking biking, greenways and transit," an action item for Goal 2 under the High Quality of Life focus area.

Pros:

- The adoption of this plan as an update to the Wilma Dykeman RiverWay Master Plan reaffirms the City's commitment to professionalism in planning by promoting the regular review and update of adopted plans for current relevancy/alignment.
- The adoption of this as a stand-alone plan sends a clear message to citizens and other stakeholders that their vision for this section of the riverfront will be considered by elected

officials, and that the City continues to commit to riverfront revitalization as an economic development initiative.
- An adopted plan is a tool for local governments to further partnerships and pursue funding opportunities for implementation of the plan.

Con:
- None

While the adoption of this plan will not have a fiscal impact on the City's budget, there are many recommendations within the plan that could have an impact on future City budgets. Staff recommends that Council consider asking staff to work with PED on the review of a recommended implementation schedule, including review of any potential future fiscal impacts.

City staff recommends City Council adopt the Riverside Drive Development Plan as an update to the Wilma Dykeman RiverWay Master Plan and as a stand-alone plan to be used to guide economic development. Staff proposes that, if Council adopts the plan, that staff return to PED with an implementation schedule and other analyses for PED review

Mr. Tom Gallagher, consultant, hoped that City Council would adopt the plan as an amendment to the Wilma Dykeman RiverWay Master Plan. He hoped that Council would (1) develop a RAD-specific form-based code; (2) maximize the redevelopment potential for both the open space and developable land; and (3) encourage creative partnerships.

Mayor Manheimer opened the public hearing at 7:57 p.m.

Ms. Pattiy Torno, Chairman of the Riverfront Redevelopment Commission, spoke in support of the Plan and hoped that whenever there are discrepancies between the Wilma Dykeman Plan and the Riverside Drive Development Plan, that the Riverside Drive Development Plan will be followed, because it is more current. She also felt it was time to do a River Arts District Master Plan.

Mayor Manheimer closed the public hearing at 8:01 p.m.

In response to Councilman Smith, Ms. Monson Dahl explained the promising relationship with Norfolk Southern.

Councilman Smith supported massing on the land in order to meet the needs outlined in the Plan. He was also in favor of the 2% budget for art.

Vice-Mayor Hunt said that regarding the rehabilitation of 14 Riverside Drive that one of the first things we should construct are restrooms.

Mayor Manheimer was very pleased that his Plan is a product of the community.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 14-209, and that the Riverside Drive Development Plan be used as an update to the Wilma Dykeman RiverWay Master Plan and as a stand-alone plan to be used to guide economic development. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 348

RESOLUTION NO. 14-210 – RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

66

Vice-Mayor Hunt, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Affordable Housing Advisory Committee.

The terms of Allison Bond, Jayden Gurney, William Irby, Brian Alexander and M. Mae Creadick expired on September 1, 2014. There also currently exists a vacancy left by Ms. Allison Bond, whose term expired on September 1, 2014.

The following individuals applied for the vacancy: ,Randall Barnett, James Mastrogiacomo and Laura Simmelink.

On August 26, 2014, it was the consensus of Council to (1) reappoint Mr. Gurney and Ms. Creadick to each serve a three-year term, terms to expire September 30, 2017, or until their successors are appointed; and (2) interview William Irby, Brian Alexander, Randall Barnett, James Mastrogiacomo and Laura Simmelink. Mr. Alexander and Mr. Irby were not available to attend the interview.

After speaking about the qualified candidates, Mr. Irby received no votes, Mr. Alexander received no votes, Mr. Mastrogiacomo received 7 votes, Mr. Barnett received 7 votes, and Ms. Simmelink received 7 votes.. Therefore, James Mastrogiacomo, Laura Simmelink and Randall Barnett were each appointed to each serve a three-year term respectively, terms to expire September 1, 2017, or until their successors have been appointed.

In addition, Council confirmed reappointment of Jayden Gurney and M. Mae Creadick, to each serve a three-year term, terms to expire September 1, 2017, or until their successors have been appointed.

RESOLUTION BOOK NO. 36- PAGE 349

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Timothy Sadler brought to Council's attention a rogue cell phone tower that is not registered with the FCC.

Closed Session

At 8:11 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, lawsuits involving the following parties: Caledonia, LLC and the City of Asheville; Roger Aly and the City of Asheville. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To discuss matters relating to the location or expansion of industries or other businesses in the area. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(4). This motion was seconded by Councilman Pelly and carried unanimously.

At 8:57 p.m., Vice-Mayor Hunt moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:57 p.m.

Magdalen Burleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – September 23, 2014 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 15-OCTOBER 15, 2014, AS "HISPANIC HERITAGE MONTH"

Mayor Manheimer read the proclamation proclaiming September 15-October 15, 2014, as "Hispanic Heritage Month" in the City of Asheville. She presented the proclamation to Ms. Esther Chavez, representing Asheville Latin Americans for Advancement Society; and Ms. Norma Brown, representing Children First/Communities in Schools, who briefed the Council on some activities taking place during the month.

II. CONSENT AGENDA:

At the request of City staff, Consent Agenda Item D was removed from consideration.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 9, 2014

B. RESOLUTION NO. 14-212 - RESOLUTION AMENDING THE 2014 CITY COUNCIL MEETING SCHEDULE TO (1) ADD A WORKSESSION ON AFFORDABLE HOUSING/COMMUNITY DEVELOPMENT ON OCTOBER 14, 2014, AT 3:30 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM IN CITY HALL; AND (2) CANCEL THE SEPTEMBER 30, 2014, COMMUNITY MEETING

RESOLUTION BOOK NO. 36 - PAGE 352

C. RESOLUTION NO. 14-213 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A CONSERVATION EASEMENT AT 61 TERMINAL DRIVE TO THE CAROLINA MOUNTAIN LAND CONSERVANCY

Summary: The consideration of a resolution authorizing the City Manager to convey a conservation easement on 8.3 acres of real property along the French Broad River located at the Asheville Regional Airport to the Carolina Mountain Land Conservancy (CMLC) for conservation purposes.

The City of Asheville holds title to the real property at the Asheville Regional Airport, and leases that property to the Asheville Regional Airport Authority (Airport). In order to convey any interest in real property at this location, the City of Asheville must execute the deeds or easements of conveyance, and the FAA—in consultation with the Airport--must "release" the

property from FAA use restrictions. Because the property was acquired with FAA financial assistance, and has been held for use by the Airport, all financial proceeds associated with the real property disposition are subject to FAA regulations governing the allocation of these proceeds; specifically, proceeds of sale must be delivered to FAA as a reimbursement for the initial acquisition of said property or must be utilized for airport purposes in the same proportion as the initial contribution to the purchase price.

Airport Authority staff has been working with the Carolina Mountain Land Conservancy ("CMLC") to establish conservation easements on airport property along the French Broad River. The airport property that is being recommended for the conservation easement is within the flood plain/flood way of the French Broad River and therefore would have limited development possibilities in the future. The establishment of the conservation easements on airport property would help to tie together other property along the French Broad River to enable the development of a future trail system.

Carolina Mountain Land Conservancy proposes to purchase conservation easements on approximately 8.3 acres of airport property on the French Broad River. In accordance with FAA regulations, the easements must be purchased for fair market value. A grant in the amount of $107,000 has been awarded through the NC Clean Water Management Trust Fund to the CMLC for the acquisition of conservation easements on Airport property. Prior to acquisition, the NC State Property Office must approve an appraised value of the proposed easements.

Pro:

- This conservation easement will protect public lands with the floodway and support a future trail system along the French Broad River.

Con:

- None.

There is no direct financial impact to the City. All financial proceeds associated with the conservation easement are subject to FAA regulations governing the allocation of these proceeds; specifically, proceeds of sale must be delivered to FAA as a reimbursement for the initial acquisition of said property and/or must be utilized for airport purposes.

Economic Development staff recommends adoption of the resolution to convey an 8.3 acre conservation easement at the Asheville Regional Airport to the Caroline Mountain Land Conservancy.

RESOLUTION BOOK NO. 36 - PAGE 353

D. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH BLAKLEY CONSTRUCTION SERVICES LLC FOR THE NORTH FORK WATER TREATMENT PLANT DAM INTAKE TOWER AND CONDUIT REPAIRS PROJECT

E. ORDINANCE NO. 4343 - BUDGET AMENDMENT TO ACCEPT THE 2013 HIGH INTENSITY DRUG TRAFFIC AREA (HIDTA) GRANT FOR THE ASHEVILLE AREA HIDTA TASK FORCE

Summary: The consideration of a budget amendment, in the amount of $20,000, from the 2013 High Intensity Drug Traffic Area (HIDTA) grant, for which the Asheville Police Department will serve as the fiduciary for investigative special purposes for the Asheville Area HIDTA Task Force.

The High Intensity Drug Trafficking Areas (HIDTA) program was authorized by the Anti-Drug Abuse Act of 1988 and is administered by the Office of National Drug Control Policy. The original designation of five HIDTA sites in 1990 has expanded into more than thirty areas around the country. The HIDTA's mission is to reduce drug trafficking in the most critical areas of the country, thereby reducing the impact of illegal drugs in other areas. The Asheville HIDTA serves as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA. The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County Sheriffs Office, Henderson County Sheriffs Office and McDowell County Sheriffs Office. The Asheville HIDTA is a component of the Asheville DEA Task Force. The Asheville HIDTA has received $20,000 funding for investigative special purpose funds for which the Asheville Police Department will serve as the fiduciary.

Some recent successes of the task force, including some multi-state cases are; 1) Seizure the of 184 morphine and 484 Hydrocodone Tablets charging a subject or 5 counts of trafficking Opium; 2) Seizure of 1400 pounds of marijuana, 4 pounds of methamphetamine involving 11 individuals; and 3) Additional ongoing cases involving large distributers of crack cocaine involving gun and gang activities.

Pro:

- Federal HIDTA monies to cover the cost of investigative special purposes

Con:

- None noted

There is no impact to the City's General Fund budget. The grant funds will be received and disbursed through the City's Special Revenue Fund.

City staff recommends City Council to adopt the budget amendment to accept the HIDTA 2013 grant funds.

ORDINANCE BOOK NO. 29 - PAGE 230

F. ORDINANCE NO. 4344 - BUDGET AMENDMENT TO ACCEPT THE 2014 HIGH INTENSITY DRUG TRAFFIC AREA (HIDTA) GRANT FOR THE ASHEVILLE AREA HIDTA TASK FORCE

Summary: The consideration of a budget amendment, in the amount of $45,000, from the 2014 High Intensity Drug Traffic Area (HIDTA) grant, for which the Asheville Police Department will serve as the fiduciary for investigate special purposes for the Asheville Area HIDTA Task Force.

The High Intensity Drug Trafficking Areas (HIDTA) program was authorized by the Anti-Drug Abuse Act of 1988 and is administered by the Office of National Drug Control Policy. The original designation of five HIDTA sites in 1990 has expanded into more than thirty areas around the country. The HIDTA's mission is to reduce drug trafficking in the most critical areas of the country, thereby reducing the impact of illegal drugs in other areas. The Asheville HIDTA serves as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA. The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County Sheriffs Office, Henderson County Sheriffs Office and McDowell County Sheriffs Office. The Asheville HIDTA is a component of the Asheville DEA Task Force. The Asheville HIDTA has received $45,000 funding for investigative special purpose funds for which the Asheville Police Department will serve as the fiduciary.

Some recent successes of the task force, including some multi-state cases are; 1) Seizure the of 184 morphine and 484 Hydrocodone Tablets charging a subject or 5 counts of trafficking Opium; 2) Seizure of 1400 pounds of marijuana, 4 pounds of methamphetamine involving 11 individuals; and 3) Additional ongoing cases involving large distributers of crack cocaine involving gun and gang activities.

Pro:

- Federal HIDTA monies to cover the cost of investigative special purposes

Con:

- None noted

There is no impact to the City's General Fund budget. The grant funds will be received and disbursed through the City's Special Revenue Fund.

City staff recommends City Council adopt the budget amendment to accept the HIDTA 2014 grant funds.

ORDINANCE BOOK NO. 29 - PAGE 232

G. RESOLUTION NO. 14-215 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS UNDER THE N.C. OFFICE OF JUSTICE PROGRAMS THROUGH THE US DEPARTMENT OF JUSTICE FOR THE 2014 BALLISTIC VEST PARTNERSHIP PROGRAM

ORDINANCE NO. 4345 - BUDGET AMENDMENT FOR THE 2013 BALLISTIC VEST PARTNERSHIP PROGRAM

Summary: The consideration of (1) a resolution authorizing the City Manager to accept funds through US Department of Justice in the amount of $23,778.51; and (2) a budget amendment, in the amount of $47,557.02, from US Department of Justice Ballistic Vest Partnership (BVP) funds and previously approved City General Fund money, to establish a project budget in the Special Revenue Fund for the 2014 BVP Program.

The City of Asheville Police Department currently participates in the US Department of Justice BVP program. The funds allocated through this program are designed to offset departmental cost associated with purchasing ballistic vests. The City of Asheville has been awarded $23,778.51 through this program, which requires the City to match this amount dollar-for-dollar. Expenditures for this program will be recorded in this City's Special Revenue Fund. The budget amendment is necessary to authorize the full project budget amount of $47,557.02 in this fund. The City's match of $23,778.51 will come from the Police Department's adopted FY 2014-15 operating budget. The funding will enable the purchase of 76 bulletproof vests over the next 2 years.

Pros:

- Reduction in cost to the City of Asheville for the purchase of ballistic vests
- Increase in officer safety by providing crucial safety equipment

Con:

- None

As noted above, this grant requires a match of $23,778.51, which will come from the Police Department's existing General Fund budget (Patrol Division – Supplies – Safety Equipment). It should be noted that the overall fiscal impact to the City of Asheville is reduced due to the fact that the APD would have to purchase these vests at full replacement costs if we did not accept this grant award.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept funds through US Department of Justice in the amount of $23,778.51; and 2) a budget amendment, in the amount of $47,557.02, from US Department of Justice BVP funds and previously approved City General Fund money, to establish a project budget in the Special Revenue Fund for the 2014 BVP Program.

RESOLUTION BOOK NO. 36 - PAGE 355
ORDINANCE BOOK NO. 29 - PAGE 234

H. ORDINANCE NO. 4346 - BUDGET AMENDMENT TO AUTHORIZE THE USE OF N.C. STATE DRUG SEIZURE FUNDS TO PURCHASE URINE DRUG SCREENS/LAB TESTING RELATED TO THE BUNCOMBE COUNTY DWI TREATMENT COURT

Summary: The consideration of a budget amendment, in the amount of $5,000, to authorize the use of North Carolina State Drug Seizure Funds to fund the purchase of Urine Drug Screens/Lab Testing related to the Buncombe County DWI Treatment Court.

The North Carolina State drug seizure program is an equitable sharing program which divides the illegal proceeds from drug dealing between the North Carolina State government and local law enforcement agencies. It is designed to help off-set the considerable cost of drug enforcement, by allowing local law enforcement agencies to use seized monies for equipment, training, and improvements that might not necessarily be budgeted for by the agency. The illegal proceeds are divided with 25% going to the North Carolina Department of Revenue and 75% going to the local law enforcement agency initiating the seizure.

This amendment will authorize the use of $5,000 in North Carolina State drug seizure funding for the purchase of Urine Drug Screens/Lab Testing related to the Buncombe County DWI Treatment Court.

Pro:

- North Carolina State drug seizure revenue used to fund Urine Drug Screens/Lab Testing related to the Buncombe County DWI Treatment Court.

Con:

- None noted

Accepting and allocating these State Forfeiture Funds is a financial benefit to the APD allowing us to better equip our employees and provide safety measures to protect the public. There is no impact to the General Fund budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to adopt a budget amendment in the amount of $5,000 authorizing the use of North Carolina State Drug Seizure Funds to fund the purchase of Urine Drug Screens/Lab Testing related to the Buncombe County DWI Treatment Court.

ORDINANCE BOOK NO. 29 - PAGE 236

I. RESOLUTION NO. 14-216 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MAIL MANAGEMENT SERVICES, LLC, TO PROVIDE MAIL SERVICES TO THE CITY OF ASHEVILLE

72

Summary: The consideration of a resolution authorizing the City Manager to enter into a three year contract with Mail Management Services to provide mail services for the City of Asheville.

In the Fiscal Year 2014/ 2015 adopted budget, a total of $393,000 was appropriated across department accounts to provide for citywide postage and mail services.

The City provides municipal services to more than 60,000 accounts which primarily encompasses the following: water meters, business license, permits and general correspondence to residents and visitors. The customer base is divided into multiple billing cycles and by general information correspondence each month. All water, sewer and storm water accounts are billed monthly.

In 2009 the City issued a Request for Proposals (RFP) to contract with a vendor to provide mail services. The City selected and contracted with Mail Management Services, LLC for a period of three years and exercised the option to renew for two successive one year periods. In 2014 the City issued a new RFP. Based upon a review of the proposals by a staff committee, the committee recommends selection of Mail Management Services, LLC. The contract is for a period of three years with an option to renew for two successive one year periods upon agreement between the City and Mail Management.

While the postage and service costs will vary from year to year based on postage rate, volume, type of service provided, due to the trends and advancements in communication technology, the annual cost is not expected to exceed $393,000. The multi-year contract is subject to the annual appropriation process. If the adopted budget does not include an appropriation for the service, the City shall have the right to terminate the contract.

Pros:

- Provide more predictable pricing for mail services
- Lower costs for mailing city bills and correspondence

Con:

- None identified

$393,000 was approved in the City's fiscal year 2014-15 budget for mail services in both the General and Enterprise Funds.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into a three year contract with Mail Management Services, LLC ., with an option to renew for two successive one year periods, to provide mail services to the City for the amount of the approved budget. Each fiscal year contract shall be subject to funding appropriation approval by City Council.

RESOLUTION BOOK NO. 36 - PAGE 356

J. ORDINANCE NO. 4347 - BUDGET AMENDMENT FOR NEW ENERGY EFFICIENT LIGHTING AT SHILOH AND STEPHENS-LEE COMMUNITY CENTERS

Summary: The consideration of a budget amendment from General Fund assigned fund balance to establish a FY15 budget in the amount of $48,500 for contracting the purchase and installation of energy efficient lighting at Shiloh and Stephens-Lee Community Centers through participation in the Duke Energy Progress (DEP) Small Business Energy Savers (SBES) Program.

In April 2011 City Council approved a resolution to set the annual municipal carbon footprint reduction goal at 4%. The mechanism Council approved to fund this initiative is the Green Capital Improvement Program (Green CIP). Through the Green CIP, the City borrowed money to fund the installation of LED streetlights and is now using the operational energy savings from that project to pay off the debt and to fund other energy saving projects. This lighting project would be paid for out of those operational energy savings.

In November of 2013, Council approved Resolution No. 13-236, authorizing the City to participate in the DEP SBES program.

At the Linwood Crump Shiloh Complex, the SBES program will replace 126 existing T12 light fixtures throughout the complex with high efficiency, electronically ballasted T8 lighting. In the gymnasiums of both the Shiloh Complex and the Stephens-Lee Center, the combined 50 existing metal halide lights will be replaced with high bay LED fixtures. These improvements coincide well with other upgrades at these facilities that the Parks department is initiating.

Pros:

- Installation of energy efficient lighting in two facilities will generate an estimated $7,500 in annual avoided electrical costs
- Leverages $30,000 of utility incentives to finance a capital improvement project
- This activity will result in 44 tons of avoided carbon dioxide annually

Con:

- None foreseen

The City's share of these improvements would be paid out of the General Fund, from the Sustainability Division's contracted services budget. The budget amendment will appropriate $48,500 in LED streetlight savings which have been held in General Fund assigned fund balance.

City staff recommends City Council adopt a budget amendment to purchase and install energy efficient lighting at Shiloh and Stephens Lee centers.

ORDINANCE BOOK NO. 29 - PAGE 238

K. RESOLUTION NO. 14-217 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE BUDD GROUP INC. FOR THE U.S. CELLULAR CENTER'S CUSTODIAL SERVICES CONTRACT

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with The Budd Group Inc. for custodial services at the U.S. Cellular Center.

Historically the U.S. Cellular Center (USCC) has utilized temporary staffing companies to assist City staff with custodial needs at the venue; before, during and after events. The group that has been used at the venue in recent years has proven time and again to lack the experience and ability to deliver the service level needed and expected, especially with the higher standards expected after the completion of renovation of the venue. Staff advertised a Request for Proposals for full scale custodial services, with a goal of finding a company that provides more than simply temporary staffing to work events. Staff requested a custodial services company which would handle day to day operation and event coverage at the USCC. Innovative use of technology for efficiency purposes plans to use more 'green' cleaning products, and an hourly wage paid to part time staff closer to the current living wage at $10.00/hr were some of the primary RFP considerations. The previous temporary staffing company paid staff minimum wage. Four companies attended the mandatory site visit held at the USCC in May. The Budd Group Inc was selected due to their proven experience in venues hosting live events, their commitment to work in a more sustainable fashion with green certified products, to utilize program based work

order systems, as well as their voluntary commitment to pay closer to living wages to their staff. The Budd Group Inc. has a proven history of professionalism and effective services delivered.

The contract has a one (1) year term with a base cost of $83,059.20 annually plus additional part time staff hours during events billed at a set hourly rate (estimated to total approximately $70,000 annually based on past history of staffing levels). Full contract amount is not to exceed $160,000 annually with two (2), one (1) year options to renew at a base and hourly rate that will not exceed a 3% increase.

The terms of this contract were discussed at the Civic Center Commission meeting on August 5, 2014, and the Civic Center Commission supported staff's recommendation to enter into a contract with The Budd Group Inc.

Pros:

- Creation of one (1) full time benefitted position and one (1) part time benefitted position in the private sector.
- Improved custodial service with a proven professional company contractually obligated to keep our facility clean and presentable on a daily basis.
- Enables current staff to dedicate significantly greater amounts of time to building upkeep and preservation

Con:

- Elimination of (1) vacant maintenance laborer position.

The cost for this contract was included in the FY2014-15 adopted U.S. Cellular Center budget.

Staff recommends that City Council adopt a resolution authorizing the City Manager to enter into a contract with The Budd Group inc. for custodial services at the U.S. Cellular Center.

RESOLUTION BOOK NO. 36 - PAGE 357

L. RESOLUTION NO. 14-218 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT BLUE RIDGE PRIDE ON OCTOBER 4, 2014

RESOLUTION NO. 14-219 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT OKTOBERFEST ON OCTOBER 11, 2014

RESOLUTION NO. 14-220 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE CITY MARKET ON OCTOBER 18 AND 25, 2014

RESOLUTION NO. 14-221 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BROTHER WOLF NEW YEAR'S RESOLUTION RUN ON JANUARY 1, 2015

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at Blue Ridge Pride on October 4, 2014; Asheville Oktoberfest on October 11, 2014; Asheville City Market on October 18 & 25, 2014; and Brother Wolf New Year's Resolution Run on January 1, 2015.

- Blue Ridge Pride has requested through the City of Asheville Office of Economic Development that City Council permit them to serve beer and/or unfortified wine at Blue Ridge Pride and allow for consumption at this event.

  Blue Ridge Pride will be held on Saturday, October 4, 2014, from 12:00 p.m. – 6:00 p.m. at Pack Square Park as per the event area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Asheville Oktoberfest and allow for consumption at this event.

  Asheville Oktoberfest will be held on Saturday, October 11, 2014, from 1:00 p.m. – 6:00 p.m. on Banks Avenue between Collier Avenue and Coxe Avenue and on Coxe Avenue between Hilliard Avenue and the intersection of Buxton Avenue, as per the event area limits referenced on the accompanying site map.

- Appalachian Sustainable Agriculture Project has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine on two occasions of the Asheville City Market and allow for consumption at those occasions.

  Asheville City Market occasions with the sale of beer and/or unfortified wine will be held on Saturday, October 18 and Saturday, October 25, 2014, from 8:00 p.m. – 1:00 p.m. at the city-owned parking lot located at 161 S. Charlotte Street as per the event area limits referenced on the accompanying site map.

- Brother Wolf has requested through the City of Asheville Office of Economic Development that City Council permit the sale of beer and/or unfortified wine at Brother Wolf New Year's Resolution Run and allow for consumption at this event.

  Brother Wolf New Year's Resolution Run will be held on Thursday, January 1, 2015, from 10:30 a.m. – 1:30 p.m. at Pack Square Park as per the event area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Blue Ridge Pride, Asheville Downtown Association, Appalachian Sustainable Agriculture Project, and Brother Wolf

Con:

- Potential for public safety issues

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at at Blue Ridge Pride on October 4, 2014; Asheville Oktoberfest on October 11, 2014; Asheville City Market on October 18 & 25, 2014; and Brother Wolf New Year's Resolution Run on January 1, 2015.

M.1. RESOLUTION NO. 14-222 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH SMART ELECTRIC COMPANY FOR THE NORTH FORK WATER TREATMENT PLANT DAM ELECTRICAL IMPROVEMENTS PROJECT

ORDINANCE NO. 4348 - BUDGET AMENDMENT FOR THE NORTH FORK WATER TREATMENT PLANT DAM ELECTRICAL IMPROVEMENTS PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a construction agreement with Smart Electric Company, for the bid amount of $318,379, with a contingency amount of $47,757.00 for a total project budget in the amount of $366,136; and (2) a budget amendment in the amount of $216,436.00 from the completed Automated Meter Reading Capital Project for the North Fork Water Treatment Plant Dam Electrical Improvements Project.

The North Fork Water Treatment Plant Dam Electrical Improvements Project (Project) consists of all materials, labor, incidentals, and equipment necessary for the replacement of the main electrical switchgear and associated electrical system improvements at the North Fork Water Treatment Plant in Black Mountain, North Carolina. If a power failure occurs at the main water treatment plant, a reliable backup power source is needed to continue the treatment and distribution of potable water into the system. The existing system, installed in 1992, has become unreliable, reached the end of its useful life, and is in need of replacement.

In response to an Advertisement for Bids for the construction project on July 9, 2014, the Water Resources Department (WRD) received one bid. Pursuant to N.C.G.S. § 143-132, three competitive bids are required for formal construction projects. Upon rebidding the project on August 18, 2014, the WRD received two bids in response to the second advertisement. Pursuant to N.C.G.S. § 143-132, the WRD is allowed to award the contract to the lowest responsible bidder even though only two bids were received in response to the second advertisement. Companies responding were:

1. Haynes Electric Construction Company – Asheville, NC
2. Smart Electric Company – Connelly Springs, NC

Following a review of bids by City staff and the project engineers, McGill Associates, Smart Electric Company was selected as the lowest responsible, responsive bidder for the bid amount of $318,379. A contingency amount of $47,757 has been added for a total project budget in the amount of $366,136.

Pros:

- This project will replace outdated, unreliable electrical equipment to ensure a backup power source for the North Fork Water Treatment Plant.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of this project, which would prevent operation of the department's main water treatment plant during an emergency power outage.

The Water Resources Department currently has $149,700 budgeted for the construction contract. The remaining funds of $216,436 needed for the contract will be transferred from the Water Resources Automated Meter Reading (AMR) Capital Project, which was completed under budget. In order to transfer funds from the AMR Project, a budget amendment is necessary.

Amount in NF WTP Electrical Project for Construction Contract	$149,700.00
Additional Amount Needed for Construction Contract	$216,436.00
Total Amount Needed for Contract, including contingency	$366,136.00

The amount remaining in the AMR Project will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a construction agreement with Smart Electric Company, for the bid amount of $318,379, with a contingency amount of $47,757.00 for a total project budget in the amount of $366,136; and (2) a budget amendment in the amount of $216,436.00 from the completed Automated Meter Reading Capital Project for the North Fork Water Treatment Plant Dam Electrical Improvements Project.

RESOLUTION BOOK NO. 36 - PAGE 370
ORDINANCE BOOK NO. 29 - PAGE 240

N. RESOLUTION NO. 14-223 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH B ALLEN CONSTRUCTION INC. FOR CONSTRUCTION OF PAVILION AND RESTROOMS AT WNC NATURE CENTER

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with B. Allen Construction, Inc. to design and construct the restroom and pavilion at the WNC Nature Center for an amount not to exceed $132,900.

In February 2009, City Council approved the Parks, Recreation, Cultural Arts and Greenways Master Plan which recommends the development of a master site plan for future development of the WNC Nature Center. In 2011, the city completed the 2020 Vision Master Site Plan that directs future improvements at the WNC Nature Center.

Based upon the 2020 Vision Master Site Plan, a new playground was constructed in 2013 as part of the enhancements to the red wolf exhibit, and a new boardwalk and trail. The 2020 Vision Master Site Plan prioritizes the importance to continue to enhance the playground area with the design and construction of a restroom and picnic pavilion.

In response to a Request for Qualifications to seek qualified, professional firms to perform the design and construction of the restroom and pavilion, three applications were received. Following a thorough review and evaluation by staff, B. Allen Construction, Inc., located at 340 Wiggins Road, Candler, North Carolina, is recommended as the most qualified, responsive and responsible applicant to design and construct the project.

The project is fully funded by a donation from the Friends of the WNC Nature Center, and allocations from the State of North Carolina Department of Commerce.

Pros:

- The project adheres to the WNC Nature Center 2020 Vision Master Site Plan
- The project will enhance the visitor experience and performance through increased level of service
- Improves public health and safety through increase recreation opportunities and amenities
- Provides investment in community infrastructure
- The project is fully funded with non-General Fund sources

Con:

- None

The project is fully funded with non-General Fund sources. The $132,900 to support the design and construction contract for the restroom and picnic pavilion is funded by a $28,170

donation from the Friends of the WNC Nature Center, $32,330 balance of previous year allocation from the North Carolina Department of Commerce, and $72,400 FY15 allocation from the North Carolina Department of Commerce.

Staff recommends the adoption of resolution authorizing the City Manager to enter into a contract for design and construction services relative to the design and construction of the restroom and pavilion at the WNC Nature Center with B. Allen Construction, Inc. for an amount not to exceed $132,900; and authorization to approve change orders to the contract which may arise during the design and construction of the project up to the budgeted amount.

RESOLUTION BOOK NO. 36 - PAGE 372

O. ORDINANCE NO. 4349 - ORDINANCE TO AUTHORIZE THE USE OF THIRD PARTY PROPRIETARY SOFTWARE FOR FIRE PROTECTION SYSTEMS DATA

RESOLUTION NO. 14-224 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BRYCER, LLC, FOR A THIRD PARTY REPORTING SYSTEM FOR FIRE PROTECTION SYSTEMS DATA

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into an agreement with Brycer, LLC, to utilize third party proprietary software to track and manage commercial fire system inspection, maintenance, and testing requirements; and (2) an ordinance to authorize the use of third party proprietary software in the third party reporting system process for fire protection systems data.

The Asheville Fire Department relies on third party monthly, quarterly, semi-annual, and annual inspection reporting from third party agencies to ensure all fire suppression, fire detection and other life safety systems installed in commercial establishments are up to date and functioning correctly. The reliability of all systems proves essential for proper life safety needs and property conservation requirements, which in essence assists with maintaining a healthy tax base. The proper operation of all fire related systems also helps cut down on false alarms and the need for costly "fire watch" conditions in businesses. Unfortunately, due to the state mandated inspection frequencies, the Fire Marshal's division may only visit a facility once every three years (or at most, annually) to review and confirm requirements are being met. History proves that many businesses fail to comply with third party inspection mandates and only comply after a fire inspection notes the deficiency.

Brycer, LLC and their proprietary "Compliance Engine" software desires to provide a service to all commercial occupancies in the City of Asheville to collect, organize and store all code-required third party inspection and testing records. This item and the amendment to the City's Ordinance are being proposed to authorize the use of third party proprietary software in this process.

This proposal was heard before the City of Asheville Public Safety Committee on August 25, 2014, and was recommended unanimously for approval.

Pros:

- The Compliance Engine automates the delivery of third party inspection and testing reports for fire and life safety systems.
- The City can access the database anytime to review and respond to inspection requirements.
- It provides the City a more comprehensive and accurate reporting system.
- Other municipalities in North Carolina are using the same system.

- This is a proprietary solution, similar to using the Knox Company for our premise key control system, provided at no cost to the city.
- The inspected premise will not be billed nor are they responsible for submitting the reports via the Compliance Engine; their inspecting contractors will submit the required documents and pay the fees.

Cons:

- There will be a minimal charge from the vendor to the affected inspecting contractor of $10.00 annually per each fire system reported on; however, monthly, quarterly and semi-annual reporting within the same service year will not incur additional fees. The fire dept. will review their fee schedule to make this a neutral impact on affected businesses.

There is no budget impact for the City.

Staff recommends that the Asheville City Council to adopt (1) a resolution authorizing the City Manager to enter into an agreement with Brycer, LLC, to utilize third party proprietary software to track and manage commercial fire system inspection, maintenance, and testing requirements; and (2) an ordinance to authorize the use of third party proprietary software in the third party reporting system process for fire protection systems data.

ORDINANCE BOOK NO. 29 - PAGE 242
RESOLUTION BOOK NO. 36 - PAGE 373

P. RESOLUTION NO. 14-225 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT AND SPONSORSHIP AGREEMENT WITH PEPSI-COLA BOTTLING COMPANY OF HICKORY FOR THE U.S. CELLULAR CENTER

ORDINANCE NO. 4350 - BUDGET AMENDMENT FOR ONE-TIME SIGNING BONUS

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a contract and sponsorship agreement with Pepsi-Cola Bottling Company of Hickory, NC; and (2) a budget amendment in the amount of $65,000 from the Pepsi sponsorship one-time signing bonus for digital menu boards at venue concession stands.

After completing a bid process for non-alcoholic beverage pouring rights and sponsorship at the U.S. Cellular Center staff has come to agreement with the winning bidder (Pepsi-Cola) on sponsorship deal points and product pricing within a four (4) year contract/sponsorship agreement with two (2), one (1) year mutually agreeable extension options. Pepsi has agreed to provide product at pricing rates which are lower than staff is currently purchasing at. Pepsi has also agreed to provide a $65,000 one-time signing bonus provided to the U.S. Cellular Center exclusively to be used for the purchase, installation and maintenance of digital menu boards at venue concession stands. Comparable venues throughout the country have seen a 10-20% increase in sales at concession stands after the installation of digital menu boards in their facilities. Pepsi will continue to provide and maintain all necessary equipment needed for the distribution of product as well as an annual sponsorship fee of $5,000.

Pros:

- Signing bonus of $65,000 for use of purchase, installation and maintenance of digital menu boards.
- Annual sponsorship fee of $5,000
- Exceptional service and assistance for staff at major events
- Free to the City equipment and maintenance related to the sale of Pepsi-Cola products

Con:

- None

The FY 2014-15 U.S. Cellular Center budget is being amended by $65,000 to account for the revenue from the one-time signing bonus, which will provide funding for the purchase, installation and maintenance of digital menu boards at venue concession stands.

City staff recommends City Council adopt: 1) a resolution authorizing the City Manager to enter into a contract and sponsorship agreement with Pepsi-Cola Bottling Company of Hickory, NC; and 2) a budget amendment in the amount of $65,000 from the Pepsi sponsorship one-time signing bonus for digital menu boards at venue concession stands.

ORDINANCE BOOK NO. 29 - PAGE 244

Q. RESOLUTION NO. 14-226 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE AN UNNAMED ALLEY OFF OF BROAD STREET AND SETTING THE PUBLIC HEARING FOR OCTOBER 28, 2014

Summary: The consideration of a resolution of intent to permanently close an unnamed alley off of Broad Street and setting a public hearing for October 28, 2014.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Jim Hitt at 137 Broad Street and 9999 Broad Street also known as 133 Broad Street, have requested the City of Asheville to permanently close an unnamed alley off of Broad Street. One adjacent property owner has not joined the request to permanently close the alley off of Broad Street. A copy of this resolution of intent shall be sent by registered or certified mail to all owners of property adjoining this alley, not joining in the petition to close. Additionally, a copy of this resolution shall be published once a week for four (4) consecutive weeks prior to a hearing on this matter, and a notice of the closing and public hearing shall be prominently posted in at least two (2) places along the alley.

The Multimodal Transportation Commission met on August 27, 2014, and approved the closure of the unnamed alley off of Broad Street.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unnamed alley off of Broad Street and set a public hearing on October 28, 2014.

RESOLUTION BOOK NO. 36 - PAGE 375

R. RESOLUTION NO. 14-227 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE A PORTION OF BRADLEY STREET AND SETTING A PUBLIC HEARING FOR OCTOBER 28, 2014

Summary: The consideration of a resolution of intent to permanently close a portion of Bradley Street and setting a public hearing on October 28, 2014.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, Sandra Alexander of 8 Moore Avenue Megan and John Griffin of 430 State Street, Jay Fiano – multiple properties adjacent to the closure area, Aaron Marmaret and B. J. Harden Jones of 147 Bradley Street, have requested the City of Asheville to permanently close a portion of Bradley Street. A copy of this resolution of intent shall be sent by registered or certified mail to all owners of property adjoining this alley, not joining in the petition to close. Additionally, a copy of this resolution shall be published once a week for four (4) consecutive weeks prior to a hearing on this matter and a notice of the closing and public hearing shall be prominently posted in at least two (2) places along the alley.

The Multimodal Transportation Commission met on August 27, 2014, and approved the closure.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close a portion of Bradley Street and set a public hearing on October 28, 2014.

RESOLUTION BOOK NO. 36 - PAGE 378

S. RESOLUTION NO. 14-228 - RESOLUTION AUTHORIZING THE CITY TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE US DEPT OF JUSTICE THROUGH THE 2014 BYRNE JUSTICE ASSISTANCE GRANT - LOCAL SOLICITATION

ORDINANCE NO. 4351 - BUDGET AMENDMENT FOR THE 2014 BYRNE JUSTICE ASSISTANCE GRANT -LOCAL SOLICITATION

Summary: The consideration of (1) a resolution authorizing the City to apply for an enter into an agreement with the US Dept. of Justice through the 2014 Byrne Justice Assistance Grant – Local Solicitation; and (2) the accompanying budget amendment in the amount of $56,677.

The Asheville Police Department requests authorization to apply for the Byrne JAG – Local Solicitation. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. If approved the Asheville Police Department and Buncombe County Sheriff's Department will be allocated $56,677 based on the award matrix, with Asheville receiving $42,143 and Buncombe County receiving $14,534. The distribution of funds is approved through a signed MOU.

APD plans to purchase in-car video systems to place in patrol cars. These recordings would generally serve as evidence to be utilized in court for the prosecution of criminal cases. However, these recordings could also be used to aid in resolving allegations of wrongdoing by officers. This would allow for an even greater level of protection of officers and citizens. The digital cameras provide high quality and high resolution video/audio recording of events in and around the patrol car. Recordings such as this help protect the interests of citizens as well as the interests of police officers. Recordings captured with these cameras could potentially aid in mitigating potential civil liability for the City of Asheville by illustrating in detail the actual events that transpired. The secure evidentiary storage and wireless upload capabilities of the system create a user friendly system that is extremely secure and versatile.

The Buncombe County Sheriff's Department plans to purchase thermal imaging equipment. This thermal technology is useful during night time applications when trying to locate a suspect or an endangered person. This equipment could be used in a variety of ways to save lives and apprehend suspects, while helping protect the officers engaged in the pursuit.

There will be an expense of $42,143 by the APD for the in-car video systems. The Buncombe County Sheriff's Department will expend $14,534 for the purchase of thermal imaging equipment. This accounts for the total allocation of $56,677 for this Grant.

This is a 100% funded non-local match grant that will enable the APD to greatly enhance documentation of patrol related activities such as vehicle stops, pursuits, etc. The video evidence will prove to be very valuable in court for both civil and criminal offenses. Additionally, such evidence will be valuable to for internal investigations into officer actions and encounters. This will enhance accountability for officer actions and increase officer and public safety.

Pros:

- Increasing In-Car video will allow for better documentation of police related incidents.
- Increases officer and citizen accountability through recorded interactions.

Cons:

- Additional burden on the electronic secure storage capacity for storage of the videos
- Maintenance and replacement costs for the camera equipment which has an expected average service life of five years

There is a minimal fiscal impact at this time for City Council to approve the resolution authorizing the City to apply for the grant. If the grant is awarded, there would be maintenance and replacement costs for the equipment that would need to be included in future fiscal year budgets. Additionally, funding will be needed to provide additional secure server/storage space to maintain the evidentiary video.

City staff recommends City Council adopt (1) a resolution authorizing the City to apply for an enter into an agreement with the US Dept. of Justice through the 2014 Byrne Justice Assistance Grant – Local Solicitation; and (2) the accompanying budget amendment in the amount of $56,677.

In response to Ms. Judy Strong, City Manager Jackson said that the Police Department's Strategic Operating Plan calls for both body cameras and vehicle cameras.

T. RESOLUTION NO. 14-214 - RESOLUTION APPROVING CO-SPONSORSHIP OF THE AFFORDABLE CARE ACT OPEN ENROLLMENT KICK-OFF SPEARHEADED BY PISGAH LEGAL SERVICES

Pisgah Legal Services has met the current criteria for city sponsorship, representing a public purpose for the Affordable Care Act Open Enrollment Event on November 15, 2014.

The Affordable Care Act Open Enrollment Kick-off, spearheaded by Pisgah Legal Services, on November 15, 2014, is approved as a city sponsored event and waiving of fees for placement of advertisements in City ART Buses.

RESOLUTION BOOK NO. 36 - PAGE 354

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. SIX-MONTH UPDATE OF GOVERNANCE COMMITTEE

Mayor Manheimer said that the Governance Committee was established by motion on December 10, 2013, as a policy review and discussion arm of the City Council. The Committee was set up to provide an opportunity to explore implications of policy alternatives and the policy development process while serving in an advisory capacity to Council as a whole. During the past six months the Governance Committee has reviewed policy matters referred to them and informed City Council on the existing city programs and issues including the following:

- Developed the City Council's legislative agenda for approval by all of Council prior to the General Assembly's 2014 short session.
- Reviewed and recommended full Council approval of the 2014-2015 City Council Strategic Plan. Strategic Operating Plan was approved by all of Council on April 22, 2014.
- Initiated and reviewing progress for a City Satisfaction Survey to coincide with strategic communications plan.
- Developed plan for April 29 Neighborhood Meeting held at Koontz Intermediate School on Tuesday, April 29 at 6:30 pm. The agenda focused on City Council's 2014-15 Strategic Operating Plan.
- Initiated staff review of Council Boards and Commissions and approved plan for additional improved strategic alignment and trainings.

Mayor Manheimer said that this initial 6-months has been a learning process of the functions of the Governance Committee. After meeting with Councilwoman Wisler and going through a list of things that worked well and what hadn't, she felt it would be appropriate for the Governance Committee to discuss it's role to determine if it needs tweaking or move to a different concept altogether.

Mayor Manheimer noted that she will be delivering the State of the City address on October 1 at the U.S. Cellular Center and invited the public to attend.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER REZONING 21 JEFFERSON DRIVE FROM INSTITUTIONAL DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 4352 - ORDINANCE REZONING 21 JEFFERSON DRIVE FROM INSTITUTIONAL DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

Urban Planner Blake Esselsytn said that this is the consideration of an ordinance to rezone 21 Jefferson Drive from Institutional District to RM-8 Residential Multi-Family Medium Density District. This public hearing was advertised on September 12 and 19, 2014.

Mr. Esselstyn said that the site sits on the west side of Jefferson Drive, about sixty yards south of West Haywood Street, in the West End/Clingman Avenue Neighborhood. The area proposed for rezoning consists of the northern portion (roughly 0.12 acres) of a parcel with a total area of roughly 0.3 acres. The southern portion of the parcel includes a single-family house built in 1905, but the northern portion, which is the subject area, is currently vacant, save some fencing and trees/shrubs. The lot slopes fairly steeply from the rear property line down to the frontage on Jefferson Avenue. A stormwater pipe crosses through the northwest portion of the subject area, presenting an obstacle to development. The subject area is currently zoned INST, while the southern part of the parcel is zoned RM-8.

The applicant (Lee and Rebecca Lance) is proposing a standard rezoning of the subject area from INST to RM-8 to be consistent with the remainder of the parcel. The applicant purchased the subject area from the City of Asheville in May of this year, and a recombination plat recorded in February had indicated that the purchased area would be combined with the house lot. Further, the purchase agreement stipulated that the applicant would pursue this rezoning petition.

At their September 3, 2014, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning request.

The area to the north and west of the subject site is all part of the City of Asheville Transit Maintenance facility, zoned Institutional. To the south and east, Jefferson Drive is residentially developed, mostly with single-family homes, with RM-8 zoning directly to the south and east of the subject area, and some RM-16 zoning to the southeast. The proposed rezoning would simply move the dividing boundary between INST and RM-8 some 55 feet north and 90 feet east. Staff feels any uses allowed in the subject area would be appropriate and compatible with the vicinity under the proposed rezoning.

Often in the past, practice has been to assign Institutional zoning to large parcels of publicly-owned land, such as the City's property to the north and west. But, as has been discussed with recent zoning actions (e.g. near Caledonia Road, and the UNC-Asheville campus), the appropriateness of such zoning can be questioned when and if ownership shifts to the private sector. By carving off this portion of land south and east of the stormwater pipe and conveying it to a property owner on Jefferson drive, the City and the applicant have created a small tract that now relates more to Jefferson Drive and the context of the detached residences than to the government-operated large parcel on the hill above which is accessed from West Haywood Street.

One of the principles most commonly invoked in the *Asheville City Development Plan 2025* (and other adopted plans) is compatibility; indeed, the words compatible and compatibility appear more than 40 times in the document. One example would be on page 31, under the Smart Growth Land Use Policies: "City staff is directed to [...] use existing zoning tools to promote compatible land use projects." As noted above, staff's assessment is that any of the uses

permitted in RM-8 would be compatible in this specific location; however, many of the uses permitted in Institutional zoning would not.

The *Plan* also states that "Protection, preservation, and enhancement of existing neighborhoods must be as much a part of our development pattern as promoting new construction." While some may view such a downzoning as a reduction of development potential, staff feels that if this modest map amendment can offer an opportunity to adapt and enhance a distinctive century-old house on the block or add a compatible home next door, the benefit to this block, and hence the neighborhood, must be recognized.

Owing to the small extent of the proposed modification (less than one-eighth of an acre), the proposed rezoning can be said to neither support nor hinder the goals of the *Strategic Operating Plan*.

While not identified in either of the plans mentioned above, accepted zoning practice is to favor zoning district boundaries placed so as to follow property lines, and to avoid "split-zoning" of properties when possible. The proposed change would remedy such a split-zoning.

Based on the above findings and the analysis provided in the report and as stated in the recommendation below, staff finds this request to be reasonable.

Considerations:

- Amending the zoning map would resolve a split-zoned situation.
- The proposed zoning would promote compatibility along Jefferson Drive, as encouraged in the *2025 Plan*.
- Preservation and enhancement of an existing neighborhood, a principle espoused in the *2025 Plan*, would be incrementally bolstered by the proposed change.
- If approved, the rezoning would result in a decrease in allowed residential density for this small area, reducing the capacity from two units to one.

Staff recommends approval of the proposed rezoning, finding that the shift in the zoning district boundary is consistent with City-adopted plans and strategic goals for development in this area.

Mayor Manheimer opened the public hearing at 5:18 p.m., and when no one spoke, she closed the public hearing at 5:18 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the zoning map amendment of 21 Jefferson Drive from Institutional District to RM-8 Residential Multi-Family Medium Density District as a standard rezoning and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the compatibility of uses and development standards would be improved compared to the existing zoning designation; (2) the preservation of the established immediate neighborhood of residences would be encouraged. This motion was seconded by Councilman Davis and carried unanimously.

ORDINANCE BOOK NO. 29 – PAGE 248

V. UNFINISHED BUSINESS:

A. GRAFFITI UPDATE AND DIRECTION ON NEXT PHASE OF PROJECT

Public Works Director Greg Shuler said that staff is requesting guidance from Council on how to best proceed with the Graffiti Removal Initiative.

On April 22, 2014, City Council approved Ordinance 4306. This ordinance allowed the City to remove graffiti from private property with execution of an approved waiver signed by the property owner. Prior to approval, staff presented Council with a three step process that would aid in the long term removal of graffiti in Asheville.

The first step was to impose escalating civil penalties on perpetrators. This initiative has been enacted, and application will occur as violations are enforced.

The second step included a 90 day period that would have the City pay to remove up to $500 per site, per occurrence to remove graffiti from private property. That period began on July 1, 2014, and is scheduled to end on October 1, 2014. At this time, a small percentage of the allocated funds have been used. Despite a concentrated media effort that included distribution of brochures, presentations at community groups and commissions, social media, radio, television, print and a dedicated hot line for citizens to call, many still claim to be unaware of this initiative.

As of today, the clean-up initiative has funded graffiti removal of over 141 incidents, using 14% or $41,700 of the allotted $300,000.

As we near the end of the 90 day period, more property owners are becoming aware of the opportunity, and our participation has increased each month. The presentation that accompanies this staff report offers different alternatives to improve participation in the program.

The alternatives are varied in nature, including the following options:

- Alternate #1 Keep the program as is
- Alternate #2 No max full clean up
- Alternate #3 Percentage split
- Alternate #4 Bracket split

- Alternate #1 Keep the program as is.

  This would have the City assisted clean up cease on October 1, 2014. Property owners would then be required to remove the graffiti within 7 business days.

  Another variation of this option would be to simply extend the initiative to allow additional time to reach more citizens. This could be for an additional 90 days, the remainder of the fiscal year, or until the funds are gone.

  Why was this alternate recommended?

  This was the original plan. It gave willing citizens an opportunity to receive City assistance to remove graffiti from their property, yet required minimal accountability from the property owner, if the costs exceeded $500. With the trends of greater participation each month, it may warrant extending the program to achieve a higher success rate.

- Alternate #2 No max full clean up

  The goal of this alternative would be to do a short duration effort to remove all graffiti from willing owners at no cost to them. Many property owners aren't willing to pay to remove graffiti from their property due to the cost. Most have already paid a great deal of money to repaint/wash their buildings only to have it vandalized again. Many of these large areas have taken a long period of time to complete the tags. If the graffiti were to be removed,

and then monitored, they shouldn't be able to get to such an unruly size again. Presumably, the owners could better deal with a smaller tag.

Why was this alternate recommended?

The goal if this ordinance/initiative was to remove graffiti. This alternative would most likely best accomplish this. The major drawback of this option is the absence of accountability from the property owner. This effort would likely remove the most expansive graffiti areas. Based on dialogue with many of the citizens impacted by graffiti, staff feels like the removal of some of the large and very visible areas would send a clear message of our intent to eradicate graffiti.

- Alternate #3 Percentage Split

This alternate would put much more accountability on property owners, yet reduce the financial responsibilities of those same owners, as well as the City on larger jobs. It could be said that it is a more equitable scenario since it would be an even partnership between the City and the property owner. This option may allow more owners to participate, therefore removing more graffiti.

Why was this alternate recommended?

As mentioned before, our staff has heard repeatedly that owners with large areas vandalized can't afford to pay their share. This isn't nearly as big of a problem with smaller tags. Our staff feels strongly that once some of the larger sites have been cleaned, other folks will be more receptive to participating in the program.

- Alternate #4 Bracket Split

This alternate would set minimum and maximum amounts that each partner would be responsible for, depending on the size of the job. The City would pay a minimum of $500 on jobs valued at $1,000 or less. On sites that range from $1,000 to $10,000, the owner pays a maximum of $500, with the City paying the rest. On projects that exceed $10,000, the owner would pay $1,000, with the City paying the rest.

Why is this alternate recommended?

As with other alternates, this would allow for opportunities to deal with large sites, yet keep accountability of property owners in play. This alternate may provide a better balance, and produce more incentive for owners to participate. So far, very few sites would exceed the $10,000 threshold. The ones that do would be pivotal in accomplishing the goals of the program.

Unless otherwise stated, these alternates would require the program to be extended at least an additional 90 days. Other timeframes options would be the remainder of the current fiscal year. In all cases the initiative would end upon all funds being spent.

The third step is the ideal long term goal of the ordinance that would require the property owner to promptly remove any graffiti from their property. This is where we need to end up long term.

Staff is providing an update on the progress of the Graffiti Clean-up Initiative, and requesting guidance on potential changes to the program. As we have progressed with the Clean-up Initiative, it has been discussed that we may be able to eradicate more graffiti if the initiative were revised.

Pros:

- Potential increase in the removal of more graffiti in Asheville.
- A more vibrant, safer feeling community.
- Higher Quality of Life for our citizens

Con:

- City resources utilized on private property

$300,000 was already included in the FY 2014-15 general fund budget for contracts associated with the City's graffiti removal initiative. The FY 2014-15 adopted budget also includes $200,000 for administrative costs associated with this program.

The Public Safety Committee reviewed this on September 22 and City Council on September 23. City staff requests that Council consider the alternatives and offer direction on how to proceed with the graffiti removal initiative.

After discussion, Councilman Smith moved to begin notifications on October 1 (per the ordinance) but amend the policy to allow a one-time $500 City contribution, for properties that did not take advantage of the initiative previously, during the first year of the ordinance or until we hit our cap. This motion was seconded by Councilwoman Wisler.

Because there are between 10-20 larger properties that will cost in the range of $8-10,000 for clean-up, Vice-Mayor Hunt suggested setting a specific amount aside ($70,000) to clean up the larger properties, with a maximum of $10,000 per property and have it expire in 60 days (December 1, 2014).

Councilman Bothwell opposed the program from the beginning, but when staff researched what is effective in other cities, the answer was to fine the property owners for not cleaning it up. He said we have approximately $300,000 to spend, and felt that money could be better spent on incentivizing affordable housing. He was opposed to spending tax money on private property to paint over somebody's idea of art.

After hearing the discussion, Mr. Shuler recommended the City pay a minimum of $500 on jobs valued at $1,000 or less. On sites that range from $1,000 to $10,000, the owner pays a maximum of $500, with the City paying the rest. On projects that exceed $10,000, the owner would pay $1,000, with the City paying a maximum of $10,000 per property up to $70,000.

Several individuals spoke regarding the issue, some suggesting solutions to remove the graffiti, while others felt the money should be used for other projects.

Regarding the larger properties, it was the consensus of Council to have Mr. Shuler bring back a proposal, and provide Council with information, i.e., their location and why the property owners have chosen not to clean it up, whether it be they feel it is art or they simply cannot afford to clean it up.

The motion made by Councilman Smith and seconded by Councilwoman Wisler carried on a 6-1 vote, with Councilman Bothwell voting "no."

Closed Session

At 6:04 p.m., Councilwoman Wisler moved to go into closed session for the following reasons: To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To

consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a potential lawsuit involving the following party: Robert Frost and the City of Asheville. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5); and (4) To discuss matters relating to the location or expansion of industries. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(4). This motion was seconded by Councilman Pelly and carried unanimously.

At 6:50 p.m., Vice-Mayor Hunt moved to recess the closed motion to return to the formal meeting, noting that the closed session would continue at the end of the formal meeting. This motion was seconded by Councilman Smith and carried unanimously.

B. RESOLUTION NO. 14-229 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A DEVELOPMENT AGREEMENT WITH PUBLIC INTEREST PROJECTS FOR THE DEVELOPMENT OF WORKFORCE HOUSING AT 56 S. LEXINGTON AVENUE

Community Development Director Jeff Staudinger said that this is the consideration of a resolution authorizing the Mayor to enter into a development agreement between the City of Asheville and Public Interest Projects (PIP) for the development of workforce housing at 56 S. Lexington Avenue.

Included in the November, 2008 development agreement for the 51 Biltmore parking structure was the acknowledgement of a Phase 2 process, in which "PIP intends to design and construct a combination of mixed use and multi-family housing." It was also stated that prior to Phase II, the blank street-side facades of the parking garage would likely need to be mitigated.

The City and PIP knew at that time that development of the parcel under PIP's control would have challenges, especially because of the narrow site (about 30- 35 feet, from sidewalk to the façade of the parking garage), with the need to extend the sidewalk to a ten foot width. The width issue was further exacerbated by the presence of overhead utility lines within that 35 foot width. As PIP explored the issue of development there, they became aware of OSHA regulations that prohibited the construction of the new building within 10 feet of the lines. Development of the site therefore requires that the power lines be buried underground. The cost of this is estimated to be $250,000.

The City explored in turn the issues of mitigation of the blank façade. A working estimate of $100,000 was developed for the installation of public art or landscaping at a sufficient scale to address the length of Lexington Street at that location. Any public sector installation would also have concurrent maintenance expenses, which staff estimates at $50,000 over the ten-year life of the installation.

PIP has determined that it wishes to exercise its intention to build mixed-use and workforce housing on this site. It plans to construct a total of 32 workforce housing units, a mixture of one and two-bedroom units, all of which would be rented at or below the City's workforce housing rental standards. Five of the units would be suitable for live-work occupancy. One commercial space would also be constructed.

In order to achieve workforce rents, PIP needs to adjust both its investment return expectations and seek City assistance in the project. The assistance sought at this time is an agreement with the City to bury the power lines to enable project construction.

The City may provide this assistance via Downtown Development Agreement, pursuant to N.C.G.S. § 160A-458.3. This statute authorizes such an agreement when the City Council finds and determines that the Project is likely to have a significant effect on the continued revitalization of the Central Business District of the City in the form of increasing the property tax base of the City and serving as a catalyst for further development in the downtown area. Staff has determined that the proposed project meets these criteria by increasing the tax base by an estimated $4- $5 million. Additional benefits of the project include:

- 32 new workforce housing units;
- Model "locational efficient" housing, in line with the recommendations of the 2011 Center for Neighborhood Technology report;
- It will provide significant employment in its construction.

Pros:

- The project will create 32 units of workforce housing in the most locationally efficient area of the City- its downtown;
- The project will provide significant construction employment;
- The project will increase the City's taxable property by an estimated $4 million.

Cons:

- The developer needs to find sufficient equity and financing to construct the project. However, the developer's track record is strong in this regard.

The estimated cost of the City's share of this project is $250,000, which would be sourced from the existing FY 2014-15 EDCIP budget. At an anticipated taxable value of $4 million, the annual City property tax at current rates would be $18,400. The City's investment would conservatively be recouped through taxes alone in 13.5 years. Additionally, the project would result in avoided costs of approximately $100,000 for the installation and maintenance of the blank-wall façade mitigation project. Taking that into account, the City's investment would be conservatively recouped through taxes in 8 years.

Staff recommends that Council approve a resolution that would authorize the development and execution of a Downtown Development Agreement between the City of Asheville and Public Interest Projects or their subsidiary for 56 S. Lexington Avenue.

In response to Councilwoman Wisler, Mr. Staudinger said that there is a guarantee that if the project is not built, then PIP will have to repay the City the $250,000. That provision will be in the development agreement.

In response to Councilman Smith, Mr. Staudinger said that any construction within that corridor is going to require the burying of the power lines.

Councilman Bothwell questioned if the burying of the power lines is new information since the construction of 51 Biltmore Avenue parking deck.

Mr. Pat Whalen, representing PIP, gave a brief track record of his projects in the downtown area, noting that over 23 years, they have built a number of projects in downtown - 5 were apartment buildings. In those 5 downtown buildings they creating 77 apartments, and 95% of those apartments have been, and remain, at the workforce housing rental rates. On this site, they are already losing 15% of the first and second floors because the City wants to increase the width of the sidewalk by 5 feet. With the City burying the power lines, it will allow them to do the workforce housing. He said that all of their rents will be substantially under the 120% of medium. He could not commit, however, to conventional affordable housing.

Mr. Whalen committed to working with the City in tweaking the Land Use Incentive Policy so we can generate more sustainable, workforce, and affordable housing in the community.

Councilman Smith explained the federal term "workforce housing" means that people who are making between 80-120% of the area medium income will spend no more than 30% of their income on housing.

In response to Councilman Smith, Mr. Whalen said that parking spots are not guaranteed.

Mr. Whalen said that not having the lines buried has been the biggest impediment for them moving forward. He thought they could work out the power line issue as they went along, but OSHA requirements say they can't even start construction until the lines are buried.

In response to Vice-Mayor Hunt, Mr. Whalen hoped that they can integrate car-sharing into the project.

When Councilwoman Wisler asked if Mr. Whalen would commit to workforce housing for a certain period of time, Mr. Whalen said that if they don't do workforce housing, they will have to return the $250,000 to the City per the draft development agreement. He reiterated that of their 77 downtown units, 95% have been workforce housing for a number of years. He would like to come back to Council and work through the Land Use Incentive Policy and at that time he will agree to a term. He asked that Council trust him based on his history.

Councilman Bothwell felt that PIP should have known they couldn't build under a power line. He also felt the City overpaid for the property and could not support the development agreement.

Councilman Pelly recalled that a developer on Sardis Road asked Council to trust him as well when he would not commit to maintaining workforce housing. That developer asked for a continuance and will be back before Council. On this particular project, however, he felt PIP has a terrific track record in serving our City, especially downtown, and he would support the agreement.

Councilman Smith said that the City will have to spend $250,000 to bury the power lines whether it's for PIP or some other developer. PIP has built in the downtown area has has kept the apartments affordable, so he would support the agreement.

Ms. Lauren Baucus was confused on what constitutes workforce housing in Asheville.

Ms. Clare Hanrahan hoped that the terms "affordable housing" and "workforce housing" are defined clearly so that people understand.

Mr. David Nutter hoped that Council would approve the development agreement.

Mr. Jason Humes felt that goals should be accomplished voluntarily without forced aggression or coercion.

Councilman Smith noted that City Council will be holding a worksession on affordable housing/community development on October 14, 2014, at 3:30 p.m. in the First Floor North Conference Room of City Hall.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 14-229. This motion was seconded by Councilman Pelly and carried on a 6-1 vote, with Councilman Bothwell voting "no."

RESOLUTION BOOK NO. 36 - PAGE 382

VI. NEW BUSINESS:

92

A. RESOLUTION NO. 14-230 - RESOLUTION AUTHORIZING THE CITY TO APPLY TO THE FEDERAL AVIATION ADMINISTRATION FOR APPROVAL OF A PLAN OF REORGANIZATION REGARDING THE ASHEVILLE REGIONAL AIRPORT, AND TO TRANSFER PROPERTY AND OPERATIONAL RESPONSIBILITY FOR THE AIRPORT TO THE GREATER ASHEVILLE REGIONAL AIRPORT AUTHORITY

Mayor Manheimer said that this is the consideration of a resolution authorizing the City to: (a) prepare and submit an application to the Federal Aviation Administration (FAA) recognize the Greater Asheville Regional Airport Authority (GARAA) as the operator and sponsor of the Asheville Regional Airport; (b) proceed with the transfer of the Airport property to GARAA; and (c) proceed with the transfer of operational responsibility for the Airport to GARAA.

In the late 1950's and early 1960's, the City of Asheville, with FAA assistance, acquired the property that is now the Asheville Regional Airport. The City operated the Airport as a City department until 1980. In 1980, the Asheville Regional Airport Authority (Authority) was established by interlocal agreement between the City and Buncombe County. Pursuant to that agreement, the City and County gave the Authority broad power to operate the Airport, including the power to hire personnel and improve and lease property. An agency established by interlocal agreement cannot own real property, so the City leased the Airport property to the Authority. The initial terms of the interlocal agreement and the lease were for 30 years. In 2008, the interlocal agreement and the lease were amended and restated, and renewed for an additional 30 years.

Over the years and after the establishment of the Authority, property has been acquired with Authority/FAA funds and titled in the City's name, thereby expanding the lease; some Airport property no longer needed for Airport use has been sold or, as in the case of the WNC Agricultural Center, leased. Each of these conveyances required FAA approval in the form of a release. Most recently, the FAA approved the conveyance in fee of the WNCAC property to the State, and the City is in the process of completing that transaction.

FAA regulations require that public airports be sponsored by a governmental agency that posses certain powers that are important for purposes of airport operation, like the ability to own property, obtain financing, and exercise the power of eminent domain. Because the Authority did not possess these powers, the City and Buncombe County were (and still are) the co-sponsors of the Airport for FAA purposes. Among other things, the City and County sign all grant assurances when the Airport receives federal funds.

Beginning in about 2007-08, the Authority began exploring the possibility of becoming an independent Authority, with full powers of operation and FAA recognition. This led to the enactment, in 2012, of a local act by the NC General Assembly (SL 2012-121 (technical amendment in sec. 69.1 of SL 2012-194; herein "Airport Law"). The Airport Law established GARAA as a "special purpose" government, and provided for the City and County and the Authority to transfer operational responsibility for the Airport to GARAA, and to transfer ownership of all real and personal property (and any liabilities or obligations) to GARAA. Pursuant to federal law, and as provided in the Airport Law, this reorganization and transfer of property is subject to approval by the FAA.

Following enactment of the Airport Law, discussions involving the City and GARAA (including their legal representatives and consultants), and the FAA, revealed the need for clarifications to the Airport Law. These clarifications were enacted during the 2014 session of the General Assembly (SL 2014-52), and the City and the Authority are now poised to seek the FAA's approval of the plan of reorganization provided in the Airport Law (as amended), and the recognition of GARAA as the sponsor of the Airport. Buncombe County adopted a resolution to this effect in February of 2014.

In addition to approving of the change in sponsorship, the resolution does three things: (1) authorizes the City, through the City Manager, City Attorney, or a designee, to work with GARAA to prepare and submit appropriate documentation to the FAA for approval of the reorganization of the Airport governance structure, as set out in the Airport Law (as amended), and FAA recognition of GARAA as the sponsor of the Airport; (2) authorizes the City to transfer all real and personal property used for Airport purposes (and associated obligations and liabilities) to GARAA, subject to any required FAA approval; and (3) authorizes the City to transfer operational responsibility for the Airport to GARAA. Since the Authority currently operates the Airport, (3) may be technically unnecessary, but would signify to the FAA the City's intent to transfer complete control of the Airport. As a practical matter, the Airport staff will coordinate the approval process with the FAA, but it is important that the City participate actively, and facilitate where possible.

Pros:

- Allows GARAA to operate as an independent authority, and simplifies the governance structure.
- Relieves the City of operational and financial responsibility for the Airport
- Complies with a legislative directive

Cons:

- City loses a degree of influence over the direction of a regional economic asset in that the interlocal agreement will be superseded. However, since 1980, the Authority has set the policy direction for the Airport, and controlled operations. The City will retain two appointments on the GARAA board.
- City relinquishes ownership of property, but property reverts to City if Airport operations cease or if GARAA is dissolved.

[Note: under FAA regulations, property that was acquired for airport purposes must be used for that purpose. Any sale or disposition must be approved by the FAA, and the proceeds from any sale must be used to reimburse the FAA in proportion to its initial contribution (usually 90%) or reinvested at the Airport.]

The transfer of ownership has no direct impact on municipal expenditures and revenues.

Adoption of the resolution is recommended. At this time, it is not recommended that the interlocal agreement establishing the Authority be dissolved, or that the City's lease to the Authority be terminated. When the transition is complete, Council should take appropriate action to wind down the Authority's operations.

When Mr. Warren Furmann asked if the GARAA is a County or State authority, Mayor Manheimer said that it is an independent authority created by the State but recognized by the FAA.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 14-230. This motion was seconded by Vice-Mayor Hunt and carried unanimously.

RESOLUTION BOOK NO. 36 – PAGE 383

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Jimmy Bright, representing the Tarheel Challenge Academy Program, explained the program for at Risk Kids from the ages of 16, 17 and 18 years of age. The program is sponsored by the N. C. National Guard and is a quasi-military program for at-risk high school dropouts. The

mission of the Academy is to redirect the efforts of young adults who have had trouble succeeding in the normal high school environment, and give them the skills and attitude to become productive citizens in their communities. Three thousand, nine hundred and thirty-eight (3,938) proud young men and women have graduated from the program.

Mr. Warren Furmann offered his service to serve on a graffiti oversight committee.

Mr. Jonathan Robert urged the City Council to have Police Chief Anderson stop the video surveillance of public gatherings and destroy the tapes. This activity is counter to the Civil Liberties resolution City Council adopted. If City Council does not accomplish this, he will use the ACLU and file a federal injunction.

Ms. Clare Hanrahan agreed with Mr. Robert and asked City Council not film public gatherings.

Mr. Todd Stimson passed out a brochure regarding Cannabinoids and urged City Council to educate the public about medical use of cannabis for cancer patients.

Mr. Rodney Jones was concerned about the Pritchard Park warden not allowing the public to use the electrical outlets to charge their cell phones or wheelchairs. He also asked that the light above the chess table be replaced.

Ms. Judy Strong spoke about the City's fiscal responsibility and questioned why the Asheville Art Museum lease and the Diana Wortham leases were not signed yet.

Mr. J.J. Hicks urged Council to work towards legalizing cannabis for medical and residential use. Other states are taking away our tourist dollars.

Councilman Bothwell said that he worked hard to get the Civil Liberties resolution adopted by Council. He would work to get the video surveillance at public gatherings stopped and request a process to destroy the video surveillance tapes if they are not being used for a criminal investigation.

At the request of Councilman Smith, City Manager Jackson said that he would work with the City Attorney's Office to provide a recommendation to the Police Department regarding how their policy should align with the Civil Liberties resolution adopted by City Council.

Closed Session Continued

At 8:02 p.m., Councilwoman Wisler moved to continue the closed session. This motion was seconded by Councilman Smith and carried unanimously.

At 8:19 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:19 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – October 14, 2014 - 3:30 p.m.

Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Affordable Housing/Community Development Worksession

Assistant Community & Economic Development Director said that the purpose of this report is to receive City Council's feedback on a draft Comprehensive Affordable Housing Strategy.

The Comprehensive Affordable Housing Strategy (CAHS) is a next generation housing policy framework, combined with an implementation toolkit, that will focus on:

- Strengthening the city's affordable housing programs for low- and moderate-income households;
- Continuing the development of a housing crisis management system to prevent and end homelessness;
- Expanding housing opportunities for middle-income households;
- Exploring innovative approaches to providing additional housing and a broader range of housing options, particularly for housing needs not being met by the market;
- Prioritizing action items that provide the highest return on investment as measured by number of affordable units, percentage of permanently affordable units, contributions to long-term economic and tax base growth, and sustainability.

The CAHS is envisioned as a "living document" that will guide ongoing work related to housing policies and programs. In other words, adoption of the strategy will not signal the end of the City's housing-focused discussions, but rather inform annual work program priorities aimed at continual monitoring, evaluation and action to strengthen and expand housing opportunities through a variety of tools and coordinated initiatives.

Purpose of Strategy (1) Strengthen the City's affordable housing programs for low- and moderate-income households; (2) Continue the development of a housing crisis management system to prevent and end homelessness; (3) Expand housing opportunities for middle-income households; (4) Explore innovative approaches to providing additional housing and a broader range of housing options, particularly for housing needs not being met by the market; and (5) Prioritize action items that provide the highest return on investment as measured by number of affordable units, percentage of permanently affordable units, contributions to long-term economic and tax base growth, and sustainability.

City Council is being asked to (1) Provide feedback on the draft goals and assumptions outlined in the framework; (2) Consider an affordable housing goal for Fiscal Year 2014-2015; (3) Identify short- and long-term priorities that need to be incorporated into the city's work plan; and (4) Provide direction on the prioritization of action items, projects and policy recommendations. Staff will edit the strategy based on Council's direction today and bring it back for adoption.

After he explained what affordable housing is, he explained that low wages (1) Retail Trade and Accommodation & Food Services have provided more than 26% of all new jobs created in past year; and (2) Jobs paying an average annual wage of less than $25,000 comprise 31% of our workforce.

Housing costs - a high percentage of households are "cost burdened" (i.e. pay more than 30% of their income for housing costs).

The Affordable Housing Scorecard findings are for the City of Asheville (1) is outperforming annual targets for affordable housing production and assistance; (2) is outperforming all four comparison cities: Greenville, SC, Wilmington, NC, Chapel Hill, NC and Durham, NC, is using its state and federal grant dollars efficiently; (3) Housing Trust Fund and rebate programs have been very effective at assisting developers to make affordable housing development feasible; and (4) has the political support as well as institutional/organizational capacity to tackle the affordable housing challenge. The local community development corporation, Mountain Housing Opportunities, has efficiently and effectively utilized Housing Trust funds, LIHTCs, HOME funds, NeighborWorks funds, and other funding to produce affordable rental and for sale housing.

Affordable Housing Scorecard recommendations are: (1) Permanent affordability; (2) Housing Trust Fund and dedicated funding for affordable housing; (3) Identify opportunity areas; (4) Neighborhood Planning; (5) Economic Development and Workforce Development; (6) Continue and expand affordable housing coordination with Buncombe County ; and (7) Expand affordable housing network.

Assumptions are (1) Build on Asheville's existing policy context; (2) There are no single solutions; (3) Low- to middle-income focus; (4) Continued focus on greatest need: affordable rental apartments; (5) Only considers land in the city's service area; (6) Increase supply through infill and redevelopment; (7) Support strong and diverse neighborhoods; (8) Housing near to jobs, schools and services enhances affordability; and (9) Asheville needs to grow "in and up."

Our goals are: (1) **Strengthen Our Current Commitments** - Reach or exceed Asheville's goals to serve people of in all life stages, incomes and abilities; adopt production goals that are ambitious and achievable; (2) **Maintain the Middle** - Provide greater variety of housing choices for middle-income families and for Asheville's workforce; (3) **Create Diverse Housing Choices in Every Neighborhood** - Facilitate the creation of a variety of housing options in every part of the city, including existing single-family neighborhoods and commercial districts; (4) **Create Vibrant Neighborhoods** - Foster mixed-income, mixed-use, highly walkable neighborhoods in amenity rich locations (e.g., close to transit, parks, open space and trails, employment, retail services, etc.) to maximize locational efficiency; and (5) **Strengthen Partnerships and Leverage Resources** - Strengthen current partnerships and explore creative new public-private-partnerships to address our community's housing challenges.

It was the consensus that the goals outlined by Mr. Staudinger are correct and reflective of City Council's vision.

Action items include (1) Initiatives underway (a) UDO Wording Amendment to allow housing density in commercial districts; (b) Affordable Housing Trust Fund Cycle for Fiscal Year 2014-2015; (c) Economic Development Capital Improvement Plan (EDCIP); (d) Eagle Market Place, Hudson Hills Developments; (e) Lee Walker Heights redevelopment project; (f) CDBG and HOME funding cycles; (g) Deaverview Road site disposition; and (h) Redevelopment of city-owned property initiative – Hilliard Avenue site; (2) Foundations for action (a) Adoption of a housing production goal for Fiscal Year 2014-2015; (b) Comprehensive Housing Market Analysis; (c) 2015-2019 Consolidated Plan for CDBG and HOME; and (d) Revisit production goal for Fiscal Year 2015-2016; and (3) Mid-term policy initiatives (a) Adopt Affordable Housing Policy Guidelines for Fiscal Year 2015-2016; (b) Comprehensive Recommendations on City Affordable Housing Tools for Fiscal Year 2015-2016; (c) Comprehensive Regulatory Analysis and Recommendations; and (d) Adoption of achievable and aspirational long-term goal to substantially impact affordable housing needs.

Staff is seeking your policy guidance on key questions as we continue to build the work program - (1) Are we ready to strategically prioritize the relocation of city facilities to pursue mixed-use project and affordable housing developments? Staff sees this as a high priority; (2) Are we ready to consider UDO and other regulatory changes to increase housing density and otherwise encourage affordable housing production; (3) Are we ready to focus financial and staff resources to maximize the return on housing production; (4) What are the attributes we seek in development partners; (5) Are we ready to move to adopt standards to guide City resource contributions to affordable housing developments; (6) Should we strengthen incentives that will result in affordable and "workforce" housing development in our Innovation Districts and other locationally efficient areas in the City; (7) Are we ready to consider strategies to prevent gentrification such as community land trusts, live-work housing, cooperative housing and strategic land banking; (8) Are we ready to move forward with policy decisions regarding the impact of short-term rentals on affordable housing, as soon as sufficient data and evidence is available to guide that policy; (9) Have we captured the right action items; (10) Are there other projects and initiatives that need to be added; and (11) What additional policy direction would you give us now as we develop the mid-term policy initiatives?

Vice-Mayor Hunt said from a capital planning standpoint, he was open to programming capital money in future years to address the lowest two income levels. He also supported revisiting the 2025 Comprehensive Land Use Plan to see how it and our Unified Development Ordinance relate to affordability. Regarding the community land trust, he felt if it is going to be effective then it should be inspired by the private sector

Councilwoman Wisler struggled on the question of balancing spending $1 Million to benefit 100 families vs. spending $1 Million to benefit a large group of people, i.e., increasing bus service.

Mayor Manheimer wanted to leverage dollars to get the greater change in trying to end the cycle of poverty.

Councilman Smith felt that affordable housing is a top priority for this City Council. He felt we may be missing the residential density in commercial districts. As we are trying to bring more partners forward, having that sort of voluntary affordable housing inclusion on those corridors invites private sector developers to be there in a way that some of the other programs don't. Also, the reform of our Land Use Incentive Grant is underway and that will also invite partners to join the City. The 2025 Comprehensive Land Use Plan revisit will look at different ways of approaching our urban landscape.

Councilman Davis was frustrated that employers who pay higher wages are locating just outside the bus range. City Council needs to find a way to incentivize higher-wage jobs being located closer to our transit lines and trying to find ways to raise people's ability to get those jobs.

Councilman Pelly supported us allowing more density in residential neighborhoods only if there is an increased percentage of amenities. He also felt we should look for ways to incentivize developers to want to provide affordable units.

Councilman Bothwell wondered how strategies from gentrification studies worked in other cities.

After Council members discussed the policy guidance questions, it was the consensus of Council that staff continue to proceed in this direction.

Mayor Manheimer said that there will be ample opportunity for community input into this process.

Mr. Staudinger said that staff will follow-up on answers not readily available, i.e., statistics of workforce vs. affordable; and studies of how the interplay of transportation and housing work in other cities.

Next steps is that (1) staff to report on progress regularly to Council committees; (2) staff to incorporate feedback from today into strategy and action items; and (3) City Council to adopt strategy and work program for next 12 months.

Mayor Manheimer adjourned the worksession at 4:34 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Marc W. Hunt; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; Councilwoman Gwen C. Wisler; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

Mayor Manheimer said that earlier today there was an official recognition of the Sister City delegation from Valladolid, Mexico, and a proclamation proclaiming October 2014 as "Sister City Month."

City Manager Jackson was pleased to introduce Mr. Terrell Mwetta, Senior at A.C. Reynolds High School, who is working on his civics project.

A. RECOGNITION OF ASHEVILLE TOURISTS - 2014 SOUTH ATLANTIC LEAGUE CHAMPIONS

Mayor Manheimer was pleased to recognize the Asheville Tourists for their winning the 2014 South Atlantic League Champions. Mr. Brian DeWine, President of the Asheville Tourists, was present to thank the City of Asheville for being a wonderful partner for several years and this particular group of City Council members who have gone above and beyond to support them.

B. PROCLAMATION PROCLAIMING OCTOBER 24, 2014, AS "FOOD DAY"

Mayor Manheimer read the proclamation proclaiming October 24. 2014, as "Food Day" in the City of Asheville. She presented the proclamation to Ms. Melanie Brethauer, representing the Asheville-Buncombe Food Policy Council, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 23, 2014

B. RESOLUTION NO. 14-231 - RESOLUTION ADOPTING A POLICY TO NAME CREEKS AND STREAMS IN ASHEVILLE

Summary: The consideration of a resolution adopting a policy that outlines the City's community partnership on the naming of creeks and streams.

In August of this year, RiverLink approached City staff with a request to sign a U.S. Geological Survey naming proposal form. City staff noted that while Council had recently adopted policy on naming of City owned buildings and other assets, no policy direction exists to support the naming of natural bodies such as creeks and streams. Staff now asks for Council guidance.

The Asheville Area Riverfront Redevelopment Commission, reviewed this request on August 11, 2014, and voted unanimously to approve the following motion: "We advise Council to adopt a policy that outlines the process for naming of creeks and streams in Asheville. A suggested process that can be used as policy ... with this resolution." In addition, the Planning and Economic Development Committee reviewed the item at their September 16, 2014, meeting and voiced support for the policy and asked that this item be moved to Council's consent agenda.

Pros:

- Adopting this policy provides guidance for staff when citizens or community groups are interested in naming a creek in their community
- Supporting this community-driven effort further develops partnerships between the City of Asheville, neighborhood and business organizations, City advisory boards, and non-governmental organizations

Con:

- None identified

City staff recommends City Council adopt a resolution outlining the policy for naming of creeks and streams.

RESOLUTION BOOK NO. 36 - PAGE 384

C. RESOLUTION NO. 14-232 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A U.S. GEOLOGICAL SURVEY APPLICATION TO NAME A CREEK IN WEST ASHEVILLE "PENLAND CREEK"
